Pilgrim's Pride Reports Q3 Net Sales of \$2.78 Billion, Operating Income of \$188 Million and GAAP EPS of \$0.44, a 267% increase over the \$0.12 in Q3 2018

GREELEY, Colo., October 30, 2019 (GLOBE NEWSWIRE) - Pilgrim's Pride Corporation (NASDAQ: PPC) reports third quarter 2019 financial results.

Third Quarter Highlights

- Net Sales of \$2.78 billion.
- Net Income of \$109.8 million.
- Operating Income margins of 6.5% in U.S., 11.5% in Mexico and 4.9% in Europe operations, respectively.
- Adjusted EBITDA of \$258.4 million (or a 9.3% margin), and Adjusted EPS of \$0.45.
- U.S portfolio generated an improved performance due to our differentiated strategy. Demand in less commoditized segment remained strong while pure commodity was significantly better year on year but weaker than last quarter. We continue to evolve our well-balanced portfolio to further differentiate our products and brands, strengthen Key Customer relationships, and deliver operational improvements.
- Q3 in Mexico was in-line with normal seasonality and stronger than last year. Growth in our branded products and prepared foods continue to create portfolio differentiation in the region.
- European operations continuing to mitigate the impact of input cost challenges and already achieved better results than last year. Addition of Tulip team will further enhance our position as a leading global player by expanding our portfolio of prepared foods and brands in the UK, and present opportunities for synergies.

“After a challenging Q3 2018 within the U.S. pure commodity market, conditions during Q3 of this year were much improved. The environment in non-commodity chicken was in-line with seasonality and remained strong, driven by demand from retailers and QSRs. We remain committed to our Key Customer strategy, which is the basis for our growth. Revenues from Key Customers have more than doubled over the past eight years, and we will continue to support their growth. We are investing to further differentiate our portfolio, and increase our capacities and capabilities to meet customer expectations. We expect value added, differentiated products to account for a significantly larger portion of our total results over the next few years as we continue to reduce our mix of more volatile commodity sales and improve our margin profile,” stated Jayson Penn, Chief Executive Officer of Pilgrim's.

“Mexico was in-line with normal seasonality and significantly better than last year. We expect to generate improved performance for the remainder of 2019 as demand continues to grow. Our Prepared Foods have continued to increase at a double digit rate and are generating great results under both premium Pilgrim’s and Del Dia brands to drive the evolution of our Mexican portfolio towards more differentiated, higher-value products and margin expansion.”

“Our European operations have continued to make progress in mitigating input cost challenges, and are already generating better results throughout Q3. Despite seasonally cooler weather, improvements in operational efficiencies, and better integration of input costs into customer pricing models drove the improvement in performance. We expect a continuation of the momentum into Q4.”

“The addition of the Tulip team further enhances our position as a leading global player by expanding our portfolio of prepared foods and brands while strengthening our leadership position in the UK market. It aligns with our strategic priorities as we continue growing our geographical footprint and extending our global reach into attractive new markets.”

Selected Financial Information

(Unaudited)

“EBITDA” is defined as the sum of net income (loss) plus interest, taxes, depreciation and amortization. “Adjusted EBITDA” is calculated by adding to EBITDA certain items of expense and deducting from EBITDA certain items of income that we believe are not indicative of our ongoing operating performance consisting of: (i) income (loss) attributable to non-controlling interests, (ii) restructuring charges, (iii) reorganization items, (iv) losses on early extinguishment of debt and (v) foreign currency transaction losses (gains). EBITDA is presented because it is used by management and we believe it is frequently used by securities analysts, investors and other interested parties, in addition to and not in lieu of results prepared in conformity with accounting principles generally accepted in the US (“GAAP”), to compare the performance of companies. We believe investors would be interested in our Adjusted EBITDA because this is how our management analyzes EBITDA. The Company also believes that Adjusted EBITDA, in combination with the Company’s financial results calculated in accordance with GAAP, provides investors with additional perspective regarding the impact of certain significant items on EBITDA and facilitates a more direct comparison of its performance with its competitors. EBITDA and Adjusted EBITDA are not measurements of financial performance under GAAP. They should not be considered as an alternative to cash flow from operating activities or as a measure of liquidity or an alternative to net income as indicators of our operating performance or any other measures of performance derived in accordance with GAAP.
