“Our global portfolio delivered significant year-over-year profitability growth. We remained disciplined in the execution of our strategies, focusing on what we can control and continuing to expand our relationships with Key Customers, elevating our performance as market fundamentals became increasingly attractive,” said Fabio Sandri, President and Chief Executive Officer.

In the U.S., Big Bird realized benefits from enhanced commodity cutout values, further production efficiencies and lower input costs; Case Ready and Small Bird delivered above market growth with Key Customers through differentiated and customized offerings; and Prepared Foods increased its marketplace presence through innovation of branded, value-added items across retail and food service.

“Our diversified U.S. portfolio enabled our business to capture market upside as conditions evolved in the commodity market. At the same time, we also worked in partnership with our Key Customers to cultivate demand through promotional activity and innovation, further creating value for our customers and consumers alike. We also continued to strengthen our quality and service through operational excellence,” remarked Sandri.

In Europe, consumer sentiment improved as wage growth surpassed inflation. Given this environment, the team optimized mix with Key Customers and drove branded offerings. Additionally, the team identified and implemented our plan to optimize our manufacturing network and increase efficiencies.

“Europe’s performance demonstrates the robust nature of our strategies and agility of our team. Our diversified portfolio allowed us to rapidly adjust to consumer preferences and meet Key Customer needs. These efforts were further amplified by continued operational excellence to improve production efficiencies,” said Sandri.

Mexico improved given continued balance in supply and demand fundamentals in the commodity market, growth with Key Customers across retail and foodservice, and increased momentum of branded offerings in both Fresh and Prepared. Investments in operational excellence to enhance biosecurity in live operations and build capacity also remained on schedule.

“Mexico continues to drive growth above market for our Key Customers and branded offerings. Given our investments to expand production, we have an opportunity to further develop our marketplace presence and diversify our portfolio,” said Sandri.

The ramp up of our recently completed protein conversion plant in South Georgia remains on schedule and continues to cultivate additional business from Key Customers.

“Our investment in protein conversion reinforces our strategies to drive profitable growth and mitigates our operational risk. We will continue to explore opportunities to strengthen our business and further diversify our portfolio,” remarked Sandri.

**PILGRIM'S PRIDE CORPORATION**  
**Non-GAAP Financial Measures Reconciliation**  
**(Unaudited)**

“EBITDA” is defined as the sum of net income plus interest, taxes, depreciation and amortization. “Adjusted EBITDA” is calculated by adding to EBITDA certain items of expense and deducting from EBITDA certain items of income that we believe are not indicative of our ongoing operating performance consisting of: (1) foreign currency transaction losses (gains), (2) costs related to litigation settlements, (3) restructuring activities losses, (4) property insurance recoveries for property damage losses, and (5) net income attributable to noncontrolling interests. EBITDA is presented because it is used by management and we believe it is frequently used by securities analysts, investors and other interested parties, in addition to and not in lieu of results prepared in conformity with accounting principles generally accepted in the U.S. (“U.S. GAAP”), to compare the performance of companies. We believe investors would be interested in our Adjusted EBITDA because this is how our management analyzes EBITDA applicable to continuing operations. The Company also believes that Adjusted EBITDA, in combination with the Company’s financial results calculated in accordance with U.S. GAAP, provides investors with additional perspective regarding the impact of certain significant items on EBITDA and facilitates a more direct comparison of its performance with its competitors. EBITDA and Adjusted EBITDA are not measurements of financial performance under U.S. GAAP. EBITDA and Adjusted EBITDA have limitations as analytical tools and should not be considered in isolation or as substitutes for an analysis of our results as reported under U.S. GAAP. In addition, other companies in our industry may calculate these measures differently limiting their usefulness as a comparative measure. Because of these limitations, EBITDA and Adjusted EBITDA should not be considered as an alternative to net income as indicators of our operating performance or any other measures of performance derived in accordance with U.S. GAAP. These limitations should be compensated for by relying primarily on our U.S. GAAP results and using EBITDA and Adjusted EBITDA only on a supplemental basis.

(a) Interest expense, net, consists of interest expense less interest income.

(b) Prior to April 1, 2024, the Company measures the financial statements of its Mexico reportable segment as if the U.S. dollar were the functional currency. Accordingly, we remeasure assets and liabilities, other than nonmonetary assets, of the Mexico reportable segment at current exchange rates. We remeasure nonmonetary assets using the historical exchange rate in effect on the date of each asset’s acquisition. Currency exchange gains or losses resulting from these remeasurements were previously recognized in the line item *Foreign currency transaction losses (gains)* in the

Condensed Consolidated Statements of Income. Effective April 1, 2024, the Company changed the functional currency of its Mexico reportable segment from U.S. dollar to Mexican peso, which means all translation gains/losses on outstanding balances are now recognized in accumulated other comprehensive income. Transactional functional currency gains/losses are included in the line item *Foreign currency transaction losses (gains)* in the Condensed Consolidated Statements of Income.

- (c) This represents expenses recognized in anticipation of probable settlements in ongoing litigation.
- (d) Restructuring activities losses are related to costs incurred, such as severance, asset impairment, contract termination, and others, as part of multiple ongoing restructuring initiatives throughout our Europe reportable segment.
- (e) This represents property insurance recoveries primarily for the property damage losses incurred as a result of the tornado in Mayfield, KY in December 2021.

The summary unaudited consolidated income statement data for the twelve months ended June 30, 2024 (the LTM Period) have been calculated by subtracting the applicable unaudited consolidated income statement data for the six months ended June 25, 2023 from the sum of (1) the applicable audited consolidated income statement data for the year ended December 31, 2023 and (2) the applicable unaudited consolidated income statement data for the six months ended June 30, 2024.

(b) Prior to April 1, 2024, the Company measures the financial statements of its Mexico reportable segment as if the U.S. dollar were the functional currency. Accordingly, we remeasure assets and liabilities, other than nonmonetary assets, of the Mexico reportable segment at current exchange rates. We remeasure nonmonetary assets using the historical exchange rate in effect on the date of each asset's acquisition. Currency exchange gains or losses resulting from these remeasurements were previously recognized in the line item *Foreign currency transaction losses (gains)* in the Condensed Consolidated Statements of Income. Effective April 1, 2024, the Company changed the functional currency of its Mexico reportable segment from U.S. dollar to Mexican peso, which means all translation gains/losses on outstanding balances are now recognized in accumulated other comprehensive income. Transactional functional currency gains/losses are included in the line item *Foreign currency transaction losses (gains)* in the Condensed Consolidated Statements of Income.

(c) This represents expenses recognized in anticipation of probable settlements in ongoing litigation.

(d) Restructuring activities losses are related to costs incurred, such as severance, asset impairment, contract termination, and others, as part of multiple ongoing restructuring initiatives throughout our Europe reportable segment.

Adjusted net income attributable to Pilgrim's Pride Corporation ("Pilgrim's") is calculated by adding to Net income attributable to Pilgrim's certain items of expense and deducting from Net income attributable to Pilgrim's certain items of income, as shown below in the table. Adjusted net income attributable to Pilgrim's Pride Corporation per common diluted share is presented because it is used by management, and we believe it is frequently used by securities analysts, investors and other interested parties, in addition to and not in lieu of results prepared in conformity with U.S. GAAP, to compare the performance of companies. Management also believe that this non-U.S. GAAP financial measure, in combination with our financial results calculated in accordance with U.S. GAAP, provides investors with additional perspective regarding the impact of such charges on net income attributable to Pilgrim's Pride Corporation per common diluted share. Adjusted net income attributable to Pilgrim's Pride Corporation per common diluted share is not a measurement of financial performance under U.S. GAAP, has limitations as an analytical tool and should not be considered in isolation or as a substitute for an analysis of our results as reported under U.S. GAAP. Management believes that presentation of adjusted net income attributable to Pilgrim's provides useful supplemental information about our operating performance and enables comparison of our performance between periods because certain costs shown below are not indicative of our current operating performance.
