Pilgrim's Pride Ends Fiscal Year 2017 with Net Sales of \$10.77 Billion, Operating Income of 10% and Record GAAP EPS of \$2.79

GREELEY, Colo., February 14, 2018 (GLOBE NEWSWIRE) - Pilgrim's Pride Corporation (NASDAQ: PPC) reports fourth quarter and year-end 2017 financial results.

2017 Highlights

- Adjusted Operating Income margins of 11.8% in U.S., 10.6% in Mexico and 3.9% in Europe operations, respectively.
- Adjusted EBITDA of \$1.39 billion (or a 12.9% margin and +54.3% versus last year, excluding Moy Park).
- Acquisition of Moy Park positions us as the global leader in chicken and chicken-based Prepared Foods, and aligns with our strategic priorities while providing a strong platform for future growth.
- GNP integration is progressing well; operations and profitability significantly improved with synergies captured ahead of plan, and are already on par with legacy operations.
- Completion of \$141MM in strategic capital investments, including the Sanford, NC organic tray-pack facility and Prepared Foods Line, further increasing product portfolio differentiation, strengthening key customer relationships, and improving margin profile.

Fourth Quarter Results

- Consolidated numbers reflect Moy Park for the entire quarter and year, including historical data in accordance to U.S. GAAP.
- Net Sales of \$2.74 billion (+43.5% versus same quarter last year of \$1.91 billion, excluding Moy Park).
- Net Income of \$134.3 million and GAAP EPS of \$0.54.
- Adjusted Operating Income margins of 7.3% in U.S., 4.0% in Mexico and 5.0% in Europe operations, respectively, adjusted for non-recurring items related to weather events, Moy Park acquisition and Exchange Rate fluctuations.

(1) Reconciliations for non-GAAP measures are provided in subsequent sections within this release.

(2) Figures have been adjusted to include full-quarter and year of Moy Park, in accordance to U.S. GAAP.

“We generated strong, well-balanced consolidated performance in 2017. Our U.S. and Mexico operations were solid despite logistical challenges in Q4 due to the after-effects from natural events in Puerto Rico, Mexico and the U.S., while our newly acquired U.K. and continental Europe operations were consistent. The performance once again demonstrated the strength and diversity of our portfolio of bird sizes, and is what fundamentally differentiates us from the competition, giving us the potential to reduce volatility and generate higher margins over time. While small-bird and tray-pack have remained strong during Q4, conditions in the commodity markets declined in-line with seasonality but are already recovering well in the new year, indicating the continuation of chicken demand as the protein of choice in domestic and international markets. Facing significant challenges, we are very proud of our team members who had worked tirelessly to continue the operations of our facilities while assisting with rebuilding the local communities,” stated Bill Lovette, Chief Executive Officer of Pilgrim's.

“We completed the announced strategic capital investment improvements, including Sanford, NC and Moorefield, WV, which will diversify our portfolio by improving mix, reduce the impact of commodity markets, and further raise our margin profile. The Sanford conversion from commodity to organic tray-pack and the acquisition of GNP bring us leadership in premium-branded and NAE chickens while fulfilling our strategy of creating a portfolio of differentiated products to key customers.”

“We are continuing to improve the performance of the GNP operations. Margins have substantially increased since the acquisition just over a year ago and have reached parity with our legacy business during Q4. The integration is going well and we have extracted significant operating and product synergies, and are also preparing to expand the distribution of our premium Just Bare Brand. Combined with the success in improving the profitability of our acquired Mexican operations, we believe we have the methodology and the experienced personnel required to grow the operating and financial performance of our U.K. and continental Europe business.”

Selected Financial Information

(Unaudited)

“EBITDA” is defined as the sum of net income (loss) plus interest, taxes, depreciation and amortization. “Adjusted EBITDA” is calculated by adding to EBITDA certain items of expense and deducting from EBITDA certain items of income that we believe are not indicative of our ongoing operating performance consisting of: (i) income (loss) attributable to non-controlling interests, (ii) restructuring charges, (iii) reorganization items, (iv) losses on early extinguishment of debt and (v) foreign currency transaction losses (gains). EBITDA is presented because it is used by management and we believe it is frequently used by securities analysts, investors and other interested parties, in addition to and not in lieu of results prepared in conformity with accounting principles generally accepted in the US (“GAAP”), to compare the performance of companies. We believe investors would be interested in our Adjusted EBITDA because this is how our management analyzes EBITDA. The Company also believes that Adjusted EBITDA, in combination with the Company’s financial results calculated in accordance with GAAP, provides investors with additional perspective regarding the impact of certain significant items on EBITDA and facilitates a more direct comparison of its performance with its competitors. EBITDA and Adjusted EBITDA are not measurements of financial performance under GAAP. They should not be considered as an alternative to cash flow from operating activities or as a measure of liquidity or an alternative to net income as indicators of our operating performance or any other measures of performance derived in accordance with GAAP.
