NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS
(Unaudited)

1. DESCRIPTION OF BUSINESS AND BASIS OF PRESENTATION

Business

Pilgrim's Pride Corporation (referred to herein as "Pilgrim's," "PPC," "the Company," "we," "us," "our," or similar terms) is the second-largest chicken company in the United States ("US"), Mexico and Puerto Rico. Our fresh chicken retail line is sold throughout the US and Puerto Rico, and in the northern and central regions of Mexico. Our prepared-foods products meet the needs of some of the largest customers in the food service industry across the US. Additionally, the Company exports commodity chicken products to approximately 95 countries. As a vertically integrated company, we control every phase of the production of our products. We operate feed mills, hatcheries, processing plants and distribution centers in 14 US states, Puerto Rico and Mexico. Our fresh chicken products consist of refrigerated (non-frozen) whole or cut-up chicken, either pre-marinated or non-marinated, and pre-packaged chicken in various combinations of freshly refrigerated, whole chickens and chicken parts. Our prepared chicken products include portion-controlled breast fillets, tenderloins and strips, delicatessen products, salads, formed nuggets and patties and bone-in chicken parts. These products are sold either refrigerated or frozen and may be fully cooked, partially cooked or raw. In addition, these products are breaded or non-breaded and either pre-marinated or non-marinated.

Consolidated Financial Statements

The accompanying unaudited consolidated financial statements of the Company have been prepared in accordance with accounting principles generally accepted in the US for interim financial information and with the instructions to Form 10-Q and Article 10 of Regulation S-X of the US Securities and Exchange Commission ("SEC"). Accordingly, they do not include all of the information and footnotes required by accounting principles generally accepted in the US for complete financial statements. In the opinion of management, all adjustments (consisting of normal and recurring adjustments unless otherwise disclosed) considered necessary for a fair presentation have been included. Operating results for the thirteen and thirty-nine weeks ended September 25, 2011 are not necessarily indicative of the results that may be expected for the year ending December 25, 2011. For further information, refer to the consolidated financial statements and footnotes thereto included in the Company's Annual Report on Form 10-K for the year ended December 26, 2010.

Pilgrim's operates on a 52/53-week fiscal year that ends on the Sunday falling on or before December 31. The reader should assume any reference we make to a particular year (for example, 2011) in the notes to these Condensed Consolidated Financial Statements applies to our fiscal year and not the calendar year.

The Condensed Consolidated Financial Statements include the accounts of the Company and its majority owned subsidiaries. We eliminate all significant affiliate accounts and transactions upon consolidation.

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS
(Unaudited)

The Company measures the financial statements of its Mexico subsidiaries as if the US dollar were the functional currency. Accordingly, we remeasure assets and liabilities, other than non-monetary assets, of the Mexico subsidiaries at current exchange rates. We remeasure non-monetary assets using the historical exchange rate in effect on the date of each asset's acquisition. We remeasure income and expenses at average exchange rates in effect during the period. Currency exchange gains or losses are included in the line item *Foreign currency transaction losses (gains)* in the Condensed Consolidated Statements of Operations.

Revenue Recognition

We recognize revenue when all of the following circumstances are satisfied: (i) persuasive evidence of an arrangement exists, (ii) price is fixed or determinable, (iii) collectability is reasonably assured and (iv) delivery has occurred. Delivery occurs in the period in which the customer takes title and assumes the risks and rewards of ownership of the products specified in the customer's purchase order or sales agreement. Revenue is recorded net of estimated incentive offerings including special pricing agreements, promotions and other volume-based incentives. Revisions to these estimates are charged back to net sales in the period in which the facts that give rise to the revision become known.

Recently Adopted Accounting Pronouncements

On December 27, 2010, the Company adopted a portion of Accounting Standards Update ("ASU") 2010-06, *Improving Disclosures about Fair Value Measurements*, which amended Accounts Standards Codification ("ASC") Subtopic 820-10 by including new required disclosures regarding activity in Level 3 fair value measurements. The adoption of the subject guidance under amended ASC 820-10 did not have a material impact on the Company's consolidated financial statements.

Accounting Pronouncements Issued But Not Yet Adopted

The Financial Accounting Standards Board (the "FASB") recently issued ASU No. 2011-05, *Presentation of Comprehensive Income* which eliminates the option of reporting other comprehensive income ("OCI") as a component of the statement of stockholders equity. The amendment requires that total comprehensive income, the components of net income and the components of OCI either be presented in one continuous statement of comprehensive income or in two separate but consecutive statements. The amendment is effective for fiscal years beginning after December 15, 2011 and is to be applied retrospectively. The Company has not yet adopted this amendment; however, adoption will not have a material impact on the Company's financial position, results of operations or cash flow.

The FASB recently issued ASU No. 2011-04, *Fair Value Measurement: Amendments to Achieve Common Fair Value Disclosure Requirements in the U.S. GAAP and IFRS*. The amendment clarifies the FASB's intent about the application of existing fair value measurement and disclosure

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS
(Unaudited)

requirements (ASC Topic 820) and improves consistency in wording to ensure that U.S. GAAP and IFRS are described the same way. Other amendments change a particular principle or requirement for measuring fair value or for disclosing information about fair value measurements. The amendment is effective for fiscal years beginning after December 15, 2011 and is to be applied prospectively. The Company has not yet adopted this amendment; however, adoption will not have a material impact on the Company's financial position, results of operations or cash flow.

Common Stock Equivalents

Due to the net losses incurred in the thirteen and thirty-nine weeks ended September 25, 2011, the Company did not include 162 and 7,795 common stock equivalents, respectively, in the calculations of the denominators for net loss per diluted common share as these common stock equivalents would be anti-dilutive.

2. CHAPTER 11 PROCEEDINGS

Emergence from Bankruptcy

On December 1, 2008, Pilgrim's and six of its subsidiaries filed voluntary petitions in the United States Bankruptcy Court for the Northern District of Texas, Fort Worth Division (the "Bankruptcy Court"), seeking reorganization relief under the provisions of Chapter 11 of Title 11 of the United States Code (the "Bankruptcy Code"). We emerged from Chapter 11 bankruptcy proceedings on December 28, 2009. In connection with our emergence from bankruptcy, our common stock outstanding immediately prior to the emergence was cancelled and converted into the right to receive newly-issued shares of common stock of the reorganized Company based on a one-for-one exchange ratio, which constituted 36.0% of the total number of shares of our newly-issued common stock on that date. The remaining shares of our newly-issued common stock, constituting 64.0% of our total issued and outstanding common stock on December 28, 2009, were purchased for \$800.0 million by JBS USA Holdings, Inc. ("JBS USA"), a wholly-owned indirect subsidiary of JBS S.A., a Brazil-based meat producer. On November 5, 2010, JBS USA increased its stake in the Company to 67.3% of the total number of shares issued and outstanding on such date.

Upon exiting from bankruptcy, Pilgrim's and certain of its subsidiaries entered into an exit credit facility that provided for an aggregate commitment of \$1.75 billion (the "Exit Credit Facility"). The facility currently consists of a \$700.0 million revolving credit facility maturing on December 28, 2014 and a \$582.3 million Term B facility maturing on December 28, 2014. As of September 25, 2011, a principal amount of \$394.4 million under the revolving loan commitment and a principal amount of \$578.5 million under the Term B facility were outstanding.

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS
(Unaudited)

Financial Reporting Considerations

The Company's emergence from bankruptcy did not qualify for fresh start accounting because the reorganization value determined for the Company upon emergence exceeded post-petition liabilities and allowed claims. Reorganization value is the estimated fair value of the Company before considering liabilities and approximates the amount a willing buyer would pay for the assets of the Company immediately after the restructuring. To determine its reorganization value, the Company considered recent third-party valuations of its assets as well as the purchase price paid by JBS USA for 64.0% of the common stock of the reorganized Company. Management believes that the method used to determine the Company's reorganization value was the most appropriate method under the circumstances because the Bankruptcy Court did not declare a reorganization value for the Company. The Company's conclusion that it did not qualify for fresh start accounting was substantiated by the fact that (i) no liabilities were discounted in the plan of reorganization and (ii) the common stock of the reorganized Company traded at an average price of \$8.40 per share on December 28, 2009, resulting in a market capitalization on 36.0% of the outstanding common stock of the reorganized Company of approximately \$650.0 million and indicating that the investment community believed that the fair value of the Company's assets exceeded its post-petition liabilities and allowed claims on December 28, 2009. The acquisition of a controlling interest in the Company by JBS USA did not qualify for push-down accounting as JBS USA only purchased 64.0% of the common stock of the reorganized Company on December 28, 2009. Thus, the Company did not revalue its assets and liabilities because of either its emergence from bankruptcy or the purchase of 64.0% of the common stock of the reorganized Company by JBS USA.

From December 1, 2008 through March 28, 2010, the Company applied ASC Topic 852, *Reorganizations*, in preparing the Condensed Consolidated Financial Statements. ASC Topic 852 requires that the financial statements, for periods subsequent to a Chapter 11 filing, distinguish transactions and events that were directly associated with the reorganization from the ongoing operations of the business.

Beginning in December 2008, certain activities directly associated with the reorganization were approved by the Bankruptcy Court. These activities eliminated approximately 8,100 positions and resulted in net pre-tax charges totaling \$138.5 million. Of these charges, we recognized \$51.8 million of professional fees directly related to the reorganization, \$25.0 million of finance costs related to various credit facilities, \$14.1 million of incentive compensation costs and \$62.9 million of other reorganization costs such as severance, other personnel costs and facility closure costs. We also recognized an aggregate net gain totaling \$15.3 million on asset disposals directly associated with the reorganization. The cash-related portion of these reorganization costs totaled \$133.7 million. Asset impairments and other noncash charges totaled \$20.1 million. Proceeds received on asset disposals directly associated with the reorganization totaled \$78.9 million.

During the thirteen weeks ended September 25, 2011 and September 26, 2010, we did not incur costs related to reorganization. Net reorganization costs totaling \$18.5 million were recognized during the thirty-nine weeks ended September 26, 2010. We did not incur reorganization items during the thirty-nine weeks ended September 25, 2011.

The following expenses, realized gains and provisions for losses that were realized or incurred in the bankruptcy proceedings were recorded in *Reorganization items, net* on the accompanying Condensed Consolidated Statement of Operations for thirty-nine weeks ended September 26, 2010:

	<u>Thirty-Nine Weeks Ended September 26, 2010</u> (In thousands)

Finance costs related to various credit facilities ^(b)	13,654
Other costs ^(c)	<u>2,102</u>
Reorganization items, net	<u>\$ 18,541</u>

- (a) *Professional fees directly related to reorganization* included post-petition fees associated with advisors to Pilgrim's and the six subsidiaries that filed bankruptcy petitions, the statutory committee of unsecured creditors and certain secured creditors.
- (b) For the thirty-nine weeks ended September 26, 2010, *Finance costs related to various credit facilities* included (i) recognition of expenses totaling \$17.8 million related to the elimination of unamortized loan costs associated with certain credit facilities and unsecured notes payable that were effectively extinguished on December 28, 2009 and (ii) recognition of a previously unrealized gain totaling \$4.1 million related to a derivative instrument designated as a cash flow hedge against the interest rate charged on an unsecured note payable that was effectively extinguished on December 28, 2009.
- (c) *Other costs* included costs related to post-petition facilities closures.

Net cash outflow resulting from reorganization items during the thirty-nine weeks ended September 26, 2010 totaled \$30.7 million. This included payment of professional fees directly related to the reorganization totaling \$15.7 million, payment of incentive compensation totaling \$12.9 million that was contingent upon confirmation by the Bankruptcy Court of a plan of reorganization, severance payments of \$1.5 million and net payment of facility closure costs totaling \$0.5 million. These cash flows are included in *Cash flows from operating activities* on the Condensed Consolidated Statements of Cash Flows.

The Company has resolved a majority of the claims filed against it through settlement or by Bankruptcy Court order. The claims resolution process continues for the remaining unresolved claims and will continue until all claims are concluded. Unpaid amounts related to unresolved claims are classified in *Accrued expenses and other current liabilities* on the Condensed Consolidated Balance Sheets. During the thirty-nine weeks ended September 25, 2011, the Company paid creditors approximately \$0.4 million to settle allowed claim amounts and interest accrued on those claim amounts. As of September 25, 2011, the following pre-petition obligations relating to claims not subject to litigation remain outstanding:

<i>In thousands</i>	
Trade claims	\$313
Interest accrued on unpaid claims	45
Total pre-petition obligations	<u>\$358</u>

The Company is also the named defendant in several pre-petition lawsuits that, as of September 25, 2011, have not been resolved. Additional information regarding these lawsuits is included in "Note 16. Commitments and Contingencies."

3. EXIT OR DISPOSAL ACTIVITIES

In February 2008, the Company's Board of Directors approved certain exit or disposal activities as part of a plan to rationalize both our manufacturing and distribution footprints and to eliminate administrative redundancies in an effort to curtail losses resulting from record-high feed ingredient costs and an oversupply of chicken in the US. Beginning in January 2010, Company management implemented certain additional exit or disposal activities to integrate the administrative functions of the Company into those of JBS USA. In July 2011, additional exit and disposal activities were implemented by Company management to consolidate operations at our Dallas, Texas facility into other facilities in the surrounding area. These exit or disposal activities eliminated a total of approximately 5,100 positions and resulted in net pre-tax charges totaling \$142.1 million. Of these charges, we recognized \$49.1 million of severance and other personnel costs, \$46.3 million of asset impairments, \$31.8 million in losses related to the sale of unneeded eggs and the depletion of unneeded flocks, \$4.0 million of grower compensation, \$2.0

million of lease continuation costs, \$2.1 million in losses related to scrapped inventory and \$6.8 million in other restructuring costs. All exit or disposal costs related to these activities, with the exception of costs or losses related to asset impairments, sales of unneeded eggs, depletion of unneeded flocks and scrapped inventory, resulted in cash expenditures or will result in cash expenditures within one year. The cash-related portion of these exit or disposal costs totaled \$54.2 million.

Results of operations for the thirteen weeks ended September 25, 2011 and September 26, 2010 included exit or disposal costs totaling \$1.0 million and \$3.2 million, respectively. Results of operations for the thirteen weeks ended September 25, 2011 and September 26, 2010 also included adjustments totaling \$0.3 million and \$10.1 million, respectively, which reduced accrued costs. Adjustments recognized in the thirteen weeks ended September 25, 2011 included the elimination of accrued severance in excess of actual severance costs incurred during the exit or disposal period. Adjustments recognized in the thirteen weeks ended September 26, 2010 included favorable adjustments to incentive compensation related to excise taxes upon finalization of an incentive plan analysis as well as elimination of accrued severance and other exit or disposal costs.

Results of operations for the thirty-nine weeks ended September 25, 2011 and September 26, 2010 included exit or disposal costs totaling \$2.3 million and \$41.1 million, respectively. Results of operations for the thirty-nine weeks ended September 25, 2011 and September 26, 2010 also included adjustments totaling \$1.0 million and \$11.0 million, respectively, which reduced accrued costs. Adjustments recognized in the thirty-nine weeks ended September 25, 2011 and September 26, 2010 included the elimination of accrued severance in excess of actual severance costs incurred during the exit or disposal period. During the thirty-nine weeks ended September 26, 2010, we also recognized an adjustment for the assumption of a lease obligation related to a closed office building by an outside party and favorable adjustments to incentive compensation related to excise taxes upon finalization of an incentive plan analysis.

Net exit or disposal costs totaling \$0.7 million and \$1.3 million were recognized during the thirteen and thirty-nine weeks ended September 25, 2011, respectively, and were recorded in either *Cost of sales, Selling, general and administrative expense*, or *Administrative restructuring charges, net* on the accompanying Condensed Consolidated Statements of Operations. Net exit or disposal costs recognized during the thirteen and thirty-nine weeks ended September 26, 2010 were classified as *Administrative restructuring charges, net* or *Operational restructuring charges, net*. Certain exit or disposal costs were classified as *Administrative restructuring charges, net*, a component of operating income below gross profit, on the accompanying Consolidated Statements of Operations because management believed these costs were not directly related to the Company's ongoing production. Components of operational restructuring charges and administrative restructuring charges recognized during the thirteen and thirty-nine weeks ended September 25, 2011 and September 26, 2010 are summarized below:

We continue to review and evaluate various restructuring and other alternatives to streamline our operations, improve efficiencies and reduce costs. Such initiatives may include selling assets, consolidating operations and functions, employee relocation and voluntary and involuntary employee separation programs. Any such actions may require us to obtain the pre-approval of our lenders under our Exit Credit Facility. In addition, such actions will subject the Company to additional short-term costs, which may include asset impairment charges, lease commitment costs, employee retention and severance costs and other costs. Certain of these activities may have a disproportionate impact on our income relative to the cost savings in a particular period.

Additional information regarding the Dallas, Texas facility closure is included in “Note 9. Property, Plant and Equipment.”

- (a) Cash and cash equivalents held by the Company's captive insurance subsidiaries is restricted as to use because it collateralizes certain insurance obligations.
- (b) Derivative trading accounts margin cash and commodity derivative assets are included in *Prepaid expenses and other current assets* on the Condensed Consolidated Balance Sheets.
- (c) Long-term restricted cash and cash equivalents are included in *Other long-lived assets* on the Condensed Consolidated Balance Sheets.
- (d) Accounts payable and Accrued expenses and other current liabilities presented above excludes commodity derivative liabilities and derivative trading accounts margin liability.
- (e) Commodity derivative liabilities and margin liability are included in *Accrued expenses and other current liabilities* on the Condensed Consolidated Balance Sheets.
- (f) The fair values of the Company's long-term debt and other borrowing arrangements were estimated by calculating the net present value of future payments for each debt obligation or borrowing by: (i) using the US Treasury interest rate applicable for an instrument with a life similar to the remaining life of each debt obligation or borrowing plus the same interest rate spread applied to each debt obligation or borrowing at inception, (ii) using a current discount rate for similar types of debt obligations with the same credit rating or (iii) using the quoted market price at September 25, 2011.

The carrying amounts of our cash and cash equivalents, derivative trading accounts margin cash, restricted cash and cash equivalents, accounts receivable, accounts payable and certain other liabilities approximate their fair values due to their relatively short maturities. The Company adjusts its investments, commodity derivative assets and commodity derivative liabilities to fair value based on quoted market prices in active markets for identical instruments, quoted market prices in active markets for similar instruments with inputs that are observable for the subject instrument, or unobservable inputs such as discounted cash flow models or valuations.

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS
(Unaudited)

Effective September 28, 2008, the Company adopted guidance under ASC Topic 820, *Fair Value Measurements and Disclosures*, which establishes a framework for measuring fair value and required enhanced disclosures about fair value measurements. The subject guidance under ASC Topic 820 clarifies that fair value is an exit price, representing the amount that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants. The subject guidance under ASC Topic 820 also requires disclosure about how fair value was determined for assets and liabilities and established a hierarchy for which these assets and liabilities must be grouped, based on significant levels of inputs as follows:

- Level 1 Quoted prices in active markets for identical assets or liabilities;
- Level 2 Quoted prices in active markets for similar assets and liabilities and inputs that are observable for the asset or liability; or
- Level 3 Unobservable inputs, such as discounted cash flow models or valuations.

The determination of where assets and liabilities fall within this hierarchy is based upon the lowest level of input that is significant to the fair value measurement.

As of September 25, 2011, the Company held certain items that are required to be measured at fair value on a recurring basis. These included cash and cash equivalents, derivative assets and liabilities, short-term investments in available-for-sale securities and long-term investments in available-for-sale securities. Cash equivalents consist of short-term, highly liquid, income-producing investments such as money market funds and other funds that have maturities of 90 days or less. Derivative assets and liabilities consist of long and short positions on both exchange-traded commodity futures and commodity options as well as margin cash on account with the Company's derivatives brokers. Short-term investments in available-for-sale securities consist of short-term, highly liquid, income-producing investments such as municipal debt securities that have maturities of greater than 90 days but less than one year. Long-term investments in available-for-sale securities consist of income-producing investments such as municipal debt securities, corporate debt securities, equity securities and fund-of-funds units that have maturities of greater than one year.

Financial assets and liabilities classified in Level 1 at September 25, 2011 include cash and cash equivalents, restricted cash and cash equivalents, equity securities and commodity futures derivative instruments traded in active markets. The valuation of these instruments is determined using a market approach, taking into account current interest rates, creditworthiness, and liquidity risks in relation to current market conditions, and is based upon unadjusted quoted prices for identical assets in active markets. The valuation of financial assets and liabilities in Level 2 is determined using a market approach based upon quoted prices for similar assets and liabilities in active markets or other inputs that are observable for substantially the full term of the financial instrument. Level 2 securities primarily include fixed income securities and commodity option derivative instruments. The valuation of financial assets in Level 3 is determined using an income approach based on unobservable inputs such as discounted cash flow models or valuations. The Company's sole Level 3 financial asset at September 25, 2011 was a fund of funds investment.

The following table presents activity for the thirty-nine weeks ended September 25, 2011 and September 26, 2010, respectively, related to the Company's investment in a fund of funds asset that is measured at fair value on a recurring basis using Level 3 inputs:

In addition to assets and liabilities that are recorded at fair value on a recurring basis, the Company records certain assets and liabilities at fair value on a nonrecurring basis. Generally, assets are recorded at fair value on a nonrecurring basis as a result of impairment charges when required by U.S. GAAP. Certain long-lived assets held for sale with a carrying amount of \$31.5 million were written down to their fair value of \$22.7 million, resulting in a loss of \$8.8 million recorded in earnings during the thirteen weeks ended September 25, 2011. During the thirty-nine weeks ended September 25, 2011 certain long-lived assets held for sale with a carrying amount of \$38.2 million were written down to their fair value of \$26.6 million, resulting in a loss of \$11.6 million recorded in earnings. The estimated cost to sell these assets is immaterial. These assets are classified as Level 2 assets because their fair value can be corroborated based on observable market data.

7. INVESTMENTS IN SECURITIES

We recognize investments in available-for-sale securities as cash equivalents, current investments or long-term investments depending upon each security's length to maturity. Additionally, those securities identified by management at the time of purchase for funding operations in less than one year are classified as current. The following table summarizes our investments in available-for-sale securities:

	<u>\$ 655</u>	<u>100%</u>

The cost of each security sold and the amount reclassified out of accumulated other comprehensive income into earnings is determined on a specific identification basis.

The Company and certain retirement plans that it sponsors invest in a variety of financial instruments. Certain postretirement funds in which the Company participates hold significant amounts of mortgage-backed securities. However, none of the mortgages collateralizing these securities are considered subprime.

Certain investments are held in trust as compensating balance arrangements for our insurance liability and are classified as either restricted cash and cash equivalents, current investments or long-term investments based on a date of maturity and management's intention for use of such assets.

8. DERIVATIVE FINANCIAL INSTRUMENTS

The Company utilizes various raw materials in its operations, including corn, soybean meal, soybean oil and energy, such as natural gas, electricity and diesel fuel, which are all considered commodities. The Company considers these raw materials generally available from a number of different sources and believes it can obtain them to meet its requirements. These commodities are subject to price fluctuations and related price risk due to factors beyond our control, such as economic and political conditions, supply and demand, weather, governmental regulation and other circumstances. Generally, the Company purchases derivative financial instruments, specifically exchange-traded futures and options, in an attempt to mitigate price risk related to its anticipated consumption of commodity inputs for periods of up to 12 months. The Company may purchase longer-term derivative financial instruments on particular commodities if deemed appropriate. The fair value of derivative assets is included in the line item *Prepaid expenses and other current assets* on the Condensed Consolidated Balance Sheets while the fair value of derivative liabilities is included in the line item *Accrued expenses and other current liabilities* on the same statements. Our counterparties require that we post cash collateral for changes in the net fair value of the derivative contracts.

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS
(Unaudited)

We have not designated the derivative financial instruments that we have purchased to mitigate commodity purchase exposures as cash flow hedges. Therefore, we recognized changes in the fair value of these derivative financial instruments immediately in earnings. Gains or losses related to these derivative financial instruments are included in the line item *Cost of sales* in the Condensed Consolidated Statements of Operations. The Company recognized net gains of \$34.4 million and \$60.8 million, respectively, related to changes in the fair value of its derivative financial instruments during the thirteen and thirty-nine weeks ended September 25, 2011. The Company recognized \$15.4 million and \$6.4 million in net gains, respectively, related to changes in the fair value of its derivative financial instruments during the thirteen and thirty-nine weeks ended September 26, 2010.

- (a) Derivatives coverage is the percent of anticipated corn and soybean meal needs covered by outstanding derivative instruments through a specified date. As of September 25, 2011, the Company had short derivative positions to offset long forward cash purchases, which exceeded open long derivative positions for both corn and soybean meal. These positions expire by December 2012.
- (b) A written put option is an option that the Company has sold that grants the holder the right, but not the obligation, to sell the underlying asset at a certain price for a specified period of time. When the Company takes a short position on a futures derivative instrument, it agrees to sell the underlying asset in the future at a price established on the contract date. The Company writes put options and takes short positions on futures derivative instruments to minimize the impact of feed ingredients price volatility on its operating results.

On December 28, 2009, the Company recognized in earnings a previously unrealized gain totaling \$4.1 million on a derivative instrument designated as a cash flow hedge against the interest rate charged on an unsecured note payable that was effectively extinguished on December 28, 2009. This gain was included in the line item *Reorganization items, net* in the Consolidated Statement of Operations for the thirty-nine weeks ended September 26, 2010.

The Company recognized depreciation expense of \$49.4 million and \$52.5 million during the thirteen weeks ended September 25, 2011 and September 26, 2010, respectively and \$144.4 million and \$159.3 million during the thirty-nine weeks ended September 25, 2011 and September 26, 2010, respectively.

During the thirteen and thirty-nine weeks ended September 25, 2011, the Company sold certain PP&E for cash of \$2.6 million and \$7.5 million and recognized net losses on these sales of \$0.5 million and \$0.2 million, respectively. PP&E sold in 2011 included an empty office building in West Virginia, an idled egg production facility and surrounding undeveloped land in Texas, an idled feed mill in Georgia, various broiler and breeder farms in Texas, vacant land in Texas, developed real estate in Texas and miscellaneous processing equipment. During the thirteen and thirty-nine weeks ended September 26, 2010, the Company sold certain PP&E for cash of \$10.0 million and \$11.6 million and recognized net gains on these sales of \$3.0 million and \$3.1 million, respectively. PP&E sold in 2010 included undeveloped land in Texas and Mexico, feed mills in North Carolina and Texas, a research laboratory in Georgia, aircraft hangars in Texas, a broiler farm in Texas and miscellaneous equipment.

Management has committed to the sale of certain properties and related assets, including, but not limited to, processing plants, office buildings and farms, which no longer fit into the operating plans of the Company. The Company is actively marketing these properties and related assets for immediate sale and believes a sale of each property can be consummated within the next 12 months. At September 25, 2011 and December 26, 2010, the Company reported properties and related assets totaling \$46.2 million and \$47.7 million, respectively, in *Assets held for sale* on its Consolidated Balance Sheets. For both the thirteen and thirty-nine weeks ended September 25, 2011, the Company recognized impairment expense of \$8.8 million and \$11.6 million, respectively, on certain of these assets based on purchase offers received from outside parties and accepted by the Company.

As part of the Chapter 11 reorganization activities discussed in “Note 2. Chapter 11 Proceedings” and the exit or disposal activities discussed in “Note 3. Exit or Disposal Activities,” the Company closed or idled various processing complexes, processing plants, hatcheries and broiler farms throughout the US. Neither the Board of Directors nor JBS USA has determined if it would be in the best interest of the Company to divest any of these idled assets. Management is therefore not certain that it can or will divest any of these assets within one year, is not actively marketing these assets and, accordingly, has not classified them as assets held for sale. The Company continues to depreciate these assets. At September 25, 2011, the carrying amount of these idled assets was \$60.0 million based on depreciable value of \$148.0 million and accumulated depreciation of \$88.0 million. We reopened an idled processing plant in Douglas, Georgia in January 2011. The Company has currently delayed the decision to bring the Douglas, Georgia facility to full capacity during the second quarter of 2012 and will re-evaluate capacity needs during the first quarter of 2012.

The Company last formally estimated the fair values of its assets held for sale and idled assets during the thirteen weeks ended December 26, 2010. Most of the production-related assets were valued at their highest and best use—as operating chicken processing facilities. A selected few of the production-related assets and the office buildings held for sale were valued as empty facilities. Management does not believe that the aggregate carrying amount of the assets held for sale or the idled assets is significantly impaired at the present time. However, should the carrying amounts of these assets consistently exceed future purchase offers received, if any, recognition of impairment charges could become necessary. Further, if chicken prices and feed ingredient prices fail to improve relative to current levels, the Company’s ability to recover the carrying value of its operating assets, including its property, plant and equipment and identified intangible assets could be materially jeopardized. At the present time, the Company’s forecasts indicate that it can recover the carrying value of its operating assets, including its property, plant and equipment and identified intangible assets, based on the projected cash flows of the operations.

During the third quarter of 2011, the Company changed its plans regarding the disposal of the Dallas, Texas processing facility. On September 30, 2011, the Company idled this facility rather than listing it for sale. During the fourth quarter of 2011, the Company will also impair the carrying amount of certain Company-owned breeder farms that supplied the Dallas facility by approximately \$0.5 million. During the third quarter

of 2011, the Company recorded severance expense totaling \$1.0 million and losses on egg sales and flock depletion of \$1.6 million related to the idling of this facility, which were recorded in *Administrative restructuring charges, net* on the accompanying Condensed Consolidated Statements of Operations. The Company also expects to incur closing costs totaling approximately \$15.6 million and to write off related breeder hen and egg inventories of \$0.4 million in future quarters.

Senior and Subordinated Notes

On December 15, 2010, the Company closed on the sale of \$500.0 million of 7 ⁷/₈% Senior Notes due in 2018 (the “2018 Notes”). The 2018 Notes are unsecured obligations of the Company and are guaranteed by one of the Company’s subsidiaries. Interest is payable on December 15 and June 15 of each year, commencing on June 15, 2011. Additionally, we have an aggregate principal balance of \$3.9 million of 7 ⁵/₈% senior unsecured notes, 8 ³/₈% senior subordinated unsecured notes and 9 ¹/₄% senior unsecured notes outstanding at September 25, 2011.

On June 23, 2011, the Company entered into the Subordinated Loan Agreement with JBS USA (the “Subordinated Loan Agreement”), which provided an aggregate commitment of \$100.0 million. On June 23, 2011, JBS USA made a term loan to the Company in the principal amount of \$50.0 million. In addition, JBS USA agreed to make an additional one-time term loan in the principal amount of \$50.0 million if the Company’s availability under the revolving loan commitment in the Exit Credit Facility is less than \$200.0 million. Pursuant to the terms of the Subordinated Loan Agreement, we also agreed to reimburse JBS USA up to \$56.5 million for draws upon any letters of credit issued for JBS USA’s account that support certain obligations of Mayflower Insurance Company, Ltd., a wholly owned subsidiary of the Company. The commitment, under the Subordinated Loan Agreement, will terminate on the earlier to occur of (i) the date on which all amounts owing under the Exit Credit Facility are due and payable in accordance with its terms or (ii) June 27, 2015. Loans under the Subordinated Loan Agreement mature on June 28, 2015.

Exit Credit Facility

Upon exiting from bankruptcy, Pilgrim's and certain of its subsidiaries entered into the Exit Credit Facility, which provided for an aggregate commitment of \$1.75 billion. The facility consisted of a three-year \$600.0 million revolving credit facility, a three-year \$375.0 million Term A facility and a five-year \$775.0 million Term B facility. The Exit Credit Facility also includes an accordion feature that allows us, at any time, to increase the aggregate revolving loan commitment by up to an additional \$250.0 million and to increase the aggregate Term B loans commitment by up to an additional \$400.0 million, in each case subject to the satisfaction of certain conditions, including an aggregate cap on all commitments under the Exit Credit Facility of \$1.85 billion. On January 13, 2011, we increased the amount of the revolving loan commitments under the Exit Credit Facility to \$700.0 million. On April 22, 2011, we increased the amount of the sub-limit for swingline loans under the Exit Credit Facility to \$100.0 million. The Term A loan was repaid on December 15, 2010 with proceeds from the 2018 Notes. The revolving loan commitment and the Term B loans will mature on December 28, 2014.

On September 25, 2011, a principal amount of \$578.5 million under the Term B loans commitment and \$394.4 million under the revolving loan commitment were outstanding. On December 28, 2009, the Company paid loan costs totaling \$50.0 million related to the Exit Credit Facility that it recognized as an asset on its balance sheet. The Company amortizes these capitalized costs to expense over the life of the Exit Credit Facility.

Subsequent to the end of each fiscal year, a portion of our cash flow must be used to repay outstanding principal amounts under the Term B loans. In April 2011, the Company paid approximately \$46.3 million of its excess cash flow toward the outstanding principal under the Term B loans. After giving effect to this prepayment and other prepayments of the Term B loans, the Term B loans must be repaid in 16 quarterly installments of approximately \$3.9 million beginning on April 15, 2011, with the final installment due on December 28, 2014. The Exit Credit Facility also requires us to use the proceeds we receive from certain asset sales and specified debt or equity issuances and upon the occurrence of other events to repay outstanding borrowings under the Exit Credit Facility.

Actual borrowings by the Company under the revolving credit commitment component of the Exit Credit Facility are subject to a borrowing base, which is a formula based on certain eligible inventory, eligible receivables and restricted cash under the control of CoBank ACB, as administrative agent under the Exit Credit Facility. As of September 25, 2011, the applicable borrowing base was \$678.4 million, the amount available for borrowing under the revolving loan commitment was \$243.9 million and outstanding borrowings and letters of credit under the revolving loan commitment were \$394.4 million and \$40.1 million, respectively.

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS
(Unaudited)

Under the Exit Credit Facility, JBS USA, the Company's majority stockholder, or its affiliates may make loans to the Company on a subordinated basis on terms reasonably satisfactory to the agents and up to \$200.0 million of such subordinated indebtedness may be included in the calculation of EBITDA (as defined in the Exit Credit Facility).

The Exit Credit Facility contains financial covenants and various other covenants that may adversely affect our ability to, among other things, incur additional indebtedness, incur liens, pay dividends or make certain restricted payments, consummate certain assets sales, enter into certain transactions with JBS USA and our other affiliates, merge, consolidate and/or sell or dispose of all or substantially all of our assets.

On June 23, 2011, the Company entered into an amendment to the Exit Credit Facility, which, among other things, temporarily suspended the requirement for the Company to comply with the fixed charge coverage ratio and senior secured leverage ratio financial covenants until September 23, 2012 and modified the consolidated tangible net worth financial covenant. The Company is currently in compliance with the modified tangible net worth covenant. However, if chicken prices and feed ingredient prices fail to improve relative to current levels, the Company's ability to maintain compliance with this financial covenant could be materially jeopardized.

ING Credit Agreement

On September 25, 2006, Avícola Pilgrim's Pride de México, S. de R.L. de C.V., a wholly owned subsidiary of the Company and certain subsidiaries, entered into a secured revolving credit agreement (the "ING Credit Agreement") with ING Capital, LLC, as agent and the lenders party thereto. The ING Credit Agreement had a final maturity date of September 25, 2011.

On September 23, 2011, Avícola Pilgrim's Pride de México, S. de R.L. de C.V entered into an amendment to the ING Credit Agreement, which, among other things, (i) extended the final maturity date to October 31, 2011 and (ii) reduced the aggregate principal amount of the revolving loan commitments under the ING Credit Agreement from an aggregate principal amount of \$50.0 million to an aggregate principal amount of 557.4 million Mexican pesos minus the Reserve Commitment Amount (the "Reserve Commitment Amount"). The Reserve Commitment Amount consists of a revolving commitment of 257.3 million Mexican pesos that is reserved for one or more financial institutions that are not lenders under the ING Credit Agreement as of the date of the amendment, which commitment amount can be converted to a revolving commitment pursuant to certain terms and conditions set forth in the amendment. As of September 25, 2011 the revolving commitment was a principal amount of 300.1 million Mexican pesos, a US dollar-equivalent of \$22.2 million. There were no outstanding borrowings under the ING Credit Agreement at September 25, 2011.

Subsequent to the date of the Condensed Consolidated Balance Sheet, Avícola Pilgrim's Pride de México, S. de R.L. de C.V. and certain subsidiaries (the "Loan Parties") entered into an amended and restated credit agreement

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

(the “Amended ING Credit Agreement”) with ING Bank (México), S.A. Institución de Banca Múltiple, ING Grupo Financiero, as lender and ING Capital LLC, as administrative agent. The Amended ING Credit Agreement has a final maturity date of September 25, 2014. The Amended ING Credit has a revolving commitment of 557.4 million Mexican pesos minus the Reserve Commitment Amount.

Under the Amended ING Credit Agreement, if (i) any default or event of default has occurred and is continuing or (ii) the quotient of the borrowing base divided by the outstanding loans and letters of credit (the “Collateral Coverage Ratio”) under the Amended ING Credit Agreement is less than 1.25 to 1.00, the loans and letters of credit under the Amended ING Credit Agreement will be subject to, and cannot exceed, a borrowing base. The borrowing base is a formula based on certain accounts receivable, inventory, prepaid assets, net cash under the control of the administrative agent and up to 150.0 million Mexican pesos of fixed assets of the Loan Parties. The borrowing base formula will be reduced by trade payables of the Loan Parties. If the Collateral Coverage Ratio falls below 1.25 to 1.00, the borrowing base requirement would terminate upon the earlier of (i) the Collateral Coverage Ratio exceeding 1.25 to 1.00 as of the latest measurement period for 60 consecutive days or (ii) the borrowing availability under the Amended ING Credit Agreement being equal to or greater than the greater of 20% of the revolving commitments under the Amended ING Credit Agreement and 100.0 million Mexican pesos for a period of 60 consecutive days.

The Amended ING Credit Agreement is secured by substantially the same assets and has similar terms and conditions as the ING Credit Agreement.

12. INCOME TAXES

The Company recorded an income tax benefit of \$6.5 million, a 1.5% effective tax rate, for the thirty-nine weeks ended September 25, 2011, compared to an income tax benefit of \$4.3 million, a (9.9%) effective tax rate, for the thirty-nine weeks ended September 26, 2010. The income tax benefit recognized for the thirty-nine weeks ended September 25, 2011 was primarily the result of the tax benefit recorded on the Company’s year-to-date loss that is expected to be realized, partially offset by tax expense for items originating in the prior year and an increase in reserves for unrecognized tax benefits.

In assessing the realizability of deferred tax assets, management considers whether it is more likely than not that some portion or all of the deferred tax assets will not be realized. The ultimate realization of deferred tax assets is dependent upon the generation of future taxable income during the periods in which those temporary differences become deductible. Management considers the scheduled reversal of deferred tax liabilities (including the impact of available carryback and carryforward periods), projected future taxable income and tax-planning strategies in making this assessment. As of September 25, 2011, the Company does not believe it has sufficient positive evidence to conclude that realization of its federal, state and foreign deferred tax assets is more likely than not to be realized.

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS
(Unaudited)

With few exceptions, the Company is no longer subject to US federal, state or local income tax examinations for years prior to 2003 and is no longer subject to Mexico income tax examination for years prior to 2006. The Company continues to be under examination for Gold Kist and its subsidiaries for the tax years ended June 30, 2004 through December 27, 2006. The Company is still currently working with the Internal Revenue Service (“IRS”) through the normal processes and procedures to resolve the IRS’ proofs of claim. There has been no significant change in the resolution of the IRS’ claim since December 26, 2010. See “Note 16. Commitments and Contingencies” for additional information.

13. PENSION AND OTHER POSTRETIREMENT BENEFITS

The Company sponsors programs that provide retirement benefits to most of its employees. These programs include qualified defined benefit pension plans, nonqualified defined benefit retirement plans, a defined benefit postretirement life insurance plan, defined contribution retirement savings plans and deferred compensation plans. Under all of our retirement plans, the Company’s expenses were \$1.6 million and \$1.7 million in the thirteen weeks ended September 25, 2011 and September 26, 2010, respectively, and \$6.9 million and \$8.8 million in the thirty-nine weeks ended September 25, 2011 and September 26, 2010, respectively.

The following table provides the components of net periodic benefit cost for the defined benefit plans mentioned above:

14. INCENTIVE COMPENSATION PLANS

The Company granted 200,000 restricted shares of its common stock to William W. Lovette, the Company's Chief Executive Officer, effective January 14, 2011 in connection with the employment agreement with Mr. Lovette. Fifty percent of these shares will vest on January 3, 2013 and the remaining shares will vest on January 3, 2014, subject to Mr. Lovette's continued employment with the Company through the applicable vesting date. The \$1.4 million fair value of the shares as of the grant date was determined by multiplying the number of shares granted by the closing market price of the Company's common stock on the grant date. Assuming no forfeiture of shares, the Company will recognize share-based compensation expense of \$0.7 million ratably from January 14, 2011 to January 3, 2013. The Company will also recognize share-based compensation expense of \$0.7 million ratably from January 14, 2011 to January 3, 2014. During the thirteen and thirty-nine weeks ended September 25, 2011, the Company recognized share-based compensation expense totaling \$0.1 million and \$0.4 million, respectively.

The Company sponsors an annual incentive program that provides the grant of bonus awards payable upon achievement of specified performance goals (the "STIP"). Full-time, salaried exempt employees of the Company and its affiliates who are selected by the administering committee are eligible to participate in the STIP. The Company has not accrued costs related to the STIP as of the date of this quarterly report because a liability is not probable to be incurred at this time given current financial results.

The Company also sponsors a performance-based, omnibus long-term incentive plan that provides for the grant of a broad range of long-term equity-based and cash-based awards to the Company's officers and other employees, members of the Board and any consultants (the "LTIP"). The equity-based awards that may be granted under the LTIP include "incentive stock options," within the meaning of the Internal Revenue Code, nonqualified stock options, stock appreciation rights, restricted stock awards and restricted stock units. No awards have been granted under the LTIP and the Company has not accrued costs related to the LTIP as of the date of this quarterly report.

15. RELATED PARTY TRANSACTIONS

On December 28, 2009, JBS USA became the holder of the majority of the common stock of the Company. Lonnie A. "Bo" Pilgrim, an original partner in the Company's predecessor partnership founded in 1946, and certain entities related to Mr. Pilgrim collectively own the second-largest block of Pilgrim's common stock. Mr. Pilgrim serves as the Founder Director of the Company.

- (a) On January 19, 2010, the Company entered into an agreement with JBS USA, LLC in order to allocate costs associated with JBS USA, LLC's procurement of SAP licenses and maintenance services for its combined companies. Under this agreement, the fees associated with procuring SAP licenses and maintenance services are allocated between the Company and JBS USA, LLC in proportion to the percentage of licenses used by each company. The agreement expires on the date of expiration, or earlier termination, of the underlying SAP license agreement. On May 5, 2010, the Company also entered into an agreement with JBS USA, LLC in order to allocate the costs of supporting the business operations by one consolidated corporate team, which have historically been supported by their respective corporate teams. Expenditures paid by JBS USA, LLC on behalf of the Company will be reimbursed by the Company and expenditures paid by the Company on behalf of JBS USA, LLC will be reimbursed by JBS USA, LLC. This agreement expires on May 5, 2015.
- (b) On February 23, 2010, the Company purchased a commercial egg property from the Founder Director for \$12.0 million. Prior to the purchase, the Company leased the commercial egg property including all of the ongoing costs of the operation from the Founder Director.
- (c) Prior to December 28, 2009, Pilgrim Interests, Ltd., an entity related to the Founder Director, guaranteed a portion of the Company's debt obligations. In consideration of such guarantees, the Company would pay Pilgrim Interests, Ltd. a quarterly fee equal to 0.25% of one-half of the average aggregate outstanding balance of such guaranteed debt. Pursuant to the terms of the financing in place during the term of the Company's Chapter 11 case, the Company could not pay any loan guarantee fees without the consent of the lenders party thereto. At December 27, 2009, the Company had accrued loan guaranty fees totaling \$8.9 million. The Company paid these fees after emerging from bankruptcy on December 28, 2009.
- (d) In connection with the Company's plan of reorganization, the Company and the Founder Director entered into a consulting agreement, which became effective on December 28, 2009. The terms of the consulting agreement include, among other things, that the Founder Director (i) will provide services to the Company that are comparable in the aggregate with the services provided by him to the Company prior to December 28, 2009, (ii) will be appointed to the Board of Directors of the Company and during the term of the consulting agreement will be nominated for subsequent terms on the board, (iii) will be compensated for services rendered to the Company at a rate of \$1.5 million per year for a term of five years, (iv) will be subject to customary non-solicitation and non-competition provisions and (v) will be, along with his spouse, provided with medical benefits (or will be compensated for medical coverage) that are comparable in the aggregate to the medical benefits afforded to employees of the Company.
- (e) On June 9, 2010, the Company sold two airplane hangars and undeveloped land to the Founder Director for \$1.45 million.

(Unaudited)

As of September 25, 2011 and December 26, 2010, the outstanding payable to JBS USA was \$16.3 million and \$7.2 million, respectively. As of September 25, 2011 and December 26, 2010, the outstanding receivable from JBS USA, LLC was \$6.0 million and \$0.5 million, respectively. As of September 25, 2011, approximately \$5.1 million of goods from JBS USA, LLC were in transit and not reflected on our Consolidated Balance Sheet.

The Company is party to grower contracts involving farms owned by the Founder Director that provide for the placement of Company-owned flocks on these farms during the grow-out phase of production. These contracts are on terms substantially the same as contracts executed by the Company with unaffiliated parties and can be terminated by either party upon completion of the grow-out phase for each flock.

The Company maintains depository accounts with a financial institution in which the Founder Director is also a major stockholder. Fees paid to this bank during the thirteen and thirty-nine weeks ended September 25, 2011 and September 26, 2010 were insignificant. The Company had account balances at this financial institution of approximately \$1.5 million and \$4.2 million at September 25, 2011 and December 26, 2010, respectively.

The Founder Director has deposited \$0.3 million with the Company as an advance on miscellaneous expenditures.

A son of the Founder Director occasionally sells commodity feed products and a limited amount of other services to the Company. There were no significant purchases during the thirteen and thirty-nine weeks ended September 25, 2011 and September 26, 2010. He also leases a small amount of land on an arm's-length basis from the Company for an insignificant rent.

On March 2, 2011, the Company contracted with a third party real estate company to market the home of our Chief Executive Officer in order for him to relocate to Colorado. The officer has been guaranteed up to \$2.1 million when the home is sold.

On October 7, 2011, the Company and certain of its wholly owned subsidiaries entered into an agreement with JBS USA, LLC and JBS Trading International, Inc. to sell certain real property, tractor trailers, inventory, equipment, accounts receivable and other assets related to our distribution and transportation businesses. The purchase price for these assets is \$23.0 million, payable in cash, subject to adjustment based on the final accounting of the assets. The closing is expected to occur on November 18, 2011. Company management analyzed the terms of the contract and believe that they were substantially similar to and contain terms no less favorable to us than those obtainable from unaffiliated parties. Additionally, the Audit Committee of the Company's Board of Directors has reviewed and approved the agreement.

On October 26, 2011 the Company entered into an agreement with Swift Pork Company, a wholly owned subsidiary of JBS USA, LLC to sell certain real property, tractor trailers, inventory, livestock, equipment, accounts receivable and other assets related to our pork business. The purchase price for these assets is \$13.0 million, payable in cash, subject to adjustment based on

the final accounting of the assets. The closing is expected to occur on December 2, 2011. Company management analyzed the terms of the contract and believe that they were substantially similar to and contain terms no less favorable to us than those obtainable from unaffiliated parties. Additionally, the Audit Committee of the Company's Board of Directors has reviewed and approved the agreement.

16. COMMITMENTS AND CONTINGENCIES

We are a party to many routine contracts in which we provide general indemnities in the normal course of business to third parties for various risks. Among other considerations, we have not recorded a liability for any of these indemnities as based upon the likelihood of payment, the fair value of such indemnities would not have a material impact on our financial condition, results of operations and cash flows.

The Company is subject to various legal proceedings and claims which arise in the ordinary course of business. In the Company's opinion, it has made appropriate and adequate accruals for claims where necessary; however, the ultimate liability for these matters is uncertain, and if significantly different than the amounts accrued, the ultimate outcome could have a material effect on the financial condition or results of operations of the Company. For a discussion of the material legal proceedings and claims, see Part II, Item 1. "Legal Proceedings." Below is a summary of some of these material proceedings and claims. The Company believes it has substantial defenses to the claims made and intends to vigorously defend these cases.

On December 1, 2008, Pilgrim's and six of its subsidiaries filed voluntary petitions for relief under Chapter 11 of the Bankruptcy Code in the Bankruptcy Court. The cases were jointly administered under Case No. 08-45664. The Company emerged from Chapter 11 on December 28, 2009. The Company continues to work through the claims allowance process with respect to claims arising before December 28, 2009. The Company will be responsible to the extent those claims become allowed claims.

Among the claims presently pending are claims brought against certain current and former directors, executive officers and employees of the Company, the Pilgrim's Pride Administrative Committee and the Pilgrim's Pride Pension Committee seeking unspecified damages under

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS
(Unaudited)

section 502 of the Employee Retirement Income Security Act of 1974 (“ERISA”), 29 U.S.C. § 1132. These claims were brought by individual participants in the Pilgrim’s Pride Retirement Savings Plan, individually and on behalf of a putative class, alleging that the defendants breached fiduciary duties to plan participants and beneficiaries or otherwise violated ERISA. Although the Company is not a named defendant in these claims, our bylaws require us to indemnify our current and former directors and officers from any liabilities and expenses incurred by them in connection with actions they took in good faith while serving as an officer or director. In these actions the plaintiffs assert claims in excess of \$35.0 million. The likelihood of an unfavorable outcome or the amount or range of any possible loss to the Company cannot be determined at this time.

Also, among the claims presently pending against the Company are two identical claims seeking unspecified damages, each brought by a stockholder, individually and on behalf of a putative class, alleging violations of certain antifraud provisions of the Securities Exchange Act of 1934. The Company intends to defend vigorously against the merits of these actions. The likelihood of an unfavorable outcome or the amount or range of any possible loss to the Company cannot be determined at this time.

Other claims presently pending against the Company are claims seeking unspecified damages brought by current or former contract chicken growers who allege, along with other assertions, that the Company breached grower contracts, conspired with a competitor to depress grower pay and made false representations to induce the plaintiffs into building chicken farms and entering into chicken growing agreements with the Company. In August 2011, the U.S. District Court for the Eastern District of Texas—Marshall Division, held a bench trial with respect to the claims of 91 growers from El Dorado, finding in favor of the Company on each of the grower claims with exception of claims under 7 U.S.C. §192(e) of the Packers and Stockyards Act of 1921, and awarding damages to plaintiffs in the aggregate of approximately \$25.8 million. We deny any liability in these actions and intend to continue vigorous defenses to the litigation, including through post judgment proceedings and appeals. There can be no assurances that other similar claims may not be brought against the Company. The Company has recorded its estimated probable loss related to these claims. We express no opinion as to the likelihood of an unfavorable outcome or the amount or range of any possible loss to us.

The IRS has filed an amended proof of claim in the Bankruptcy Court pursuant to which the IRS asserts claims that total \$74.7 million. We have filed in the Bankruptcy Court (i) an objection to the IRS’ amended proof of claim and (ii) a motion requesting the Bankruptcy Court to determine our US federal tax liability pursuant to Sections 105 and 505 of the Bankruptcy Code. The objection and motion assert that the Company has no liability for the additional US federal taxes that have been asserted for pre-petition periods by the IRS. The IRS has responded in opposition to our objection and motion. On July 8, 2010, the Bankruptcy Court granted our unopposed motion requesting that the Bankruptcy Court abstain from determining our federal tax liability. As a result, we intend to work with the IRS through the normal processes and procedures that are available to all taxpayers outside of bankruptcy (including the United States Tax Court (“Tax Court”) proceedings discussed below) to resolve the IRS’ amended proof of claim.

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS
(Unaudited)

In connection with the amended proof of claim, on May 26, 2010, we filed a petition in Tax Court in response to a Notice of Deficiency that was issued to the Company as the successor in interest to Gold Kist. The Notice of Deficiency and the Tax Court proceeding relate to a loss that Gold Kist claimed for its tax year ended June 30, 2004. The matter is currently in litigation before the Tax Court.

On August 10, 2010, we filed two petitions in Tax Court. The first petition relates to three Notices of Deficiency that were issued to us with respect to our 2003, 2005 and 2007 tax years. The second petition relates to a Notice of Deficiency that was issued to us with respect to Gold Kist's tax year ended June 30, 2005 and its short tax year ended September 30, 2005. Both cases are currently in litigation before the Tax Court.

We express no opinion as to the likelihood of an unfavorable outcome or the amount or range of any possible loss to us related to the above Tax Court cases. If adversely determined, the outcome could have a material effect on the Company's operating results and financial position.

The Notices of Deficiency and the Tax Court proceedings discussed above cover the same tax years and the same amounts that were asserted by the IRS in its \$74.7 million amended proof of claim that was filed in the Bankruptcy Court.

17. INSURANCE PROCEEDS

On August 16, 2011, an ammonia leak and explosion at our Marshville, North Carolina facility damaged portions of the building, machinery and equipment. As of September 25, 2011, the Company has incurred costs of \$5.5 million, which have been offset by an insurance receivable. The Company is in the process of filing a claim with its insurance company as a result of these damages and expects to receive proceeds in subsequent quarters. In April and May of 2011, severe weather and flooding damaged portions of the buildings, machinery and equipment at the Company's facilities in Russellville, Alabama, Sumter, South Carolina and DeQueen, Arkansas (collectively, the "Southeast Locations"). The Company received proceeds of \$1.0 million related to these damages during the thirteen weeks ended September 25, 2011. On September 19, 2010, a fire at the Company's Elberton, Georgia facility damaged a portion of the building, machinery and equipment. This facility is currently fully operational and the Company is in process of completing repairs and finalizing the insurance claim. On July 21, 2008, a fire at one of the Company's facilities in Mt. Pleasant, Texas damaged a significant portion of the plant's building, machinery and equipment. The Company resumed operations at the Mt. Pleasant plant in April 2009. The insurance claim was closed in May 2010.

18. NONCONTROLLING INTEREST

In April 2007, the Company purchased a 49% ownership interest in Merit Provisions LLC (“Merit”). Until March 2011, Merit purchased inventory from the Company for ultimate distribution to a major foodservice company. In June 2011, the Company purchased the remaining 51% ownership interest in Merit from J.O.Y. Products Corporation for \$2.5 million.

19. BUSINESS SEGMENT AND GEOGRAPHIC REPORTING

We operate in one reportable business segment, as a producer and seller of chicken products we either produce or purchase for resale in the US, Puerto Rico and Mexico. We conduct separate operations in the US, Puerto Rico and Mexico; however, for geographic reporting purposes, we include Puerto Rico with our US operations. Corporate expenses are allocated to Mexico based upon various apportionment methods for specific expenditures incurred related thereto with the remaining amounts allocated to the US.

20. SUPPLEMENTAL GUARANTOR FINANCIAL INFORMATION

On December 15, 2010, the Company closed on the sale of \$500.0 million of 7 7/8% Senior Notes due in 2018 (the "2018 Notes"). The 2018 Notes are unsecured obligations of the Company and are fully and unconditionally guaranteed on a senior unsecured basis by Pilgrim's Pride Corporation of West Virginia, Inc., a wholly owned subsidiary of the Company (the "Guarantor"). In accordance with Rule 3-10 of Regulation S-X promulgated under the Securities Act of 1933, the following condensed consolidating financial statements present the financial position, results of operations and cash flows of the Company (referred to as "Parent" for the purpose of this note only) on a Parent-only basis, the Guarantor on a Guarantor-only basis, the combined non-Guarantor subsidiaries and elimination entries necessary to arrive at the information for the Parent, the Guarantor and non-Guarantor subsidiaries on a consolidated basis. Investments in subsidiaries are accounted for by the Company using the equity method for this presentation.

The tables below present the condensed consolidating balance sheets as of September 25, 2011 and December 26, 2010, the condensed consolidating statements of operations for the thirteen and thirty-nine weeks ended September 25, 2011 and September 26, 2010 and the condensed consolidating statements of cash flows for the thirty-nine weeks ended September 25, 2011 and September 26, 2010 based on the guarantor structure.

Description of the Company

Pilgrim's Pride Corporation (referred to herein as "Pilgrim's," "PPC," "the Company," "we," "us," "our," or similar terms) is the second-largest chicken company in the United States ("US"), Mexico and Puerto Rico. Our fresh chicken retail line is sold throughout the US and Puerto Rico, and in the northern and central regions of Mexico. Our prepared-foods products meet the needs of some of the largest customers in the food service industry across the US. Additionally, the Company exports commodity chicken products to approximately 95 countries. As a vertically integrated company, we control every phase of the production of our products. We operate feed mills, hatcheries, processing plants and distribution centers in 14 US states, Puerto Rico and Mexico. Our fresh chicken products consist of refrigerated (non-frozen) whole or cut-up chicken, either pre-marinated or non-marinated, and pre-packaged chicken in various combinations of freshly refrigerated, whole chickens and chicken parts. Our prepared chicken products include portion-controlled breast fillets, tenderloins and strips, delicatessen products, salads, formed nuggets and patties and bone-in chicken parts. These products are sold either refrigerated or frozen and may be fully cooked, partially cooked or raw. In addition, these products are breaded or non-breaded and either pre-marinated or non-marinated.

On December 1, 2008, Pilgrim's and six of its subsidiaries filed voluntary petitions in the United States Bankruptcy Court for the Northern District of Texas, Fort Worth Division (the "Bankruptcy Court"), seeking reorganization relief under the provisions of Chapter 11 of Title 11 of the United States Code (the "Bankruptcy Code"). We emerged from Chapter 11 bankruptcy proceedings on December 28, 2009. In connection with our emergence from bankruptcy, our common stock outstanding immediately prior to the emergence was cancelled and converted into the right to receive newly-issued shares of common stock of the reorganized Company based on a one-for-one exchange ratio, which constituted 36.0% of the total number of shares of our newly-issued common stock on that date. The remaining shares of our newly-issued common stock, constituting 64.0% of our total issued and outstanding common stock on December 28, 2009, were purchased for \$800.0 million by JBS USA Holdings, Inc. ("JBS USA"), a wholly-owned indirect subsidiary of JBS S.A., a Brazil-based meat producer. On November 5, 2010, JBS USA increased its stake in the Company to 67.3% of the total number of shares issued and outstanding on such date.

Pilgrim's operates on a 52/53-week fiscal year that ends on the Sunday falling on or before December 31. The reader should assume any reference we make to a particular year (for example, 2011) in this quarterly report applies to our fiscal year and not the calendar year.

Executive Summary

We reported a net loss attributable to Pilgrim's Pride Corporation of \$162.5 million, or \$0.76 per diluted common share, for the thirteen weeks ended September 25, 2011 compared to net income attributable to Pilgrim's Pride Corporation of \$57.9 million, or \$0.27 per diluted common share, for the thirteen weeks ended September 26, 2010. These operating results included a gross loss of \$62.4 million and gross profit of \$157.3 million during the respective periods. During the thirteen weeks ended September 25, 2011, we did not recognize any operational restructure charges. During the thirteen weeks ended September 26, 2010, we recognized net operational restructuring charges of \$2.5 million. During the thirteen weeks ended September 25, 2011 and September 26, 2010, we recognized net administrative restructuring expenses of \$11.5 million and a gain of \$1.0 million, respectively.

We reported a net loss attributable to Pilgrim's Pride Corporation of \$411.4 million, or \$1.92 per diluted common share, for the thirty-nine weeks ended September 25, 2011 compared to a net profit attributable to Pilgrim's Pride Corporation of \$45.3 million, or \$0.21 per diluted common share, for the thirty-nine weeks ended September 26, 2010. These operating results included a gross loss of \$161.7 million and gross profit of \$341.8 million during the respective periods. During the thirty-nine weeks ended September 25, 2011, we did not recognize any operational restructuring charges. During the thirty-nine weeks ended September 26, 2010, we recognized net operational restructuring charges of \$2.5 million. During the thirty-nine weeks ended September 25, 2011 and September 26, 2010, we recognized net administrative restructuring expenses of \$11.5 million and \$51.7 million, respectively.

During the thirty-nine weeks ended September 25, 2011, \$129.5 million of cash was used in operations and during the thirty-nine weeks ended September 26, 2010, \$22.3 million of cash was provided by operations. At September 25, 2011, we had cash and cash equivalents totaling \$46.9 million.

Market prices for corn increased significantly during the twenty-six weeks ended June 26, 2011 and though these prices decreased somewhat, they remained at historically high levels throughout the thirteen weeks ended September 25, 2011. Corn prices rose to \$7.99 per bushel in June 2011 due to fears of low inventories. Market prices for feed ingredients remain volatile. Consequently, there can be no assurance that our feed ingredient prices will not continue to increase materially. The following table compares the highest and lowest prices reached on nearby futures for one bushel of corn and one ton of soybean meal during the current year and previous three years:

	Corn		Soybean Meal	
	Highest Price	Lowest Price	Highest Price	Lowest Price
2011:				
Third Quarter	\$ 7.65	\$ 6.17	\$382.20	\$325.80
Second Quarter	7.99	6.40	378.50	338.00

(a) For the years ended December 27, 2009 and December 28, 2008, respectively.

We purchase derivative financial instruments, specifically exchange-traded futures and options, in an attempt to mitigate price risk related to our anticipated consumption of commodity inputs such as corn, soybean meal and natural gas. We do not designate derivative financial instruments that we purchase to mitigate commodity purchase exposures as cash flow hedges; therefore, we recognize changes in the fair value of these derivative financial instruments immediately in earnings. During the thirteen weeks ended September 25, 2011 and September 26, 2010, we recognized \$34.4 million and \$15.4 million in net gains, respectively, related to changes in the fair values of our derivative financial instruments. During the thirty-nine weeks ended September 25, 2011 and September 26, 2010, we recognized \$60.8 million and \$6.4 million in net gains, respectively, related to changes in the fair values of our derivative financial instruments.

Market prices for chicken products remain below levels sufficient to offset the higher costs of feed ingredients. Several producers within the industry have continued to curtail production in an effort to correct the general oversupply of chicken in the US. Despite these production cuts, there can be no assurance that chicken prices will not decrease due to such factors as competition from other proteins, substitutions by consumers of non-protein foods because of uncertainty surrounding the general economy and unemployment and the potential inadequacy of the curtailments.

In February 2008, the Company's Board of Directors approved certain exit or disposal activities as part of a plan to rationalize both our manufacturing and distribution footprints and to eliminate administrative redundancies in an effort to curtail losses resulting from record-high feed ingredient costs and an oversupply of chicken in the US (the "Footprint Reduction"). Beginning in January 2010, certain exit or disposal activities were implemented by Company management to integrate the administrative functions of the Company into those of JBS USA (the "JBS USA Integration"). In July 2011, additional exit and disposal activities were implemented by Company management to consolidate operations at our Dallas, Texas facility into other facilities in the surrounding area. We recognized exit or disposal costs of \$1.0 million during the thirteen weeks ended September 25, 2011 for severance costs relating to the closure of the

Dallas, Texas facility. Results of operations for the thirty-nine weeks ended September 25, 2011 included severance costs related to the JBS USA Integration and the Dallas, Texas facility closure totaling \$2.3 million. Results of operations for the thirteen weeks ended September 26, 2010 included severance costs totaling \$3.2 million related to the JBS USA Integration. Results of operations for the thirty-nine weeks ended September 26, 2010 included severance costs totaling \$29.1 million related to the JBS USA Integration, inventory disposal costs totaling \$2.1 million related to the Footprint Reduction and \$9.9 million of incentive compensation cost and related excise tax. Results of operations for the thirteen and thirty-nine weeks ended September 25, 2011 and the thirteen and thirty-nine weeks ended September 26, 2010 also included adjustments totaling \$0.3 million, \$1.0 million, \$10.1 million and \$11.0 million, respectively, which reduced accrued costs. Adjustments recognized in the thirteen and thirty-nine weeks ended September 25, 2011 and September 26, 2010 included the elimination of accrued severance in excess of actual severance costs incurred during the exit or disposal period. During the thirty-nine weeks ended September 26, 2010, we also recognized an adjustment for the assumption of a lease obligation related to a closed office building by an outside party, accrued grower pay and favorable adjustments to incentive compensation related to excise taxes upon finalization of an incentive analysis.

Since exiting from bankruptcy, we have focused on integrating our operations into the existing operations of JBS USA. We have made a series of changes to further this integration, including streamlining administrative functions and sales networks, consolidating distribution networks, optimizing freight and storage costs, capturing shared purchasing opportunities, consolidating treasury and risk management systems and implementing best practices throughout the business. We have also continued to streamline our operations and sell assets as part of our restructuring. Since our emergence from bankruptcy, we have eliminated approximately 475 corporate and administrative positions across the organization as a result of our integration with JBS USA. As of September 25, 2011, we have substantially completed the total planned reduction in workforce of non-production positions under our integration.

During the third quarter of 2011, the Company changed its plans regarding the disposal of the Dallas, Texas processing facility. On September 30, 2011 the Company idled this facility rather than listing it for sale. During the fourth quarter of 2011, the Company will also impair the carrying amount of certain Company-owned breeder farms that supplied the Dallas facility by approximately \$0.5 million. During the third quarter of 2011, the Company recorded severance expense totaling \$1.0 million and losses on egg sales and flock depletion of \$1.6 million related to the idling of this processing facility, which were recorded in *Administrative restructuring charges, net* on the accompanying Condensed Consolidated Statements of Operations. The Company also expects to incur closing costs totaling approximately \$15.6 million and to write off related breeder hen and egg inventories of \$0.4 million in future quarters.

We continue to review and evaluate various restructuring and other alternatives to streamline our operations, improve efficiencies and reduce costs. Such initiatives may include selling assets, consolidating operations and functions, employee relocation and voluntary and involuntary employee separation programs. Any such actions may require us to obtain the pre-approval of the lenders under our secured revolving credit and term loan agreement with CoBank ACB, as

Administrative Agent and Collateral Agent, and certain other lenders party thereto (the "Exit Credit Facility"). In addition, such actions will subject us to additional short-term costs, which may include asset impairment charges, lease commitment costs, employee retention and severance costs and other costs. Certain of these activities may have a disproportionate impact on our income relative to the cost savings.

On October 7, 2011, the Company and certain of its wholly owned subsidiaries entered into an agreement with JBS USA, LLC and JBS Trading International, Inc. to sell certain real property, tractor trailers, inventory, equipment, accounts receivable and other assets related to our distribution and transportation businesses. The purchase price for these assets is \$23.0 million, payable in cash, subject to adjustment based on the final accounting of the assets. The closing is expected to occur on November 18, 2011. Company management analyzed the terms of the contract and believe that they were substantially similar to and contain terms no less favorable to us than those obtainable from unaffiliated parties. Additionally, the Audit Committee of the Company's Board of Directors has reviewed and approved the agreement.

On October 26, 2011 the Company entered into an agreement with Swift Pork Company, a wholly owned subsidiary of JBS USA, LLC to sell certain real property, tractor trailers, inventory, livestock, equipment, accounts receivable and other assets related to our pork business. The purchase price for these assets is \$13.0 million, payable in cash, subject to adjustment based on the final accounting of the assets. The closing is expected to occur on December 2, 2011. Company management analyzed the terms of the contract and believe that they were substantially similar to and contain terms no less favorable to us than those obtainable from unaffiliated parties. Additionally, the Audit Committee of the Company's Board of Directors has reviewed and approved the agreement.

In 2010, we participated in antidumping and countervailing duty proceedings initiated by the Ministry of Commerce of the People's Republic of China ("MOFCOM") concerning US chicken producers. China is one of the Company's largest international markets. MOFCOM concluded these proceedings in September 2010 and imposed antidumping and countervailing duties on the US chicken producers. The duties imposed range from 54.3% to 135.7%. The rate imposed on us is 58.5%. Until these duties are modified or eliminated, the duty rates can be expected to deter Chinese importers from purchases of US-origin chicken products, including our chicken products, and can be expected to diminish the volume of such purchases. The basis for imposing the duties may be challenged by the US in dispute settlement proceedings in the World Trade Organization.

Russia, also one of the Company's largest international markets, effectively banned US poultry imports shipped after January 1, 2010 due to residue levels left from a chlorine treatment procedure required by US Department of Agriculture regulations. On June 24, 2010, Russia and the US announced they had reached an agreement to permit the resumption of US poultry exports to Russia. We began exporting products to Russia again in September 2010. No assurances can be given that new disruptions will not arise. For example, Russia has indicated that it will develop its own internal poultry production and has set an import quota of 350,000 metric tons of poultry for 2011. We have been able to mitigate the impact of these disruptions by selling our products to other customers.

On February 7, 2011, Mexico, the top international market for US chicken in calendar year 2010, announced that it would investigate US producers over dumping complaints lodged by Mexican chicken processors. Mexican chicken processors allege US producers sold chicken legs and thighs on the Mexican market below their cost of production in 2010. We cannot predict the outcome of this investigation.

We reopened an idled processing plant in Douglas, Georgia in January 2011. The Company has currently delayed the decision to bring the Douglas, Georgia facility to full capacity during the second quarter of 2012 and will re-evaluate capacity needs during the first quarter of 2012.

Business Segment and Geographic Reporting

We operate in one reportable business segment, as a producer and seller of chicken products we either produce or purchase for resale in the US, Puerto Rico and Mexico. We conduct separate operations in the US, Puerto Rico and Mexico; however, for geographic reporting purposes, we include Puerto Rico with our US operations. Corporate expenses are allocated to Mexico based upon various apportionment methods for specific expenditures incurred related thereto with the remaining amounts allocated to the US.

Results of Operations

Thirteen Weeks Ended September 25, 2011 Compared to Thirteen Weeks Ended September 26, 2010

Net sales. Net sales generated in the thirteen weeks ended September 25, 2011 increased \$171.4 million, or 10.0%, from net sales generated in the thirteen weeks ended September 26, 2010. The following table provides net sales information:

<u>Sources of net sales</u>	<u>Thirteen Weeks Ended September 25, 2011</u>	<u>Change from Thirteen Weeks Ended September 26, 2010</u>	
		<u>Amount</u>	<u>Percent</u>
	(In thousands, except percent data)		
United States	\$ 1,698,179	\$ 132,993	8.5%(a)
Mexico	193,045	38,381	24.8%(b)
Total net sales	<u>\$ 1,891,224</u>	<u>\$ 171,374</u>	10.0%

(a) US sales generated in the thirteen weeks ended September 25, 2011 increased \$133.0 million, or 8.5%, from US sales generated in the thirteen weeks ended September 26, 2010, which resulted from higher domestic sales of \$1,502.3 million compared to \$1,446.9 million in the prior year and higher export sales of \$195.9 million compared to \$118.3 million in the prior year. An increase in unit sales volume, which resulted from the higher export and domestic demand experienced during the thirteen weeks ended September 25, 2011, contributed \$180.2 million, or 11.5 percentage points, to the period's revenue increase. A decrease in net revenue per pound sold, which resulted primarily from a less favorable product mix sold in the current year as compared to the prior year, partially offset the positive impact that increased unit sales volume had on the period's revenue comparison by \$47.2 million, or 3.0 percentage points. Included in US sales generated during the thirteen weeks ended September 25, 2011 and September 26, 2010 were sales to JBS USA, LLC totaling \$27.1 million and \$2.2 million, respectively.

(b) Mexico sales generated in the thirteen weeks ended September 25, 2011 increased \$38.4 million, or 24.8%, from Mexico sales generated in the thirteen weeks ended September 26, 2010. An increase in unit sales volume, which resulted primarily from higher customer demand, contributed \$39.9 million, or 25.8 percentage points, to the period's revenue increase. A decrease in net revenue per pound sold, which resulted primarily from an unfavorable

movement in the exchange rate between the Mexican peso and the US dollar, partially offset the positive impact that sales volume had on the period's revenue comparison by \$1.5 million, or 1.0 percentage points. Other factors affecting the increase in Mexico net sales were immaterial.

Gross profit (loss). Gross profit (loss) decreased by \$219.7 million, or 139.7% from a profit of \$157.3 million generated in the thirteen weeks ended September 26, 2010 to a loss of \$62.4 million incurred in the thirteen weeks ended September 25, 2011. The following tables provide information regarding gross profit (loss) and cost of sales information:

- (a) Cost of sales incurred by the US operations during the thirteen weeks ended September 25, 2011 increased \$328.4 million, or 22.8%, from cost of sales incurred by the US operations during the thirteen weeks ended September 26, 2010. Live production costs, which increased primarily because of higher feed ingredient costs, contributed \$239.7 million, or 16.7 percentage points, to the increase in cost of sales. The Company's focused inventory reduction efforts during the thirteen weeks ended September 25, 2011, which resulted in increased sales, contributed \$86.5 million, or 6.0 percentage points, to the increase in costs of sales. Cost of sales related to our distribution, protein conversion and other operations, which increased mainly due to higher unit sales volume and material costs, contributed \$28.4 million, or 2.0 percentage points, to the increase in cost of sales. Higher freight, storage and handling costs contributed \$6.9 million, or 0.5 percentage points, to the increase in cost of sales. The contributions to the increase in cost of sales resulting from the factors listed above were partially offset by a decrease in utility, maintenance and other processing and complex costs of \$14.3 million, or 1.0 percentage points and gains recognized on both settled and outstanding derivative instruments of \$18.9 million, or 1.3 percentage points. Included in the costs listed above are losses on egg sales and flock depletion expense of \$11.5 million, product recall expenses of \$7.9 million, live inventory lower-of-cost-or-market adjustment of \$6.0 million, and uninsured loss related to the Marshville, North Carolina facility of \$1.9 million. Other factors affecting cost of sales were immaterial.
- (b) Cost of sales incurred by the Mexico operations during the thirteen weeks ended September 25, 2011 increased \$65.2 million, or 53.3%, from cost of sales incurred by the Mexico operations during the thirteen weeks ended September 26, 2010. Increased sales volume contributed \$30.0 million, or 24.5 percentage points, and foreign currency translation contributed \$8.9 million, or 7.3 percentage points, to the increase in cost of sales. The remaining \$26.3 million, or 21.5 percentage points, of the increase in cost of sales resulted primarily from higher feed ingredient costs.
- (c) Operational restructuring charges incurred by the US operations during the thirteen weeks ended September 25, 2011 decreased \$2.5 million, or 100.0%, from operational restructuring charges incurred by the US operations during the thirteen weeks ended September 26, 2010. During the thirteen weeks ended September 25, 2011 the Company did not incur any expenses related to operational restructuring. Operational restructuring charges for the thirteen weeks ended September 26, 2010 represented noncash based impairment expense recognized to reduce the carrying amount of certain assets located in our closed processing facility in Dalton, Georgia to fair value and relocation expenses related to the integration with JBS USA.

Operating income (loss). Operating income (loss) changed by \$238.3 million, or 210.5% from income of \$113.2 million generated in the thirteen weeks ended September 26, 2010 to a loss of \$125.1 million generated in the thirteen weeks ended September 25, 2011. The following tables provide information regarding operating loss, SG&A expense and administrative restructuring charges:

- (a) SG&A expense incurred by the US operations during the thirteen weeks ended September 25, 2011 increased \$7.0 million, or 17.2%, from SG&A expense incurred by the US operations during the thirteen weeks ended September 26, 2010 primarily because of (i) a \$3.2 million increase from the prior period in costs related to relocation of the Company's corporate administrative functions from Texas to Colorado (ii) a \$1.6 million increase from the prior period in payroll and related benefit expenses (iii) an increase of \$1.9 million in costs related to the Company's insurance costs. Each of these increases resulted from favorable adjustments recognized in the prior year. Other factors affecting SG&A expense were immaterial.
- (b) SG&A expense incurred by the Mexico operations during the thirteen weeks ended September 25, 2011 decreased \$0.8 million, or 17.7%, from SG&A expense incurred by the Mexico operations during the thirteen weeks ended September 26, 2010. Decreased expenses related to bad debt accounted for \$0.8 million of the decrease in SG&A expense. Other factors affecting SG&A expense were immaterial.
- (c) Administrative restructuring charges incurred by the US operations during the thirteen weeks ended September 25, 2011 increased \$12.5 million, or 1,240.4%, from operational restructuring charges incurred by the US operations during the thirteen weeks ended September 26, 2010. During the thirteen weeks ended September 25, 2011, the Company incurred administrative restructuring charges composed of (i) noncash impairment charges of \$8.8 million, (ii) a \$1.6 million loss on egg sales and flock depletion and (iii) \$1.0 million charges related to severance. During the thirteen weeks ended September 26, 2010, the Company incurred administrative restructuring charges composed of (i) cash-based severance and change-in-control compensation charges related to our integration with JBS USA of \$3.9 million, (ii) cash-based employee relocation charges related to our integration with JBS USA of \$5.0 million and (iii) adjustments related to the reversal of incentive compensation and related excise tax of \$9.9 million.

Net interest expense. Net interest expense increased 6.8% to \$27.6 million recognized in the thirteen weeks ended September 25, 2011 from \$25.8 million recognized in the thirteen weeks

ended September 26, 2010. This resulted primarily from an increase in interest recognized on our long-term debt and other borrowing arrangements of \$6.2 million. The change was partially offset by a decrease in loan cost amortization of \$1.2 million resulting from the early extinguishment of debt in December 2010, a decrease in service fees and other interest of \$2.7 million and an increase in capitalized interest costs of \$0.7 million. Average borrowings increased from \$1.22 billion in the thirteen weeks ended September 26, 2010 to \$1.52 billion in the thirteen weeks ended September 25, 2011. The weighted average interest rate recognized increased from 6.34% in the thirteen weeks ended September 26, 2010 to 6.67% in the thirteen weeks ended September 25, 2011.

Reorganization items. The Company did not recognize any reorganization costs in the thirteen weeks ended September 25, 2011 and September 26, 2010.

Income taxes. The Company recognized an income tax benefit of \$0.06 million for the thirteen weeks ended September 25, 2011 compared to income tax expense of \$30.5 million for the thirteen weeks ended September 26, 2010. The income tax benefit reported for the thirteen weeks ended September 25, 2011 was primarily the result of the tax benefit recorded on the Company's loss for the thirteen weeks ended September 25, 2011 that is expected to be realized, offset by tax expense for items originating in the prior year and an increase in reserves for unrecognized tax benefits. The income tax expense reported for the thirteen weeks ended September 26, 2010 was primarily the result of recognizing tax expense on the income generated during the thirteen weeks ended September 26, 2010.

Net income attributable to noncontrolling interests. For the thirteen weeks ended September 25, 2011 and September 26, 2010, we recognized a net loss attributable to noncontrolling interests in certain of our consolidated subsidiaries of \$0.3 million and net income of \$0.6 million, respectively.

Thirty-Nine Weeks Ended September 25, 2011 Compared to Thirty-Nine Weeks Ended September 26, 2010

Net sales. Net sales generated in the thirty-nine weeks ended September 25, 2011 increased \$636.1 million, or 12.5%, from net sales generated in the thirty-nine weeks ended September 26, 2010. The following table provides net sales information:

(a) US sales generated in the thirty-nine weeks ended September 25, 2011 increased \$525.5 million, or 11.4%, from US sales generated in the thirty-nine weeks ended September 26, 2010, which resulted from higher domestic sales of \$4,540.1 million compared to \$4,243.6 million in the prior year and higher export sales of \$593.2 million compared to \$364.2 million in the prior year. An increase in unit sales volume, which resulted primarily from higher export and domestic demand and the Company's focused inventory reduction efforts during the thirty-nine weeks ended

September 25, 2011, contributed \$641.8 million, or 13.9 percentage points, to the period's revenue increase. A decrease in net revenue per pound sold, which resulted primarily from a less favorable product mix sold in the current year as compared to the prior year, partially offset the positive impact that increased unit sales volume had on the period's revenue comparison by \$116.3 million, or 2.5 percentage points. Included in US sales generated during the thirty-nine weeks ended September 25, 2011 and September 26, 2010 were sales to JBS USA, LLC totaling \$68.9 million and \$4.0 million, respectively.

- (b) Mexico sales generated in the thirty-nine weeks ended September 25, 2011 increased \$110.5 million, or 23.9%, from Mexico sales generated in the thirty-nine weeks ended September 26, 2010. An increase in unit sales volume, which resulted primarily from higher customer demand, contributed \$80.9 million, or 17.5 percentage points, to the period's revenue increase. An increase in net revenue per pound sold, which resulted primarily from favorable movement in the exchange rate between the Mexican peso and the US dollar, contributed \$29.6 million, or 6.4 percentage points, of the period's revenue increase. Other factors affecting the increase in Mexico net sales were immaterial.

Gross profit (loss). Gross profit (loss) decreased by \$503.5 million, or 147.3%, from a profit of \$341.8 million generated in the thirty-nine weeks ended September 26, 2010 to a loss of \$161.7 million incurred in the thirty-nine weeks ended September 25, 2011. This decrease was partially offset by a \$9.0 million increase in treasury related expenses and other miscellaneous items and a \$3.6 million increase in expenses related to the Company's insurance costs. These increases resulted from favorable adjustments recognized in the prior year. Other factors affecting SG&A expense were immaterial.
- (b) SG&A expense incurred by the Mexico operations during the thirty-nine weeks ended September 25, 2011 increased \$0.4 million, or 2.9%, from SG&A expense incurred by the Mexico operations during the thirty-nine weeks ended September 26, 2010 primarily because of (i) increased freight and storage costs of \$1.5 million that were partially offset by a \$0.6 million decrease in costs related to employee relations and a \$0.6 million decrease in costs related to bad debt.
- (c) Administrative restructuring charges incurred by the US operations during the thirty-nine weeks ended September 25, 2011 decreased \$40.2 million, or 77.8%, from operational restructuring charges incurred by the US operations during the thirty-nine weeks ended September 26, 2010. This decrease was primarily due to (i) cash-based severance and change-in-control compensation charges of \$29.8 million and (ii) cash-based employee relocation charges of \$5.0 million, each of which related to our integration with JBS USA and were incurred only in 2010, as well as (iii) a noncash impairment charges decreasing \$6.0 million during the thirty-nine weeks ended September 25, 2011, compared to the thirty-nine weeks ended September 26, 2010.

Net interest expense. Net interest expense increased 3.0% to \$81.6 million recognized in the thirty-nine weeks ended September 25, 2011 from \$79.2 million recognized in the thirty-nine weeks ended September 26, 2010. This resulted primarily from an increase in interest recognized on our long-term debt and other borrowing arrangements of \$13.8 million. This was partially offset by decreases in loan cost amortization of \$4.3 million resulting from the early extinguishment of debt in December 2010, a decrease in service fees and other interest of \$5.4 million and an increase in capitalized interest costs of \$2.2 million. Average borrowings increased from \$1.19 billion in the thirty-nine weeks ended September 26, 2010 to \$1.48 billion in the thirty-nine weeks ended September 25, 2011. The weighted average interest rate recognized increased from 6.35% in the thirty-nine weeks ended September 26, 2010 to 6.71% in the thirty-nine weeks ended September 25, 2011.

Reorganization items. The Company did not recognize any reorganization costs in the thirty-nine weeks ended September 25, 2011. The Company recognized reorganization costs of \$18.5 million in the thirty-nine weeks ended September 26, 2010, which primarily consisted of severance and other costs related to post-petition facility closures and reduction-in-force actions.

Income taxes. The Company recognized an income tax benefit of \$6.5 million for the thirty-nine weeks ended September 25, 2011 compared to an income tax benefit of \$4.3 million for the thirty-nine weeks ended September 26, 2010. The income tax benefit reported for the thirty-nine weeks ended September 25, 2011 was primarily the result of the tax benefit recorded on the Company's year-to-date loss that is expected to be realized, partially offset by tax expense for items originating in the prior year and an increase in reserves for unrecognized tax benefits. The income tax benefit reported for the thirty-nine weeks ended September 26, 2010 was primarily the result of the recognition of previously unrecognized tax benefits and tax benefits subsequently recognized for items originating in the prior year.

Net income attributable to noncontrolling interests. For the thirty-nine weeks ended September 26, 2011 and September 25, 2010, we recognized net income attributable to noncontrolling interests in certain of our consolidated subsidiaries of \$0.8 million and \$2.4 million, respectively.

Liquidity and Capital Resources

The following table presents our available sources of liquidity as of September 25, 2011:

<u>Source of Liquidity</u>	<u>Facility Amount</u>	<u>Amount Outstanding (In millions)</u>	<u>Amount Available</u>
Cash and cash equivalents	\$ —	\$ —	\$ 46.9
Short-term investments in available-for-sale securities	—	—	0.1
Borrowing arrangements:			
Exit Credit Facility	700.0	394.4	243.9 ^(a)
ING Credit Facility	22.2	—	22.2 ^(b)
JBS Subordinated Loan Agreement	100.0	50.0	50.0 ^(c)

- (a) Actual borrowings by the Company under the Exit Credit Facility are subject to a borrowing base, which is a formula based on certain eligible inventory and eligible receivables. The borrowing base availability at September 25, 2011 was \$678.4 million. Availability under the Exit Credit Facility is also reduced by the Company's outstanding standby letters of credit. Standby letters of credit outstanding at September 25, 2011 totaled \$40.1 million.
- (b) On September 23, 2011, Avícola Pilgrim's Pride de México, S. de R.L. de C.V entered into an amendment to the ING Credit Agreement, with an aggregate principal amount of 557.4 million Mexican pesos minus the Reserve Commitment Amount of 257.3 million Mexican pesos that is reserved for one or more financial institutions that are not lenders under the ING Credit Agreement as of the date of the amendment, which commitment amount can be converted to a revolving commitment pursuant to certain terms and conditions set forth in the amendment.
- (c) Under the Exit Credit Facility, the Company is also permitted to receive loans from JBS USA on a subordinated basis on terms reasonably satisfactory to the agents under the Exit Credit Facility of up to \$200.0 million. The Company has a subordinated loan facility with JBS USA of \$100.0 million, with a term loan of \$50.0 million principal amount outstanding at September 25, 2011. Under the Subordinated Loan Agreement, JBS USA will make an additional one-time term loan in the amount of \$50.0 million if the Company's availability under the revolving loan commitment under the Exit Credit Facility is less than \$200.0 million at any time.

At the present time, the Company's forecasts indicate that it will have sufficient liquidity for the foreseeable future to meet the operating and other cash flow needs of its business. However, if chicken prices and feed ingredient prices fail to improve relative to current levels, the Company's ability to maintain a sufficient level of liquidity to meet its cash flow needs could be materially jeopardized.

Senior and Subordinated Notes

On December 15, 2010, the Company closed on the sale of \$500.0 million of 7 7/8% Senior Notes due in 2018 (the "2018 Notes"). The 2018 Notes are unsecured obligations of the Company and are guaranteed by one of the Company's subsidiaries. Interest is payable on December 15 and June 15 of each year, commencing on June 15, 2011. Additionally, we have an aggregate principal balance of \$3.9 million of 7 5/8% senior unsecured notes, 8 3/8% senior subordinated unsecured notes and 9 1/4% senior unsecured notes outstanding at September 25, 2011.

On June 23, 2011, the Company entered into the Subordinated Loan Agreement JBS USA (the "Subordinated Loan Agreement"), which provided an aggregate commitment of \$100.0 million. On June 23, 2011, JBS USA made a term loan to the Company in the principal amount of \$50.0 million. In addition, JBS USA agreed to make an additional one-time term loan in the principal amount of \$50.0 million if the Company's availability under the revolving loan commitment in the Exit Credit Facility is less than \$200.0 million. Pursuant to the terms of the Subordinated Loan Agreement, we also agreed to reimburse JBS USA up to \$56.5 million for draws upon any letters of credit issued for JBS USA's account that support certain obligations of the Company or its subsidiaries. The commitment, under the Subordinated Loan Agreement, will terminate on the earlier to occur of (i) the date on which all amounts owing under the Exit Credit Facility are due and payable in accordance with its terms or (ii) June 27, 2015. Loans under the Subordinated Loan Agreement mature on June 28, 2015.

Exit Credit Facility

Upon exiting from bankruptcy, Pilgrim's and certain of its subsidiaries entered into the Exit Credit Facility that provided for an aggregate commitment of \$1.75 billion. The facility consisted of a three-year \$600.0 million revolving credit facility, a three-year \$375.0 million Term A facility and a five-year \$775.0 million Term B facility. The Exit Credit Facility also includes an

accordion feature that allows us, at any time, to increase the aggregate revolving loan commitment by up to an additional \$250.0 million and to increase the aggregate Term B loans commitment by up to an additional \$400.0 million, in each case subject to the satisfaction of certain conditions, including an aggregate cap on all commitments under the Exit Credit Facility of \$1.85 billion. On January 13, 2011, we increased the amount of the revolving loan commitments under the Exit Credit Facility to \$700.0 million. On April 22, 2011, we increased the amount of the sub-limit for swingline loans under the Exit Credit Facility to \$100.0 million. The Term A loan was repaid on December 15, 2010 with proceeds from the 2018 Notes. The revolving loan commitment and the Term B loans will mature on December 28, 2014.

On September 25, 2011, a principal amount of \$578.5 million under the Term B loans commitment and \$394.4 million under the revolving loan commitment were outstanding. On December 28, 2009, the Company also paid loan costs totaling \$50.0 million related to the Exit Credit Facility that it recognized as an asset on its balance sheet. The Company amortizes these capitalized costs to expense over the life of the Exit Credit Facility.

Subsequent to the end of each fiscal year, a portion of our cash flow must be used to repay outstanding principal amounts under the Term B loans. In April 2011, the Company paid approximately \$46.3 million of its excess cash flow toward the outstanding principal under the Term B loans. After giving effect to this prepayment and other prepayments of the Term B loans, the Term B loans must be repaid in 16 quarterly installments of approximately \$3.9 million beginning on April 15, 2011, with the final installment due on December 28, 2014. The Exit Credit Facility also requires us to use the proceeds we receive from certain asset sales and specified debt or equity issuances and upon the occurrence of other events to repay outstanding borrowings under the Exit Credit Facility.

Actual borrowings by the Company under the revolving credit commitment component of the Exit Credit Facility are subject to a borrowing base, which is a formula based on certain eligible inventory, eligible receivables and restricted cash under the control of CoBank ACB, as administrative agent under the Exit Credit Facility. As of September 25, 2011, the applicable borrowing base was \$678.4 million, the amount available for borrowing under the revolving loan commitment was \$243.9 million and outstanding borrowings and letters of credit under the revolving loan commitment were \$394.4 million and \$40.1 million, respectively.

Under the Exit Credit Facility, JBS USA, the Company's majority stockholder, or its affiliates may make loans to the Company on a subordinated basis on terms reasonably satisfactory to the agents under the Exit Credit Facility and up to \$200.0 million of such subordinated indebtedness may be included in the calculation of EBITDA (as defined in the Exit Credit Facility).

On June 23, 2011, the Company entered into an amendment to the Exit Credit Facility, which among other things temporarily suspended the requirement for the Company to comply with the fixed charge coverage ratio and senior secured leverage ratio financial covenants until September 23, 2012 and modified the consolidated tangible net worth financial covenant, which now requires the Company to maintain at least \$550.0 million, including subordinated indebtedness owed to JBS USA, plus 50.0% of the cumulative net income (excluding any losses) of the

Company and its subsidiaries from June 24, 2012 through the date of calculation. The Company is currently in compliance with the required tangible net worth covenant. However, if chicken prices and feed ingredient prices fail to improve relative to current levels, the Company's ability to maintain compliance with this financial covenant could be materially jeopardized.

The Exit Credit Facility provides that the Company may not incur capital expenditures in excess of \$175.0 million through 2012 and \$350.0 million per fiscal year thereafter. The Exit Credit Facility contains various other covenants that may adversely affect our ability to, among other things, incur additional indebtedness, incur liens, pay dividends or make certain restricted payments, consummate certain assets sales, enter into certain transactions with JBS USA and our other affiliates, merge, consolidate and/or sell or dispose of all or substantially all of our assets.

Additional information regarding the Exit Credit Facility is disclosed in "Note 11. Long-Term Debt and Other Borrowing Arrangements" to our Consolidated Financial Statements included in this quarterly report.

ING Credit Agreement

On September 25, 2006, Avícola Pilgrim's Pride de México, S. de R.L. de C.V., a wholly owned subsidiary of the Company and certain subsidiaries, entered into a secured revolving credit agreement (the "ING Credit Agreement") with ING Capital, LLC, as agent and the lenders party thereto. The ING Credit Agreement had a final maturity date of September 25, 2011.

On September 23, 2011, Avícola Pilgrim's Pride de México, S. de R.L. de C.V entered into an amendment to the ING Credit Agreement, which, among other things, (i) extended the final maturity date to October 31, 2011 and (ii) reduced the aggregate principal amount of the revolving loan commitments under the ING Credit Agreement from an aggregate principal amount of \$50.0 million to an aggregate principal amount of 557.4 million Mexican pesos minus the Reserve Commitment Amount (the "Reserve Commitment Amount"). The Reserve Commitment Amount consists of a revolving commitment of 257.3 million Mexican pesos that is reserved for one or more financial institutions that are not lenders under the ING Credit Agreement as of the date of the amendment, which commitment amount can be converted to a revolving commitment pursuant to certain terms and conditions set forth in the amendment. As of September 25, 2011, the revolving commitment was a principal amount of 300.1 million Mexican pesos, a US dollar-equivalent of \$22.2 million. There were no outstanding borrowings under the ING Credit Agreement at September 25, 2011.

Subsequent to the date of the Condensed Consolidated Balance Sheet, Avícola Pilgrim's Pride de México, S. de R.L. de C.V. and certain subsidiaries (the "Loan Parties") entered into an amended and restated credit agreement (the "Amended ING Credit Agreement") with ING Bank (México), S.A. Institución de Banca Múltiple, ING Grupo Financiero, as lender and ING Capital LLC, as administrative agent. The Amended ING Credit Agreement has a final maturity date of September 25, 2014. The Amended ING Credit has a revolving commitment of 557.4 million Mexican pesos minus the Reserve Commitment Amount.

Under the Amended ING Credit Agreement, if (i) any default or event of default has occurred and is continuing or (ii) the quotient of the borrowing base divided by the outstanding loans and letters of credit (the "Collateral Coverage Ratio") under the Amended ING Credit Agreement is less than 1.25 to 1.00, the loans and letters of credit under the Amended ING Credit Agreement will be subject to, and cannot exceed, a borrowing base. The borrowing base is a formula based on certain accounts receivable, inventory, prepaid assets, net cash under the control of the administrative agent and up to 150.0 million Mexican pesos of fixed assets of the Loan Parties. The borrowing base formula will be reduced by trade payables of the Loan Parties. If the Collateral Coverage Ratio falls below 1.25 to 1.00, the borrowing base requirement would terminate upon the earlier of (i) the Collateral Coverage Ratio exceeding 1.25 to 1.00 as of the latest measurement period for 60 consecutive days or (ii) the borrowing availability under the Amended ING Credit Agreement being equal to or greater than the greater of 20% of the revolving commitments under the Amended ING Credit Agreement and 100.0 million Mexican pesos for a period of 60 consecutive days.

The Amended ING Credit Agreement is secured by substantially the same assets and has similar terms and conditions as the ING Credit Agreement.

Off-Balance Sheet Arrangements

We are a party to many routine contracts in which we provide general indemnities in the normal course of business to third parties for various risks. Among other considerations, we have not recorded a liability for any of these indemnities as, based upon the likelihood of payment, the fair value of such indemnities would not have a material impact on our financial condition, results of operations and cash flows.

Historical Flow of Funds

Cash used in operating activities was \$129.5 million for the thirty-nine weeks ended September 25, 2011 and cash provided by operating activities was \$22.3 million for the thirty-nine weeks ended September 26, 2010. The increase in cash flows used in operating activities was primarily from a net loss of \$410.6 million for the thirty-nine weeks ended September 25, 2011 as compared to a net income of \$47.7 million for the thirty-nine weeks ended September 26, 2010.

Our working capital position, which we define as current assets less current liabilities, decreased \$145.1 million to a surplus of \$826.7 million and a current ratio of 2.16 at September 25, 2011 compared to a surplus of \$971.8 million and a current ratio of 2.32 at December 26, 2010. Key contributors to the reduction in working capital included decreases in cash and cash equivalent, inventories and prepaid expenses and other current assets, partially offset by an increase in trade accounts and other receivables and a decrease in current maturities of long-term debt.

Trade accounts and other receivables increased \$34.0 million, or 10.6% to \$355.3 million at September 25, 2011 from \$321.3 million at December 26, 2010. The change in trade accounts and other receivables resulted primarily from increased sales recognized towards the latter part of the current period.

Inventories decreased \$109.7 million, or 10.7%, to \$919.6 million at September 25, 2011 from \$1,029.3 million at December 26, 2010. The change in inventories was primarily due to a decrease in finished products resulting from the Company's concerted efforts to reduce inventory during 2011.

Prepaid expenses and other current assets decreased \$36.3 million, or 44.6%, to \$45.0 million at September 25, 2011 from \$81.3 million at December 26, 2010. This change resulted primarily from a \$4.5 million decrease in margin deposits related to derivative financial instruments, a \$23.8 million decrease in open derivative positions and a \$5.7 million decrease in prepaid grain purchases.

Accounts payable, including accounts payable to JBS USA, increased \$5.6 million, or 1.7%, to \$342.6 million at September 25, 2011 from \$337.0 million at December 26, 2010. This change resulted from the timing of payments disbursed to vendors and an increase in outstanding payables to JBS USA.

Accrued expenses and other current liabilities increased \$14.3 million, or 4.8%, to \$312.2 million at September 25, 2011 from \$297.9 million at December 26, 2010. This change resulted primarily from a \$10.7 million increase in accrued interest, a \$4.4 million increase in accrued litigation settlement costs, an \$11.7 million increase in sales programs accruals and a \$4.9 million increase in compensation, benefits and other employee-related accruals, offset by a \$9.9 million decrease in outstanding derivative liabilities and \$7.6 million in other accruals.

Cash used in investing activities was \$104.3 million and \$97.2 million in the thirty-nine weeks ended September 25, 2011 and September 26, 2010, respectively. Capital expenditures increased by \$12.8 million primarily because of the routine replacement of equipment and capital expenditures related to the reopening of the Douglas, Georgia plant. Capital expenditures for 2011 cannot exceed \$175.0 million as allowed under the terms of the Exit Credit Facility. Cash was used to purchase investment securities totaling \$4.5 million and \$9.4 million in the thirty-nine weeks ended September 25, 2011 and September 26, 2010, respectively. Cash proceeds in the thirty-nine weeks ended September 25, 2011 and September 26, 2010 from the sale or maturity of investment securities were \$14.6 million and \$9.6 million, respectively. Cash proceeds from property disposals in the thirty-nine weeks ended September 25, 2011 and September 26, 2010 were \$7.5 million and \$11.6 million, respectively.

Cash provided by financing activities was \$177.9 million in thirty-nine weeks ended September 25, 2011. Cash used in financing activities was \$113.8 million in the thirty-nine weeks ended September 26, 2010. Cash proceeds for the thirty-nine weeks ended September 25, 2011 from notes payable to JBS USA were \$50.0 million. Cash proceeds in the thirty-nine weeks ended September 25, 2011 and September 26, 2010 from long-term debt were \$804.7 million and \$1,652.7 million, respectively. Cash was used to repay long-term debt totaling \$669.8 million and \$2,508.5 million in the thirty-nine weeks ended September 25, 2011 and September 25, 2010, respectively. Cash proceeds in the thirty-nine weeks ended September 26,

2010 from the sale of common stock were \$800.0 million. Cash totaling \$2.5 million and \$7.6 million was used to purchase the remaining interest in two subsidiaries during the thirty-nine weeks ended September 25, 2011 and September 26, 2010, respectively. Cash was used to pay capitalized loan costs totaling \$4.4 million and \$50.0 million in the thirty-nine weeks ended September 25, 2011 and September 26, 2010, respectively. Cash was used to pay for other financing activities totaling \$0.1 million and \$0.4 million in the thirty-nine weeks ended September 25, 2011 and September 26, 2010, respectively.

Contractual obligations at September 25, 2011 were as follows:

Contractual Obligations ^(d)	Payments Due by Period				
	Total	Less than One Year	One to Three Years	Three to Five Years	Greater than Five Years
	(In thousands)				
Long-term debt ^(a)	\$1,523,491	\$ 15,498	\$ 31,260	\$ 976,484	\$ 500,249
Interest ^(b)	503,844	104,652	180,728	117,800	100,663
Capital leases	1,008	111	253	246	398
Operating leases	32,142	18,238	11,956	1,948	—
Derivative liabilities	6,456	6,456	—	—	—
Purchase obligations ^(c)	335,492	334,760	732	—	—
Total	\$2,402,432	\$479,715	\$ 224,929	\$1,096,478	\$ 601,310

- (a) Long-term debt includes unaccreted discount of \$3.3 million and excludes \$40.1 million in letters of credit outstanding related to normal business transactions. In April 2011, the Company paid approximately \$46.3 million of its 2010 excess cash flow toward the outstanding principal under the Term B loans. After giving effect to this prepayment and other prepayments of the Term B loans, the Term B loans must be repaid in 16 quarterly installments of approximately \$3.9 million beginning on April 15, 2011, with the final installment due on December 28, 2014.
- (b) Interest expense in the table above assumes the continuation of interest rates and outstanding borrowings under our credit facilities as of September 25, 2011.
- (c) Includes agreements to purchase goods or services that are enforceable and legally binding on us and that specify all significant terms, including fixed or minimum quantities to be purchased; fixed, minimum, or variable price provisions; and the approximate timing of the transaction.
- (d) The total amount of PPC's unrecognized tax benefits at September 25, 2011 was \$63.0 million. We did not include this amount in the contractual obligations table above as reasonable estimates cannot be made at this time of the amounts or timing of future cash outflows.

Accounting Pronouncements

Information regarding accounting pronouncements we adopted during the current year is disclosed in “Note 1. Description of Business and Basis of Presentation” to the Consolidated Financial Statements included in the quarterly report.

Critical Accounting Policies

During the thirty-nine weeks ended September 25, 2011, (i) we did not change any of our existing critical accounting policies, (ii) no existing accounting policies became critical accounting policies because of an increase in the materiality of associated transactions or changes in the circumstances to which associated judgments and estimates relate and (iii) there were no significant changes in the manner in which critical accounting policies were applied or in which related judgments and estimates were developed.

ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISKS

Commodity Prices

We purchase certain commodities, primarily corn and soybean meal, for use as ingredients in the feed we consume in our live operations. As a result, our earnings are affected by changes in the price and availability of such feed ingredients. In the past, we have from time to time attempted to minimize our exposure to the changing price and availability of such feed ingredients using various techniques, including, but not limited to, executing purchase agreements with suppliers for future physical delivery of feed ingredients at established prices and purchasing or selling derivative financial instruments such as futures and options.

Market risk is estimated as a hypothetical 10.0% change in the weighted-average cost of our primary feed ingredients as of September 25, 2011. However, fluctuations greater than 10.0% could occur. Based on our feed consumption during the thirteen weeks ended September 25, 2011, such a change would have resulted in a change to cost of sales of \$76.5 million, excluding the impact of any feed ingredients derivative financial instruments in that period. A 10.0% change in ending feed ingredient inventories at September 25, 2011 would be \$11.7 million, excluding any potential impact on the production costs of our chicken inventories.

The Company purchases derivative financial instruments, specifically exchange-traded futures and options, in an attempt to mitigate price risk related to its anticipated consumption of commodity inputs for periods of up to 12 months. A 10.0% change in corn and soybean meal prices on September 25, 2011 would have resulted in a \$0.4 million change in the fair value of our net commodity derivative asset position, including margin cash, as of that date.

Interest Rates

Our earnings are also affected by changes in interest rates due to the impact those changes have on our variable-rate debt instruments. We had variable-rate debt instruments representing approximately 43.9% of our total debt at September 25, 2011. Holding other variables constant, including levels of indebtedness, an increase in interest rates of 25 basis points would have increased our interest expense by \$0.4 million for the thirty-nine weeks ended September 25, 2011. These amounts are determined by considering the impact of the hypothetical interest rates on our variable-rate debt at September 25, 2011.

Market risk for fixed-rate debt is estimated as the potential increase in fair value resulting from a hypothetical decrease in interest rates of 10%. Using a discounted cash flow analysis, a hypothetical 10% decrease in interest rates would have increased the fair value of our fixed rate debt by approximately \$11.1 million.

Investments at September 25, 2011 were primarily comprised of corporate equity securities and both US corporate and municipal debt securities. Market risk related to our investments is not significant.

Foreign Currency

Our earnings are also affected by foreign currency exchange rate fluctuations related to the Mexican peso net monetary position of our Mexican subsidiaries. We manage this exposure primarily by attempting to minimize our Mexican peso net monetary position. We are also exposed to the effect of potential currency exchange rate fluctuations to the extent that amounts are repatriated from Mexico to the US. As of September 25, 2011, we anticipate that the cash flows of our Mexico subsidiaries will be reinvested in our Mexico operations. In addition, the Mexican peso exchange rate can directly and indirectly impact our financial condition and results of operations in several ways, including potential economic recession in Mexico because of devaluation of their currency. The impact on our financial position and results of operations resulting from a hypothetical change in the exchange rate between the US dollar and the Mexican peso cannot be reasonably estimated. Foreign currency transaction gains (losses), representing the change in the US dollar value of the net monetary assets of our Mexican subsidiaries denominated in Mexican pesos, were losses of \$11.2 million and \$0.9 million in the thirty-nine weeks ended September 25, 2011 and September 26, 2010, respectively. The average exchange rates for the thirty-nine weeks ended September 25, 2011 and September 26, 2010 were 12.01 Mexican pesos to one US dollar and 12.74 Mexican pesos to one US dollar, respectively. No assurance can be given as to how future movements in the Mexican peso could affect our future financial condition or results of operations.

Quality of Investments

We and certain retirement plans that we sponsor invest in a variety of financial instruments. We have analyzed our portfolios of investments and, to the best of our knowledge, none of our investments, including money market funds units, commercial paper and municipal securities, have been downgraded, and neither we nor any fund in which we participate hold significant amounts of structured investment vehicles, auction rate securities, collateralized debt obligations, credit derivatives, hedge funds investments, fund of funds investments or perpetual preferred securities. Certain postretirement funds in which we participate hold significant amounts of mortgage-backed securities. However, none of the mortgages collateralizing these securities are considered subprime.

Forward Looking Statements

Certain written and oral statements made by our Company and subsidiaries of our Company may constitute “forward-looking statements” as defined under the Private Securities Litigation Reform Act of 1995. This includes statements made herein, in our other filings with the SEC, in press releases, and in certain other oral and written presentations. Statements of our intentions, beliefs, expectations or predictions for the future, denoted by the words “anticipate,” “believe,” “estimate,” “expect,” “project,” “plan,” “imply,” “intend,” “foresee” and similar expressions, are forward-looking statements that reflect our current views about future events and are subject to risks, uncertainties and assumptions. Such risks, uncertainties and assumptions include the following:

- Matters affecting the chicken industry generally, including fluctuations in the commodity prices of feed ingredients and chicken;
- Actions and decisions of our creditors and other third parties with interests in our Chapter 11 proceedings;
- Our ability to fully achieve all of the anticipated synergistic gains related to the purchase of 67.3% of our common stock by JBS USA within the time frames expected;
- Our ability to obtain and maintain commercially reasonable terms with vendors and service providers;
- Our ability to maintain contracts that are critical to our operations;
- Our ability to retain management and other key individuals;
- Certain of our reorganization and exit or disposal activities, including selling assets, idling facilities, reducing production and reducing workforce, resulted in reduced capacities and sales volumes and may have a disproportionate impact on our income relative to the cost savings;
- Risk that the amounts of cash from operations together with amounts available under our Exit Credit Facility will not be sufficient to fund our operations;
- Management of our cash resources, particularly in light of our substantial leverage;
- Restrictions imposed by, and as a result of, our substantial leverage;
- Additional outbreaks of avian influenza or other diseases, either in our own flocks or elsewhere, affecting our ability to conduct our operations and/or demand for our poultry products;
- Contamination of our products, which has previously and can in the future lead to product liability claims and product recalls;
- Exposure to risks related to product liability, product recalls, property damage and injuries to persons, for which insurance coverage is expensive, limited and potentially inadequate;
- Changes in laws or regulations affecting our operations or the application thereof;
- New immigration legislation or increased enforcement efforts in connection with existing immigration legislation that cause our costs of business to increase, cause us to change the way in which we do business or otherwise disrupt our operations;
- Competitive factors and pricing pressures or the loss of one or more of our largest customers;

- Currency exchange rate fluctuations, trade barriers, exchange controls, expropriation and other risks associated with foreign operations;
- Our ability to re-open our idled facilities in the manner and on the time schedule planned due to, among other things, our dependence on commodity prices and economic conditions;
- Disruptions in international markets and distribution channels; and
- The impact of uncertainties of litigation as well as other risks described herein and under “Risk Factors” in our 2010 Annual Report on Form 10-K filed with the Securities and Exchange Commission.

Actual results could differ materially from those projected in these forward-looking statements as a result of these factors, among others, many of which are beyond our control.

In making these statements, we are not undertaking, and specifically decline to undertake, any obligation to address or update each or any factor in future filings or communications regarding our business or results, and we are not undertaking to address how any of these factors may have caused changes to information contained in previous filings or communications. Although we have attempted to list comprehensively these important cautionary risk factors, we must caution investors and others that other factors may in the future prove to be important and affect our business or results of operations.

ITEM 4. CONTROLS AND PROCEDURES

As of September 25, 2011, an evaluation was performed under the supervision and with the participation of the Company's management, including the Principal Executive Officer and Principal Financial Officer, of the effectiveness of the design and operation of the Company's "disclosure controls and procedures" (as defined in Rules 13a-15(e) and 15d-15(e) under the Securities Exchange Act of 1934 (the "Exchange Act")). Based on that evaluation, the Company's management, including the Principal Executive Officer and Principal Financial Officer, concluded the Company's disclosure controls and procedures were effective to ensure that information required to be disclosed by the Company in reports that it files or submits under the Exchange Act is recorded, processed, summarized and reported within the time periods specified in Securities and Exchange Commission rules and forms, and that information we are required to disclose in our reports filed with the Securities and Exchange Commission is accumulated and communicated to our management, including our Principal Executive Officer and Principal Financial Officer, as appropriate to allow timely decisions regarding required disclosure.

In connection with the evaluation described above, the Company's management, including the Principal Executive Officer and Principal Financial Officer, identified no change in the Company's internal control over financial reporting that occurred during the thirty-nine weeks ended September 25, 2011 and that has materially affected, or is reasonably likely to materially affect, the Company's internal control over financial reporting.

PART II. OTHER INFORMATION

ITEM 1. LEGAL PROCEEDINGS

Grower Claims and Proceedings

Ricky Arnold et al. v. Pilgrim's Pride Corp., et al. On September 10, 2008, a lawsuit styled "Ricky Arnold, et al. v. Pilgrim's Pride Corp., et al." was filed against our Company and two of its representatives. In this lawsuit, filed in the Circuit Court of Van Buren County, Arkansas, nearly 100 contract poultry growers and their spouses assert claims of fraud and deceit, constructive fraud, fraud in the inducement, promissory estoppel, and violations of the Arkansas Livestock and Poultry Contract Protection Act relating to the idling of our Clinton, Arkansas processing plant. The total amount of damages sought by the contract poultry growers is unliquidated and unknown at this time. We filed a Notice of Suggestion of Bankruptcy. The Court has not issued an order in response to it. The plaintiffs filed proofs of claim in the Bankruptcy Court, and we filed objections to the proofs of claim. The plaintiffs in the Arnold case, and a number of other growers from the Clinton, Arkansas facility filed proofs of claim in the bankruptcy case. We anticipate that the Arnold case will be resolved as a part of the claim resolution process in the Bankruptcy Court. We express no opinion as to the likelihood of an unfavorable outcome or the amount or range of any possible loss to us.

Sheila Adams, et al. v. Pilgrim's Pride Corporation. On June 1, 2009, approximately 555 former and current independent contract broiler growers, their spouses and poultry farms filed an adversary proceeding against us in the Bankruptcy Court styled "Sheila Adams, et al. v. Pilgrim's Pride Corporation." In the adversary proceeding, the plaintiffs assert claims against us for: (i) violations of Sections 202(a), (b) and (e), 7 US C. § 192 of the Packers and Stockyards Act of 1921 (the "PSA"); (ii) intentional infliction of emotional distress; (iii) violations of the Texas Deceptive Trade Practices Act ("DTPA"); (iv) promissory estoppel; (v) simple fraud; and (vi) fraud by non-disclosure. The plaintiffs also filed a motion to withdraw the reference of the adversary proceeding from the Bankruptcy Court to the U.S District for the Eastern Court of Texas ("Marshall Court"). The motion was filed with the US District Court for the Northern District of Texas—Fort Worth Division (the "Fort Worth Court"). The Bankruptcy Court recommended the reference be withdrawn, but that the Fort Worth Court retain venue over the action to ensure against forum shopping. The Fort Worth Court granted the motion to withdraw the reference and consolidated this action with the City of Clinton proceeding described below. We filed a motion to dismiss the plaintiffs' claims. The Fort Worth Court granted in part and denied in part our motion, dismissing the following claims and ordering the plaintiffs to file a motion to amend their lawsuit and re-plead their claims with further specificity or the claims would be dismissed with prejudice: (i) intentional infliction of emotional distress; (ii) promissory estoppel; (iii) simple fraud and fraudulent nondisclosure; and (iv) DTPA claims with respect to growers from Oklahoma, Arkansas, and Louisiana. The plaintiffs filed a motion for leave to amend on October 7, 2009. Plaintiffs' motion for leave was granted and the plaintiffs filed their Amended Complaint on December 7, 2009. Subsequent to the Fort Worth Court granting in part and denying in part our motion to dismiss, the plaintiffs filed a motion to transfer venue of the proceeding from the Fort Worth Court to the Marshall Court. We filed a response to the motion, but the motion to transfer was granted on December 17, 2009. On December 29, 2009, we filed

our answer to plaintiffs' Amended Complaint with the Marshall Court. A bench trial commenced on June 16, 2011. The trial concluded as to the El Dorado growers on August 25, 2011. On September 30, 2011, the Marshall Court issued its Findings of Facts and Conclusions of Law and Judgment finding in favor of the Company on each of the grower claims with exception of claims under 7 U.S.C. §192(e), and awarding damages to plaintiffs in the aggregate of approximately \$25.8 million. At this time, it is unknown when the trial will conclude. We intend to continue defense of this matter vigorously against the merits of the plaintiffs' claims through post-judgment proceedings as well as appeal of the Marshall Court's decision. The Company has recorded an estimated liability related to these claims. We express no opinion as to the likelihood of an unfavorable outcome or the amount or range of any possible loss to us.

Grower Proofs of Claim. Approximately 161 former independent contract broiler growers, their spouses and poultry farms filed proofs of claim against us relating to the idling of the Company's El Dorado, Arkansas; Douglas, Georgia; Siler City and Sanford, North Carolina; and Athens, Alabama processing facilities. Eight of the growers also filed administrative claims against us. The growers' claims include: (i) fraud; (ii) fraudulent inducement; (iii) violations of the Packers & Stockyards Act; (iv) breach of fiduciary duty; (v) promissory estoppel; (vi) equitable estoppel; (vii) restitution; and (viii) deceptive trade practices. The claims relate to the growers' allegations that they were required to spend significant amounts improving their poultry farms in order to continue their contractual relationship with our Company and predecessor companies. On December 17, 2009, we filed objections to the proofs of claim and administrative claims. The parties have engaged in discovery. Since discovery commenced, we announced that we are reopening the Douglas, Georgia complex. Consequently, we circulated new poultry grower contracts with releases to those growers that own and/or operate poultry farms within or near Douglas, Georgia. Because numerous growers signed the poultry grower agreement that contained the release of their claims, approximately 133 of the 161 growers in this consolidated claims administration proceeding withdrew their proofs of claim and motions for administrative expense claims. There are currently approximately 48 growers in this proceeding. After engaging in discovery motion practice and a trial, the majority of the 48 growers' claims were dismissed. The Company subsequently settled the remaining claims.

Numerous former independent contract growers located in our Clinton, Arkansas complex filed proofs of claim against us relating to the Arnold litigation referenced above. The claims include: (i) fraud and deceit; (ii) constructive fraud; (iii) fraud in the inducement; (iv) promissory estoppel; (v) a request for declaratory relief; and (vi) violations of the Arkansas Livestock and Poultry Contract Protection Act, and relate to the growers' allegations that they were required to spend significant amounts improving their poultry farms in order to continue their contractual relationship with our Company and predecessor companies prior to us idling our Clinton processing facility. Most of the growers in this consolidated claims administration proceeding were named plaintiffs in the case styled, "Ricky Arnold, et al. v. Pilgrim's Pride Corporation, et al." discussed above. On November 30, 2009, we filed objections to the proofs of claim. On August 2, 2010, we filed numerous motions for summary judgment requesting the Bankruptcy Court to dismiss each grower's causes of action against our Company. In response to the dispositive motions, the growers conceded that their numerous fraud and statutory claims lacked merit; consequently, the parties recently submitted agreed orders dismissing these claims with prejudice. The sole remaining cause of action alleged by the growers against us is promissory

estoppel. The hearing on our motions for summary judgment with respect to the promissory estoppel claims occurred on October 19, 2010. On December 15, 2010, the Bankruptcy Court granted the Company's summary judgment motion on 106 of the 107 growers' promissory estoppel claims. The Company settled with the grower whose claims were not dismissed for an immaterial amount. The growers whose claims were dismissed appealed the decision to the district court. Briefing of the appeal is complete, but district court has not entered a decision. The Company intends to defend vigorously against the merits of the growers' appeal. We express no opinion as to the likelihood of an unfavorable outcome or the amount or range of any possible loss to us.

Securities Litigation

On October 29, 2008, Ronald Acaldo filed suit in the US District Court for the Eastern District of Texas, Marshall Division, against us and individual defendants Lonnie "Bo" Pilgrim, Lonnie Ken Pilgrim, J. Clinton Rivers, Richard A. Cogdill and Clifford E. Butler. The Complaint alleged that our Company and the individual defendants violated sections 10(b) and 20(a) of the Securities Exchange Act of 1934, as amended, and Rule 10b-5 promulgated thereunder.

On November 13, 2008, Chad Howes filed suit in the US District Court for the Eastern District of Texas, Marshall Division, against us and individual defendants Lonnie "Bo" Pilgrim, Lonnie Ken Pilgrim, J. Clinton Rivers, Richard A. Cogdill and Clifford E. Butler. The allegations in the Howes Complaint are identical to those in the Acaldo Complaint, as are the class allegations and relief sought. The defendants were never served with the Howes Complaint.

On May 14, 2009, the Court consolidated the Acaldo and Howes cases and renamed the style of the case, "In re: Pilgrim's Pride Corporation Securities Litigation." On May 21, 2009, the Court granted the Pennsylvania Public Fund Group's Motion for Appointment of Lead Plaintiff. Thereafter, on June 26, 2009, the lead plaintiff filed a Consolidated (and amended) Complaint. The Consolidated Complaint dismissed the Company and Clifford E. Butler as Defendants. In addition, the Consolidated Complaint added the following directors as Defendants: Charles L. Black, Key Coker, Blake D. Lovette, Vance C. Miller, James G. Vetter, Jr., Donald L. Wass, Linda Chavez, and Keith W. Hughes. The Consolidated Complaint alleges four causes of action: violations of Sections 10(b) and 20(a) of the Securities and Exchange Act of 1934, as amended, and Rule 10b-5 promulgated thereunder solely against Lonnie "Bo" Pilgrim, Clint Rivers, and Richard A. Cogdill (the "Officer Defendants"). Those claims assert that, during the Class Period of May 5, 2008 through October 28, 2008, the defendants, through various financial statements, press releases and conference calls, made material misstatements of fact and/or omitted to disclose material facts by purportedly failing to completely impair the goodwill associated with the Gold Kist acquisition. The Consolidated Complaint also asserts claims under Section 11 of the Securities Act of 1933 against all defendants, asserting that, statements made in a registration statement in connection with the May 14, 2008 secondary offering of our common stock were materially false and misleading for their failure to completely impair the goodwill associated with the Gold Kist acquisition. Finally, the Consolidated Complaint asserts a violation of Section 15 of the Securities Act of 1933 against the Officer Defendants only, claiming that the Officer Defendants were controlling persons of the Company and the other defendants in connection with the Section 11 violation. By the Consolidated Complaint, the lead plaintiff seeks certification of the Class, undisclosed damages, and costs and attorneys' fees.

On July 27, 2009, defendants filed a Motion to Dismiss the Consolidated Complaint for its failure to adequately plead, as to the Sections 10(b) and 20(a) claims, scienter and loss causation and, as to the Sections 11 and 15 claims, for its failure to adequately plead misrepresentations and omissions. Defendants requested that the Consolidated Complaint be dismissed with prejudice.

On August 17, 2010, the Court issued its Memorandum Opinion and Order on the motion to dismiss, granting in part and denying in part, the defendants' motion. The Court dismissed without prejudice the plaintiffs' claims alleging securities fraud under Section 10(b) of the Exchange Act and Rule 10b-5 and for controlling person liability under Section 20(a) of the Exchange Act. The Court denied defendants' motion to dismiss with respect to the plaintiffs' claim for negligent misrepresentation under Section 11 of the Securities Act and for controlling person liability under Section 15 of the Securities Act. The plaintiffs were granted leave to amend their complaint but elected not to do so. The defendants filed their Original Answer to the Complaint on November 15, 2010.

On May 9, 2011, the Court issued an Order setting a class certification hearing for February 7, 2012 and ordering the parties to confer and file a Docket Control Order by May 26, 2011. Thereafter, as per the Court's Order, the parties negotiated a proposed Docket Control Order, which was signed by the Court on May 31, 2011.

The parties have since reached a verbal agreement to settle this matter, subject to the execution of settlement documents, notice to class members, and Court approval. In the interim, the parties have agreed not to engage in discovery. If the case does not settle as expected, the defendants intend to defend vigorously against the merits of the action and any attempts by the Lead Plaintiff to certify a class action.

ERISA Claims and Proceedings

On December 17, 2008, Kenneth Patterson filed suit in the US District Court for the Eastern District of Texas, Marshall Division, against Lonnie "Bo" Pilgrim, Lonnie Ken Pilgrim, Clifford E. Butler, J. Clinton Rivers, Richard A. Cogdill, Renee N. DeBar, our Compensation Committee and other unnamed defendants (the "Patterson action"). On January 2, 2009, a nearly identical suit was filed by Denise M. Smalls in the same court against the same defendants (the "Smalls action"). The complaints in both actions, brought pursuant to section 502 of the Employee Retirement Income Security Act of 1974 ("ERISA"), 29 US C. § 1132, alleged that the individual defendants breached fiduciary duties to participants and beneficiaries of the Pilgrim's Pride Stock Investment Plan (the "Stock Plan"), as administered through the Pilgrim's Pride Retirement Savings Plan (the "RSP"), and the To-Ricos, Inc. Employee Savings and Retirement Plan (the "To-Ricos Plan") (collectively, the "Plans") by failing to sell the common stock held by the Plans before it declined in value in late 2008, based on factual allegations similar to the allegation made in the Acaldo securities case discussed above. Patterson and Smalls further alleged that they purported to represent a class of all persons or entities who were participants in

or beneficiaries of the Plans at any time between May 5, 2008 through the present and whose accounts held our common stock or units in our common stock. Both complaints sought actual damages in the amount of any losses the Plans suffered, to be allocated among the participants' individual accounts as benefits due in proportion to the accounts' diminution in value, attorneys' fees, an order for equitable restitution and the imposition of constructive trust, and a declaration that each of the defendants have breached their fiduciary duties to the Plans' participants.

On July 20, 2009, the Court entered an order consolidating the Smalls and Patterson actions. On August 12, 2009, the Court ordered that the consolidated case will proceed under the caption "In re Pilgrim's Pride Stock Investment Plan ERISA Litigation, No. 2:08-cv-472-TJW."

Patterson and Smalls filed a consolidated amended complaint ("Amended Complaint") on March 2, 2010. The Amended Complaint names as defendants the Pilgrim's Pride Board of Directors, Lonnie "Bo" Pilgrim, Lonnie Ken Pilgrim, Charles L. Black, Linda Chavez, S. Key Coker, Keith W. Hughes, Blake D. Lovette, Vance C. Miller, James G. Vetter, Jr., Donald L. Wass, J. Clinton Rivers, Richard A. Cogdill, the Pilgrim's Pride Pension Committee, Robert A. Wright, Jane Brookshire, Renee N. DeBar, the Pilgrim's Pride Administrative Committee, Gerry Evenwel, Stacey Evans, Evelyn Boyden, and "John Does 1-10." The Amended Complaint purports to assert claims on behalf of persons who were participants in or beneficiaries of the RSP or the To-Ricos Plan at any time between January 29, 2008 through December 1, 2008 ("the alleged class period"), and whose accounts included investments in the Company's common stock.

Like the original Patterson and Smalls complaints, the Amended Complaint alleges that the defendants breached ERISA fiduciary duties to participants and beneficiaries of the RSP and To-Ricos Plan by permitting both Plans to continue investing in the Company's common stock during the alleged class period. The Amended Complaint also alleges that certain defendants were "appointing" fiduciaries who failed to monitor the performance of the defendant-fiduciaries they appointed. Further, the Amended Complaint alleges that all defendants are liable as co-fiduciaries for one another's alleged breaches. Plaintiffs seek actual damages in the amount of any losses the RSP and To-Ricos Plan attributable to the decline in the value of the common stock held by the Plans, to be allocated among the participants' individual accounts as benefits due in proportion to the accounts' alleged diminution in value, costs and attorneys' fees, an order for equitable restitution and the imposition of constructive trust, and a declaration that each of the defendants have breached their ERISA fiduciary duties to the RSP and To-Ricos Plan's participants.

The defendants filed a motion to dismiss the Amended Complaint on May 3, 2010. The plaintiffs responded to that motion on July 2, 2010, dropping plaintiff Smalls from the case and adding an additional plaintiff, Stanley Sylvestros. The defendants filed their reply in support of their motion to dismiss on August 2, 2010. The defendants filed a notice of supplemental authority in support of their motion to dismiss on April 13, 2011, to which the plaintiffs responded on April 27, 2011. The plaintiffs in turn filed their own notice of supplemental authority in opposition to the motion to dismiss on April 27, 2011, to which the defendants responded on May 10, 2011. The court has not yet ruled on the motion to dismiss.

Tax Claims and Proceedings

The Internal Revenue Service (“IRS”) has filed an amended proof of claim in the Bankruptcy Court pursuant to which the IRS asserts claims that total \$74.7 million. We have filed in the Bankruptcy Court (i) an objection to the IRS’ amended proof of claim and (ii) a motion requesting the Bankruptcy Court to determine our US federal tax liability pursuant to Sections 105 and 505 of the Bankruptcy Code. The objection and motion assert that the Company has no liability for the additional US federal taxes that have been asserted for pre-petition periods by the IRS. The IRS has responded in opposition to our objection and motion. On July 8, 2010, the Bankruptcy Court granted our unopposed motion requesting that the Bankruptcy Court abstain from determining our federal tax liability. As a result, we intend to work with the IRS through the normal processes and procedures that are available to all taxpayers outside of bankruptcy (including the United States Tax Court (“Tax Court”) proceedings discussed below) to resolve the IRS’ amended proof of claim.

In connection with the amended proof of claim, on May 26, 2010, we filed a petition in Tax Court in response to a Notice of Deficiency that was issued to the Company as the successor in interest to Gold Kist. The Notice of Deficiency and the Tax Court proceeding relate to a loss that Gold Kist claimed for its tax year ended June 30, 2004. The matter is currently in litigation before the Tax Court.

On August 10, 2010, we filed two petitions in Tax Court. The first petition relates to three Notices of Deficiency that were issued to us with respect to our 2003, 2005 and 2007 tax years. The second petition relates to a Notice of Deficiency that was issued to us with respect to Gold Kist’s tax year ended June 30, 2005 and its short tax year ended September 30, 2005. Both cases are currently in litigation before the Tax Court.

We express no opinion as to the likelihood of an unfavorable outcome or the amount or range of any possible loss to us related to the above Tax Court cases. If adversely determined, the outcome could have a material effect on the Company’s operating results and financial position.

The Notices of Deficiency and the Tax Court proceedings discussed above cover the same tax years and the same amounts that were asserted by the IRS in its \$74.7 million amended proof of claim that was filed in the Bankruptcy Court.

Other Claims and Proceedings

We are subject to various other legal proceedings and claims, which arise in the ordinary course of our business. In the opinion of management, the amount of ultimate liability with respect to these actions will not materially affect our financial condition, results of operations or cash flows.

ITEM 1A. RISK FACTORS

In addition to the other information set forth in this quarterly report, you should carefully consider the risks discussed in our 2010 Annual Report on Form 10-K, including under the heading "Item 1A. Risk Factors", which, along with risks disclosed in this report, are all the risks we believe could materially affect the Company's business, financial condition or future results. These risks are not the only risks facing the Company. Additional risks and uncertainties not currently known to the Company or that it currently deems to be immaterial also may materially adversely affect the Company's business, financial condition or future results.

ITEM 5. OTHER INFORMATION

As previously announced, the Company filed voluntary Chapter 11 petitions on December 1, 2008 and emerged from bankruptcy on December 28, 2009. The Chapter 11 cases were being jointly administered under case number 08-45664. The Company has and intends to continue to post important information about the restructuring, including quarterly operating reports and other financial information required by the Bankruptcy Court, on the Company's website www.pilgrims.com under the "Investors-Reorganization" caption. The quarterly operating reports are required to be filed with the Bankruptcy Court no later than the 20th day of the next calendar month immediately following the end of the fiscal quarter and will be posted on the Company's website concurrently with being filed with the Bankruptcy Court. The Company intends to use its website as a means of complying with its disclosure obligations under SEC Regulation FD. Information is also available via the Company's restructuring information line at (888) 830-4659.

The information contained on or accessible through the Company's website shall not be deemed to be part of this quarterly report.

Amendment No. 1 to JBS Subordinated Loan Agreement

On October 26, 2011, the Company and JBS USA entered into Amendment No. 1 to Subordinated Loan Agreement (the "Amendment"), dated as of October 26, 2011, to the Subordinated Loan Agreement, dated as of June 23, 2011, between the Company and JBS USA. The Amendment amends and restates the definition of Mayflower L/C (as defined in the Amendment), which is any letter of credit issued on the account of JBS USA for the benefit of Mayflower Insurance Company, Ltd., a wholly owned subsidiary of the Company. The Amendment increases the maximum aggregate principal amount of the Mayflower L/C from \$40,000,000 to \$56,500,000.

In accordance with the Company's Amended and Restated Certificate of Incorporation, the Amendment and the transactions contemplated by the Amendment were reviewed, evaluated and unanimously approved by the Audit Committee of the Board of Directors of the Company.

**CERTIFICATION BY PRINCIPAL EXECUTIVE OFFICER
PURSUANT TO 18 U.S.C. SECTION 1350,
AS ADOPTED PURSUANT TO SECTION 302
OF THE SARBANES-OXLEY ACT OF 2002**

I, William W. Lovette, certify that:

1. I have reviewed this quarterly report on Form 10-Q for the fiscal quarter ended September 25, 2011 of Pilgrim's Pride Corporation;
2. Based on my knowledge, this report does not contain any untrue statement of a material fact or omit to state a material fact necessary to make the statements made, in light of the circumstances under which such statements were made, not misleading with respect to the period covered by this report;
3. Based on my knowledge, the financial statements, and other financial information included in this report, fairly present in all material respects the financial condition, results of operations and cash flows of the registrant as of, and for, the periods presented in this report;
4. The registrant's other certifying officers and I are responsible for establishing and maintaining disclosure controls and procedures (as defined in Exchange Act Rules 13a-15(e) and 15d-15(e)) and internal control over financial reporting (as defined in Exchange Act Rules 13a-15(f) and 15d-15(f)) for the registrant and have:
 - a. Designed such disclosure controls and procedures, or caused such disclosure controls and procedures to be designed under our supervision, to ensure that material information relating to the registrant, including its consolidated subsidiaries, is made known to us by others within those entities, particularly during the period in which this report is being prepared;
 - b. Designed such internal control over financial reporting, or caused such internal control over financial reporting to be designed under our supervision, to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles;
 - c. Evaluated the effectiveness of the registrant's disclosure controls and procedures and presented in this report our conclusions about the effectiveness of the disclosure controls and procedures, as of the end of the period covered by this report based on such evaluation; and
 - d. Disclosed in this report any change in the registrant's internal control over financial reporting that occurred during the registrant's most recent fiscal quarter (the registrant's fourth fiscal quarter in the case of an annual report) that has materially affected, or is reasonably likely to materially affect, the registrant's internal control over financial reporting; and
5. The registrant's other certifying officers and I have disclosed, based on our most recent evaluation of internal control over financial reporting, to the registrant's auditors and the audit committee of the registrant's board of directors (or persons performing the equivalent functions):
 - a. All significant deficiencies and material weaknesses in the design or operation of internal control over financial reporting which are reasonably likely to adversely affect the registrant's ability to record, process, summarize and report financial information; and
 - b. Any fraud, whether or not material, that involves management or other employees who have a significant role in the registrant's internal control over financial reporting.
