Cautionary Notes and Forward-Looking Statements

- Statements contained in this press release that state the intentions, plans, hopes, beliefs, anticipations, expectations or predictions of the future of Pilgrim's Pride Corporation and its management are considered forward-looking statements. Without limiting the foregoing, words such as "anticipates," "believes," "estimates," "expects," "intends," "may," "plans," "projects," "should," "targets," "will" and the negative thereof and similar words and expressions are intended to identify forward-looking statements. It is important to note that actual results could differ materially from those projected in such forward-looking statements. Factors that could cause actual results to differ materially from those projected in such forward-looking statements include: matters affecting the poultry industry generally; the ability to execute the Company's business plan to achieve desired cost savings and profitability; future pricing for feed ingredients and the Company's products; outbreaks of avian influenza or other diseases, either in Pilgrim's Pride's flocks or elsewhere, affecting its ability to conduct its operations and/or demand for its poultry products; contamination of Pilgrim's Pride's products, which has previously and can in the future lead to product liability claims and product recalls; exposure to risks related to product liability, product recalls, property damage and injuries to persons, for which insurance coverage is expensive, limited and potentially inadequate; management of cash resources; restrictions imposed by, and as a result of, Pilgrim's Pride's leverage; changes in laws or regulations affecting Pilgrim's Pride's operations or the application thereof; new immigration legislation or increased enforcement efforts in connection with existing immigration legislation that cause the costs of doing business to increase, cause Pilgrim's Pride to change the way in which it does business, or otherwise disrupt its operations; competitive factors and pricing pressures or the loss of one or more of Pilgrim's Pride's largest customers; currency exchange rate fluctuations, trade barriers, exchange controls, expropriation and other risks associated with foreign operations; disruptions in international markets and distribution channels, including, but not limited to, the impacts of the Russia-Ukraine conflict; the risk of cyber-attacks, natural disasters, power losses, unauthorized access, telecommunication failures, and other problems on our information systems; and the impact of uncertainties of litigation and other legal matters described in our most recent Form 10-K and Form 10-Q, including the In re Broiler Chicken Antitrust Litigation, as well as other risks described under "Risk Factors" in the Company's Annual Report on Form 10-K, Quarterly Reports on Form 10-Q and subsequent filings with the Securities and Exchange Commission. The forward looking statements in this release speak only as of the date hereof, and the Company undertakes no obligation to update any such statement after the date of this release, whether as a result of new information, future developments or otherwise, except as may be required by applicable law
- Actual results could differ materially from those projected in these forward-looking statements as a result of these factors, among others, many of which are beyond our control. In making these statements, we are not undertaking, and specifically decline to undertake, any obligation to address or update each or any factor in future filings or communications regarding our business or results, and we are not undertaking to address how any of these factors may have caused changes to information contained in previous filings or communications. Although we have attempted to list comprehensively these important cautionary risk factors, we must caution investors and others that other factors may in the future prove to be important and affecting our business or results of operations
- This presentation may include information that may be considered non-GAAP financial information as contemplated by SEC Regulation G, Rule 100, including EBITDA, Adjusted EBITDA, LTM EBITDA, Net Debt, Free Cash Flow, Adjusted EBITDA Margin and others. Accordingly, we have provided tables in the accompanying appendix and in our previous filings with the SEC that reconcile these measures to their corresponding GAAP-based measures and explain why these measures are useful to investors, which can be obtained from the Consolidated Statements of Income provided with our previous filings with the SEC. Our method of computation may or may not be comparable to other similarly titled measures used in filings with the SEC by other companies. See the consolidated statements of income and consolidated statements of cash flows included in our financial statements.

Third Quarter 2025 Financial Review

Main Indicators (\$MM)	Q3 2025	Q3 2024

* This is a non-GAAP measurement considered by management to be useful in understanding our results. Please see the appendix and most recent SEC financial filings for definition of this measurement and reconciliation to US GAAP.

- U.S.: Year-over-year (YoY) decrease in profitability driven by lower pricing late in the quarter partially offset by operational improvements across our business units; Europe: Slight decrease in profitability due to product mix and volume declines; Mexico: profitability declined slightly due to lower market prices and live production challenges.
- SG&A increased primarily due to an increase in legal settlements and defense costs
- Net interest increase due to lower YoY cash balance during Q3 2025, as a result of the \$2 Billion in dividends paid in 2025.
- Q3 2025 Adjusted EBITDA* YoY decrease driven primarily by lower pricing in Mexico and lower volume Europe.

Corn Dynamics

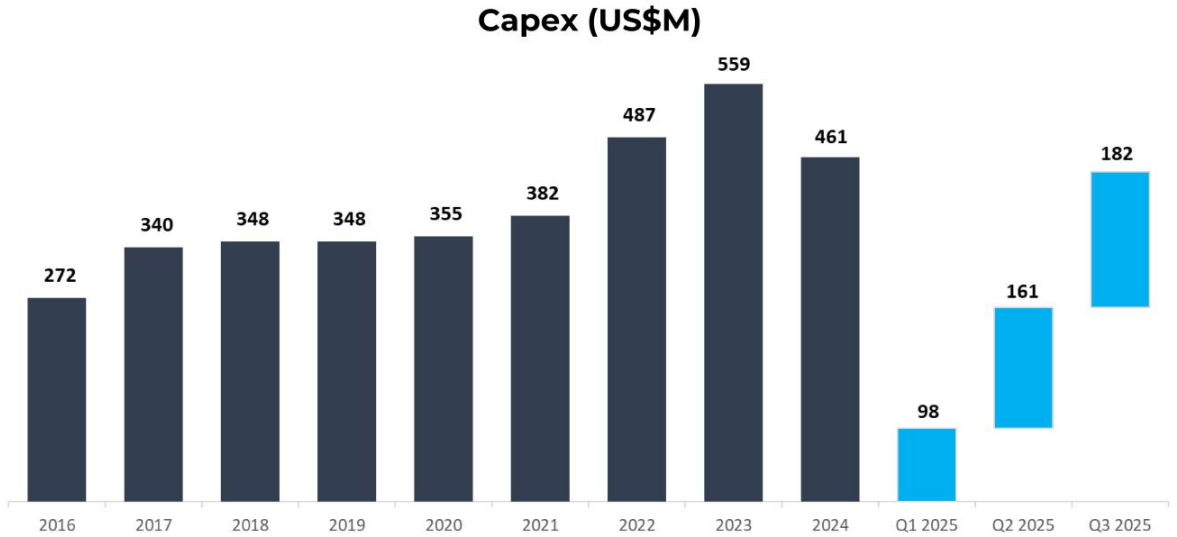

- US stocks rebuild with largest corn acreage since 1936 and good yields
- Strong corn export demand as US corn favorably priced in global markets
- South America production weather, final US corn yield, and possible return of China to global corn markets will drive price over next six months

Soybean Dynamics

- USDA forecasting smaller US ending stocks based on very high soy crush demand, return of China to US soybean export market
- Global bean stocks hit record high in 24/25, expected to swell further in 25/26
- Brazil continues to expand soybean production, reducing US share of soybean export market

Fiscal Year 2025 Capital Spending

- Continued investment in strategic projects will support Key Customers' growth and emphasize our focus on further diversification of our portfolio and operational improvements

APPENDIX

Appendix: Reconciliation of Adjusted EBITDA

"EBITDA" is defined as the sum of net income plus interest, taxes, depreciation and amortization. "Adjusted EBITDA" is calculated by adding to EBITDA certain items of expense and deducting from EBITDA certain items of income that we believe are not indicative of our ongoing operating performance consisting of: (1) foreign currency transaction losses (gains), (2) costs related to litigation settlements, (3) restructuring activities losses, and (4) net income attributable to noncontrolling interests. EBITDA is presented because it is used by management and we believe it is frequently used by securities analysts, investors and other interested parties, in addition to and not in lieu of results prepared in conformity with accounting principles generally accepted in the U.S. ("U.S. GAAP"), to compare the performance of companies. We believe investors would be interested in our Adjusted EBITDA because this is how our management analyzes EBITDA applicable to continuing operations. The Company also believes that Adjusted EBITDA, in combination with the Company's financial results calculated in accordance with U.S. GAAP, provides investors with additional perspective regarding the impact of certain significant items on EBITDA and facilitates a more direct comparison of its performance with its competitors. EBITDA and Adjusted EBITDA are not measurements of financial performance under U.S. GAAP. EBITDA and Adjusted EBITDA have limitations as analytical tools and should not be considered in isolation or as substitutes for an analysis of our results as reported under U.S. GAAP. In addition, other companies in our industry may calculate these measures differently limiting their usefulness as a comparative measure. Because of these limitations, EBITDA and Adjusted EBITDA should not be considered as an alternative to net income as indicators of our operating performance or any other measures of performance derived in accordance with U.S. GAAP. These limitations should be compensated for by relying primarily on our U.S. GAAP results and using EBITDA and Adjusted EBITDA only on a supplemental basis.

Appendix: Reconciliation of Adjusted EBITDA

- a. Interest expense, net, consists of interest expense less interest income.
- b. Prior to April 1, 2024, the Company measured the financial statements of its Mexico reportable segment as if the U.S. dollar were the functional currency. Accordingly, we remeasured assets and liabilities, other than nonmonetary assets, of the Mexico reportable segment at current exchange rates. We remeasured nonmonetary assets using the historical exchange rate in effect on the date of each asset's acquisition. Currency exchange gains or losses resulting from these remeasurements were previously recognized in the line item Foreign currency transaction losses (gains) in the Condensed Consolidated Statements of Income. Effective April 1, 2024, the Company changed the functional currency of its Mexico reportable segment from U.S. dollar to Mexican peso, which means all translation gains/losses on outstanding balances are now recognized in accumulated other comprehensive income. Transactional functional currency gains/losses are included in the line item Foreign currency transaction losses (gains) in the Condensed Consolidated Statements of Income.
- c. This represents amounts recognized for both negotiated litigation settlements and reasonable estimates for probable losses.
- d. Restructuring activities losses are related to costs incurred, such as severance, lease terminations, asset impairment and other charges, as part of multiple ongoing restructuring initiatives throughout our Europe reportable segment.
- e. This represents a loss recognized on the settlement of pension plan obligations related to plan terminations of our two U.S. defined benefit plans.
- f. This primarily represents broiler losses incurred as a result of Hurricane Helene in September 2024.

Appendix: Reconciliation of Adjusted EBITDA

- a. Interest expense, net, consists of interest expense less interest income.
- b. Prior to April 1, 2024, the Company measured the financial statements of its Mexico reportable segment as if the U.S. dollar were the functional currency. Accordingly, we remeasured assets and liabilities, other than nonmonetary assets, of the Mexico reportable segment at current exchange rates. We remeasured nonmonetary assets using the historical exchange rate in effect on the date of each asset's acquisition. Currency exchange gains or losses resulting from these remeasurements were previously recognized in the line item Foreign currency transaction losses (gains) in the Condensed Consolidated Statements of Income. Effective April 1, 2024, the Company changed the functional currency of its Mexico reportable segment from U.S. dollar to Mexican peso, which means all translation gains/losses on outstanding balances are now recognized in accumulated other comprehensive income. Transactional functional currency gains/losses are included in the line item Foreign currency transaction losses (gains) in the Condensed Consolidated Statements of Income.
- c. This represents amounts recognized for both negotiated litigation settlements and reasonable estimates for probable losses.
- d. Restructuring activities losses are related to costs incurred, such as severance, lease terminations, asset impairment and other charges, as part of multiple ongoing restructuring initiatives throughout our Europe reportable segment.
- e. This represents a loss recognized on the settlement of pension plan obligations related to plan terminations of our two U.S. defined benefit plans.
- f. This primarily represents broiler losses incurred as a result of Hurricane Helene in September 2024.

Appendix: Reconciliation of Adjusted Net Income

Adjusted net income attributable to Pilgrim's Pride Corporation ("Pilgrim's") is calculated by adding to Net income attributable to Pilgrim's certain items of expense and deducting from Net income attributable to Pilgrim's certain items of income, as shown below in the table. Adjusted net income attributable to Pilgrim's Pride Corporation per common diluted share is presented because it is used by management, and we believe it is frequently used by securities analysts, investors and other interested parties, in addition to and not in lieu of results prepared in conformity with U.S. GAAP, to compare the performance of companies. Management also believe that this non-U.S. GAAP financial measure, in combination with our financial results calculated in accordance with U.S. GAAP, provides investors with additional perspective regarding the impact of such charges on net income attributable to Pilgrim's Pride Corporation per common diluted share. Adjusted net income attributable to Pilgrim's Pride Corporation per common diluted share is not a measurement of financial performance under U.S. GAAP, has limitations as an analytical tool and should not be considered in isolation or as a substitute for an analysis of our results as reported under U.S. GAAP. Management believes that presentation of adjusted net income attributable to Pilgrim's provides useful supplemental information about our operating performance and enables comparison of our performance between periods because certain costs shown below are not indicative of our current operating performance. A reconciliation of net income (loss) attributable to Pilgrim's Pride Corporation per common diluted share to adjusted net income attributable to Pilgrim's Pride Corporation per common diluted share is as follows:
