
NOTICE OF ANNUAL MEETING OF SHAREHOLDERS

PROXY STATEMENT

AND

2009 ANNUAL REPORT

Dear Fellow Pilgrim's Shareholders:

Fiscal 2009 and the subsequent "transition quarter" that capped the end of last year served as an important turning point for Pilgrim's employees, customers and shareholders.

During that time, we made significant improvements across our organization aimed at positioning Pilgrim's to respond to the needs of the market. Those changes touched every aspect of our business, from supply chain and operations to sales and marketing. Thanks to the commitment and support of our 41,000 employees and 4,500 contract growers, Pilgrim's emerged from a 13-month reorganization on December 28, 2009, as a stronger, leaner company with a growing customer base, improved capital structure and a culture built on results and accountability.

Today our business strategy is clear. We are squarely focused on being a market-driven company that produces to the needs of our customers and the market. We have reduced our production of commodity chicken and are targeting higher-margin products. Our core retail and foodservice demand is driving supply. Our supply chain is focused on optimizing production, while our operations group is driving performance through safety, quality, productivity and cost efficiency.

All of this represents a fundamental shift in the way Pilgrim's operates. Customer demand now drives all of our production planning, rather than the other way around. The sales team establishes the forecasted demand, then works closely with operations and supply chain to produce what our customers want in the most cost-effective manner.

Our financial results improved dramatically last year as we worked to create a market-driven company clearly focused on delivering the highest levels of service, selection and value to our customers as efficiently as possible. Looking ahead, we intend to grow our volume and share in every channel as we capitalize on our strategic advantages and strong financial position.

I want to take a moment to personally thank our employees, contract growers, suppliers and customers for their tremendous support. When I look back at everything we have accomplished over the past two years, I am struck by how resilient everyone has been in the face of the challenges laid before us. There has been a true sense of shared commitment as we worked through some very difficult decisions regarding the future of this company. None of it was easy. But working together, we were able to achieve an incredibly rare feat for a company in Chapter 11 – paying back creditors in full while preserving significant value for our shareholders.

While we are pleased with the progress we have made, it's clear that we still have a lot of work ahead of us in positioning Pilgrim's for sustained, profitable growth. We will continue to focus on opportunities to improve our product mix, expand our customer base and operate more efficiently. We have a great team in place and we're excited about the strategic opportunities available with JBS USA as our majority shareholder. Going forward, we intend to deliver the results and performance that all of our shareholders expect.

Thank you for your continued support.

Only the Results Matter,

President & Chief Executive Officer

Greeley, Colorado 80634

NOTICE OF ANNUAL MEETING OF STOCKHOLDERS

To Be Held December 17, 2010

The annual meeting of stockholders of Pilgrim's Pride Corporation will be held at our headquarters, at 1770 Promontory Circle, Greeley, Colorado, on Friday, December 17, 2010, at 10:00 a.m., local time, to consider and vote on the following matters:

1. The election of six JBS Directors for the ensuing year;
2. The election of two Equity Directors and the Founder Director for the ensuing year;
3. The ratification of the appointment of Ernst & Young LLP as our independent registered public accounting firm for the fiscal year ending December 26, 2010; and
4. Such other business as may properly be brought before the meeting or any adjournment thereof.

No other matters are expected to be voted on at the meeting.

The Board of Directors has fixed the close of business on November 10, 2010, as the record date for determining stockholders entitled to notice of, and to vote at, the annual meeting. If you owned shares of our common stock at the close of business on that date, you are cordially invited to attend the annual meeting. Whether or not you plan to attend the annual meeting, please vote at your earliest convenience. Most stockholders have three options for submitting their votes prior to the meeting:

- (1) via the internet;
- (2) by phone; or
- (3) by mail.

Please refer to the specific instructions set forth on the enclosed proxy card.

Admission to the annual meeting will be limited to our stockholders, proxy holders and invited guests. If you are a stockholder of record, please bring photo identification to the annual meeting. If you hold shares through a bank, broker or other third party, please bring photo identification and a current brokerage statement.

Greeley, Colorado
November 12, 2010

DON JACKSON
*President and
Chief Executive Officer*

YOUR VOTE IS IMPORTANT!

PLEASE SIGN AND RETURN THE ACCOMPANYING PROXY OR VOTE YOUR SHARES ON THE INTERNET OR BY TELEPHONE BY FOLLOWING THE INSTRUCTIONS ON THE PROXY CARD

IMPORTANT NOTICE REGARDING THE AVAILABILITY OF PROXY MATERIALS FOR THE STOCKHOLDER MEETING TO BE HELD ON DECEMBER 17, 2010: The Proxy Statement and the 2010 Annual Report on Form 10-K are available at www.envisionreports.com/PPC. Enter the 12-digit control number located on the proxy card and click "View 2010 Stockholder Material."

Greeley, Colorado 80634

PROXY STATEMENT

GENERAL INFORMATION

Why did I receive this proxy statement?

The Board of Directors (the "Board of Directors" or the "Board") of Pilgrim's Pride Corporation is soliciting stockholder proxies for use at our annual meeting of stockholders to be held at our headquarters at 1770 Promontory Circle, Greeley, Colorado, on Friday, December 17, 2010, at 10:00 a.m., local time, and any adjournments thereof (the "meeting"). This proxy statement, the accompanying proxy card and the annual report to stockholders of Pilgrim's Pride Corporation are being mailed on or about November 17, 2010. Throughout this proxy statement, we will refer to Pilgrim's Pride Corporation as "Pilgrim's Pride," "we," "us" or the "Company."

What is the record date for the annual meeting and why is it important?

The Board of Directors has fixed November 10, 2010 as the record date for determining stockholders who are entitled to vote at the meeting (the "record date"). At the close of business on the record date, Pilgrim's Pride had 214,281,914 shares of common stock, par value \$0.01 per share, issued and outstanding.

What is the difference between holding shares as a stockholder of record and as a beneficial owner?

Most stockholders of Pilgrim's Pride hold their shares through a broker, bank or other nominee, rather than directly in their own name. As summarized below, there are some distinctions between shares held of record and those owned beneficially.

Stockholders Of Record: If your shares are registered directly in your name with our transfer agent, you are considered the stockholder of record with respect to those shares. As the stockholder of record, you have the right to vote in person at the meeting.

Beneficial Owner: If your shares are held in a stock brokerage account or by a bank or other nominee, you are considered the beneficial owner of shares held in "street name". As the beneficial owner, you have the right to direct your broker on how to vote your shares, and you are also invited to attend the meeting. Since you are not the stockholder of record, however, you may not vote your shares in person at the meeting unless you obtain a signed proxy from the holder of record giving you the right to vote the shares.

What is a proxy?

A proxy is your legal designation of another person (the "proxy") to vote on your behalf. By completing and returning the enclosed proxy card, you are giving the proxies appointed by the Board and identified on the proxy card the authority to vote your shares in the manner you indicate on your proxy card.

What if I receive more than one proxy card?

You will receive multiple proxy cards if you hold shares of our common stock in different ways (e.g., joint tenancy, trusts, custodial accounts) or in multiple accounts. If your shares are held in "street

name” (i.e., by a broker, bank or other nominee), you will receive your proxy card or voting information from your nominee, and you must return your voting instructions to that nominee. You should complete, sign and return each proxy card you receive or submit your voting instructions for each proxy card.

What are the voting rights of the common stock?

Each holder of record of our common stock on the record date is entitled to cast one vote per share on each matter presented at the meeting.

What are the three categories of Directors?

In connection with the Company’s emergence from Chapter 11 bankruptcy proceedings on December 28, 2009, the Company adopted an Amended and Restated Certificate of Incorporation (our “certificate of incorporation”) and entered into a stockholders agreement (the “JBS stockholders agreement”) with our largest stockholder, JBS USA Holdings, Inc. (“JBS USA”). Our certificate of incorporation establishes three categories of directors: JBS Directors, Equity Directors and the Founder Director.

JBS Directors are the initial six Directors designated as JBS Directors in the JBS stockholders agreement or their successors. Successor JBS Directors will be nominated by the JBS Nominating Committee. The current JBS Directors are Wesley Mendonça Batista, Joesley Mendonça Batista, José Batista Júnior, Don Jackson, Marcus Vinicius Pratini de Moraes and Wallim Cruz De Vasconcellos Junior.

Equity Directors are the initial two Directors designated as Equity Directors in the JBS stockholders agreement or their successors nominated or appointed by the Equity Nominating Committee or any stockholders other than JBS USA and its affiliates (“Minority Investors”). The current Equity Directors are Michael L. Cooper and Charles Macaluso.

The Founder Director is Lonnie “Bo” Pilgrim or, if Lonnie “Bo” Pilgrim is unable to continue serving on the Board, Lonnie Ken Pilgrim. Currently, the Founder Director is Lonnie “Bo” Pilgrim.

What are the differences between the categories of Directors?

All of our Directors serve coequal one-year terms. However, only JBS Directors can serve as members of the JBS Nominating Committee, and only Equity Directors can serve on the Equity Nominating Committee.

In connection with our emergence from Chapter 11 bankruptcy proceedings, we entered into the JBS stockholders agreement, which, among other things, requires JBS USA and its affiliates to vote all of our common stock owned by them in the same manner as the shares held by all Minority Investors with respect to the election or removal of Equity Directors. Consequently, the vote of the Minority Investors will determine the outcome of the election of Equity Directors.

In addition, the JBS stockholders agreement requires JBS USA and its affiliates to vote their shares for the election of the Founder Director until neither of Lonnie “Bo” Pilgrim and Lonnie Ken Pilgrim is able to continue serving on the Board. Because JBS USA owned or controlled over 50% of the voting power of our outstanding common stock on the record date, the Founder Director is assured of election to the Board.

With respect to all other matters submitted to a vote of holders of common stock, including the election or removal of any JBS Directors, JBS USA and its affiliates may vote shares of common stock held by them in their sole and absolute discretion.

How do I vote my shares?

If you are a “stockholder of record,” you have several choices. You can vote your proxy:

- by completing, dating, signing and mailing the enclosed proxy card;
- over the telephone; or
- via the internet.

Please refer to the specific instructions set forth on the enclosed proxy card.

If you hold your shares in “street name,” your broker, bank or nominee will provide you with materials and instructions for voting your shares.

What are the Board’s recommendations on how I should vote my shares?

The Board recommends that you vote your shares as follows:

Proposal 1: **FOR** the election of all six nominees for JBS Director.

Proposal 2: **FOR** the election of both nominees for Equity Directors and the nominee for Founder Director.

Proposal 3: **FOR** ratification of the appointment of Ernst & Young LLP as our independent registered public accounting firm for the fiscal year ending December 26, 2010.

What are my choices when voting?

With respect to:

Proposal 1: You may either (i) vote “FOR” the election of all JBS Director nominees as a group; (ii) withhold your vote on all JBS Director nominees as a group; or (iii) vote “FOR” the election of all JBS Director nominees as a group except for certain nominees identified by you in the appropriate area on the proxy card or voting instructions.

Proposal 2: You may either (i) vote “FOR” the election of both Equity Director nominees and the Founder Director nominee as a group; (ii) withhold your vote on both Equity Director nominees and the Founder Director nominee as a group; or (iii) vote “FOR” the election of both Equity Director nominees and the Founder Director nominee as a group except for certain nominees identified by you in the appropriate area on the proxy card or voting instructions.

Proposal 3: In each case, you may vote “FOR” or “AGAINST” the proposal, or you may elect to abstain from voting your shares. Abstaining will have the same effect as a vote against the proposal, as discussed below.

How will my shares be voted if I do not specify my voting instructions?

If you sign and return your proxy card without indicating how you want your shares to be voted, the proxies appointed by the Board will vote your shares as follows:

Proposal 1: **FOR** the election of all six nominees for JBS Director.

Proposal 2: **FOR** the election of both nominees for Equity Director and the nominee for Founder Director.

Proposal 3: **FOR** ratification of the appointment of Ernst & Young LLP as our independent registered public accounting firm for the fiscal year ending December 26, 2010.

What vote is required to approve each proposal?

Directors will be elected by a plurality of the votes cast at the meeting. The affirmative vote of a majority of the voting power of our common stock present in person or represented by proxy and entitled to vote at the meeting is required for the ratification of the appointment of our independent registered public accounting firm and approval of any other item of business to be voted upon at the meeting.

A “quorum” is necessary to hold the meeting. A quorum consists of a majority of the voting power of our common stock issued and outstanding and entitled to vote at the meeting, including the voting power that is present in person or by proxy. If a quorum is not represented in person or by proxy at the meeting or any adjourned meeting, the chairman of the meeting may postpone the meeting from time to time until a quorum will be represented. At any adjourned meeting at which a quorum is represented, any business may be transacted that might have been transacted at the meeting as originally called.

JBS USA owned or controlled over 50% of the voting power of our outstanding common stock on the record date. Therefore, JBS USA will be able to assure a quorum is present and will also be able to elect all of the nominees for JBS Directors and, with certain exceptions, determine the outcome of all other matters presented to a vote of the stockholders. The JBS stockholders agreement, however, requires JBS USA and its affiliates to vote all of our common stock owned by them in the same manner as the shares held by the Minority Investors with respect to the election or removal of Equity Directors. Consequently, the vote of the Minority Investors will determine the outcome of Proposal 2 to the extent it relates to the election of Messrs. Cooper and Macaluso as Equity Directors.

In addition, the JBS stockholders agreement requires JBS USA and its affiliates to vote their shares for the election of the Founder Director until neither of Lonnie “Bo” Pilgrim and Lonnie Ken Pilgrim is able to continue serving on the Board. Because JBS USA owned or controlled a majority of our outstanding common stock on the record date, Lonnie “Bo” Pilgrim, as the nominee for the Founder Director in Proposal 2, is assured of election to the Board at the meeting.

With respect to all other matters submitted to a vote of holders of common stock, including the election or removal of any JBS Directors, JBS USA and its affiliates may vote shares of common stock held by them in their sole and absolute discretion.

How are abstentions and broker non-votes treated?

Abstentions from voting on any matter will be counted in the tally of votes. Abstentions will have no effect on the election of Directors, but an abstention will have the same effect as a vote against any other proposals.

A broker “non-vote” occurs when a nominee holding shares for a beneficial owner does not vote on a particular proposal because the nominee does not have discretionary voting power for that particular item and has not received instructions from the beneficial owner. A broker non-vote will be deemed “present” at the annual meeting and will be counted for purposes of determining whether a quorum exists. Under the rules that govern brokers who are voting with respect to shares held by them in street name, if the broker has not been furnished with voting instructions by its client at least ten days before the meeting, those brokers have the discretion to vote such shares on routine matters, but not on non-routine matters. Routine matters include the appointment of auditors, submitted to the stockholders in Proposal 3. Non-routine matters include the election of Directors, submitted to stockholders in Proposal 1 and Proposal 2. As a result, with regard to Proposal 1 and Proposal 2, brokers have no discretion to vote shares where no voting instructions are received, and no vote will be cast if you do not vote on those

proposals. Consequently, broker non-votes will have no effect on the elections of Directors. *We urge you to vote on ALL voting items.*

Can I change my vote after I have mailed in my proxy card?

Yes. You may revoke your proxy by doing one of the following:

- by sending to the Secretary of the Company a written notice of revocation that is received prior to the meeting;
- by submitting a new proxy card bearing a later date to the Secretary of the Company so that it is received prior to the meeting; or
- by attending the meeting and voting your shares in person.

Who will pay the cost of this proxy solicitation?

We will pay the cost of preparing, printing and mailing this proxy statement and of soliciting proxies. We will request brokers, custodians, nominees and other like parties to forward copies of proxy materials to beneficial owners of our common stock and will reimburse these parties for their reasonable and customary charges or expenses.

Is this proxy statement the only way that proxies are being solicited?

No. In addition to mailing these proxy materials, certain of our Directors, officers or employees may solicit proxies by telephone, facsimile, e-mail or personal contact. They will not be specifically compensated for doing so.

Stockholder Proposals for 2011 Annual Meeting

We currently expect that our 2011 Annual Meeting of Stockholders will be held on December 16, 2011. Our bylaws state that a stockholder must have given our Secretary written notice, at our principal executive offices, of the stockholder's intent to present a proposal at the 2011 Annual Meeting by August 18, 2011, but not before March 21, 2011. Additionally, in order for stockholder proposals submitted pursuant to Rule 14a-8 of the Securities Exchange Act of 1934, as amended (the "Exchange Act"), to be considered for inclusion in the proxy materials for the 2011 Annual Meeting, they must be received by our Secretary at our principal executive offices no later than the close of business on July 19, 2011.

Did the Company change its fiscal year since the last annual meeting of stockholders?

Yes, on December 28, 2009, we adopted restated bylaws, which changed the Company's fiscal year end from the Saturday nearest September 30 of each year to the last Sunday in December of each year. This change aligns the Company's reporting cycle with the fiscal calendar of JBS USA. The change was effective with the Company's 2010 fiscal year, which began on September 27, 2009, and will end on December 26, 2010, and resulted in an approximate three-month transition period which began September 27, 2009 and ended December 27, 2009 (the "Transition Period"). We now operate on the basis of a 52/53-week fiscal year that ends on the Sunday falling on or before December 31. Throughout this proxy statement, we provide disclosures for 2009 Fiscal Year and the Transition Period.

PROPOSAL 1. ELECTION OF JBS DIRECTORS

Subject to limited exceptions, our certificate of incorporation specifies that the Board of Directors will consist of nine members. Our Board currently has nine members. Proxies cannot be voted for a greater number of persons than the nine nominees named.

Pursuant to our certificate of incorporation and the JBS stockholders agreement, our Board of Directors includes six JBS Directors, including the Chairman of the Board, who are designated by JBS USA. Pursuant to our stockholders agreement, Don Jackson, our Chief Executive Officer, was appointed to the Board and is included in the designees of JBS USA.

At the meeting, nine Directors, including six JBS Directors, are to be elected, each to hold office for one year or until his or her successor is duly elected and qualified. Unless otherwise specified on the proxy card or voting instructions, the shares represented by the proxy will be voted for the election of the six nominees named below. If any nominee becomes unavailable for election, it is intended that such shares will be voted for the election of a substitute nominee selected by the JBS Nominating Committee. Our Board of Directors has no reason to believe that any substitute nominee or nominees will be required.

Nominees for JBS Directors

Wesley Mendonça Batista, 40, currently serves as Chairman of the Board of Pilgrim's Pride Corporation. Mr. Batista became President and Chief Executive Officer of JBS USA in May 2007. Mr. Batista also serves as a member of JBS USA's Board of Directors. Mr. Batista is the Vice President of JBS S.A.'s Board of Directors. Mr. Batista has served in various capacities at JBS S.A. since 1987. Mr. Batista is the brother of Joesley Mendonça Batista, a Director of the Company and the President of JBS S.A., and José Batista Júnior, a Director of the Company and a Director of JBS S.A., and is the son of José Batista Sobrinho, the founder of JBS S.A. and a member of its Board of Directors.

Mr. Batista brings to the Board of Pilgrim's Pride significant senior leadership and industry experience. Mr. Batista has long been one of the most respected executives in Brazil's protein industry, and his reputation is now firmly established worldwide. Mr. Batista grew up in the protein industry, and it is his strategic insight and entrepreneurial spirit that has facilitated the growth of JBS through numerous acquisitions, expanding its reach across the globe. As Chairman of the Board, Mr. Batista has direct responsibility for Pilgrim's Pride's strategy and operations.

Joesley Mendonça Batista, 38, is currently the Chief Executive Officer of JBS S.A. and the President of its Board of Directors. Mr. Batista has served in various capacities at JBS S.A. since 1988. Mr. Batista is the brother of Wesley Mendonça Batista, a Director of the Company, and José Batista Júnior, a Director of the Company and of JBS S.A., and the son of José Batista Sobrinho, the founder of JBS S.A. and a member of its Board of Directors.

Mr. Batista has worked in the protein industry for 20 years, most recently rising to the post of President and Chief Executive Officer of JBS S.A. During his tenure as President and CEO, JBS S.A. has expanded dramatically in the United States, acquiring Swift & Company in 2007, Smithfield Beef Group and Five Rivers Ranch Cattle Feeding in 2008, and a 64% interest in the Company last year. Mr. Batista brings to the Board significant leadership, sales and marketing, industry, technical, and global experience.

José Batista Júnior, 50, is currently a Director of JBS USA, LLC and of JBS S.A. Mr. Batista Júnior has served in various capacities at JBS S.A. since 1974 and as a member of the Board of Directors of JBS S.A. since January 2, 2007. Mr. Batista Júnior is the brother of Wesley Mendonça Batista and Joesley Mendonça Batista, and the son of José Batista Sobrinho, the founder of JBS S.A. and a member of its Board of Directors.

Mr. Batista, known as "Junior," began his career in the industry in 1977 when he took a position as a trainee in Friboi (now JBS S.A.) in Brazil and worked in all facets of the business, rising to lead the

sales, hygiene, and cleaning divisions until he was named President of the Board of Directors of JBS S.A. in 2006. In addition to his vast industry experience, Mr. Batista brings to the Board significant global experience and knowledge of competitive strategy and international competition.

Don Jackson, 59, has served as President, Chief Executive Officer and Director since January 2009. Previously, Dr. Jackson served as president of Foster Farms' poultry division, based in Livingston, California, since 2000. Prior to that, he served as executive vice president for foodservice of the former ConAgra Poultry Company in Duluth, Georgia. Before that he worked for 22 years for Seaboard Farms of Athens, Georgia, including four years as president and CEO of their poultry division. Dr. Jackson served as our Chief Executive Officer and President during the pendency of our Chapter 11 bankruptcy proceedings.

In addition to his 32 years of leadership and experience in various executive positions at five different companies as detailed above, Dr. Jackson brings invaluable industry-specific expertise to the Board. After earning his PhD in Animal Science from Colorado State University in Fort Collins, Colorado, Dr. Jackson advanced through the Seaboard Farms organization and led Live Production there before serving as Seaboard's President and CEO. Accordingly, Dr. Jackson brings unparalleled industry insight which, in his role as President and CEO, has proven integral to the Company's success during and subsequent to its emergence from Chapter 11 bankruptcy.

Marcus Vinicius Pratini de Moraes, 71, is currently a member of the Board and President of the Business Strategy Committee of JBS Friboi, Chairman of the Brazilian Chapter of CEAL (Business Council of Latin America), Vice Chairman of the Board of COSAN Ltd., a member of the Board of COSCEX - Superior Council of Foreign Trade at FIESP (Foreign Trade Board of the Federation of Industries of the State of Sao Paulo), and Director of DEAGRO Division - Agrobusiness Department for Products of Animal Origin at FIESP (Foreign Trade Board of the Federation of Industries of the State of Sao Paulo). Dr. Pratini de Moraes was a former Chairman of the Advisory Board of Solvay and Cie., Brazil and a former member of the Advisory Council of BM&F (Brazilian Mercantile & Futures Exchange). Dr. Pratini de Moraes was a member of the Supervisory Board of ABN AMRO Bank from 2003 to 2007. He also had a long career in Brazil's public sector.

Dr. Pratini de Moraes brings to the Board of Directors continuing experience in dealing with foreign governments and substantial expertise in matters affecting international commerce. Dr. Pratini de Moraes has served in various roles in Brazilian government including, but not limited to, the Deputy Minister of Planning, the Minister of Industry and Trade, a Congressman, the Minister of Mines and Energy and the Minister of Agriculture, Livestock and Food Supply. Additionally, as a director for other multinational companies, Dr. Pratini de Moraes also provides cross-board experience.

Wallim Cruz De Vasconcellos Junior, 52, has served as a Partner of Iposeira Partners Ltd, a provider of advisory services for mergers and acquisitions and restructuring transactions since 2003. Mr. Vasconcellos served as a Consultant to IFC/World Bank from 2003 to 2008. He is currently a Member of the Board of Santos Brasil S.A. and served as a Member of the Board of Cremer S.A. from 2006 to 2008.

Regarded as one of Brazil's preeminent business strategists, Mr. Vasconcellos brings to the Board real-time experience in the areas of mergers and acquisitions, capital markets, finance, and restructurings, and offers unique insights into global market strategies. In addition, Mr. Vasconcellos' experience working on behalf of public financial institutions enables him to provide perspective and oversight with regard to the Company's financial strategies.

The Board of Directors recommends that you vote FOR the election of all of the individuals who have been nominated to serve as JBS Directors. Proxies will be so voted unless stockholders specify otherwise.

PROPOSAL 2. ELECTION OF EQUITY DIRECTORS AND THE FOUNDER DIRECTOR

Pursuant to our certificate of incorporation and the JBS stockholders agreement, our Board of Directors includes two members designated by the statutory Equity Committee, our Equity Directors, and one member who is the Founder Director. Our two Equity Director nominees are Michael L. Cooper and Charles Macaluso. Our Founder Director is Lonnie “Bo” Pilgrim.

The JBS stockholders agreement requires JBS USA and its affiliates to vote all of our common stock owned by them in the same manner as the shares held by the Minority Investors with respect to the election or removal of Equity Directors. Consequently, the vote of the Minority Investors will determine the outcome of this Proposal 2 to the extent it relates to the election of Messrs. Cooper and Macaluso.

In addition, the Company and Lonnie “Bo” Pilgrim entered into a consulting agreement dated September 16, 2009 (the “Consulting Agreement”), which became effective upon our emergence from Chapter 11 proceedings on December 28, 2009. Pursuant to the terms of the Consulting Agreement, among other things, the Company agreed that Mr. Pilgrim would be nominated for subsequent terms on the Board during the term of the Consulting Agreement. The JBS stockholders agreement also requires JBS USA and its affiliates to vote their shares for the election of the Founder Director at the meeting. Because JBS USA owned or controlled a majority of our outstanding common stock on the record date, the Founder Director is assured of election to the Board at the meeting.

At the meeting, nine Directors, including two Equity Directors and the Founder Director, are to be elected, each to hold office for one year or until his or her successor is duly elected and qualified. Unless otherwise specified on the proxy card or voting instructions, the shares represented by the proxy will be voted for the election of the three nominees named below. If either nominee for Equity Director becomes unavailable for election, it is intended that such shares will be voted for the election of a substitute nominee selected by the Equity Nominating Committee. If Lonnie “Bo” Pilgrim becomes unavailable for election, it is intended that such shares will be voted for the election of Lonnie Ken Pilgrim in accordance with the provisions of our certificate of incorporation and the JBS stockholders agreement. Our Board of Directors has no reason to believe that any substitute nominee or nominees will be required.

Nominees for Equity Director and Founder Director

Lonnie “Bo” Pilgrim, 82, has served as a Director since July 1968. He served as the Senior Chairman of the Board from July 2007 to December 2009. He served as Chairman of the Board from our organization in July 1968 until July 2007. He also served as Chief Executive Officer from July 1968 to June 1998. Prior to our incorporation, Mr. Pilgrim was a partner in our predecessor partnership business founded in 1946. Mr. Pilgrim served as our Senior Chairman of the Board during the pendency of our Chapter 11 bankruptcy proceedings.

Mr. Pilgrim is a director and former chairman of the National Chicken Council. As a past leader in the Midwest Feed Manufacturer’s Association, the Texas Water Resources Board and the Texas Governor’s Task Force for Agriculture, he has been an ardent spokesman for the agriculture industry. Mr. Pilgrim is also a former member of the Dallas Baptist University Board of Trustees and is Chairman and majority owner of Pilgrim Bank in northeast Texas. As an original partner in the Company’s predecessor partnership founded in 1946, Mr. Pilgrim brings vast experience and a unique perspective to our Board. His experience with the Company is unparalleled, and his involvement with numerous other companies provides cross-board and industry-wide expertise.

Michael L. Cooper, 60, is the Executive Vice President, Managing Partner, Chief Financial Officer and a Director of Kincannon & Reed, an executive search firm for the food and agribusiness sectors, where he has been employed since July 2004. He also currently serves on the National Chicken Council’s Allied Leader Board. From September 2002 to July 2004, Mr. Cooper served as the Chief

Executive Officer of Meyer Natural Angus. From January 1996 to July 2002, Mr. Cooper was employed by Perdue Farms, Inc., where he served in various roles, including as President, Retail Products, from February 2000 to July 2002, and as Senior Vice President and Chief Financial Officer from January 1996 through February 2000. From August 1992 to January 1996, he served as Vice President, Chief Financial Officer, Secretary and Treasurer of Rocco Enterprises. Mr. Cooper also served in various senior financial roles with Dial Corporation over a 14 year career with that company.

Mr. Cooper brings to the Board significant senior leadership, management, operational, financial, and brand management experience. His extensive poultry industry experience enables him to offer a valuable insight on the business, financial and regulatory issues currently being faced by the poultry industry.

Charles Macaluso, 66, has been a principal of Dorchester Capital, LLC, a management consulting and corporate advisory service firm focusing on operational assessment, strategic planning and workouts since 1998. From 1996 to 1998, he was a partner at Miller Associates, Inc., a workout, turnaround partnership, focusing on operational assessment, strategic planning and crisis management. Mr. Macaluso currently serves as a director of the following public companies: Global Crossing Ltd., where he is also a member of the audit committee; Lazy Days RV SuperCenters, Inc., where he is also a member of the audit committee; and Darling International, as Lead Director. He also serves as a Chairman of the Board of three private companies.

Mr. Macaluso brings fundamental expertise to our Board in the areas of operational assessment, strategic planning, crisis management, and turnaround advisory services, which expertise supports the Board's efforts in overseeing and advising on strategy and financial matters. In addition, Mr. Macaluso brings to the Board substantial cross-board expertise due to his tenure on a number of public and private company boards and committees.

The Board of Directors recommends that you vote FOR the election of all of the individuals who have been nominated to serve as Equity Directors and as the Founder Director. Proxies will be so voted unless stockholders specify otherwise.

CORPORATE GOVERNANCE

Board of Directors

Our Board of Directors has the responsibility for establishing broad corporate policies and for our overall performance, but it is not involved in our day-to-day operating decisions. Members of the Board are informed of our business through discussions with the Chief Executive Officer and other officers, and through their review of analyses and reports sent to them each month, as well as through participation in Board and committee meetings.

Board of Directors Independence

Our Board of Directors has affirmatively determined that each of Michael L. Cooper, Charles Macaluso, Marcus Vinicius Pratini de Moraes and Wallim Cruz De Vasconcellos Junior, has no material relationship with the Company (either directly or as a partner, stockholder or officer of an organization that has a relationship with us) and is independent within the meaning of our Corporate Governance Policy's categorical independence standards and the NYSE listing standards.

Committees of the Board of Directors

To assist in carrying out its duties, the Board of Directors has delegated certain authority to the Audit, Compensation, JBS Nominating and Equity Nominating Committees. Each committee of the Board meets to examine various facets of our operations and take appropriate action or make recommendations to the Board of Directors.

Audit Committee. The Audit Committee prior to emergence from our Chapter 11 bankruptcy proceedings consisted of Vance C. Miller, Sr., Keith W. Hughes and Linda Chavez. All of the members of the Audit Committee resigned on December 28, 2009. Since their resignation, the members of the Audit Committee have been Michael L. Cooper, Charles Macaluso and Wallim Cruz De Vasconcellos Junior. Our Audit Committee's responsibilities include selecting our independent registered public accounting firm, reviewing the plan and results of the audit performed by our independent registered public accounting firm and the adequacy of our systems of internal accounting controls, and monitoring compliance with our conflicts of interest and business ethics policies. The Audit Committee is composed entirely of Directors who the Board of Directors has determined to be independent within the meaning of the NYSE listing standards. The Board has determined that each of the members of the Audit Committee is financially literate for purposes of the applicable listing standards of the NYSE ("financially literate") and Michael L. Cooper is an "audit committee financial expert" within the meaning of the regulations of the SEC. The Audit Committee has an Audit Committee Charter, which is available on our website at www.pilgrimspride.com, under the "Investors – Corporate Governance" caption.

Compensation Committee. The Compensation Committee prior to emergence from our Chapter 11 bankruptcy proceedings consisted of Lonnie "Bo" Pilgrim, the co-founder and former Senior Chairman of the Board, his son, Lonnie Ken Pilgrim, and three independent directors, including Vance C. Miller, Sr., James G. Vetter, Jr. and Blake D. Lovette. Prior to emergence from our Chapter 11 bankruptcy proceedings, the Compensation Committee also had a subcommittee consisting of Charles L. Black and Vance C. Miller, Sr. All of the members of the Compensation Committee resigned on December 28, 2009. Since that time, the members of the Compensation Committee have been Wesley Mendonça Batista, Wallim Cruz de Vasconcellos Junior and Michael Cooper.

Our Compensation Committee reviews our remuneration policies and practices and establishes the salaries of our officers. Prior to our emergence from Chapter 11 bankruptcy proceedings, the Compensation Subcommittee was responsible for administering certain aspects of the Pilgrim's Pride Corporation Senior Executive Performance Bonus Plan dealing with compensation for designated Section 162(m) participants, which for fiscal year end September 26, 2009 and the transition period from

September 27, 2009 through December 27, 2009 included Lonnie “Bo” Pilgrim, Lonnie Ken Pilgrim and Richard A. Cogdill. The Compensation Committee does not have a Charter.

Special Nominating Committees. Under our certificate of incorporation, the Board also has two Special Nominating Committees, which include the JBS Nominating Committee and the Equity Nominating Committee. The JBS Nominating Committee is required to consist solely of JBS Directors and presently includes Wesley Mendonça Batista, Joesley Mendonça Batista, José Batista Júnior, Don Jackson, Marcus Vinicius Pratini de Moraes and Wallim Cruz De Vasconcellos Junior. The Equity Nominating Committee is required to consist solely of all of the Equity Directors and presently includes Michael L. Cooper and Charles Macaluso.

The JBS Nominating Committee has the exclusive authority to nominate the JBS Directors, fill JBS Director vacancies and select the members of the JBS Nominating Committee. The Equity Nominating Committee has the exclusive authority to nominate the Equity Directors, fill Equity Director vacancies, select the members of the Equity Nominating Committee, and to call a special meeting of stockholders under certain circumstances. The Equity Nominating Committee, acting by majority vote, also has the exclusive right to control the exercise of our rights and remedies under the JBS stockholders agreement. Any member or alternate member of the Equity Nominating Committee may be removed only by the approval of a majority of the members of the Equity Nominating Committee.

For so long as JBS USA and its affiliates beneficially own 35% or more of our outstanding common stock, no person may be nominated as an Equity Director by the Equity Nominating Committee if JBS USA reasonably determines that such person (i) is unethical or lacks integrity or (ii) is a competitor or is affiliated with a competitor of the Company. Two Equity Directors (or one if there is only one Equity Director on the Board) must satisfy the independence requirements of Rule 10A-3 under the Securities Exchange Act of 1934, as amended (the “Exchange Act”), and be financially literate, and, for so long as there are two or more Equity Directors on the Board, at least one Equity Director must qualify as an “audit committee financial expert” as that term is used in Item 407 of Regulation S-K under the Exchange Act (or any successor rule).

If JBS USA and its affiliates own at least 50% of our outstanding common stock, at least one JBS Director is required:

- to be an independent director,
- to satisfy the independence requirements of Rule 10A-3 under the Exchange Act, and
- to be financially literate.

Each of the Board’s Special Nominating Committees has a Charter, current copies of which are available on our website at www.pilgrimspride.com, under the “Investors – Corporate Governance” caption.

Our Special Nominating Committees do not have a policy with regard to the consideration of any Director candidates recommended by our stockholders, and they do not have a formal policy with regard to the consideration of diversity in identifying Director nominees. However, the Special Nominating Committees strive to achieve a balance of knowledge, experience and perspective such that the Board reflects a diversity of backgrounds and experiences. In addition, the Special Nominating Committees will consider stockholder recommendations for candidates for the Board, which should be sent to Pilgrim’s Pride Corporation, Corporate Secretary, 1770 Promontory Circle, Greeley, Colorado 80634.

Meetings

During the fiscal year ended September 26, 2009, the Board of Directors held 15 regular and 17 telephonic meetings, the Audit Committee held 5 regular meetings and 5 telephonic meetings, the Compensation Committee held 3 meetings, the Compensation Subcommittee held no meetings, and there

were 8 executive sessions including only non-management Directors. During the Transition Period from September 27, 2009 through December 27, 2009 the Board of Directors held 1 regular and 1 telephonic meeting, the Audit Committee held 1 regular meeting and no telephonic meetings, the Compensation Committee held no meetings, the Compensation Subcommittee held no meetings, and there was 1 executive session including only non-management Directors. During each of 2009 Fiscal Year and the Transition Period, each member of the Board of Directors attended at least 75% of the aggregate number of meetings of the Board and Board Committees on which the Director served. All Directors attended our 2008 Annual Meeting. An annual meeting of stockholders was not held during 2009. While we do not have a formal policy regarding Director attendance at annual meetings of stockholders, we encourage each Director to attend each annual meeting of stockholders.

Board Leadership Structure and Risk Oversight

The position of our Chairman of the Board and the office of the President and Chief Executive Officer are held by different persons. Our Chairman of the Board is Wesley Mendonça Batista, and our Chief Executive Officer and President is Don Jackson.

We separate the roles of Chief Executive Officer and Chairman of the Board in recognition of the differences between the two roles. The Chief Executive Officer is responsible for setting the strategic direction for the Company and the day-to-day leadership and performance of the Company, while the Chairman of the Board provides guidance to the Chief Executive Officer and sets the agenda for Board meetings and presides over meetings of the full Board. We believe the division of duties is especially appropriate as legal and regulatory requirements applicable to the Board and its committees continue to expand, and it facilitates the appropriate levels of communication between the Board of Directors and executive management for Board oversight of the Company and its management.

Because Wesley Mendonça Batista, Joesley Mendonça Batista, José Batista Júnior, Don Jackson and Lonnie “Bo” Pilgrim are not independent Directors, the Board will either designate an independent Director to preside at the meetings of the non-management and independent Directors or they will prescribe a procedure by which a presiding Director is selected for these meetings. In the absence of another procedure being adopted by the Board, the person appointed will be the independent Director with the longest tenure on the Board in attendance at the meeting. The Board generally holds meetings of non-management directors 4 times per year and meetings of independent directors 4 times per year.

The Company’s management is responsible for the ongoing assessment and management of the risks the Company faces, including risks relating to capital structure, strategy, liquidity and credit, financial reporting and public disclosure, operations and governance. The Board oversees management’s policies and procedures in addressing these and other risks. Additionally, each of the Board’s four committees (the Audit Committee, Compensation Committee and the Special Nominating Committees) monitor and report to the Board those risks that fall within the scope of such committees’ respective areas of oversight responsibility. For example, the full Board directly oversees strategic risks. The Special Nominating Committees directly oversee risk management relating to Director nominations and independence. The Compensation Committee directly oversees risk management relating to employee compensation, including any risks of compensation programs encouraging excessive risk-taking. Finally, the Audit Committee directly oversees risk management relating to financial reporting, public disclosure and legal and regulatory compliance. The Audit Committee is also responsible for assessing the steps management has taken to monitor and control these risks and exposures and discussing guidelines and policies with respect to the Company’s risk assessment and risk management.

Communications with the Board of Directors

Stockholders and other interested parties may communicate directly with our Board of Directors, any of its committees, all independent Directors, all non-management Directors, or any one Director

serving on the Board by sending written correspondence to the desired person or entity attention of our Corporate Counsel at Pilgrim's Pride Corporation, 1770 Promontory Circle, Greeley, Colorado 80634. Communications are distributed to the Board, or to any individual Director or Directors as appropriate, depending on the facts and circumstances outlined in the communication.

Code of Business Conduct and Ethics and Corporate Governance Policies

Our Board of Directors has adopted a Code of Business Conduct and Ethics and Corporate Governance Policies of the Board of Directors. The full texts of the Code of Business Conduct and Ethics and Corporate Governance Policies are posted on our website at www.pilgrimspride.com, under the "Investors – Corporate Governance" caption and are also available in print to any stockholder who requests them. We intend to disclose future amendments to, or waivers from, certain provisions of the Code of Business Conduct and Ethics on our website within four business days following the date of such amendment or waiver.

REPORT OF THE COMPENSATION COMMITTEE

The Compensation Committee of the board of Directors of Pilgrim's Pride Corporation (the "Company") has reviewed and discussed with management the following Compensation Discussion and Analysis section of the Company's Proxy Statement for the fiscal year ended September 26, 2009 and the three-month period from September 27, 2009 to December 27, 2009 (the "Proxy Statement"). Based on our review and discussions, we have recommended to the Board of Directors that the Compensation Discussion and Analysis be included in the Proxy Statement to be filed with the Securities and Exchange Commission.

Compensation Committee

Wesley Mendonça Batista
Michael Cooper
Wallim Cruz de Vasconcellos Junior

The information contained in this report shall not be deemed to be "soliciting material" or "filed" or incorporated by reference in future filings with the Securities and Exchange Commission, or subject to the liabilities of Section 18 of the Securities Exchange Act of 1934, as amended, except to the extent that the Company specifically incorporates it by reference into a document filed under the Securities Act of 1933, as amended, or Securities Exchange Act of 1934, as amended.

COMPENSATION DISCUSSION AND ANALYSIS

The following discusses the material elements of the compensation for our current and former principal executive officer, principal financial officer and four other most highly compensated executive officers listed in the “Summary Compensation Table” on page 26 (collectively, the “named executive officers”) during our fiscal year ended September 26, 2009 (“2009 Fiscal Year”) and the three-month period from September 27, 2009 to December 27, 2009 (the “Transition Period”). The Transition Period results from the change in the Company’s fiscal year end from the Saturday nearest September 30 of each year to the last Sunday in December of each year. To assist in understanding compensation for the 2009 Fiscal Year and the Transition Period, we have included a discussion of our compensation policies and decisions for periods before and after the 2009 Fiscal Year and the Transition Period where relevant. For information concerning the compensation discussion and analysis of William K. Snyder, our former Chief Restructuring Officer, see “Chief Restructuring Officer” below.

We emerged from our Chapter 11 bankruptcy proceedings on December 28, 2009. The Compensation Committee prior to our emergence from bankruptcy consisted of Lonnie “Bo” Pilgrim, the co-founder and former Senior Chairman of the Board, his son, Lonnie Ken Pilgrim, and three independent directors, including Vance C. Miller, Sr., James G. Vetter, Jr. and Blake D. Lovette. All of the members of the Compensation Committee resigned from the committee on December 28, 2009. Effective on December 28, 2009, Wesley Mendonça Batista, Michael Cooper and Wallim Cruz de Vasconcellos Junior were appointed to the Compensation Committee. All actions, determinations and decisions made by the Compensation Committee during the 2009 Fiscal Year and the Transition Period were made by the prior Compensation Committee.

Prior to the commencement, and during the pendency of our Chapter 11 bankruptcy proceedings, our prior Compensation Committee had the overall responsibility for establishing executive compensation and overseeing the administration of our incentive plans and employee benefit plans. However, during our Chapter 11 bankruptcy proceedings, many of the prior Compensation Committee’s actions (including its approval of the amended and restated employment agreement of Don Jackson, our President and Chief Executive Officer (the “Employment Agreement”) and the 2009 Performance Bonus Plan (the “FY2009 Performance Bonus Plan”) and its engagement of Mr. Snyder as the Company’s Chief Restructuring Officer), were subject to the approval of the Bankruptcy Court. The Employment Agreement, the FY2009 Performance Bonus Plan, and certain other actions of the Compensation Committee during the 2009 Fiscal Year and the Transition Period were also subject to negotiations with the Company’s statutory committees formed during the bankruptcy proceedings, the Unsecured Creditors’ Committee, the Equity Committee, and other constituencies.

Executive Compensation Philosophy and Objectives

Prior to our Chapter 11 bankruptcy proceedings, the objectives of our compensation program were to attract, retain and motivate competent executive officers who had the experience and ability to contribute to the success of our business. Given the challenges faced by our Company and our industry during the 2009 Fiscal Year and the Transition Period, the Compensation Committee determined to motivate current senior executives, as well as attract and motivate new executives, to attain performance goals that would allow us to continue as a going concern and to develop a reorganization plan that would enable us to achieve an expedient and successful reorganization and emerge from bankruptcy positioned for long-term profitability and growth. Accordingly, our compensation program for the 2009 Fiscal Year and the Transition Period, was designed to reward effectiveness, efficiency, flexibility and commitment with the goal of retaining and motivating our executives and, as deemed appropriate, to attract new executives to achieve our corporate objectives.

As discussed above, during our reorganization proceedings, certain aspects of our executive compensation program were subject to the requirements of the Bankruptcy Code, as well as approval by

the Bankruptcy Court, the statutory committees and other constituencies. Consequently, the Compensation Committee's philosophy and objectives were often affected by the requirements of the Bankruptcy Code and the Bankruptcy Court and the interests of the statutory committees.

Role of the Compensation Committee and Executive Officers in Compensation Decisions

The prior Compensation Committee was responsible for establishing and overseeing the overall compensation structure, policies and programs of the Company and assessing whether our compensation structure resulted in appropriate compensation levels and incentives for executive management of the Company. The Compensation Committee attempted to ensure that the total compensation paid to each executive officer was fair, reasonable, competitive and motivational. In making compensation decisions, the Compensation Committee considered, among other things, data provided by its outside compensation consultant, the recommendations of Lonnie "Bo" Pilgrim, our co-founder and former Senior Chairman, and during the pendency of the Chapter 11 bankruptcy proceedings, the input of the statutory committees and other constituencies.

Lonnie "Bo" Pilgrim annually reviewed the performance of all executive officers and key employees with the full Compensation Committee and made recommendations of base salaries and bonuses based on these reviews. The Committee considered these reviews and recommendations and then exercised its discretion in adopting or modifying any recommended salaries and bonuses.

Compensation Consultant

During the 2009 Fiscal Year, the Company retained a compensation consultant, Hewitt Associates, LLC ("Hewitt Consulting"), to conduct a comprehensive assessment of our executive compensation program relative to competitive markets, as well as conduct an analysis of certain retention strategies for our senior management team. Hewitt Consulting sought input and feedback from management regarding its consulting work product in order to confirm alignment with the Company's business strategy and identify data questions or other similar issues, if any, prior to its presentations to the Compensation Committee.

Prior to the commencement of our Chapter 11 bankruptcy proceedings, Hewitt Consulting provided our Compensation Committee with advice and analysis relating to an overall assessment of our executive compensation program. Hewitt Consulting compared our executive compensation levels and the relationship between our compensation levels to companies with operations and lines of business comparable to ours, including Campbell Soup Company, ConAgra Foods, Inc., Corn Products International, Inc., Del Monte Foods Company, General Mills, Inc., H.J. Heinz Company, The Hershey Company, Hormel Foods Corporation, Kellogg Company, Land O'Lakes, Sara Lee Corporation, Tyson Foods, Inc. and Wm. Wrigley Jr. Company. Executive positions were individually benchmarked with the peer group companies' data using a review of the job responsibilities and scope for each executive role as defined by their job descriptions. The survey provided by Hewitt Consulting showed that our total executive compensation levels ranked below market levels, which was in part due to the lack of equity incentive compensation programs. After consideration of this assessment, the Compensation Committee and the Board of Directors approved an enhanced, multifaceted executive compensation program consisting of (1) base salaries, (2) cash incentive compensation, (3) long-term incentive compensation consisting of both restricted stock grants and stock options, (4) change in control agreements and (5) certain perquisites and other personal benefits. However, given the challenges faced by our Company in the 2009 Fiscal Year and our Chapter 11 bankruptcy proceedings, the proposed compensation program, including the long-term incentive compensation component, was not implemented in the 2009 Fiscal Year.

Throughout the 2009 Fiscal Year and the Transition Period, Hewitt Consulting continued to provide recommendations to our Compensation Committee for improvement of our compensation

program, including competitive change-in-control severance recommendations based on the practices of our industry peers, the adoption of new incentive compensation and retention plans and the modification of certain existing compensation plans.

We also engaged Hewitt Consulting to assist us in the design and assessment of the structure of the FY2009 Performance Bonus Plan. Hewitt Consulting analyzed the competitiveness of the award opportunities and concluded that target awards under the FY2009 Performance Bonus Plan were consistent with market target award opportunities. In connection with the approval of the Employment Agreement, Hewitt Consulting also provided to the Compensation Committee a survey conducted in May 2008 of chief executive officer compensation of industry peers that included ConAgra Foods, Inc., Dean Foods Co., Seaboard Corporation, Smithfield Foods, Inc., Hormel Foods Inc. and Tyson Foods, Inc.

Components of Compensation

During the 2009 Fiscal Year and the Transition Period, the principal elements of compensation for our executive officers were (1) base salaries, (2) cash incentive compensation and (3) certain perquisites and other personal benefits. We do not have a formal stock ownership requirement for our executive officers and, historically, we have had no equity-based incentive compensation. However, on January 27, 2009, after approval by our Compensation Committee and the Bankruptcy Court, we granted a restricted stock award (described below under “Restricted Stock Grant”) to Dr. Jackson in connection with entering into the Employment Agreement, to attract Dr. Jackson to serve as the Company’s President and Chief Executive Officer.

We also made matching contributions to the Company’s 401(k) salary deferral plan during the 2009 Fiscal Year and the Transition Period, including matching contributions of our common stock. In addition, we made contributions to the Employee Stock Investment Plan for purchases of our common stock under the plan. However, matching contributions of common stock to these plans were permanently suspended in November 2008.

Base Salary

We provide our named executive officers and other employees with a base salary to provide a fixed amount of compensation for services during the fiscal year. Base salaries have historically been subjectively determined by the Compensation Committee for each of the executive officers on an individual basis, taking into consideration a subjective assessment of individual contributions to Company performance, length of tenure, compensation levels for comparable positions, internal equities among positions and the recommendations of our former Senior Chairman. The Compensation Committee completed its annual compensation review with respect to the executive officers of the Company on September 24, 2008, and, given the challenges faced by the Company and the industry, determined that compensation levels would remain substantially unchanged for the 2009 Fiscal Year and the Transition Period. During the 2009 Fiscal Year and the Transition Period, Dr. Jackson’s base compensation was governed by the Employment Agreement, which was entered into on January 27, 2009 and is discussed below under “Jackson Employment Agreement.” Lonnie Ken Pilgrim’s salary declined during the 2009 Fiscal Year and Transition Period due to a decrease in Mr. Pilgrim’s responsibilities after the commencement of the Company’s Chapter 11 bankruptcy proceedings.

Cash Incentive Compensation

Historically, under the Pilgrim’s Pride Corporation Senior Executive Performance Bonus Plan (the “Bonus Plan”), we awarded annual cash bonuses to executive officers and other management personnel based on our performance and profitability in the year with respect to which bonuses were awarded. The Bonus Plan was not approved by the Bankruptcy Court and no bonuses were paid to executive officers under the Bonus Plan with respect to the 2009 Fiscal Year or the Transition Period performance.

Bonuses paid to executives for the 2009 Fiscal Year performance were made under the FY 2009 Performance Bonus Plan. No bonuses were paid with respect to performance during the Transition Period. In addition to its assistance with the design and assessment of the structure of the FY2009 Performance Bonus Plan, Hewitt Consulting also analyzed the competitiveness of the award opportunities. Hewitt Consulting concluded that target awards under the FY2009 Performance Bonus Plan were consistent with market target award opportunities. The FY2009 Performance Bonus Plan was presented to, negotiated with, and approved by, the Unsecured Creditors' Committee and the Equity Committee. Following meetings in May and August 2009, our Board approved, subject to Bankruptcy Court approval, the FY2009 Performance Bonus Plan. On September 29, 2009, the Bankruptcy Court entered an order approving the FY2009 Performance Bonus Plan.

The FY2009 Performance Bonus Plan was an incentive plan for approximately 80 key employees and executives, including our named executive officers, tasked with assisting us in the Chapter 11 proceedings. In approving the FY2009 Performance Bonus Plan, the Compensation Committee considered the significant efforts of employees and executives required, in addition to performance of their day to day responsibilities, for the preparation and negotiation of a confirmable plan of reorganization and with respect to the analysis and resolution of thousands of claims filed in the Chapter 11 proceedings. The goals of the FY2009 Performance Bonus Plan were to:

- motivate the Company's executive officers and other key employees who were not eligible to receive any form of performance-based incentive compensation since the beginning of the Chapter 11 proceedings;
- align all such executives' and employees' interests with the goals of the stockholders and creditors that the Company become profitable and emerge from bankruptcy;
- provide an incentive for all such executives and employees to achieve profit goals; and
- fill the gap in the lack of retention programs for the executive officers and key employees while in bankruptcy.

The awards paid under the FY2009 Performance Bonus Plan were linked to our earnings before interest, taxes, depreciation, amortization and restructuring costs ("EBITDAR") in the third and fourth quarters of the 2009 Fiscal Year and the successful emergence from bankruptcy. The Committee approved the EBITDAR threshold performance level of at least \$225 million in EBITDAR below which no awards were earned. In addition to remain eligible for an award under the FY2009 Performance Bonus Plan, a participant had to be employed by the Company through its emergence from bankruptcy.

Each participant that was eligible for an award under the FY2009 Performance Bonus Plan received a cash bonus equal to such participant's pro rata share of a pool equal to the sum of (1) \$2.6 million, plus (2) 4% of any portion of the Company's EBITDAR for the third and fourth quarters of the 2009 Fiscal Year that exceeded \$225 million. Each participant's pro rata share of the total pool available to all participant's under the FY2009 Performance Bonus Plan was based on the factor of such individual's target bonus percentage, as set by our Board, multiplied by the amount of such participant's annualized base salary accrued with respect to FY2009 (the "Bonus Factor"). Notwithstanding the foregoing, the FY2009 Performance Bonus Plan provided that if our EBITDAR for the third and fourth quarters of the 2009 Fiscal Year met or exceeded \$325 million, each award pursuant to the plan would be equal to an amount that is at least 100% of the applicable participant's Bonus Factor. The awards earned in the 2009 Fiscal Year under the FY2009 Performance Bonus Plan and paid to our named executive officers are disclosed in the Summary Compensation Table and in the 2009 Fiscal Year Grants of Plan-Based Awards table below.

The FY2009 Performance Bonus Plan was administered by the Compensation Committee. The Compensation Committee had the discretion to reduce, increase or eliminate a bonus payable to any participant and to pay bonuses in excess of the total bonus pool amount. The FY2009 Performance

Bonus Plan did not satisfy the requirements of Section 162(m) of the Code regarding executive compensation.

Other Compensation

Our executive officers receive no special employee benefits. During our Chapter 11 bankruptcy proceedings, our executive officers were able to participate on the same basis as other employees in the provisions of the Company's 401(k) salary deferral plan. Contributions to the Company's 401(k) salary deferral plan are made up of a 30% matching contribution on the first 6% of pay and an additional matching contribution on up to 6% of an executive's compensation, subject to an overall contribution limit for all employees 401(k) and other profit sharing plans of 5% of domestic income before taxes. In November 2008, the Company notified its employees advising each person that any matching contributions to the Company's 401(k) salary deferral plan that he had previously elected to be invested in Company common stock would be automatically invested in the plan's default investment option unless the employee elected a different investment. All full-time employees in the U.S. are eligible to participate in the 401(k) salary deferral plan. We do not have any other pension plan for our executive officers.

The Company has also historically maintained an Employee Stock Investment Plan pursuant to which we contributed an amount equal to 33 1/3% of an officer's payroll deduction for purchases of our common stock under the plan. In November 2008, matching contributions that employees had previously elected to be invested in our common stock were permanently suspended. In December 2009, we terminated the Employee Stock Investment Plan. Contributions to named executive officers made in the 2009 Fiscal Year under our 401(k) salary deferral plan and under the Employee Stock Investment Plan are reported in the Summary Compensation Table.

During our Chapter 11 bankruptcy proceedings, we also maintained and continue to maintain the Pilgrim's Pride Corporation 2005 Deferred Compensation Plan (the "Deferred Compensation Plan") to help provide for the long-term financial security of our US employees who meet the Internal Revenue Service definition of a "highly compensated employee," which include all of our named executive officers and certain other key personnel. Under the Deferred Compensation Plan, participants may elect to defer up to 80% of their base salary and/or up to 100% of their annual cash bonus payments as part of their personal retirement or financial planning. Executive officers who elect to defer compensation in the Deferred Compensation Plan must do so annually prior to the beginning of each calendar year and may direct the investment of the amount deferred and retained by us. The Deferred Compensation Plan is administered by the administrative committee appointed by our Board, and deferred compensation may be invested in authorized funds which are similar to the investment options available under our 401(k) salary deferral plan. Additional information regarding deferred compensation is reported below in the Nonqualified Deferred Compensation Table.

We also provide a variety of health and welfare programs to all eligible employees to offer employees and their families, protection against catastrophic loss and to encourage healthy lifestyles. The health and welfare programs we offer include medical, wellness, pharmacy, dental, vision, life insurance and accidental death and disability. Our executive officers and management generally are eligible for the same benefit programs on the same basis as our other domestic employees.

Perquisites and Other Personal Benefits

During our Chapter 11 bankruptcy proceedings, we provided our named executive officers with perquisites and other personal benefits that we believed to be reasonable and consistent with our overall compensation program to better enable us to attract and retain competent executives for key positions. The Compensation Committee periodically reviewed the levels of perquisites and other personal benefits that we provided to our named executive officers. During the 2009 Fiscal Year and the Transition Period, our executive officers received perquisites involving items such as personal use of automobiles. In addition, our executive officers had access to the personal use of corporate aircraft, which was suspended

following the commencement of our bankruptcy proceedings, and they were also eligible to receive company-paid or company-subsidized life insurance and disability coverage on the same basis as our other domestic payroll employees. Information regarding these prerequisites is reported below in the Summary Compensation Table. Additionally, as described under “Compensation Committee Interlocks and Insider Participation” and “Certain Transactions,” certain relatives of our executive officers were employed by the Company during the 2009 Fiscal Year and the Transition Period and had business transactions with the Company. In establishing the compensation of the executive officers, the prior Compensation Committee considered all prerequisites and other personal benefits.

Short Term Management Incentive Plan and Long Term Incentive Plan

In September 2009, our Board approved, subject to confirmation of the Plan of Reorganization by the Bankruptcy Court and the approval of our stockholders, the Short Term Management Incentive Plan, a new annual incentive program for use following the Company’s exit from bankruptcy, providing for the grant of bonus awards payable upon achievement of specified performance goals (the “STIP”). The Bankruptcy Court and the stockholders approved the STIP in connection with the confirmation of the Plan of Reorganization in December 2009. The STIP permits the grant of 162(m) awards and bonus awards that are not intended to so qualify. Full-time salaried, exempt employees of the Company and its affiliates who are selected by the administering committee will be eligible to participate in the STIP. No awards were granted under the STIP prior to our emergence from the Chapter 11 bankruptcy proceedings.

In September 2009, our Board also approved, subject to confirmation of the Plan of Reorganization by the Bankruptcy Court and stockholder approval, a new, performance-based, omnibus long-term incentive plan (the “LTIP”). The LTIP provides for the grant following the Company’s exit from its Chapter 11 proceedings of a broad range of long-term equity-based and cash-based awards to the Company’s officers and other employees, members of the Board and any consultants. The Bankruptcy Court and the stockholders approved the LTIP in connection with the confirmation of the Plan of Reorganization in December 2009. The equity-based awards that may be granted under the LTIP include “incentive stock options,” within the meaning of the Code, non-qualified stock options, stock appreciation rights, restricted stock awards and restricted stock units. No awards were granted under the LTIP prior to our emergence from the Chapter 11 bankruptcy proceedings.

Change in Control Agreements

In October 2008, we entered into change in control agreements with Lonnie “Ken” Pilgrim and Richard A. Cogdill, and in September 2009 we entered into a change in control agreement with Don Jackson (collectively, the “Change in Control Agreements”). Lonnie “Bo” Pilgrim was not party to a Change of Control Agreement. Upon our emergence from the Chapter 11 bankruptcy proceedings effective on December 28, 2009, Richard A. Cogdill was terminated as the Chief Financial Officer, Secretary, Treasurer and Principal Accounting Officer of the Company, and Lonnie Ken Pilgrim was terminated as the Senior Vice President, Transportation of the Company. For information concerning the payments made under their Change of Control Agreement, see “Executive Compensation – Summary Compensation Table.” In October 2008, we also entered into a change in control agreement with Gary D. Tucker, who was appointed as the Company’s Principal Financial Officer on December 28, 2009. On June 1, 2010, Mr. Tucker entered into a letter agreement with the Company relating to his employment. In connection with the letter agreement, Mr. Tucker’s change in control agreement was terminated. For further information concerning the letter agreement, see “Tucker Letter Agreement” below.

The Company believes that the Change in Control Agreements were critical to our ability to attract and retain highly qualified employees who provide essential services for our successful emergence from bankruptcy and continued long-term profitability and growth. Such agreements reduce personal uncertainty that arises from the possibility of a future business combination or restructuring. Moreover, the Change in Control Agreements were designed to offset the uncertainty of executives regarding their

own futures if a change in control or termination actually occurs. In addition, we believe that the Change in Control Agreements increase stockholder value by encouraging the executives to consider change in control transactions that are in the best interest of the Company and its stockholders, even if the transaction may ultimately result in their termination of employment.

The Change in Control Agreements had an initial term of three years. The Change in Control Agreements had two triggers: (1) a change in control (the “Change in Control”) and (2) separation from the Company. The change of ownership of the Company pursuant to the Plan of Reorganization qualified as the first trigger for the first two years following confirmation of the Plan of Reorganization.

Generally, the Change in Control Agreements provide that, except in the case of Dr. Jackson, any stock options and other equity awards held by the executives will become fully vested and exercisable upon a Change in Control (however, no such awards will be outstanding as of the Change in Control) and that, if the Company terminates an executive’s employment for reasons other than “cause” or if the executive resigns for “good reason” (as these terms are defined in the Change in Control Agreements) within a specified time period following a Change in Control, then the executive will be entitled to certain severance benefits. The employment period is 24 months in the case of Mr. Pilgrim and Dr. Jackson and 18 months in the case of Mr. Cogdill. Upon the termination of an executive’s employment during the employment period, the Change in Control Agreements provides:

- For a lump sum severance payment that includes the executive’s target annual bonus for the fiscal year in which the termination occurs, prorated through the date of termination, and an amount based on the sum of the executive’s annual base salary and target annual bonus, multiplied by 3.0 in the case of Mr. Pilgrim and Dr. Jackson and by 2.5 in the case of Mr. Cogdill.
- That the executives may be entitled to receive a tax gross-up payment to compensate them for specified excise taxes, if any, imposed on the severance payment.
- Up to 18 months of the Company-paid COBRA premiums.
- In the case of Dr. Jackson, any stock options and other equity awards held by him will become fully vested and exercisable.

In addition, the Change in Control Agreements provide that, for a period of 24 months in the case of Mr. Pilgrim and Dr. Jackson and 18 months in the case of Mr. Cogdill, from the date of any termination of the executive’s employment that results in a severance payment under the executive’s Change in Control Agreement, the executive will not (a) divulge confidential information regarding the Company, (b) solicit or induce employees of the Company to terminate their employment with the Company, or (c) seek or obtain any employment or consulting relationship with any specified competitor of the Company. See discussion below under “Potential Payments Upon Termination or Change In Control,” for additional information regarding compensation and benefits that Dr. Jackson is entitled to receive upon the Change in Control.

Jackson Employment Agreement

In December 2008, in an effort to bring a fresh perspective to the Company and to maximize the opportunities available to the Company through its restructuring, the Board approved the appointment of Dr. Jackson as our Chief Executive Officer and President. Dr. Jackson replaced the former Chief Executive Officer and the Chief Operating Officer of the Company. As an inducement to join the Company, as well as to create an incentive for Dr. Jackson to forego other career opportunities, the committee determined it was necessary to offer an employment agreement to Dr. Jackson, setting forth specific elements of compensation, termination, and other arrangements.

As discussed above, Hewitt Consulting provided the Compensation Committee a survey conducted in May 2008 of chief executive officer compensation of industry peers that included ConAgra Foods, Inc., Dean Foods Co., Seaboard Corporation, Smithfield Foods, Inc., Hormel Foods, Inc. and

Tyson Foods, Inc. The Company negotiated the terms of the Employment Agreement with the Unsecured Creditors' Committee. On January 27, 2009, the Bankruptcy Court approved, and we entered into the Employment Agreement with Dr. Jackson. Dr. Jackson's compensation is largely dictated by the Employment Agreement.

In determining Dr. Jackson's compensation, the Compensation Committee primarily took into account: (1) input and data provided by Hewitt Consulting, as described above; (2) a comparison to competitive pay practices for other senior level executive positions; (3) the challenges inherent in inducing Dr. Jackson to leave his then current place of employment and attracting him to a company subject to Chapter 11 bankruptcy proceedings; (4) the input provided by, and approval of, the Unsecured Creditors Committee and other constituencies; (5) the qualifications and experience of Dr. Jackson; and (6) the nature of Dr. Jackson's service as Chief Executive Officer and President.

Base Salary and Incentive Compensation

Under the Employment Agreement, Dr. Jackson has an annual base salary of not less than \$1,500,000. Dr. Jackson received a bonus of \$3,000,000 ("Sign on Bonus"), which is subject to repayment on a pro-rata basis over a three year period in the event his employment is terminated under specified circumstances.

Additionally, Dr. Jackson earned \$2,000,000 as a reorganization bonus, which was determined based upon the Company achieving certain performance targets. Under the terms of the Employment Agreement, the restructuring bonus is payable as follows:

- \$2,000,000 is earned upon occurrence of the following conditions (i) confirmation of the Plan of Reorganization (as defined in the Employment Agreement), (ii) EBITDAR is at least \$300 million for the third and fourth fiscal quarters of the Company's fiscal year ended 2009, and (iii) the annualized operational improvements of the Company and its subsidiaries are at least \$100 million for the Company's fiscal year ended 2009 compared to the Company's fiscal year ended 2008; and
- if the above conditions are not satisfied, then \$1,000,000 is earned upon the occurrence of the following conditions: (i) confirmation of the Plan of Reorganization, (ii) EBITDAR is at least \$200 million for the third and fourth fiscal quarters of the Company's fiscal year ended 2009, and (iii) the annualized operational improvements of the Company and its subsidiaries are at least \$50 million for the Company's fiscal year ended 2009 compared to the Company's fiscal year ended 2008.

No reorganization bonus is payable under the Employment Agreement if the EBITDAR is less than \$200 million for the third and fourth fiscal quarters of the Company's fiscal year ended 2009, or if the annualized operational improvements of the Company and its subsidiaries are less than \$50 million.

Under the Employment Agreement, Dr. Jackson is also eligible to participate in all incentive plans, practices, policies and programs applicable generally to other executive personnel of the Company, including, but not limited to, the FY2009 Performance Bonus Plan. Accordingly, Dr. Jackson is also entitled to participate in the FY2009 Performance Bonus Plan.

Restricted Stock Grant

On January 27, 2009, under the terms of the Employment Agreement, Dr. Jackson was granted a restricted stock award of 3,085,656 of the Company's common stock (the "Shares"), vesting when certain conditions and performance targets are met. Under the terms of the Employment Agreement, one-half of the Shares vests upon the occurrence of the following conditions: (1) confirmation of the Plan of Reorganization and, (2) the EBITDAR is at least an aggregate of \$300 million for the third and fourth fiscal quarters of 2009. The remaining one-half of the Shares vests if the EBITDAR for the last 12 months ending on the last day of the fiscal month immediately preceding substantial consummation of the

Company's plan of reorganization is at least an aggregate of \$500 million. In connection with the confirmation of the Plan of Reorganization, the emergence of the Company from Chapter 11 bankruptcy proceedings and the satisfaction of the performance targets, the Shares vested in December 2009.

Perquisites and Other Personal Benefits

Under the Employment Agreement, Dr. Jackson is entitled to participate in the Company's savings and retirement plans, practices and programs generally applicable to other executive personnel of the Company. Dr. Jackson is also eligible to participate in all group benefits plans and programs the Company has established or may establish for its executive employees, including the Company's executive relocation policy and repayment agreement, which provides moving and other relocation related expenses, including assistance selling a home and temporary housing. Any amounts under the executive relocation policy and repayment agreement must be repaid if employment is terminated within one year from the hire date.

Separation Agreements

On December 16, 2008, our board of directors accepted the resignations of J. Clinton Rivers, the Company's former Chief Executive Officer and President, and Robert A. Wright, the Company's former Chief Operating Officer. In connection with the resignations, the Company entered into a separation agreement and consulting agreement with Mr. Wright on December 22, 2008, and a separation agreement and consulting agreement with Mr. Rivers December 24, 2008. Under the terms of the separation agreements, each of them resigned as an officer, director, employee and any other capacity of the Company and its subsidiaries and agreed to terminate their change in control agreements with the Company. The Company agreed to pay a severance payment of \$143,242 to each of Mr. Rivers and Mr. Wright. Pursuant to the terms of the consulting agreements, each agreed to provide consulting services to the Company on an as-requested basis for a fee of (a) \$83,500 per month, for a term of four months, in the case of Mr. Rivers, and (b) \$50,000 per month, for a term of three months, in the case of Mr. Wright. The consulting agreements also included non-competition covenants for the duration of the agreements. The amounts paid under the separation agreements were limited by provisions of the Bankruptcy Code. The separation agreements were approved by the Bankruptcy Court in January 2009 and the consulting agreements were approved by the Bankruptcy Court in March 2009.

Severance Plan

Prior to our emergence from the Chapter 11 bankruptcy proceedings, we maintained the Pilgrim's Pride Corporation Severance Plan (the "Severance Plan"), pursuant to which we provided severance payments to eligible employees, including our named executive officers, if their employment was terminated "without cause," as defined in the Severance Plan. The Severance Plan did not cover termination due to death, disability, retirement, termination for cause or termination at the end of the leave of absence that exceeded the maximum permitted by the Company. Under the Severance Plan, in exchange for signing an enforceable waiver and release agreement, upon termination without cause, a named executive officer was entitled to receive as severance pay an amount equal to: one week per year of service with the Company, plus a minimum of 16 supplemental weeks (in addition to years of service amount), with a total maximum of 52 weeks of pay. In addition, if the Company provided less than two weeks notice of termination without cause, an executive officer would have been entitled up to two additional weeks of severance in lieu of notice. Additional benefits available to eligible employees under the Severance Plan included career transition services as determined by the Company, including without limitation, written materials, company sponsored training and job fairs.

Chief Restructuring Officer

On November 7, 2008, our board of directors appointed Mr. Snyder as the Chief Restructuring Officer of the Company. As Chief Restructuring Officer, Mr. Snyder assisted the Company in

capitalizing on cost reduction initiatives, developing restructuring plans and exploring opportunities to improve its long-term liquidity.

Mr. Snyder, a Managing Partner of CRG Partners Group, LLC (“CRG”), a provider of corporate turnaround and restructuring services, was employed by CRG and performed services as Chief Restructuring Officer of the Company through CRG. As a result, Mr. Snyder did not receive any compensation directly from the Company and did not participate in any of the Company’s employee benefits plans. The Company compensated CRG for Mr. Snyder’s services at a rate of \$550 per hour. CRG’s engagement with the Company and Mr. Snyder’s services as Chief Restructuring Officer were terminated upon the Company’s emergence from the Chapter 11 bankruptcy proceedings.

Tax Considerations

Section 162(m) of the Internal Revenue Code imposes limitations on the deductibility for federal income tax purposes of compensation over \$1,000,000 paid to each of our five most highly paid executive officers in a taxable year. Compensation above \$1,000,000 may only be deducted if it is “performance-based compensation” within the meaning of the Code. Amounts payable under the Bonus Plan are intended to be performance-based compensation meeting these requirements and, as such, be fully deductible. However, the Company has not adopted a policy requiring all compensation to be deductible. For the 2009 Fiscal Year and the Transition Period, certain amounts paid (including bonuses to certain executive officers under the FY2009 Performance Bonus Plan) did not qualify as performance-based compensation and were not deductible.

Tucker Letter Agreement

As discussed above, Gary D. Tucker was appointed as the Company’s Principal Financial Officer upon the Company’s emergence from the Chapter 11 bankruptcy proceedings effective on December 28, 2009. Mr. Tucker has served as the Company’s Senior Vice President, Corporate Controller since June 1, 2003 and continues to also hold this position. On June 1, 2010, Gary D. Tucker entered into a letter agreement with us (the “Letter Agreement”) pursuant to which Mr. Tucker’s annual base salary was increased from \$250,215 to \$300,000, effective June 1, 2010. The Letter Agreement provides that Mr. Tucker will be eligible to receive a target bonus equal to 50% of his annual base salary, contingent upon Mr. Tucker’s continued employment through the 2010 calendar year, as well as the Company making a threshold earnings goal. The potential bonus award was granted under the STIP. For additional information regarding Mr. Tucker’s bonus award, see “Changes in Incentive Compensation for Fiscal 2010.”

In addition, under the Letter Agreement, Mr. Tucker will receive a one-time cash payment equal to \$650,000 payable upon the earliest of (i) the mandatory exchange transaction (the “Mandatory Exchange Transaction”) of the Company’s common stock for shares of common stock of JBS USA Holdings, Inc. (“JBS USA”), (ii) any similar event to the Mandatory Exchange Transaction whereby the Company would cease to be deemed a publicly-traded company or would merge with JBS USA and (iii) the date of termination of Mr. Tucker’s employment for any reason other than “Cause” (as defined in the change in control agreement dated October 10, 2008 between Mr. Tucker and the Company). Mr. Tucker’s change in control agreement was terminated in connection with the Company and Mr. Tucker entering into the Letter Agreement.

Changes in Incentive Compensation for Fiscal Year 2010

As part of developing the Company’s compensation strategy for the fiscal year ending December 26, 2010, the Compensation Committee established new annual performance goals and target payout amounts under the STIP for Dr. Jackson, our President and Chief Executive Officer, and Mr. Tucker, our Principal Financial Officer. The committee determined to establish the 2010 fiscal year performance measure under STIP solely based on income (loss) from continuing operations plus interest, taxes,

depreciation and amortization (“EBITDA”). The Compensation Committee elected to use EBITDA as our sole performance measure under the STIP because EBITDA is a common analytical indicator within our industry and it provides a simple and understandable measure of our liquidity. For Dr. Jackson and Mr. Tucker, the committee approved the target EBITDA amount of \$500 million and a threshold EBITDA amount of \$425 million (85% of the EBITDA target). No bonus will be paid to participants under the STIP for 2010 fiscal year performance if EBITDA for the fiscal year is below the \$425 million threshold.

The Compensation Committee established a sliding scale to determine the amount of annual cash bonus. Dr. Jackson and Mr. Tucker are each eligible to receive a bonus payout of 50% of their base salary if the Company achieves 85% of target EBITDA. Dr. Jackson is eligible to receive a bonus payout of (1) 50% of his base salary if the Company achieves 85% of target EBITDA, (2) between 50% and 100% of his base salary if the Company achieves over 85% and less than 100% of target EBITDA, (3) 100% of his base salary if the Company achieves 100% of target EBITDA and (4) 100% of his base salary plus a percentage of EBITDA in excess of \$500 million if the Company achieves over 100% of target EBITDA. The maximum bonus that Dr. Jackson is eligible to receive under the STIP for fiscal year 2010 performance is \$9.0 million.

EXECUTIVE COMPENSATION

The table below summarizes compensation paid to or earned by our named executive officers including our Chief Executive Officer, Chief Financial Officer and our three other most highly compensated executive officers serving at the end of 2009 Fiscal Year and the Transition Period, as well as certain other former executive officers for whom disclosure is required for 2009 Fiscal Year and the Transition Period. Except for Don Jackson, none of the executive officers listed in the table currently serve as our executive officers. For purposes of the tables below, the Transition Period is listed as “2009T.”

- (a) The amounts disclosed in the “Salary” column include amounts deferred under the Deferred Compensation Plan as disclosed in the Nonqualified Deferred Compensation Table.
- (b) Bonuses paid to Don Jackson with respect to his 2009 Fiscal Year performance included a sign on bonus of \$3,000,000 under the Employment Agreement. No bonuses were paid during the Transition Period.
- (c) Reflects (i) the amounts earned under the FY2009 Performance Bonus Plan for 2009 performance and paid in connection with the Company’s emergence from bankruptcy in December 2009 and (ii) a restructuring bonus of \$2,000,000 under the Employment Agreement paid in connection with the Company’s emergence from bankruptcy in December 2009. During the Transition Period there were no compensation amounts classified under the Non-Equity Incentive Plan.
- (d) For the 2009 Fiscal Year, the “All Other Compensation” column includes the following items of compensation:
- i. Personal use of corporate aircraft by the named individual: Lonnie “Bo” Pilgrim, \$5,189. During 2008 and early 2009, we owned and operated airplanes to facilitate business travel of certain of our employees in as safe a manner as possible with the best use of their time. Certain of the named executive officers use the corporate

aircraft for business travel and on a limited basis for personal travel. The value of personal aircraft usage reported above is based on the direct operating cost to us. The methodology calculates our incremental cost based on the average weighted cost of fuel, aircraft maintenance, landing fees, trip-related hangar and parking costs, and smaller variable costs. Since the corporate aircraft is used primarily for business travel, the methodology excludes fixed costs, which do not change based on usage, such as pilots' and other employees' salaries, purchase cost of the aircraft and non-trip related hangar expenses. On certain occasions, an employee's spouse or other family member may accompany the employee on a flight. No additional direct operating cost is incurred in such situations under the foregoing methodology.

- ii. Personal use of corporate automobile by the named individuals: Lonnie "Bo" Pilgrim, \$24,951 and Don Jackson, \$297.
 - iii. Our contributions to the named individuals under our Employee Stock Investment Plan in the following amounts: Lonnie "Bo" Pilgrim, \$0; Lonnie Ken Pilgrim, \$0; J. Clinton Rivers, \$1,923; Richard A. Cogdill, \$1,537; and Robert A. Wright, \$1,154.
 - iv. Our contributions to the named individuals under our 401(k) Salary Deferral Plan in the following amounts: Lonnie "Bo" Pilgrim, \$0; Don Jackson, \$0; Richard A. Cogdill, \$1,764; Lonnie Ken Pilgrim, \$1,558; J. Clinton Rivers, \$0; and Robert A. Wright, \$0.
 - v. Section 79 income to the named individuals due to group term life insurance in the following amounts: Lonnie "Bo" Pilgrim, (\$2,569); Don Jackson, \$3,118; Richard A. Cogdill, \$1,152; Lonnie Ken Pilgrim, \$1,224; J. Clinton Rivers, \$688; and Robert A. Wright, \$301.
 - vi. The Company reimburses employees for a portion of their long-term disability premium cost. The named individuals' reimbursements for a portion their long-term disability premium cost in the following amounts: Lonnie "Bo" Pilgrim, \$599; Don Jackson, \$386; Richard A. Cogdill, \$599; Lonnie Ken Pilgrim, \$232; J. Clinton Rivers, \$145; and Robert A. Wright, \$145.
 - vii. In addition to Lonnie Ken Pilgrim, certain other members of the family of Lonnie "Bo" Pilgrim were employed by us in 2009, including his son, Pat Pilgrim, and his daughter, Greta Pilgrim-Owens, who received total compensation for 2009 of \$4,212 and \$12,116, respectively. Pat Pilgrim's and Greta Pilgrim-Owens' employment with the Company terminated on September 28, 2008.
 - viii. The Company paid severance payments of \$143,242 to each of J. Clinton Rivers and Robert A. Wright. The Company also entered into consulting agreements with J. Clinton Rivers and Robert A. Wright, who received total compensation of \$334,000 and \$150,000 respectively under the agreements.
 - ix. The amount reported for Mr. Snyder represents fees of \$5,024,180 paid to CRG. See note (k) below.
 - x. Dr. Jackson received \$1,683 in relocation expenses.
- (e) For the Transition Period, the "All Other Compensation" column includes the following items of compensation:
- i. Personal use of corporate automobile by the named individuals: Lonnie "Bo" Pilgrim, \$6,661 and Don Jackson, \$62.
 - ii. Our contributions to Lonnie Ken Pilgrim of \$206 under our 401(k) Salary Deferral Plan.
 - iii. Section 79 income to the named individuals due to group term life insurance in the following amounts: Lonnie "Bo" Pilgrim, \$114; Don Jackson, \$1,203; Richard A. Cogdill, \$284; Lonnie Ken Pilgrim, \$305.
 - iv. The Company reimburses employees for a portion of their long-term disability premium cost. The named individuals' reimbursements for a portion of their long-term disability premium cost were as follows: Lonnie "Bo" Pilgrim, \$149; Don Jackson, \$149; Richard A. Cogdill, (\$408); Lonnie Ken Pilgrim, \$149.
 - v. The amount reported for Mr. Snyder represents fees of \$526,610 paid to CRG. See note (k) below.
 - vi. The Company paid severance, severance gross-up for taxes, pro-rata bonus and health benefits to the following employees on December 28, 2009:
 - a. Lonnie "Ken" Pilgrim received \$3,127,397 in severance, \$758,770 in gross-up for taxes, and \$19,965 for health benefits.
 - b. Rick A. Cogdill received \$4,203,836 in severance, \$947,299 in gross-up for taxes, and \$19,965 for health benefits.
- (f) Dr. Jackson received 3,085,656 shares of restricted stock as detailed in his Employment Agreement. The value of the stock award at date of grant was \$1,789,680.
- (g) Mr. Pilgrim ceased serving as Senior Chairman effective immediately following our emergence from bankruptcy, but remained as a Director of the Company.
- (h) Don Jackson was appointed as President and Chief Executive Officer of the Company on December 16, 2008. The Bankruptcy Court approved the Employment Agreement and Dr. Jackson began serving as President and Chief Executive Officer on January 27, 2009.
- (i) Mr. Cogdill's employment with the Company terminated on December 28, 2009.
- (j) Lonnie Ken Pilgrim has served as Senior Vice President, Transportation since February 2009. He also served as Chairman of the Board from July 2007 to January 2009 and as interim President from December 2008 to January 2009. Mr. Pilgrim's employment with the Company terminated on December 28, 2009.
- (k) Mr. Snyder, a Managing Partner of CRG, was appointed as the Chief Restructuring Officer of the Company on November 7, 2008. The Company compensated CRG for Mr. Snyder's services at a rate of \$550 per hour. CRG's engagement with the

Company and Mr. Snyder's services as Chief Restructuring Officer were terminated upon the Company's emergence from the Chapter 11 bankruptcy proceedings.

- (l) Mr. Rivers was appointed President, Chief Executive Officer and Director on March 4, 2008. Mr. Rivers resigned as an officer and director of the Company on December 16, 2008.
- (m) Mr. Wright was appointed Chief Operating Officer on March 26, 2008. Mr. Wright resigned as an officer of the Company on December 16, 2008.

(a) Reflects (i) the amounts earned under the FY2009 Performance Bonus Plan for 2009 performance and paid in connection with the Company's emergence from bankruptcy in December 2009 and (ii) a \$2,000,000 restructuring bonus.

(b) On January 27, 2009, under the terms of the Employment Agreement, Dr. Jackson was granted a restricted stock award of 3,085,656 of the shares of the Company's restricted stock which vested based on the satisfaction of certain conditions and performance targets. For information concerning the terms of vesting, see "Jackson Employment Agreement" below.

(c) On December 16, 2008, the Board of Directors and the Compensation Committee approved the grant of shares under the Employment Agreement, subject to the approval by the Bankruptcy Court.

(d) On January 27, 2009, the Bankruptcy Court approved the Employment Agreement and the grant of shares of restricted stock.

(e) No amount was recognized for financial statement reporting purposes with respect to 2009 Fiscal Year in accordance with FASB ASC Topic 718.

Jackson Employment Agreement

In December 2008, the Board approved the appointment of Dr. Jackson, as our Chief Executive Officer and President. On January 27, 2009, the Bankruptcy Court approved, and we entered into the Employment Agreement with Dr. Jackson. The Employment Agreement will expire on January 27, 2012, unless otherwise terminated pursuant to the terms of same.

Base Salary and Incentive Compensation

Under the Employment Agreement, Dr. Jackson has an annual base salary of not less than \$1,500,000. Dr. Jackson also received a bonus of \$3,000,000 ("Sign on Bonus"), which is subject to repayment on a pro-rata basis over a three year period in the event his employment is terminated under specified circumstances.

Additionally, Dr. Jackson earned \$2,000,000 as a reorganization bonus, which was determined based upon the Company achieving certain performance targets. Under the terms of the Employment Agreement, the restructuring bonus is payable as follows:

- \$2,000,000 is earned upon occurrence of the following conditions (i) confirmation of the Plan of

Reorganization (as defined in the Employment Agreement), (ii) EBITDAR is at least \$300 million for the third and fourth fiscal quarters of the 2009 Fiscal Year, and (iii) the annualized operational improvements of the Company and its subsidiaries are at least \$100 million for the Company's 2009 Fiscal Year compared to the Company's fiscal year ended 2008; and

- if the above conditions are not satisfied, then \$1,000,000 is earned, upon the occurrence of the following conditions (i) confirmation of the Plan of Reorganization, (ii) EBITDAR is at least \$200 million for the third and fourth fiscal quarters of the Company's 2009 Fiscal Year, and (iii) the annualized operational improvements of the Company and its subsidiaries are at least \$50 million for the 2009 Fiscal Year compared to the Company's fiscal year ended 2008.

No reorganization bonus is payable under the Employment Agreement if the EBITDAR is less than \$200 million for the third and fourth fiscal quarters of the Company's 2009 Fiscal Year, or if the annualized operational improvements of the Company and its subsidiaries are less than \$50 million. Dr. Jackson earned \$2,000,000 of the restructuring bonus with respect to the 2009 Fiscal Year, which is disclosed in the Summary Compensation Table and in the 2009 Fiscal Year Grants of Plan-Based Awards table above.

Under the Employment Agreement, Dr. Jackson is also eligible to participate in all incentive plans, practices, policies and programs applicable generally to other executive personnel of the Company. Accordingly, Dr. Jackson was entitled to participate in the FY2009 Performance Bonus Plan and the Severance Plan, as described below.

Restricted Stock Grant

On January 27, 2009, under the terms of the Employment Agreement, Dr. Jackson was granted a restricted stock award of 3,085,656 shares of the Company's common stock (the "Shares"), vesting when certain conditions and performance targets are met. Under the terms of the Employment Agreement, one-half of the Shares vests upon the occurrence of the following conditions: (1) confirmation of the Plan of Reorganization and, (2) the EBITDAR is at least an aggregate of \$300 million for the third and fourth fiscal quarters of 2009 Fiscal Year. The remaining one-half of the Shares vests if the EBITDAR for the last 12 months ending on the last day of the fiscal month immediately preceding substantial consummation of the Company's plan of reorganization is at least an aggregate of \$500 million. In connection with the confirmation of the Plan of Reorganization, the emergence of the Company from Chapter 11 bankruptcy proceedings and the satisfaction of the performance targets, the Shares vested in December 2009. The grant of Shares is disclosed in the Summary Compensation table, the 2009 Fiscal Year and Transition Period Grants of Plan-Based Awards table above and the 2009 Fiscal Year and Transition Period Options Exercises and Stock Vested table below.

Perquisites and Other Personal Benefits

Under the Employment Agreement, Dr. Jackson is entitled to participate in the Company's savings and retirement plans, practices and programs generally applicable to other executive personnel of the Company. Dr. Jackson is also eligible to participate in all group benefits plans and programs the Company has established or may establish for its executive employees, including the Company's executive relocation policy and repayment agreement, which provides moving and other relocation related expenses, including assistance selling a home and temporary housing. Any amounts under the executive relocation policy and repayment agreement must be repaid if employment is terminated within one year from the hire date.

Termination

If the Employment Agreement is terminated for "cause" by the Company during the term of the

Employment Agreement, (1) Dr. Jackson will be paid or receive all accrued but unpaid compensation and benefits, (2) any remaining unforgiven amount of the Sign on Bonus will be immediately forgiven, and (3) the unvested Shares would be forfeited.

If Dr. Jackson terminates the Employment Agreement without "good reason" during the term of the Employment Agreement:

- Dr. Jackson will be paid or receive all accrued but unpaid compensation and benefits,
- Dr. Jackson will be required to repay the Company any remaining unforgiven amount of the Sign on Bonus, and
- the unvested Shares would be forfeited.

If the Employment Agreement is terminated for death or "disability" or other than for "cause" by the Company or with "good reason" by Dr. Jackson during the term of the Employment Agreement, Dr. Jackson will receive all accrued but unpaid compensation and benefits, and any remaining unforgiven amount of the Sign on Bonus will be immediately forgiven. See the discussion below under "Potential Payments upon Termination or Change in Control," for additional information regarding compensation and benefits that Dr. Jackson is entitled to receive upon termination of his employment.

Separation and Consulting Agreements

On December 16, 2008, our Board accepted the resignations of J. Clinton Rivers, the Company's former Chief Executive Officer and President, and Robert A. Wright, the Company's former Chief Operating Officer. In connection with the resignations, the Company entered into a separation agreement and consulting agreement with Mr. Wright on December 22, 2008, and a separation agreement and consulting agreement with Mr. Rivers on December 24, 2008. Under the terms of the separation agreements, each of them resigned as an officer, director, employee and any other capacity of the Company and its subsidiaries and agreed to terminate their change in control agreements with the Company. The Company agreed to pay a severance payment of \$143,242 to each of Mr. Rivers and Mr. Wright. Pursuant to the terms of the consulting agreements, each agreed to provide consulting services to the Company on an as-requested basis for a fee of (a) \$83,500 per month, for a term of four months, in the case of Mr. Rivers, and (b) \$50,000 per month, for a term of three months, in the case of Mr. Wright. The consulting agreements also included non-competition covenants for the duration of the agreements. The amounts paid under the separation agreements were limited by provisions of the Bankruptcy Code. The separation agreements were approved by the Bankruptcy Court in January 2009 and the consulting agreements were approved by the Bankruptcy Court in March 2009. The amounts paid to Messrs. Rivers and Wright under the separation and consulting agreements are disclosed in the Summary Compensation Table above.

Performance Bonus Plan

Following meetings in May and August 2009, our Board approved, subject to Bankruptcy Court approval, the FY2009 Performance Bonus Plan. On September 29, 2009, the Bankruptcy Court entered an order approving the FY2009 Performance Bonus Plan. The awards to be paid under the FY2009 Performance Bonus Plan are linked to our EBITDAR (as defined in the FY2009 Performance Bonus Plan) in the third and fourth quarters of 2009 Fiscal Year and the successful emergence from bankruptcy. The Compensation Committee approved the EBITDAR threshold performance level of at least \$225 million in EBITDAR below which no awards are earned. In addition, to remain eligible for an award under the FY2009 Performance Bonus Plan, a participant must have been employed by the Company through its emergence from bankruptcy.

Each participant that was eligible for an award under the FY2009 Performance Bonus Plan received a cash bonus equal to such participant's pro rata share of a pool equal to the sum of (1) \$2.6 million, plus (2) 4% of any portion of the Company's EBITDAR for the third and fourth fiscal quarters that exceeds \$225 million. Each participant's pro rata share of the total pool available to all participants under the FY2009 Performance Bonus Plan will be based on the factor of such individual's target bonus percentage, as set by our Board, multiplied by the amount of such participant's annualized base salary accrued with respect to FY2009 (the "Bonus Factor"). Notwithstanding the foregoing, the FY2009 Performance Bonus Plan provides that if our EBITDAR for the third and fourth quarters of 2009 meets or exceeds \$325 million, each award pursuant to the plan will be equal to an amount that is at least 100% of the applicable participant's Bonus Factor. The awards earned in 2009 Fiscal Year under the FY2009 Performance Bonus Plan and payable to our named executive officers are disclosed in the Summary Compensation Table and in the 2009 Fiscal Year Grants of Plan-Based Awards table above. For further information regarding the FY2009 Performance Plan, see "Compensation Discussion and Analysis" above.

401(k) Salary Deferral Plan and Employee Stock Investment Plan

Our executive officers receive no special employee benefits. During our Chapter 11 bankruptcy proceedings, our executive officers were able to participate on the same basis as other employees in the provisions of the Company's 401(k) salary deferral plan. Contributions to the Company's 401(k) salary deferral plan are made up of a 30% matching contribution on the first 6% of pay and an additional matching contribution on up to 6% of an executive's compensation, subject to an overall contribution limit for all employees 401(k) and other profit sharing plans of 5% of domestic income before taxes. In November 2008, the Company notified its employees that any matching contributions to the Company's 401(k) salary deferral plan that he or she had previously elected to be invested in Company's common stock would be automatically invested in the plan's default investment option unless the employee elected a different investment. All full-time employees in the U.S. are eligible to participate in the 401(k) salary deferral plan. We do not have any other pension plan for our executive officers.

The Company has also historically maintained an Employee Stock Investment Plan pursuant to which we contributed an amount equal to 33 1/3% of an officer's payroll deduction for purchases of our common stock under the plan. In November 2008, matching contributions that employees had previously elected to be invested in Company common stock were permanently suspended. In December 2009, we terminated the Employee Stock Investment Plan.

Contributions to named executive officers made in 2009 Fiscal Year under our 401(k) salary deferral plan and under the Employee Stock Investment Plan are reported in the Summary Compensation Table above.

2009 FISCAL YEAR AND TRANSITION PERIOD NONQUALIFIED DEFERRED COMPENSATION TABLE

During our Chapter 11 proceedings, we also maintained and continue to maintain the Deferred Compensation Plan to help provide for the long-term financial security of our US employees who meet the Internal Revenue Service definition of a “highly compensated employee,” which include all of our named executive officers and certain other key personnel. Under the Deferred Compensation Plan, participants may elect to defer up to 80% of their base salary and/or up to 100% of their annual cash bonus payments as part of their personal retirement or financial planning. Executive officers who elect to defer compensation in the Deferred Compensation Plan must do so annually prior to the beginning of each calendar year and may direct the investment of the amount deferred and retained by us. The Deferred Compensation Plan is administered by the administrative committee appointed by our Board, and deferred compensation may be invested in authorized funds which are similar to the investment options available under our 401(k) salary deferral plan. The following table sets forth information regarding the activity in each named executive officer’s Deferred Compensation Plan account for the 2009 Fiscal Year and Transition Period:

Name	Executive Contributions in Transition Period(a) (\$)	Executive Contributions in Last Fiscal Year(a) (\$)	Registrant Contributions in Transition Period (\$)	Registrant Contributions in Last Fiscal Year (\$)	Aggregate Earnings in Transition Period(b) (\$)	Aggregate Earnings in Last Fiscal Year(b) (\$)	Aggregate With- drawals/Distri- butions in Transition Period (\$)	Aggregate With- drawals/Distri- butions in Last Fiscal Year(c) (\$)	Aggregate Balance at end of Transition Period (\$)
Lonnie "Bo" Pilgrim	-0-	-0-	-0-	-0-	-0-	-0-	-0-	-0-	-0-
Don Jackson	-0-	-0-	-0-	-0-	-0-	-0-	-0-	-0-	-0-
Richard A. Cogdill	-0-	39,690	-0-	-0-	5,025	12,818	-0-	(389,561)	252,249
Lonnie "Ken" Pilgrim	-0-	-0-	-0-	-0-	(11)	(3)	-0-	-0-	11,142
William K. Snyder	-0-	-0-	-0-	-0-	-0-	-0-	-0-	-0-	-0-
J. Clinton Rivers	-0-	58,265	-0-	-0-	12,558	18,478	-0-	(96,947)	585,343
Robert A. Wright	-0-	-0-	-0-	-0-	26,302	(2,294)	-0-	(2,029)	791,580

- (a) The amounts disclosed in this column are included in the amounts reported in the “Salary” column for each of the named executive officers in the Summary Compensation Table.
- (b) The amounts disclosed in this column represent earnings on invested funds in each individual Deferred Compensation Plan account.
- (c) Upon emergence from bankruptcy, deferred compensation distributions were made on December 29, 2009 to the following individuals and in the following amounts: Richard A. Cogdill, \$252,249; J. Clinton Rivers, \$506,384; and Robert A. Wright, \$88,422.

**2009 FISCAL YEAR AND TRANSITION PERIOD OPTIONS EXERCISES AND STOCK
VESTED TABLE**

<u>Name</u>	Stock Awards	
	Number of Shares Acquired on Vesting (#)	Value Realized on Vesting (\$)
Don Jackson (a)	3,085,656	23,990,975

- (a) On January 27, 2009, under the terms of the Employment Agreement, Dr. Jackson was granted a restricted stock award of 3,085,656 shares of the Company's common stock. In connection with the confirmation of the Plan of Reorganization, the emergence of the Company from Chapter 11 bankruptcy proceedings and the satisfaction of the performance targets, the restricted stock award vested in December 2009. See the 2009 Fiscal Year and Transition Period Grants of Plan-Based Awards table above.

2009 FISCAL YEAR AND TRANSITION PERIOD POTENTIAL PAYMENTS UPON TERMINATION OR CHANGE IN CONTROL

The information below describes certain compensation that would be paid to our named executive officers in the event of a termination of their employment with the Company and/or change in control of the Company. The amounts shown in the table below assume that such a termination of employment and/or change in control occurred on December 27, 2009.

<u>Executive Officer / Element of Compensation</u>	<u>Termination for Cause (\$)</u>	<u>Termination without Good Reason (\$)</u>	<u>Termination due to Death or Disability (\$)</u>	<u>Termination Other than for Cause, Death or Disability; or by Executive for Good Reason (\$)</u>	<u>Termination Other than for Cause, Death or Disability; within 24 Months Following a Change of Control (\$)</u>
Don Jackson(a)					
Severance Payment	-0-	-0-	490,385	490,385	9,000,000
Accrued vacation amount	115,385	115,385	115,385	115,385	115,385
Health benefits	-0-	-0-	-0-	-0-	19,446
Tax gross-up	-0-	-0-	-0-	-0-	-0-
Pro rata bonus	-0-	-0-	-0-	-0-	1,500,000
Total Mr. Jackson	115,385	(1,967,948)^(a)	605,769	605,769	10,634,831

(a) Under the Employment Agreement, Dr. Jackson received a Sign on Bonus of \$3,000,000, which is subject to repayment on a pro-rata basis over a three year period in the event he terminates his employment without good reason. If Dr. Jackson terminated his employment without good reason on December 27, 2009, he would have been obligated to repay to the Company \$2,083,333 of the Sign on Bonus (for 25 of 36 months not worked).

Change in Control Agreements

In October 2008, we entered into change in control agreements with Lonnie "Ken" Pilgrim and Richard A. Cogdill, and in September 2009 we entered into a change in control agreement with Don Jackson (collectively, the "Change in Control Agreements"). Lonnie "Bo" Pilgrim was not party to a Change of Control Agreement.

Upon our emergence from the Chapter 11 bankruptcy proceedings effective on December 28, 2009, Richard A. Cogdill was terminated as the Chief Financial Officer, Secretary, Treasurer and Principal Accounting Officer of the Company, and Lonnie Ken Pilgrim was terminated as the Senior Vice President, Transportation of the Company. Upon termination we paid Richard A. Cogdill a total of \$5,171,100 and Lonnie "Ken" Pilgrim a total of \$3,906,132 in change in control payments. For information concerning the payments made under their Change of Control Agreement, see "Executive Compensation – Summary Compensation Table." In October 2008, we also entered into a change in control agreement with Gary D. Tucker, who was appointed as the Company's Principal Financial Officer on December 28, 2009. On June 1, 2010, Mr. Tucker entered into a letter agreement with the Company relating to his employment. In connection with the letter agreement, Mr. Tucker's change in control agreement was terminated. For further information concerning the letter agreement, see "Tucker Letter Agreement" above.

The Company believes that the Change in Control Agreements were critical to our ability to attract and retain highly qualified employees who provide essential services for our successful emergence from bankruptcy and continued long-term profitability and growth. Such agreements reduce personal uncertainty that arises from the possibility of a future business combination or restructuring. Moreover,

the Change in Control Agreements were designed to offset the uncertainty of executives regarding their own futures if a change in control or termination actually occurs. In addition, we believe that the Change in Control Agreements increase stockholder value by encouraging the executives to consider change in control transactions that are in the best interest of the Company and its stockholders, even if the transaction may ultimately result in their termination of employment.

The Change in Control Agreements had an initial term of three years. The Change in Control Agreements had two triggers: (1) a change in control (the "Change in Control") and (2) separation from the Company. The change of ownership of the Company pursuant to the Plan qualifies as the first trigger for the first two years following confirmation of the Plan of Reorganization.

Generally, the Change in Control Agreements provide that, except in the case of Dr. Jackson, any stock options and other equity awards held by the executives will become fully vested and exercisable upon a Change in Control (however, no such awards will be outstanding as of the Change in Control) and that, if the Company terminates an executive's employment for reasons other than "cause" or if the executive resigns for "good reason" (as these terms are defined in the Change in Control Agreements) within a specified time period following a Change in Control, then the executive will be entitled to certain severance benefits. The employment period is 24 months in the case of Mr. Pilgrim and Dr. Jackson and 18 months in the case of Mr. Cogdill. Upon the termination of an executive's employment during the employment period, the Change in Control Agreements provide:

- For a lump sum severance payment that includes the executive's target annual bonus for the fiscal year in which the termination occurs, prorated through the date of termination, and an amount based on the sum of the executive's annual base salary and target annual bonus, multiplied by 3.0 in the case of Mr. Pilgrim and Dr. Jackson and by 2.5 in the case of Mr. Cogdill.
- That the executives may be entitled to receive a tax gross-up payment to compensate them for specified excise taxes, if any, imposed on the severance payment.
- Up to 18 months of the Company-paid COBRA premiums.
- In the case of Dr. Jackson, any stock options and other equity awards held by him will become fully vested and exercisable.

In addition, the Change in Control Agreements provide that, for a period of 24 months in the case of Mr. Pilgrim and Dr. Jackson and 18 months in the case of Mr. Cogdill, from the date of any termination of the executive's employment that results in a severance payment under the executive's Change in Control Agreement, the executive will not (a) divulge confidential information regarding the Company, (b) solicit or induce employees of the Company to terminate their employment with the Company, or (c) seek or obtain any employment or consulting relationship with any specified competitor of the Company. See discussion below under "Potential Payments Upon Termination or Change In Control," for additional information regarding compensation and benefits that Lonnie "Ken" Pilgrim, Mr. Cogdill and Dr. Jackson are entitled to receive upon the Change in Control.

Severance Plan

Prior to our emergence from the Chapter 11 bankruptcy proceedings, we maintained the Pilgrim's Pride Corporation Severance Plan (the "Severance Plan"), pursuant to which we provided severance payments to eligible employees, including our named executive officers, if their employment was terminated "without cause." Under the Severance Plan, in exchange for signing an enforceable waiver and release agreement, upon termination without cause, a named executive officer was entitled to receive as severance pay an amount equal to: one week per year of service with the Company, plus a minimum of 16 supplemental weeks (in addition to years of service amount), with a total maximum of 52 weeks of pay. In addition, if the Company provided less than two weeks notice of termination without cause, an

executive officer would have been entitled up to two additional weeks of severance in lieu of notice. Additional benefits that are available to eligible employees under the Severance Plan included career transition services as determined by the Company, including without limitation, written materials, company sponsored training and job fairs.

Mr. Cogdill's employment with the Company terminated on December 28, 2009. In connection with his termination Mr. Cogdill received \$4,203,836 in severance, \$947,299 in gross-up for taxes, and \$19,965 for health benefits. For further information, see the Summary Compensation Table.

Lonnie Ken Pilgrim's employment with the Company terminated on December 28, 2009. In connection with his termination Mr. Pilgrim received \$3,127,397 in severance, \$758,770 in gross-up for taxes, and \$19,965 for health benefits. For further information, see the Summary Compensation Table.

Lonnie "Bo" Pilgrim ceased serving as Senior Chairman effective immediately following our emergence from bankruptcy. He remains as a Director of the Company. Mr. Pilgrim did not receive any severance payments under the Severance Plan as a result of his termination of service as Senior Chairman. For further information, see the Summary Compensation Table.

Jackson Employment Agreement

If the Employment Agreement is terminated for "cause" by the Company during the term of the Employment Agreement, (1) Dr. Jackson will be paid or receive all accrued but unpaid compensation and benefits, (2) any remaining unforgiven amount of the Sign on Bonus will be immediately forgiven, and (3) the unvested Shares would be forfeited.

If Dr. Jackson terminates the Employment Agreement without "good reason" during the term of the Employment Agreement:

- Dr. Jackson will be paid or receive all accrued but unpaid compensation and benefits,
- Dr. Jackson will be required to repay the Company any remaining unforgiven amount of the Sign on Bonus, and
- the unvested Shares would be forfeited.

If the Employment Agreement is terminated for death or "disability" or other than for "cause" by the Company or with "good reason" by Dr. Jackson during the term of the Employment Agreement, Dr. Jackson will receive all accrued but unpaid compensation and benefits, and any remaining unforgiven amount of the Sign on Bonus will be immediately forgiven. For additional information concerning the terms of these agreements, see "Summary Compensation Table — Jackson Employment Agreement."

Separation and Consulting Agreements

On December 16, 2008, our board of directors accepted the resignations of J. Clinton Rivers, the Company's former Chief Executive Officer and President, and Robert A. Wright, the Company's former Chief Operating Officer. In connection with the resignations, the Company entered into a separation agreement and consulting agreement with Mr. Wright on December 22, 2008, and a separation agreement and consulting agreement with Mr. Rivers on December 24, 2008. For additional information concerning the terms of these agreements, see "Summary Compensation Table — Separation and Consulting Agreements."

2009 FISCAL YEAR AND TRANSITION PERIOD DIRECTOR COMPENSATION TABLE

	2009	132,000	-0-	-0-	132,000
Donald L. Wass, Ph.D.	2009T	13,000	-0-	-0-	13,000
	2009	132,000	-0-	-0-	132,000

(a) These amounts represent compensation paid by the Company to Blake Lovette's son-in-law, Ted Lankford, Complex Manager at Marshville, North Carolina, who was paid total compensation of \$170,046 during the 2009 Fiscal Year and \$45,770 during the Transition Period.

In the 2009 Fiscal Year and Transition Period we paid our non-employee Directors \$9,000 per meeting they attend in person, plus expenses, and \$4,000 and \$2,000 per telephonic meeting that they participate in that lasts at least 45 minutes or less than 45 minutes, respectively. Additionally, we paid the members of the Audit Committee \$6,000 for each Audit Committee meeting they attend in person, plus expenses, and \$4,000 and \$2,000 per telephonic Audit Committee meeting that they participate in that lasts at least 45 minutes or less than 45 minutes, respectively.

On December 28, 2009, upon the Company's emergence from Chapter 11 bankruptcy proceedings, the Board approved a new compensation program for Directors (the "Program"). Under the Program, directors who are employed by the Company following its emergence from bankruptcy or any of its subsidiaries will not receive any additional compensation for their services as directors. The Program provides that each non-employee Director will receive an annual retainer of \$140,000, paid quarterly in arrears, composed of \$70,000 in cash with the remainder consisting of a combination of cash and equity awards to be determined by the Board. In addition, non-employee directors will each receive \$1,500 per Board meeting they attend in person, plus expenses. The Chairmen of the Audit Committee and Compensation Committee will each receive \$15,000 supplemental annual compensation, and other members of those committees will each receive an additional \$10,000 per year. The Chairmen of other Board committees will each receive \$10,000 supplemental annual compensation, with other members of such committees each receiving an additional \$5,000 per year. Committee Chairmen and other committee members will each also receive \$1,500 and \$1,000, respectively, per committee meeting they attend in person, plus expenses.

Compensation Risks

The Company has reviewed and assessed our compensation policies and practices to determine whether they are reasonably likely to have a material adverse effect on the Company. The Company's management reviews compensation policies for the presence of certain elements that could encourage employees to take unnecessary or excessive risks; the ratios and level of incentive to fixed compensation, annual to long-term compensation and cash to equity compensation; and the comparison of compensation expense to earnings of the Company. Management's assessment of the Company's compensation policies is reviewed by the Compensation Committee as part of its risk oversight function.

The Company believes that its compensation programs for employees and executive officers are appropriately tailored to encourage employees to grow our business, but not to encourage them to do so in a way that poses unnecessary or excessive material risk. In particular, following the Company's emergence from Chapter 11 bankruptcy proceedings the Company's compensation programs were designed to provide the following elements:

- elements that reward short-term and long-term performance,
- for our executive officers, incentive compensation that rewards performance based on individual and/or Company performance; and
- compensation with fixed and variable components.

As a result, the Company believes that executive officers and key employees receive a balance between competitive remuneration to encourage retention and compensation designed to provide opportunities to earn more by successfully executing our business strategy. The Company believes the design of these programs encourages our executive officers and key employees to perform at high levels and maximize Company performance without focusing exclusively on compensation performance metrics to the detriment of other important business metrics.

The Company also believes that its compensation program for the Chief Executive Officer does not encourage excessive risk taking because the above compensation elements coupled with his equity ownership in the Company provide a proper mix between long and short-term incentives. A significant portion of Dr. Jackson's total compensation is performance-based and tied to the profitability of the Company. Specifically, Dr. Jackson is eligible to receive an annual cash bonus payable in accordance with the STIP, based on the Company's earnings. Additionally, Dr. Jackson currently owns a level of equity that the Company believes provides sufficient long-term incentives. The Company believes that Dr. Jackson's significant beneficial ownership encourages long-term focus on sustainable performance, which aligns his interests with those of our stockholders.

Overall, the Company concluded that there were no risks arising from our compensation policies and practices that are reasonably likely to have a material adverse effect on the Company.

Related Party Transactions Policy

During 2009 Fiscal Year and the Transition Period, in accordance with its Charter, our prior Audit Committee was responsible for reviewing and approving the terms and conditions of all proposed transactions between us and any of our officers or Directors, or relatives or affiliates of any such officers or Directors. Furthermore, we adopted a restated certificate of incorporation upon our emergence from Chapter 11 bankruptcy proceedings on December 28, 2009, which provides that all transactions required to be disclosed under Item 404 of Regulation S-K under the Exchange Act ("related-party transactions") must first be reviewed, evaluated and approved by the Audit Committee or other committee comprised solely of independent directors, such approval to be evidenced by a resolution stating that such committee has, in good faith, unanimously determined that such transaction complies with the provisions our certificate of incorporation governing related-party transactions. Any Audit Committee or other

independent body member who was or is not independent with respect to a related party transaction under review has been required by our Audit Committee Charter to disclose his or her lack of independence to the remaining committee members and abstain from the review and approval of that transaction.

See “Certain Transactions” for the description of the related party transactions in effect since the beginning of our 2009 Fiscal Year.

Compensation Committee Interlocks and Insider Participation

During 2009 Fiscal Year and the Transition Period, the members of the Compensation Committee were Lonnie “Bo” Pilgrim, Lonnie Ken Pilgrim, Vance C. Miller, Sr., James G. Vetter, Jr. and Blake D. Lovette.

During 2009 Fiscal Year and the Transition Period, the Company was a party to certain transactions with Lonnie “Bo” Pilgrim and his children. These transactions, along with all other transactions between the Company and affiliated persons, required the prior approval of the prior and current Audit Committee of the Board of Directors, and the committee has approved each of these transactions.

See “Certain Transactions” for the description of the related party transactions in effect since the beginning of our 2009 Fiscal Year.

During 2009 Fiscal Year and the Transition Period, we employed Blake Lovette’s son-in-law, Ted Lankford, as Complex Manager for our Marshville, NC live operations and processing complex. Mr. Lankford was paid total compensation of \$170,046 in 2009 Fiscal Year and \$45,770 during the Transition Period.

On January 19, 2010, we entered into an agreement with JBS USA in order to allocate costs associated with JBS USA’s procurement of SAP licenses and maintenance services for its combined companies. Under this agreement, the fees associated with procuring SAP licenses and maintenance services are allocated between the Company and JBS USA in proportion to the percentage of licenses used by each company. The agreement expires on the date of expiration, or earlier termination, of each underlying SAP license agreement. As of October 24, 2010, we have paid JBS USA \$6,588,000 for such services.

On May 5, 2010, we also entered into an agreement with JBS USA in order to allocate the costs of supporting the business operations by one consolidated corporate team, which have historically been supported by their respective corporate teams. Expenditures paid by JBS USA on behalf of the Company will be reimbursed by the Company, and expenditures paid by the Company on behalf of JBS USA will be reimbursed by JBS USA. This agreement expires on May 5, 2015. As of October 24, 2010, JBS USA had incurred approximately \$14,119,809 in expenditures paid on our behalf. As of October 24, 2010, we had incurred approximately \$296,578 in expenditures paid on behalf of JBS USA.

We routinely enter transactions to purchase products from JBS USA and to sell our products to them. Subsequent to the Transition Period and through October 24, 2010, such purchases from JBS USA totaled \$33,895,216 and sales to them totaled \$2,933,240.

Certain Transactions

Since the beginning of the 2009 Fiscal Year, we have been a party to certain transactions with our current and former Directors and executive officers. These transactions, along with all other transactions between us and affiliated persons, received the approval of the prior Audit Committee and our current Audit Committee, as applicable. Company management analyzed the terms of all contracts entered into with related parties and believed that they were substantially similar to, and contained terms not less favorable to us than, those obtainable from unaffiliated parties.

In connection with the bankruptcy court order approving and confirming our joint plan of reorganization, the Company and Lonnie “Bo” Pilgrim entered into the Consulting Agreement, which became effective on December 28, 2009, the effective date of the Plan of Reorganization. The terms of the Consulting Agreement include, among other things, the following:

- Mr. Pilgrim will provide services to the Company that are comparable in the aggregate with the services provided by him to the Company prior to the effective date;
- Mr. Pilgrim will be appointed to the Board of Directors of the Company and during the term of the Consulting Agreement will be nominated for subsequent terms on the Board;
- Mr. Pilgrim will be compensated for services rendered to the Company at a rate of \$1.5 million a year for a term of 5 years;
- Mr. Pilgrim will be subject to customary non-solicitation and non-competition provision; and
- Mr. Pilgrim and his spouse will be provided with medical benefits (or will be compensated for medical coverage) that are comparable in the aggregate to the medical benefits afforded to employees of the Company.

We have entered into chicken grower contracts involving farms owned by certain of our officers, providing the placement of Pilgrim’s Pride-owned flocks on their farms during the grow-out phase of production. These contracts are on terms substantially the same as contracts we enter into with unaffiliated parties and can be terminated by either party upon completion of the grow-out of each flock. The aggregate amount paid by us to Lonnie “Bo” Pilgrim under these grower contracts during 2009 Fiscal Year was \$1,307,304 and during the Transition Period was \$185,311. Subsequent to the Transition Period and through October 24, 2010, the amount paid under the grower contracts was \$927,444.

During 2009 Fiscal Year and the Transition Period, we processed the payroll for certain employees of Lonnie “Bo” Pilgrim and Pilgrim Poultry G.P. (“PPGP”) as well as performed certain administrative bookkeeping services for Mr. Pilgrim’s personal businesses. Lonnie “Bo” Pilgrim is the sole proprietor of PPGP. PPGP paid the Company \$685,894 during fiscal 2009 and \$85,081 during the Transition Period for general supplies and the services described above. Subsequent to the Transition Period and through October 24, 2010, the amount paid by PPGP was \$12,717.

PPGP also rented facilities to us for the production of eggs. On December 29, 2000, we entered into an agreement with PPGP to rent its egg production facilities for a monthly amount of \$62,500. We paid rental on the facilities of \$750,000 during fiscal 2009 and \$187,500 during the Transition Period to PPGP. Subsequent to the Transition Period and through October 24, 2010, the amount paid for rental of these facilities was \$125,000. On February 23, 2010, the Company purchased the commercial egg property from PPGP for \$12,000,000.

During 2009 Fiscal Year and the Transition Period, the Company maintained depository accounts with a financial institution of which Lonnie “Bo” Pilgrim is a major stockholder. Fees paid to this bank in 2009 Fiscal Year and the Transition Period were insignificant as of September 26, 2009 and December 27, 2009, we had bank balances at this financial institution of \$2,275,825 and \$4,853,265, respectively.

On June 9, 2010, the Company sold two airplane hangars and undeveloped land to Lonnie A. “Bo” Pilgrim for \$1.45 million. Since 1985, we also leased an airplane from Lonnie “Bo” Pilgrim under a lease agreement which provided for monthly lease payments of \$33,000 plus operating expenses. This lease was terminated effective November 18, 2008. During fiscal 2009, we incurred lease expenses of \$66,000 and operating expenses of \$1,500 associated with the use of this airplane. We incurred no expenses associated with the use of this airplane during the Transition Period.

During 2009 Fiscal Year and the Transition Period, a portion of the Company’s debt obligations were guaranteed by Pilgrim Interests, Ltd., an entity related to Lonnie “Bo” Pilgrim. In consideration of such guarantees, the Company has paid Pilgrim Interests, Ltd. a quarterly fee equal to 0.25% of one-half

of the average aggregate outstanding balance of such guaranteed debt. We paid \$1,143,179 during fiscal 2009 and we made no payments during the Transition Period to Pilgrim Interests, Ltd. However, pursuant to the terms of our Post-Petition Credit Agreement among the Company, as borrower, certain of its subsidiaries, as guarantors, Bank of Montreal, as agent, and the lenders party thereto entered into upon commencement of our Chapter 11 proceedings on December 1, 2008, the Company was unable to make any loan guarantee fees throughout the remainder of 2009 without the consent of the lenders thereunder. At December 27, 2009, the Company had classified accrued loan guaranty fees totaling \$8,927,764 as Liabilities subject to compromise. Following our emergence from bankruptcy, we paid Pilgrim Interests, Ltd. \$8,927,764, which included the amounts owed at December 27, 2009 plus the amount owing through December 28, 2009, the date of our emergence from bankruptcy. Pilgrim Interests, Ltd. no longer guarantees any of the Company's debt obligations.

During 2009 Fiscal Year and the Transition Period, certain members of the family of Lonnie "Bo" Pilgrim were employed by us, including: his son, Lonnie Ken Pilgrim, our former Senior Vice President, Transportation. Lonnie Ken Pilgrim was paid total compensation of \$344,360 in fiscal 2009 and \$4,501,234 during the Transition Period. Lonnie Ken Pilgrim also served as Chairman of the Board from January 2009 and as interim President from December 2008 to January 2009. Additionally, his son, Pat Pilgrim; and his daughter, Greta Pilgrim-Owens, were employed by the Company and received total compensation for fiscal 2009 of \$4,212 and \$12,116, respectively. Pat Pilgrim's and Greta Pilgrim-Owens' employment with the Company terminated on September 28, 2008.

From time to time, the Company has purchased grain from Pat Pilgrim, a son of Lonnie "Bo" Pilgrim, in transactions pre-approved by the Audit Committee. We paid him \$396,170 for such purchases in 2009 Fiscal Year and made no purchases during the Transition Period. Subsequent to the Transition Period and through October 24, 2010, we paid Pat Pilgrim \$338,060 for grain. Pat Pilgrim also provided hauling services to us in 2009 Fiscal Year and the Transition Period, for which he was paid \$34,211 and \$6,741, respectively. Subsequent to the Transition Period and through October 24, 2010, we paid Pat Pilgrim \$9,600 for hauling services. He also paid the Company \$26,278 on October 30, 2009, for land he leased from us during 2009 Fiscal Year. On November 30, 2005, the Audit Committee pre-approved our entering into three contracts with Pat Pilgrim, a general services agreement, a transportation agreement and a lease. On January 28, 2008, the Audit Committee approved the new ground lease agreement with Pat Pilgrim. In February 2008, we entered into the new ground lease agreement pursuant to which Pat Pilgrim rents 1,596 acres of land from the Company for annual lease payments totaling \$26,278. The lease agreement, which was for a one year initial term, renews for an additional year at the end of each term, but the agreement can be terminated by either party without cause.

Independent Registered Public Accounting Firm Fee Information

Audit Fees

Fees for audit services totaled \$2,084,739 in fiscal 2009, \$170,000 during the Transition Period and \$2,550,119 in fiscal 2008, including fees associated with the annual audit, the audit of internal controls over financial reporting (i.e., the Sarbanes-Oxley 404 Audit), the reviews of our quarterly reports on Form 10-Q, statutory audits required in Mexico and assistance with registration statements and accounting consultations.

Audit-Related Fees

Fees for audit-related services totaled \$0 in 2009 Fiscal Year, \$0 during the Transition Period and \$515,862 in fiscal 2008. Audit-related services principally include transaction assistance, Sarbanes-Oxley 404 assistance and employee benefit plan audits.

Tax Fees

Fees for tax services, including tax compliance, tax advice and tax planning, totaled \$383,894 in 2009 Fiscal Year, \$8,184 during the Transition Period and \$320,924 in fiscal 2008.

All Other Fees

Fees for all other services not included above totaled \$0 in 2009 Fiscal Year, \$0 during the Transition Period and \$0 in 2008.

The Audit Committee has pre-approved all audit and non-audit fees of the independent registered public accounting firm during 2009 Fiscal Year, the Transition Period and fiscal 2008.

Pre-Approval Policies and Procedures

In accordance with its Charter, our Audit Committee has established policies and procedures by which it approves in advance any audit and permissible non-audit services to be provided by our independent registered public accounting firm. Under these procedures, prior to the engagement of the independent registered public accounting firm for pre-approved services, requests or applications for the auditors to provide services must be submitted to our Principal Financial Officer or his designee, and the Audit Committee and must include a detailed description of the services to be rendered. The Principal Financial Officer or his designee and the independent registered public accounting firm must ensure that the independent registered public accounting firm is not engaged to perform the proposed services unless those services are within the list of services that have received the Audit Committee's pre-approval and must cause the Audit Committee to be informed in a timely manner of all services rendered by the independent registered public accounting firm and the related fees.

Requests or applications for the independent registered public accounting firm to provide services that require additions or revisions to the 2009 pre-approval will be submitted to the Audit Committee (or any Audit Committee members who have been delegated pre-approval authority) by the Principal Financial Officer or his designee. Each request or application must include:

- a recommendation by the Principal Financial Officer (or designee) as to whether the Audit Committee should approve the request or application; and
- a joint statement of the Principal Financial Officer (or designee) and the independent registered public accounting firm as to whether, in their view, the request or application is consistent with the SEC's regulations and the requirements for auditor independence of the Public Company Accounting Oversight Board.

The Audit Committee also will not permit the engagement to provide any services to the extent that the SEC has prohibited the provision of those services by independent registered public accounting firms.

The Audit Committee delegated authority to the Chairman of the Audit Committee to:

- pre-approve any services proposed to be provided by the independent registered public accounting firm and not already pre-approved or prohibited by this policy;
- increase any authorized fee limit for pre-approved services (but not by more than 30% of the initial amount that was pre-approved) before we or our subsidiaries engage the auditors to perform services for any amount in excess of the fee limit; and
- investigate further the scope, necessity or advisability of any services as to which pre-approval is sought.

The Chairman of the Audit Committee is required to report any pre-approval or fee increase decisions to the Audit Committee at the next committee meeting. The Audit Committee did not delegate to management any of the Audit Committee's authority or responsibilities concerning the services of the independent registered public accounting firm.

Report of the Audit Committee

The Audit Committee assists the Board in fulfilling its responsibilities for general oversight of the integrity of the Company's financial statements, our compliance with legal and regulatory requirements, the independent registered public accounting firm's qualifications and independence, the performance of our internal audit function and the independent registered public accounting firm, and risk assessment and risk management. The Audit Committee manages the Company's relationship with its independent registered public accounting firm (who reports directly to the Audit Committee). The Audit Committee has the authority to obtain advice and assistance from outside legal, accounting or other advisors as the Audit Committee deems necessary to carry out its duties and to receive appropriate funding, as determined by the Audit Committee, from the Company for such advice and assistance.

The Company's management has primary responsibility for preparing our financial statements and for our financial reporting process. Our independent registered public accounting firm, Ernst & Young LLP, is responsible for expressing an opinion on the conformity of the Company's audited financial statements with accounting principles generally accepted in the United States.

In this context, the Audit Committee hereby reports as follows:

1. The Audit Committee has reviewed and discussed the audited financial statements with the Company's management.
2. The Audit Committee has discussed with the independent registered public accounting firm the matters required to be discussed by SAS 61 (as amended or superseded).
3. The Audit Committee has received the written disclosures and the letter from the independent registered public accounting firm required by applicable requirements of the Public Company Accounting Oversight Board regarding the independent public accounting firm's communications with the Audit Committee concerning independence and has discussed with the independent registered public accounting firm the independent registered public accounting firm's independence.
4. Based on the review and discussions set forth above, the Audit Committee recommended to the Board that the audited financial statements be included in the Company's annual report on Form 10-K for the year ended September 26, 2009, that was filed with the SEC and that accompanies this proxy statement.

The undersigned members of the Audit Committee have submitted this report to the Board of Directors.

Audit Committee

Michael L. Cooper

Charles Macaluso

Wallim Cruz De Vasconcellos Junior

PROPOSAL 3. RATIFICATION OF THE APPOINTMENT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

Our Board of Directors recommends the ratification of the appointment of Ernst & Young LLP as our independent registered public accounting firm for fiscal 2010. This independent registered public accounting firm has been our auditor pursuant to annual appointment since 1969, except for 1982 and 1983. If the stockholders fail to ratify the appointment, the Audit Committee will reconsider its selection.

Representatives of Ernst & Young LLP are expected to be present at the annual meeting and to be available to respond to appropriate questions. They will be given the opportunity to make a statement if they wish to do so.

Our Board of Directors recommends that you vote FOR the ratification of the appointment of Ernst & Young LLP as our independent registered public accounting firm for fiscal 2010. Proxies will be so voted unless stockholders specify otherwise.

Financial Statements Available

Our annual report on Form 10-K for the fiscal year ended September 26, 2009, is being mailed concurrently with this proxy statement. The annual report does not form any part of the material for the solicitation of proxies. Upon written request of a stockholder, the Company will furnish, without charge, a copy of our annual report. If you would like a copy of the annual report, please contact Pilgrim's Pride Corporation, at: 1770 Promontory Circle, Greeley, Colorado 80634 Attn: Investor Relations. In addition, financial reports and recent filings with the SEC, are available on the Internet at www.sec.gov. Company information is also available on the Internet at <http://www.pilgrimspride.com>. Information contained on the website is not part of this proxy statement.

SECURITY OWNERSHIP

The following table sets forth, as of November 10, 2010, certain information with respect to the beneficial ownership of our common stock by (i) each person known by us to own more than 5% of the outstanding shares of our common stock (the only class of voting securities outstanding); (ii) each of our Directors, including employee Directors; (iii) our named executive officers; and (iv) all of our current Directors and executive officers as a group. Shares are beneficially owned when the person holding the shares has voting or investment power over the shares or the right to acquire voting or investment power within 60 days. Voting power is the power to vote the shares. Investment power is the power to direct the sale or other disposition of the shares.

Name and Beneficial Owner	Amount and Nature of Beneficial Ownership of Common Stock	Percent of Outstanding Common Stock	Percent of Voting Power

(a) JBS USA Holdings, Inc. is a subsidiary of JBS Hungary Holdings Kft., a wholly owned, indirect subsidiary of JBS S.A. JBS S.A. is ultimately controlled by the Batista family, which is comprised of José Batista Sobrinho, the founder of JBS S.A., Flora Mendonça Batista, and their six children, José Batista Júnior, Valéria Batista Mendonça Ramos, Vanessa Mendonça Batista, Wesley Mendonça Batista, Joesley Mendonça Batista and Vivianne Mendonça Batista. The Batista family indirectly owns 100.0% of the issued and outstanding shares of J&F Participações S.A., a Brazilian

corporation which owns 44.0% of the outstanding capital of JBS S.A., and, except for Mr. José Batista Sobrinho and Mrs. Flora Mendonça Batista, directly owns 100% of the equity interests in ZMF Fundo de Investimento em Participações, a Brazilian investment fund which owns 6.1% of the outstanding capital of JBS S.A. Wesley Mendonça Batista, Joesley Mendonça Batista and José Batista Júnior are members of our board of directors. Through J&F Participações S.A. and ZMF Fundo de Investimento em Participações, Wesley Mendonça Batista, Joesley Mendonça Batista and José Batista Júnior are members of the Batista family and each beneficially own all shares of our common stock through their controlling interest in JBS S.A. As a result of the ownership structure and other relationships described above, each of the JBS USA Holdings, Inc., Wesley Mendonça Batista, Joesley Mendonça Batista and José Batista Júnior is the beneficial owner, with shared voting and dispositive power of the 144,140,425 shares of common stock.

- (b) Includes 14,632,272 shares of common stock held of record by Pilgrim Interests, Ltd., a limited partnership formed by Lonnie “Bo” Pilgrim’s family, 68,013 shares of common stock held of record by PFCP, Ltd., another limited partnership formed by Lonnie “Bo” Pilgrim’s family, 90,580 shares of common stock held of record by Pilgrim Family Trust I, an irrevocable trust for the benefit of Lonnie “Bo” Pilgrim’s surviving spouse and children, of which Lonnie Ken Pilgrim, an officer and Director of the Company and the son of Lonnie “Bo” Pilgrim, and Patricia R. Pilgrim, Lonnie “Bo” Pilgrim’s wife, are co-trustees, and 90,579 shares of common stock held of record by Pilgrim Family Trust II, an irrevocable trust for the benefit of Lonnie “Bo” Pilgrim and his children, of which Lonnie “Bo” Pilgrim and Lonnie Ken Pilgrim are co-trustees. Pilgrim Interests, Ltd. is a limited partnership formed by Mr. Pilgrim’s family of which the managing general partner is the Lonnie A. Pilgrim 1998 Revocable Trust and the other general partner is Lonnie Ken Pilgrim and the limited partners are Lonnie “Bo” Pilgrim, The Lonnie A. “Bo” Pilgrim Endowment Fund, The Lonnie Ken Pilgrim Issue Trust, The Greta Pilgrim Owens Issue Trust and The Pat Pilgrim Issue Trust. PFCP, Ltd. is a limited partnership formed by Mr. Pilgrim’s family of which the managing general partner is the Lonnie A. Pilgrim 1998 Revocable Trust and the other general partner is Lonnie Ken Pilgrim, the class A limited partners are Lonnie “Bo” Pilgrim and Patricia R. Pilgrim and the class B limited partners are Lonnie “Bo” Pilgrim, Patricia R. Pilgrim and Lonnie Ken Pilgrim. The agreement establishing the Lonnie A. Pilgrim 1998 Revocable Trust provides that Lonnie “Bo” Pilgrim is the sole trustee during his life and, after his death, the trustee shall be a board of trustees currently comprised of Patricia R. Pilgrim and Lonnie Ken Pilgrim and S. Key Coker, Charles Black and Donald Wass. The agreement establishing the Lonnie A. Pilgrim 1998 Revocable Trust provides that Lonnie “Bo” Pilgrim as the sole trustee shall have sole voting and dispositive power over the shares of common stock and, after his death, most voting matters require a majority vote of the board of trustees except the direct or indirect sale of the shares of common stock requires a unanimous vote of the board of trustees. Additionally, Pilgrim Interests, Ltd. and PFCP, Ltd. have entered into a Voting Agreement, which may be terminated at any time by the unanimous action of Lonnie “Bo” Pilgrim, acting in his individual capacity and as trustee of the Lonnie A. Pilgrim 1998 Revocable Trust (acting as managing general partner of Pilgrim Interests, Ltd. and PFCP, Ltd.), Patricia R. Pilgrim and Lonnie Ken Pilgrim which provides that Lonnie Ken Pilgrim, Greta Pilgrim Owens, the daughter of Lonnie “Bo” Pilgrim, S. Key Coker, Charles L. Black and Donald L. Wass (the “Voting Representatives”) shall have the sole power to vote the shares of common stock owned by Pilgrim Interests, Ltd. and PFCP, Ltd. All voting decisions require a majority of the Voting Representatives except that (i) the sale of substantially all of the assets of the Company, (ii) the sale or liquidation of the Company, or (iii) the merger of the Company requires a unanimous vote of the Voting Representatives. All other decisions regarding common stock held by Pilgrim Interests, Ltd. and PFCP, Ltd. will be made by the Lonnie A. Pilgrim 1998 Revocable Trust. Includes 1,790 shares and 1,478 shares held in trust by our 401(k) Salary Deferral Plan for Lonnie “Bo” Pilgrim and Lonnie Ken Pilgrim, respectively, and 2,650 shares held by UGMA for Lonnie “Bo” Pilgrim. Each of Lonnie “Bo” Pilgrim and Lonnie Ken Pilgrim disclaims beneficial ownership of our common stock held, except to the extent of their actual pecuniary interest therein.
- (c) Includes 16,497 shares of common stock held by his wife. Also includes 63,070 shares of common stock held in two irrevocable trusts dated December 15, 1994 and October 31, 1989, of which Lonnie Ken Pilgrim is a co-trustee for the benefit of his children. Lonnie Ken Pilgrim disclaims any beneficial interest in the foregoing shares.
- (d) The shares of common stock held beneficially by Don Jackson are pledged to secure certain loans.

Section 16(a) Beneficial Ownership Reporting Compliance

Section 16(a) of the Exchange Act requires the Company's officers and Directors, and persons who own more than ten percent of our common stock, to file reports of ownership and changes in ownership with the SEC and the NYSE. Officers, Directors and greater than ten-percent stockholders are required by SEC regulations to furnish us with copies of all Section 16(a) forms they file. Based on our review of the copies of such forms, we believe that all other filing requirements applicable to our officers, Directors and greater than ten-percent stockholders for 2009 Fiscal Year and the Transition Period were complied with except that JBS USA Holdings, Inc.; VVMB Participações LTDA.; ZMF Participações LTDA.; WWMB Participações LTDA.; ZMF Fundo de Investimento em Participações; J&F Participações S.A.; JBS S.A.; JBS Global A/S; JBS Hungary Holdings KFT; José Batista Sobrinho; Joesley Mendonça Batista; Wesley Mendonça Batista; José Batista, Jr. filed their Form 3 late in January 2010.

HOUSEHOLDING OF STOCKHOLDER MATERIALS

Some banks, brokers and other nominee record holders may be participating in the practice of "householding" proxy statements and annual reports. This means that only one copy of this proxy statement or annual report to stockholders may have been sent to multiple stockholders in the same household. We will promptly deliver a separate copy of either document to any stockholder who requests by writing to our Investor Relations Department at the following address: 1770 Promontory Circle, Greeley, Colorado 80634 or by telephoning (903) 434-1495. Any stockholder who currently is receiving multiple copies and would like to receive only one copy for his or her household should contact his or her bank, broker or other nominee record holder.

IMPORTANT NOTICE REGARDING THE AVAILABILITY OF PROXY MATERIALS FOR THE STOCKHOLDER MEETING TO BE HELD ON DECEMBER 17, 2010

This proxy statement and the Company's 2010 Annual Report are also available electronically on our hosted website. You may view these directly at: www.envisionreports.com/PPC .

To access and review the materials made available electronically:

1. Go to www.envisionreports.com/PPC.
2. Enter the 12-digit control number located on the proxy card.
3. Click "View 2010 Stockholder Material."

We encourage you to review all of the important information contained in the proxy materials before voting.

OTHER BUSINESS

The Board of Directors is not aware of, and it is not anticipated that there will be presented to the meeting, any business other than the election of the Directors and the proposal to ratify the appointment of Ernst & Young LLP as our independent registered public accounting firm described above. If other matters properly come before the meeting, the persons named on the accompanying proxy card will vote the returned proxies as the Board of Directors recommends.

By order of the Board of Directors,

/s/ Don Jackson

PART I

Item 1. Business

Pilgrim's Pride Corporation ("Pilgrim's Pride" or the "Company") operates on the basis of a 52/53-week fiscal year that ends on the Saturday closest to September 30. The reader should assume any reference we make to a particular year (for example, 2009) in this report applies to our fiscal year and not the calendar year.

Chapter 11 Bankruptcy Filings

On December 1, 2008 (the "Petition Date"), Pilgrim's Pride Corporation and six of its subsidiaries (collectively, the "Debtors") filed voluntary petitions for relief under Chapter 11 of Title 11 of the United States Code (the "Bankruptcy Code") in the United States Bankruptcy Court for the Northern District of Texas, Fort Worth Division (the "Bankruptcy Court"). The cases are being jointly administered under Case No. 08-45664. The Company's subsidiaries in Mexico and certain subsidiaries in the United States ("US") were not included in the filing (the "Non-filing Subsidiaries") and continue to operate outside of the Chapter 11 process.

Subject to certain exceptions under the Bankruptcy Code, the Debtors' Chapter 11 filing automatically enjoined, or stayed, the continuation of any judicial or administrative proceedings or other actions against the Debtors or their property to recover on, collect or secure a claim arising prior to the Petition Date. Accordingly, most creditor actions to obtain possession of property from the Debtors, or to create, perfect or enforce any lien against the property of the Debtors, or to collect on monies owed or otherwise exercise rights or remedies with respect to a pre-petition claim are enjoined unless and until the Bankruptcy Court lifts the automatic stay.

Upon the filing of the Chapter 11 petitions, certain of our debt obligations became automatically and immediately due and payable, subject to an automatic stay of any action to collect, assert, or recover a claim against the Company and the application of applicable bankruptcy law. As a result, the accompanying Consolidated Balance Sheet as of September 27, 2008, included reclassifications of \$1,872.1 million to reflect as current certain long-term debt under the Company's credit facilities that was accelerated. Because of the bankruptcy petition, most of the Company's pre-petition long-term debt is included in liabilities subject to compromise at September 26, 2009. The Company classifies pre-petition liabilities subject to compromise as a long-term liability because management does not believe the Company will use existing current assets or create additional current liabilities to fund these obligations.

Effective December 1, 2008, the New York Stock Exchange ("NYSE") delisted our common stock as a result of the Company's filing of its Chapter 11 petition. Our common stock is now quoted on the Pink Sheets Electronic Quotation Service under the ticker symbol "PGPDQ.PK." The Company has applied with the NYSE to list its common stock upon its exit from bankruptcy under its prior ticker symbol "PPC."

On February 11, 2009, the Bankruptcy Court issued an order granting the Company's motion to impose certain restrictions on trading in shares of the Company's common stock in order to preserve valuable tax attributes. This order established notification procedures and certain restrictions on transfers of common stock or options to purchase the common stock of the Company. The trading restrictions apply retroactively to January 17, 2009, the date the motion was filed, to investors beneficially owning at least 4.75% of the outstanding shares of common stock of the Company. For these purposes, beneficial ownership of stock is determined in accordance with special US tax rules that, among other things, apply constructive ownership concepts and treat holders acting together as a single holder. In addition, in the future, the Company may request that the Bankruptcy Court impose certain trading restrictions on certain debt of, and claims against, the Company.

Chapter 11 Process

The Debtors are currently operating as "debtors-in-possession" under the jurisdiction of the Bankruptcy Court and in accordance with the applicable provisions of the Bankruptcy Code and orders of the Bankruptcy Court. In general, as debtors-in-possession, we are authorized under Chapter 11 to continue to operate as an ongoing business, but may not engage in transactions outside the ordinary course of business without the prior approval of the Bankruptcy Court.

On December 2, 2008, the Bankruptcy Court granted interim approval authorizing the Company and certain of its subsidiaries consisting of PPC Transportation Company, PFS Distribution Company, PPC Marketing, Ltd., and Pilgrim's Pride Corporation of West Virginia, Inc. (collectively, the "US Subsidiaries"), and To-Ricos, Ltd. and To-Ricos Distribution, Ltd. (collectively with the US Subsidiaries, the "Subsidiaries") to enter into a Post-Petition Credit Agreement (the "Initial DIP Credit Agreement") among the Company, as borrower, the US Subsidiaries, as guarantors, Bank of Montreal, as agent (the "DIP Agent"), and the lenders party thereto. On December 2, 2008, the Company, the US Subsidiaries and the other parties entered into the Initial DIP Credit Agreement, subject to final approval of the Bankruptcy Court. On December 30, 2008, the Bankruptcy Court granted final approval authorizing the Company and the Subsidiaries to enter into an Amended and Restated Post-Petition Credit Agreement dated December 31, 2008, as amended (the "DIP Credit Agreement"), among the Company, as borrower, the Subsidiaries, as guarantors, the DIP Agent, and the lenders party thereto.

The DIP Credit Agreement currently provides for an aggregate commitment of up to \$350 million, which permits borrowings on a revolving basis. The commitment includes a \$25 million sub-limit for swingline loans and a \$20 million sub-limit for letters of credit. Outstanding borrowings under the DIP Credit Agreement bear interest at a per annum rate equal to 8.0% plus the greatest of (i) the prime rate as established by the DIP Agent from time to time, (ii) the average federal funds rate plus 0.5%, or (iii) the LIBOR rate plus 1.0%, payable monthly. The weighted average interest rate for 2009 was 11.25%. The loans under the Initial DIP Credit Agreement were used to repurchase all receivables sold under the Company's Amended and Restated Receivables Purchase Agreement dated September 26, 2008, as amended (the "RPA"). Loans under the DIP Credit Agreement were also used to fund the working capital requirements of the Company and its subsidiaries according to a budget as approved by the required lenders under the DIP Credit Agreement. For additional information on the RPA, see Item 7. "Management's Discussion and Analysis of Financial Condition and Results of Operations—Liquidity and Capital Resources."

Actual borrowings by the Company under the DIP Credit Agreement are subject to a borrowing base, which is a formula based on certain eligible inventory and eligible receivables. The borrowing base formula is reduced by (i) pre-petition obligations under the Fourth Amended and Restated Secured Credit Agreement dated as of February 8, 2007, among the Company and certain of its subsidiaries, Bank of Montreal, as administrative agent, and the lenders parties thereto, as amended (the "Pre-Petition BMO Facility"), (ii) administrative and professional expenses incurred in connection with the bankruptcy proceedings and (iii) the amount owed by the Company and the Subsidiaries to any person on account of the purchase price of agricultural products or services (including poultry and livestock) if that person is entitled to any grower's or producer's lien or other security arrangement. The borrowing base is also limited to 2.22 times the formula amount of total eligible receivables. The DIP Credit Agreement provides that the Company may not incur capital expenditures in excess of \$150 million. The Company must also meet minimum monthly levels of EBITDAR. Under the DIP Credit Agreement, "EBITDAR" means, generally, net income before interest, taxes, depreciation, amortization, writedowns of goodwill and other intangibles, asset impairment charges, certain restructuring and closure costs and other specified costs, charges, losses and gains. The DIP Credit Agreement also provides for certain other covenants, various representations and warranties, and events of default that are customary for transactions of this nature. As of September 26, 2009, the applicable borrowing base and the amount available for borrowings under the DIP Credit Agreement were both \$329.2 million as there were no outstanding borrowings under the Credit Agreement.

The principal amount of outstanding loans under the DIP Credit Agreement, together with accrued and unpaid interest thereon, are payable in full at maturity on December 1, 2009, subject to extension for an additional six months with the approval of all lenders thereunder. The Company has requested a two-month extension. All obligations under the DIP Credit Agreement are unconditionally guaranteed by the Subsidiaries and are secured by a first priority priming lien on substantially all of the assets of the Company and the Subsidiaries, subject to specified permitted liens in the DIP Credit Agreement.

Under the terms of the DIP Credit Agreement and applicable bankruptcy law, the Company may not pay dividends on the common stock while it is in bankruptcy. The DIP Credit Agreement allows the Company to provide additional advances to the Non-filing Subsidiaries of up to approximately \$30 million in excess of the net amount of such advances on the petition date. Management believes that all of the Non-filing Subsidiaries, including the Company's Mexican subsidiaries, will continue to be able to operate within this limitation.

For additional information on the DIP Credit Agreement, see Item 7. "Management's Discussion and Analysis of Financial Condition and Results of Operations—Liquidity and Capital Resources."

Shortly after the Petition Date, the Debtors began notifying all known current or potential creditors of the Chapter 11 filing. Subject to certain exceptions under the Bankruptcy Code, the Debtors' Chapter 11 filing automatically enjoined, or stayed, the continuation of any judicial or administrative proceedings or other actions against the Debtors or their property to recover on, collect or secure a claim arising prior to the Petition Date. Accordingly, most creditor actions to obtain possession of property from the Debtors, or to create, perfect or enforce any lien against the property of the Debtors, or to collect on monies owed or otherwise exercise rights or remedies with respect to a pre-petition claim are enjoined unless and until the Bankruptcy Court lifts the automatic stay. Vendors are being paid for goods furnished and services provided after the Petition Date in the ordinary course of business. Further, the Bankruptcy Court approved payment of certain of the Debtors' pre-petition obligations, including, among other things, employee wages, salaries and benefits, and the Bankruptcy Court has approved the payment of vendors and other providers who provided goods or services in the ordinary course of the Debtors' businesses that were ordered pre-petition but received from and after the Petition Date and other business-related payments necessary to maintain the operation of our businesses.

The Debtors retained, subject to Bankruptcy Court approval, legal and financial professionals to advise the Debtors on the bankruptcy proceedings and certain other "ordinary course" professionals. From time to time, the Debtors may seek Bankruptcy Court approval for the retention of additional professionals.

Also, as permitted by the Bankruptcy Code, the United States Trustee for the Northern District of Texas (the "US Trustee") appointed an official committee of unsecured creditors (the "Creditors' Committee"). The Creditors' Committee and its legal representatives have a right to be heard on all matters that come before the Bankruptcy Court with respect to the Debtors. In addition, on April 30, 2009, the Bankruptcy Court ordered the US Trustee to appoint an official committee of equity holders (the "Equity Committee") to represent the interests of Pilgrim's Pride's equity holders in the Debtors' bankruptcy cases.

Under Section 365 and other relevant sections of the Bankruptcy Code, we may assume, assume and assign, or reject certain executory contracts and unexpired leases, including, without limitation, leases of real property and equipment, subject to the approval of the Bankruptcy Court and certain other conditions. Any description of an executory contract or unexpired lease in this report, including where applicable our express termination rights or a quantification of our obligations, must be read in conjunction with, and is qualified by, any overriding rejection rights we have under Section 365 of the Bankruptcy Code. The Debtors expect to file a list of executory contracts that are being assumed no later than November 20, 2009, unless the deadline for equity holders to vote on the Proposed Plan is extended, in which event the deadline to file the list of executory contracts to be assumed may be extended.

Proposed Plan of Reorganization and Acquisition

In order for the Debtors to successfully exit Chapter 11, the Bankruptcy Court must first confirm a plan of reorganization with respect to the Debtors that satisfies the requirements of the Bankruptcy Code. To be confirmed, a plan of reorganization would, among other things, need to resolve the Debtors' pre-petition obligations, set forth the revised capital structure of the newly reorganized entity and provide for corporate governance subsequent to exit from bankruptcy.

Under the priority scheme established by the Bankruptcy Code, unless creditors agree otherwise, pre-petition liabilities and post-petition liabilities must generally be satisfied in full before stockholders would be entitled to receive any distribution or retain any property under a plan of reorganization. The ultimate recovery to creditors and/or stockholders, if any, will not be determined until confirmation of a plan or plans of reorganization. No assurance can be given as to what values, if any, will be ascribed in the Chapter 11 cases to each of these constituencies or what types or amounts of distributions, if any, they would receive. A plan of reorganization could result in holders of our liabilities and/or securities, including our common stock, receiving no distribution on account of their interests and cancellation of their holdings. Because of such possibilities, the value of our liabilities and securities, including our common stock, is highly speculative. Appropriate caution should be exercised with respect to existing and future investments in any of the liabilities and/or securities of the Debtors. At this time there is no assurance we will be able to restructure as a going concern or successfully obtain confirmation of and implement a plan of reorganization.

The Proposed Plan

On September 17, 2009, the Debtors filed their Joint Plan of Reorganization Under Chapter 11 of the Bankruptcy Code with the Bankruptcy Court, along with the Disclosure Statement for the Debtors' Joint Plan of Reorganization under Chapter 11 of the Bankruptcy Code (as amended and supplemented, the "Disclosure Statement"). On November 11, 2009, the Debtors filed an Amended Joint Plan of Reorganization Under Chapter 11 of the Bankruptcy Code (As Modified) with the Bankruptcy Court (as amended and supplemented, the "Proposed Plan") which altered the treatment of unsecured note holders to provide that unsecured note holders may take a cash option rather than have their notes reinstated. The Proposed Plan provides that all unsecured creditors of the Debtors are unimpaired pursuant to Section 1124 of the Bankruptcy Code. Accordingly, the votes of unsecured creditors on the Proposed Plan are not being solicited as they will be deemed to have accepted the Proposed Plan. The Proposed Plan further provides for a reorganization of the Debtors' businesses as a going concern. The Proposed Plan is premised on (i) a transaction with JBS USA Holdings, Inc. (the "Plan Sponsor" or "JBS USA") whereby, pursuant to the SPA (defined below), the Plan Sponsor will purchase approximately 64% of the common stock of the reorganized Company ("Reorganized PPC") in exchange for \$800 million in cash, to be used by the Debtors to, among other things, fund distributions to holders of allowed claims under the Proposed Plan, and (ii) the Debtors entering into a new credit facility having an aggregate commitment of up to \$1,750 million (as described below, the "Exit Credit Facility"). If the Proposed Plan is confirmed and becomes effective, the Company will adopt and file an Amended and Restated Certificate of Incorporation (the "Restated Certificate of Incorporation") and will adopt Amended and Restated Corporate Bylaws (the "Restated Bylaws").

The Plan Sponsor is a wholly-owned indirect subsidiary of JBS S.A., a Brazil-based meat producer with total market capitalization of approximately \$3.7 billion as of August 25, 2009. Both JBS S.A. and JBS USA operate in two major business segments: beef and pork. In terms of slaughtering capacity, JBS USA is among the leading beef and pork processors in the US and has been the largest beef processor in Australia for the past 15 years. As a standalone company, JBS USA would be the largest beef processor in the world. JBS USA also owns and operates the largest feedlot business in the US.

The Proposed Plan will not become effective until certain conditions are satisfied or waived, including: (i) entry of an order by the Bankruptcy Court confirming the Proposed Plan, (ii) all actions, documents and agreements necessary to implement the Proposed Plan having been effected or executed, (iii) satisfaction or waiver of the conditions precedent to the SPA (including access of the Debtors to funding under the Exit Credit Facility), other than those which are to be satisfied at the closing of the transactions contemplated by the SPA (as defined below), (iv) the Debtors having access to the cash contributed by the Plan Sponsor, and (v) specified claims of the Debtors' secured lenders having been paid in full pursuant to the Proposed Plan.

On September 29, 2009, the Bankruptcy Court approved a motion to further extend the period during which the Debtors have the exclusive right to file a plan of reorganization and the period during which the Debtors can obtain the necessary acceptances of the plan of reorganization, during which time competing plans may not be filed, through and including December 31, 2009, and March 1, 2010, respectively. If necessary, we may file one or more motions to request further extensions of these time periods. On October 22, 2009, we received approval from the Bankruptcy Court to begin soliciting stockholder acceptance of the Proposed Plan.

Section 1128(a) of the Bankruptcy Code requires the Bankruptcy Court, after appropriate notice, to hold a hearing on confirmation of a plan of reorganization. The confirmation hearing on the Proposed Plan is scheduled for December 8, 2009. The confirmation hearing may be adjourned from time to time by the Bankruptcy Court without further notice except for an announcement of the adjourned date made at the confirmation hearing or any subsequent adjourned confirmation hearing. There can be no assurance at this time that the Proposed Plan will be confirmed by the Bankruptcy Court or that any such plan will be implemented successfully.

If the Proposed Plan is confirmed and the transactions contemplated thereby are consummated, all holders of claims will be paid in full, unless otherwise agreed by the applicable holder. Holders of equity interests immediately prior to the effectiveness of the Proposed Plan would collectively be issued 36% of the common stock of Reorganized PPC.

The Proposed Acquisition

On September 16, 2009, we entered into a stock purchase agreement with the Plan Sponsor (the "SPA"). As discussed above, upon consummation of the transactions contemplated by the SPA, the Plan Sponsor will purchase 64% of the total issued and outstanding common stock of Reorganized PPC (the "Proposed Acquisition") in exchange for aggregate consideration of \$800 million in cash, to be used by the Debtors, among other things, to fund distributions under the Proposed Plan.

The Proposed Acquisition is subject to approval by the Bankruptcy Court of (i) the Proposed Plan and the Disclosure Statement, and (ii) the SPA. In addition, the obligations of the Company and the Plan Sponsor under the SPA are subject to the satisfaction of customary conditions to closing, including, without limitation, the execution and delivery of definitive documentation, receipt of certain regulatory approvals and governmental filings and the expiration or termination of applicable waiting periods, material compliance with the covenants by the parties, the representations and warranties under the SPA being true and correct (subject to certain materiality qualifiers), the absence of a material adverse change with respect to us since the date of the SPA and the payment of certain fees and expenses. In addition, the obligations of JBS USA under the SPA are conditioned on access of the Debtors to funding under the Exit Credit Facility. The obligations of JBS USA under the SPA, including JBS USA's payment of the \$800 million purchase price in exchange for 64% of the total issued and outstanding common stock of Reorganized PPC, have no other financing conditions.

On October 14, 2009, the Company and the Plan Sponsor received notice from the Federal Trade Commission Bureau of Competition and the US Department of Justice of early termination of the waiting period under the Hart-Scott-Rodino Antitrust Improvements Act of 1976. The Proposed Acquisition remains subject to receipt of certain other regulatory approvals.

On September 17, 2009, we filed a motion with the Bankruptcy Court seeking entry of an order approving certain provisions of the SPA. On October 7, 2009, the Bankruptcy Court granted the motion and approved certain provisions of the SPA. We also sought approval of the remaining portions of the SPA as part of the approval of the Proposed Plan.

In connection with the closing of the Proposed Acquisition, the Company will enter into a stockholders agreement with JBS USA (the "Stockholders Agreement") and will adopt and file the Restated Certificate of Incorporation. The Stockholders Agreement and the Restated Certificate of Incorporation will govern the constitution of the Company's board of directors and the selection of its members. The Stockholders Agreement, among other things, will also restrict the ability of JBS USA to purchase shares of the common stock of Reorganized PPC, require the approval of the Company's stockholders with respect to specified amendments to the Restated Certificate of Incorporation and Restated Bylaws and require JBS USA to use commercially reasonable efforts to maintain the listing of the common stock of Reorganized PPC on a national securities exchange. Among other rights, the Restated Certificate of Incorporation provides that, if JBS USA completes an initial public offering of its common stock, then, JBS USA has the right to exchange all of the outstanding common stock of Reorganized PPC for JBS USA common stock. For a period beginning upon the completion of such offering and ending two years and 30 days after the effective date of the Proposed Plan, JBS USA may exercise this exchange right during limited exchange windows in each fiscal quarter beginning six trading days after both Reorganized PPC and JBS USA have made their respective periodic reports or earnings releases for the preceding quarter or year, as applicable, and ending on the last day of the fiscal quarter during which the report or release was made. The number of shares of JBS USA common stock to be issued in exchange for the Reorganized PPC common stock will be dependent upon the relative average volume-weighted daily trading prices per share of the common stock of Reorganized PPC and the JBS USA common stock during the period immediately preceding the time JBS USA exercises its exchange right. For additional information on the exchange, see Item 1A. "Risk Factors—Mandatory Exchange Transaction.

Holders of Reorganized PPC's common stock may ultimately receive shares of JBS USA common stock."

Exit Credit Facility

Upon exiting from bankruptcy, the Company and certain of its subsidiaries, consisting of To-Ricos, Ltd. and To-Ricos Distribution, Ltd. (collectively, the "To-Ricos Borrowers"), expect to enter into the Exit Credit Facility that provides for an aggregate commitment of up to \$1,750 million consisting of (i) a revolving loan commitment of at least \$600 million, (ii) a term loan A commitment of up to \$375 million and (iii) a term loan B commitment of up to \$775 million. The revolving loan commitment will mature in 2012. Term A loans, which cannot exceed \$375 million in the aggregate, will mature in 2012. Term B loans, which cannot exceed \$775 million in the aggregate, will mature in 2014. CoBank ACB will serve as administrative agent ("Exit Facility Agent") on behalf of the lenders under the Exit Credit Facility. The Company has received non-binding mandate letters from the potential lenders party to the Exit Credit Facility.

The Term A loans mature three years from the effective date of the Exit Credit Facility and must be repaid in 12 equal quarterly principal installments of \$12.5 million beginning on April 15, 2010, with the final installment due on the maturity date for the Term A loans. The Term B loans mature five years from the effective date of the Exit Credit Facility and must be repaid in 16 equal quarterly principal installments of \$12.5 million beginning on April 15, 2011, with the final installment due on the maturity date for the Term B loans. Additionally, following the end of each fiscal year, a portion of our cash flow must be used to repay outstanding principal amounts under the Term A and Term B loans. Covenants in the Exit Credit Facility will also require us to use the proceeds we receive from certain asset sales and specified debt or equity issuances and upon the occurrence of other events to repay outstanding borrowings under the Exit Credit Facility.

The Exit Credit Facility includes a \$50 million sub-limit for swingline loans and a \$200 million sub-limit for letters of credit. Outstanding borrowings under the revolving loan commitment will bear interest at a per annum rate equal to 3.50% plus the greater of (i) the US prime rate as published by the *Wall Street Journal*, (ii) the average federal funds rate plus 0.5%, and (iii) the one-month LIBOR rate plus 1.0%, in the case of alternate base rate loans, or 4.50% plus the one, two, three or six month LIBOR rate adjusted by the applicable statutory reserve, in the case of Eurodollar loans. Outstanding Term A and Term B-1 loans will bear interest at a per annum rate equal to 4.00% plus greater of (i) the U.S. prime rate, as published by the Wall Street Journal, (ii) the average federal funds rate plus 0.5%, and (iii) the one month LIBOR rate plus 1.0%, in the case of alternate base rate loans, or 5.00%, plus the one, two, three or six month LIBOR Rate adjusted by the applicable statutory reserve, in the case of Eurodollar loans. Outstanding Term B-2 loans will bear interest at a per annum rate equal to 9.00%. Commitment fees charged on the revolving commitments under the Exit Credit Facility will accrue at a per annum rate equal to 1.00%.

The proceeds of the borrowings under the Exit Credit Facility will be used to (i) repay outstanding secured and unsecured indebtedness of the Company and (ii) pay fees, costs and expenses related to and contemplated by the Exit Credit Facility and the Proposed Plan. In addition, proceeds of the borrowings under the revolving loan commitment will be used to finance the general corporate purposes of the borrowers (including capital expenditures, permitted acquisitions and principal and interest under the Exit Credit Facility).

Actual borrowings by the Company under the Exit Credit Facility will be subject to a borrowing base, which is a formula based on certain eligible inventory, eligible receivables and restricted cash under the control of the Exit Facility Agent. The borrowing base formula will be reduced by the sum of (i) inventory reserves, (ii) rent and collateral access reserves, and (iii) any amount more than 15 days past due that is owed by the Company or its subsidiaries to any person on account of the purchase price of agricultural products or services (including poultry and livestock) if that person is entitled to any grower's or producer's lien or other security arrangement. Revolving loan availability under the borrowing base also will be limited to an aggregate of \$25 million with respect to the To-Ricos Borrowers.

The Exit Credit Facility will provide that the Company may not incur capital expenditures in excess of \$225 million in fiscal year 2010, \$275 million in fiscal year 2011 and \$350 million per fiscal year thereafter. The Company must also maintain a minimum fixed charge coverage ratio and a minimum level of tangible net worth and may not exceed a maximum leverage ratio. The Exit Credit Facility will contain various covenants that may adversely affect our ability to, among other things, incur additional indebtedness, incur liens, pay dividends or make certain restricted payments, consummate certain asset sales, enter into certain transactions with JBS USA and our other affiliates, merge, consolidate and/or sell or dispose of all or substantially all of our assets.

All obligations under the Exit Credit Facility will be unconditionally guaranteed by certain of the Company's subsidiaries and will be secured by a first priority lien on (i) the domestic (including Puerto Rico) accounts and inventory of the Company and its subsidiaries, (ii) 100% of the equity interests in the To-Ricos Borrowers and the Company's domestic subsidiaries and 65% of the equity interests in the Company's direct foreign subsidiaries, (iii) substantially all of the personal property and intangibles of the Company, the To-Ricos Borrowers and the guarantor subsidiaries, and (iv) substantially all of the real estate and fixed assets of the Company and the subsidiary guarantors.

The Exit Credit Facility will allow the Company to provide additional advances to its subsidiaries in an amount equal to the net amount of such advances in effect on the date of the Exit Credit Facility plus \$30 million. Management believes that all of the Company's subsidiaries, including the Company's Mexican subsidiaries, will be able to operate within this limitation.

The Proposed Plan contemplates that the notes under the Company's outstanding indentures will be reinstated unless and to the extent a holder of the notes elects to receive a cash payment equal to the principal amounts of the notes plus unpaid interest that had accrued pre-petition with interest accruing on such interest at the default contract rate through the effective date of the Proposed Plan and the unpaid post-petition interest at the non-default contract rate through the effective date. To the extent the holders of these notes elect reinstatement, then the amount of the term loan commitments under the Exit Credit Facility will be reduced on a dollar-for-dollar and pro rata basis.

For additional information on the Exit Credit Facility, see Item 7. "Management's Discussion and Analysis of Financial Condition and Results of Operations—Liquidity and Capital Resources."

Going Concern Matters

The accompanying Consolidated Financial Statements have been prepared assuming that the Company will continue as a going concern. However, there is substantial doubt about the Company's ability to continue as a going concern based on the factors previously discussed. The Consolidated Financial Statements do not include any adjustments related to the recoverability and classification of recorded assets or the amounts and classification of liabilities or any other adjustments that might be necessary should the Company be unable to continue as a going concern. The Consolidated Financial Statements do not purport to reflect or provide for the consequences of our Chapter 11 proceedings. In particular, the financial statements do not purport to show (i) as to assets, their realizable value on a liquidation basis or their availability to satisfy liabilities; (ii) as to pre-petition liabilities, the amounts that may be allowed for claims or contingencies, or the status and priority thereof; (iii) as to shareowners' equity accounts, the effect of any changes that may be made in our capitalization; or (iv) as to operations, the effect of any changes that may be made to our business. The Company's ability to continue as a going concern is dependent upon, among other things, the ability of the Company to return to historic levels of profitability and, in the near term, restructure its obligations in a manner that allows it to obtain confirmation of a plan of reorganization by the Bankruptcy Court.

General Development of Business

Overview

The Company, which was incorporated in Texas in 1968 and re-incorporated in Delaware in 1986, is the successor to a partnership founded in 1946 that operated a retail feed store. Lonnie "Bo" Pilgrim, the Senior Chairman, and certain entities related to Mr. Pilgrim are, collectively, the major stockholder of the Company (the "Major Stockholder"). Over the years, the Company grew as the result of expanding markets, increased market penetration and various acquisitions of farming operations and poultry processors. This included the acquisition of Gold Kist Inc. ("Gold Kist") discussed below. Pilgrim's Pride is one of the largest chicken companies in the US, Mexico and Puerto Rico. Our fresh chicken retail line is sold throughout the US, throughout Puerto Rico, and in the northern and central regions of Mexico. Our prepared chicken products meet the needs of some of the largest customers in the food service industry across the US. Additionally, the Company exports commodity chicken products to over 90 countries. As a vertically integrated company, we control every phase of the production of our products. We

operate feed mills, hatcheries, processing plants and distribution centers in 14 US states, Puerto Rico and Mexico. We believe this vertical integration has made us one of the highest-quality producers of chicken in North America.

We have applied a long-term business strategy of focusing our growth efforts on the historically higher-value prepared chicken products and have become a recognized industry leader in this market. Accordingly, we focused our sales efforts on the foodservice industry, principally chain restaurants and food processors. More recently, we also focused our sales efforts on retailers seeking value-added products. In 2009, we sold 7.2 billion pounds of dressed chicken and generated net sales of \$7.1 billion. In 2009, our US operations, including Puerto Rico, accounted for 92.7% of our net sales. Our Mexico operations generated the remaining 7.3% of our net sales.

Business Acquisition Activities

In December 2006, we acquired a majority of the outstanding common stock of Gold Kist through a tender offer. We subsequently acquired all remaining Gold Kist shares and, in January 2007, Gold Kist became our wholly owned subsidiary. Gold Kist operated a fully-integrated chicken production business that included live production, processing, marketing and distribution. This acquisition positioned us as one of the largest chicken companies in the US, and that position provided us with opportunities to expand our geographic reach and customer base and further pursue value-added and prepared chicken opportunities.

Financial Information about Segments

We operate in two reportable business segments as (i) a producer and seller of chicken products and (ii) a seller of other products. See a discussion of our business segments in Item 7. “Management’s Discussion and Analysis of Financial Condition and Results of Operations.”

Narrative Description of Business

Products and Markets

Our chicken products consist primarily of:

- (1) Fresh chicken products, which are refrigerated (non-frozen) whole or cut-up chickens sold to the foodservice industry either pre-marinated or non-marinated. Fresh chicken also includes prepackaged case-ready chicken, which includes various combinations of freshly refrigerated, whole chickens and chicken parts in trays, bags or other consumer packs labeled and priced ready for the retail grocer's fresh meat counter.
- (2) Prepared chicken products, which are products such as portion-controlled breast fillets, tenderloins and strips, delicatessen products, salads, formed nuggets and patties and bone-in chicken parts. These products are sold either refrigerated or frozen and may be fully cooked, partially cooked or raw. In addition, these products are breaded or non-breaded and either pre-marinated or non-marinated.

- (3) Export and other chicken products, which are primarily parts and whole chicken, either refrigerated or frozen for US export or domestic use, and prepared chicken products for US export.

Our chicken products are sold primarily to:

- (1) Foodservice customers, which are customers such as chain restaurants, food processors, foodservice distributors and certain other institutions. We sell products to our foodservice customers ranging from portion-controlled refrigerated chicken parts to fully-cooked and frozen, breaded or non-breaded chicken parts or formed products.
- (2) Retail customers, which are customers such as grocery store chains, wholesale clubs and other retail distributors. We sell to our retail customers branded, pre-packaged, cut-up and whole poultry, and fresh refrigerated or frozen whole chicken and chicken parts in trays, bags or other consumer packs.
- (3) Export and other chicken product customers, who purchase chicken products for export to Eastern Europe (including Russia), the Far East (including China), Mexico and other world markets. Our export and other chicken products, with the exception of our exported prepared chicken products, consist of whole chickens and chicken parts sold primarily in bulk, non-branded form, either refrigerated to distributors in the US or frozen for distribution to export markets.

Our other products consist of:

- (1) Other types of meat protein along with various other staples purchased and sold by our distribution centers as a convenience to our chicken customers who purchase through the distribution centers.
- (2) The production and sale of table eggs, commercial feeds and related items, live hogs and protein conversion products.

The following table sets forth, for the periods beginning with 2005, net sales attributable to each of our primary product lines and markets served with those products. We based the table on our internal sales reports and their classification of product types and customers.

UNITED STATES

Product Types

Fresh Chicken Overview. Fresh chicken is an important component of our sales and accounted for \$3,113.1 million, or 51.3%, of our total US chicken sales for 2009. In addition to maintaining sales of mature, traditional fresh chicken products, our strategy has been to shift the mix of our US fresh chicken products by continuing to increase sales of faster-growing products, such as marinated whole chicken and chicken parts, and to continually shift portions of this product mix into the higher-value prepared chicken category.

Most fresh chicken products are sold to established customers, based upon certain weekly or monthly market prices reported by the US Department of Agriculture (“USDA”) and other public price reporting services, plus a markup, which is dependent upon the customer’s location, volume, product specifications and other factors. We believe our practices with respect to sales of fresh chicken are generally consistent with those of our competitors. The majority of these products are sold pursuant to agreements with varying terms that either set a fixed price for the products or set a price according to formulas based on an underlying commodity market, subject in many cases to minimum and maximum prices.

Prepared Chicken Overview. During 2009, \$2,294.6 million, or 37.9%, of our US chicken sales were in prepared chicken products to foodservice customers and retail distributors, as compared to \$1,906.3 million, or 43.2%, in 2005. These numbers reflect the impact of our historical strategic focus for growth in the prepared chicken markets and our acquisition of Gold Kist. The market for prepared chicken products has experienced, and we believe will continue to experience, greater growth and higher average sales prices than fresh chicken products. Also, the production and sale in the US of prepared chicken products reduce the impact of the costs of feed ingredients on our profitability. Feed ingredient costs are the single largest component of our US chicken segment cost of sales, representing approximately 37.1% of our US chicken segment cost of sales for 2009. The production of feed ingredients is positively or negatively affected primarily by the global level of supply inventories, demand for feed ingredients, the agricultural policies of the US and foreign governments and weather patterns throughout the world. As further processing is performed, feed ingredient costs become a decreasing percentage of a product's total production cost, thereby reducing their impact on our profitability. Products sold in this form enable us to charge a premium, reduce the impact of feed ingredient costs on our profitability and improve and stabilize our profit margins.

We establish prices for our prepared chicken products based primarily upon perceived value to the customer, production costs and prices of competing products. The majority of these products are sold pursuant to agreements with varying terms that either set a fixed price for the products or set a price according to formulas based on an underlying commodity market, subject in many cases to minimum and maximum prices. Many times, these prices are dependent upon the customer's location, volume, product specifications and other factors.

Export and Other Chicken Products Overview. Our export and other products consist of whole chickens and chicken parts sold primarily in bulk, non-branded form, either refrigerated to distributors in the US or frozen for distribution to export markets, and branded and non-branded prepared chicken products for distribution to export markets. In 2009, approximately \$656.3 million, or 10.8%, of our total US chicken sales were attributable to US chicken export and other products. These exports and other products, other than the prepared chicken products, have historically been characterized by lower prices and greater price volatility than our more value-added product lines.

Markets for Chicken Products

Foodservice. The foodservice market principally consists of chain restaurants, food processors, broad-line distributors and certain other institutions located throughout the continental US. We supply chicken products ranging from portion-controlled refrigerated chicken parts to fully-cooked and frozen, breaded or non-breaded chicken parts or formed products.

We believe the Company is positioned to be the primary or secondary supplier to national and international chain restaurants who require multiple suppliers of chicken products. Additionally, we believe we are well suited to be the sole supplier for many regional chain restaurants. Regional chain restaurants often offer better margin opportunities and a growing base of business.

We believe we have operational strengths in terms of full-line product capabilities, high-volume production capacities, research and development expertise and extensive distribution and marketing experience relative to smaller and non-vertically integrated producers. Foodservice growth, outside of any temporary effects resulting from the current recessionary impacts being experienced in the US, is anticipated to continue. Due to internal growth and the impact of the Gold Kist acquisition, our sales to the foodservice market from 2005 through 2009 grew at a compounded annual growth rate of 6.0% and represented 65.2% of the net sales of our US chicken operations in 2009.

Foodservice—Prepared Chicken. Our prepared chicken sales to the foodservice market were \$1,828.0 million in 2009 compared to \$1,622.9 million in 2005, a compounded annual growth rate of approximately 3.0%. In addition to the significant increase in sales created by the acquisition of Gold Kist, we attribute this growth in sales of prepared chicken to the foodservice market to a number of factors:

- There has been significant growth in the number of foodservice operators offering chicken on their menus and in the number of chicken items offered.
- Foodservice operators are increasingly purchasing prepared chicken products, which allow them to reduce labor costs while providing greater product consistency, quality and variety across all restaurant locations.
- There is a strong need among larger foodservice companies for a limited-source supplier base in the prepared chicken market. A viable supplier must be able to ensure supply, demonstrate innovation and new product development and provide competitive pricing. We have been successful in our objective of becoming a supplier of choice by being the primary or secondary prepared chicken supplier to many large foodservice companies because:
 - We are vertically integrated, giving us control over our supply of chicken and chicken parts;
 - Our further processing facilities, with a wide range of capabilities, are particularly well suited to the high-volume production as well as low-volume custom production runs necessary to meet both the capacity and quality requirements of the foodservice market; and
 - We have established a reputation for dependable quality, highly responsive service and excellent technical support.
- As a result of the experience and reputation developed with larger customers, we have increasingly become the principal supplier to mid-sized foodservice organizations.
- Our in-house product development group follows a customer-driven research and development focus designed to develop new products to meet customers' changing needs. Our research and development personnel often work directly with institutional customers in developing products for these customers.

- We are a leader in utilizing advanced processing technology, which enables us to better meet our customers' needs for product innovation, consistent quality and cost efficiency.

Foodservice—Fresh Chicken. We produce and market fresh, refrigerated chicken for sale to US quick-service restaurant chains, delicatessens and other customers. These chickens have the giblets removed, are usually of specific weight ranges and are usually pre-cut to customer specifications. They are often marinated to enhance value and product differentiation. By growing and processing to customers' specifications, we are able to assist quick-service restaurant chains in controlling costs and maintaining quality and size consistency of chicken pieces sold to the consumer. Our fresh chicken products sales to the foodservice market were \$2,128.1 million in 2009 compared to \$1,509.2 million in 2005, a compounded annual growth rate of approximately 9.0%.

Retail. The retail market consists primarily of grocery store chains, wholesale clubs and other retail distributors. We concentrate our efforts in this market on sales of branded, prepackaged cut-up and whole chicken and chicken parts to grocery store chains and retail distributors. For a number of years, we have invested in both trade and retail marketing designed to establish high levels of brand name awareness and consumer preferences.

We utilize numerous marketing techniques, including advertising, to develop and strengthen trade and consumer awareness and increase brand loyalty for consumer products marketed under the Pilgrim's Pride[®] brand. We believe our efforts to achieve and maintain brand awareness and loyalty help to provide more secure distribution for our products. We also believe our efforts at brand awareness generate greater price premiums than would otherwise be the case in certain markets. We also maintain an active program to identify consumer preferences. The program primarily consists of discovering and validating new product ideas, packaging designs and methods through sophisticated qualitative and quantitative consumer research techniques in key geographic markets.

Due to internal growth and the impact of the Gold Kist acquisition, our sales to the retail market from 2005 through 2009 grew at a compounded annual growth rate of 12.8% and represented 23.9% of the net sales of our US chicken operations in 2009.

Retail—Prepared Chicken. We sell retail-oriented prepared chicken products primarily to grocery store chains located throughout the US. Our prepared chicken products sales to the retail market were \$466.5 million in 2009 compared to \$283.4 million in 2005, a compounded annual growth rate of approximately 13.3%. We believe that our growth in this market segment will continue as retailers concentrate on satisfying consumer demand for more products that are quick, easy and convenient to prepare at home.

Retail—Fresh Chicken. Our prepackaged retail products include various combinations of freshly refrigerated, whole chickens and chicken parts in trays, bags or other consumer packs labeled and priced ready for the retail grocer's fresh meat counter. Our retail fresh chicken products are sold in the central, southwestern, southeastern and western regions of the US. Our fresh chicken sales to the retail market were \$985.0 million in 2009 compared to \$612.1 million in 2005, a compounded annual growth rate of approximately 12.6% resulting primarily from our acquisition of Gold Kist in 2007. We believe the retail prepackaged fresh chicken business will continue to be a large and relatively stable market, providing opportunities for product differentiation and regional brand loyalty.

Export and Other Chicken Products. Our export and other chicken products, with the exception of our exported prepared chicken products, consist of whole chickens and chicken parts sold primarily in bulk, non-branded form either refrigerated to distributors in the US or frozen for distribution to export markets. In the US, prices of these products are negotiated daily or weekly and are generally related to market prices quoted by the USDA or other public price reporting services. We sell US-produced chicken products for export to Eastern Europe (including Russia), the Far East (including China), Mexico and other world markets.

Historically, we have targeted international markets to generate additional demand for our dark chicken meat, which is a natural by-product of our US operations given our concentration on prepared chicken products and the US customers' general preference for white chicken meat. We have also begun selling prepared chicken products for export to the international divisions of our US chain restaurant customers. We believe that US chicken exports will continue to grow as worldwide demand increases for high-grade, low-cost meat protein sources.

Markets for Other Products

We have regional distribution centers located in Arizona, Texas and Utah that are primarily focused on distributing our own chicken products; however, the distribution centers also distribute certain poultry and non-poultry products purchased from third parties to independent grocers and quick-service restaurants. Our non-chicken distribution business is conducted as an accommodation to our customers and to achieve greater economies of scale in distribution logistics. Chicken sales from our regional distribution centers are included in the chicken sales amounts contained in the above tables; however, all non-chicken sales amounts are contained in the Other Products sales in the above tables.

We market fresh eggs under the Pilgrim's Pride[®] brand name, as well as under private labels, in various sizes of cartons and flats to US retail grocery and institutional foodservice customers located primarily in Texas. We have a housing capacity for approximately 2.1 million commercial egg laying hens which can produce approximately 42 million dozen eggs annually and are currently operating at 66% of our housing capacity. The Company does not own this capacity; it leases this capacity from its Major Stockholder. The lease matures on December 31, 2011. US egg prices are determined weekly based upon reported market prices. The US egg industry has been consolidating over the last few years, with the 25 largest producers accounting for more than 75% of the total number of egg laying hens in service during 2009. We compete with other US egg producers primarily on the basis of product quality, reliability, price and customer service.

We produce and sell livestock feeds at our feed mill in Mt. Pleasant, Texas, and at our farm supply store in Pittsburg, Texas, to dairy farmers and livestock producers in northeastern Texas. We engage in similar sales activities at our other US feed mills. We also have a small pork operation that we acquired through the Gold Kist acquisition that raises and sells live hogs to processors. Also included in this category are chicken by-products, which we convert into protein products and sell primarily to manufacturers of pet foods.

MEXICO

Background

The Mexico market represented approximately 7.3% of our net sales in 2009. We are the second-largest producer and seller of chicken in Mexico. We believe that we are one of the lower-cost producers of chicken in Mexico.

Product Types

While the market for chicken products in Mexico is less developed than in the US, with sales attributed to fewer, more basic products, we have been successful in differentiating our products through high-quality client service and product improvements such as dry-air chilled, eviscerated products. Additionally, we are an important player in the live market, which accounts for 27% of the industry-wide chicken sales in Mexico. The supermarket chains consider us one of the leaders in innovation for fresh products. The market for value-added products is increasing. Our strategy is to capitalize on this trend through our vast US experience in both products and quality and our well-known service.

Markets

We sell our chicken products primarily to wholesalers, large restaurant chains, fast food accounts, supermarket chains and direct retail distribution in selected markets. Due to production cutbacks and other cost-reduction measures we implemented this past year, we converted our Mexico operations into primarily a regional producer servicing the central states in Mexico. The northwestern Mexico states are now supplied mainly through imports from the US. Our largest presence is by far in the central states of the country where we have been able to gain market share. We currently have no presence in the southern Mexico states. Our presence in Mexico reaches 70% of the population. If we consider every kilogram we sell, even sporadically, our presence would increase to 91% of the Mexican population within 29 of the 32 Mexican States.

Foreign Operations Risks

Our foreign operations pose special risks to our business and operations. A discussion of foreign operations risks is included in Item 1A. “Risk Factors.”

GENERAL

Competitive Conditions

The chicken industry is highly competitive and our largest US competitor has greater financial and marketing resources than we do. In addition, our liquidity constraints have had a negative effect on our competitive position, relative to our competitors that are less highly leveraged. See Item 7. “Management’s Discussion and Analysis of Financial Condition and Results of Operations—Liquidity and Capital Resources.” In the US, Mexico and Puerto Rico, we compete principally with other vertically integrated poultry companies. We are one of the largest producers of chicken in the US, Mexico and Puerto Rico. The largest producer in the US is Tyson Foods, Inc. The largest producer in Mexico is Industrias Bachoco S.A.B. de C.V.

In general, the competitive factors in the US chicken industry include price, product quality, product development, brand identification, breadth of product line and customer service. Competitive factors vary by major market. In the US retail market, we believe that product quality, brand awareness, customer service and price are the primary bases of competition. In the foodservice market, competition is based on consistent quality, product development, service and price. There is some competition with non-vertically integrated further processors in the US prepared chicken business. We believe vertical integration generally provides significant, long-term cost and quality advantages over non-vertically integrated further processors.

In Mexico, where product differentiation has traditionally been limited, product quality, service and price have been the most critical competitive factors. In July 2003, the US and Mexico entered into a safeguard agreement with regard to imports into Mexico of chicken leg quarters from the US. Under this agreement, a tariff rate for chicken leg quarters of 98.8% of the sales price was established. This tariff was imposed because of concerns that the duty-free importation of such products as provided by the North American Free Trade Agreement would injure Mexico's poultry industry. This tariff rate was eliminated on January 1, 2008. As a result of the elimination of this tariff, greater amounts of chicken have been imported into Mexico from the US. Industry exports of ready-to-cook chicken into Mexico have increased to 818 million pounds, or 12.0% of all US ready-to-cook chicken exports, in 2009 from 503 million pounds, or 9.4% of all US ready-to-cook chicken exports, in 2005. These trends, should they continue to increase, could negatively affect the profitability of Mexican chicken producers located in the northern states of Mexico. We believe the impact on producers, such as us, located in the central states of Mexico should be much less pronounced.

We are not a significant competitor in the distribution business as it relates to products other than chicken. We distribute these products solely as a convenience to our chicken customers. The broad-line distributors do not consider us to be a factor in those markets. The competition related to our other products such as table eggs, feed and protein are much more regionalized and no one competitor is dominant.

Restructuring Efforts During Bankruptcy

Since the Petition Date we have made a series of significant operational changes to reduce costs and operate more efficiently. The operational changes have been directed in two phases. Phase I focused on preserving cash and mitigating losses through tactical moves. The main actions in Phase I involved shift reductions and associated headcount reductions along with other lean manufacturing initiatives. Phase II reduced the Company's production footprint and served to mitigate capacity utilization and efficiency issues created by previously enacted across-the-board production cuts.

Phase I changes included:

- Consolidating or eliminating second shifts at Live Oak, Florida; Athens, Georgia; and Nacogdoches and Waco, Texas.
- Realigning operations into four geographic regions to flatten the organization, speed decision-making and reduce costs.
- Expanding focus on lean manufacturing to reduce waste and gain additional value from existing processes.

- Strengthening the management team by hiring senior-level industry veterans to oversee sales, marketing and business development. Jerry Wilson joined the Company in early March 2009 as executive vice president of sales and marketing. He was previously vice president of sales and marketing for Keystone Foods. Greg Tatum joined the Company in February 2009 as senior vice president of business development. He previously served as chief financial officer of Claxton Poultry and served in a business development role previously at Seaboard Corporation.

Total estimated savings from Phase I are projected to be approximately \$80 million per year.

Phase II changes included:

- Closing/idling processing facilities in El Dorado, Arkansas; Douglas, Georgia; and Farmerville, Louisiana, which produced mostly low-value commodity chicken. The Farmerville facility was subsequently sold to Foster Poultry Farms for approximately \$72.3 million in May 2009. These three plants employed a total of approximately 3,000 people or approximately seven percent of the Company's total US workforce. Approximately 500 independent contract growers who supplied birds to these three plants also were affected.
- Closing a protein salad operation in Franconia, Pennsylvania, and shifting production to a further-processing facility in Moorefield, West Virginia.
- Closing a chicken processing plant in Dalton, Georgia, and consolidating production at the Company's processing facility in Chattanooga, Tennessee.

Total estimated savings from Phase II are projected to be approximately \$110 million per year.

In addition, we are realizing other business improvements and efficiency gains from ongoing actions and more favorable product mix. These ongoing improvements include reductions in selling, general and administrative (“SG&A”) expenses through administrative headcount reductions; supply chain and margin improvements; savings from contract rejections; and additional improvements.

The majority of our customers and suppliers have continued to do business with us through our reorganization. In addition, we have gained new business from a number of customers. This is a direct result of the strong relationships we have with so many of our business partners.

On July 24, 2009, we announced plans to idle two additional facilities located in Athens, Georgia, and Athens, Alabama, in order to obtain additional savings. The two plants ceased production in early October. Production from the Athens, Alabama, plant will be consolidated into two other complexes, bringing those facilities to full capacity. Production from the Athens, Georgia, plant will be consolidated with several complexes in north Georgia, bringing those facilities to full capacity. We do not expect that the collective closures will impair our ability to service any customers.

Key Customers

Our two largest customers accounted for approximately 18% of our net sales in 2009, and our largest customer, Wal-Mart Stores Inc., accounted for 12% of our net sales.

Regulation and Environmental Matters

The chicken industry is subject to government regulation, particularly in the health and environmental areas, including provisions relating to the discharge of materials into the environment, by the Centers for Disease Control, the USDA, the Food and Drug Administration (“FDA”) and the Environmental Protection Agency (“EPA”) in the US and by similar governmental agencies in Mexico. Our chicken processing facilities in the US are subject to on-site examination, inspection and regulation by the USDA. The FDA inspects the production of our feed mills in the US. Our Mexican food processing facilities and feed mills are subject to on-site examination, inspection and regulation by a Mexican governmental agency that performs functions similar to those performed by the USDA and FDA. We believe that we are in substantial compliance with all applicable laws and regulations relating to the operations of our facilities.

Our operations are subject to extensive regulation by the EPA and other state and local authorities relating to handling and discharge of waste water, storm water, air emissions, treatment, storage and disposal of wastes, handling of hazardous substances and remediation of contaminated soil, surface water and groundwater. Our Mexican operations also are subject to extensive regulation by Mexican environmental authorities. The EPA and/or other US or Mexican state and local authorities may, from time to time, adopt revisions to environmental rules and regulations, and/or changes in the terms and conditions of the Company's environmental permits, with which we must comply. A number of our facilities have been operating below capacity due to economic conditions, and upgrades at some facilities have been delayed or deferred because of the bankruptcy. Before production can be restored to pre-bankruptcy levels, capital expenditures and operating expenses which may be significant may be necessary at some facilities in order to achieve compliance with existing or new environmental requirements, including more stringent limitations imposed or expected in recently-renewed or soon-to be renewed environmental permits.

Some of our properties have been impacted by contamination from spills or other releases, and we have incurred costs to remediate such contamination. In addition, in the past we acquired businesses with operations such as pesticide and fertilizer production that involved greater use of hazardous materials and generation of more hazardous wastes than our current operations. While many of those operations have been sold or closed, some environmental laws impose strict and, in certain circumstances, joint and several liability for costs of investigation and remediation of contaminated sites on current and former owners and operators of the sites, and on persons who arranged for disposal of wastes at such sites. In addition, current owners or operators of such contaminated sites may seek to recover cleanup costs from us based on past operations or contractual indemnifications. See Item 1A. "Risk Factors—Environmental Requirements. *We may face significant costs for compliance with existing or changing environmental requirements and for potential environmental obligations relating to current or discontinued operations.*"

We anticipate increased regulation by the USDA concerning food safety, by the FDA concerning the use of medications in feed and by the EPA and various other state agencies concerning discharges to the environment. Although we do not anticipate any regulations having a material adverse effect upon us, a material adverse effect may occur.

Employees and Labor Relations

As of September 26, 2009, we employed approximately 36,600 persons in the US and approximately 4,640 persons in Mexico. There are approximately 10,370 employees at various facilities in the US who are members of collective bargaining units. In Mexico, approximately 2,600 employees are covered by collective bargaining agreements. We have not experienced any work stoppage at any location in over six years. We believe our relations with our employees are satisfactory. At any given time, we will be in some stage of contract negotiation with various collective bargaining units.

Financial Information about Foreign Operations

The Company's foreign operations are in Mexico. Geographic financial information is set forth in Item 7. "Management's Discussion and Analysis of Financial Condition and Results of Operation."

Available Information

The Company's Internet website is <http://www.pilgrimspride.com>. The Company makes available, free of charge, through its Internet website, the Company's annual reports on Form 10-K, quarterly reports on Form 10-Q, current reports on Form 8-K, Directors and Officers Forms 3, 4 and 5, and amendments to those reports, as soon as reasonably practicable after electronically filing such materials with, or furnishing them to, the Securities and Exchange Commission. The public may read and copy any materials that the Company files with the Securities and Exchange Commission at its Public Reference Room at 100 F Street, NE, Washington, DC 20549 and may obtain information about the operation of the Public Information Room by calling the Securities and Exchange Commission at 1-800-SEC-0330.

In addition, the Company makes available, through its Internet website, the Company's Business Code of Conduct and Ethics, Corporate Governance Guidelines and the written charter of the Audit Committee, each of which is available in print to any stockholder who requests it by contacting the Secretary of the Company at 4845 US Highway 271 North, Pittsburg, Texas 75686-0093. Information contained on the Company's website is not included as part of, or incorporated by reference into, this report.

We included the certifications of the Co-Principal Executive Officers and the Chief Financial Officer of the Company required by Section 302 of the Sarbanes-Oxley Act of 2002 and related rules, relating to the quality of the Company's public disclosure, in this report on Form 10-K as Exhibits 31.1, 31.2 and 31.3.

Executive Officers

Set forth below is certain information relating to our current executive officers:

<u>Name</u>	<u>Age</u>	<u>Positions</u>
Lonnie "Bo" Pilgrim	81	Senior Chairman of the Board
Don Jackson	58	President, Chief Executive Officer and Director
Richard A. Cogdill	49	Chief Financial Officer, Secretary, Treasurer and Director
William K. Snyder	50	Chief Restructuring Officer

Lonnie "Bo" Pilgrim has served as Senior Chairman of the Board since July 2007. He served as Chairman of the Board since the organization of Pilgrim's Pride in July 1968 until July 2007. He also served as Chief Executive Officer from July 1968 to June 1998. Prior to the incorporation of Pilgrim's Pride, Mr. Pilgrim was a partner in its predecessor partnership business founded in 1946.

Don Jackson has served as President, Chief Executive Officer and Director since January 2009. Previously, Dr. Jackson served as president of Foster Farms' poultry division, based in Livingston, California, since 2000. Prior to that, he served as executive vice president for foodservice of the former ConAgra Poultry Company in Duluth, Georgia. Before that he worked for 22 years for Seaboard Farms of Athens, Georgia, including four years as president and CEO of its poultry division.

Richard A. Cogdill has served as Chief Financial Officer, Secretary and Treasurer since January 1997. Mr. Cogdill became a Director in September 1998. Previously he served as Senior Vice President, Corporate Controller, from August 1992 through December 1996 and as Vice President, Corporate Controller from October 1991 through August 1992. Prior to October 1991, he was a Senior Manager with Ernst & Young LLP. Mr. Cogdill is a Certified Public Accountant.

William K. Snyder has served as Chief Restructuring Officer since November 2008. Mr. Snyder has served as a Managing Partner of CRG Partners Group, LLC ("CRG"), a provider of corporate turnaround and restructuring services, since 2001. Mr. Snyder will continue to be employed by CRG and will perform service as Chief Restructuring Officer of the Company through CRG. In connection with his position as Managing Partner of CRG, Mr. Snyder served as court-appointed examiner of Mirant Corporation, Corporate Responsible Partner of Furr's Restaurant Group Inc., Chief Financial Officer of Reliant Building Products Inc., and as a senior executive officer of a number of private companies. Previously, Mr. Snyder was president of his own financial consulting company, The Snyder Company. Mr. Snyder will cease serving as Chief Restructuring Officer upon our exit from bankruptcy.

Item 1A. Risk Factors

Forward Looking Statements

Certain written and oral statements made by our Company and subsidiaries of our Company may constitute "forward-looking statements" as defined under the Private Securities Litigation Reform Act of 1995. This includes statements made herein, in our other filings with the SEC, in press releases, and in certain other oral and written presentations.

Statements of our intentions, beliefs, expectations or predictions for the future, denoted by the words "anticipate," "believe," "estimate," "expect," "plan," "project," "imply," "intend," "foresee" and similar expressions, are forward-looking statements that reflect our current views about future events and are subject to risks, uncertainties and assumptions. Such risks, uncertainties and assumptions include those described under "Risk Factors" below and elsewhere in this Annual Report on Form 10-K.

Actual results could differ materially from those projected in these forward-looking statements as a result of these factors, among others, many of which are beyond our control.

In making these statements, we are not undertaking, and specifically decline to undertake, any obligation to address or update each or any factor in future filings or communications regarding our business or results, and we are not undertaking to address how any of these factors may have caused changes in information contained in previous filings or communications. The risks described below are not the only risks we face, and additional risks and uncertainties may also impair our business operations. The occurrence of any one or more of the following or other currently unknown factors could materially adversely affect our business and operating results.

Risk Factors

The following risk factors should be read carefully in connection with evaluating our business and the forward-looking information contained in this Annual Report on Form 10-K. Any of the following risks could materially adversely affect our business, operations, industry or financial position or our future financial performance. While we believe we have identified and discussed below all risk factors affecting our business that we believe are material, there may be additional risks and uncertainties that are not presently known or that are not currently believed to be significant that may adversely affect our business, operations, industry, financial position and financial performance in the future.

Proposed Plan of Reorganization and the Proposed Acquisition. We may not be able to obtain confirmation of the Proposed Plan.

We cannot ensure that we will receive the requisite Proposed Plan acceptances to confirm the Proposed Plan. Even if we receive the requisite Proposed Plan acceptances, we cannot ensure that the Bankruptcy Court will confirm the Proposed Plan. The adequacy of the Disclosure Statement or the balloting procedures and results may be challenged as not being in compliance with the Bankruptcy Code, and even if the Bankruptcy Court determined that the Disclosure Statement and the balloting procedures and results were appropriate, the Bankruptcy Court could still decline to confirm the Proposed Plan if it found that any of the statutory requirements for

confirmation had not been met. Section 1129 of the Bankruptcy Code sets forth the requirements for confirmation and requires, among other things: (i) a finding by a bankruptcy court that a plan “does not unfairly discriminate” and is “fair and equitable” with respect to any non-accepting classes, (ii) confirmation is not likely to be followed by a liquidation or a need for further financial reorganization and (iii) the value of distributions to non-accepting holders of claims and interests within a particular class under the plan will not be less than the value of distributions such holders would receive if the debtors were liquidated under Chapter 7 of the Bankruptcy Code. While there can be no assurance that these requirements will be met, we believe that the Proposed Plan does not unfairly discriminate and is fair and equitable, will not be followed by a need for further financial reorganization, and that non-accepting holders under the Proposed Plan will receive distributions at least as great as would be received following a liquidation under Chapter 7 of the Bankruptcy Code.

Although we believe that the Proposed Plan will satisfy all requirements necessary for confirmation by the Bankruptcy Court, there can be no assurance that the Bankruptcy Court will reach the same conclusion. Moreover, there can be no assurance that modifications of the Proposed Plan will not be required for confirmation or that such modifications would not necessitate the resolicitation of votes. In addition, although we believe that the confirmation of the Proposed Plan will occur on or before December 31, 2009, there can be no assurance as to such timing.

Confirmation of the Proposed Plan. Our inability to obtain confirmation of the Proposed Plan within the timeframe currently contemplated may significantly disrupt our operations.

The impact a continuation of the bankruptcy proceedings may have on our operations and businesses cannot be accurately predicted or quantified. Since the Petition Date, we have suffered disruptions in operations, including losses of customers and suppliers. The continuation of the bankruptcy proceedings, particularly if the Proposed Plan is not approved or confirmed in the time frame currently contemplated, could further adversely affect our operations and relationships with our customers, vendors, suppliers and employees. If confirmation of the Proposed Plan does not occur expeditiously, the bankruptcy proceedings could result in, among other things, increases in costs, professional fees and similar expenses. In addition, prolonged bankruptcy proceedings may make it more difficult to retain and attract management and other key personnel, and would require senior management to spend a significant amount of time and effort dealing with our financial reorganization instead of focusing on the operation of our businesses.

Liquidation or Financial Reorganization. Holders of our equity interests may face significant losses in the event of our subsequent liquidation or financial reorganization.

Our management believes that, if it is permitted to implement its business plan and if we meet our current financial projections as updated by the subsequently identified variances, the confirmation of the Proposed Plan is not likely to be followed by the liquidation, or the need for further financial reorganization. Nevertheless, there can be no assurance that such liquidation will not occur or that the need for such financial reorganization will not arise. Substantially all of our unencumbered assets will be pledged to secure our obligations under the Exit Credit Facility. Accordingly, after consummation of the Proposed Plan, if we were to be liquidated or if the need

for a further financial reorganization were to arise, our unencumbered assets likely would be insufficient to provide the holders of our equity interests with any material recovery.

Closing Conditions to the SPA. The satisfaction or waiver of the closing conditions to the SPA is a condition precedent for the confirmation of the Proposed Plan and may prevent or delay confirmation of the Proposed Plan if such conditions are not satisfied or waived as provided in the SPA.

The Plan Sponsor has entered into the SPA and has agreed to purchase 64% of the common stock of Reorganized PPC as provided therein. However, the SPA is subject a number of conditions precedent that must be satisfied or waived by the parties thereto. These conditions include, in addition to certain customary closing conditions, the satisfaction or waiver of the conditions precedent in respect to the Exit Credit Facility and the Company's access to funding thereunder. To date, the Company has only received non-binding mandate letters from the potential lenders party to the Exit Credit Facility. If any of the closing conditions in the SPA are not satisfied or waived, we will not be able to meet a condition precedent for confirmation of the Proposed Plan. We can provide no assurance that the closing conditions in the SPA will be satisfied or, if not satisfied, waived by the parties thereto.

Plan Sponsor's Ownership Percentage. If the Plan Sponsor's ownership percentage in the Reorganized PPC increases to 90% or more there will be no Equity Directors on the Reorganized PPC's board of directors.

Pursuant to the terms of the Restated Certificate of Incorporation, the Plan Sponsor has the right to elect six directors to the Reorganized PPC's board of directors, with the minority stockholders having the right to elect two Equity Directors (as defined in the Restated Certificate of Incorporation). If the Plan Sponsor's ownership percentage in the Reorganized PPC increases to 90% or above, the minority stockholders will no longer have the right to elect the Equity Directors.

Mandatory Exchange Transaction. Holders of Reorganized PPC's common stock may ultimately receive shares of JBS USA common stock.

Under the Proposed Plan, in the event JBS USA completes an initial public offering of its common stock, and the offered shares are listed on a national securities exchange, then, at any time during an exchange window falling within the period commencing on the date of the closing of such offering and ending two years and 30 days from the effective date of the Proposed Plan, JBS USA will have the right to deliver written notice of the mandatory exchange of the Reorganized PPC's common stock for JBS USA common stock (the "Mandatory Exchange Transaction") to Reorganized PPC at its principal place of business. Upon delivery to Reorganized PPC of notice of the Mandatory Exchange Transaction each share of Reorganized PPC's common stock held by stockholders other than JBS USA will automatically, without any further action on behalf of Reorganized PPC, be transferred to JBS USA in exchange for a number of duly authorized, validly issued, fully paid and non-assessable shares of JBS USA common stock equal to the Exchange Offer Ratio (as defined below). The Mandatory Exchange Transaction is required to be effected in compliance with all applicable laws in accordance with the Restated Certificate of Incorporation.

The Exchange Offer Ratio is a fraction, the numerator of which is the average volume-weighted daily trading price per share on a national securities exchange for the common stock of Reorganized PPC and the denominator of which is the average volume-weighted daily trading price per share on the principal exchange for the JBS USA common stock, in each case for the Measurement Period. The “Measurement Period” is a number of consecutive trading days which is equal to twice the number of consecutive trading days between (i) the first date on which both JBS USA and Reorganized PPC shall have both made their respective annual or quarterly reports or earnings releases and (ii) the date on which JBS USA delivers to Reorganized PPC the notice of the Mandatory Exchange Transaction.

The shares of common stock of Reorganized PPC may in the future be exchanged for shares of JBS USA common stock without the consent or election of holders of Reorganized PPC’s common stock.

For more information about the Plan Sponsor and its business, refer to a copy of the Plan Sponsor’s Registration Statement on Amendment No. 1 to Form S-1 filed with the SEC on November 2, 2009. The Registration Statement was prepared by, and is the responsibility of JBS USA. We disclaim any responsibility for the accuracy or completeness of this document and it is not included as a part of, or incorporated by reference into, this report.

Mandatory Exchange Transaction. **The market price of the JBS USA common stock may adversely affect the market price for Reorganized PPC’s common stock.**

If JBS USA completes an initial public offering of its common stock prior to the expiration of the deadline for their exercise of the Mandatory Exchange Transaction, the market price of the JBS USA common stock may influence the market price of the common stock of Reorganized PPC. For example, the market price of the Reorganized PPC’s common stock could become more volatile and could be depressed by (a) lack of trading activity in Reorganized PPC’s common stock as a result of investors’ anticipation of JBS USA’s potential exercise of the Mandatory Exchange Transaction, (b) possible sales by holders of Reorganized PPC’s common stock who do not wish to receive shares of JBS USA common stock, and (c) hedging or arbitrage trading activity that may develop involving Reorganized PPC’s common stock and JBS USA common stock.

Mandatory Exchange Transaction. **Holders of Reorganized PPC’s common stock will bear the full risk of a decline in the market price of Reorganized PPC’s common stock.**

The number of shares of JBS USA common stock that holders of Reorganized PPC’s common stock will receive upon JBS USA’s exercise of the Mandatory Exchange Transaction will be equal to the Exchange Offer Ratio (as defined above). As a result, the number of shares that holders of Reorganized PPC’s common stock will receive in JBS USA is not fixed, but instead will depend on the market values of both companies during a specified period of time. The aggregate market value of the JBS USA common stock deliverable upon the consummation of the Mandatory Exchange Transaction may be less than the aggregate market value of the Reorganized PPC’s common stock originally received pursuant to the Proposed Plan. Accordingly, holders of Reorganized PPC’s common stock will bear the full risk of a decline in the market price of Reorganized PPC’s common stock. Any such decline could be substantial.

Mandatory Exchange Transaction. The Plan Sponsor has no obligation to maintain a listing for JBS USA common stock after the consummation of the Mandatory Exchange Transaction.

The SPA does not require the Plan Sponsor to maintain a listing for JBS USA common stock after it completes the Mandatory Exchange Transaction. There can be no assurance that there will be sufficient liquidity in the market for JBS USA common stock, or that it will be possible to sell shares of JBS USA common stock when desired, at a reasonable price or at all.

Mandatory Exchange Transaction. Holders of Reorganized PPC's common stock will have no rights with respect to JBS USA common stock prior to the Mandatory Exchange Transaction, but may be negatively affected by certain actions taken by JBS USA.

Until the consummation of the Mandatory Exchange Transaction, holders of Reorganized PPC's common stock will have no rights with respect to the JBS USA common stock (including, without limitation, voting rights, rights to receive dividends or other distributions (if any) and rights to respond to tender offers). For example, in the event that an amendment is proposed to the articles of incorporation of JBS USA requiring stockholder approval and the record date for determining the stockholders of record entitled to vote on the amendment occurs prior to the consummation of the Mandatory Exchange Transaction, holders of Reorganized PPC's common stock will not be entitled to vote on the amendment, although they will nevertheless be subject to any changes in the powers, preferences or special rights of the JBS USA common stock. In addition, JBS USA may issue additional shares of JBS USA common stock, including in connection with future acquisitions. The issuance of a significant amount of JBS USA common stock would dilute the shares of JBS USA common stock acquired by holders of Reorganized PPC's common stock pursuant to the Mandatory Exchange Transaction and could depress the trading price of the JBS USA common stock.

Significant Leverage. Our future financial and operating flexibility may be adversely affected by our significant leverage as a result of the Exit Credit Facility.

We will have substantial indebtedness, which could adversely affect our financial condition. On the closing date of the Proposed Acquisition, after giving effect to the transactions contemplated by the Proposed Plan, we will, on a consolidated basis, have approximately \$1.4 billion in secured indebtedness and will have the ability to borrow approximately \$0.3 billion under the Exit Credit Facility, unless such requirement is waived by the lenders party thereto. Significant amounts of cash flow will be necessary to make payments of interest and repay the principal amount of such indebtedness.

The degree to which we are leveraged could have important consequences because:

- It could affect our ability to satisfy our obligations under the Exit Credit Facility;
- A substantial portion of our cash flow from operations will be required to be dedicated to interest and principal payments and may not be available for operations, working capital, capital expenditures, expansion, acquisitions or general corporate or other purposes;

- Our ability to obtain additional financing and to fund working capital, capital expenditures and other general corporate requirements in the future may be impaired;
- We may be more highly leveraged than some of their competitors, which may place us at a competitive disadvantage;
- Our flexibility in planning for, or reacting to, changes in our business may be limited;
- It may limit our ability to pursue acquisitions and sell assets; and
- It may make us more vulnerable in the event of another downturn in our business or the economy in general.

Our ability to make payments on and to refinance our debt, including the Exit Credit Facility, will depend on our ability to generate cash in the future. This, to a certain extent, is subject to various business factors (including, among others, the commodity prices of feed ingredients and chicken) and general economic, financial, competitive, legislative, regulatory, and other factors that are beyond our control.

There can be no assurance that we will be able to generate sufficient cash flow from operations or that future borrowings will be available under credit facilities in an amount sufficient to enable us to pay our debt obligations, including obligations under the Exit Credit Facility, or to fund our other liquidity needs. We may need to refinance all or a portion of their debt on or before maturity. There can be no assurance that we will be able to refinance any of their debt on commercially reasonable terms or at all.

***Restrictive Covenants.* Restrictive covenants in the Exit Credit Facility may adversely affect our business activities and operations.**

The Exit Credit Facility will contain various covenants that may adversely affect our ability to, among other things, incur additional indebtedness, incur liens, pay dividends or make certain restricted payments, consummate certain asset sales, enter into certain transactions with JBS USA and our other affiliates, merge, consolidate and/or sell or dispose of all or substantially all of our assets. In addition, the Exit Credit Facility will require us and certain of our subsidiaries to maintain certain financial ratios and meet certain tests, including leverage and interest coverage ratios. Covenants in the Exit Credit Facility will also require us to use a portion of our cash flow and the proceeds we receive from certain asset sales and specified debt or equity issuances and upon the occurrence of other events to repay outstanding borrowings under the Exit Credit Facility. These covenants may have important consequences on our operations, including, without limitation, restricting their ability to obtain additional financing and potentially limiting their ability to adjust to rapidly changing market conditions.

We cannot assure you that we and certain of our subsidiaries will be able to comply with the provisions of their respective debt instruments, including, without limitation, the financial covenants in the Exit Credit Facility. Any failure to comply with the restrictions of the Exit Credit Facility or any other such subsequent financing agreements may result in an event of default. An event of default may allow the creditors to accelerate the related debt as well as any other debt to which a cross-acceleration or cross-default provision applies. We cannot provide assurance that we and certain of our subsidiaries' assets or cash flow would be sufficient to fully repay borrowings under the outstanding debt instruments, either upon maturity or if accelerated upon an event of default, or that they would be able to refinance or restructure the payments on such debt. If we are unable to repay amounts outstanding under the Exit Credit Facility when due, the lenders thereunder could, subject to the terms of the relevant agreements, seek to sell or otherwise transfer the assets that are pledged to secure the indebtedness outstanding under those facilities and notes. The Exit Credit Facility will be secured by substantially all of our assets.

***National Securities Exchange Listing.* We may not be able to list the common stock of Reorganized PPC on a national securities exchange or an active market for shares of common stock of Reorganized PPC may not develop.**

Prior to the Petition Date, our common stock was listed on the NYSE. On the Petition Date, our common stock was delisted from the NYSE and has traded on an electronic quotations system, such as the system known as the "Pink Sheets" during the bankruptcy proceedings. On November 11, 2009, we applied to have our common stock listed on the NYSE under the ticker symbol "PPC." However, there is no assurance that Reorganized PPC, or its common stock, will comply with the listing requirements of the NYSE or another national securities exchange. In addition, even if we are able to list common stock of Reorganized PPC on a national securities exchange, there can be no assurance that a regular trading market for common stock of Reorganized PPC will develop, or if a trading market does develop, that it will be sustainable. Pursuant to the SPA, the Plan Sponsor and Reorganized PPC are required to use their commercially reasonable efforts to cause the common stock of Reorganized PPC to comply with the continued listing standards of such national securities exchange so that the common stock of Reorganized PPC will continue to be listed and traded thereon. However, the Plan Sponsor has no obligation to ensure that the share price or the market value of the shares of common stock of Reorganized PPC is sufficient to maintain the listing of such shares. In addition, under certain circumstances and with the consent of the required lenders under the Exit Credit Facility, Reorganized PPC may be able to repurchase its common stock, which may reduce the liquidity of the common stock of Reorganized PPC. There can be no assurance that there will be sufficient liquidity in the market for common stock of Reorganized PPC, or that it will be possible to sell shares of common stock of Reorganized PPC when desired, or at all.

Purchase Price for Common Stock of Reorganized PPC. The purchase price paid by the Plan Sponsor for the common stock of Reorganized PPC is not intended to represent the trading or market value of common stock of Reorganized PPC and there is no assurance that a holder will be able to sell the common stock of Reorganized PPC at such a price or at all.

The determination of the purchase price of the common stock of Reorganized PPC was based on the Plan Sponsor's and our assessments of the Reorganized PPC's financial projections, business prospects, business opportunities, risks and other factors, as applicable, and was not intended to represent the trading values of common stock of Reorganized PPC in public or private markets. Several factors may cause the price of common stock of Reorganized PPC to vary. Additionally, the stock market has experienced extreme volatility in recent months and this volatility has often been unrelated to the operating performance of particular companies. All of these factors, among others, may cause the price of the common stock of Reorganized PPC to fluctuate after trading commences and it may not be possible to sell the common stock of Reorganized PPC at such a price, or at all.

Common Stock of Reorganized PPC—Voting. The Plan Sponsor will hold a majority of the common stock of Reorganized PPC and will have the ability to control the vote on most matters brought before the holders of common stock of Reorganized PPC.

Following consummation of the Proposed Plan, the Plan Sponsor will hold a majority of the shares and voting power of the common stock of Reorganized PPC and will be entitled to appoint a majority of the members of the board of directors of the Reorganized PPC. As a result, the Plan Sponsor will, subject to restrictions on its voting power and actions in the Stockholders Agreement and the Restated Certificate of Incorporation, have the ability to control the management, policies and financing decisions of the Reorganized PPC, elect a majority of the members of Reorganized PPC's board of directors at the annual meeting and control the vote on most matters coming before the holders of common stock of Reorganized PPC.

Bankruptcy Proceedings. The bankruptcy proceedings may have negatively affected our businesses, including our relationships with customers, suppliers and vendors, which could adversely impact our future financial and operating results.

Due to the disruptions in our businesses as a result of the initiation of bankruptcy proceedings, certain of our relationships with customers, suppliers and vendors may have been adversely affected and/or terminated. Customers, suppliers or vendors may have entered into alternate relationships with other counterparties or modified their relationship with us due to performance issues or concerns. In some instances, customers, suppliers and vendors are holders of claims in connection with the bankruptcy proceedings. The effect of the bankruptcy process and the resolution of such claims against us (including the confirmation of the Proposed Plan) may have adversely affected or may in the future adversely affect the relationships between such parties and us. In addition, the risks and uncertainties associated with the bankruptcy proceedings may be used by competitors with respect to our existing customers or may discourage future customers from purchasing products under long-term arrangements. Changes in relationships with customers, suppliers and vendors could have a material adverse effect on our financial and operating results.

The Company estimates that, following completion of the claims reconciliation process, the aggregate amount of allowed general unsecured claims against the Company and the other Debtors will be approximately \$180 million, after deducting duplicate claims, claims not supported by the Company's books and records, claims that have already been reduced by agreement of the parties or order of the Bankruptcy Court and claims that are subject to other objections. These general unsecured claims consist of unsecured claims, including trade claims, claims based on rejection of leases or executory contracts, prepetition personal injury and prepetition litigation, and other general unsecured claims. The general unsecured claims do not include claims relating to the Company's senior notes, senior subordinated notes and subordinated notes issued under its indentures.

The Proposed Acquisition Synergies. The expected synergies between JBS USA and the Company may not materialize.

While JBS USA has significant acquisition experience and historically has been able to realize substantial benefits through synergies, JBS USA may not be able to fully achieve all of the anticipated synergistic gains of the Proposed Acquisition within the time frames expected. The combined company's ability to realize the anticipated benefits of the acquisition will depend, to a large extent, on the ability of JBS USA to integrate the businesses of Reorganized PPC with JBS USA. The combination of two independent companies is a complex, costly and time-consuming process. As a result, the combined company will be required to devote significant management attention and resources to integrating the business practices and operations of JBS USA and Reorganized PPC. The integration process and realizing the benefits of the synergies will be additionally challenging so long as Reorganized PPC remains an independent, publicly-traded entity. The integration process may disrupt the business of either or both of the companies and, if implemented ineffectively, would preclude realization of the full benefits expected by JBS USA. The failure of the combined company to meet the challenges involved in integrating successfully the operations of JBS USA and Reorganized PPC or otherwise to realize the anticipated benefits of the transaction could cause an interruption of, or a loss of momentum in, the activities of the combined company and could seriously harm its results of operations. In addition, the overall integration of the two companies may result in unanticipated problems, expenses, liabilities, competitive responses, loss of customer and supplier relationships, and diversion of management's attention, and may cause the price of common stock of Reorganized PPC to decline. The difficulties of combining the operations of the companies include, among others:

- Consolidating corporate and administrative infrastructures and eliminating duplicative operations;
- Maintaining employee morale and retaining key employees;
- The diversion of management's attention from ongoing business concerns;
- Coordinating geographically separate organizations;
- Unanticipated issues in integrating information technology, communications and other systems; and

- Managing tax costs or inefficiencies associated with integrating the operations of the combined company.

In addition, even if the operations of JBS USA and Reorganized PPC are integrated successfully, the combined company may not realize the full benefits of the transaction, including the synergies, cost savings or sales or growth opportunities that JBS USA expects. These benefits may not be achieved within the anticipated time frame, or at all. As a result, while JBS USA expects and believes that the transaction will result in substantial benefits from the synergies outlined above, it cannot make any affirmative guarantees that these results will be fully realized within the anticipated time frame given the risks involved.

The views regarding any synergies that may be created through the Proposed Acquisition are the views of JBS USA and have not been independently verified by either us or our advisors.

***Cyclical and Commodity Prices.* Industry cyclical can affect our earnings, especially due to fluctuations in commodity prices of feed ingredients and chicken.**

Profitability in the chicken industry is materially affected by the commodity prices of feed ingredients and chicken, which are determined by supply and demand factors. As a result, the chicken industry is subject to cyclical earnings fluctuations.

The production of feed ingredients is positively or negatively affected primarily by the global level of supply inventories and demand for feed ingredients, the agricultural policies of the United States and foreign governments and weather patterns throughout the world. In particular, weather patterns often change agricultural conditions in an unpredictable manner. A significant change in weather patterns could affect supplies of feed ingredients, as well as both the industry's and our ability to obtain feed ingredients, grow chickens or deliver products.

The cost of corn and soybean meal, our primary feed ingredients, increased significantly from August 2006 to July 2008, before moderating in 2009, and there can be no assurance that the price of corn or soybean meal will not significantly rise again as a result of, among other things, increasing demand for these products around the world and alternative uses of these products, such as ethanol and biodiesel production.

High feed ingredient prices have had, and may continue to have, a material adverse effect on our operating results, which has resulted in, and may continue to result in, additional non-cash expenses due to impairment of the carrying amounts of certain of our assets. We periodically seek, to the extent available, to enter into advance purchase commitments or financial derivative contracts for the purchase of feed ingredients in an effort to manage our feed ingredient costs. The use of such instruments may not be successful.

***Livestock and Poultry Disease.* Outbreaks of livestock diseases in general and poultry diseases in particular, including avian influenza, can significantly affect our ability to conduct our operations and demand for our products.**

We take precautions designed to ensure that our flocks are healthy and that our processing plants and other facilities operate in a sanitary and environmentally-sound manner. However, events beyond our control, such as the outbreaks of disease, either in our own flocks or elsewhere, could significantly affect demand for our products or our ability to conduct our operations. Furthermore, an outbreak of disease could result in governmental restrictions on the import and export of our fresh chicken or other products to or from our suppliers, facilities or customers, or require us to destroy one or more of our flocks. This could also result in the cancellation of orders by our customers and create adverse publicity that may have a material adverse effect on our ability to market our products successfully and on our business, reputation and prospects.

During the first half of 2006, there was substantial publicity regarding a highly pathogenic strain of avian influenza, known as H5N1, which has been affecting Asia since 2002 and which has also been found in Europe and Africa. It is widely believed that H5N1 is being spread by migratory birds, such as ducks and geese. There have also been some cases where H5N1 is believed to have passed from birds to humans as humans came into contact with live birds that were infected with the disease.

Although highly pathogenic H5N1 has not been identified in North America, there have been outbreaks of low pathogenic strains of avian influenza in North America, and in Mexico outbreaks of both high and low-pathogenic strains of avian influenza are a fairly common occurrence. Historically, the outbreaks of low pathogenic avian influenza have not generated the same level of concern, or received the same level of publicity or been accompanied by the same reduction in demand for poultry products in certain countries as that associated with the highly pathogenic H5N1 strain. Accordingly, even if the highly pathogenic H5N1 strain does not spread to North or Central America, there can be no assurance that it will not materially adversely affect demand for North or Central American produced poultry internationally and/or domestically, and, if it were to spread to North or Central America, there can be no assurance that it would not significantly affect our ability to conduct our operations and/or demand for our products, in each case in a manner having a material adverse effect on our business, reputation and/or prospects.

***Contamination of Products.* If our poultry products become contaminated, we may be subject to product liability claims and product recalls.**

Poultry products may be subject to contamination by disease-producing organisms, or pathogens, such as *Listeria monocytogenes*, *Salmonella* and generic *E.coli*. These pathogens are generally found in the environment, and, as a result, there is a risk that they, as a result of food processing, could be present in our processed poultry products. These pathogens can also be introduced as a result of improper handling at the further processing, foodservice or consumer level. These risks may be controlled, although not eliminated, by adherence to good manufacturing practices and finished product testing. We have little, if any, control over proper handling once the product has been shipped. Illness and death may result if the pathogens are not eliminated at the further processing, foodservice or consumer level. Even an inadvertent shipment of contaminated products is a violation of law and may lead to increased risk of exposure to product liability claims, product recalls and increased scrutiny by federal and state regulatory agencies and may

have a material adverse effect on our business, reputation and prospects.

In October 2002, one product sample produced in our Franconia, Pennsylvania, facility that had not been shipped to customers tested positive for Listeria. We later received information from the USDA suggesting environmental samples taken at the facility had tested positive for both the strain of Listeria identified in the product and a strain having characteristics similar to those of the strain identified in a Northeastern Listeria outbreak. As a result, we voluntarily recalled all cooked deli products produced at the plant from May 1, 2002, through October 11, 2002. We carried insurance designed to cover the direct recall related expenses and certain aspects of the related business interruption caused by the recall.

***Product Liability.* Product liability claims or product recalls can adversely affect our business reputation and expose us to increased scrutiny by federal and state regulators.**

The packaging, marketing and distribution of food products entail an inherent risk of product liability and product recall and the resultant adverse publicity. We may be subject to significant liability if the consumption of any of our products causes injury, illness or death. We could be required to recall certain of our products in the event of contamination or damage to the products. In addition to the risks of product liability or product recall due to deficiencies caused by our production or processing operations, we may encounter the same risks if any third party tampers with our products. We cannot assure you that we will not be required to perform product recalls, or that product liability claims will not be asserted against us, in the future. Any claims that may be made may create adverse publicity that would have a material adverse effect on our ability to market our products successfully or on our business, reputation, prospects, financial condition and results of operations.

If our poultry products become contaminated, we may be subject to product liability claims and product recalls. There can be no assurance that any litigation or reputational injury associated with product recalls will not have a material adverse effect on our ability to market our products successfully or on our business, reputation, prospects, financial condition and results of operations.

***Insurance.* We are exposed to risks relating to product liability, product recall, property damage and injuries to persons for which insurance coverage is expensive, limited and potentially inadequate.**

Our business operations entail a number of risks, including risks relating to product liability claims, product recalls, property damage and injuries to persons. We currently maintain insurance with respect to certain of these risks, including product liability insurance, property insurance, workers compensation insurance, business interruption insurance and general liability insurance, but in many cases such insurance is expensive, difficult to obtain and no assurance can be given that such insurance can be maintained in the future on acceptable terms, or in sufficient amounts to protect us against losses due to any such events, or at all. Moreover, even though our insurance coverage may be designed to protect us from losses attributable to certain events, it may not adequately protect us from liability and expenses we incur in connection with such events. For example, the losses attributable to our October 2002 recall of cooked deli products produced at one of our facilities significantly exceeded available insurance coverage. Additionally, in the past, two of our insurers encountered financial difficulties and were unable

to fulfill their obligations under the insurance policies as anticipated and, separately, two of our other insurers contested coverage with respect to claims covered under policies purchased, forcing us to litigate the issue of coverage before we were able to collect under these policies.

Significant Competition. **Competition in the chicken industry with other vertically integrated poultry companies may make us unable to compete successfully in these industries, which could adversely affect our business.**

The chicken industry is highly competitive. In both the United States and Mexico, we primarily compete with other vertically integrated chicken companies.

In general, the competitive factors in the US chicken industry include:

- Price;
- Product quality;
- Product development;
- Brand identification;
- Breadth of product line; and
- Customer service.

Competitive factors vary by major market. In the foodservice market, competition is based on consistent quality, product development, service and price. In the US retail market, we believe that competition is based on product quality, brand awareness, customer service and price. Further, there is some competition with non-vertically integrated further processors in the prepared chicken business. In addition, the bankruptcy proceedings and the associated risks and uncertainties may be used by competitors in an attempt to divert existing customers or may discourage future customers from purchasing products under long-term arrangements.

In Mexico, where product differentiation has traditionally been limited, we believe product quality and price have been the most critical competitive factors. The North American Free Trade Agreement eliminated tariffs for chicken and chicken products sold to Mexico on January 1, 2003. However, in July 2003, the US and Mexico entered into a safeguard agreement with regard to imports into Mexico of chicken leg quarters from the US. Under this agreement, a tariff rate for chicken leg quarters of 98.8% of the sales price was established. On January 1, 2008, the tariff was eliminated. As a result of the elimination of this tariff, greater amounts of chicken have been imported into Mexico from the US. Industry exports of ready-to-cook chicken into Mexico have increased to 818 million pounds, or 12.0% of all US ready-to-cook chicken exports, in 2009 from 503 million pounds, or 9.4% of all US ready-to-cook chicken exports, in 2005. These trends, should they continue to increase, could negatively affect the profitability of Mexican chicken producers located in the northern states of Mexico. We believe the impact on producers, such as us, located in the central states of Mexico should be much less pronounced.

***Loss of Key Customers.* The loss of one or more of our largest customers could adversely affect our business.**

Our two largest customers accounted for approximately 18% of our net sales in 2009, and our largest customer, Wal-Mart Stores Inc., accounted for 12% of our net sales. Our filing for protection under Chapter 11 of the Bankruptcy Code and the associated risks and uncertainties may affect our customers' perception of our business and increase our risk of losing key customers. Our business could suffer significant setbacks in revenues and operating income if we lost one or more of our largest customers, or if our customers' plans and/or markets should change significantly.

***Assumption of Unknown Liabilities in Acquisitions.* Assumption of unknown liabilities in acquisitions may harm our financial condition and operating results.**

We do not currently intend to make any acquisition in the near future. However, if we do, acquisitions may be structured in such a manner that would result in the assumption of unknown liabilities not disclosed by the seller or uncovered during pre-acquisition due diligence. For example, our acquisition of Gold Kist was structured as a stock purchase. In that acquisition we assumed all of the liabilities of Gold Kist, including liabilities that may be unknown. These obligations and liabilities could harm our financial condition and operating results.

***Foreign Operations Risks.* Our foreign operations pose special risks to our business and operations.**

We have significant operations and assets located in Mexico and may participate in or acquire operations and assets in other foreign countries in the future. Foreign operations are subject to a number of special risks, including among others:

- Currency exchange rate fluctuations;
- Trade barriers;
- Exchange controls;
- Expropriation; and
- Changes in laws and policies, including tax laws and laws governing foreign-owned operations.

Currency exchange rate fluctuations have adversely affected us in the past. Exchange rate fluctuations or one or more other risks may have a material adverse effect on our business or operations in the future.

Our operations in Mexico are conducted through subsidiaries organized under the laws of Mexico. We may rely in part on intercompany loans and distributions from our subsidiaries to meet our obligations. Claims of creditors of our subsidiaries, including trade creditors, will generally have priority as to the assets of our subsidiaries over our claims. Additionally, the ability of our Mexican subsidiaries to make payments and distributions to us will be subject to, among other things, Mexican law. In the past, these laws have not had a material adverse effect on the ability of our Mexican subsidiaries to make these payments and distributions. However, laws such as these may have a material adverse effect on the ability of our Mexican subsidiaries to make these payments and distributions in the future.

***Disruptions in International Markets and Distribution Channels.* Disruptions in international markets and distribution channels could adversely affect our business.**

Historically, we have targeted international markets to generate additional demand for our products. In particular, given US customers' general preference for white meat, we have targeted international markets for the sale of dark chicken meat, specifically leg quarters, which are a natural by-product of our US operations' concentration on prepared chicken products. As part of this initiative, we have created a significant international distribution network into several markets in Mexico, Eastern Europe (including Russia), and the Far East (including China). Our success in these markets may be, and our success in recent periods has been, adversely affected by disruptions in chicken export markets. For example, the United States poultry industry is currently engaged in an anti-dumping proceeding in Ukraine and an anti-dumping and countervailing duty proceeding in China that could materially adversely affect our sales in these countries. A significant risk is disruption due to import restrictions and tariffs, other trade protection measures, and import or export licensing requirements. In addition, disruptions may be caused by outbreaks of disease such as avian influenza, either in our flocks or elsewhere in the world, and resulting changes in consumer preferences. For example, the occurrence of avian influenza in Eastern Europe in October 2005 affected demand for poultry in Europe. One or more of these or other disruptions in the international markets and distribution channels could adversely affect our business.

***Government Regulation.* Regulation, present and future, is a constant factor affecting our business.**

Our operations will continue to be subject to federal, state and local governmental regulation, including in the health, safety and environmental areas. We anticipate increased regulation by various agencies concerning food safety, the use of medication in feed formulations and the disposal of chicken by-products and wastewater discharges.

Also, changes in laws or regulations or the application thereof may lead to government enforcement actions and the resulting litigation by private litigants. We are aware of an industry-wide investigation by the Wage and Hour Division of the US Department of Labor to ascertain compliance with various wage and hour issues, including the compensation of employees for the time spent on such activities such as donning and doffing work equipment. The Company has been named a defendant in a number of related suits brought by employees. Due, in part, to the government investigation and the recent US Supreme Court decision in *IBP, Inc. v. Alvarez*, it is possible that we may be subject to additional employee claims.

Unknown matters, new laws and regulations, or stricter interpretations of existing laws or regulations may materially affect our business or operations in the future.

Immigration Legislation. New immigration legislation or increased enforcement efforts in connection with existing immigration legislation could cause the costs of doing business to increase, cause us to change the way we conduct our business or otherwise disrupt our operations.

Immigration reform continues to attract significant attention in the public arena and the US Congress. If new federal immigration legislation is enacted or if states in which we do business enact immigration laws, such laws may contain provisions that could make it more difficult or costly for us to hire US citizens and/or legal immigrant workers. In such case, we may incur additional costs to run their business or may have to change the way they conduct their operations, either of which could have a material adverse effect on our business, operating results and financial condition. Also, despite our past and continuing efforts to hire only US citizens and/or persons legally authorized to work in the US, we may be unable to ensure that all of their employees are US citizens and/or persons legally authorized to work in the US. US Immigration and Customs Enforcement has been investigating identity theft within our workforce. With our cooperation, during 2008 US Immigration and Customs Enforcement arrested approximately 350 of our employees believed to have engaged in identity theft at five of their facilities. No assurances can be given that further enforcement efforts by governmental authorities will not disrupt a portion of our workforce or operations at one or more facilities, thereby negatively impacting our business. Also, no assurance can be given that further enforcement efforts by governmental authorities will not result in the assessment of fines that could adversely affect the Company's financial position, operating results or cash flows.

Key Employee Retention. Loss of essential employees could have a significant negative impact on our business.

Our success is largely dependent on the skills, experience, and efforts of our management and other employees. Our deteriorating financial performance, along with our Chapter 11 proceedings, creates uncertainty that could lead to an increase in unwanted attrition. The loss of the services of one or more members of our senior management or of numerous employees with essential skills could have a negative effect on our business, financial condition and results of operations.

In addition, the acquisition of a majority of our common stock by JBS USA pursuant to the terms of the SPA will constitute a change in control of us under the terms of change-in-control agreements between us and our executive officers and certain of our key employees. The change in control of us may create difficulties for us in retaining the services of these officers and employees, which may negatively impact our business and the integration of our operations with those of JBS USA. If we are not able to retain or attract talented, committed individuals to fill vacant positions when needs arise, it may adversely affect our ability to achieve our business objectives.

Labor Relations. Our performance depends on favorable labor relations with our employees and our compliance with labor laws. Any deterioration of those relations or increase in labor costs due to our compliance with labor laws could adversely affect our business.

As of September 26, 2009, we had approximately 36,600 employees in the US and approximately 4,640 employees in Mexico. Approximately 10,370 of our employees at various facilities in the US are members of collective bargaining units. In Mexico, approximately 2,600 of our employees are covered by collective bargaining agreements. Upon the expiration of existing collective bargaining agreements or other collective labor agreements, we may not reach new agreements without union action, and any such new agreements may not be on terms satisfactory to us, which could result in higher wages or benefits paid to union workers. In addition, any new agreements may be for shorter durations than those of our historical agreements. Moreover, additional groups of currently non-unionized employees may seek union representation in the future. If we are unable to negotiate acceptable collective bargaining agreements, we may become subject to union-initiated work stoppages, including strikes.

Since March 2009, we have been involved in negotiations with the unions representing our US employees to modify certain terms of the collective bargaining agreements that we believe are necessary for our successful reorganization. We have successfully negotiated settlements with a majority of these unions, and these settlements were approved by the Bankruptcy Court on October 13, 2009. We have not yet reached a settlement with the International Brotherhood of Teamsters (“IBT”) and negotiations are ongoing. Currently, approximately 265 employees are covered under three expired IBT collective bargaining agreements.

Extreme Weather and Natural Disasters. Extreme weather or natural disasters could negatively impact our business.

Extreme weather or natural disasters, including droughts, floods, excessive cold or heat, hurricanes or other storms, could impair the health or growth of our flocks, production or availability of feed ingredients, or interfere with our operations due to power outages, fuel shortages, damage to our production and processing facilities or disruption of transportation channels, among other things. Any of these factors could have an adverse effect on our financial results.

Environmental Requirements. We may face significant costs for compliance with existing or changing environmental requirements and for potential environmental obligations relating to current or discontinued operations.

A number of our facilities have been operating below capacity due to economic conditions, and upgrades at some facilities have been delayed or deferred because of the bankruptcy. Before production can be restored to pre-bankruptcy levels, capital expenditures may be necessary at some facilities for installation of new pollution control equipment in order to achieve compliance with existing or changing environmental requirements, including more stringent limitations imposed or expected in recently-renewed or soon-to be renewed environmental permits.

In the past, we have acquired businesses with operations such as pesticide and fertilizer production that involved greater use of hazardous materials and generation of more hazardous wastes than our current operations. While many of those operations have been sold or closed, some environmental laws impose strict and, in certain circumstances, joint and several liability for costs of investigation and remediation of contaminated sites on current and former owners and operators of the sites, and on persons who arranged for disposal of wastes at such sites. In addition, current owners or operators of such contaminated sites may seek to recover cleanup costs from us based on past operations or contractual indemnifications.

New environmental requirements, stricter interpretations of existing environmental requirements, or obligations related to the investigation or clean-up of contaminated sites, may materially affect the our business or operations in the future.

***Control of Voting Stock.* Control over the Company is maintained by affiliates and members of the family of Lonnie “Bo” Pilgrim.**

Through two limited partnerships and related trusts and voting agreements, Lonnie “Bo” Pilgrim, Patricia R. Pilgrim, his wife, and Lonnie Ken Pilgrim, his son, control 62.25% of the voting power of our outstanding common stock. Accordingly, other than any approvals by stockholders in connection with the Proposed Plan, they currently control the outcome of all actions requiring stockholder approval, including the election of directors and significant corporate transactions, such as a merger or other sale of the Company or its assets. This ensures their ability to control the future direction and management of the Company until the consummation of the Proposed Acquisition.

Item 1B. Unresolved Staff Comments

None.

Item 2. Properties

Operating Facilities

We operate 27 poultry processing plants located in Alabama, Arkansas, Florida, Georgia, Kentucky, Louisiana, North Carolina, South Carolina, Tennessee, Texas, Virginia, and West Virginia. We have one chicken processing plant in Puerto Rico and three chicken processing plants in Mexico.

The US chicken processing plants have weekly capacity to process 37.2 million broilers and operated at 84.1% of capacity in 2009.

Our Mexico facilities have the capacity to process 3.2 million broilers per week and operated at 73.3% of capacity in 2009. Our Puerto Rico processing plant has the capacity to process 0.3 million birds per week based on one eight-hour shift per day.

In the US, the processing plants are supported by 34 hatcheries, 26 feed mills and eight rendering facilities. The hatcheries, feed mills and rendering plants operated at 81.9%, 71.1% and 43.7% of capacity, respectively, in 2009. In Puerto Rico, the processing plant is supported by one hatchery, one feed mill and one rendering facility which operated at 85.4%, 71.6% and 58.8% of capacity, respectively, in 2009. In Mexico, the processing plants are supported by six hatcheries, four feed mills and two rendering facilities. The Mexico hatcheries, feed mills and rendering facilities operated at 93.6%, 75.3% and 68.1% of capacity, respectively, in 2009.

We also operate nine prepared chicken plants. These plants are located in Alabama, Georgia, Louisiana, South Carolina, Tennessee, Texas and West Virginia. These plants have the capacity to produce approximately 1,304.7 million pounds of further processed product per year and in 2009 operated at approximately 80.7% of capacity.

Other Facilities and Information

We own a partially automated distribution freezer located outside of Pittsburg, Texas, which includes 125,000 square feet of storage area. We operate a commercial egg operation and farm store in Pittsburg, Texas, a commercial feed mill in Mt. Pleasant, Texas, and a pork grow-out operation in Jefferson, Georgia. We own office buildings in Pittsburg, Texas, and Atlanta, Georgia, which house our executive offices, our logistics and customer service offices and our general corporate functions; an office building in Mexico City, which houses our Mexican marketing offices; and an office building in Broadway, Virginia, which houses additional sales and marketing, research and development, and support activities. We lease an office building in Querétaro, Mexico, which houses our Mexican administrative functions; an office building in Dallas, Texas, which houses additional sales and marketing and support activities; and buildings in Rockwall, Texas, and Richardson, Texas, which house our computer data centers.

We have five regional distribution centers located in Arizona, Texas, and Utah, two of which we own and three of which we lease.

Most of our domestic property, plant and equipment are pledged as collateral on our long-term debt and credit facilities. See Item 7. "Management's Discussion and Analysis of Financial Condition and Results of Operation."

Item 3. Legal Proceedings

On December 1, 2008, the Debtors filed voluntary petitions for relief under Chapter 11 of the Bankruptcy Code in the Bankruptcy Court. The cases are being jointly administered under Case No. 08-45664. The Debtors continue to operate their business as "debtors-in-possession" under the jurisdiction of the Bankruptcy Court and in accordance with the applicable provisions of the Bankruptcy Code and orders of the Bankruptcy Court. As a result of the Debtors' Chapter 11 filing, virtually all litigation against the Company pending as of the Chapter 11 petition date is stayed as to the Company, and absent further order of the Bankruptcy Court, no party, subject to certain exceptions, may take any action, also subject to certain exceptions, to recover on pre-petition claims against the Debtors. At this time it is not possible to predict the outcome of the Chapter 11 filings or their effect on our business or the actions described below. See Item 1. "Business" regarding the Chapter 11 process, the Proposed Plan and the Proposed Acquisition for additional information concerning the Debtors' bankruptcy proceedings.

On June 1, 2009, approximately 555 former and current independent contract broiler growers, their spouses and poultry farms filed an adversary proceeding against the Company in the Bankruptcy Court styled Shelia Adams, et al. v. Pilgrim's Pride Corporation. In the adversary proceeding, the plaintiffs assert claims against the Company for: (1) violations of Sections 202(a), (b) and (e), 7 U.S.C. § 192 of the Packers and Stockyards Act, 1921 (the "PSA"); (2) intentional infliction of emotional distress; (3) violations of the Texas Deceptive Trade Practices Act ("DTPA"); (4) promissory estoppel; (5) simple fraud; and (6) fraud by non-disclosure. The plaintiffs also filed a motion to withdraw the reference of the adversary proceeding from the Bankruptcy Court to the Marshall Court. The motion was filed with the US District Court for the Northern District of Texas – Fort Worth Division (the "Fort Worth Court"). The Bankruptcy Court recommended the reference be withdrawn, but that the Fort Worth Court retain venue over the action to ensure against forum shopping. The Fort Worth Court granted the motion to withdraw the reference and consolidated this action with the City of Clinton proceeding described below. The Company filed a motion to dismiss the plaintiffs' claims. The Fort Worth Court granted in part and denied in part the Company's motion, dismissing the following claims and ordering the plaintiffs to file a motion to amend their lawsuit and re-plead their claims with further specificity or the claims would be dismissed with prejudice: (1) intentional infliction of emotional distress; (2) promissory estoppel; (3) simple fraud and fraudulent nondisclosure; and (4) DTPA claims with respect to growers from Oklahoma, Arkansas, and Louisiana. The plaintiffs filed a motion for leave to amend on October 7, 2009. The Company intends to file a response to the motion for leave seeking dismissal of the plaintiffs' amended claims. Subsequent to the Fort Worth Court granting in part and denying in part the Company's motion to dismiss, the plaintiffs filed a motion to transfer venue of the proceeding from the Fort Worth Court to the Marshall Court. The Company filed a response to the motion on October 6, 2009. The Company intends to defend vigorously against the merits of the plaintiffs' claims. We express no opinion as to the likelihood of an unfavorable outcome or the amount or range of any possible loss to the Company.

On June 1, 2009, the City of Clinton, Arkansas filed an adversary proceeding against the Company in the Bankruptcy Court. In the proceeding, the City of Clinton alleges that the Company is liable for alleged violations of the PSA, for engaging in fraud and fraudulent nondisclosure, and under the promissory estoppel doctrine relating to the Company's idling of its Clinton poultry processing plant. The City of Clinton alleges that it suffered \$28,567,613.00 in damages relating to its construction of a wastewater facility to purify water discharged from the Company's processing facility based on alleged representations made by Company representatives. The City of Clinton also seeks to recover unspecified exemplary damages, attorneys' fees, pre and post-judgment interest, and costs of court. The City of Clinton also filed a motion to withdraw the reference of the adversary proceeding from the Bankruptcy Court to the Marshall Court. The Bankruptcy Court recommended the reference be withdrawn, but that the Fort Worth Court retain venue over the action to ensure against forum shopping. The Fort Worth Court granted the motion to withdraw the reference and consolidated this action with the Shelia Adams proceeding described above. The Company filed a motion to dismiss the City of Clinton's claims. The Fort Worth Court granted the Company's motion to dismiss and ordered the City of Clinton to file a motion to amend its lawsuit and re-plead its claims with further specificity or the claims would be dismissed with prejudice. The City of Clinton filed a motion for leave to amend on September 30, 2009. The Company intends to file a response to the motion for leave seeking dismissal of the City of Clinton's amended claims. The Company intends to defend vigorously against the merits of the City of Clinton's claims. We express no opinion as to the likelihood of an unfavorable outcome or the amount or range of any possible loss to the Company.

On December 17, 2008, Kenneth Patterson filed suit in the US District Court for the Eastern District of Texas, Marshall Division, against Lonnie "Bo" Pilgrim, Lonnie "Ken" Pilgrim, Clifford E. Butler, J. Clinton Rivers, Richard A. Cogdill, Renee N. DeBar, Pilgrim's Pride Compensation Committee and other unnamed defendants ("the Patterson action"). The complaint, brought pursuant to section 502 of the Employee Retirement Income Security Act of 1974 ("ERISA"), 29 U.S.C. § 1132, alleges that the individual defendants breached fiduciary duties to participants and beneficiaries of the Pilgrim's Pride Stock Investment Plan (the "Plan"), as administered through the Pilgrim's Pride Retirement Savings Plan (the "RSP"), and the To-Ricos, Inc. Employee Savings and Retirement Plan (collectively with the Plan and the RSP, the "Plans"). The allegations in the complaint are similar to the allegations made in the Acaldo case discussed below. Patterson further alleges that he purports to represent a class of all persons or entities who were participants in or beneficiaries of the Plans at any time between May 5, 2008, through the present and whose accounts held the Company's common stock or units in the Company's common stock. The complaint seeks actual damages in the amount of any losses the Plans suffered, to be allocated among the participants' individual accounts as benefits due in proportion to the accounts' diminution in value, attorneys' fees, an order for equitable restitution and the imposition of constructive trust, and a declaration that each of the defendants have breached their fiduciary duties to the Plans' participants. Although the Company is not a named defendant in this action, our bylaws require us to indemnify our current and former directors and officers from any liabilities and expenses incurred by them in connection with actions they took in good faith while serving as an officer or director. The likelihood of an unfavorable outcome or the amount or range of any possible loss to the Company cannot be determined at this time. On January 23, 2009, Patterson filed a motion to consolidate the subsequently filed, similar Smalls case, which is discussed below, into this action. The defendants filed a dispositive motion seeking to dismiss the Patterson complaint on April 16, 2009. Mr. Patterson filed a response brief

in opposition to the motion on May 15, 2009, and the defendants filed a reply in support of their motion on June 1, 2009.

On October 9, 2009, David Simmons, Carla Simmons, Patty L. Funkhouser, and Dickie L. Funkhouser filed a putative class action, styled Simmons et al v. Pilgrim, et al., Action No. 2:09-CV-121 (the "Simmons case"), against Lonnie A. Pilgrim, Lonnie Ken Pilgrim, Clifford Butler, O.B. Goolsby, Richard A. Cogdill, S. Key Coker, Blake D. Lovette, Vance C. Miller, James G. Vetter, Donald L. Wass, Charles L. Black, Linda Chavez, J. Clinton Rivers, Keith W. Hughes, Don Jackson, the Administrative Committee of the Pilgrim's Pride Retirement Savings Plan, Renee DeBar, Jane Brookshire, Gerry Evenwel, the Prudential Retirement Insurance and Annuity Company, and other unnamed defendants in the US District Court for the Northern District of West Virginia, alleging that the fiduciaries breached their duties to the participants and beneficiaries by, among other things, amending the RSP, allowing imprudent investments in the Company's common stock, failing to collect the Company's delinquent employer contributions and failing to file unsecured and priority claims on behalf of the RSP or otherwise protect the rights of RSP participants in the Bankruptcy Court. It is anticipated that plaintiffs will seek certification of a class of all persons or entities who were participants or beneficiaries under the RSP between October 3, 2002 and the present, and will seek a determination that the defendants breached their fiduciary and co-fiduciary duties to the RSP and the participants and beneficiaries, restoration to the RSP and to their participants and beneficiaries of the losses sustained by the RSP, imposition of a constructive trust, attorneys' fees, and further legal, equitable or remedial relief. Although the Company is not a named defendant in this action, our bylaws require us to indemnify our current and former directors and officers from any liabilities and expenses incurred by them in connection with actions they took in good faith while serving as an officer or director. The likelihood of an unfavorable outcome or the amount or range of any possible loss to the Company cannot be determined at this time. The Simmons case has not yet been served on the defendants.

On January 2, 2009, Denise M. Smalls filed suit in the US District Court for the Eastern District of Texas, Marshall Division, against Lonnie "Bo" Pilgrim, Lonnie Ken Pilgrim, Clifford E. Butler, J. Clinton Rivers, Richard A. Cogdill, Renee N. DeBar, Pilgrim's Pride Compensation Committee and other unnamed defendants (the "Smalls action"). The complaint and the allegations are similar to those filed in the Patterson case discussed above. Smalls alleges that she purports to represent a class of all persons or entities who were participants in or beneficiaries of the Plans at any time between May 5, 2008, through the present and whose accounts held the Company's common stock or units in the Company's common stock. The complaint seeks actual damages in the amount of any losses the Plans suffered, to be allocated among the participants' individual accounts as benefits due in proportion to the accounts' diminution in value, attorneys' fees; an order for equitable restitution and the imposition of constructive trust; and a declaration that each of the defendants have breached their fiduciary duties to the Plans' participants. Although the Company is not a named defendant in these actions, our bylaws require us to indemnify our current and former directors and officers from any liabilities and expenses incurred by them in connection with actions they took in good faith while serving as an officer or director. The likelihood of an unfavorable outcome or the amount or range of any possible loss to the Company cannot be determined at this time. On July 9, 2009, the defendants filed a dispositive motion seeking to dismiss the complaint.

On July 20, 2009, the Court entered an order consolidating the Smalls action and the Patterson action and set the consolidated action for a scheduling conference on July 30, 2009. On August 12, 2009, following the Scheduling Conference, the Court ordered that the case will proceed under the caption "In re Pilgrim's Pride Stock Investment Plan ERISA Litigation, No. 2:08-cv-472-TJW." Plaintiffs were granted leave to file an Amended (consolidated) Complaint by or on September 25, 2009. On September 28, 2009, the Court ordered that deadlines in the consolidated action be adjourned until January 15, 2010 to allow the parties to pursue mediation.

Certain of the plaintiffs in the above-referenced ERISA actions have also filed individual and putative class proofs of claims against the Company in Bankruptcy Court relating to essentially the same facts as those underlying the consolidated Patterson and Smalls actions and the Simmons case (the "ERISA POCs"). In the ERISA POCs, the plaintiffs assert claims in excess of \$35.0 million. The likelihood of an unfavorable outcome or the amount or range of any possible loss to the Company cannot be determined at this time.

The Company filed a motion in the Bankruptcy Court to extend the bankruptcy stay to include individual employees and officers named as defendants in cases concerning the Company, including the Patterson case and the Smalls case. The motion was denied without prejudice to the Company commencing an adversary proceeding as to each of these cases in order to seek the relief requested. The Company intends to defend vigorously against the merits of these actions and any attempts by Mr. Patterson, Ms. Smalls, and/or the Simmons plaintiffs to certify a class action.

On October 29, 2008, Ronald Acaldo filed suit in the US District Court for the Eastern District of Texas, Marshall Division, against the Company and individual defendants Lonnie "Bo" Pilgrim, Lonnie Ken Pilgrim, J. Clinton Rivers, Richard A. Cogdill and Clifford E. Butler. The Complaint alleged that the Company and the individual defendants violated sections 10(b) and 20(a) of the Securities Exchange Act of 1934, as amended, and Rule 10b-5 promulgated thereunder, by allegedly failing to disclose that "(a) the Company's hedges to protect it from adverse changes in costs were not working and in fact were harming the Company's results more than helping; (b) the Company's inability to continue to use illegal workers would adversely affect its margins; (c) the Company's financial results were continuing to deteriorate rather than improve, such that the Company's capital structure was threatened; (d) the Company was in a much worse position than its competitors due to its inability to raise prices for consumers sufficient to offset cost increases, whereas its competitors were able to raise prices to offset higher costs affecting the industry; and (e) the Company had not made sufficient changes to its business to succeed in the more difficult industry conditions." Mr. Acaldo further alleged that he purports to represent a class of all persons or entities who acquired the common stock of the Company from May 5, 2008 through September 24, 2008. The Complaint sought unspecified injunctive relief and an unspecified amount of damages.

On November 21, 2008, defendants filed a Motion to Dismiss and Brief in Support Thereof, asserting that plaintiff failed to identify any misleading statements, failed to adequately plead scienter against any defendants, failed to adequately plead loss causation, failed to adequately plead controlling person liability and, as to the omissions that plaintiff alleged defendants did not make, defendants alleged that the omissions were, in fact, disclosed.

On November 13, 2008, Chad Howes filed suit in the US District Court for the Eastern District of Texas, Marshall Division, against the Company and individual defendants Lonnie "Bo" Pilgrim, Lonnie Ken Pilgrim, J. Clinton Rivers, Richard A. Cogdill and Clifford E. Butler. The allegations in the Howes Complaint are identical to those in the Acaldo Complaint, as are the class allegations and relief sought. The defendants were never served with the Howes Complaint.

On May 14, 2009, the Court consolidated the Acaldo and Howes cases and renamed the style of the case, "In re: Pilgrim's Pride Corporation Securities Litigation." On May 21, 2009, the Court granted the Pennsylvania Public Fund Group's Motion for Appointment of Lead Plaintiff. Thereafter, on June 26, 2009, the lead plaintiff filed a Consolidated (and amended) Complaint. The Consolidated Complaint dismissed the Company and Clifford E. Butler as Defendants. In addition, the Consolidated Complaint added the following directors as Defendants: Charles L. Black, S. Key Coker, Blake D. Lovette, Vance C. Miller, James G. Vetter, Jr., Donald L. Wass, Linda Chavez, and Keith W. Hughes. The Consolidated Complaint alleges four causes of action: violations of Sections 10(b) and 20(a) of the Securities and Exchange Act of 1934, as amended, and Rule 10b-5 promulgated thereunder solely against Lonnie "Bo" Pilgrim, Clint Rivers, and Rick Cogdill (referred as the "Officer Defendants"). Those claims assert that, during the Class Period of May 5, 2008 through October 28, 2008, the Defendants, through various financial statements, press releases and conference calls, made material misstatements of fact and/or omitted to disclose material facts by purportedly failing to completely impair the goodwill associated with the Gold Kist acquisition. The Consolidated Complaint also asserts claims under Section 11 of the Securities Act of 1933 against all Defendants, asserting that, statements made in a Registration Statement in connection with the May 14, 2008 secondary offering of the Company's common stock were materially false and misleading for their failure to completely impair the goodwill associated with the Gold Kist acquisition. Finally, the Consolidated Complaint asserts a violation of Section 15 of the Securities Act of 1933 against the Officer Defendants only, claiming that the Officer Defendants were controlling persons of the Company and the other Defendants in connection with the Section 11 violation. By the Consolidated Complaint, the lead plaintiff seeks certification of the Class, undisclosed damages, and costs and attorneys' fees.

On July 27, 2009, Defendants filed a Motion to Dismiss the Consolidated Complaint for its failure to adequately plead, as to the Sections 10(b) and 20(a) claims, scienter and loss causation and, as to the Sections 11 and 15 claims, for its failure to adequately plead misrepresentations and omissions. Defendants requested that the Consolidated Complaint be dismissed with prejudice. The Plaintiffs filed an Opposition to the Motion to Dismiss on August 27, 2009. Defendants filed a Reply Brief on September 10, 2009, and Plaintiffs filed a Sur-Reply on September 24, 2009. The Court has not yet ruled on the Motion to Dismiss.

No discovery has commenced in the consolidated case, and the case has not been set for trial. We express no opinion as to the likelihood of an unfavorable outcome or the amount or range of any possible loss to the Company by virtue of the consolidated case. We understand that the Individual Defendants intend to defend vigorously against the merits of the action and any attempts by the Lead Plaintiff to certify a class action.

On September 10, 2008, a lawsuit styled "Ricky Arnold, et al. v. Pilgrim's Pride Corp., et al." was filed against the Company and two Company representatives. In this lawsuit, filed in the Circuit Court of Van Buren County, Arkansas, nearly 100 contract poultry growers and their spouses assert claims of fraud and deceit, constructive fraud, fraud in the inducement, promissory estoppel, and violations of the Arkansas Livestock and Poultry Contract Protection Act relating to the Company's idling of its Clinton, Arkansas processing plant. The total amount of damages sought by the contract poultry growers is unknown at this time. The Company filed a Notice of Suggestion of Bankruptcy. The Court has not issued an order in response to it. The Company intends to vigorously defend against the plaintiffs' claims. The Company filed a motion in the Bankruptcy Court to extend the bankruptcy stay to include individual employees named as defendants in cases concerning the Company, including this lawsuit. The motion was denied without prejudice to the Company commencing an adversary proceeding as to this case in order to seek the relief requested in the motion. We express no opinion as to the likelihood of an unfavorable outcome or the amount or range of any possible loss to the Company.

The Wage and Hour Division of the US Department of Labor conducted an industry-wide investigation to ascertain compliance with various wage and hour issues, including the compensation of employees for the time spent on activities such as donning and doffing clothing and personal protective equipment. Due, in part, to the government investigation and the recent US Supreme Court decision in *IBP, Inc. v. Alvarez*, employees have brought claims against the Company. The claims filed against the Company as of the date of this report include: "Juan Garcia, et al. v. Pilgrim's Pride Corporation, a/k/a Wampler Foods, Inc.", filed in Pennsylvania state court on January 27, 2006, and subsequently removed to the US District Court for the Eastern District of Pennsylvania; "Esperanza Moya, et al. v. Pilgrim's Pride Corporation and Maxi Staff, LLC", filed March 23, 2006, in the Eastern District of Pennsylvania; "Barry Antee, et al. v. Pilgrim's Pride Corporation" filed April 20, 2006, in the Eastern District of Texas; "Stephania Aaron, et al. v. Pilgrim's Pride Corporation" filed August 22, 2006, in the Western District of Arkansas; "Salvador Aguilar, et al. v. Pilgrim's Pride Corporation" filed August 23, 2006, in the Northern District of Alabama; "Benford v. Pilgrim's Pride Corporation" filed November 2, 2006, in the Northern District of Alabama; "Porter v. Pilgrim's Pride Corporation" filed December 7, 2006, in the Eastern District of Tennessee; "Freida Brown, et al v. Pilgrim's Pride Corporation" filed March 14, 2007, in the Middle District of Georgia, Athens Division; "Roy Menser, et al v. Pilgrim's Pride Corporation" filed February 28, 2007, in the Western District of Paducah, Kentucky; "Victor Manuel Hernandez v. Pilgrim's Pride Corporation" filed January 30, 2007, in the Northern District of Georgia, Rome Division; "Angela Allen et al v. Pilgrim's Pride Corporation" filed March 27, 2007, in United States District Court, Middle District of Georgia, Athens Division; Daisy Hammond and Felicia Pope v. Pilgrim's Pride Corporation, in the Gainesville Division, Northern District of Georgia, filed on June 6, 2007; Gary Price v. Pilgrim's Pride Corporation, in the US District Court for the Northern District of Georgia, Atlanta Division, filed on May 21, 2007; Kristin Roebuck et al v. Pilgrim's Pride Corporation, in the US District Court, Athens, Georgia, Middle District, filed on May 23, 2007; and Elaine Chao v. Pilgrim's Pride Corporation, in the US District Court, Dallas, Texas, Northern District, filed on August 6, 2007. The plaintiffs generally purport to bring a collective action for unpaid wages, unpaid overtime wages, liquidated damages, costs, attorneys' fees, and declaratory and/or injunctive relief and generally allege that they are not paid for the time it takes to either clear security, walk to their respective workstations, don and doff protective clothing, and/or sanitize clothing and equipment. The presiding judge in the consolidated action in El Dorado issued an initial Case Management order on July 9, 2007. Plaintiffs' counsel filed a Consolidated

Amended Complaint and the parties filed a Joint Rule 26(f) Report. On March 13, 2008, the Court issued an opinion and order finding that plaintiffs and potential class members are similarly situated and conditionally certifying the class for a collective action. The opt-in period is now closed. Approximately 13,700 plaintiffs have opted into the class.

Plaintiffs recently moved the court for leave to amend the consolidated complaint to add certain Company officers. The Company filed a Notice of Suggestion of Bankruptcy before any response to that motion was filed. The court has not yet ruled on the plaintiffs' motion. Likewise, the court has not issued an order in response to the Company's notice. The Company recently filed a motion in the Bankruptcy Court to extend the bankruptcy stay to include individual employees and officers named as defendants in cases concerning the Company, including this lawsuit. The motion was denied without prejudice to the Company, commencing an adversary proceeding as to this case in order to seek the relief requested in the motion.

On June 1, 2009, the plaintiffs filed a master proof of claim in the Bankruptcy Court. On June 30, 2009, the Bankruptcy Court issued an order granting limited relief from the automatic stay to allow limited discovery. Pursuant to that order, the parties conducted limited discovery at five sample plants. Also, the Company has filed a motion requesting that the claims in this matter be estimated for purposes of allowance and distribution. The Court granted that motion, and this matter is presently set for an estimation hearing on December 7, 2009. Additionally, the DOL and the Company recently filed an agreed request that the DOL action be remanded to the Northern District of Texas, where it was originally filed. The plaintiffs have objected to this request and the Court has yet to rule on it. The Company believes that it has meritorious defenses to the consolidated lawsuit and intends to assert a vigorous defense to the litigation. Recently, the parties entered into active settlement negotiations with the plaintiffs in the Department of Labor action and the consolidated action in El Dorado, Arkansas. We express no opinion as to the likelihood of an unfavorable outcome or the amount or range of any possible loss to the Company.

As of the date of this report, the following suits have been filed against Gold Kist, now merged into Pilgrim's Pride Corporation, which make one or more of the allegations referenced above: Merrell v. Gold Kist, Inc., in the US District Court for the Northern District of Georgia, Gainesville Division, filed on December 21, 2006; Harris v. Gold Kist, Inc., in the US District Court for the Northern District of Georgia, Newnan Division, filed on December 21, 2006; Blanke v. Gold Kist, Inc., in the US District Court for the Southern District of Georgia, Waycross Division, filed on December 21, 2006; Clarke v. Gold Kist, Inc., in the US District Court for the Middle District of Georgia, Athens Division, filed on December 21, 2006; Atchison v. Gold Kist, Inc., in the US District Court for the Northern District of Alabama, Middle Division, filed on October 3, 2006; Carlisle v. Gold Kist, Inc., in the US District Court for the Northern District of Alabama, Middle Division, filed on October 2, 2006; Benbow v. Gold Kist, Inc., in the US District Court for the District of South Carolina, Columbia Division, filed on October 2, 2006; Bonds v. Gold Kist, Inc., in the US District Court for the Northern District of Alabama, Northwestern Division, filed on October 2, 2006. On April 23, 2007, Pilgrim's filed a Motion to Transfer and Consolidate with the Judicial Panel on Multidistrict Litigation ("JPML") requesting that all of the pending Gold Kist cases be consolidated into one case. Pilgrim's Pride withdrew its Motion subject to the Plaintiffs' counsel's agreement to consolidate the seven separate actions into the pending Benbow case by dismissing those lawsuits and refile/consolidating them into the Benbow action. Motions to Dismiss have been filed in all of

the pending seven cases, and all of these cases have been formally dismissed. Pursuant to an agreement between the parties, which was approved by Court-order on June 6, 2007, these cases have been consolidated with the Benbow case. On that date, Plaintiffs were authorized to send notice to individuals regarding the pending lawsuits and were instructed that individuals had three months to file consents to opting in as plaintiffs in the consolidated cases. The opt-in period is now closed. To date, there are approximately 3,200 named plaintiffs and opt-in plaintiffs in the consolidated cases. The parties have engaged in limited discovery.

In response to a Notice of Suggestion of Bankruptcy, the Bankruptcy Court issued an order formally staying the case. On May 28, 2009, the plaintiffs filed a master proof of claim in the Bankruptcy Court. On June 30, 2009, the Bankruptcy Court issued an order granting limited relief from the automatic stay to allow limited discovery. Pursuant to that order, the parties are currently working on a proposed stipulation to govern such discovery. Also, the Company has filed a motion requesting that the claims in this matter be estimated for purposes of allowance and distribution. The Bankruptcy Court has not ruled on that motion yet. Additionally, on May 26, 2009, additional plaintiffs filed an adversary proceeding in the Bankruptcy Court commencing an action under the FLSA, Adversary Proceeding No. 09-4219 (the "Atkinson Action"). On May 28, 2009, approximately 17 individuals filed proofs of claim in the Atkinson Action. The FLSA allegations in the Atkinson Action are similar to those asserted in the MDL and Benbow cases and the plants involved in the Atkinson Action are also involved in the Benbow case. The Company has filed a motion requesting that the claims in this matter be estimated for purposes of allowance and distribution, which the Bankruptcy Court granted. The Company intends to assert a vigorous defense to the litigation. The parties recently executed a settlement agreement and mutual release of the Benbow case and the Atkinson Action in exchange for a settlement payment of \$1.75 million to the plaintiffs. On November 17, 2009, the Company filed a motion with the Bankruptcy Court for authorization to enter into and approval of the settlement agreement reached in the Benbow case and the Atkinson Action. The Bankruptcy Court has not yet ruled on the motion for authorization and approval.

We are subject to various other legal proceedings and claims, which arise in the ordinary course of our business. In the opinion of management, the amount of ultimate liability with respect to these actions will not materially affect our financial condition, results of operations or cash flows.

Item 4. Submission of Matters to a Vote of Security Holders

None.

PART II

Item 5. Market for the Registrant's Common Equity, Related Stockholder Matters and Issuer Purchases of Equity Securities

Market Information

During the period covered by this report, the Company's common stock was traded on the New York Stock Exchange ("NYSE") under the ticker symbol "PPC." Effective December 1, 2008, the NYSE delisted our common stock as a result of the Company's filing of its Chapter 11 petition. Our common stock is now quoted on the Pink Sheets Electronic Quotation Service under the ticker symbol "PGPDQ.PK." The Company has applied with the NYSE to list its common stock upon its exit from bankruptcy under its prior ticker symbol "PPC."

High and low prices of the Company's common stock for 2009 and 2008 are as follows. Dividends relating to the Company's common stock for 2008 are as follows. The Company did not pay dividends in 2009.

Quarter	2009 Prices		2008 Prices		2008 Dividends
	High	Low	High	Low	
First	\$ 4.98	\$ 0.14	\$ 35.98	\$ 22.52	\$ 0.0225
Second	\$ 2.99	\$ 0.46	\$ 28.96	\$ 20.38	\$ 0.0225
Third	\$ 6.70	\$ 1.40	\$ 27.15	\$ 12.90	\$ 0.0225
Fourth	\$ 7.90	\$ 3.67	\$ 18.16	\$ 3.26	\$ 0.0225

Holdings

The Company estimates there were approximately 21,885 holders (including individual participants in security position listings) of the Company's common stock as of November 20, 2009.

Dividends

Under the terms of the DIP Credit Agreement and applicable bankruptcy law, the Company may not pay dividends on the common stock while it is in bankruptcy. The Company and JBS USA will enter into a stockholders agreement (the "Stockholders Agreement") at the closing of the Proposed Acquisition. The Stockholders Agreement will, among other things, prohibit Reorganized PPC from declaring dividends other than on a pro rata basis until the completion of the Mandatory Exchange Transaction. The Exit Credit Facility will also prohibit us from paying dividends on the common stock of Reorganized PPC.

Issuer Purchases of Equity Security in 2009

The Company did not repurchase any of its equity securities in 2009.

Total Return on Registrant's Common Equity

The following graph compares the performance of the Company with that of the Russell 2000 composite index and a peer group of companies for the five years ended September 26, 2009, with the investment weighted on market capitalization. The total cumulative return on investment (change in the year-end stock price plus reinvested dividends) for each of the periods for the Company, the Russell 2000 composite index and the peer group is based on the stock price or composite index at the beginning of the applicable period. Companies in the peer group index include Cagle's, Inc., Sanderson Farms Inc., Hormel Foods Corp., Smithfield Foods Inc. and Tyson Foods Inc.

The graph covers the five years ended September 26, 2009, and reflects the performance of the Company's single class of common stock. The stock price performance represented by this graph is not necessarily indicative of future stock performance.

- (a) In March 2008, the Company sold certain assets of its turkey business. We are reporting our operations with respect to this business as a discontinued operation for all periods presented.
- (b) The Company acquired Gold Kist Inc. on December 27, 2006, for \$1.139 billion. For financial reporting purposes, we have not included the operating results and cash flows of Gold Kist in our consolidated financial statements for the period from December 27, 2006, through December 30, 2006. The operating results and cash flows of Gold Kist from December 27, 2006, through December 30, 2006,, were not material.
- (c) The Company acquired the ConAgra Chicken division on November 23, 2003, for \$635.2 million including the non-cash value of common stock issued of \$357.5 million. The acquisition has been accounted for as a purchase and the results of operations for this acquisition have been included in our consolidated results of operations since the acquisition date.
- (d) The Company acquired WLR Foods on January 27, 2001, for \$239.5 million and the assumption of \$45.5 million of indebtedness. The acquisition has been accounted for as a purchase and the results of operations for this acquisition have been included in our consolidated results of operations since the acquisition date.
- (e) Gross profit, operating income and net income include the following non-recurring recoveries, restructuring charges and other unusual items for each of the years presented:

	<u>2009</u>	<u>2008</u>	<u>2005</u>	<u>2004</u>	<u>2003</u>
Effect on gross profit and operating income:	(In millions)				
Asset impairment and operational restructuring charges	\$ (12.5)	\$ (28.0)	\$ —	\$ —	\$ —
Non-recurring recoveries for recall insurance	\$ —	\$ —	\$ —	\$ 23.8	\$ —
Non-recurring recoveries for avian influenza	\$ —	\$ —	\$ —	\$ —	\$ 26.6
Non-recurring recoveries for vitamin and methionine litigation	\$ —	\$ —	\$ —	\$ 0.1	\$ 19.9
Additional effect on operating income:					
Goodwill impairment	\$ —	\$ (501.4)	\$ —	\$ —	\$ —
Administrative restructuring charges	\$ (2.0)	\$ (16.2)	\$ —	\$ —	\$ —
Other income for litigation settlement	\$ —	\$ —	\$ 11.7	\$ —	\$ —
Other income for vitamin and methionine litigation	\$ —	\$ —	\$ —	\$ 0.9	\$ 36.0

In addition, the Company estimates its losses related to the October 2002 recall (excluding insurance recoveries) and the 2002 avian influenza outbreak negatively affected gross profit and operating income in each of the years presented as follows (in millions):

	<u>2004</u>	<u>2003</u>	<u>2002</u>
Recall effects (estimated)	\$ (20.0)	\$ (65.0)	\$ —
Losses from avian influenza (estimated)	\$ —	\$ (7.3)	\$ (25.6)

- (f) Income tax benefit in 2009 resulted primarily from a decrease in reserves for unrecognized tax benefits. Income tax benefit in 2008 resulted primarily from significant net operating losses incurred in 2008. The increase in tax expense in 2007 over 2006 resulted primarily from increased pretax earnings in 2007. The decrease in tax expense in 2006 from 2005 resulted primarily from a pretax loss in 2006 versus significant earnings in 2005. While the tax expense for 2005 increased over 2004, the effective tax rate for 2005 decreased from 2004. This decrease was primarily due to an increase in net income before tax in our Mexico operations, which are taxed at a lower rate than our US operations. Tax expense increased in 2004 over 2003 primarily as a result of increased pretax earnings in 2004. Tax expense increased in 2003 over fiscal 2002 primarily as a result of increased pretax earnings in 2003. This increase was offset by a benefit resulting from the reduction in a valuation allowance for net operating loss carry forwards for Mexican tax purposes. An income tax benefit for 2002 resulted from a tax benefit of \$11.9 million due to Mexican tax law changes in 2002.
- (g) For purposes of computing the ratio of earnings to fixed charges, earnings consist of income before income taxes plus fixed charges (excluding capitalized interest). Fixed charges consist of interest (including capitalized interest) on all indebtedness, amortization of capitalized financing costs and that portion of rental expense that we believe to be representative of interest. Earnings were inadequate to cover fixed charges by \$176.4 million, \$1,192.4 million and \$30.9 million in 2009, 2008 and 2006, respectively.

- (h) We experienced a working capital deficit in 2008. Upon the filing of the Chapter 11 petitions, certain of our debt obligations became automatically and immediately due and payable, subject to an automatic stay of any action to collect, assert, or recover a claim against the Company and the application of applicable bankruptcy law. As a result, the accompanying Consolidated Balance Sheet as of September 27, 2008, included reclassifications of \$1,872.1 million to reflect as current certain long-term debt under the Company's credit facilities that was accelerated.
- (i) The Company had current maturities of pre-petition long-term debt totaling \$4.2 million and pre-petition long-term debt totaling \$1,999.8 million at September 26, 2009, that were included in *Liabilities subject to compromise*.
- (j) Includes amortization of capitalized financing costs of approximately \$6.8 million, \$4.9 million, \$6.6 million, \$2.6 million, \$2.3 million, \$2.0 million, \$1.5 million, \$1.4 million, \$1.9 million, \$1.2 million, and \$1.1 million in 2009, 2008, 2007, 2006, 2005, 2004, 2003, 2002, 2001, 2000, and 1999, respectively.
- (k) "EBITDA" is defined as the sum of income (loss) from continuing operations plus interest, taxes, depreciation and amortization. Adjusted EBITDA excludes goodwill impairment in 2008, restructuring charges in 2009, 2008 and 2006, reorganization items in 2009 and losses on early extinguishment of debt in 2007 and 2001. EBITDA is presented because it is used by us and we believe it is frequently used by securities analysts, investors and other interested parties, in addition to and not in lieu of results prepared in conformity with accounting principles generally accepted in the US ("GAAP"), to compare the performance of companies. We believe investors would be interested in our Adjusted EBITDA because this is how our management analyzes EBITDA from continuing operations. The Company also believes that Adjusted EBITDA, in combination with the Company's financial results calculated in accordance with GAAP, provides investors with additional perspective regarding the impact of certain significant items on EBITDA and facilitates a more direct comparison of its performance with its competitors. EBITDA and Adjusted EBITDA are not measurements of financial performance under GAAP. They should not be considered as an alternative to cash flow from operating activities or as a measure of liquidity or an alternative to net income as indicators of our operating performance or any other measures of performance derived in accordance with GAAP.

A reconciliation of income (loss) from continuing operations to EBITDA and Adjusted EBITDA is as follows:

	<u>2009</u>	<u>2008</u>	<u>2007</u>	<u>2006</u>	<u>2005</u>

Item 7. Management's Discussion and Analysis of Financial Condition and Results of Operations

Description of the Company

Pilgrim's Pride Corporation is one the largest chicken companies in the US, Mexico and Puerto Rico. Our fresh chicken retail line is sold in the southeastern, central, southwestern and western regions of the US, throughout Puerto Rico, and in the northern and central regions of Mexico. Our prepared chicken products meet the needs of some of the largest customers in the food service industry across the US. Additionally, the Company exports commodity chicken products to approximately 90 countries. As a vertically integrated company, we control every phase of the production of our products. We operate feed mills, hatcheries, processing plants and distribution centers in 14 US states, Puerto Rico and Mexico. Pilgrim's Pride operates in two business segments—Chicken and Other Products.

Our fresh chicken products consist of refrigerated (non-frozen) whole or cut-up chicken, either pre-marinated or non-marinated, and pre-packaged chicken in various combinations of freshly refrigerated, whole chickens and chicken parts. Our prepared chicken products include portion-controlled breast fillets, tenderloins and strips, delicatessen products, salads, formed nuggets and patties and bone-in chicken parts. These products are sold either refrigerated or frozen and may be fully cooked, partially cooked or raw. In addition, these products are breaded or non-breaded and either pre-marinated or non-marinated.

Executive Summary

The Company reported a net loss of \$151.6 million, or \$2.05 per common share, for 2009, which included gross profit of \$370.4 million. As of September 26, 2009, the Company's accumulated deficit totaled \$469.4 million. During 2009, the Company provided \$75.0 million of cash from operations. At September 26, 2009, we had cash and cash equivalents totaling \$220.0 million. In addition, the Company incurred reorganization costs of \$87.3 million in 2009. These costs included (i) severance and other costs related to post-petition facility closures and reduction-in-force ("RIF") actions, (ii) financing fees associated with the Amended and Restated Post-Petition Credit Agreement dated December 31, 2008, as amended (the "DIP Credit Agreement"), among the Company, as borrower, certain of the subsidiaries of the Company, as guarantors, Bank of Montreal, as agent (the "DIP Agent"), and the lenders party thereto, (iii) professional fees charged for post-petition reorganization services and (iv) a loss recognized on the sale of the Company's interest in a hog farming joint venture, (v) asset impairment costs related to a closed processing complex in Dalton, Georgia, and (vi) fees related to the termination of the Company's Amended and Restated Receivables Purchase Agreement dated September 26, 2008, as amended (the "RPA"). These costs were partially offset by a gain recognized on the sale of the Company's closed processing complex in Farmerville, Louisiana and a gain recognized on the sale of undeveloped land in Camp County, Texas.

Market prices for feed ingredients decreased in the first nine months of 2009 after reaching unprecedented levels in the last half of 2008. Market prices for feed ingredients remain volatile, however, and there can be no assurance that they will not increase materially.

The following table compares the highest and lowest prices reached on nearby futures for one bushel of corn and one ton of soybean meal during the current year and previous four years:

	Corn		Soybean Meal	
	Highest Price	Lowest Price	Highest Price	Lowest Price
2009:				
Fourth Quarter	\$ 3.83	\$ 3.00	\$ 424.00	\$ 276.00
Third Quarter	4.50	3.40	433.40	278.00
Second Quarter	4.28	3.38	326.00	264.80
First Quarter	5.24	2.90	302.00	237.00
2008:				
Fourth Quarter	7.50	4.86	455.50	312.00
Third Quarter	7.63	5.58	427.90	302.50
Second Quarter	5.70	4.49	384.50	302.00
First Quarter	4.57	3.35	341.50	254.10
2007	4.37	2.62	286.50	160.20
2006	2.68	1.86	204.50	155.80
2005	2.63	1.91	238.00	146.60

Market prices for chicken products have stabilized since the end of 2008 but remain below levels sufficient to offset the generally higher costs of feed ingredients. Many producers within the industry, including Pilgrim's Pride, cut production in 2008 and 2009 in an effort to correct the general oversupply of chicken in the US. Despite these production cuts, there can be no assurance that chicken prices will not decrease due to such factors as weakening demand for breast meat from food service providers and lower prices for chicken leg quarters in the export market as a result of weakness in world economies and restrictive credit markets.

In 2008 and 2009, the Company completed the following restructuring activities:

- Closed processing facilities or complexes in Dalton, Georgia; Douglas, Georgia; El Dorado, Arkansas; Franconia, Pennsylvania; Clinton, Arkansas; Bossier City, Louisiana, and Siler City, North Carolina,
- Sold a closed processing complex in Farmerville, Louisiana,
- Announced the October 2009 closures of processing facilities in Athens, Alabama, and Athens, Georgia,
- Sold closed distribution centers in Cincinnati, Ohio; Plant City, Florida; El Paso, Texas, and Pompano Beach, Florida,
- Closed distribution centers in Houston, Texas; Oskaloosa, Iowa; Jackson, Mississippi, and Nashville, Tennessee,
- Reduced its workforce by approximately 440 non-production positions, including the resignations of the former Chief Executive Officer and former Chief Operating Officer,
- Closed an administrative office building in Duluth, Georgia, in June 2008, and
- Reduced or consolidated production at various other facilities throughout the US.

Significant actions that occurred from the second quarter of 2009 through the fourth quarter of 2009 were approved by the Bankruptcy Court, when required under the Bankruptcy Code, as part of the Company's reorganization efforts. Significant actions that occurred from the second quarter of 2008 through the first quarter of 2009 were approved by the Company's Board of Directors as part of a plan intended to curtail losses amid record-high costs for corn, soybean meal and other feed ingredients and an oversupply of chicken in the US. These actions began in March 2008 and were completed in June 2009. These restructuring activities eliminated 10,500 positions.

Results of operations for 2009 and 2008 included restructuring charges totaling \$30.5 million and \$16.2 million, respectively, related to these actions. All of these restructuring charges, with the exception of certain lease continuation costs, have resulted in cash expenditures or will result in cash expenditures within one year. Results of operations for 2009 also included adjustments totaling \$9.2 million that reduced the accrued costs. These adjustments included the elimination of accrued severance costs in excess of actual severance costs incurred during 2009, the assumption of the Duluth, Georgia, lease obligation by an outside party during the second quarter of 2009, the elimination of accrued other restructuring costs in excess of actual other restructuring costs incurred for several of the 2008 restructuring actions during the second quarter of 2009 and the elimination of accrued other restructuring costs in excess of actual other restructuring costs incurred for the Douglas, Georgia, reorganization action during the third quarter of 2009.

The following table sets forth restructuring activity that occurred during 2008 and 2009:

	<u>Accrued Lease Obligation</u>	<u>Accrued Severance and Employee Retention</u>	<u>Accrued Other Restructuring Costs</u>	<u>Restructuring Inventory Reserves</u>	<u>Total</u>
	(In thousands)				
September 29, 2007	\$ —	\$ —	\$ —	\$ —	\$ —

Adjustments	—	—	—	(3)	(3)
September 27, 2008	4,466	2,694	5,651	1,212	14,023
Accruals	—	17,830	7,667	5,029	30,526
Payment / Disposal	(622)	(12,876)	(2,753)	(4,775)	(21,026)
Adjustments	(2,202)	(4,305)	(2,454)	(212)	(9,173)
September 26, 2009	<u>\$ 1,642</u>	<u>\$ 3,343</u>	<u>\$ 8,111</u>	<u>\$ 1,254</u>	<u>\$ 14,350</u>

Costs incurred in the second, third and fourth quarters of 2009 were primarily classified as reorganization items. Consistent with the Company's previous practice and because management believes costs incurred in 2008 and the first quarter of 2009 were related to ceasing production at previously announced facilities and not directly related to the Company's ongoing production, they are classified as a component of operating income (loss) below gross profit.

The Company recognized impairment charges totaling \$5.4 million in 2009 to reduce the carrying amounts of certain property, plant and equipment located at a facility closed in 2009 to their estimated fair values. These costs were classified as reorganization items. The Company recognized impairment charges totaling \$13.1 million in 2008 to reduce the carrying amounts of certain property, plant, equipment and other assets located at or related to facilities closed in 2008 to their estimated fair values. Consistent with our previous practice and because management believes the realization of the carrying amounts of the affected assets was directly related to the Company's production activities, the charges were reported as a component of gross profit (loss).

We will continue to review and evaluate various restructuring and other alternatives to streamline our operations, improve efficiencies and reduce costs. Such initiatives may include selling assets, idling facilities, consolidating operations and functions, relocating or reducing production and voluntary and involuntary employee separation programs. Any such actions may require us to obtain the pre-approval of our lenders under our DIP Credit Agreement and the Bankruptcy Court. In addition, such actions will subject the Company to additional short-term costs, which may include facility shutdown costs, asset impairment charges, lease commitment costs, employee retention and severance costs and other closing costs. Certain of these restructuring activities will result in reduced capacities and sales volumes and may have a disproportionate impact on our income relative to the cost savings.

Chapter 11 Bankruptcy Filings

On December 1, 2008 (the "Petition Date"), Pilgrim's Pride Corporation and six of its subsidiaries (collectively, the "Debtors") filed voluntary petitions for relief under Chapter 11 of Title 11 of the United States Code (the "Bankruptcy Code") in the United States Bankruptcy Court for the Northern District of Texas, Fort Worth Division (the "Bankruptcy Court"). The cases are being jointly administered under Case No. 08-45664. The Company's subsidiaries in Mexico and certain subsidiaries in the United States ("US") were not included in the filing (the "Non-filing Subsidiaries") and continue to operate outside of the Chapter 11 process.

Subject to certain exceptions under the Bankruptcy Code, the Debtors' Chapter 11 filing automatically enjoined, or stayed, the continuation of any judicial or administrative proceedings or other actions against the Debtors or their property to recover on, collect or secure a claim arising prior to the Petition Date. Accordingly, most creditor actions to obtain possession of property from the Debtors, or to create, perfect or enforce any lien against the property of the Debtors, or to collect on monies owed or otherwise exercise rights or remedies with respect to a pre-petition claim are enjoined unless and until the Bankruptcy Court lifts the automatic stay.

Upon the filing of the Chapter 11 petitions, certain of our debt obligations became automatically and immediately due and payable, subject to an automatic stay of any action to collect, assert, or recover a claim against the Company and the application of applicable bankruptcy law. As a result, the accompanying Consolidated Balance Sheet as of September 27, 2008, included reclassifications of \$1,872.1 million to reflect as current certain long-term debt under the Company's credit facilities that was accelerated. Because of the bankruptcy petition, most of the Company's pre-petition long-term debt is included in *Liabilities subject to compromise* at September 26, 2009. The Company classifies pre-petition liabilities subject to compromise as a long-term liability because management does not believe the Company will use existing current assets or create additional current liabilities to fund these obligations.

Effective December 1, 2008, the NYSE delisted our common stock as a result of the Company's filing of its Chapter 11 petition. Our common stock is now quoted on the Pink Sheets Electronic Quotation Service under the ticker symbol "PGPDQ.PK." The Company has applied with the NYSE to list its common stock upon its exit from bankruptcy under its prior ticker symbol "PPC."

On February 11, 2009, the Bankruptcy Court issued an order granting the Company's motion to impose certain restrictions on trading in shares of the Company's common stock in order to preserve valuable tax attributes. This order established notification procedures and certain restrictions on transfers of common stock or options to purchase the common stock of the Company. The trading restrictions apply retroactively to January 17, 2009, the date the motion was filed, to investors beneficially owning at least 4.75% of the outstanding shares of common stock of the Company. For these purposes, beneficial ownership of stock is determined in accordance with special US tax rules that, among other things, apply constructive ownership concepts and treat holders acting together as a single holder. In addition, in the future, the Company may request that the Bankruptcy Court impose certain trading restrictions on certain debt of, and claims against, the Company.

Chapter 11 Process

The Debtors are currently operating as "debtors-in-possession" under the jurisdiction of the Bankruptcy Court and in accordance with the applicable provisions of the Bankruptcy Code and orders of the Bankruptcy Court. In general, as debtors-in-possession, we are authorized under Chapter 11 to continue to operate as an ongoing business, but may not engage in transactions outside the ordinary course of business without the prior approval of the Bankruptcy Court.

On December 2, 2008, the Bankruptcy Court granted interim approval authorizing the Company and certain of its subsidiaries consisting of PPC Transportation Company, PFS Distribution Company, PPC Marketing, Ltd., and Pilgrim's Pride Corporation of West Virginia, Inc. (collectively, the "US Subsidiaries"), and To-Ricos, Ltd. and To-Ricos Distribution, Ltd. (collectively with the US Subsidiaries, the "Subsidiaries") to enter into a Post-Petition Credit Agreement (the "Initial DIP Credit Agreement") among the Company, as borrower, the US Subsidiaries, as guarantors, Bank of Montreal, as agent (the "DIP Agent"), and the lenders party thereto. On December 2, 2008, the Company, the US Subsidiaries and the other parties entered into the Initial DIP Credit Agreement, subject to final approval of the Bankruptcy Court. On December 30, 2008, the Bankruptcy Court granted final approval authorizing the Company and the Subsidiaries to enter into an Amended and Restated Post-Petition Credit Agreement dated December 31, 2008, as amended (the "DIP Credit Agreement"), among the Company, as borrower, the Subsidiaries, as guarantors, the DIP Agent, and the lenders party thereto.

The DIP Credit Agreement currently provides for an aggregate commitment of up to \$350 million, which permits borrowings on a revolving basis. The commitment includes a \$25 million sub-limit for swingline loans and a \$20 million sub-limit for letters of credit. Outstanding borrowings under the DIP Credit Agreement bear interest at a per annum rate equal to 8.0% plus the greatest of (i) the prime rate as established by the DIP Agent from time to time, (ii) the average federal funds rate plus 0.5%, or (iii) the LIBOR rate plus 1.0%, payable monthly. The weighted average interest rate for 2009 was 11.25%. The loans under the Initial DIP Credit Agreement were used to repurchase all receivables sold under the Company's Amended and Restated Receivables Purchase Agreement dated September 26, 2008, as amended (the "RPA"). Loans under the DIP Credit Agreement were also used to fund the working capital requirements of the Company and its subsidiaries according to a budget as approved by the required lenders under the DIP Credit Agreement. For additional information on the RPA, see Item 7. "Management's Discussion and Analysis of Financial Condition and Results of Operations—Liquidity and Capital Resources."

Actual borrowings by the Company under the DIP Credit Agreement are subject to a borrowing base, which is a formula based on certain eligible inventory and eligible receivables. The borrowing base formula is reduced by (i) pre-petition obligations under the Fourth Amended and Restated Secured Credit Agreement dated as of February 8, 2007, among the Company and certain of its subsidiaries, Bank of Montreal, as administrative agent, and the lenders parties thereto, as amended (the "Pre-Petition BMO Facility"), (ii) administrative and professional expenses incurred in connection with the bankruptcy proceedings and (iii) the amount owed by the Company and the Subsidiaries to any person on account of the purchase price of agricultural products or services (including poultry and livestock) if that person is entitled to any grower's or producer's lien or other security arrangement. The borrowing base is also limited to 2.22 times the formula amount of total eligible receivables. The DIP Credit Agreement provides that the Company may not incur capital expenditures in excess of \$150 million. The Company must also meet minimum monthly levels of EBITDAR. Under the DIP Credit Agreement, "EBITDAR" means, generally, net income before interest, taxes, depreciation, amortization, writedowns of goodwill and other intangibles, asset impairment charges, certain restructuring and closure costs and other specified costs, charges, losses and gains. The DIP Credit Agreement also provides for certain other covenants, various representations and warranties, and events of default that are customary for transactions of this nature. As of September 26, 2009, the applicable borrowing

base and the amount available for borrowings under the DIP Credit Agreement were both \$329.2 million as there were no outstanding borrowings under the Credit Agreement.

The principal amount of outstanding loans under the DIP Credit Agreement, together with accrued and unpaid interest thereon, are payable in full at maturity on December 1, 2009, subject to extension for an additional six months with the approval of all lenders thereunder. The Company has requested a two-month extension. All obligations under the DIP Credit Agreement are unconditionally guaranteed by the Subsidiaries and are secured by a first priority priming lien on substantially all of the assets of the Company and the Subsidiaries, subject to specified permitted liens in the DIP Credit Agreement.

Under the terms of the DIP Credit Agreement and applicable bankruptcy law, the Company may not pay dividends on the common stock while it is in bankruptcy. The DIP Credit Agreement allows the Company to provide additional advances to the Non-filing Subsidiaries of up to approximately \$30 million in excess of the net amount of such advances on the petition date. Management believes that all of the Non-filing Subsidiaries, including the Company's Mexican subsidiaries, will continue to be able to operate within this limitation.

For additional information on the DIP Credit Agreement, see Item 7. "Management's Discussion and Analysis of Financial Condition and Results of Operations—Liquidity and Capital Resources."

Shortly after the Petition Date, the Debtors began notifying all known current or potential creditors of the Chapter 11 filing. Subject to certain exceptions under the Bankruptcy Code, the Debtors' Chapter 11 filing automatically enjoined, or stayed, the continuation of any judicial or administrative proceedings or other actions against the Debtors or their property to recover on, collect or secure a claim arising prior to the Petition Date. Accordingly, most creditor actions to obtain possession of property from the Debtors, or to create, perfect or enforce any lien against the property of the Debtors, or to collect on monies owed or otherwise exercise rights or remedies with respect to a pre-petition claim are enjoined unless and until the Bankruptcy Court lifts the automatic stay. Vendors are being paid for goods furnished and services provided after the Petition Date in the ordinary course of business. Further, the Bankruptcy Court approved payment of certain of the Debtors' pre-petition obligations, including, among other things, employee wages, salaries and benefits, and the Bankruptcy Court has approved the payment of vendors and other providers who provided goods or services in the ordinary course of the Debtors that were ordered pre-petition but received from and after the Petition Date and other business-related payments necessary to maintain the operation of our businesses.

The Debtors retained, subject to Bankruptcy Court approval, legal and financial professionals to advise the Debtors on the bankruptcy proceedings and certain other "ordinary course" professionals. From time to time, the Debtors may seek Bankruptcy Court approval for the retention of additional professionals.

Also, as permitted by the Bankruptcy Code, the United States Trustee for the Northern District of Texas (the "US Trustee") appointed an official committee of unsecured creditors (the "Creditors' Committee"). The Creditors' Committee and its legal representatives have a right to be heard on all matters that come before the Bankruptcy Court with respect to the Debtors. In addition, on April 30, 2009, the Bankruptcy Court ordered the US Trustee to appoint an official committee of equity holders (the "Equity Committee") to represent the interests of Pilgrim's Pride's equity holders in the Debtors' bankruptcy cases.

Under Section 365 and other relevant sections of the Bankruptcy Code, we may assume, assume and assign, or reject certain executory contracts and unexpired leases, including, without limitation, leases of real property and equipment, subject to the approval of the Bankruptcy Court and certain other conditions. Any description of an executory contract or unexpired lease in this report, including where applicable our express termination rights or a quantification of our obligations, must be read in conjunction with, and is qualified by, any overriding rejection rights we have under Section 365 of the Bankruptcy Code. The Debtors expect to file a list of executory contracts that are being assumed no later than November 20, 2009, unless the deadline for equity holders to vote on the Proposed Plan is extended, in which event the date on which the list of executory contracts to be assumed is filed may be extended.

Proposed Plan of Reorganization and Acquisition

In order for the Debtors to successfully exit Chapter 11, the Bankruptcy Court must first confirm a plan of reorganization with respect to the Debtors that satisfies the requirements of the Bankruptcy Code. To be confirmed, a plan of reorganization would, among other things, need to resolve the Debtors' pre-petition obligations, set forth the revised capital structure of the newly reorganized entity and provide for corporate governance subsequent to exit from bankruptcy.

Under the priority scheme established by the Bankruptcy Code, unless creditors agree otherwise, pre-petition liabilities and post-petition liabilities must generally be satisfied in full before stockholders would be entitled to receive any distribution or retain any property under a plan of reorganization. The ultimate recovery to creditors and/or stockholders, if any, will not be determined until confirmation of a plan or plans of reorganization. No assurance can be given as to what values, if any, will be ascribed in the Chapter 11 cases to each of these constituencies or what types or amounts of distributions, if any, they would receive. A plan of reorganization could result in holders of our liabilities and/or securities, including our common stock, receiving no distribution on account of their interests and cancellation of their holdings. Because of such possibilities, the value of our liabilities and securities, including our common stock, is highly speculative. Appropriate caution should be exercised with respect to existing and future investments in any of the liabilities and/or securities of the Debtors. At this time there is no assurance we will be able to restructure as a going concern or successfully obtain confirmation of and implement a plan of reorganization.

The Proposed Plan

On September 17, 2009, the Debtors filed their Joint Plan of Reorganization Under Chapter 11 of the Bankruptcy Code with the Bankruptcy Court, along with the Disclosure Statement for the Debtors' Joint Plan of Reorganization under Chapter 11 of the Bankruptcy Code (as amended and supplemented, the "Disclosure Statement"). On November 11, 2009, the Debtors filed an Amended Joint Plan of Reorganization Under Chapter 11 of the Bankruptcy Code (As Modified) with the Bankruptcy Court (as amended and supplemented, the "Proposed Plan") which altered the treatment of unsecured note holders to provide that unsecured note holders may take a cash option rather than have their notes reinstated. The Proposed Plan provides that all unsecured creditors of the Debtors are unimpaired pursuant to Section 1124 of the Bankruptcy Code. Accordingly, the votes of unsecured creditors on the Proposed Plan are not being solicited as they will be deemed to have accepted the Proposed Plan. The Proposed Plan further provides for a reorganization of the Debtors' businesses as a going concern. The Proposed Plan is premised on (i) a transaction with JBS USA Holdings, Inc. (the "Plan Sponsor" or "JBS USA") whereby, pursuant to the SPA (defined below), the Plan Sponsor will purchase approximately 64% of the common stock of the reorganized Company ("Reorganized PPC") in exchange for \$800 million in cash, to be used by the Debtors to, among other things, fund distributions to holders of allowed claims under the Proposed Plan, and (ii) the Debtors entering into a new credit facility having an aggregate commitment of up to \$1,750 million (as described below, the "Exit Credit Facility"). If the Proposed Plan is confirmed and becomes effective, the Company will adopt and file an Amended and Restated Certificate of Incorporation (the "Restated Certificate of Incorporation") and will adopt Amended and Restated Corporate Bylaws (the "Restated Bylaws").

The Plan Sponsor is a wholly-owned indirect subsidiary of JBS S.A., a Brazil-based meat producer with total market capitalization of approximately \$3.7 billion as of August 25, 2009. Both JBS S.A. and JBS USA operate in two major business segments: beef and pork. In terms of slaughtering capacity, JBS USA is among the leading beef and pork processors in the US and has been the largest beef processor in Australia for the past 15 years. JBS USA also owns and operates the largest feedlot business in the US.

The Proposed Plan will not become effective until certain conditions are satisfied or waived, including: (i) entry of an order by the Bankruptcy Court confirming the Proposed Plan, (ii) all actions, documents and agreements necessary to implement the Proposed Plan having been effected or executed, (iii) satisfaction or waiver of the conditions precedent to the SPA (including access of the Debtors to funding under the Exit Credit Facility), other than those which are to be satisfied at the closing of the transactions contemplated by the SPA (as defined below), (iv) the Debtors having access to the cash contributed by the Plan Sponsor, and (v) specified claims of the Debtors' secured lenders having been paid in full pursuant to the Proposed Plan.

On September 29, 2009, the Bankruptcy Court approved a motion to further extend the period during which the Debtors have the exclusive right to file a plan of reorganization and the period during which the Debtors can obtain the necessary acceptances of the plan of reorganization, during which time competing plans may not be filed, through and including December 31, 2009, and March 1, 2010, respectively. If necessary, we may file one or more motions to request further extensions of these time periods. On October 22, 2009, we received approval from the Bankruptcy Court to begin soliciting stockholder acceptance of the Proposed Plan.

Section 1128(a) of the Bankruptcy Code requires the Bankruptcy Court, after appropriate notice, to hold a hearing on confirmation of a plan of reorganization. The confirmation hearing on the Proposed Plan is scheduled for December 8, 2009. The confirmation hearing may be adjourned from time to time by the Bankruptcy Court without further notice except for an announcement of the adjourned date made at the confirmation hearing or any subsequent adjourned confirmation hearing. There can be no assurance at this time that the Proposed Plan will be confirmed by the Bankruptcy Court or that any such plan will be implemented successfully.

If the Proposed Plan is confirmed and the transactions contemplated thereby are consummated, all holders of claims will be paid in full, unless otherwise agreed by the applicable holder. Holders of equity interests immediately prior to the effectiveness of the Proposed Plan would collectively be issued 36% of the common stock of Reorganized PPC.

The Proposed Acquisition

On September 16, 2009, we entered into a stock purchase agreement with the Plan Sponsor (the "SPA"). As discussed above, upon consummation of the transactions contemplated by the SPA, the Plan Sponsor will purchase 64% of the total issued and outstanding common stock of Reorganized PPC (the "Proposed Acquisition") in exchange for aggregate consideration of \$800 million in cash, to be used by the Debtors, among other things, to fund distributions under the Proposed Plan.

The Proposed Acquisition is subject to approval by the Bankruptcy Court of (i) the Proposed Plan and the Disclosure Statement, and (ii) the SPA. In addition, the obligations of the Company and the Plan Sponsor under the SPA are subject to the satisfaction of customary conditions to closing, including, without limitation, the execution and delivery of definitive documentation, receipt of certain regulatory approvals and governmental filings and the expiration or termination of applicable waiting periods, material compliance with the covenants by the parties, the representations and warranties under the SPA being true and correct (subject to certain materiality qualifiers), the absence of a material adverse change with respect to us since the date of the SPA and the payment of certain fees and expenses. In addition, the obligations of JBS USA under the SPA are conditioned on access of the Debtors to funding under the Exit Credit Facility. The obligations of JBS USA under the SPA, including JBS USA's payment of the \$800 million purchase price in exchange for 64% of the total issued and outstanding common stock of Reorganized PPC have no other financing conditions.

On October 14, 2009, the Company and the Plan Sponsor received notice from the Federal Trade Commission Bureau of Competition and the US Department of Justice of early termination of the waiting period under the Hart-Scott-Rodino Antitrust Improvements Act of 1976. The Proposed Acquisition remains subject to receipt of certain other regulatory approvals.

On September 17, 2009, we filed a motion with the Bankruptcy Court seeking entry of an order approving certain provisions of the SPA. On October 7, 2009, the Bankruptcy Court granted the motion and approved certain provisions of the SPA. We also sought approval of the remaining portions of the SPA as part of the approval of the Proposed Plan.

In connection with the closing of the Proposed Acquisition, the Company will enter into the Stockholders Agreement with JBS USA and will adopt and file the Restated Certificate of Incorporation. The Stockholders Agreement and the Restated Certificate of Incorporation will govern the constitution of the Company's board of directors and the selection of its members. The Stockholders Agreement, among other things, will also restrict the ability of JBS USA to purchase shares of the common stock of Reorganized PPC, require the approval of the Company's stockholders with respect to specified amendments to the Restated Certificate of Incorporation and Restated Bylaws and require JBS USA to use commercially reasonable efforts to maintain the listing of the common stock of Reorganized PPC on a national securities exchange. Among other rights, the Restated Certificate of Incorporation provides that, if JBS USA completes an initial public offering of its common stock, then, JBS USA has the right to exchange all of the outstanding common stock of Reorganized PPC for JBS USA common stock. For a period beginning upon the completion of such offering and ending two years and 30 days after the effective date of the Proposed Plan, JBS USA may exercise this exchange right during limited exchange windows in each fiscal quarter beginning six trading days after both Reorganized PPC and JBS USA have made their respective periodic reports or earnings releases for the preceding quarter or year, as applicable, and ending on the last day of the fiscal quarter during which the report or release was made. The number of shares of JBS USA common stock to be issued in exchange for the Reorganized PPC common stock will be dependent upon the relative average volume-weighted daily trading prices per share of the common stock of Reorganized PPC and the JBS USA common stock during the period immediately preceding the time JBS USA exercises its exchange right. For additional information on the exchange, see Item 1A. "Risk Factors—Mandatory Exchange Transaction. *Holder of Reorganized PPC's common stock may ultimately receive shares of JBS USA common stock.*"

Exit Credit Facility

Upon exiting from bankruptcy, the Company and certain of its subsidiaries, consisting of To-Ricos, Ltd. and To-Ricos Distribution, Ltd. (collectively, the "To-Ricos Borrowers"), expect to enter into the Exit Credit Facility that provides for an aggregate commitment of up to \$1,750 million consisting of (i) a revolving loan commitment of at least \$600 million, (ii) a term loan A commitment of up to \$375 million and (iii) a term loan B commitment of up to \$775 million. The revolving loan commitment will mature in 2012. Term A loans, which cannot exceed \$375 million in the aggregate, will mature in 2012. Term B loans, which cannot exceed \$775 million in the aggregate, will mature in 2014. CoBank ACB will serve as administrative agent ("Exit Facility Agent") on behalf of the lenders under the Exit Credit Facility. The Company has received non-binding mandate letters from the potential lenders party to the Exit Credit Facility.

The Term A loans mature three years from the effective date of the Exit Credit Facility and must be repaid in 12 equal quarterly principal installments of \$12.5 million beginning on April 15, 2010, with the final installment due on the maturity date for the Term A loans. The Term B loans mature five years from the effective date of the Exit Credit Facility and must be repaid in 16 equal quarterly principal installments of \$12.5 million beginning on April 15, 2011, with the final installment due on the maturity date for the Term B loans. Additionally, following the end of each fiscal year, a portion of our cash flow must be used to repay outstanding principal amounts under the Term A and Term B loans. Covenants in the Exit Credit Facility will also require us to use the proceeds we receive from certain asset sales and specified debt or equity issuances and upon the occurrence of other events to repay outstanding borrowings under the Exit Credit Facility.

The Exit Credit Facility includes a \$50 million sub-limit for swingline loans and a \$200 million sub-limit for letters of credit. Outstanding borrowings under the revolving loan commitment will bear interest at a per annum rate equal to 3.50% plus the greater of (i) the US prime rate as published by the *Wall Street Journal*, (ii) the average federal funds rate plus 0.5%, and (iii) the one-month LIBOR rate plus 1.0%, in the case of alternate base rate loans, or 4.50% plus the one, two, three or six month LIBOR rate adjusted by the applicable statutory reserve, in the case of Eurodollar loans. Outstanding Term A and Term B-1 loans will bear interest at a per annum rate equal to 4.00% plus greater of (i) the U.S. prime rate, as published by the *Wall Street Journal*, (ii) the average federal funds rate plus 0.5%, and (iii) the one month LIBOR rate plus 1.0%, in the case of alternate base rate loans, or 5.00%, plus the one, two, three or six month LIBOR Rate adjusted by the applicable statutory reserve, in the case of Eurodollar loans. Outstanding Term B-2 loans will bear interest at a per annum rate equal to 9.00%. Commitment fees charged on the revolving commitments under the Exit Credit Facility will accrue at a per annum rate equal to 1.00%.

The proceeds of the borrowings under the Exit Credit Facility will be used to (i) repay outstanding secured and unsecured indebtedness of the Company and (ii) pay fees, costs and expenses related to and contemplated by the Exit Credit Facility and the Proposed Plan. In addition, proceeds of the borrowings under the revolving loan commitment will be used to (i) finance the general corporate purposes of the borrowers (including capital expenditures, permitted acquisitions and principal and interest under the Exit Credit Facility).

Actual borrowings by the Company under the Exit Credit Facility will be subject to a borrowing base, which is a formula based on certain eligible inventory, eligible receivables and restricted cash under the control of the Exit Facility Agent. The borrowing base formula will be reduced by the sum of (i) inventory reserves, (ii) rent and collateral access reserves, and (iii) any amount more than 15 days past due that is owed by the Company or its subsidiaries to any person on account of the purchase price of agricultural products or services (including poultry and livestock) if that person is entitled to any grower's or producer's lien or other security arrangement. Revolving loan availability under the borrowing base also will be limited to an aggregate of \$25 million with respect to the To-Ricos Borrowers.

The Exit Credit Facility will provide that the Company may not incur capital expenditures in excess of \$225 million in fiscal year 2010, \$275 million in fiscal year 2011 and \$350 million per fiscal year thereafter. The Company must also maintain a minimum fixed charge coverage ratio and a minimum level of tangible net worth and may not exceed a maximum leverage ratio. The

Exit Credit Facility will contain various covenants that may adversely affect our ability to, among other things, incur additional indebtedness, incur liens, pay dividends or make certain restricted payments, consummate certain asset sales, enter into certain transactions with JBS USA and our other affiliates, merge, consolidate and/or sell or dispose of all or substantially all of our assets.

All obligations under the Exit Credit Facility will be unconditionally guaranteed by certain of the Company's subsidiaries and will be secured by a first priority lien on (i) the domestic (including Puerto Rico) accounts and inventory of the Company and its subsidiaries, (ii) 100% of the equity interests in the To-Ricos Borrowers and the Company's domestic subsidiaries and 65% of the equity interests in the Company's direct foreign subsidiaries, (iii) substantially all of the personal property and intangibles of the Company, the To-Ricos Borrowers and the guarantor subsidiaries, and (iv) substantially all of the real estate and fixed assets of the Company and the subsidiary guarantors.

The Exit Credit Facility will allow the Company to provide additional advances to its subsidiaries in an amount equal to the net amount of such advances in effect on the date of the Exit Credit Facility plus \$30 million. Management believes that all of the Company's subsidiaries, including the Company's Mexican subsidiaries, will be able to operate within this limitation.

The Proposed Plan contemplates that the notes under the Company's outstanding indentures will be reinstated unless and to the extent a holder of the notes elects to receive a cash payment equal to the principal amounts of the notes plus unpaid interest that had accrued pre-petition with interest accruing on such interest at the default contract rate through the effective date of the Proposed Plan and the unpaid post-petition interest at the non-default contract rate through the effective date. To the extent the holders of these notes elect reinstatement, then the amount of the term loan commitments under the Exit Credit Facility will be reduced on a dollar-for-dollar and pro rata basis.

For additional information on the Exit Credit Facility, see Item 7. "Management's Discussion and Analysis of Financial Condition and Results of Operations—Liquidity and Capital Resources."

Going Concern Matters

The accompanying Consolidated Financial Statements have been prepared assuming that the Company will continue as a going concern. However, there is substantial doubt about the Company's ability to continue as a going concern based on the factors previously discussed. The Consolidated Financial Statements do not include any adjustments related to the recoverability and classification of recorded assets or the amounts and classification of liabilities or any other adjustments that might be necessary should the Company be unable to continue as a going concern. The Consolidated Financial Statements do not purport to reflect or provide for the consequences of our Chapter 11 proceedings. In particular, the financial statements do not purport to show (i) as to assets, their realizable value on a liquidation basis or their availability to satisfy liabilities; (ii) as to pre-petition liabilities, the amounts that may be allowed for claims or contingencies, or the status and priority thereof; (iii) as to shareowners' equity accounts, the effect of any changes that may be made in our capitalization; or (iv) as to operations, the effect

of any changes that may be made to our business. The Company's ability to continue as a going concern is dependent upon, among other things, the ability of the Company to return to historic levels of profitability and, in the near term, restructure its obligations in a manner that allows it to obtain confirmation of a plan of reorganization by the Bankruptcy Court.

Business Segments

We operate in two reportable business segments as (i) a producer and seller of chicken products and (ii) a seller of other products. Our chicken segment includes sales of chicken products we produce and purchase for resale in the US, Puerto Rico and Mexico. Our chicken segment conducts separate operations in the US, Puerto Rico and Mexico and is reported as two separate geographical areas. For segment reporting purposes, we include Puerto Rico with our US operations. Substantially all of the assets and operations of the Gold Kist acquisition are included in our US chicken segment since the date of acquisition.

Our other products segment includes distribution of non-poultry products that are purchased from third parties and sold to independent grocers and quick service restaurants. Also included in this category are sales of table eggs, feed, protein products, live hogs and other items, some of which are produced or raised by the Company.

Corporate expenses are allocated to Mexico based upon various apportionment methods for specific expenditures incurred related thereto with the remaining amounts allocated to the US portions of the segments based on number of employees.

Assets associated with our corporate functions, including cash and cash equivalents and investments in available for sale securities, are included in our chicken segment.

Selling, general and administrative expenses related to our distribution centers are allocated based on the proportion of net sales to the particular segment to which the product sales relate.

Depreciation and amortization, total assets and capital expenditures of our distribution centers are included in our chicken segment based on the primary focus of the centers.

The following table presents certain information regarding our segments:

- (a) The Company acquired Gold Kist on December 27, 2006, for \$1.139 billion.
- (b) Includes amortization of capitalized financing costs of approximately \$6.8 million, \$4.9 million and \$6.6 million in 2009, 2008 and 2007, respectively
- (c) Includes amortization of intangible assets of \$10.2 million, \$10.2 million and \$8.1 million recognized in 2009, 2008 and 2007, respectively, related primarily to the Gold Kist and ConAgra Chicken acquisitions.
- (d) Excludes depreciation costs incurred by our discontinued turkey business of \$0.7 million and \$1.6 million during 2008 and 2007, respectively. The Company did not incur depreciation costs related to its discontinued turkey business in 2009.
- (e) Excludes total assets of our discontinued turkey business of \$33.5 million and \$68.8 million at September 27, 2008, and September 29, 2007, respectively. The Company's discontinued turkey business did not own any assets at September 26, 2009.
- (f) Excludes acquisitions of property, plant and equipment by our discontinued turkey business of \$0.5 million during 2007. The Company did not acquire property, plant and equipment for its discontinued turkey business during 2009 or 2008.

The following table presents certain items as a percentage of net sales for the periods indicated:

	<u>2009</u>	<u>2008</u>	<u>2007</u>
Net sales	100.0 %	100.0 %	100.0 %
Cost of sales	94.6 %	101.6 %	92.1 %
Asset impairment and operational restructuring charges	0.2 %	0.3 %	— %
Gross profit (loss)	5.2 %	(1.9) %	7.9 %
Selling, general and administrative ("SG&A") expenses	4.2 %	4.4 %	4.7 %

Income (loss) from continuing operations before income taxes	(2.5) %	(13.9) %	1.3 %
Income (loss) from continuing operations	(2.1) %	(11.6) %	0.7 %
Net income (loss)	(2.1) %	(11.7) %	0.6 %

All percentage of net sales ratios reported above are calculated from the face of the Consolidated Statements of Operations included elsewhere herein.

Results of Operations

2009 Compared to 2008

Net sales. Net sales for 2009 decreased \$1,430.7 million, or 16.8%, from 2008. The following table provides additional information regarding net sales:

Source	2009	Change from 2008	
		Amount	Percent
(In thousands, except percent data)			
Chicken:			
United States	\$ 6,063,914	\$ (1,013,133)	(14.3) % (a)
Mexico	487,785	(55,798)	(10.3) % (b)
Total chicken	6,551,699	(1,068,931)	(14.0) %
Other products:			
United States	505,738	(357,757)	(41.4) % (c)
Mexico	30,618	(4,014)	(11.6) %
Total other products	536,356	(361,771)	(40.3) %
Total net sales	\$ 7,088,055	\$ (1,430,702)	(16.8) %

- (a) US chicken sales generated in 2009 decreased 14.3% from US chicken sales generated in 2008. Sales volume decreased 14.6% primarily because of previously announced production cutbacks and subsequent reorganization efforts. Net revenue per pound sold increased 0.3% from the prior year.
- (b) Mexico chicken sales generated in 2009 decreased 10.3% from Mexico chicken sales generated in 2008. Sales volume decreased 4.5% from the prior year because of production cutbacks. Net revenue per pound sold decreased 6.0% from the prior year primarily because of the devaluation of the Mexican peso against the US dollar in 2009.
- (c) US sales of other products generated in 2009 decreased 41.4% from US sales of other products generated in 2008 mainly as the result of reduced sales volumes protein conversion products partially offset by increased sales prices. The decrease in protein conversion products sales volumes resulted primarily from the ongoing impact of a fire suffered at the Mt. Pleasant, Texas, protein conversion facility in late 2008 (the "Mt. Pleasant Fire") and subsequent reorganization efforts. Protein conversion is the process of converting poultry byproducts into raw materials for grease, animal feed, biodiesel and feed-stock for the chemical industry.

Gross profit. Gross profit results improved by \$533.9 million, or 326.6%, from a gross loss of \$163.5 million incurred in 2008 to gross profit of \$370.4 million generated in 2009. The following table provides gross profit information.

Components	2009	Change from 2008		Percent of Net Sales	
		Amount	Percent	2009	2008
(In thousands, except percent data)					
Net sales	\$ 7,088,055	\$ (1,430,702)	(16.8) %	100.0 %	100.0 %
Cost of sales	6,705,157	(1,949,105)	(22.5) %	94.6 %	101.6 % (a)
Asset impairment and operational restructuring charges	12,464	(15,526)	(55.5) %	0.2 %	0.3 % (b)
Gross profit	\$ 370,434	\$ 533,929	326.6 %	5.2 %	(1.9) % (c)

- (a) Cost of sales incurred by the US operations during 2009 decreased \$1,846.2 million from cost of sales incurred by the US operations during 2008. This decrease occurred primarily because of production cutbacks, decreased feed ingredient purchases, decreased feed ingredient prices, business interruption insurance recoveries recognized in 2009 related to the Mt. Pleasant Fire and gain recognized in 2009 related to the disposal of assets lost in the Mt. Pleasant Fire partially offset by an aggregate net loss of \$21.1 million recognized by the Company during 2009 on derivative financial instruments. Cost of sales incurred by the Mexico operations during 2009 decreased \$102.9 million from cost of sales incurred by the Mexico operations during 2008 primarily because of decreased net sales and decreased feed ingredient costs.
- (b) The Company recognized noncash asset impairment charges in 2008 related to (i) the closing of two operating complexes in Arkansas and North Carolina, (ii) the closing of seven distribution centers in Florida (2), Iowa, Mississippi, Ohio, Tennessee and Texas, and (iii) the idling of a prepared foods plant in Louisiana.
- (c) Gross profit as a percent of net sales generated in 2009 increased 7.1 percentage points from gross loss as a percent of sales incurred in 2008 primarily because of the cost-savings impact of production cutbacks, decreased feed ingredient purchases and decreased feed ingredient prices experienced during 2009.

Operating income. Operating income increased \$1,125.0 million, or 106.4%, from an operating loss of \$1,057.7 million incurred for 2008 to operating income of \$67.3 million generated for 2009. The following tables provide operating income information:

Source	2009	Change from 2008	
		Amount	Percent
(In thousands, except percent data)			
Chicken:			
United States	\$ 5,583	\$ 610,268	100.9 %
Mexico	22,353	48,055	187.0 %
Total chicken	27,936	658,323	104.4 %
Other products:			
United States	47,195	(66,575)	(58.5) %
Mexico	6,647	2,134	47.3 %
Total other products	53,842	(64,441)	(54.5) %
Goodwill impairment	—	(501,446)	(100.0) %
Asset impairment and operational restructuring charges	12,464	(15,526)	(55.5) %
Administrative restructuring charges	1,987	(14,169)	(87.7) %
Total operating income	\$ 67,327	\$ 1,125,023	106.4 %

Components	2009	Change from 2008		Percent of Net Sales	
		Amount	Percent	2009	2008
(In thousands, except percent data)					
Gross profit	\$ 370,434	\$ 533,929	326.6 %	5.2 %	(1.9) %
SG&A expenses	301,120	(75,479)	(20.0) %	4.2 %	4.4 % (a)
Goodwill impairment	—	(501,446)	(100.0)	— %	5.9 % (b)
Administrative restructuring charges	1,987	(14,169)	(87.7)	0.1 %	0.2 % (c)
Operating income	\$ 67,327	\$ 1,125,023	106.4 %	0.9 %	(12.4) % (d)

- (a) SG&A expenses incurred by the US operations during 2009 decreased 19.5 % from SG&A expenses incurred by the US operations during 2008 primarily because of reductions in employee compensation and related benefit costs resulting from restructuring actions taken in 2008 and 2009 and reductions in litigation reserves due to pending settlements.
- (b) As the result of the downward pressure placed on earnings by increased feed ingredients costs, weak demand for breast meat and the oversupply of chicken and other animal-based proteins in the US, the Company evaluated the carrying amount of its goodwill for potential impairment at September 27, 2008. We obtained valuation reports as of September 27, 2008, that indicated the carrying amount of our goodwill should be fully impaired based on current conditions. As a result, we recognized a pretax impairment charge of \$501.4 million during 2008.
- (c) The Company incurred administrative restructuring charges, composed entirely of cash-based severance, employee retention, lease commitment and other facility closing charges, in 2008 related to (i) the closing of two operating complexes in Arkansas and North Carolina, (ii) the closing of seven distribution centers in Florida (2), Iowa, Mississippi, Ohio, Tennessee and Texas, (iii) the idling of a prepared foods plant in Louisiana, (iv) the transfer of operations from an operating complex in Arkansas to several of the Company's other operating complexes, and (v) the closing of an administrative office in Georgia.
- (d) Operating income as a percent of net sales generated in 2009 increased 13.3 percentage points from operating loss as a percent of sales incurred in 2008 primarily because of improved gross profit performance, goodwill impairment recognized in 2008, charges related to 2008 restructuring actions and reductions in employee compensation and related benefit costs resulting from restructuring actions taken in 2008 and 2009.

Interest expense. Consolidated interest expense increased 20.6% to \$161.9 million in 2009 from \$134.2 million in 2008 primarily because of increased average borrowings resulting from draws under the DIP Credit Facility and increased interest rates recognized on several of the non-public credit facilities. As a percent of net sales, interest expense in 2009 increased to 2.3% from 1.5% in 2008.

Reorganization items. The Company incurred reorganization costs of \$87.3 million in 2009. These costs included (i) severance and other costs related to post-petition facility closures and RIF actions, (ii) financing fees associated with the DIP Credit Agreement, (iii) professional fees charged for post-petition reorganization services, (iv) fees related to the termination of the RPA, (v) asset impairment costs related to a closed processing complex in Dalton, Georgia, and (vi) a loss recognized on the sale of the Company's interest in a hog farming joint venture. These costs were partially offset by a gain recognized on the sale of the Company's closed processing complex in Farmerville, Louisiana, and a gain recognized on the sale of undeveloped land in Camp County, Texas.

Income taxes. The Company's consolidated income tax benefit in 2009 was \$21.6 million, compared to a tax benefit of \$194.9 million in 2008. The income tax benefit in 2009 resulted primarily from a decrease in reserves for unrecognized tax benefits. The income tax benefit in 2008 resulted primarily from net operating losses incurred in 2008 which were offset by valuation allowance and the tax effect of goodwill impairment. See Note N—Income Taxes to the Consolidated Financial Statements.

Income (loss) from operation of discontinued business. The Company generated income from the operation of its discontinued turkey business of \$1.0 million (\$0.6 million, net of tax) in 2009 compared to a loss of \$11.7 million (\$7.3 million, net of tax) incurred in 2008. Net sales generated by the discontinued turkey business in 2009 and 2008 were \$25.8 million and \$86.3 million, respectively.

Gain on disposal of discontinued business. In March 2008, the Company sold certain assets of its discontinued turkey business and recognized a gain of \$1.5 million (\$0.9 million, net of tax).

2008 Compared to 2007

Net sales. Net sales for 2008 increased \$1,020.1 million, or 13.6%, over 2007. The following table provides additional information regarding net sales:

Source	2008	Change from 2007	
		Amount	Percent
(In thousands, except percent data)			
Chicken:			
United States	\$ 7,077,047	\$ 748,693	11.8 % (a)
Mexico	543,583	55,117	11.3 % (b)
Total chicken	7,620,630	803,810	11.8 %
Other products:			
United States	863,495	202,380	30.6 % (c)
Mexico	34,632	13,955	67.5 % (d)
Total other products	898,127	216,335	31.7 %
Total net sales	\$ 8,518,757	\$ 1,020,145	13.6 %

- (a) US chicken sales generated in 2008 increased 11.8% from US chicken sales generated in 2007. Sales volume increased 8.6% primarily because of the acquisition of Gold Kist on December 27, 2006. Net revenue per pound sold increased 3.0% from the prior year.
- (b) Mexico chicken sales generated in 2008 increased 11.3% from Mexico chicken sales generated in 2007 primarily because of a 3.5% increase in revenue per pound sold and a 7.6% increase in pounds sold. The increase in pounds sold represents market penetration in Mexico's avian influenza free states as well as a shift in product mix toward live birds.
- (c) US sales of other products generated in 2008 increased 30.6% from US sales of other products generated in 2007 mainly as the result of improved pricing on commercial eggs and protein conversion products and higher sales volumes of protein conversion products. Protein conversion is the process of converting poultry byproducts into raw materials for grease, animal feed, biodiesel and feed-stock for the chemical industry.
- (d) Mexico sales of other products generated in 2008 increased 67.5% from Mexico sales of other products generated in 2007 principally because of both higher sales volumes and higher selling prices for commercial feed.

Gross loss. Gross loss generated in 2008 decreased \$756.2 million, or 127.6%, from gross profit generated in 2007. The following table provides gross profit (loss) information:

Components	2008	Change from 2007		Percent of Net Sales	
		Amount	Percent	2008	2007
(In thousands, except percent data)					
Net sales	\$ 8,518,757	\$ 1,020,145	13.6 %	100.0 %	100.0 %
Cost of sales	8,654,262	1,748,380	25.3 %	101.6 %	92.1 % (a)
Asset impairment and operational restructuring charges	27,990	27,990	NM	0.3 %	— % (b)
Gross loss	\$ (163,495)	\$ (756,225)	(127.6) %	(1.9) %	7.9 % (c)

- (a) Cost of sales incurred by the US operations during 2008 increased \$1,640.4 million from cost of sales incurred by the US operations during 2007. This increase occurred because of incremental costs resulting from increased feed ingredients and energy costs as well as the acquisition of Gold Kist on December 27, 2006. We also experienced in 2008, and continue to experience, increased production and freight costs related to operational inefficiencies, labor shortages at several facilities and higher fuel costs. We believe the labor shortages are attributable in part to heightened publicity of governmental immigration enforcement efforts, ongoing Company compliance efforts and continued changes in the Company's employment practices in light of recently published governmental best practices and new labor hiring regulations. During 2008, the Company recognized losses totaling \$38.3 million on derivative financial instruments executed to manage its exposure to changes in corn and soybean meal prices. The aggregate loss recognized on derivative financial instruments in 2007 was immaterial. Cost of sales incurred by the Mexico operations during 2008 increased \$108.0 million from cost of sales incurred by the Mexico operations during 2007 primarily because of increased feed ingredients costs.
- (b) The Company recognized operational restructuring charges, composed entirely of noncash asset impairment charges, in 2008 related to (i) the closing of two operating complexes in Arkansas and North Carolina, (ii) the closing of seven distribution centers in Florida (2), Iowa, Mississippi, Ohio, Tennessee and Texas, and (iii) the idling of a prepared foods plant in Louisiana.
- (c) Gross loss as a percent of net sales generated in 2008 decreased 9.8 percentage points from gross profit as a percent of sales generated in 2007 primarily because of incremental costs resulting from increased feed ingredients, energy, production and freight costs, charges related to 2008 restructuring actions and the Gold Kist acquisition partially offset by improved selling prices.

NM Not meaningful.

Operating loss. Operating loss generated in 2008 decreased \$1,294.9 million, or 545.9%, from operating income generated in 2007. The following tables provide operating income (loss) information:

Source	2008	Change from 2007	
		Amount	Percent
(In thousands, except percent data)			
Chicken:			
United States	\$ (604,685)	\$ (797,132)	(414.2) %

Total other products	118,283	86,655	274.0 %
Goodwill impairment	501,446	501,446	NM
Asset impairment	27,990	27,990	NM
Restructuring charges	16,156	16,156	NM
Total operating loss	\$ (1,057,696)	\$ (1,294,887)	(545.9) %

Components	2008	Change from 2007		Percent of Net Sales	
		Amount	Percent	2008	2007
(In millions, except percent data)					
Gross profit (loss)	\$ (163,495)	\$ (756,225)	(127.6) %	(1.9) %	7.9 %
SG&A expenses	376,599	21,060	5.9 %	4.4 %	4.7 % (a)
Goodwill impairment	501,446	501,446	NM	5.9	— (b)
Restructuring charges	16,156	16,156	NM	0.2 %	— % (c)
Operating loss	\$ (1,057,696)	\$ (1,294,887)	(545.9) %	(12.4) %	3.2 % (d)

- (a) SG&A expenses incurred by the US operations during 2008 increased 6.9% from SG&A expenses incurred by the US operations during 2007 primarily because of the acquisition of Gold Kist on December 27, 2006.
- (b) As the result of the downward pressure placed on earnings by increased feed ingredients costs, weak demand for breast meat and the oversupply of chicken and other animal-based proteins in the US, the Company evaluated the carrying amount of its goodwill for potential impairment at September 27, 2008. We obtained valuation reports as of September 27, 2008, that indicated the carrying amount of our goodwill should be fully impaired based on current conditions. As a result, we recognized a pretax impairment charge of \$501.4 million during 2008.
- (c) The Company incurred administrative restructuring charges, composed entirely of cash-based severance, employee retention, lease commitment and other facility closing charges, in 2008 related to (i) the closing of two operating complexes in Arkansas and North Carolina, (ii) the closing of seven distribution centers in Florida (2), Iowa, Mississippi, Ohio, Tennessee and Texas, (iii) the idling of a prepared foods plant in Louisiana, (iv) the transfer of operations from an operating complex in Arkansas to several of the Company's other operating complexes, and (v) the closing of an administrative office in Georgia.
- (d) Operating loss as a percent of net sales generated in 2008 decreased 15.6 percentage points from operating income as a percent of sales generated in 2007 primarily because of deterioration in gross profit (loss) performance, goodwill impairment recognized in 2008, charges related to 2008 restructuring actions and incremental SG&A expenses resulting from the Gold Kist acquisition.

NM Not meaningful.

Interest expense. Consolidated interest expense increased 9.0% to \$134.2 million in 2008 from \$123.2 million in 2007 primarily because of increased borrowings related to the acquisition of Gold Kist and the funding of losses as well as a decrease in amounts of interest capitalized during the year. These factors were partially offset by early extinguishment of debt totaling \$299.6 million in September 2007 and lower interest rates on our variable-rate credit facilities. Interest expense represented 1.6% of net sales in both 2008 and 2007.

Loss on early extinguishment of debt. During 2007, the Company recognized loss on early extinguishment of debt of \$26.4 million, which included premiums of \$16.9 million along with unamortized loan costs of \$9.5 million. These losses related to the redemption of \$77.5 million of our 9 1/4% Senior Subordinated Notes due 2013 and all of our 9 5/8% Senior Notes due 2011.

Income taxes. The Company's consolidated income tax benefit in 2008 was \$194.9 million compared to income tax expense of \$47.3 million in 2007. The change in income tax expense (benefit) for 2008 compared to 2007 resulted primarily from net operating losses incurred in 2008 which were offset by valuation allowance and the tax effect of goodwill impairment.

Loss from operation of discontinued business. The Company generated a loss from the operation of its discontinued turkey business of \$11.7 million (\$7.3 million, net of tax) during 2008 compared to a loss of \$7.2 million (\$4.5 million, net of tax) during 2007. Net sales generated by the discontinued turkey business in 2008 and 2007 were \$86.3 million and \$100.0 million, respectively.

Gain on disposal of discontinued business. In March 2008, the Company sold certain assets of its discontinued turkey business and recognized a gain of \$1.5 million (\$0.9 million, net of tax).

Liquidity and Capital Resources

The following table presents our available sources of liquidity as of September 26, 2009:

Source of Liquidity	Facility		Amount	
	Amount	Outstanding	Available	
		(In millions)		
Cash and cash equivalents	\$ —	\$ —	\$ 220.0	
Investments in available-for-sale securities	—	—	5.3	
Debt facilities:				
DIP Credit Agreement expiring 2009	350.0	—	329.2	(a)(b)
Revolving credit facility expiring 2011	41.1	41.1	—	
(a)	Actual borrowings by the Company under the DIP Credit Agreement are subject to a borrowing base, which is a formula based on certain eligible inventory and eligible receivables. The borrowing base at September 26, 2009, was \$329.2 million.			
(b)	At November 20, 2009, total funds available for borrowing under the DIP Credit Agreement were \$321.8 million and there were no outstanding borrowings under the DIP Credit Agreement. The total available commitments under the DIP Credit Agreement are currently \$350 million.			

At September 26, 2009, the Company had \$218.9 million outstanding under the Pre-petition BMO Facility and \$1,126.4 million outstanding under its revolver/term credit agreement expiring in 2016 (the “Pre-petition CoBank Facility”). On that same date, the Company was party to outstanding standby letters of credit totaling \$65.9 million. The filing of the Chapter 11 petitions constituted an event of default under, among other of our debt obligations, the Pre-petition BMO Facility and the Pre-petition CoBank Facility. Outstanding obligations under these facilities became automatically and immediately due and payable, subject to an automatic stay of any action to collect, assert, or recover a claim against the Company and the application of applicable bankruptcy law. Funds are no longer available for borrowing under these two facilities.

Debt Obligations

DIP Credit Agreement. As previously discussed, on December 1, 2008, the Debtors filed voluntary petitions in the Bankruptcy Court seeking reorganization relief under the Bankruptcy Code. The filing of the Chapter 11 petitions constituted an event of default under certain of our debt obligations, and those debt obligations became automatically and immediately due and payable, subject to an automatic stay of any action to collect, assert, or recover a claim against the Company and the application of applicable bankruptcy law. As a result, the accompanying Consolidated Balance Sheet as of September 27, 2008, included reclassifications of \$1,872.1 million to reflect as current certain long-term debt under the Company’s credit facilities that, absent the stay, would have become automatically and immediately due and payable. Because of the bankruptcy petition, most of the Company’s pre-petition long-term debt is included in *Liabilities subject to compromise* at September 26, 2009. The Company classifies pre-petition liabilities subject to compromise as a long-term liability because management does not believe the Company will use existing current assets or create additional current liabilities to fund these obligations.

On December 2, 2008, the Bankruptcy Court granted interim approval authorizing the Company and the Subsidiaries to enter into the Initial DIP Credit Agreement with the DIP Agent and the lenders party thereto. On December 2, 2008, the Company, the US Subsidiaries and the other parties entered into the Initial DIP Credit Agreement, subject to final approval of the Bankruptcy Court. On December 30, 2008, the Bankruptcy Court granted final approval authorizing the Company and the Subsidiaries to enter into the DIP Credit Agreement.

The DIP Credit Agreement currently provides for an aggregate commitment of up to \$350 million, which permits borrowings on a revolving basis. The commitment includes a \$25 million sub-limit for swingline loans and a \$20 million sub-limit for letters of credit. Outstanding borrowings under the DIP Credit Agreement bear interest at a per annum rate equal to 8.0% plus the greatest of (i) the prime rate as established by the DIP Agent from time to time, (ii) the average federal funds rate plus 0.5%, or (iii) the LIBOR rate plus 1.0%, payable monthly. The weighted average interest rate for 2009 was 11.25%. The loans under the Initial DIP Credit Agreement were used to repurchase all receivables sold under the Company's RPA. Loans under the DIP Credit Agreement may be used to fund the working capital requirements of the Company and its subsidiaries according to a budget as approved by the required lenders under the DIP Credit Agreement. For additional information on the RPA, see "Off-Balance Sheet Arrangements."

Actual borrowings by the Company under the DIP Credit Agreement are subject to a borrowing base, which is a formula based on certain eligible inventory and eligible receivables. The borrowing base formula is reduced by (i) pre-petition obligations under the Pre-petition BMO Facility, (ii) administrative and professional expenses incurred in connection with the bankruptcy proceedings, and (iii) the amount owed by the Company and the Subsidiaries to any person on account of the purchase price of agricultural products or services (including poultry and livestock) if that person is entitled to any grower's or producer's lien or other security arrangement. The borrowing base is also limited to 2.22 times the formula amount of total eligible receivables. The DIP Credit Agreement provides that the Company may not incur capital expenditures in excess of \$150 million. The Company must also meet minimum monthly levels of EBITDAR. Under the DIP Credit Agreement, "EBITDAR" means, generally, earnings before interest, taxes, depreciation, amortization, and restructuring (writedowns of goodwill and other intangibles, asset impairment charges, certain restructuring and closure costs and other specified costs, charges, losses and gains). The DIP Credit Agreement also provides for certain other covenants, various representations and warranties, and events of default that are customary for transactions of this nature. As of September 26, 2009, the applicable borrowing base and the amount available for borrowings under the DIP Credit Agreement were both \$329.2 million as there were no outstanding borrowings under the Credit Agreement.

The principal amount of outstanding loans under the DIP Credit Agreement, together with accrued and unpaid interest thereon, are payable in full at maturity on December 1, 2009, subject to extension for an additional six months with the approval of all lenders thereunder. The Company has requested a two-month extension. All obligations under the DIP Credit Agreement are unconditionally guaranteed by the Subsidiaries and are secured by a first priority priming lien on substantially all of the assets of the Company and the Subsidiaries, subject to specified permitted liens in the DIP Credit Agreement. Under the terms of the DIP Credit Agreement and applicable bankruptcy law, the Company may not pay dividends on the common stock while it is in bankruptcy.

Pre-petition CoBank Facility. In September 2006, the Company entered into the Pre-petition CoBank Facility with a maturity date of September 21, 2016. The Pre-petition CoBank Facility provided for an aggregate commitment of \$1.172 billion consisting of (i) a \$550 million revolving/term loan commitment and (ii) \$622.4 million in various term loans. At September 26, 2009, the Company had \$506.7 million outstanding under the revolver and \$619.7 million outstanding in various term loans. The Pre-petition CoBank Facility is presently secured by certain fixed assets. The fixed rate term loans bear interest at rates ranging from 7.34% to 7.56%. The voluntary converted loans bear interest at rates ranging from LIBOR plus 1.0%-2.0%, depending upon the Company's total debt to capitalization ratio. The floating rate term loans bear interest at LIBOR plus 1.50%-1.75% based on the ratio of the Company's debt to EBITDA, as defined in the Pre-petition CoBank Facility credit agreement. The revolving/term loans provide for interest rates ranging from LIBOR plus 1.0%-2.0%, depending upon the Company's total debt to capitalization ratio. Commitment fees charged on the unused balance of this facility range from 0.20% to 0.40%, depending upon the Company's total debt to capitalization ratio. In connection with temporary amendments to certain of the financial covenants under the Pre-petition CoBank Facility on April 30, 2008, the interest rates were temporarily increased until September 26, 2009 to the following ranges: (i) voluntary converted loans: LIBOR plus 1.5%-3.0%; (ii) floating rate terms loans: LIBOR plus 2.00%-2.75%; and (iii) revolving term loans: LIBOR plus 1.5%-3.0%. In connection with these amendments, the commitment fees were temporarily increased for the same period to range from 0.275%-0.525%. As a result of the Company's Chapter 11 filing, after December 1, 2008, interest will accrue at the default rate, which is two percentage points above the interest rate otherwise applicable under the Pre-petition CoBank Facility. One-half of the outstanding obligations under the Pre-petition CoBank Facility are guaranteed by Pilgrim Interests, Ltd., an entity affiliated with our Senior Chairman, Lonnie "Bo" Pilgrim. The filing of the bankruptcy petitions also constituted an event of default under Pre-petition CoBank Facility. As a result of such event of default, all obligations under the Pre-petition CoBank Facility became automatically and immediately due and payable, subject to an automatic stay of any action to collect, assert, or recover a claim against the Company and the application of applicable bankruptcy law.

Pre-petition BMO Facility. In February 2007, the Company entered into the Pre-petition BMO Facility with revolving credit commitment of up to \$300 million and a final maturity date of February 18, 2013. The Pre-petition BMO Facility provides for interest rates ranging from LIBOR plus 0.75-1.75%, depending upon our total debt to capitalization ratio. The obligations under the Pre-petition BMO Facility are secured by domestic chicken inventories and receivables that were not sold pursuant to the RPA. Commitment fees charged on the unused balance of the Pre-petition BMO Facility range from 0.175% to 0.35%, depending upon the Company's total debt to capitalization ratio. In connection with temporary amendments to certain of the financial covenants in this agreement on April 30, 2008, the interest rates were temporarily increased until September 26, 2009 to range between LIBOR plus 1.25%-2.75%. In connection with these amendments, the commitment fees were temporarily increased for the same period to range from 0.25%-0.50%. As a result of the Company's Chapter 11 filing, after December 1, 2008, interest will accrue at the default rate, which is two percentage points above the interest rate otherwise applicable under the Pre-petition BMO Facility. One-half of the outstanding obligations under the Pre-petition BMO Facility are guaranteed by Pilgrim Interests, Ltd., an entity affiliated with our Senior Chairman, Lonnie "Bo" Pilgrim. The filing of the bankruptcy petitions also constituted an event of default under Pre-petition BMO Facility. As a result of such event of default, all obligations under the Pre-petition BMO Facility became automatically and immediately due and payable, subject to an automatic stay of any action to collect, assert, or recover a claim against the Company and the application of applicable bankruptcy law.

Mexico Revolving Credit Facility. On September 25, 2006, a subsidiary of the Company, Avícola Pilgrim's Pride de México, S. de R.L. de C.V. (the "Mexico Borrower"), entered into a secured revolving credit agreement (the "ING Credit Agreement") with ING Capital, LLC, as agent (the "Mexico Agent") and the lenders party thereto (the "Mexico Lenders"). The ING Credit Agreement has a final maturity date of September 25, 2011 and a revolving commitment of 558 million Mexican pesos, a US dollar-equivalent 41.1 million at September 26, 2009. Outstanding amounts bear interest at rates ranging from the higher of the Prime Rate or Federal Funds Effective Rate plus 0.5%; LIBOR plus 1.65%-3.125%; or TIE plus 1.05%-2.55% depending on the loan designation. Obligations under this agreement are secured by a security interest in and lien upon all capital stock and other equity interests of the Company's Mexican subsidiaries (other than the Borrower). All the obligations of the Borrower are secured by unconditional guaranty by the Company. At September 26, 2009, \$41.1 million was outstanding and no other funds were available for borrowing under this line. Borrowings are subject to "no material adverse effect" provisions.

On November 30, 2008, the Company and certain non-Debtor Mexico subsidiaries of the Company (the "Mexico Subsidiaries") entered into a Waiver Agreement and Second Amendment to Credit Agreement (the "Waiver Agreement") with the Mexico Agent and the Mexico Lenders. Under the Waiver Agreement, the Mexico Agent and the Mexico Lenders waived any default or event of default under the ING Credit Agreement resulting from the Company's filing of its bankruptcy petition with the Bankruptcy Court. Pursuant to the Waiver Agreement, outstanding amounts under the ING Credit Agreement now bear interest at a rate per annum equal to: the LIBOR Rate, the Base Rate, or the TIIE Rate, as applicable, plus the Applicable Margin (as those terms are defined in the ING Credit Agreement). While the Company is operating under its petitions for reorganization relief, the Waiver Agreement provides for an Applicable Margin for LIBOR loans, Base Rate loans, and TIIE loans of 6.0%, 4.0%, and 5.8%, respectively. The Waiver Agreement further amended the ING Credit Agreement to require the Mexico Borrower to make a mandatory prepayment of the revolving loans, in an aggregate amount equal to 100% of the net cash proceeds received by any Mexico Subsidiary, as applicable, in excess of thresholds specified in the ING Credit Agreement (i) from the occurrence of certain asset sales by the Mexico Subsidiaries; (ii) from the occurrence of any casualty or other insured damage to, or any taking under power of eminent domain or by condemnation or similar proceedings of, any property or asset of any Mexico Subsidiary; or (iii) from the incurrence of certain indebtedness by a Mexico Subsidiary. Any such mandatory prepayments will permanently reduce the amount of the commitment under the ING Credit Agreement. In connection with the Waiver Agreement, the Mexico Subsidiaries pledged substantially all of their receivables, inventory, and equipment and certain fixed assets.

Senior and Subordinated Notes. On January 24, 2007, the Company closed on the sale of \$400 million of 7 5/8% Senior Notes due 2015 and \$250 million of 8 3/8% Senior Subordinated Notes due 2017, sold at par. Interest is payable on May 1 and November 1 of each year, beginning November 1, 2007. The proceeds from the sale of the notes, after underwriting discounts, were used to (i) retire the loans outstanding under the Company's bridge loan agreement, (ii) repurchase \$77.5 million of the Company's 9 1/4% Senior Subordinated Notes due 2013 at a premium of \$7.4 million plus accrued interest of \$1.3 million and (iii) reduce outstanding revolving loans under the Pre-petition CoBank Facility. In January 2007, the Company had borrowed (i) \$780 million under the Pre-petition CoBank Facility and (ii) \$450 million under the bridge loan agreement to fund the Gold Kist acquisition. Loss on early extinguishment of debt recognized in 2007 includes the \$7.4 million premium along with unamortized loan costs of \$7.1 million related to the retirement of 9 1/4% Senior Subordinated Notes due 2013.

In September 2007, the Company redeemed all of its 9 5/8% Senior Notes due 2011 at a total cost of \$307.5 million. To fund a portion of the aggregate redemption price, the Company sold \$300 million of trade receivables under its RPA. Loss on early extinguishment of debt recognized in 2007 includes the \$9.5 million premium along with unamortized loan costs of \$2.5 million related to the retirement of these notes.

Exit Credit Facility. Upon exiting from bankruptcy, the Company and certain of its subsidiaries, consisting of To-Ricos, Ltd. and To-Ricos Distribution, Ltd. (collectively, the “To-Ricos Borrowers”), expect to enter into the Exit Credit Facility that provides for an aggregate commitment of up to \$1,750 million consisting of (i) a revolving loan commitment of at least \$600 million, (ii) a term loan A commitment of up to \$375 million and (iii) a term loan B commitment of up to \$775 million. The revolving loan commitment will mature in 2012. Term A loans, which cannot exceed \$375 million in the aggregate, will mature in 2012. Term B loans, which cannot exceed \$775 million in the aggregate, will mature in 2014. CoBank ACB will serve as administrative agent (“Exit Facility Agent”) on behalf of the lenders under the Exit Credit Facility. The Company has received non-binding mandate letters from the potential lenders party to the Exit Credit Facility.

The Term A loans mature three years from the effective date of the Exit Credit Facility and must be repaid in 12 equal quarterly principal installments of \$12.5 million beginning on April 15, 2010, with the final installment due on the maturity date for the Term A loans. The Term B loans mature five years from the effective date of the Exit Credit Facility and must be repaid in 16 equal quarterly principal installments of \$12.5 million beginning on April 15, 2011, with the final installment due on the maturity date for the Term B loans. Additionally, following the end of each fiscal year, a portion of our cash flow must be used to repay outstanding principal amounts under the Term A and Term B loans. Covenants in the Exit Credit Facility will also require us to use the proceeds we receive from certain asset sales and specified debt or equity issuances and upon the occurrence of other events to repay outstanding borrowings under the Exit Credit Facility.

The Exit Credit Facility includes a \$50 million sub-limit for swingline loans and a \$200 million sub-limit for letters of credit. Outstanding borrowings under the revolving loan commitment will bear interest at a per annum rate equal to 3.50% plus the greater of (i) the US prime rate as published by the *Wall Street Journal*, (ii) the average federal funds rate plus 0.5%, and (iii) the one-month LIBOR rate plus 1.0%, in the case of alternate base rate loans, or 4.50% plus the one, two, three or six month LIBOR rate adjusted by the applicable statutory reserve, in the case of Eurodollar loans. Outstanding Term A and Term B-1 loans will bear interest at a per annum rate equal to 4.00% plus greater of (i) the U.S. prime rate, as published by the *Wall Street Journal*, (ii) the average federal funds rate plus 0.5%, and (iii) the one month LIBOR rate plus 1.0%, in the case of alternate base rate loans, or 5.00%, plus the one, two, three or six month LIBOR Rate adjusted by the applicable statutory reserve, in the case of Eurodollar loans. Outstanding Term B-2 loans will bear interest at a per annum rate equal to 9.00%. Commitment fees charged on the revolving commitments under the Exit Credit Facility will accrue at a per annum rate equal to 1.00%.

The proceeds of the borrowings under the Exit Credit Facility will be used to (i) repay outstanding secured and unsecured indebtedness of the Company and (ii) pay fees, costs and expenses related to and contemplated by the Exit Credit Facility and the Proposed Plan. In addition, proceeds of the borrowings under the revolving loan commitment will be used to finance the general corporate purposes of the borrowers (including capital expenditures, permitted acquisitions and principal and interest under the Exit Credit Facility).

Actual borrowings by the Company under the Exit Credit Facility will be subject to a borrowing base, which is a formula based on certain eligible inventory, eligible receivables and restricted cash under the control of the Exit Facility Agent. The borrowing base formula will be reduced by the sum of (i) inventory reserves, (ii) rent and collateral access reserves, and (iii) any amount more than 15 days past due that is owed by the Company or its subsidiaries to any person on account of the purchase price of agricultural products or services (including poultry and livestock) if that person is entitled to any grower's or producer's lien or other security arrangement. Revolving loan availability under the borrowing base also will be limited to an aggregate of \$25 million with respect to the To-Ricos Borrowers.

The Exit Credit Facility will provide that the Company may not incur capital expenditures in excess of \$225 million in fiscal year 2010, \$275 million in fiscal year 2011 and \$350 million per fiscal year thereafter. The Company must also maintain a minimum fixed charge coverage ratio and a minimum level of tangible net worth and may not exceed a maximum leverage ratio. The Exit Credit Facility will contain various covenants that may adversely affect our ability to, among other things, incur additional indebtedness, incur liens, pay dividends or make certain restricted payments, consummate certain asset sales, enter into certain transactions with JBS USA and our other affiliates, merge, consolidate and/or sell or dispose of all or substantially all of our assets.

All obligations under the Exit Credit Facility will be unconditionally guaranteed by certain of the Company's subsidiaries and will be secured by a first priority lien on (i) the domestic (including Puerto Rico) accounts and inventory of the Company and its subsidiaries, (ii) 100% of the equity interests in the To-Ricos Borrowers and the Company's domestic subsidiaries and 65% of the equity interests in the Company's direct foreign subsidiaries, (iii) substantially all of the personal property and intangibles of the Company, the To-Ricos Borrowers and the guarantor subsidiaries, and (iv) substantially all of the real estate and fixed assets of the Company and the subsidiary guarantors.

The Exit Credit Facility will allow the Company to provide additional advances to its subsidiaries in an amount equal to the net amount of such advances in effect on the date of the Exit Credit Facility plus \$30 million. Management believes that all of the Company's subsidiaries, including the Company's Mexican subsidiaries, will be able to operate within this limitation.

The Proposed Plan contemplates that the notes under the Company's outstanding indentures will be reinstated unless and to the extent a holder of the notes elects to receive a cash payment equal to the principal amounts of the notes plus unpaid interest that had accrued pre-petition with interest accruing on such interest at the default contract rate through the effective date of the Proposed Plan and the unpaid post-petition interest at the non-default contract rate through the effective date. To the extent the holders of these notes elect reinstatement, then the amount of the term loan commitments under the Exit Credit Facility will be reduced on a dollar-for-dollar and pro rata basis.

During 2009, the Company borrowed \$616.7 million and repaid \$525.6 million under the Pre-petition CoBank Facility, borrowed \$216.8 million and repaid \$179.7 million under the Pre-petition BMO Facility, borrowed and repaid \$430.8 million under the DIP Credit Agreement and repaid \$14.4 million under other facilities.

In September 2008, the Company notified its lenders that it expected to incur a significant loss in the fourth quarter of 2008 and entered into agreements with them to temporarily waive the fixed-charge coverage ratio covenant under its credit facilities. The lenders agreed to continue to provide liquidity under the credit facilities during the thirty-day period ended October 28, 2008. On October 27, 2008, the Company entered into further agreements with its lenders to temporarily waive the fixed-charge coverage ratio and leverage ratio covenants under its credit facilities. The lenders agreed to continue to provide liquidity under the credit facilities during the thirty-day period ended November 26, 2008. On November 26, 2008, the Company entered into further agreements with its lenders to extend the temporary waivers until December 1, 2008.

As of the date of the filing of the bankruptcy petitions, events of default existed under the Pre-petition BMO Facility and the Pre-petition CoBank Facility (together, the “Secured Debt”) as well as the 7 5/8% Senior Notes due 2015, the 8 3/8% Senior Subordinated Notes due 2017 and the 9 1/4% Senior Subordinated Notes due 2013 (together, the “Unsecured Debt”). The aggregate principal amount owed under these credit facilities and notes was approximately \$2,002.3 million as of September 26, 2009. As a result of such events of default, all obligations under these credit facilities became automatically and immediately due and payable, subject to an automatic stay of any action to collect, assert, or recover a claim against the Company and the application of applicable bankruptcy law. In connection with the Company's post-petition financing and the agreement of the prepetition secured lenders to permit use of cash collateral, the Company agreed to accrue interest incurred on the Secured Debt at the default rate, which is two percentage points above the interest rate otherwise applicable under the respective credit facilities. Although the agreements related to the Unsecured Debt call for the accrual of interest after December 1, 2008, at a default rate that is two percentage points above the interest rate otherwise applicable under the associated note agreements, the Company has elected to accrue interest incurred on the Unsecured Debt, for accounting purposes, at the interest rate otherwise applicable under the associated note agreements. There is currently a dispute between the Company and certain note holders and indenture trustees with respect to the appropriate rate of interest that is payable on the Unsecured Debt post petition. That dispute will be resolved either by a ruling by the Bankruptcy Court or an agreement between the Company and the note holders and indenture trustees. Had the Company accrued interest incurred on the Unsecured Debt at the default rate, it would have recognized additional interest expense totaling \$10.9 million in 2009.

Our loan agreements generally obligate us to reimburse the applicable lender for incremental increased costs due to a change in law that imposes (i) any reserve or special deposit requirement against assets of, deposits with or credit extended by such lender related to the loan, (ii) any tax, duty or other charge with respect to the loan (except standard income tax) or (iii) capital adequacy requirements. In addition, some of our loan agreements contain a withholding tax provision that requires us to pay additional amounts to the applicable lender or other financing party, generally if withholding taxes are imposed on such lender or other financing party as a result of a change in the applicable tax law. These increased cost and withholding tax provisions continue for the entire term of the applicable transaction, and there is no limitation on the maximum additional amounts we could be obligated to pay under such provisions.

Off-Balance Sheet Arrangements

In June 1999, the Camp County Industrial Development Corporation issued \$25 million of variable-rate environmental facilities revenue bonds supported by letters of credit obtained by us under our secured revolving credit facility expiring in 2013. Prior to our bankruptcy filing, the proceeds were available for the Company to draw from over the construction period in order to construct new sewage and solid waste disposal facilities at a poultry by-products plant in Camp County, Texas. The original proceeds from the issuance of the revenue bonds were held by the trustee of the bonds until we drew on the proceeds for the construction of the facility. We had not drawn on the proceeds or commenced construction of the facility prior to our bankruptcy filing. The filing of the bankruptcy petitions constituted an event of default under these bonds. As a result of the event of default, the trustee had the right to accelerate all obligations under the bonds such that they become immediately due and payable, subject to an automatic stay of any action to collect, assert, or recover a claim against the Company and the application of applicable bankruptcy law. In December 2008, the holders of the bonds tendered the bonds for remarketing, which was not successful. As a result, the trustee, on behalf of the holders of the bonds, drew upon the letters of credit supporting the bonds. The resulting reimbursement obligation was converted to borrowings under the secured revolving credit facility expiring in 2013 and secured by our domestic chicken inventories. On January 29, 2009, we obtained approval from the Bankruptcy Court to use the original proceeds of the bond offering held by the trustee to repay and cancel the revenue bonds. We received the proceeds of the bond offering from the trustee in March 2009 and immediately repaid and cancelled the revenue bonds.

In connection with the RPA, the Company sold, on a revolving basis, certain of its trade receivables to a special purpose entity (“SPE”) wholly owned by the Company, which in turn sold a percentage ownership interest to third parties. The SPE was a separate corporate entity and its assets were available first and foremost to satisfy the claims of its creditors. The gross proceeds resulting from the sales were included in cash flows from operating activities in the Consolidated Statements of Cash Flows. The loss recognized on the sold receivables during the 2009 was not material. On December 3, 2008, the RPA was terminated and all receivables thereunder were repurchased with proceeds of borrowings under the DIP Credit Agreement.

We maintain operating leases for various types of equipment, some of which contain residual value guarantees for the market value of assets at the end of the term of the lease. The terms of the lease maturities range from one to seven years. We estimate the maximum potential amount of the residual value guarantees is approximately \$10.6 million; however, the actual amount would be offset by any recoverable amount based on the fair market value of the underlying leased assets. No liability has been recorded related to this contingency as the likelihood of payments under these guarantees is not considered to be probable and the fair value of the guarantees is immaterial. We historically have not experienced significant payments under similar residual guarantees.

We are a party to many routine contracts in which we provide general indemnities in the normal course of business to third parties for various risks. Among other considerations, we have not recorded a liability for any of these indemnities as, based upon the likelihood of payment, the fair value of such indemnities would not have a material impact on our financial condition, results of operations and cash flows.

Contractual Obligations

In addition to our debt commitments at September 26, 2009, we had other commitments and contractual obligations that obligate us to make specified payments in the future. The filing of the Chapter 11 petitions constituted an event of default under certain of our debt obligations, and those debt obligations became automatically and immediately due and payable, subject to an automatic stay of any action to collect, assert, or recover a claim against the Company and the application of applicable bankruptcy law. The following table summarizes the total amounts due as of September 26, 2009, under all debt agreements, commitments and other contractual obligations. We are in the process of evaluating our executory contracts in order to determine which contracts will be assumed in our Chapter 11 proceedings. Therefore, obligations as currently quantified in the table below and in the footnotes to the table are expected to change. The table indicates the years in which payments are due under the contractual obligations.

Assuming that acceleration of certain long-term debt maturities did not occur, contractual obligations at September 26, 2009, were as follows:

Contractual Obligations ^(f)	Payments Due By Period				
	Total	Less than 1 year	1-3 years (In millions)	3-5 years	More than 5 years
Long-term debt ^{(a)(b)}	\$ 2,043.4	\$ 2.1	\$ 45.3	\$ 230.1	\$ 1,765.9
Interest ^(c)	677.6	114.9	223.5	203.1	136.1
Guarantee fees ^(d)	42.8	6.7	13.4	11.6	11.1
Capital leases	1.9	0.3	0.5	0.6	0.5
Operating leases	91.7	39.8	42.9	8.9	0.1
Purchase obligations ^(e)	91.6	91.6	—	—	—
Total	\$ <u>2,949.0</u>	\$ <u>255.4</u>	\$ <u>325.6</u>	\$ <u>454.3</u>	\$ <u>1,913.7</u>

- (a) Long-term debt excludes \$65.9 million in letters of credit outstanding related to normal business transactions. Subsequent to September 26, 2009, beneficiaries drew on \$62.9 million of these letters of credit and outstanding borrowings under the Pre-petition BMO Facility were correspondingly increased.
- (b) As a result of the Chapter 11 filing, substantially all long-term debt became automatically and immediately due and payable, subject to an automatic stay of any action to collect, assert, or recover a claim against the Company and the application of applicable bankruptcy law.
- (c) Interest rates on long-term debt were increased as a result of the Chapter 11 filing and the amounts that will actually be paid related to interest are uncertain as they will be subject to the claims process in the bankruptcy case. Interest expense in the table above assumes the continuation of interest rates and outstanding borrowings under our credit facilities as of September 26, 2009.
- (d) Pursuant to the terms of the DIP Credit Agreement, the Company may not pay any guarantee fees without the consent of the lenders party thereto; however, the amounts reflected above represent the amounts which are otherwise due and payable.
- (e) Includes agreements to purchase goods or services that are enforceable and legally binding on us and that specify all significant terms, including fixed or minimum quantities to be purchased; fixed, minimum, or variable price provisions; and the approximate timing of the transaction.
- (f) The total amount of PPC's unrecognized tax benefits at September 26, 2009 was \$22.7 million. We did not include this amount in the contractual obligations table above as reasonable estimates cannot be made at this time of the amounts or timing of future cash outflows.

Historical Flow of Funds

Cash provided by operating activities was \$75.0 million for 2009 as compared to cash used in operations of \$680.7 million for 2008. The improvement in cash flows from operating activities was primarily the result of favorable changes in net working capital as well as a smaller net loss incurred in 2009 as compared to the net loss incurred in 2008.

Our working capital position increased \$2,120.3 million to a surplus of \$858.0 million and a current ratio of 2.69 at September 26, 2009, compared with a deficit of \$1,262.2 million and a current ratio of 0.53 at September 27, 2008, primarily because of a significant decrease in current maturities of long-term debt and the other working capital changes discussed below. Current maturities of long-term debt decreased from \$1,874.5 million at September 27, 2008, to \$0 at September 26, 2009, as most long-term debt was classified as liabilities subject to compromise because of the bankruptcy proceedings.

Trade accounts and other receivables increased \$172.8 million, or 119.9%, to \$317.0 million at September 26, 2009, from \$144.2 million at September 27, 2008. This increase resulted primarily from our repurchase of receivables originally sold under the RPA. On December 3, 2008, the RPA was terminated and all receivables thereunder were repurchased with proceeds of borrowings under the DIP Credit Agreement.

Inventories decreased \$272.3 million, or 26.3%, to \$763.9 million at September 26, 2009, from \$1,036.2 million at September 27, 2008, due to lower feed ingredient prices and several restructuring actions taken by the Company. These actions include the Company's previously announced production cutbacks and plant closures that resulted in reduced live flock inventories, feed inventories, and packaging and other supplies inventories. Additionally, the Company made a concerted effort early in the year to sell down surplus inventories in order to generate cash.

Prepaid expenses and other current assets decreased \$43.9 million, or 49.4%, to \$45.0 million at September 26, 2009, from \$88.9 million at September 27, 2008. This decrease occurred primarily because the Company suspended the use of derivative financial instruments in response to its current financial condition. We settled all outstanding derivative financial instruments in October 2008.

Accounts payable decreased \$196.7 million, or 51.9%, to \$182.2 million at September 26, 2009, from \$378.9 million at September 27, 2008. This decrease occurred for various reasons, including lower feed ingredient prices, the impact of the Company's previously announced production cutbacks, the elimination of a negative book cash position maintained with one of the Company's cash management providers and because certain vendors with which the Company previously maintained open trade accounts required prepayments for all future deliveries after learning about the Company's current financial condition. Additionally, at September 26, 2009, we classified accounts payable totaling \$85.3 million as liabilities subject to compromise because of the bankruptcy.

Accrued expenses decreased \$139.5 million, or 31.1%, to \$309.3 million at September 26, 2009, from \$448.8 million at September 27, 2008. This decrease resulted from reductions in the accrued balances for marketing, restructuring, severance and utilities costs and the transition from a self-insured workers compensation program in prior years to a fully-insured, prepaid workers compensation program in the current year. Additionally, at September 26, 2009, we classified accrued expenses totaling \$139.3 million as liabilities subject to compromise because of the bankruptcy.

Cash used in investing activities was \$13.5 million and \$121.6 million in 2009 and 2008, respectively. Capital expenditures of \$88.2 million and \$152.5 million for 2009 and 2008, respectively, were primarily incurred for the routine replacement of equipment and to improve efficiencies and reduce costs. Capital expenditures for 2009 were restricted to routine replacement of equipment in our current operations in addition to important projects we began in 2008 and cannot exceed \$150 million as allowed under the terms of the DIP Credit Agreement. Cash was used to purchase investment securities totaling \$19.9 million and \$38.0 million in the 2009 and 2008, respectively. Cash proceeds in 2009 and 2008 from the sale or maturity of investment securities were \$18.9 million and \$27.5 million, respectively. Restricted cash increased \$10.1 million in 2009 to collateralize self insurance obligations. Cash proceeds from property disposals in 2009 and 2008 were \$85.8 million and \$41.4 million, respectively.

Cash provided by financing activities was \$101.2 million and \$797.7 million in 2009 and 2008, respectively. Cash proceeds in 2009 from borrowings under the DIP Credit Agreement were \$430.8 million. Cash was used to repay outstanding borrowings under the DIP Credit Agreement totaling \$430.8 million in 2009. Cash proceeds in 2009 and 2008 from long-term debt were \$833.4 million and \$2,264.9 million, respectively. Cash was used to repay long-term debt totaling \$719.7 million and \$1,646.0 million in 2009 and 2008, respectively. Cash proceeds in 2008 from the sale of common stock were \$177.2 million. Cash used in 2009 because of a decrease in outstanding cash management obligations totaled \$11.2 million. Cash provided in 2008 because of an increase in outstanding cash management obligations totaled \$13.5 million. Cash was used for other financing activities totaling \$1.3 million and \$5.6 million in 2009 and 2008, respectively. Cash was used to pay dividends totaling \$6.3 million in 2008.

Recently Adopted Accounting Pronouncements

On September 26, 2009, the Company adopted Statement of Financial Accounting Standards No. 168, *The FASB Accounting Standards Codification*[™] and *The Hierarchy of Generally Accepted Accounting Principles* (“ASC” or “Codification”). The Codification became the source of authoritative generally accepted accounting principles (“GAAP”) recognized by the Financial Accounting Standards Board (“FASB”) to be applied by nongovernmental entities. Rules and interpretive releases of the SEC under authority of federal securities laws are also sources of authoritative GAAP for SEC registrants. The Codification supersedes all existing non-SEC accounting and reporting standards. All other non-grandfathered, non-SEC accounting literature not included in the Codification is non-authoritative. GAAP is not intended to be changed as a result of this statement, but will change the way the guidance is organized and presented. The Company has implemented the Codification in the consolidated financial statements by providing references to the ASC topics.

On September 28, 2008, the Company adopted guidance under ASC 820-10 for financial assets and liabilities and nonfinancial assets and liabilities that are recognized or disclosed at fair value in the financial statements on a recurring basis. The Company will not adopt the subject guidance under ASC 820-10 until September 27, 2009 for nonfinancial assets and liabilities that are not recognized or disclosed at fair value in the financial statements on a recurring basis. The subject guidance under ASC 820-10 clarifies the definition of fair value and the methods used to measure fair value. It also expands disclosures about fair value measurements. The adoption of the subject guidance under ASC 820-10 did not have a material impact on the Company's consolidated financial statements.

Effective March 29, 2009, the Company adopted guidance under ASC 855-10 that establishes general standards of accounting for and disclosure of events that occur after the balance sheet date but before financial statements are issued or are available to be issued. The adoption of the subject guidance under ASC 855-10 did not have a material impact on the Company's consolidated financial statements.

Accounting Pronouncements Issued But Not Yet Adopted

In December 2007, the FASB issued guidance under ASC 805 that establishes principles and requirements for how the acquirer (i) recognizes and measures in its financial statements the identifiable assets acquired, the liabilities assumed, and any noncontrolling interest in the acquiree, (ii) recognizes and measures the goodwill acquired in the business combination or a gain from a bargain purchase, and (iii) determines what information to disclose to enable users of the financial statements to evaluate the nature and financial effects of the business combination. It also requires an acquirer to recognize as expense most transaction and restructuring costs as incurred, rather than include such items in the cost of the acquired entity. For the Company, the subject guidance under ASC 805 will apply prospectively to business combinations for which the acquisition date is on or after September 27, 2009. The Company will evaluate the impact of the subject guidance under ASC 805 on any potential future business combinations that may occur on or after the effective date.

In December 2007, the FASB issued guidance under ASC 810-10 that establishes standards for how a reporting entity (i) identifies, labels and presents in its consolidated statement of financial position the ownership interests in subsidiaries held by parties other than itself, (ii) identifies and presents on the face of its consolidated statement of operations the amount of consolidated net income attributable to itself and to the noncontrolling interest, (iii) accounts for changes in its ownership interest while it retains a controlling financial interest in a subsidiary, (iv) initially measures any retained noncontrolling equity investment in a subsidiary that is deconsolidated, and (v) discloses other information about its interests and the interests of the noncontrolling owners. For the Company, the subject guidance under ASC 810-10 will apply prospectively effective September 27, 2009. The Company should also apply retroactively the presentation and disclosure requirements of the subject guidance under ASC 810-10 for all periods presented at that time. The Company does not expect the adoption of the subject guidance under ASC 810-10 will have a material impact on its consolidated financial statements.

In April 2008, the FASB issued guidance under both ASC 275-10 and ASC 350-30 that amends the factors an entity should consider in developing renewal or extension assumptions used in determining the useful life of recognized intangible assets. For the Company, the subject guidance under ASC 275-10 and ASC 350-30 will apply prospectively to intangible assets acquired on or after September 27, 2009. The Company does not expect the adoption of the subject guidance under ASC 275-10 or ASC 350-30 will have a material impact on its consolidated financial statements.

In December 2008, the FASB issued guidance under ASC 715-20 that provides guidance on an employer's disclosures about plan assets of a defined benefit pension or other postretirement plan, including disclosures about investment policies and strategies, categories of plan assets, fair value measurements of plan assets and significant concentrations of risk. For the Company, the subject guidance under ASC 715-20 will apply to the Company's postretirement benefit plan assets effective September 27, 2009. The Company does not expect the adoption of the subject guidance under ASC 715-20 will have a material impact on its consolidated financial statements.

Critical Accounting Policies and Estimates

General. Our discussion and analysis of our financial condition and results of operations are based upon our financial statements, which have been prepared in accordance with accounting principles generally accepted in the US. The preparation of these financial statements requires us to make estimates and judgments that affect the reported amounts of assets, liabilities, revenues and expenses. On an ongoing basis, we evaluate our estimates, including those related to revenue recognition, customer programs and incentives, allowance for doubtful accounts, inventories, income taxes and product recall accounting. We base our estimates on historical experience and on various other assumptions that are believed to be reasonable under the circumstances, the results of which form the basis for making judgments about the carrying values of assets and liabilities that are not readily apparent from other sources. Actual results may differ from these estimates under different assumptions or conditions.

We believe the following critical accounting policies affect our more significant judgments and estimates used in the preparation of our financial statements.

Revenue Recognition. Revenue is recognized upon shipment and transfer of ownership of the product to the customer and is recorded net of estimated incentive offerings including special pricing agreements, promotions and other volume-based incentives. Revisions to these estimates are charged back to net sales in the period in which the facts that give rise to the revision become known.

Inventory. Live chicken inventories are stated at the lower of cost or market and breeder hens at the lower of cost, less accumulated amortization, or market. The costs associated with breeder hens are accumulated up to the production stage and amortized over their productive lives using the unit-of-production method. Finished poultry products, feed, eggs and other inventories are stated at the lower of cost (average) or market. We record valuations and adjustments for our inventory and for estimated obsolescence at or equal to the difference between the cost of inventory and the estimated market value based upon known conditions affecting inventory obsolescence, including significantly aged products, discontinued product lines, or damaged or obsolete products. We allocate meat costs between our various finished chicken products based on a by-product costing technique that reduces the cost of the whole bird by estimated yields and amounts to be recovered for certain by-product parts. This primarily includes leg quarters, wings, tenders and offal, which are carried in inventory at the estimated recovery amounts, with the remaining amount being reflected as our breast meat cost. Generally, the Company performs an evaluation of whether any lower of cost or market adjustments are required at the segment level based on a number of factors, including: (i) pools of related inventory, (ii) product continuation or discontinuation, (iii) estimated market selling prices and (iv) expected distribution channels. If actual market conditions or other factors are less favorable than those projected by management, additional inventory adjustments may be required. At September 27, 2008, the Company lowered the carrying value of its inventories by \$26.6 million due to lower-of-cost-or-market adjustments. No such adjustment was required at September 26, 2009.

Property, Plant and Equipment. The Company records impairment charges on long-lived assets used in operations when events and circumstances indicate that the assets may be impaired and the undiscounted cash flows estimated to be generated by those assets are less than the carrying amount of those assets. The impairment charge is determined based upon the amount the net book value of the assets exceeds their fair market value. In making these determinations, the Company utilizes certain assumptions, including, but not limited to: (i) future cash flows estimated to be generated by these assets, which are based on additional assumptions such as asset utilization, remaining length of service and estimated salvage values; (ii) estimated fair market value of the assets; and (iii) determinations with respect to the lowest level of cash flows relevant to the respective impairment test, generally groupings of related operational facilities. Given the interdependency of the Company's individual facilities during the production process, which operate as a vertically integrated network, and the fact that the Company does not price transfers of inventory between its vertically integrated facilities at market prices, it evaluates impairment of assets held and used at the country level (i.e., the US and Mexico) within each segment. Management believes this is the lowest level of identifiable cash flows for its assets that are held and used in production activities. At the present time, the Company's forecasts indicate that it can recover the carrying value of its assets based on the projected cash flows of the operations. A key assumption in management's forecast is that the Company's sales volumes will return to historical margins as supply and demand between commodities and chicken and other animal-based proteins become more balanced. However, the exact timing of the return to historical margins is not certain and if the return to historical margins is delayed, impairment charges could become necessary in the future. The Company recognized impairment charges related to closed production complexes and distribution centers totaling \$5.4 million and \$10.2 million during 2009 and 2008, respectively.

Goodwill. The Company evaluated goodwill for impairment annually or at other times when events and circumstances indicated the carrying value of this asset might no longer be fully recoverable. The Company first compared the fair value of each reporting unit, determined using both income and market approaches, to its carrying value. To determine the fair value of each reporting unit, the Company utilized certain assumptions, including, but not limited to: (i) future cash flows estimated to be generated by each reporting unit, which are based on additional assumptions such as future market growth and trends, forecasted revenue and costs, appropriate discount rates and other variables, (ii) estimated value of the enterprise in the equity markets, and (iii) determinations with respect to the combination of operations that comprise a reporting unit. If the fair value of a reporting unit exceeded the carrying value of the net assets assigned to that unit, goodwill was not impaired and the Company did not perform further testing. If the carrying value of a reporting unit's net assets exceeded the fair value of the reporting unit, then the Company determined the implied fair value of the reporting unit's goodwill. If the carrying value of a reporting unit's goodwill exceeded its implied fair value, then an impairment of goodwill had occurred and the Company recognized an impairment loss for the difference between the carrying amount and the implied fair value of goodwill. During 2008, the Company recognized an impairment charge of \$501.4 million that eliminated all goodwill.

Litigation and Contingent Liabilities. The Company is subject to lawsuits, investigations and other claims related to employment, environmental, product, and other matters. It is required to assess the likelihood of any adverse judgments or outcomes to these matters as well as potential ranges of probable losses. A determination of the amount of reserves required, including legal defense costs, if any, for these contingencies is made when losses are determined to be probable and loss amounts can be reasonably estimated, and after considerable analysis of each individual issue. With respect to our environmental remediation obligations, the accrual for environmental remediation liabilities is measured on an undiscounted basis. These reserves may change in the future due to favorable or adverse judgments, changes in the Company's assumptions, the effectiveness of strategies or other factors beyond the Company's control.

Accrued Self Insurance. Insurance expense for casualty claims and employee-related health care benefits are estimated using historical experience and actuarial estimates. Stop-loss coverage is maintained with third-party insurers to limit the Company's total exposure. Certain categories of claim liabilities are actuarially determined. The assumptions used to arrive at periodic expenses are reviewed regularly by management. However, actual expenses could differ from these estimates and could result in adjustments to be recognized.

Income Taxes. The provision for income taxes has been determined using the asset and liability approach of accounting for income taxes. Under this approach, deferred income taxes reflect the net tax effect of temporary differences between the book and tax bases of recorded assets and liabilities, net operating losses and tax credit carry forwards. The amount of deferred tax on these temporary differences is determined using the tax rates expected to apply to the period when the asset is realized or the liability is settled, as applicable, based on the tax rates and laws in the respective tax jurisdiction enacted as of the balance sheet date.

Realizability of Deferred Tax Assets. The Company reviews its deferred tax assets for recoverability and establishes a valuation allowance based on historical taxable income, potential for carry back of tax losses, projected future taxable income, applicable tax strategies, and the expected timing of the reversals of existing temporary differences. A valuation allowance is provided when it is more likely than not that some or all of the deferred tax assets will not be realized. Valuation allowances have been established primarily for US federal and state net operating loss carry forwards and Mexico net operating loss carry forwards. See Note N—Income Taxes to the Consolidated Financial Statements.

Indefinite Reinvestment in Foreign Subsidiaries. Taxes are provided for foreign subsidiaries based on the assumption that their earnings will be indefinitely reinvested. As such, US deferred income taxes have not been provided on these earnings. If such earnings were not considered indefinitely reinvested, certain deferred foreign and US income taxes would be provided.

Accounting for Uncertainty in Income Taxes. On September 30, 2007, we adopted guidance under ASC 740-10-25 that provides a recognition threshold and measurement criteria for the financial statement recognition of a tax benefit taken or expected to be taken in a tax return. Tax benefits are recognized only when it is more likely than not, based on the technical merits, that the benefits will be sustained on examination. Tax benefits that meet the more-likely-than-not recognition threshold are measured using a probability weighting of the largest amount of tax benefit that has greater than 50% likelihood of being realized upon settlement. Whether the more-likely-than-not recognition threshold is met for a particular tax benefit is a matter of judgment based on the individual facts and circumstances evaluated in light of all available evidence as of the balance sheet date. See Note N—Income Taxes to the Consolidated Financial Statements.

Pension and Other Postretirement Benefits. The Company's pension and other postretirement benefit costs and obligations are dependent on the various actuarial assumptions used in calculating such amounts. These assumptions relate to discount rates, salary growth, long-term return on plan assets, health care cost trend rates and other factors. The Company bases the discount rate assumptions on current investment yields on high-quality corporate long-term bonds. The salary growth assumptions reflect our long-term actual experience and future or near-term outlook. Long-term return on plan assets is determined based on historical portfolio results and management's expectation of the future economic environment. Our health care cost trend assumptions are developed based on historical cost data, the near-term outlook and an assessment of likely long-term trends. Actual results that differ from our assumptions are accumulated and, if in excess of the lesser of 10% of the project benefit obligation or the fair market value of plan assets, amortized over the estimated future working life of the plan participants.

Item 7A. Quantitative and Qualitative Disclosures about Market Risk

Market Risk-Sensitive Instruments and Positions

The risk inherent in our market risk-sensitive instruments and positions is primarily the potential loss arising from adverse changes in the price of feed ingredients, foreign currency exchange rates, interest rates and the credit quality of its available-for-sale securities as discussed below. The sensitivity analyses presented do not consider the effects that such adverse changes may have on overall economic activity, nor do they consider additional actions our management may take to mitigate our exposure to such changes. Actual results may differ.

Feed Ingredients. We purchase certain commodities, primarily corn and soybean meal, for use as ingredients in the feed we either sell commercially or consume in our live operations. As a result, our earnings are affected by changes in the price and availability of such feed ingredients. In the past, we have from time to time attempted to minimize our exposure to the changing price and availability of such feed ingredients using various techniques, including, but not limited to, (i) executing purchase agreements with suppliers for future physical delivery of feed ingredients at established prices and (ii) purchasing or selling derivative financial instruments such as futures and options. Pursuant to the DIP Credit Agreement, we agreed that we would not execute any derivative financial instruments without the prior written approval of lenders holding more than 50% of the commitments under the DIP Credit Agreement, except for commodity derivative instruments entered into at the request or direction of a customer, and in any case, only with financial institutions in connection with bona fide activities in the ordinary course of business and not for speculative purposes. The Company is also allowed, under limited circumstances and subject to specified conditions in the DIP Credit Agreement, to execute certain ordinary course derivative financial instruments relating to feed ingredients used by the Company and its subsidiaries in their businesses. The Company may only execute derivative financial instruments that satisfy the following conditions, among other restrictions: (i) the instrument is traded on a recognized commodity exchange; (ii) the instrument expiration date is no later than March 21, 2010, or a later date if agreed to by the DIP Agent; (iii) the Company and its subsidiaries do not have open forward, futures or options positions in the subject commodity, other than commodity risk management arrangements entered into at the request or direction of a customer, in excess of 50% of the Company's expected usage of such commodity for a specified period; (iv) the instrument is not executed for speculative purposes; and (v) the Company will not have more than \$100 million in margin requirements with respect to all such non-customer derivative financial instruments.

Market risk is estimated as a hypothetical 10% increase in the weighted-average cost of our primary feed ingredients as of September 26, 2009. Based on our feed consumption during 2009, such an increase would have resulted in an increase to cost of sales of approximately \$243.9 million, excluding the impact of any feed ingredients derivative financial instruments in that period. A 10% change in ending feed ingredients inventories at September 26, 2009 would be \$8.0 million, excluding any potential impact on the production costs of our chicken inventories. As of September 27, 2008, the fair market value of the Company's open derivative positions related to commodities was an \$18.0 million liability. During 2009, the Company liquidated its open derivative positions related to commodities and recognized a loss of \$21.1 million.

Foreign Currency. Our earnings are affected by foreign exchange rate fluctuations related to the Mexican peso net monetary position of our Mexican subsidiaries. We manage this exposure primarily by attempting to minimize our Mexican peso net monetary position. We are also exposed to the effect of potential exchange rate fluctuations to the extent that amounts are repatriated from Mexico to the US. However, we currently anticipate that the future cash flows of our Mexican subsidiaries will be reinvested in our Mexican operations. In addition, the Mexican peso exchange rate can directly and indirectly impact our financial condition and results of operations in several ways, including potential economic recession in Mexico because of devaluation of their currency. The impact on our financial position and results of operations resulting from a hypothetical change in the exchange rate between the US dollar and the Mexican peso cannot be reasonably estimated. Foreign currency exchange gains and losses, representing the change in the US dollar value of the net monetary assets of our Mexican subsidiaries denominated in Mexican pesos, was a loss of \$0.1 million in 2009, a gain of \$0.6 million in 2008 and a loss of \$1.4 million in 2007. The average exchange rates for 2009, 2008 and 2007 were 13.49 Mexican pesos to 1 US dollar, 10.61 Mexican pesos to 1 US dollar and 10.95 Mexican pesos to 1 US dollar, respectively. No assurance can be given as to how future movements in the Mexican peso could affect our future financial condition or results of operations.

Interest Rates. Our earnings are also affected by changes in interest rates due to the impact those changes have on our variable-rate debt instruments. We had variable-rate debt instruments representing approximately 57.0% of our total debt at September 26, 2009. Holding other variables constant, including levels of indebtedness, an increase in interest rates of 25 basis points would have increased our interest expense by \$3.0 million for 2009. These amounts are determined by considering the impact of the hypothetical interest rates on our variable-rate debt at September 26, 2009.

Market risk for fixed-rate debt is estimated as the potential increase in fair value resulting from a hypothetical decrease in interest rates of 25 basis points. Using a discounted cash flow analysis, the market risk on fixed-rate debt totaled \$66.2 million as of September 26, 2009. Our public debt is currently trading at a premium. As of November 20, 2009, the most recent trades of our 7 5/8% senior unsecured notes and 8 3/8% senior subordinated unsecured notes were executed at average prices of \$111.67 per \$100.00 par value and \$111.08 per \$100.00 par value, respectively. Management expects that the fair value of our non-public fixed-rate debt has also increased, but cannot reliably estimate the fair value at this time.

Available-for-Sale Securities. The Company and certain retirement plans that it sponsors invest in a variety of financial instruments. In response to the continued turbulence in global financial markets, we have analyzed our portfolios of investments and, to the best of our knowledge, none of our investments, including money market funds units, commercial paper and municipal securities, have been downgraded because of this turbulence, and neither we nor any fund in which we participate hold significant amounts of structured investment vehicles, mortgage backed securities, collateralized debt obligations, auction-rate securities, credit derivatives, hedge funds investments, fund of funds investments or perpetual preferred securities. At September 26, 2009, the fair value of the Company's available-for-sale portfolio was \$62.6 million. Management does not believe a hypothetical change in interest rates of 25 basis points or a 10% decrease in equity prices would be material to the Company.

Impact of Inflation. Due to low to moderate inflation in the US and Mexico and our rapid inventory turnover rate, the results of operations have not been significantly affected by inflation during the past three-year period.

Item 8. Financial Statements and Supplementary Data

The consolidated financial statements together with the report of our independent registered public accounting firm and financial statement schedule are included on pages 123 through 194 of this report. Financial statement schedules other than those included herein have been omitted because the required information is contained in the consolidated financial statements or related notes, or such information is not applicable.

Item 9. Changes in and Disagreements with Accountants on Accounting and Financial Disclosure

Not applicable.

Item 9A. Controls and Procedures

As of September 26, 2009, an evaluation was performed under the supervision and with the participation of the Company's management, including the Chief Executive Officer and Chief Financial Officer, of the effectiveness of the design and operation of the Company's "disclosure controls and procedures" (as defined in Rules 13a-15(e) and 15d-15(e) under the Securities Exchange Act of 1934 (the "Exchange Act")). Based on that evaluation, the Company's management, including the Chief Executive Officer and Chief Financial Officer, concluded the Company's disclosure controls and procedures were effective to ensure that information required to be disclosed by the Company in reports that it files or submits under the Exchange Act is recorded, processed, summarized and reported within the time periods specified in Securities and Exchange Commission rules and forms, and that information we are required to disclose in our reports filed with the Securities and Exchange Commission is accumulated and communicated to our management, including our Chief Executive Officer and Chief Financial Officer, as appropriate to allow timely decisions regarding required disclosure.

In connection with the evaluation described above, the Company's management, including the Chief Executive Officer and Chief Financial Officer, identified no changes in the Company's internal control over financial reporting that occurred during the Company's quarter ended September 26, 2009, and that has materially affected, or is reasonably likely to materially affect, the Company's internal control over financial reporting.

MANAGEMENT'S REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING

Pilgrim's Pride Corporation's ("PPC") management is responsible for establishing and maintaining adequate internal control over financial reporting, as such term is defined in Exchange Act Rule 13a-15(f). PPC's internal control system is designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements in accordance with generally accepted accounting principles.

Under the supervision and with the participation of management, including its principal executive officer and principal financial officer, PPC's management assessed the design and operating effectiveness of internal control over financial reporting as of September 26, 2009 based on the framework set forth in *Internal Control-Integrated Framework* issued by the Committee of Sponsoring Organization of the Treadway Commission.

Based on this assessment, management concluded that PPC's internal control over financial reporting was effective as of September 26, 2009. Ernst & Young LLP, an independent registered public accounting firm, has issued an attestation report on the effectiveness of the Company's internal control over financial reporting as of September 26, 2009. That report is included herein.

REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM ON INTERNAL CONTROL OVER FINANCIAL REPORTING

The Board of Directors and Stockholders
Pilgrim's Pride Corporation

We have audited Pilgrim's Pride Corporation's internal control over financial reporting as of September 26, 2009, based on criteria established in *Internal Control - Integrated Framework* issued by the Committee of Sponsoring Organizations of the Treadway Commission (the COSO criteria). Pilgrim's Pride Corporation's management is responsible for maintaining effective internal control over financial reporting and for its assessment of the effectiveness of internal control over financial reporting included in the accompanying *Management's Report on Internal Control Over Financial Reporting*. Our responsibility is to express an opinion on the effectiveness of the Company's internal control over financial reporting based on our audit.

We conducted our audit in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether effective internal control over financial reporting was maintained in all material respects. Our audit included obtaining an understanding of internal control over financial reporting, assessing the risk that a material weakness exists, testing and evaluating the design and operating effectiveness of internal control based on the assessed risk, and performing such other procedures as we considered necessary in the circumstances. We believe that our audit provides a reasonable basis for our opinion.

A company's internal control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorizations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Because of its inherent limitations, internal control over financial reporting may not prevent or detect misstatements. Also, projections of any evaluation of effectiveness to future periods are subject to the risk that controls may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

In our opinion, Pilgrim's Pride Corporation maintained, in all material respects, effective internal control over financial reporting as of September 26, 2009, based on the COSO criteria.

We also have audited, in accordance with the standards of the Public Company Accounting Oversight Board (United States), the consolidated balance sheets of Pilgrim's Pride Corporation as of September 26, 2009 and September 27, 2008, and the related consolidated statements of operations, stockholders' equity, and cash flows for each of the three years in the period ended September 26, 2009, of Pilgrim's Pride Corporation, and our report dated November 20, 2009, expressed an unqualified opinion thereon.

/s/ Ernst & Young LLP

Dallas, Texas

Item 9B. Other Information

As previously announced, the Company and certain of its subsidiaries filed voluntary Chapter 11 petitions on December 1, 2008. The Chapter 11 cases are being jointly administered under case number 08-45664. The Company has and intends to continue to post important information about the restructuring, including monthly operating reports and other financial information required by the Bankruptcy Court, on the Company's website www.pilgrimspride.com under the "Investors-Reorganization" caption. Additionally, copies of the Proposed Plan, the Disclosure Statement, the Restated Certificate of Incorporation and the Restated Bylaws have been posted to this section of the Company's website. The Company intends to use its website as a means of complying with its disclosure obligations under SEC Regulation FD. Information is also available via the Company's restructuring information line at (888) 830-4659.

PART III

Item 10. Directors and Executive Officers and Corporate Governance

Certain information regarding our executive officers has been presented under “Executive Officers” included in Item 1. “Business,” above.

Reference is made to the section entitled “Election of Directors” of the Company’s Proxy Statement for its 2010 Annual Meeting of Stockholders, which section is incorporated herein by reference.

Reference is made to the section entitled “Section 16(a) Beneficial Ownership Reporting Compliance” of the Company’s Proxy Statement for its 2010 Annual Meeting of Stockholders, which section is incorporated herein by reference.

We have adopted a Code of Business Conduct and Ethics, which applies to all employees, including our Chief Executive Officer and our Chief Financial Officer and Principal Accounting Officer. The full text of our Code of Business Conduct and Ethics is published on our website, at www.pilgrimspride.com, under the “Investors-Corporate Governance” caption. We intend to disclose future amendments to, or waivers from, certain provisions of this Code on our website within four business days following the date of such amendment or waiver.

See Item 13. “Certain Relationships and Related Transactions, and Director Independence.”

Item 11. Executive Compensation

See Item 13. “Certain Relationships and Related Transactions, and Director Independence.”

Item 12. Security Ownership of Certain Beneficial Owners and Management and Related Stockholder Matters

See Item 13. “Certain Relationships and Related Transactions, and Director Independence.”

On January 27, 2009, the Company granted Don Jackson 3,085,656 shares of the Company's common stock, which vest upon achievement of certain performance targets and the confirmation of a plan of reorganization of the Company. Other than the grant to Dr. Jackson, as of September 26, 2009, the Company did not have any compensation plans (including individual compensation arrangements) under which equity securities of the Company are authorized for issuance by the Company.

Item 13. Certain Relationships and Related Transactions, and Director Independence

Additional information responsive to Items 10, 11, 12 and 13 is incorporated by reference from the sections entitled “Security Ownership,” “Board of Directors Independence,” “Committees of the Board of Directors,” “Election of Directors,” “Report of the Compensation Committee,” “Compensation Discussion and Analysis,” “Executive Compensation,” “Compensation Committee Interlocks and Insider Participation” and “Certain Transactions” of the Company’s Proxy Statement for its 2010 Annual Meeting of Stockholders.

Item 14. Principal Accounting Fees and Services

The information required by this item is incorporated herein by reference from the section entitled “Independent Registered Public Accounting Firm Fee Information” of the Company’s Proxy Statement for its 2010 Annual Meeting of Stockholders.

PART IV

Item 15. Exhibits and Financial Statement Schedules

(a) Financial Statements

- (1) The financial statements and schedules listed in the index to financial statements and schedules on page 3 of this report are filed as part of this report.
- (2) All other schedules for which provision is made in the applicable accounting regulations of the SEC are not required under the related instructions or are not applicable and therefore have been omitted.
- (3) The financial statements schedule entitled “Valuation and Qualifying Accounts and Reserves” is filed as part of this report on page 194.

(b) Exhibits

Exhibit Number

- 2.1 Agreement and Plan of Reorganization dated September 15, 1986, by and among Pilgrim’s Pride Corporation, a Texas corporation; Pilgrim’s Pride Corporation, a Delaware corporation; and Doris Pilgrim Julian, Aubrey Hal Pilgrim, Paulette Pilgrim Rolston, Evanne Pilgrim, Lonnie “Bo” Pilgrim, Lonnie Ken Pilgrim, Greta Pilgrim Owens and Patrick Wayne Pilgrim (incorporated by reference from Exhibit 2.1 to the Company’s Registration Statement on Form S-1 (No. 33-8805) effective November 14, 1986).
- 2.2 Agreement and Plan of Merger dated September 27, 2000 (incorporated by reference from Exhibit 2 of WLR Foods, Inc.’s Current Report on Form 8-K (No. 000-17060) dated September 28, 2000).
- 2.3 Agreement and Plan of Merger dated as of December 3, 2006, by and among the Company, Protein Acquisition Corporation, a wholly owned subsidiary of the Company, and Gold Kist Inc. (incorporated by reference from Exhibit 99.(D)(1) to Amendment No. 11 to the Company’s Tender Offer Statement on Schedule TO filed on December 5, 2006).
- 2.4 Stock Purchase Agreement by and between the Company and JBS USA Holdings, Inc., dated September 16, 2009 (incorporated by reference from Exhibit 2.1 of the Company’s Current Report on Form 8-K filed September 18, 2009).
- 3.1 Certificate of Incorporation of the Company, as amended (incorporated by reference from Exhibit 3.1 of the Company’s Annual Report on Form 10-K for the year ended October 2, 2004).
- 3.2 Amended and Restated Corporate Bylaws of the Company (incorporated by reference from Exhibit 3.1 of the Company’s Current Report on Form 8-K filed on December 4, 2007).
- 4.1 Certificate of Incorporation of the Company, as amended (included as Exhibit 3.1).
- 4.2 Amended and Restated Corporate Bylaws of the Company (included as Exhibit 3.2).

- 4.3 Senior Debt Securities Indenture dated as of January 24, 2007, by and between the Company and Wells Fargo Bank, National Association, as trustee (incorporated by reference from Exhibit 4.1 to the Company's Current Report on Form 8-K filed on January 24, 2007).
- 4.4 First Supplemental Indenture to the Senior Debt Securities Indenture dated as of January 24, 2007, by and between the Company and Wells Fargo Bank, National Association, as trustee (incorporated by reference from Exhibit 4.2 to the Company's Current Report on Form 8-K filed on January 24, 2007).
- 4.5 Form of 7 5/8% Senior Note due 2015 (incorporated by reference from Exhibit 4.3 to the Company's Current Report on Form 8-K filed on January 24, 2007).
- 4.6 Senior Subordinated Debt Securities Indenture dated as of January 24, 2007, by and between the Company and Wells Fargo Bank, National Association, as trustee (incorporated by reference from Exhibit 4.4 to the Company's Current Report on Form 8-K filed on January 24, 2007).
- 4.7 First Supplemental Indenture to the Senior Subordinated Debt Securities Indenture dated as of January 24, 2007, by and between the Company and Wells Fargo Bank, National Association, as trustee (incorporated by reference from Exhibit 4.5 to the Company's Current Report on Form 8-K filed on January 24, 2007).
- 4.8 Form of 8 3/8% Subordinated Note due 2017 (incorporated by reference from Exhibit 4.6 to the Company's Current Report on Form 8-K filed on January 24, 2007).
- 10.1 Pilgrim's Industries, Inc. Profit Sharing Retirement Plan, restated as of July 1, 1987 (incorporated by reference from Exhibit 10.1 of the Company's Form 8-K filed on July 1, 1992). †
- 10.2 Senior Executive Performance Bonus Plan of the Company (incorporated by reference from Exhibit A in the Company's Proxy Statement dated December 13, 1999). †
- 10.3 Aircraft Lease Extension Agreement between B.P. Leasing Co. (L.A. Pilgrim, individually) and Pilgrim's Pride Corporation (formerly Pilgrim's Industries, Inc.) effective November 15, 1992 (incorporated by reference from Exhibit 10.48 of the Company's Quarterly Report on Form 10-Q for the three months ended March 29, 1997).
- 10.4 Broiler Grower Contract dated May 6, 1997 between Pilgrim's Pride Corporation and Lonnie "Bo" Pilgrim (Farm 30) (incorporated by reference from Exhibit 10.49 of the Company's Quarterly Report on Form 10-Q for the three months ended March 29, 1997).
- 10.5 Commercial Egg Grower Contract dated May 7, 1997 between Pilgrim's Pride Corporation and Pilgrim Poultry G.P. (incorporated by reference from Exhibit 10.50 of the Company's Quarterly Report on Form 10-Q for the three months ended March 29, 1997).

- 10.6 Agreement dated October 15, 1996 between Pilgrim's Pride Corporation and Pilgrim Poultry G.P. (incorporated by reference from Exhibit 10.23 of the Company's Quarterly Report on Form 10-Q for the three months ended January 2, 1999).
- 10.7 Heavy Breeder Contract dated May 7, 1997 between Pilgrim's Pride Corporation and Lonnie "Bo" Pilgrim (Farms 44, 45 & 46) (incorporated by reference from Exhibit 10.51 of the Company's Quarterly Report on Form 10-Q for the three months ended March 29, 1997).
- 10.8 Broiler Grower Contract dated January 15, 1997 by and between Pilgrim's Pride Corporation and B.J.M. Farms (incorporated by reference from Exhibit 10.26 of the Company's Registration Statement on Form S-1 (No. 333-29163) effective June 27, 1997).

Report of Independent Registered Public Accounting Firm

The Board of Directors and Stockholders
Pilgrim's Pride Corporation

We have audited the accompanying consolidated balance sheets of Pilgrim's Pride Corporation (the "Company") as of September 26, 2009 and September 27, 2008, and the related consolidated statements of operations, stockholders' equity, and cash flows for each of the three years in the period ended September 26, 2009. Our audits also include the financial statement schedule listed in the index at Item 15(a). These financial statements and schedule are the responsibility of the Company's management. Our responsibility is to express an opinion on these financial statements and schedule based on our audits.

We conducted our audits in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the consolidated financial position of Pilgrim's Pride Corporation at September 26, 2009 and September 27, 2008, and the consolidated results of its operations and its cash flows for each of the three years in the period ended September 26, 2009, in conformity with U.S. generally accepted accounting principles. Also, in our opinion, the related financial statement schedule, when considered in relation to the basic financial statements taken as a whole, presents fairly, in all material respects, the information set forth therein.

The accompanying financial statements have been prepared assuming that Pilgrim's Pride Corporation will continue as a going concern. As more fully described in Note A, the Company filed for reorganization under Chapter 11 of the United States Bankruptcy Code on December 1, 2008. This, and the other business environment factors discussed, raise substantial doubt about the Company's ability to continue as a going concern. Management's plans in regard to this matter are also described in Note A. The accompanying consolidated financial statements do not include any adjustments to reflect the possible future effects on the recoverability and classification of assets or the amounts and classification of liabilities that may result from the outcome of this uncertainty.

As discussed in Note N to the consolidated financial statements, Pilgrim's Pride Corporation adopted guidance originally issued in FASB Interpretation No. 48, "Accounting for Uncertainty in Income Taxes - an interpretation of FASB Statement No. 109" (codified in FASB Accounting Standards Codification Topic 740 "Income Taxes"), effective September 30, 2007.

We also have audited, in accordance with the standards of the Public Company Accounting Oversight Board (United States), Pilgrim's Pride Corporation's internal control over financial reporting as of September 26, 2009, based on criteria established in *Internal Control - Integrated Framework* issued by the Committee of Sponsoring Organizations of the Treadway Commission and our report dated November 20, 2009, expressed an unqualified opinion thereon.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

NOTE A—BUSINESS AND CHAPTER 11 PROCEEDINGS

Business

Pilgrim's Pride Corporation (referred to herein as “the Company,” “we,” “us,” “our,” or similar terms) is one of the largest chicken companies in the United States (“US”), Mexico and Puerto Rico. Our fresh chicken retail line is sold in the southeastern, central, southwestern and western regions of the US, throughout Puerto Rico, and in the northern and central regions of Mexico. Our prepared-foods products meet the needs of some of the largest customers in the food service industry across the US. Additionally, the Company exports commodity chicken products to approximately 90 countries. As a vertically integrated company, we control every phase of the production of our products. We operate feed mills, hatcheries, processing plants and distribution centers in 14 US states, Puerto Rico and Mexico.

Our fresh chicken products consist of refrigerated (non-frozen) whole or cut-up chicken, either pre-marinated or non-marinated, and pre-packaged chicken in various combinations of freshly refrigerated, whole chickens and chicken parts. Our prepared chicken products include portion-controlled breast fillets, tenderloins and strips, delicatessen products, salads, formed nuggets and patties and bone-in chicken parts. These products are sold either refrigerated or frozen and may be fully cooked, partially cooked or raw. In addition, these products are breaded or non-breaded and either pre-marinated or non-marinated.

We reported a net loss of \$151.6 million, or \$2.05 per common share, for 2009, which included gross profit of \$370.4 million. As of September 26, 2009, the Company's accumulated deficit totaled \$469.4 million. During 2009, the Company generated \$75.0 million of cash from operations. At September 26, 2009, we had cash and cash equivalents totaling \$220.0 million.

In September 2008, the Company entered into agreements with its lenders to temporarily waive the fixed-charge coverage ratio covenant under its credit facilities. The lenders agreed to continue to provide liquidity under the credit facilities during the thirty-day period ended October 28, 2008. On October 27, 2008, the Company entered into further agreements with its lenders to temporarily waive the fixed-charge coverage ratio and leverage ratio covenants under its credit facilities. The lenders agreed to continue to provide liquidity under the credit facilities during the thirty-day period ended November 26, 2008. On that same day, the Company also announced its intention to exercise its 30-day grace period in making a \$25.7 million interest payment due on November 3, 2008, under its 8 3/8% senior subordinated notes and its 7 5/8% senior notes. On November 17, 2008, the Company exercised its 30-day grace period in making a \$0.3 million interest payment due on November 17, 2008, under its 9 1/4% senior subordinated notes. On November 26, 2008, the Company entered into further agreements with its lenders to extend the temporary waivers until December 1, 2008.

Chapter 11 Bankruptcy Filings

On December 1, 2008 (the "Petition Date"), Pilgrim's Pride Corporation and six of its subsidiaries (collectively, the "Debtors") filed voluntary petitions for relief under Chapter 11 of Title 11 of the United States Code (the "Bankruptcy Code") in the United States Bankruptcy Court for the Northern District of Texas, Fort Worth Division (the "Bankruptcy Court"). The cases are being jointly administered under Case No. 08-45664. The Company's subsidiaries in Mexico and certain subsidiaries in the United States ("US") were not included in the filing (the "Non-filing Subsidiaries") and continue to operate outside of the Chapter 11 process.

Subject to certain exceptions under the Bankruptcy Code, the Debtors' Chapter 11 filing automatically enjoined, or stayed, the continuation of any judicial or administrative proceedings or other actions against the Debtors or their property to recover on, collect or secure a claim arising prior to the Petition Date. Accordingly, most creditor actions to obtain possession of property from the Debtors, or to create, perfect or enforce any lien against the property of the Debtors, or to collect on monies owed or otherwise exercise rights or remedies with respect to a pre-petition claim are enjoined unless and until the Bankruptcy Court lifts the automatic stay.

Upon the filing of the Chapter 11 petitions, certain of our debt obligations became automatically and immediately due and payable, subject to an automatic stay of any action to collect, assert, or recover a claim against the Company and the application of applicable bankruptcy law. As a result, the accompanying Consolidated Balance Sheet as of September 27, 2008, included reclassifications of \$1,872.1 million to reflect as current certain long-term debt under the Company's credit facilities that was accelerated. Because of the bankruptcy petition, most of the Company's pre-petition long-term debt is included in *Liabilities subject to compromise* at September 26, 2009. The Company classifies pre-petition liabilities subject to compromise as a long-term liability because management does not believe the Company will use existing current assets or create additional current liabilities to fund these obligations.

Effective December 1, 2008, the New York Stock Exchange ("NYSE") delisted our common stock as a result of the Company's filing of its Chapter 11 petition. Our common stock is now quoted on the Pink Sheets Electronic Quotation Service under the ticker symbol "PGPDQ.PK." The Company has applied with the NYSE to list its common stock upon its exit from bankruptcy under its prior ticker symbol "PPC."

On February 11, 2009, the Bankruptcy Court issued an order granting the Company's motion to impose certain restrictions on trading in shares of the Company's common stock in order to preserve valuable tax attributes. This order established notification procedures and certain restrictions on transfers of common stock or options to purchase the common stock of the Company. The trading restrictions apply retroactively to January 17, 2009, the date the motion was filed, to investors beneficially owning at least 4.75% of the outstanding shares of common stock of the Company. For these purposes, beneficial ownership of stock is determined in accordance with special US tax rules that, among other things, apply constructive ownership concepts and treat holders acting together as a single holder. In addition, in the future, the Company may request that the Bankruptcy Court impose certain trading restrictions on certain debt of, and claims against, the Company.

Chapter 11 Process

The Debtors are currently operating as "debtors-in-possession" under the jurisdiction of the Bankruptcy Court and in accordance with the applicable provisions of the Bankruptcy Code and orders of the Bankruptcy Court. In general, as debtors-in-possession, we are authorized under Chapter 11 to continue to operate as an ongoing business, but may not engage in transactions outside the ordinary course of business without the prior approval of the Bankruptcy Court.

On December 2, 2008, the Bankruptcy Court granted interim approval authorizing the Company and certain of its subsidiaries consisting of PPC Transportation Company, PFS Distribution Company, PPC Marketing, Ltd., and Pilgrim's Pride Corporation of West Virginia, Inc. (collectively, the "US Subsidiaries"), and To-Ricos, Ltd. and To-Ricos Distribution, Ltd. (collectively with the US Subsidiaries, the "Subsidiaries") to enter into a Post-Petition Credit Agreement (the "Initial DIP Credit Agreement") among the Company, as borrower, the US Subsidiaries, as guarantors, Bank of Montreal, as agent (the "DIP Agent"), and the lenders party thereto. On December 2, 2008, the Company, the US Subsidiaries and the other parties entered into the Initial DIP Credit Agreement, subject to final approval of the Bankruptcy Court. On December 30, 2008, the Bankruptcy Court granted final approval authorizing the Company and the Subsidiaries to enter into an Amended and Restated Post-Petition Credit Agreement dated December 31, 2008, as amended (the "DIP Credit Agreement"), among the Company, as borrower, the Subsidiaries, as guarantors, the DIP Agent, and the lenders party thereto.

The DIP Credit Agreement currently provides for an aggregate commitment of up to \$350 million, which permits borrowings on a revolving basis. The commitment includes a \$25 million sub-limit for swingline loans and a \$20 million sub-limit for letters of credit. Outstanding borrowings under the DIP Credit Agreement bear interest at a per annum rate equal to 8.0% plus the greatest of (i) the prime rate as established by the DIP Agent from time to time, (ii) the average federal funds rate plus 0.5%, or (iii) the LIBOR rate plus 1.0%, payable monthly. The weighted average interest rate for 2009 was 11.25%. The loans under the Initial DIP Credit Agreement were used to repurchase all receivables sold under the Company's Amended and Restated Receivables Purchase Agreement dated September 26, 2008, as amended (the "RPA"). Loans under the DIP Credit Agreement were also used to fund the working capital requirements of the Company and its subsidiaries according to a budget as approved by the required lenders under the DIP Credit Agreement. For additional information on the RPA, see Note H—Trade Accounts and Other Receivables.

Actual borrowings by the Company under the DIP Credit Agreement are subject to a borrowing base, which is a formula based on certain eligible inventory and eligible receivables. The borrowing base formula is reduced by (i) pre-petition obligations under the Fourth Amended and Restated Secured Credit Agreement dated as of February 8, 2007, among the Company and certain of its subsidiaries, Bank of Montreal, as administrative agent, and the lenders parties thereto, as amended (the "Pre-Petition BMO Facility"), (ii) administrative and professional expenses incurred in connection with the bankruptcy proceedings and (iii) the amount owed by the Company and the Subsidiaries to any person on account of the purchase price of agricultural products or services (including poultry and livestock) if that person is entitled to any grower's or producer's lien or other security arrangement. The borrowing base is also limited to 2.22 times the formula amount of total eligible receivables. The DIP Credit Agreement provides that the Company may not incur capital expenditures in excess of \$150 million. The Company must also

meet minimum monthly levels of EBITDAR. Under the DIP Credit Agreement, "EBITDAR" means, generally, net income before interest, taxes, depreciation, amortization, writedowns of goodwill and other intangibles, asset impairment charges, certain restructuring and closure costs and other specified costs, charges, losses and gains. The DIP Credit Agreement also provides for certain other covenants, various representations and warranties, and events of default that are customary for transactions of this nature. As of September 26, 2009, the applicable borrowing base and the amount available for borrowings under the DIP Credit Agreement were both \$329.2 million as there were no outstanding borrowings under the Credit Agreement.

The principal amount of outstanding loans under the DIP Credit Agreement, together with accrued and unpaid interest thereon, are payable in full at maturity on December 1, 2009, subject to extension for an additional six months with the approval of all lenders thereunder. The Company has requested a two-month extension. All obligations under the DIP Credit Agreement are unconditionally guaranteed by the Subsidiaries and are secured by a first priority priming lien on substantially all of the assets of the Company and the Subsidiaries, subject to specified permitted liens in the DIP Credit Agreement.

Under the terms of the DIP Credit Agreement and applicable bankruptcy law, the Company may not pay dividends on the common stock while it is in bankruptcy. The DIP Credit Agreement allows the Company to provide additional advances to the Non-filing Subsidiaries of up to approximately \$30 million in excess of the net amount of such advances on the petition date. Management believes that all of the Non-filing Subsidiaries, including the Company's Mexican subsidiaries, will continue to be able to operate within this limitation.

For additional information on the DIP Credit Agreement, see Note M—Notes Payable and Long-Term Debt.

Shortly after the Petition Date, the Debtors began notifying all known current or potential creditors of the Chapter 11 filing. Subject to certain exceptions under the Bankruptcy Code, the Debtors' Chapter 11 filing automatically enjoined, or stayed, the continuation of any judicial or administrative proceedings or other actions against the Debtors or their property to recover on, collect or secure a claim arising prior to the Petition Date. Accordingly, most creditor actions to obtain possession of property from the Debtors, or to create, perfect or enforce any lien against the property of the Debtors, or to collect on monies owed or otherwise exercise rights or remedies with respect to a pre-petition claim are enjoined unless and until the Bankruptcy Court lifts the automatic stay. Vendors are being paid for goods furnished and services provided after the Petition Date in the ordinary course of business. Further, the Bankruptcy Court approved payment of certain of the Debtors' pre-petition obligations, including, among other things, employee wages, salaries and benefits, and the Bankruptcy Court has approved the payment of vendors and other providers who provided goods or services in the ordinary course of the Debtors' businesses that were ordered pre-petition but received from and after the Petition Date and other business-related payments necessary to maintain the operation of our businesses.

The Debtors retained, subject to Bankruptcy Court approval, legal and financial professionals to advise the Debtors on the bankruptcy proceedings and certain other "ordinary course" professionals. From time to time, the Debtors may seek Bankruptcy Court approval for the retention of additional professionals.

Also, as permitted by the Bankruptcy Code, the United States Trustee for the Northern District of Texas (the "US Trustee") appointed an official committee of unsecured creditors (the "Creditors' Committee"). The Creditors' Committee and its legal representatives have a right to be heard on all matters that come before the Bankruptcy Court with respect to the Debtors. In addition, on April 30, 2009, the Bankruptcy Court ordered the US Trustee to appoint an official committee of equity holders (the "Equity Committee") to represent the interests of Pilgrim's Pride's equity holders in the Debtors' bankruptcy cases.

Under Section 365 and other relevant sections of the Bankruptcy Code, we may assume, assume and assign, or reject certain executory contracts and unexpired leases, including, without limitation, leases of real property and equipment, subject to the approval of the Bankruptcy Court and certain other conditions. Any description of an executory contract or unexpired lease in this report, including where applicable our express termination rights or a quantification of our obligations, must be read in conjunction with, and is qualified by, any overriding rejection rights we have under Section 365 of the Bankruptcy Code. The Debtors expect to file a list of executory contracts that are being assumed no later than November 20, 2009, unless the deadline for equity holders to vote on the Proposed Plan is extended, in which event the deadline to file the list of executory contracts to be assumed may be extended.

Proposed Plan of Reorganization and Acquisition

In order for the Debtors to successfully exit Chapter 11, the Bankruptcy Court must first confirm a plan of reorganization with respect to the Debtors that satisfies the requirements of the Bankruptcy Code. To be confirmed, a plan of reorganization would, among other things, need to resolve the Debtors' pre-petition obligations, set forth the revised capital structure of the newly reorganized entity and provide for corporate governance subsequent to exit from bankruptcy.

Under the priority scheme established by the Bankruptcy Code, unless creditors agree otherwise, pre-petition liabilities and post-petition liabilities must generally be satisfied in full before stockholders would be entitled to receive any distribution or retain any property under a plan of reorganization. The ultimate recovery to creditors and/or stockholders, if any, will not be determined until confirmation of a plan or plans of reorganization. No assurance can be given as to what values, if any, will be ascribed in the Chapter 11 cases to each of these constituencies or what types or amounts of distributions, if any, they would receive. A plan of reorganization could result in holders of our liabilities and/or securities, including our common stock, receiving no distribution on account of their interests and cancellation of their holdings. Because of such possibilities, the value of our liabilities and securities, including our common stock, is highly speculative. Appropriate caution should be exercised with respect to existing and future investments in any of the liabilities and/or securities of the Debtors. At this time there is no assurance we will be able to restructure as a going concern or successfully obtain confirmation of and implement a plan of reorganization.

The Proposed Plan

On September 17, 2009, the Debtors filed their Joint Plan of Reorganization Under Chapter 11 of the Bankruptcy Code with the Bankruptcy Court, along with the Disclosure Statement for the Debtors' Joint Plan of Reorganization under Chapter 11 of the Bankruptcy Code (as amended and supplemented, the "Disclosure Statement"). On November 11, 2009, the Debtors filed an Amended Joint Plan of Reorganization Under Chapter 11 of the Bankruptcy Code (As Modified) with the Bankruptcy Court (as amended and supplemented, the "Proposed Plan") which altered the treatment of unsecured note holders to provide that unsecured note holders may take a cash option rather than have their notes reinstated. The Proposed Plan provides that all unsecured creditors of the Debtors are unimpaired pursuant to Section 1124 of the Bankruptcy Code. Accordingly, the votes of unsecured creditors on the Proposed Plan are not being solicited as they will be deemed to have accepted the Proposed Plan. The Proposed Plan further provides for a reorganization of the Debtors' businesses as a going concern. The Proposed Plan is premised on (i) a transaction with JBS USA Holdings, Inc. (the "Plan Sponsor" or "JBS USA") whereby, pursuant to the SPA (defined below), the Plan Sponsor will purchase approximately 64% of the common stock of the reorganized Company ("Reorganized PPC") in exchange for \$800 million in cash, to be used by the Debtors to, among other things, fund distributions to holders of allowed claims under the Proposed Plan, and (ii) the Debtors entering into a new credit facility having an aggregate commitment of up to \$1,750 million (as described below, the "Exit Credit Facility"). If the Proposed Plan is confirmed and becomes effective, the Company will adopt and file an Amended and Restated Certificate of Incorporation (the "Restated Certificate of Incorporation") and will adopt Amended and Restated Corporate Bylaws (the "Restated Bylaws").

The Proposed Plan will not become effective until certain conditions are satisfied or waived, including: (i) entry of an order by the Bankruptcy Court confirming the Proposed Plan, (ii) all actions, documents and agreements necessary to implement the Proposed Plan having been effected or executed, (iii) satisfaction or waiver of the conditions precedent to the SPA (including access of the Debtors to funding under the Exit Credit Facility), other than those which are to be satisfied at the closing of the transactions contemplated by the SPA (as defined below), (iv) the Debtors having access to the cash contributed by the Plan Sponsor, and (v) specified claims of the Debtors' secured lenders having been paid in full pursuant to the Proposed Plan.

On September 29, 2009, the Bankruptcy Court approved a motion to further extend the period during which the Debtors have the exclusive right to file a plan of reorganization and the period during which the Debtors can obtain the necessary acceptances of the plan of reorganization, during which time competing plans may not be filed, through and including December 31, 2009, and March 1, 2010, respectively. If necessary, we may file one or more motions to request further extensions of these time periods. On October 22, 2009, we received approval from the Bankruptcy Court to begin soliciting stockholder acceptance of the Proposed Plan.

Section 1128(a) of the Bankruptcy Code requires the Bankruptcy Court, after appropriate notice, to hold a hearing on confirmation of a plan of reorganization. The confirmation hearing on the Proposed Plan is scheduled for December 8, 2009. The confirmation hearing may be adjourned from time to time by the Bankruptcy Court without further notice except for an announcement of the adjourned date made at the confirmation hearing or any subsequent adjourned confirmation hearing. There can be no assurance at this time that the Proposed Plan will be confirmed by the Bankruptcy Court or that any such plan will be implemented successfully.

If the Proposed Plan is confirmed and the transactions contemplated thereby are consummated, all holders of claims will be paid in full, unless otherwise agreed by the applicable holder. Holders of equity interests immediately prior to the effectiveness of the Proposed Plan would collectively be issued 36% of the common stock of Reorganized PPC.

The Proposed Acquisition

On September 16, 2009, we entered into a stock purchase agreement with the Plan Sponsor (the "SPA"). As discussed above, upon consummation of the transactions contemplated by the SPA, the Plan Sponsor will purchase 64% of the total issued and outstanding common stock of Reorganized PPC (the "Proposed Acquisition") in exchange for aggregate consideration of \$800 million in cash, to be used by the Debtors, among other things, to fund distributions under the Proposed Plan.

The Proposed Acquisition is subject to approval by the Bankruptcy Court of (i) the Proposed Plan and the Disclosure Statement, and (ii) the SPA. In addition, the obligations of the Company and the Plan Sponsor under the SPA are subject to the satisfaction of customary conditions to closing, including, without limitation, the execution and delivery of definitive documentation, receipt of certain regulatory approvals and governmental filings and the expiration or termination of applicable waiting periods, material compliance with the covenants by the parties, the representations and warranties under the SPA being true and correct (subject to certain materiality qualifiers), the absence of a material adverse change with respect to us since the date of the SPA and the payment of certain fees and expenses. In addition, the obligations of JBS USA under the SPA are conditioned on access of the Debtors to funding under the Exit Credit Facility. The obligations of JBS USA under the SPA, including JBS USA's payment of the \$800 million purchase price in exchange for 64% of the total issued and outstanding common stock of Reorganized PPC have no other financing conditions.

On October 14, 2009, the Company and the Plan Sponsor received notice from the Federal Trade Commission Bureau of Competition and the US Department of Justice of early termination of the waiting period under the Hart-Scott-Rodino Antitrust Improvements Act of 1976. The Proposed Acquisition remains subject to receipt of certain other regulatory approvals.

On September 17, 2009, we filed a motion with the Bankruptcy Court seeking entry of an order approving certain provisions of the SPA. On October 7, 2009, the Bankruptcy Court granted the motion and approved certain provisions of the SPA. We also sought approval of the remaining portions of the SPA as part of the approval of the Proposed Plan.

In connection with the closing of the Proposed Acquisition, the Company will enter into a stockholders agreement with JBS USA (the "Stockholders Agreement") and will adopt and file the Restated Certificate of Incorporation. The Stockholders Agreement and the Restated Certificate of Incorporation will govern the constitution of the Company's board of directors and the selection of its members. The Stockholders Agreement, among other things, will also restrict the ability of JBS USA to purchase shares of the common stock of Reorganized PPC, require the approval of the Company's stockholders with respect to specified amendments to the Restated Certificate of Incorporation and Restated Bylaws and require JBS USA to use commercially reasonable efforts to maintain the listing of the common stock of Reorganized PPC on a national securities exchange. Among other rights, the Restated Certificate of Incorporation provides that, if JBS USA completes an initial public offering of its common stock, then, JBS USA has the right to exchange all of the outstanding common stock of Reorganized PPC for JBS USA common stock. For a period beginning upon the completion of such offering and ending two years and 30 days after the effective date of the Proposed Plan, JBS USA may exercise this exchange right during limited exchange windows in each fiscal quarter beginning six trading days after both Reorganized PPC and JBS USA have made their respective periodic reports or earnings releases for the preceding quarter or year, as applicable, and ending on the last day of the fiscal quarter during which the report or release was made. The number of shares of JBS USA common stock to be issued in exchange for the Reorganized PPC common stock will be dependent upon the relative average volume-weighted daily trading prices per share of the common stock of Reorganized PPC and the JBS USA common stock during the period immediately preceding the time JBS USA exercises its exchange right.

Exit Credit Facility

Upon exiting from bankruptcy, the Company and certain of its subsidiaries, consisting of To-Ricos, Ltd. and To-Ricos Distribution, Ltd. (collectively, the "To-Ricos Borrowers"), expect to enter into the Exit Credit Facility that provides for an aggregate commitment of up to \$1,750 million consisting of (i) a revolving loan commitment of at least \$600 million, (ii) a term loan A commitment of up to \$375 million and (iii) a term loan B commitment of up to \$775 million. The revolving loan commitment will mature in 2012. Term A loans, which cannot exceed \$375 million in the aggregate, will mature in 2012. Term B loans, which cannot exceed \$775 million in the aggregate, will mature in 2014. CoBank ACB will serve as administrative agent ("Exit Facility Agent") on behalf of the lenders under the Exit Credit Facility. The Company has received non-binding mandate letters from the potential lenders party to the Exit Credit Facility.

The Term A loans mature three years from the effective date of the Exit Credit Facility and must be repaid in 12 equal quarterly principal installments of \$12.5 million beginning on April 15, 2010, with the final installment due on the maturity date for the Term A loans. The Term B loans mature five years from the effective date of the Exit Credit Facility and must be repaid in 16 equal quarterly principal installments of \$12.5 million beginning on April 15, 2011, with the final installment due on the maturity date for the Term B loans. Additionally, following the end of each fiscal year, a portion of our cash flow must be used to repay outstanding principal amounts under the Term A and Term B loans. Covenants in the Exit Credit Facility will also require us to use the proceeds we receive from certain asset sales and specified debt or equity issuances and upon the occurrence of other events to repay outstanding borrowings under the Exit Credit Facility.

The Exit Credit Facility includes a \$50 million sub-limit for swingline loans and a \$200 million sub-limit for letters of credit. Outstanding borrowings under the revolving loan commitment will bear interest at a per annum rate equal to 3.50% plus the greater of (i) the US prime rate as published by the *Wall Street Journal*, (ii) the average federal funds rate plus 0.5%, and (iii) the one-month LIBOR rate plus 1.0%, in the case of alternate base rate loans, or 4.50% plus the one, two, three or six month LIBOR rate adjusted by the applicable statutory reserve, in the case of Eurodollar loans. Outstanding Term A and Term B-1 loans will bear interest at a per annum rate equal to 4.00% plus greater of (i) the U.S. prime rate, as published by the Wall Street Journal, (ii) the average federal funds rate plus 0.5%, and (iii) the one month LIBOR rate plus 1.0%, in the case of alternate base rate loans, or 5.00%, plus the one, two, three or six month LIBOR Rate adjusted by the applicable statutory reserve, in the case of Eurodollar loans. Outstanding Term B-2 loans will bear interest at a per annum rate equal to 9.00%. Commitment fees charged on the revolving commitments under the Exit Credit Facility will accrue at a per annum rate equal to 1.00%.

The proceeds of the borrowings under the Exit Credit Facility will be used to (i) repay outstanding secured and unsecured indebtedness of the Company and (ii) pay fees, costs and expenses related to and contemplated by the Exit Credit Facility and the Proposed Plan. In addition, proceeds of the borrowings under the revolving loan commitment will be used to finance the general corporate purposes of the borrowers (including capital expenditures, permitted acquisitions and principal and interest under the Exit Credit Facility).

Actual borrowings by the Company under the Exit Credit Facility will be subject to a borrowing base, which is a formula based on certain eligible inventory, eligible receivables and restricted cash under the control of the Exit Facility Agent. The borrowing base formula will be reduced by the sum of (i) inventory reserves, (ii) rent and collateral access reserves, and (iii) any amount more than 15 days past due that is owed by the Company or its subsidiaries to any person on account of the purchase price of agricultural products or services (including poultry and livestock) if that person is entitled to any grower's or producer's lien or other security arrangement. Revolving loan availability under the borrowing base also will be limited to an aggregate of \$25 million with respect to the To-Ricos Borrowers.

The Exit Credit Facility will provide that the Company may not incur capital expenditures in excess of \$225 million in fiscal year 2010, \$275 million in fiscal year 2011 and \$350 million per fiscal year thereafter. The Company must also maintain a minimum fixed charge coverage ratio and a minimum level of tangible net worth and may not exceed a maximum leverage ratio. The Exit Credit Facility will contain various covenants that may adversely affect our ability to, among other things, incur additional indebtedness, incur liens, pay dividends or make certain restricted payments, consummate certain asset sales, enter into certain transactions with JBS USA and our other affiliates, merge, consolidate and/or sell or dispose of all or substantially all of our assets.

All obligations under the Exit Credit Facility will be unconditionally guaranteed by certain of the Company's subsidiaries and will be secured by a first priority lien on (i) the domestic (including Puerto Rico) accounts and inventory of the Company and its subsidiaries, (ii) 100% of the equity interests in the To-Ricos Borrowers and the Company's domestic subsidiaries and 65% of the equity interests in the Company's direct foreign subsidiaries, (iii) substantially all of the personal property and intangibles of the Company, the To-Ricos Borrowers and the guarantor subsidiaries, and (iv) substantially all of the real estate and fixed assets of the Company and the subsidiary guarantors.

The Exit Credit Facility will allow the Company to provide additional advances to its subsidiaries in an amount equal to the net amount of such advances in effect on the date of the Exit Credit Facility plus \$30 million. Management believes that all of the Company's subsidiaries, including the Company's Mexican subsidiaries, will be able to operate within this limitation.

The Proposed Plan contemplates that the notes under the Company's outstanding indentures will be reinstated unless and to the extent a holder of the notes elects to receive a cash payment equal to the principal amounts of the notes plus unpaid interest that had accrued pre-petition with interest accruing on such interest at the default contract rate through the effective date of the Proposed Plan and the unpaid post-petition interest at the non-default contract rate through the effective date. To the extent the holders of these notes elect reinstatement, then the amount of the term loan commitments under the Exit Credit Facility will be reduced on a dollar-for-dollar and pro rata basis.

Going Concern Matters

The accompanying Consolidated Financial Statements have been prepared assuming that the Company will continue as a going concern. However, there is substantial doubt about the Company's ability to continue as a going concern based on the factors previously discussed. The Consolidated Financial Statements do not include any adjustments related to the recoverability and classification of recorded assets or the amounts and classification of liabilities or any other adjustments that might be necessary should the Company be unable to continue as a going concern. The Consolidated Financial Statements do not purport to reflect or provide for the consequences of our Chapter 11 proceedings. In particular, the financial statements do not purport to show (i) as to assets, their realizable value on a liquidation basis or their availability to satisfy liabilities; (ii) as to pre-petition liabilities, the amounts that may be allowed for claims or contingencies, or the status and priority thereof; (iii) as to shareowners' equity accounts, the effect of any changes that may be made in our capitalization; or (iv) as to operations, the effect of any changes that may be made to our business. The Company's ability to continue as a going concern is dependent upon, among other things, the ability of the Company to return to historic levels of profitability and, in the near term, restructure its obligations in a manner that allows it to obtain confirmation of a plan of reorganization by the Bankruptcy Court.

Financial Reporting Considerations

The Company applied ASC (defined below) 852 in preparing the Consolidated Financial Statements. ASC 852 requires that the financial statements, for periods subsequent to the Chapter 11 filing, distinguish transactions and events that are directly associated with the reorganization from the ongoing operations of the business. Accordingly, certain expenses (including professional fees), realized gains and losses and provisions for losses that are realized or incurred in the bankruptcy proceedings are recorded in *Reorganization items, net* on the accompanying Consolidated Statements of Operations. In addition, pre-petition obligations that may be impacted by the bankruptcy reorganization process have been classified on the Consolidated Balance Sheet at September 26, 2009, in *Liabilities subject to compromise*. These liabilities are reported at the amounts expected to be allowed by the Bankruptcy Court, even if they may be settled for lesser amounts.

The Debtors' reorganization items for 2009 consisted of the following (in thousands):

Professional fees directly related to reorganization ^(a)	\$	34,831
DIP Credit Agreement related expenses		11,375
Net gain on asset disposals ^(b)		(15,850)
Other ^(c)		56,919
Reorganization items, net	\$	<u>87,275</u>

- (a) Professional fees directly related to the reorganization include post-petition fees associated with advisors to the Debtors, the statutory committee of unsecured creditors and certain secured creditors. Professional fees are estimated by the Debtors and will be reconciled to actual invoices when received.
- (b) Net gain on asset disposals includes (i) a gain recognized on the sale of the Farmerville, Louisiana, processing facility, (ii) a gain recognized on the sale of undeveloped land in Camp County, Texas, and (iii) a loss recognized on the sale of the Company's interest in a hog farming joint venture.
- (c) Other expenses includes (i) severance, grower pay, live flock impairment, inventory disposal costs, equipment relocation costs and other shutdown costs related to the closed processing facilities in Douglas, Georgia; El Dorado, Arkansas; Farmerville, Louisiana; Franconia, Pennsylvania; Dalton, Georgia; Athens, Georgia; and Athens, Alabama, (ii) severance costs related to the closed distribution center in Houston, Texas, the February 2009 Operations management reduction-in-force ("RIF") action, the April 2009 non-production employee RIF action, and reduced or consolidated production at various facilities throughout the US, (iii) asset impairment costs related to the closed processing facility in Dalton, Georgia, and (iv) fees associated with the termination of the RPA on December 3, 2008.

In May 2009, the Company sold its closed processing complex and certain inventories in Farmerville, Louisiana, for \$72.3 million. The Company recognized a gain of \$15.0 million on this transaction that is included in *Reorganization items, net* on its Consolidated Statement of Operations. In June 2009, the Company disposed of its interest in a hog farming joint venture and wrote off outstanding receivables due from that joint venture. The Company recognized a loss on these transactions of \$2.8 million that is included in *Reorganization items, net* on its Consolidated Statement of Operations. In July 2009, the Company sold undeveloped land in Camp County, Texas, for \$4.9 million. The Company recognized a gain of \$3.5 million on this transaction that is included in *Reorganization items, net* on its Consolidated Statement of Operations.

Net cash paid for reorganization items in 2009 totaled \$51.7 million. This represented payment of professional fees directly related to the reorganization totaling \$25.4 million, payment of DIP Credit Agreement related expenses totaling \$11.4 million, severance payments of \$8.6 million, payment of facility closure costs totaling \$5.6 million and payment of fees associated with the termination of the RPA totaling \$0.7 million.

For additional information on costs related to (i) the closures of our facilities in Douglas, Georgia; El Dorado, Arkansas; Farmerville, Louisiana; Franconia, Pennsylvania; Dalton, Georgia; Athens, Georgia; and Athens, Alabama, and (ii) severance costs related to the closed distribution center in Houston, Texas, the February 2009 Operations management RIF action, the April 2009 non-production employee RIF action and reduced or consolidated production at various facilities throughout the US, see Note F—Restructuring Activities.

Liabilities subject to compromise refers to both secured and unsecured obligations that will be accounted for under a plan of reorganization. Generally, actions to enforce or otherwise effect payment of pre-Chapter 11 liabilities are stayed. ASC 852 requires pre-petition liabilities that are subject to compromise to be reported at the amounts expected to be allowed, even if they may be settled for lesser amounts. These liabilities represent the estimated amount expected to be allowed on known or potential claims to be resolved through the Chapter 11 process, and remain subject to future adjustments arising from negotiated settlements, actions of the Bankruptcy Court, rejection of executory contracts and unexpired leases, the determination as to the value of collateral securing the claims, proofs of claim, or other events. Liabilities subject to compromise also include certain items that may be assumed under the plan of reorganization, and as such, may be subsequently reclassified to liabilities not subject to compromise. As some uncertainty will continue to exist until the Bankruptcy Court confirms a plan of reorganization, the Company has included its secured and unsecured debt in liabilities subject to compromise. However, should the Proposed Plan be confirmed, these liabilities will not be compromised. At hearings held in December 2008, the Bankruptcy Court granted final approval of many of the Debtors' "first day" motions covering, among other things, human capital obligations, supplier relations, insurance, customer relations, business operations, certain tax matters, cash management, utilities, case management and retention of professionals. Obligations associated with these matters are not classified as liabilities subject to compromise.

Because the Bankruptcy Court has not confirmed the Proposed Plan or finally determined which claims will be allowed or disallowed and, under the Proposed Plan, the secured and unsecured debt of the Company will not be compromised if the Proposed Plan is confirmed by the Bankruptcy Court, the Company has not adjusted its deferred financing costs related to secured and unsecured debt as a valuation of the allowed claim. Deferred financing costs of \$19.1 million are included in *Other Assets* at September 26, 2009. The Company may be required to expense these amounts or a portion thereof as reorganization items if the Bankruptcy Court ultimately definitively determines that a portion of the debt is not an allowed claim. The Company also expects to expense these amounts in the first quarter of 2010 if it executes the Exit Credit Facility.

The Debtors have rejected certain pre-petition executory contracts and unexpired leases with respect to the Debtors' operations with the approval of the Bankruptcy Court and may reject additional ones in the future. Damages resulting from rejection of executory contracts and unexpired leases are generally treated as general unsecured claims and will be classified as liabilities subject to compromise. Holders of pre-petition claims were required to file proofs of claims by the "general bar date" of June 1, 2009. A bar date is the date by which certain claims against the Debtors must be filed if the claimants wish to receive any distribution in the Chapter 11 cases. Creditors were notified of the general bar date and the requirement to file a proof of claim with the Bankruptcy Court. Differences between liability amounts estimated by the Debtors and claims filed by creditors are being investigated and, if necessary, the Bankruptcy Court will make a final determination of the allowable amount. Currently, the aggregate amount of claims filed by creditors exceeds the aggregate amount of claims recognized and estimated by the Debtors. Management believes the aggregate amount of claims presently recognized by the Debtors will ultimately not materially vary from the aggregate amount of claims allowed by the Bankruptcy Court. The determination of how liabilities will ultimately be treated cannot be made until the Bankruptcy Court approves a Chapter 11 plan of reorganization. Accordingly, the ultimate amount or treatment of such liabilities is not determinable at this time.

Liabilities subject to compromise consisted of the following:

	September 26, 2009
	<u>(In thousands)</u>
Accounts payable	\$ 85,250
Accrued expenses	139,319
Secured long-term debt	1,347,036
Unsecured long-term debt	656,996
Other long-term liabilities	<u>4,560</u>
Total liabilities subject to compromise	<u>\$ 2,233,161</u>

Liabilities subject to compromise includes trade accounts payable related to pre-petition purchases, all of which were not paid. As a result, the Company's cash flows from operations were favorably affected by the stay of payment related to these accounts payable.

While operating as debtors-in-possession under Chapter 11 of the Bankruptcy Code, the Debtors may sell or otherwise dispose of or liquidate assets or settle liabilities, subject to the approval of the Bankruptcy Court or otherwise as permitted in the ordinary course of business, in amounts other than those reflected in the Consolidated Financial Statements. Moreover, a plan of reorganization could materially change the amounts and classifications in the historical Consolidated Financial Statements.

Condensed Combined Financial Information of Debtors

The following unaudited condensed combined financial information is presented for the Debtors as of September 26, 2009 or for the year then ended (in thousands):

Balance Sheet Information:

Receivables from affiliates	\$	113,302
Other current assets		1,091,354
Identified intangible assets		57,179
Investment in subsidiaries		325,856
Property, plant and equipment, net		1,378,918
Other assets		85,744
Total assets	\$	<u>3,052,353</u>
Current liabilities	\$	401,651
Long-term liabilities		<u>254,410</u>
Liabilities not subject to compromise		656,061
Liabilities subject to compromise		<u>2,233,161</u>
Total liabilities		2,889,222
Stockholders' equity		<u>163,131</u>
Total liabilities and stockholders' equity	\$	<u>3,052,353</u>

Statement of Operations Information:

Net sales	\$	6,454,958
Gross profit		306,614
Operating income		28,470
Reorganization items		84,363
Income from equity affiliates		26,879
Net loss		(151,582)

Statement of Cash Flows Information:

Cash used in operating activities	\$	158,798
Cash used in investing activities		(11,540)
Cash provided by financing activities		(6,250)

NOTE B—SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Principles of Consolidation

The consolidated financial statements include the accounts of Pilgrim's Pride Corporation and its majority owned subsidiaries. We eliminate all significant affiliate accounts and transactions upon consolidation.

The Company reports on the basis of a 52/53-week year that ends on the Saturday closest to September 30. As a result, 2009, 2008, and 2007 each had 52 weeks.

The Company re-measures the financial statements of its Mexico subsidiaries as if the US dollar were the functional currency. Accordingly, we translate assets and liabilities, other than non-monetary assets, of the Mexico subsidiaries at current exchange rates. We translate non-monetary assets using the historical exchange rate in effect on the date of each asset's acquisition. We translate income and expenses at average exchange rates in effect during the period. Currency exchange gains or losses are included in the line item *Miscellaneous, net* in the Consolidated Statements of Operations.

Financial Accounting Standards Board ("FASB") Accounting Standards Codification ("ASC" or "Codification")

On September 26, 2009, the Company adopted Statement of Financial Accounting Standards No. 168, *The FASB Accounting Standards Codification™ and The Hierarchy of Generally Accepted Accounting Principles*. The Codification became the source of authoritative generally accepted accounting principles ("GAAP") recognized by the FASB to be applied by nongovernmental entities. Rules and interpretive releases of the SEC under authority of federal securities laws are also sources of authoritative GAAP for SEC registrants. The Codification supersedes all existing non-SEC accounting and reporting standards. All other non-grandfathered non-SEC accounting literature not included in the Codification is non-authoritative. GAAP is not intended to be changed as a result of this statement, but will change the way the guidance is organized and presented. The Company has implemented the Codification in the consolidated financial statements by providing references to the ASC topics.

Accounting Adjustments and Reclassifications

We have made certain reclassifications to the 2008 and 2007 Consolidated Financial Statements with no impact to reported net income (loss) in order to conform to the 2009 presentation.

Revenue Recognition

Revenue is recognized upon shipment and transfer of ownership of the product to the customer and is recorded net of estimated incentive offerings including special pricing agreements, promotions and other volume-based incentives. Revisions to these estimates are charged back to net sales in the period in which the facts that give rise to the revision become known.

Shipping and Handling Costs

Costs associated with the products shipped to customers are recognized in cost of sales.

Cash Equivalents

The Company considers highly liquid investments with a maturity of three months or less when purchased to be cash equivalents.

Current and Long-Term Investments

The Company's current and long-term investments consist primarily of investment-grade debt and equity securities, bond and equity mutual funds, and insurance contracts. The investment-grade debt and equity securities as well as the bond and equity mutual funds are classified as available-for-sale. These securities are recorded at fair value, and unrealized holding gains and losses are recorded, net of tax, as a separate component of accumulated other comprehensive income. Debt securities with remaining maturities of less than one year and those identified by management at the time of purchase for funding operations in less than one year are classified as current. Debt securities with remaining maturities greater than one year that management has not identified at the time of purchase for funding operations in less than one year are classified as long-term. All equity securities are classified as long-term. Unrealized losses are charged against net earnings when a decline in fair value is determined to be other than temporary. Management reviews several factors to determine whether a loss is other than temporary, such as the length of time a security is in an unrealized loss position, the extent to which fair value is less than amortized cost, the impact of changing interest rates in the short and long term, and the Company's intent and ability to hold the security for a period of time sufficient to allow for any anticipated recovery in fair value. The Company determines the cost of each security sold and each amount reclassified out of accumulated other comprehensive income into earnings using the specific identification method. Purchases and sales are recorded on a trade date basis. The insurance contracts are held in the Company's deferred compensation trusts. They are recorded at fair value with the gains and losses resulting from changes in fair value immediately recognized in earnings.

Investments in joint ventures and entities in which the Company has an ownership interest greater than 50% and exercises control over the venture are consolidated in the Consolidated Financial Statements. Minority interests in the years presented, amounts of which are not material, are included in the line item *Other Long-Term Liabilities* in the Consolidated Balance Sheets. Investments in joint ventures and entities in which the Company has an ownership interest between 20% and 50% and exercises significant influence are accounted for using the equity method. The Company owns a 49% interest in Merit Provisions LLC ("Merit") that it consolidates because the Company provided financial support to the entity that owns a 51% interest in Merit. The operations of Merit are not significant to the Company as a whole at this time. The Company invests from time to time in ventures in which its ownership interest is less than 20% and over which it does not exercise significant influence. Such investments are accounted for under the cost method. The fair values for investments not traded on a quoted exchange are estimated based upon the historical performance of the ventures, the ventures' forecasted financial performance and management's evaluation of the ventures' viability and business models. To the extent the book value of an investment exceeds its assessed fair value,

the Company will record an appropriate impairment charge. Thus, the carrying value of the Company's investments approximates fair value.

Accounts Receivable

The Company records accounts receivable upon shipment and transfer of ownership of its products to customers. We record an allowance for doubtful accounts, reducing our receivables balance to an amount we estimate is collectible from our customers. Estimates used in determining the allowance for doubtful accounts are based on historical collection experience, current trends, aging of accounts receivable, and periodic credit evaluations of our customers' financial condition. We write off accounts receivable when it becomes apparent, based upon age or customer circumstances, that such amounts will not be collected. Generally, the Company does not require collateral for its accounts receivable.

Inventories

Live poultry inventories are stated at the lower of cost or market and breeder hens at the lower of cost, less accumulated amortization, or market. The costs associated with breeder hens are accumulated up to the production stage and amortized over the productive lives using the unit-of-production method. Finished poultry products, feed, eggs and other inventories are stated at the lower of cost (average) or market.

We record valuations and adjustments for our inventory and for estimated obsolescence at or equal to the difference between the cost of inventory and the estimated market value based upon known conditions affecting the inventory's obsolescence, including significantly aged products, discontinued product lines, or damaged or obsolete products. We allocate meat costs between our various finished poultry products based on a by-product costing technique that reduces the cost of the whole bird by estimated yields and amounts to be recovered for certain by-product parts, primarily including leg quarters, wings, tenders and offal, which are carried in inventory at the estimated recovery amounts, with the remaining amount being reflected as our breast meat cost.

Generally, the Company performs an evaluation of whether any lower-of-cost-or-market adjustments are required at the segment level based on a number of factors, including (i) pools of related inventory, (ii) product age, condition and continuation or discontinuation, (iii) estimated market selling prices and (iv) expected distribution channels. If actual market conditions or other factors are less favorable than those projected by management, additional inventory adjustments may be required.

Property, Plant and Equipment

Property, plant and equipment are stated at cost, and repair and maintenance costs are expensed as incurred. Depreciation is computed using the straight-line method over the estimated useful lives of these assets. Estimated useful lives for building, machinery and equipment are 5 years to 33 years and for automobiles and trucks are 3 years to 10 years. The charge to income resulting from amortization of assets recorded under capital leases is included with depreciation expense.

The Company recognizes impairment charges on long-lived assets used in operations when events and circumstances indicate that the assets may be impaired and the undiscounted cash flows estimated to be generated by those assets are less than the carrying amount of those assets. The impairment charge is determined based upon the amount the net book value of the assets exceeds their fair market value. In making these determinations, the Company utilizes certain assumptions, including, but not limited to (i) future cash flows estimates expected to be generated by these assets, which are based on additional assumptions such as asset utilization, remaining length of service and estimated salvage values; (ii) estimated fair market value of the assets; and (iii) determinations with respect to the lowest level of cash flows relevant to the respective impairment test, generally groupings of related operational facilities.

Given the interdependency of the Company's individual facilities during the production process, which operate as a vertically integrated network, and the fact that the Company does not price transfers of inventory between its vertically integrated facilities at market prices, it evaluates impairment of assets held and used at the country level (i.e., the US and Mexico) within each segment. Management believes this is the lowest level of identifiable cash flows for its assets that are held and used in production activities. At the present time, the Company's forecasts indicate that it can recover the carrying value of its assets based on the projected cash flows of the operations. A key assumption in management's forecast is that the Company's sales volumes will return to historical margins as supply and demand between commodities and chicken and other animal-based proteins become more balanced. However, the exact timing of the return to historical margins is not certain, and if the return to historical margins is delayed, impairment charges could become necessary in the future.

Goodwill and Other Intangible Assets

Our intangible assets consist of goodwill and assets subject to amortization such as trade names, customer relationships and non-compete agreements. We calculate amortization of those assets that are subject to amortization on a straight-line basis over the estimated useful lives of the related assets. The useful lives range from three years for trade names and non-compete agreements to thirteen years for customer relationships.

We evaluate goodwill for impairment annually or at other times if events have occurred or circumstances exist that indicate the carrying value of goodwill may no longer be recoverable. We compare the fair value of each reporting unit to its carrying value. We determine the fair value using a weighted average of results derived from both the income approach and the market approach. Under the income approach, we calculate the fair value of a reporting unit based on the present value of estimated future cash flows. Under the market approach, we calculate the fair value of a reporting unit based on the market values of key competitors. If the fair value of the reporting unit exceeds the carrying value of the net assets including goodwill assigned to that unit, goodwill is not impaired. If the carrying value of the reporting unit's net assets including goodwill exceeds the fair value of the reporting unit, then we determine the implied fair value of the reporting unit's goodwill. If the carrying value of a reporting unit's goodwill exceeds its implied fair value, then an impairment of goodwill has occurred and we recognize an impairment loss for the difference between the carrying amount and the implied fair value of goodwill as a component of operating income.

We review intangible assets subject to amortization for impairment whenever an event or change in circumstances indicates the carrying values of the assets may not be recoverable. We test intangible assets subject to amortization for impairment and estimate their fair values using the same assumptions and techniques we employ on property, plant and equipment.

Litigation and Contingent Liabilities

The Company is subject to lawsuits, investigations and other claims related to employment, environmental, product, and other matters. The Company is required to assess the likelihood of any adverse judgments or outcomes, as well as potential ranges of probable losses, to these matters. The Company estimates the amount of reserves required, including anticipated cost of defense, if any, for these contingencies when losses are determined to be probable and after considerable analysis of each individual issue. With respect to our environmental remediation obligations, the accrual for environmental remediation liabilities is measured on an undiscounted basis. These reserves may change in the future due to changes in the Company's assumptions, the effectiveness of strategies, or other factors beyond the Company's control.

Accrued Self Insurance

Insurance expense for casualty claims and employee-related health care benefits are estimated using historical and current experience and actuarial estimates. Stop-loss coverage is maintained with third-party insurers to limit the Company's total exposure. Certain categories of claim liabilities are actuarially determined. The assumption used to arrive at periodic expenses is reviewed regularly by management. However, actual expenses could differ from these estimates and could result in adjustments to be recognized.

Income Taxes

The provision for income taxes has been determined using the asset and liability approach of accounting for income taxes. Under this approach, deferred income taxes reflect the net tax effect of temporary differences between the book and tax bases of recorded assets and liabilities, net operating losses and tax credit carry forwards. The amount of deferred tax on these temporary differences is determined using the tax rates expected to apply to the period when the asset is realized or the liability is settled, as applicable, based on the tax rates and laws in the respective tax jurisdiction enacted as of the balance sheet date.

The Company reviews its deferred tax assets for recoverability and establishes a valuation allowance based on historical taxable income, potential for carry back of tax losses, projected future taxable income, applicable tax strategies, and the expected timing of the reversals of existing temporary differences. A valuation allowance is provided when it is more likely than not that some or all of the deferred tax assets will not be realized. Valuation allowances have been established primarily for US federal and state net operating loss carry forwards and Mexico net operating loss carry forwards. See Note N—Income Taxes to the Consolidated Financial Statements.

Taxes are provided for foreign subsidiaries based on the assumption that their earnings will be indefinitely reinvested. As such, US deferred income taxes have not been provided on these earnings. If such earnings were not considered indefinitely reinvested, certain deferred foreign and US income taxes would be provided.

On September 30, 2007, the Company adopted guidance under ASC 740 that provides a recognition threshold and measurement criteria for the financial statement recognition of a tax benefit taken or expected to be taken in a tax return. Tax benefits are recognized only when it is more likely than not, based on the technical merits, that the benefits will be sustained on examination. Tax benefits that meet the more-likely-than-not recognition threshold are measured using a probability weighting of the largest amount of tax benefit that is greater than 50% likely of being realized upon settlement. Whether the more-likely-than-not recognition threshold is met for a particular tax benefit is a matter of judgment based on the individual facts and circumstances evaluated in light of all available evidence as of the balance sheet date. See Note N—Income Taxes to the Consolidated Financial Statements.

Pension and Other Postretirement Benefits

Our pension and other postretirement benefit costs and obligations are dependent on the various actuarial assumptions used in calculating such amounts. These assumptions relate to discount rates, salary growth, long-term return on plan assets, health care cost trend rates and other factors. We base the discount rate assumptions on current investment yields on high-quality corporate long-term bonds. The salary growth assumptions reflect our long-term actual experience and future or near-term outlook. We determine the long-term return on plan assets based on historical portfolio results and management's expectation of the future economic environment. Our health care cost trend assumptions are developed based on historical cost data, the near-term outlook and an assessment of likely long-term trends. Actual results that differ from our assumptions are accumulated and, if in excess of the lesser of 10% of the projected benefit obligation or the fair market value of plan assets, amortized over the estimated future working life of the plan participants.

Operating Leases

Rent expense for operating leases is recorded on a straight-line basis over the lease term unless the lease contains an escalation clause which is not fixed and determinable. The lease term begins when we have the right to control the use of the leased property, which is typically before rent payments are due under the terms of the lease. If a lease has a fixed and determinable escalation clause, the difference between rent expense and rent paid is recorded as deferred rent and is included in the Consolidated Balance Sheets. Rent for operating leases that do not have an escalation clause or where escalation is based on an inflation index is expensed over the lease term as it is payable.

Derivative Financial Instruments

The Company has historically attempted to mitigate certain financial exposures, including commodity purchase exposures and interest rate risk, through a program of risk management that included the use of derivative financial instruments. We recognize all derivative financial instruments in the Consolidated Balance Sheets at fair value. At September 27, 2008, the Company recorded a liability for futures contracts with an aggregate fair value of \$18.0 million executed to manage the price risk on 19.1 million bushels of corn and 0.3 million tons of soybean meal. We discontinued the use of derivative financial instruments in October 2008.

We elected not to designate derivative financial instruments executed to mitigate commodity purchase exposures as hedges of forecasted transactions or of the variability of cash flows to be received or paid related to recognized assets or liabilities (“cash flow hedges”). Therefore, we recognized changes in the fair value of these derivative financial instruments immediately in earnings. Gains or losses related to these derivative financial instruments are included in the line item *Cost of sales* in the Consolidated Statements of Operations. The Company recognized \$21.1 million and \$38.3 million in losses related to changes in the fair value of its derivative financial instruments during 2009 and 2008, respectively.

Net Income (Loss) per Common Share

Net income (loss) per common share is based on the weighted average number of shares of common stock outstanding during the year. The weighted average number of shares outstanding (basic and diluted) included herein were 74,055,733, 69,337,326 and 66,555,733 shares in 2009, 2008 and 2007, respectively. The Company did not include any common stock equivalents in the fully diluted computation for 2009; the common stock equivalents would have been antidilutive because of the Company's net loss in that year. The Company did not have any common stock equivalents in 2008 or 2007.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the US requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates. We make significant estimates in regard to receivables collectability; inventory valuation; realization of deferred tax assets; valuation of long-lived assets, including goodwill; valuation of contingent liabilities, liabilities subject to compromise and self insurance liabilities; valuation of pension and other postretirement benefits obligations; and valuation of acquired businesses.

Subsequent Events

The Company has evaluated subsequent events through the issuance of these financial statements, which occurred on November 20, 2009.

Recently Adopted Accounting Pronouncements

On September 28, 2008, the Company adopted guidance under ASC 820-10 for financial assets and liabilities and nonfinancial assets and liabilities that are recognized or disclosed at fair value in the financial statements on a recurring basis. The Company will not adopt the subject guidance under ASC 820-10 until September 27, 2009 for nonfinancial assets and liabilities that are not recognized or disclosed at fair value in the financial statements on a recurring basis. The subject guidance under ASC 820-10 clarifies the definition of fair value and the methods used to measure fair value. It also expands disclosures about fair value measurements. The adoption of the subject guidance under ASC 820-10 did not have a material impact on the Company's consolidated financial statements. See Note G—Financial Instruments for expanded disclosures about the fair value measurements used for the Company's financial assets and liabilities and nonfinancial assets and liabilities that are recognized or disclosed at fair value in the financial statements on a recurring basis.

Effective March 29, 2009, the Company adopted guidance under ASC 855-10 that establishes general standards of accounting for and disclosure of events that occur after the balance sheet date but before financial statements are issued or are available to be issued. The adoption of the subject guidance under ASC 855-10 did not have a material impact on the Company's consolidated financial statements. See "Subsequent Events" above for additional information regarding the subsequent events date used for this report.

Accounting Pronouncements Issued But Not Yet Adopted

In December 2007, the FASB issued guidance under ASC 805 that establishes principles and requirements for how the acquirer (i) recognizes and measures in its financial statements the identifiable assets acquired, the liabilities assumed, and any noncontrolling interest in the acquiree, (ii) recognizes and measures the goodwill acquired in the business combination or a gain from a bargain purchase, and (iii) determines what information to disclose to enable users of the financial statements to evaluate the nature and financial effects of the business combination. It also requires an acquirer to recognize as expense most transaction and restructuring costs as incurred, rather than include such items in the cost of the acquired entity. For the Company, the subject guidance under ASC 805 will apply prospectively to business combinations for which the acquisition date is on or after September 27, 2009. The Company will evaluate the impact of the subject guidance under ASC 805 on any potential future business combinations that may occur on or after the effective date.

In December 2007, the FASB issued guidance under ASC 810-10 that establishes standards for how a reporting entity (i) identifies, labels and presents in its consolidated statement of financial position the ownership interests in subsidiaries held by parties other than itself, (ii) identifies and presents on the face of its consolidated statement of operations the amount of consolidated net income attributable to itself and to the noncontrolling interest, (iii) accounts for changes in its ownership interest while it retains a controlling financial interest in a subsidiary, (iv) initially measures any retained noncontrolling equity investment in a subsidiary that is deconsolidated, and (v) discloses other information about its interests and the interests of the noncontrolling owners. For the Company, the subject guidance under ASC 810-10 will apply prospectively effective September 27, 2009. The Company should also apply retroactively the presentation and disclosure requirements of the subject guidance under ASC 810-10 for all periods presented at that time. The Company does not expect the adoption of the subject guidance under ASC 810-10 will have a material impact on its consolidated financial statements.

In April 2008, the FASB issued guidance under both ASC 275-10 and ASC 350-30 that amends the factors an entity should consider in developing renewal or extension assumptions used in determining the useful life of recognized intangible assets. For the Company, the subject guidance under ASC 275-10 and ASC 350-30 will apply prospectively to intangible assets acquired on or after September 27, 2009. The Company does not expect the adoption of the subject guidance under ASC 275-10 or ASC 350-30 will have a material impact on its consolidated financial statements.

In December 2008, the FASB issued guidance under ASC 715-20 that provides guidance on an employer's disclosures about plan assets of a defined benefit pension or other postretirement plan, including disclosures about investment policies and strategies, categories of plan assets, fair value measurements of plan assets and significant concentrations of risk. For the Company, the subject guidance under ASC 715-20 will apply to the Company's postretirement benefit plan assets effective September 27, 2009. The Company does not expect the adoption of the subject guidance under ASC 715-20 will have a material impact on its consolidated financial statements.

NOTE C—MARKET RISKS AND CONCENTRATIONS

The Company's financial instruments that are exposed to concentrations of credit risk consist primarily of cash equivalents, investment securities and trade accounts receivable. The Company's cash equivalents and investment securities are high-quality debt and equity securities placed with major banks and financial institutions. The Company's trade accounts receivable are generally unsecured. Credit evaluations are performed on all significant customers and updated as circumstances dictate. Concentrations of credit risk with respect to trade accounts receivable are limited due to the large number of customers and their dispersion across geographic areas. With the exception of one customer that accounts for approximately 13% of trade accounts and other receivables at September 26, 2009, and approximately 12% of net sales for 2009 primarily related to our chicken segment, the Company does not believe it has significant concentrations of credit risk in its trade accounts receivable.

At September 26, 2009, approximately 31% of the Company’s employees were covered under collective bargaining agreements. Approximately 265 employees covered under collective bargaining agreements are covered under agreements that expired in 2009 and have yet to be renegotiated or will expire in 2010. We have not experienced any work stoppage at any location in over five years. We believe our relations with our employees are satisfactory. At any given time, we will be in some stage of contract negotiation with various collective bargaining units.

NOTE D—BUSINESS ACQUISITION

On December 27, 2006, we acquired 45,343,812 shares, representing 88.9% of shares outstanding, of Gold Kist Inc. (“Gold Kist”) common stock through a tender offer. We subsequently acquired all remaining Gold Kist shares and, on January 9, 2007, Gold Kist became a wholly owned subsidiary of the Company. Gold Kist, based in Atlanta, Georgia, was the third largest chicken company in the United States, accounting for more than nine percent of chicken produced in the United States in recent years. Gold Kist operated a fully-integrated chicken production business that included live production, processing, marketing and distribution.

For financial reporting purposes, we have not included the operating results and cash flows of Gold Kist in our consolidated financial statements for the period from December 27, 2006, through December 30, 2006. The operating results and cash flows of Gold Kist from December 27, 2006, through December 30, 2006 were not material. We have included the acquired assets and assumed liabilities in our balance sheet using an allocation of the purchase price based on an appraisal received from a third-party valuation specialist.

The following summarizes the purchase price for Gold Kist at December 27, 2006 (in thousands):

Purchase of 50,146,368 shares at \$21.00 per share	\$ 1,053,074
Premium paid on retirement of debt	22,208
Retirement of share-based compensation awards	25,677
Transaction costs and fees	<u>37,740</u>
Total purchase price	<u>\$ 1,138,699</u>

We retired the Gold Kist 10 1/4% Senior Notes due 2014 with a book value of \$128.5 million at a cost of \$149.8 million plus accrued interest and the Gold Kist Subordinated Capital Certificates of Interest at par plus accrued interest and a premium of one year’s interest. We also paid acquisition transaction costs and funded change in control payments to certain Gold Kist employees. This acquisition was initially funded by (i) \$780.0 million borrowed under our revolving-term secured credit facility and (ii) \$450.0 million borrowed under our \$450.0 million Senior Unsecured Term Loan Agreement (“Bridge Loan”). For additional information, see Note M—Short-Term Notes Payable and Long-Term Debt.

In connection with the acquisition, we elected to freeze certain of the Gold Kist benefit plans with the intent to ultimately terminate them. We recorded a purchase price adjustment of \$65.6 million to increase the benefit plans liability to the \$82.5 million estimated cost of these plan terminations. We do not anticipate any material net periodic benefit costs (income) related to these plans in the future. Additionally, we conformed Gold Kist's accounting policies to our accounting policies and provided for deferred income taxes on all related purchase adjustments.

The following summarizes our estimates of the fair value of the assets acquired and liabilities assumed at the date of acquisition (in thousands):

Current assets	\$	418,583
Property, plant and equipment		674,444
Goodwill		499,669
Intangible assets		64,500
Other assets		65,597
		<hr/>
Total assets acquired		1,722,793
		<hr/>
Current liabilities		269,619
Long-term debt, less current maturities		140,674
Deferred income taxes		93,509
Other long-term liabilities		80,292
		<hr/>
Total liabilities assumed		584,094
		<hr/>
Total purchase price	\$	<u>1,138,699</u>

Goodwill and other intangible assets reflected above were determined to meet the criteria for recognition apart from tangible assets acquired and liabilities assumed. Intangible assets related to the acquisition consisted of the following at December 27, 2006:

	Estimated Fair Value <small>(In millions)</small>	Amortization Period <small>(In years)</small>
	<hr/>	<hr/>
Intangible assets subject to amortization:		
Customer relationships	\$ 51,000	13.0
Trade name	13,200	3.0
Non-compete agreements	300	3.0
	<hr/>	
Total intangible assets subject to amortization	64,500	
Goodwill	<hr/>	
Total intangible assets	\$ <u>564,169</u>	
Weighted average amortization period		10.9

Goodwill, which was recognized in the Company's chicken segment, represented the purchase price in excess of the value assigned to identifiable tangible and intangible assets. We elected to acquire Gold Kist at a price that resulted in the recognition of goodwill because we believed the following strategic and financial benefits were present:

- The combined company would be positioned as the world's leading chicken producer and that position would provide us with enhanced abilities to (i) compete more efficiently and provide even better customer service, (ii) expand our geographic reach and customer base, (iii) further pursue value-added and prepared chicken opportunities and (iv) offer long-term growth opportunities for our stockholders, employees, and growers.
- The combined company would be better positioned to compete in the industry both internationally and in the US as additional consolidation occurred.

As discussed in Note J—Intangible Assets, because of the deterioration in the chicken industry subsequent to the acquisition, the Company determined that this goodwill was fully impaired at September 27, 2008.

The amortizable intangible assets were determined by us to have finite lives. The useful life for the customer relationships intangible asset we recognized was based on our forecasts of customer turnover. The useful life for the trade name intangible asset we recognized was based on the estimated length of our use of the Gold Kist trade name while it is phased out and replaced with the Pilgrim's Pride trade name. The useful life of the non-compete agreements intangible asset we recognized was based on the remaining life of the agreements. We amortize these intangible assets over their remaining useful lives on a straight-line basis. Annual amortization expense for these intangible assets was \$8.4 million, \$8.4 million and \$6.3 million in 2009, 2008 and 2007, respectively. We expect to recognize annual amortization expense of \$5.1 million in 2010, \$3.9 million in each year from 2011 through 2019, and \$1.0 million in 2020.

The following unaudited pro forma financial information has been presented as if the acquisition had occurred at the beginning of each period presented (in thousands, except shares and per share data):

	2007
	Pro forma
Net sales	\$ 8,026,422
Depreciation and amortization	\$ 228,539
Operating income (loss)	\$ 206,640
Interest expense, net	\$ 144,354
Income (loss) from continuing operations before taxes	\$ 43,900
Income (loss) from continuing operations	\$ 17,331
Net income (loss)	\$ 12,832
Income (loss) from continuing operations per common share	\$ 0.26
Net income (loss) per common share	\$ 0.19
Weighted average shares outstanding	66,555,733

NOTE E—DISCONTINUED BUSINESS

The Company sold certain assets of its turkey business for \$18.6 million and recorded a gain of \$1.5 million (\$0.9 million, net of tax) during the second quarter of 2008. This business was composed of substantially our entire former turkey segment. The results of this business are included in the line item *Income from operation of discontinued business, net of tax* in the Consolidated Statements of Operations for all periods presented.

For a period of time, we continued to generate operating results and cash flows associated with our discontinued turkey business. These activities were transitional in nature. We entered into a short-term co-pack agreement with the acquirer of the discontinued turkey business under which they processed turkeys for sale to our customers through the end of 2008. We had no remaining turkey inventories as of September 26, 2009, and did not recognize operating results related to our discontinued turkey business after the second quarter of 2009.

Neither our continued involvement in the distribution and sale of these turkeys or the co-pack agreement conferred upon us the ability to influence the operating and/or financial policies of the turkey business under its new ownership.

No debt was assumed by the acquirer of the discontinued turkey business or required to be repaid as a result of the disposal transaction. We elected to allocate to the discontinued turkey operation other consolidated interest that was not directly attributable to or related to other operations of the Company based on the ratio of net assets to be sold or discontinued to the sum of the total net assets of the Company plus consolidated debt. Interest allocated to the discontinued business totaled \$1.4 million and \$2.6 million in 2008 and 2007, respectively. We did not allocate interest to the discontinued business in 2009.

The following amounts related to our turkey business have been segregated from continuing operations and included in the line items *Income (loss) from operation of discontinued business, net of tax* and *Gain on sale of discontinued business, net of tax* in the Consolidated Statements of Operations:

	2009	2008	2007
	(In thousands)		
Net sales	\$ 25,788	\$ 86,261	\$ 99,987
Income (loss) from operation of discontinued business before income taxes	\$ 962	\$ (11,746)	\$ (7,228)
Income tax expense (benefit)	363	(4,434)	(2,729)
Income (loss) from operation of discontinued business, net of tax	\$ 599	\$ (7,312)	\$ (4,499)
Gain on sale of discontinued business before income taxes	\$ —	\$ 1,450	\$ —
Income tax expense	—	547	—
Gain on sale of discontinued business, net of tax	\$ —	\$ 903	\$ —

There are no assets or liabilities related to our discontinued turkey business as of September 26, 2009. The following assets and liabilities related to our discontinued turkey business have been segregated and included in the line items *Assets of discontinued business* and *Liabilities of discontinued business*, as appropriate, in the Consolidated Balance Sheets as of September 27, 2008 (in thousands):

Trade accounts and other receivables, less allowance for doubtful accounts	\$ 5,881
Inventories	<u>27,638</u>
Assets of discontinued business	<u>\$ 33,519</u>
Accounts payable	\$ 7,737
Accrued expenses	<u>3,046</u>
Liabilities of discontinued business	<u>\$ 10,783</u>

NOTE F—RESTRUCTURING ACTIVITIES

In 2008 and 2009, the Company completed the following restructuring activities:

- Closed processing facilities or complexes in Dalton, Georgia; Douglas, Georgia; El Dorado, Arkansas; Franconia, Pennsylvania; Clinton, Arkansas; Bossier City, Louisiana; and Siler City, North Carolina,
- Sold a closed processing complex in Farmerville, Louisiana,
- Announced the October 2009 closures of processing facilities in Athens, Alabama, and Athens, Georgia,
- Sold closed distribution centers in Cincinnati, Ohio; Plant City, Florida; El Paso, Texas, and Pompano Beach, Florida,
- Closed distribution centers in Houston, Texas; Oskaloosa, Iowa; Jackson, Mississippi, and Nashville, Tennessee,
- Reduced its workforce by approximately 440 non-production positions, including the resignations of the former Chief Executive Officer and former Chief Operating Officer,
- Closed an administrative office building in Duluth, Georgia, in June 2008, and
- Reduced or consolidated production at various other facilities throughout the US.

Significant actions that occurred from the second quarter of 2009 through the fourth quarter of 2009 were approved by the Bankruptcy Court, when required under the Bankruptcy Code, as part of the Company's reorganization efforts. Significant actions that occurred from the second quarter of 2008 through the first quarter of 2009 were approved by the Company's Board of Directors as part of a plan intended to curtail losses amid record-high costs for corn, soybean meal and other feed ingredients and an oversupply of chicken in the US. These actions began in March 2008 and were completed in June 2009. These restructuring activities eliminated approximately 10,500 positions.

Results of operations for 2009 and 2008 included restructuring charges totaling \$30.5 million and \$16.2 million, respectively, related to these actions. All of these restructuring charges, with the exception of certain lease continuation costs, have resulted in cash expenditures or will result in cash expenditures within one year. Results of operations for 2009 also included adjustments totaling \$9.2 million that reduced the accrued costs. These adjustments included the elimination of accrued severance costs in excess of actual severance costs incurred during 2009, the assumption of the Duluth, Georgia, lease obligation by an outside party during the second quarter of 2009, the elimination of accrued other restructuring costs in excess of actual other restructuring costs incurred for several of the 2008 restructuring actions during the second quarter of 2009 and the elimination of accrued other restructuring costs in excess of actual other restructuring costs incurred for the Douglas, Georgia, reorganization action during the third quarter of 2009.

The following table sets forth restructuring activity that occurred during 2008 and 2009:

	<u>Accrued Lease Obligation</u>	<u>Accrued Severance and Employee Retention</u>	<u>Accrued Other Restructuring Costs</u>	<u>Restructuring Inventory Reserves</u>	<u>Total</u>
	(In thousands)				
September 29, 2007	\$ —	\$ —	\$ —	\$ —	\$ —
Accruals	4,778	4,000	7,378	2,021	18,177
Payment / Disposal	(312)	(1,306)	(1,727)	(806)	(4,151)
Adjustments	—	—	—	(3)	(3)
September 27, 2008	4,466	2,694	5,651	1,212	14,023
Accruals	—	17,830	7,667	5,029	30,526
Payment / Disposal	(622)	(12,876)	(2,753)	(4,775)	(21,026)
Adjustments	(2,202)	(4,305)	(2,454)	(212)	(9,173)
September 26, 2009	<u>\$ 1,642</u>	<u>\$ 3,343</u>	<u>\$ 8,111</u>	<u>\$ 1,254</u>	<u>\$ 14,350</u>

Costs incurred in the second, third and fourth quarters of 2009 were primarily classified as reorganization items. Consistent with the Company's previous practice and because management believes costs incurred in 2008 and the first quarter of 2009 were related to ceasing production at previously announced facilities and not directly related to the Company's ongoing production, they are classified as a component of operating income (loss) below gross profit.

The Company recognized losses totaling \$12.5 million in 2009 related to sales of unneeded broiler eggs and live flock depletion. In 2008, the Company recognized losses totaling \$13.9 million related to sales of unneeded broiler eggs. These losses were recognized as components of gross profit (loss).

The Company recognized impairment charges totaling \$5.4 million in 2009 to reduce the carrying amounts of certain property, plant and equipment located at a facility closed in 2009 to their estimated fair values. These costs were classified as reorganization items. The Company recognized impairment charges totaling \$13.1 million in 2008 to reduce the carrying amounts of certain property, plant, equipment and other assets located at or related to facilities closed in

2008 to their estimated fair values. Consistent with our previous practice and because management believes the realization of the carrying amounts of the affected assets was directly related to the Company's production activities, the charges were reported as a component of gross profit (loss).

We continue to review and evaluate various restructuring and other alternatives to streamline our operations, improve efficiencies and reduce costs. Such initiatives may include selling assets, idling facilities, consolidating operations and functions, relocating or reducing production and voluntary and involuntary employee separation programs. Any such actions may require us to obtain the pre-approval of our lenders under our DIP Credit Agreement and the Bankruptcy Court. In addition, such actions will subject the Company to additional short-term costs, which may include facility shutdown costs, asset impairment charges, lease commitment costs, employee retention and severance costs and other closing costs.

NOTE G—FINANCIAL INSTRUMENTS

The asset (liability) amounts recorded in the Consolidated Balance Sheet (carrying amounts) and the estimated fair values of financial instruments at September 26, 2009, consisted of the following:

	<u>Carrying Amount</u>	<u>Fair Value</u>	<u>Reference</u>
	(In thousands)		
Cash and cash equivalents	\$ 220,029	\$ 220,029	
Trade accounts and other receivables	316,953	316,953	Note H
Investments in available-for-sale securities	62,616	62,616	
Long-term restricted cash and cash equivalents ^(a)	10,072	10,072	
Accounts payable and accrued expenses	(491,432)	(491,432)	Note L
Public debt obligations	(656,996)	(717,206)	Note M
Non-public credit facilities	(1,388,098)	(b)	Note M

(a) Long-term restricted cash and cash equivalents collateralize self-insurance obligations and are included in *Other assets* on the Consolidated Balance Sheet.

(b) Management expects that the fair value of our non-public credit facilities has decreased below the aggregate face value of those facilities, but cannot reliably estimate the aggregate fair value at this time as a result of our Chapter 11 bankruptcy filing.

The carrying amounts of our cash and cash equivalents, restricted cash and cash equivalents, accounts receivable, accounts payable and certain other liabilities approximate their fair values due to their relatively short maturities. The Company adjusts its investments to fair value based on quoted market prices in active markets for identical investments, quoted market prices in active markets for similar investments with inputs that are observable for the subject investment or unobservable inputs such as discounted cash flow models or valuations.

The following is a summary of our cash equivalents and current and long-term investments in available-for-sale securities:

	September 26, 2009		September 27, 2008	
	Amortized Cost	Fair Value	Amortized Cost	Fair Value
	(In thousands)			
Cash equivalents:				
Fixed income securities	\$ 3,414	\$ 3,562	\$ —	\$ —
Equity securities	11	11	12	12
Other	35,617	35,617	36,912	36,912
Current investments:				
Fixed income securities	\$ 5,174	\$ 5,302	\$ 9,798	\$ 9,835
Other	—	—	604	604
Long-term investments:				
Fixed income securities	\$ 46,843	\$ 49,477	\$ 44,041	\$ 44,882
Equity securities	6,595	6,769	10,986	9,775
Other	1,300	1,068	1,300	1,197

Maturities for the Company's investments in fixed income securities as of September 26, 2009, were as follows:

	Fair Value	Percent
	(In thousands)	
Matures in less than one year	\$ 8,864	15.1 %
Matures between one and two years	12,473	21.4 %
Matures between two and five years	33,808	58.0 %
Matures in excess of five years	3,196	5.5 %
	\$ 58,341	100.0 %

The cost of each security sold and the amount reclassified out of accumulated other comprehensive income into earnings is determined on a specific identification basis.

The Company and certain retirement plans that it sponsors invest in a variety of financial instruments. In response to the continued turbulence in global financial markets, we have analyzed our portfolios of investments and, to the best of our knowledge, none of our investments, including money market funds units, commercial paper and municipal securities, have been downgraded because of this turbulence, and neither we nor any fund in which we participate hold significant amounts of structured investment vehicles, auction rate securities, collateralized debt obligations, credit derivatives, hedge funds investments, fund of funds investments or perpetual preferred securities. Certain postretirement funds in which the Company participates hold significant amounts of mortgage-backed securities. However, none of the mortgages collateralizing these securities are considered subprime.

Certain investments are held in trust as compensating balance arrangements for our insurance liability and are classified as long-term based on a maturity date greater than one year from the balance sheet date and management's intention not to use such assets in the next twelve months.

Effective September 28, 2008, the Company adopted guidance under ASC 815 that establishes a framework for measuring fair value and required enhanced disclosures about fair value measurements. The subject guidance under ASC 815 clarifies that fair value is an exit price, representing the amount that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants. The subject guidance under ASC 815 also requires disclosure about how fair value was determined for assets and liabilities and established a hierarchy for which these assets and liabilities must be grouped, based on significant levels of inputs as follows:

- Level 1 Quoted prices in active markets for identical assets or liabilities;
- Level 2 Quoted prices in active markets for similar assets and liabilities and inputs that are observable for the asset or liability; or
- Level 3 Unobservable inputs, such as discounted cash flow models or valuations.

The determination of where assets and liabilities fall within this hierarchy is based upon the lowest level of input that is significant to the fair value measurement.

As of September 26, 2009, the Company held certain items that are required to be measured at fair value on a recurring basis. These included cash and cash equivalents, short-term investments in available-for-sale securities and long-term investments in available-for-sale securities. Cash equivalents consist of short-term, highly liquid, income-producing investments such as money market funds and other funds that have maturities of 90 days or less which are traded in active markets. Short-term investments in available-for-sale securities consist of short-term, highly liquid, income-producing investments such as municipal debt securities that have maturities of greater than 90 days but less than one year. Long-term investments in available-for-sale securities consist of income-producing investments such as municipal debt securities, corporate debt securities, equity securities and fund-of-funds units that have maturities of greater than one year.

The following items are measured at fair value on a recurring basis at September 26, 2009:

	<u>Level 1</u>	<u>Level 2</u>	<u>Level 3</u>	<u>Total</u>
	(In thousands)			
Cash equivalents	\$ 33,063	\$ 6,127	\$ —	\$ 39,190
Short-term investments in available-for-sale securities	—	5,302	—	5,302
Long-term investments in available-for-sale securities	6,769	49,477	1,068	57,314
Long-term restricted cash and cash equivalents	10,072	—	—	10,072

The following table presents the Company's activity for assets measured at fair value on a recurring basis using significant unobservable (Level 3) inputs for 2009:

	<u>Fund of Funds</u>	<u>Auction Rate Securities</u> (In thousands)	<u>Total</u>
Balance at September 27, 2008	\$ 1,197	\$ 3,850	\$ 5,047
Sale of securities	—	(3,850)	(3,850)
Included in other comprehensive income	(129)	—	(129)
Balance at September 26, 2009	<u>\$ 1,068</u>	<u>\$ —</u>	<u>\$ 1,068</u>

NOTE H—TRADE ACCOUNTS AND OTHER RECEIVABLES

Trade accounts and other receivables, less allowance for doubtful accounts, consisted of the following:

	<u>September 26, 2009</u>	<u>September 27, 2008</u>
	(In thousands)	
Trade accounts receivable	\$ 307,523	\$ 135,003
Other receivables	14,245	13,854
	<u>321,768</u>	<u>148,857</u>
Allowance for doubtful accounts	(4,815)	(4,701)
Receivables, net	<u>\$ 316,953</u>	<u>\$ 144,156</u>

In connection with the RPA, the Company sold, on a revolving basis, certain of its trade receivables to a special purpose entity ("SPE") wholly owned by the Company, which in turn sold a percentage ownership interest to third parties. The SPE was a separate corporate entity and its assets were available first and foremost to satisfy the claims of its creditors. The outstanding amount of trade receivables sold at September 27, 2008, was \$236.3 million. The gross proceeds resulting from the sales were included in cash flows from operating activities in the Consolidated Statements of Cash Flows. On December 3, 2008, the RPA was terminated and all receivables thereunder were repurchased with proceeds of borrowings under the DIP Credit Agreement. The loss recognized on the sold receivables during 2009 and 2008 was not material.

NOTE I—INVENTORIES

Inventories consisted of the following:

	September 27, 2008	September 27, 2008
	(In thousands)	
Chicken:		
Live chicken and hens	\$ 287,858	\$ 385,511
Feed and eggs	206,137	265,959
Finished chicken products	249,732	365,123
Total chicken inventories	<u>743,727</u>	<u>1,016,593</u>
Other products:		
Commercial feed, table eggs, retail farm store and other	\$ 16,927	\$ 13,358
Distribution inventories (other than chicken products)	3,215	6,212
Total other products inventories	<u>20,142</u>	<u>19,570</u>
Total inventories	<u>\$ 763,869</u>	<u>\$ 1,036,163</u>

Inventories did not include a lower-of-cost-or-market allowance at September 26, 2009. Inventories included a lower-of-cost-or-market allowance of \$26.6 million at September 27, 2008. The loss recognized on the application of the rule of lower-of-cost-or-market valuation in 2008 was also \$26.6 million.

NOTE J—INTANGIBLE ASSETS

Identified Intangible Assets

Identified intangible assets consisted of the following:

	Useful Life (Years)	Original Cost	Accumulated Amortization	Carrying Amount
			(In thousands)	
September 26, 2009:				
Trade names	3–15	\$ 39,271	\$ (22,328)	\$ 16,943
Customer relationships	13	51,000	(10,789)	40,211
Non-compete agreements	3	300	(275)	25
Total intangible assets		<u>\$ 90,571</u>	<u>\$ (33,392)</u>	<u>\$ 57,179</u>
September 27, 2008:				
Trade names		\$ 39,271	\$ (16,168)	\$ 23,103
Customer relationships		51,000	(6,865)	44,135
Non-compete agreements		300	(175)	125
Total identified intangible assets		<u>\$ 90,571</u>	<u>\$ (23,208)</u>	<u>\$ 67,363</u>

We recognized amortization expense of \$10.2 million, \$10.2 million and \$8.1 million in 2009, 2008 and 2007, respectively.

We expect to recognize amortization expense associated with identified intangible assets of \$6.8 million in 2010 and \$5.7 million in each year from 2011 through 2014.

Goodwill

The Company evaluated goodwill as of September 27, 2008, because of the significant deterioration in the operating environment during the fourth quarter of 2008. The Company's impairment test resulted in a noncash, pretax impairment charge of \$501.4 million (\$7.40 per share) related to a write-down of the goodwill reported in the Chicken segment. The goodwill was primarily related to the 2007 acquisition of Gold Kist. The charge is not tax deductible because the acquisition of Gold Kist was structured as a tax-free stock transaction. The impairment charge is included in the line item *Goodwill impairment* in the Consolidated Statement of Operations for the year ended September 27, 2008.

NOTE K—PROPERTY, PLANT AND EQUIPMENT

Property, plant and equipment, net consisted of the following:

	September 26, 2009	September 27, 2008
	(In thousands)	
Land	\$ 109,532	\$ 111,567
Buildings, machinery and equipment	2,468,297	2,465,608

Construction-in-progress	74,943	74,307
Property, plant and equipment, gross	2,710,328	2,715,754
Accumulated depreciation	(1,210,852)	(1,042,750)
Property, plant and equipment, net	\$ 1,499,476	\$ 1,673,004

Assets Sold

In May 2009, the Company sold its closed processing complex and certain inventories in Farmerville, Louisiana, for \$72.3 million. The Company recognized a gain of \$15.0 million on this transaction that is included in *Reorganization items, net* on its Consolidated Statement of Operations. In June 2009, the Company sold its closed distribution center in Plant City, Florida, for \$2.4 million. The Company recognized a loss of \$0.4 million on this transaction that is included in *Selling, general and administrative expenses* on its Consolidated Statement of Operations. In July 2009, the Company sold undeveloped land in Camp County, Texas, for \$4.9 million. The Company recognized a gain of \$3.5 million on this transaction that is included in *Reorganization items, net* on its Consolidated Statement of Operations.

Idled Assets and Assets Held for Sale

The Company closed its processing complexes in Douglas, Georgia; El Dorado, Arkansas; Franconia, Pennsylvania; and Dalton, Georgia, in the third quarter of 2009 and closed its processing complexes in Bossier City, Louisiana, and Clinton, Arkansas, in the first quarter of 2009. Although the Company has received bids on some of these assets, management has not deemed any of the bids submitted to be acceptable and is not certain whether any bids acceptable to the Company will be received in the future. Management is also not certain that the Board of Directors would determine that it would be in the best interest of the bankruptcy estate to divest

of these assets. Management is therefore not certain that it can or will divest of these assets within one year and, accordingly, has not classified them as assets held for sale. The Company continues to depreciate these assets. The Company recognized impairment charges totaling \$5.4 million during the third quarter of 2009 to reduce the carrying amounts of certain idled assets located at the closed processing complex in Dalton, Georgia. At September 26, 2009, the carrying amount of these idled assets was \$104.0 million based on depreciable value of \$182.7 million and accumulated depreciation of \$78.7 million.

The Company currently classifies certain assets related to its closed distribution center in El Paso, Texas, as assets held for sale. At September 26, 2009, and September 27, 2008, the Company reported assets held for sale totaling \$0.5 million and \$17.4 million, respectively, in *Prepaid expenses and other current assets* on its Consolidated Balance Sheets.

The Company estimated the fair value of each of its assets held for sale, idled assets and assets in the process of being idled as of September 26, 2009. Most of these assets were valued at their highest and best use—as operating chicken processing facilities. A selected few of these assets were valued as empty facilities. Management does not believe that the aggregate carrying amount of the assets held for sale, idled assets or assets in the process of being idled are significantly impaired at the present time. However, should the carrying amounts of these assets consistently exceed future purchase offers received, if any, recognition of impairment charges could become necessary.

Asset Impairment

In addition to the 2009 asset impairment charges related to idled assets that are discussed above, the Company recognized asset impairment charges totaling \$10.2 million during 2008 to reduce the carrying amounts of certain property, plant and equipment located at the facilities discussed in Note E—Restructuring Activities to their estimated fair values.

At the present time, the Company's forecasts indicate that it can recover the carrying value of its operating assets, including its property, plant and equipment and identified intangible assets, based on the projected cash flows of the operations. A key assumption in management's forecast is that the Company's sales volumes will generate historical margins as supply and demand between commodities and chicken and other animal-based proteins become more balanced. However, the exact timing of the return to historical margins is not certain, and if the return to historical margins is delayed, impairment charges could become necessary in the future.

Depreciation

We recognized depreciation expense related to our continuing operations of \$217.9 million, \$224.4 million and \$188.6 million in 2009, 2008 and 2007, respectively. We also recognized depreciation charges related to our discontinued turkey business of \$0.7 million and \$1.6 million in 2008 and 2007, respectively. We did not incur depreciation charges related to our discontinued turkey business in 2009.

NOTE L—ACCRUED EXPENSES

Accrued expenses not subject to compromise consisted of the following components:

	<u>September 26, 2009</u>	<u>September 27, 2008</u>
	(In thousands)	
Compensation and benefits	\$ 107,850	\$ 118,803

Debt Obligations

DIP Credit Agreement. As previously discussed, on December 1, 2008, the Debtors filed voluntary petitions in the Bankruptcy Court seeking reorganization relief under the Bankruptcy Code. The filing of the Chapter 11 petitions constituted an event of default under certain of our debt obligations, and those debt obligations became automatically and immediately due and payable, subject to an automatic stay of any action to collect, assert, or recover a claim against the Company and the application of applicable bankruptcy law. As a result, the accompanying Consolidated Balance Sheet as of September 27, 2008, includes reclassifications of \$1,872.1 million to reflect as current certain long-term debt under the Company's credit facilities that, absent the stay, would have become automatically and immediately due and payable. Because of the bankruptcy petition, most of the Company's pre-petition long-term debt is included in *Liabilities subject to compromise* at September 26, 2009. The Company classifies pre-petition liabilities subject to compromise as a long-term liability because management does not believe the Company will use existing current assets or create additional current liabilities to fund these obligations.

On December 2, 2008, the Bankruptcy Court granted interim approval authorizing the Company and the Subsidiaries to enter into the Initial DIP Credit Agreement with the DIP Agent and the lenders party thereto. On December 2, 2008, the Company, the US Subsidiaries and the other parties entered into the Initial DIP Credit Agreement, subject to final approval of the Bankruptcy Court. On December 30, 2008, the Bankruptcy Court granted final approval authorizing the Company and the Subsidiaries to enter into the DIP Credit Agreement.

The DIP Credit Agreement currently provides for an aggregate commitment of up to \$350 million, which permits borrowings on a revolving basis. The commitment includes a \$25 million sub-limit for swingline loans and a \$20 million sub-limit for letters of credit. Outstanding borrowings under the DIP Credit Agreement bear interest at a per annum rate equal to 8.0% plus the greatest of (i) the prime rate as established by the DIP Agent from time to time, (ii) the average federal funds rate plus 0.5%, or (iii) the LIBOR rate plus 1.0%, payable monthly. The weighted average interest rate for 2009 was 11.25%. The loans under the Initial DIP Credit Agreement were used to repurchase all receivables sold under the Company's RPA. Loans under the DIP Credit Agreement may be used to fund the working capital requirements of the Company and its subsidiaries according to a budget as approved by the required lenders under the DIP Credit Agreement. For additional information on the RPA, see Note H—Trade Accounts and Other Receivables.

Actual borrowings by the Company under the DIP Credit Agreement are subject to a borrowing base, which is a formula based on certain eligible inventory and eligible receivables. The borrowing base formula is reduced by (i) pre-petition obligations under the Pre-petition BMO Facility (ii) administrative and professional expenses incurred in connection with the bankruptcy proceedings, and (iii) the amount owed by the Company and the Subsidiaries to any person on account of the purchase price of agricultural products or services (including poultry and livestock) if that person is entitled to any grower's or producer's lien or other security arrangement. The borrowing base is also limited to 2.22 times the formula amount of total eligible receivables. The DIP Credit Agreement provides that the Company may not incur capital expenditures in excess of \$150 million. The Company must also meet minimum monthly levels of EBITDAR. Under the DIP Credit Agreement, "EBITDAR" means, generally, earnings before interest, taxes, depreciation, amortization, and restructuring (writedowns of goodwill and other intangibles, asset impairment charges, certain restructuring and closure costs and other specified costs, charges, losses and gains). The DIP Credit Agreement also provides for certain other covenants, various representations and warranties, and events of default that are customary for transactions of this nature. As of September 26, 2009, the applicable borrowing base and the amount available for borrowings under the DIP Credit Agreement were both \$329.2 million as there were no outstanding borrowings under the Credit Agreement.

The principal amount of outstanding loans under the DIP Credit Agreement, together with accrued and unpaid interest thereon, are payable in full at maturity on December 1, 2009, subject to extension for an additional six months with the approval of all lenders thereunder. The Company has requested a two-month extension. All obligations under the DIP Credit Agreement are unconditionally guaranteed by the Subsidiaries and are secured by a first priority priming lien on substantially all of the assets of the Company and the Subsidiaries, subject to specified permitted liens in the DIP Credit Agreement. Under the terms of the DIP Credit Agreement and applicable bankruptcy law, the Company may not pay dividends on the common stock while it is in bankruptcy.

Pre-petition CoBank Facility. In September 2006, the Company entered into an amended and restated revolver/term credit agreement with a maturity date of September 21, 2016 (the “Pre-petition CoBank Facility”). The Pre-petition CoBank Facility provided for an aggregate commitment of \$1.172 billion consisting of (i) a \$550 million revolving/term loan commitment and (ii) \$622.4 million in various term loans. At September 26, 2009, the Company had \$506.7 million outstanding under the revolver and \$619.7 million outstanding in various term loans. The Pre-petition CoBank Facility is presently secured by certain fixed assets. The fixed rate term loans bear interest at rates ranging from 7.34% to 7.56%. The voluntary converted loans bear interest at rates ranging from LIBOR plus 1.0%-2.0%, depending upon the Company’s total debt to capitalization ratio. The floating rate term loans bear interest at LIBOR plus 1.50%-1.75% based on the ratio of the Company’s debt to EBITDA, as defined in the Pre-petition CoBank Facility credit agreement. The revolving/term loans provide for interest rates ranging from LIBOR plus 1.0%-2.0%, depending upon the Company’s total debt to capitalization ratio. Commitment fees charged on the unused balance of this facility range from 0.20% to 0.40%, depending upon the Company’s total debt to capitalization ratio. In connection with temporary amendments to certain of the financial covenants under the Pre-petition CoBank Facility on April 30, 2008, the interest rates were temporarily increased until September 26, 2009 to the following ranges: (i) voluntary converted loans: LIBOR plus 1.5%-3.0%; (ii) floating rate terms loans: LIBOR plus 2.00%-2.75%; and (iii) revolving term loans: LIBOR plus 1.5%-3.0%. In connection with these amendments, the commitment fees were temporarily increased for the same period to range from 0.275%-0.525%. As a result of the Company's Chapter 11 filing, after December 1, 2008, interest will accrue at the default rate, which is two percentage points above the interest rate otherwise applicable under the Pre-petition CoBank Facility. One-half of the outstanding obligations under the Pre-petition CoBank Facility are guaranteed by Pilgrim Interests, Ltd., an entity affiliated with our Senior Chairman, Lonnie “Bo” Pilgrim. The filing of the bankruptcy petitions also constituted an event of default under Pre-petition CoBank Facility. As a result of such event of default, all obligations under Pre-petition CoBank Facility became automatically and immediately due and payable, subject to an automatic stay of any action to collect, assert, or recover a claim against the Company and the application of applicable bankruptcy law.

Pre-petition BMO Facility. In February 2007, the Company entered into the Pre-petition BMO Facility with credit commitment of up to \$300 million and a final maturity date of February 18, 2013. The Pre-petition BMO Facility provides for interest rates ranging from LIBOR plus 0.75-1.75%, depending upon our total debt to capitalization ratio. The obligations under the Pre-petition BMO Facility are secured by domestic chicken inventories and receivables that were not sold pursuant to the RPA. Commitment fees charged on the unused balance of the Pre-petition BMO Facility range from 0.175% to 0.35%, depending upon the Company’s total debt to capitalization ratio. In connection with temporary amendments to certain of the financial covenants under the Pre-petition BMO Facility on April 30, 2008, the interest rates were temporarily increased until September 26, 2009 to range between LIBOR plus 1.25%-2.75%. In connection with these amendments, the commitment fees were temporarily increased for the same period to range from 0.25%-0.50%. As a result of the Company's Chapter 11 filing, after December 1, 2008, interest will accrue at the default rate, which is two percentage points above the interest rate otherwise applicable under the Pre-petition BMO Facility. One-half of the outstanding obligations under the Pre-petition BMO Facility are guaranteed by Pilgrim Interests, Ltd., an entity affiliated with our Senior Chairman, Lonnie “Bo” Pilgrim. The filing of the bankruptcy petitions also constituted an event of default under Pre-petition BMO Facility. As a

result of such event of default, all obligations under the Pre-petition BMO Facility became automatically and immediately due and payable, subject to an automatic stay of any action to collect, assert, or recover a claim against the Company and the application of applicable bankruptcy law.

Mexico Revolving Credit Facility. On September 25, 2006, a subsidiary of the Company, Avícola Pilgrim's Pride de México, S. de R.L. de C.V. (the "Mexico Borrower"), entered into a secured revolving credit agreement (the "ING Credit Agreement") with ING Capital, LLC, as agent (the "Mexico Agent") and the lenders party thereto (the "Mexico Lenders"). The ING Credit Agreement has a final maturity date of September 25, 2011 and a revolving commitment of 558 million Mexican pesos, a US dollar-equivalent 41.1 million at September 26, 2009. Outstanding amounts bear interest at rates ranging from the higher of the Prime Rate or Federal Funds Effective Rate plus 0.5%; LIBOR plus 1.65%-3.125%; or TIE plus 1.05%-2.55% depending on the loan designation. Obligations under this agreement are secured by a security interest in and lien upon all capital stock and other equity interests of the Company's Mexican subsidiaries (other than the Borrower). All the obligations of the Borrower are secured by unconditional guaranty by the Company. At September 26, 2009, \$41.1 million was outstanding and no other funds were available for borrowing under this line. Borrowings are subject to "no material adverse effect" provisions.

On November 30, 2008, the Company and certain non-Debtor Mexico subsidiaries of the Company (the "Mexico Subsidiaries") entered into a Waiver Agreement and Second Amendment to Credit Agreement (the "Waiver Agreement") with the Mexico Agent and the Mexico Lenders. Under the Waiver Agreement, the Mexico Agent and the Mexico Lenders waived any default or event of default under the ING Credit Agreement resulting from the Company's filing of its bankruptcy petition with the Bankruptcy Court. Pursuant to the Waiver Agreement, outstanding amounts under the ING Credit Agreement now bear interest at a rate per annum equal to: the LIBOR Rate, the Base Rate, or the TIE Rate, as applicable, plus the Applicable Margin (as those terms are defined in the ING Credit Agreement). While the Company is operating under its petitions for reorganization relief, the Waiver Agreement provides for an Applicable Margin for LIBOR loans, Base Rate loans, and TIE loans of 6.0%, 4.0%, and 5.8%, respectively. The Waiver Agreement further amended the ING Credit Agreement to require the Mexico Borrower to make a mandatory prepayment of the revolving loans, in an aggregate amount equal to 100% of the net cash proceeds received by any Mexico Subsidiary, as applicable, in excess of thresholds specified in the ING Credit Agreement (i) from the occurrence of certain asset sales by the Mexico Subsidiaries; (ii) from the occurrence of any casualty or other insured damage to, or any taking under power of eminent domain or by condemnation or similar proceedings of, any property or asset of any Mexico Subsidiary; or (iii) from the incurrence of certain indebtedness by a Mexico Subsidiary. Any such mandatory prepayments will permanently reduce the amount of the commitment under the ING Credit Agreement. In connection with the Waiver Agreement, the Mexico Subsidiaries pledged substantially all of their receivables, inventory, and equipment and certain fixed assets.

Senior and Subordinated Notes. On January 24, 2007, the Company closed on the sale of \$400 million of 7 5/8% Senior Notes due 2015 and \$250 million of 8 3/8% Senior Subordinated Notes due 2017, sold at par. Interest is payable on May 1 and November 1 of each year, beginning November 1, 2007. Prior to the Chapter 11 filings, the notes were subject to certain early redemption features. The proceeds from the sale of the notes, after underwriting discounts, were used to (i) retire the loans outstanding under the Company's bridge loan agreement, (ii) repurchase \$77.5 million of the Company's 9 1/4% Senior Subordinated Notes due 2013 at a premium of \$7.4 million plus accrued interest of \$1.3 million and (iii) reduce outstanding revolving loans under the Pre-petition CoBank Facility. In January 2007, the Company had borrowed (i) \$780 million under the Pre-petition CoBank Facility and (ii) \$450 million under the bridge loan agreement to fund the Gold Kist acquisition. Loss on early extinguishment of debt recognized in 2007 includes the \$7.4 million premium along with unamortized loan costs of \$7.1 million related to the retirement of 9 1/4% Senior Subordinated Notes due 2013.

In September 2007, the Company redeemed all of its 9 5/8% Senior Notes due 2011 at a total cost of \$307.5 million. To fund a portion of the aggregate redemption price, the Company sold \$300 million of trade receivables under its RPA. Loss on early extinguishment of debt recognized in 2007 includes the \$9.5 million premium along with unamortized loan costs of \$2.5 million related to the retirement of these notes.

During 2009, the Company borrowed \$616.7 million and repaid \$525.6 million under the Pre-petition CoBank Facility, borrowed \$216.8 million and repaid \$179.7 million under the Pre-petition BMO Facility, borrowed and repaid \$430.8 million under the DIP Credit Agreement and repaid \$14.4 million under other facilities.

In September 2008, the Company notified its lenders that it expected to incur a significant loss in the fourth quarter of 2008 and entered into agreements with them to temporarily waive the fixed-charge coverage ratio covenant under its credit facilities. The lenders agreed to continue to provide liquidity under the credit facilities during the thirty-day period ended October 28, 2008. On October 27, 2008, the Company entered into further agreements with its lenders to temporarily waive the fixed-charge coverage ratio and leverage ratio covenants under its credit facilities. The lenders agreed to continue to provide liquidity under the credit facilities during the thirty-day period ended November 26, 2008. On November 26, 2008, the Company entered into further agreements with its lenders to extend the temporary waivers until December 1, 2008.

The filing of the bankruptcy petitions constituted an event of default under the Pre-petition BMO Facility and the Pre-petition CoBank Facility (together, the “Secured Debt”) as well as the 7 5/8% Senior Notes due 2015, the 8 3/8% Senior Subordinated Notes due 2017 and the 9 1/4% Senior Subordinated Notes due 2013 (together, the “Unsecured Debt”). The aggregate principal amount owed under these credit facilities and notes was approximately \$2,002.3 million as of September 26, 2009. As a result of such event of default, all obligations under these credit facilities became automatically and immediately due and payable, subject to an automatic stay of any action to collect, assert, or recover a claim against the Company and the application of applicable bankruptcy law. As a result of the Company's Chapter 11 filing, after December 1, 2008, the Company accrued interest incurred on the Secured Debt at the default rate, which is two percentage points above the interest rate otherwise applicable under the respective credit facilities. Upon a default, the agreements related to the Unsecured Debt call for the accrual of interest after December 1, 2008, at a default rate that is two percentage points above the interest rate otherwise applicable under the associated note agreements. The Company does not believe that it incurred a default under the terms of Unsecured Debt agreements and accordingly has elected to accrue interest incurred on the Unsecured Debt, for accounting purposes, at the interest rate otherwise applicable under the associated note agreements until such time, if any, that the Bankruptcy Court requires the payment of default interest incurred on the Unsecured Debt. Had the Company accrued interest incurred on the Unsecured Debt at the default rate, it would have recognized additional interest expense totaling \$10.9 million in 2009.

Our loan agreements generally obligate us to reimburse the applicable lender for incremental increased costs due to a change in law that imposes (i) any reserve or special deposit requirement against assets of, deposits with or credit extended by such lender related to the loan, (ii) any tax, duty or other charge with respect to the loan (except standard income tax) or (iii) capital adequacy requirements. In addition, some of our loan agreements contain a withholding tax provision that requires us to pay additional amounts to the applicable lender or other financing party, generally if withholding taxes are imposed on such lender or other financing party as a result of a change in the applicable tax law. These increased cost and withholding tax provisions continue for the entire term of the applicable transaction, and there is no limitation on the maximum additional amounts we could be obligated to pay under such provisions.

Industrial Revenue Bonds

In June 1999, the Camp County Industrial Development Corporation issued \$25 million of variable-rate environmental facilities revenue bonds supported by letters of credit obtained by us under our secured revolving credit facility expiring in 2013. Prior to our bankruptcy filing, the proceeds were available for the Company to draw from over the construction period in order to construct new sewage and solid waste disposal facilities at a poultry by-products plant in Camp County, Texas. The original proceeds from the issuance of the revenue bonds were held by the trustee of the bonds until we drew on the proceeds for the construction of the facility. We had not drawn on the proceeds or commenced construction of the facility prior to our bankruptcy filing. The filing of the bankruptcy petitions constituted an event of default under these bonds. As a result of the event of default, the trustee had the right to accelerate all obligations under the bonds such that they become immediately due and payable, subject to an automatic stay of any action to collect, assert, or recover a claim against the Company and the application of applicable bankruptcy law. In December 2008, the holders of the bonds tendered the bonds for remarketing, which was not successful. As a result, the trustee, on behalf of the holders of the bonds, drew upon the letters of credit supporting the bonds. The resulting reimbursement obligation was converted to borrowings under the secured revolving credit facility expiring in 2013 and secured by our domestic chicken inventories. On January 29, 2009, we obtained approval from the Bankruptcy Court to use the original proceeds of the bond offering held by the trustee to repay and cancel the revenue bonds. We received the proceeds of the bond offering from the trustee in March 2009 and immediately repaid and cancelled the revenue bonds.

Other Disclosures

Most of our domestic inventories and domestic fixed assets are pledged as collateral on our long-term debt and credit facilities.

Assuming no amounts are accelerated, annual maturities of long-term debt for the five years subsequent to September 26, 2009 are: 2010—\$2.4 million; 2011—\$43.5 million; 2012—\$2.2 million; 2013—\$228.2 million; 2014—\$2.3 million; and thereafter—\$1,766.5 million.

Total interest expense was \$161.9 million, \$134.2 million and \$123.2 million in 2009, 2008 and 2007, respectively. Interest related to new construction capitalized in 2009, 2008 and 2007 was \$2.6 million, \$5.3 million and \$5.7 million, respectively.

The fair value of our public debt obligations at September 26, 2009, based upon quoted market prices for the issues, was approximately \$717.2 million. Our public debt is currently trading at a premium. As of November 20, 2009, the most recent trades of our 7 5/8% Senior Unsecured Notes due 2015 and 8 3/8% Senior Subordinated Unsecured Notes due 2018 were executed at average prices of \$111.67 per \$100.00 par value and \$111.08 per \$100.00 par value, respectively. Management expects that the aggregate fair value of our non-public credit facilities has decreased below the aggregate face value of those facilities, but cannot reliably estimate the aggregate fair value at this time as a result of our Chapter 11 bankruptcy filing.

NOTE N—INCOME TAXES

Income (loss) from continuing operations before income taxes by jurisdiction is as follows:

	<u>2009</u>	<u>2008</u>	<u>2007</u>
	(In thousands)		
US	\$ (200,737)	\$ (1,165,208)	\$ 87,235
Foreign	26,970	(21,885)	11,600
Total	<u>\$ (173,767)</u>	<u>\$ (1,187,093)</u>	<u>\$ 98,835</u>

The components of income tax expense (benefit) are set forth below:

	<u>2009</u>	<u>2008</u>	<u>2007</u>
	(In thousands)		
Current:			
Federal	\$ (320)	\$ 925	\$ (35,434)
Foreign	2,829	(1,649)	1,573
State and other	(2,617)	1,747	(2,704)
Total current	(108)	1,023	(36,565)
Deferred:			
Federal	(21,025)	(212,151)	73,285
Foreign	1,199	35,277	(1,637)
State and other	(1,652)	(19,070)	12,236
Total deferred	(21,478)	(195,944)	83,884
	<u>\$ (21,586)</u>	<u>\$ (194,921)</u>	<u>\$ 47,319</u>

The effective tax rate for continuing operations for 2009 was 12.4% compared to 16.4% for 2008. The effective tax rate for 2009 differed from 2008 primarily as a result of a decrease in reserves for unrecognized tax benefits offset by an increase in valuation allowance and the tax effect of permanent items.

The following table reconciles the statutory US federal income tax rate to the Company's effective income tax rate:

	<u>2009</u>	<u>2008</u>	<u>2007</u>
Federal income tax rate	35.0 %	35.0 %	35.0 %
State tax rate, net	2.0	2.2	2.6
Permanent items	(0.9)	(0.8)	2.7
Permanent items – reorganization costs	(8.5)	—	—
Difference in US statutory tax rate and foreign country effective tax rate	2.2	(0.2)	(0.7)
Goodwill impairment	—	(14.8)	—
Tax credits	2.5	0.5	(7.4)
Currency related differences	—	—	3.5
Change in reserve for unrecognized tax benefits	14.6	(0.2)	6.3
Change in valuation allowance	(33.0)	(6.0)	—
Change in tax rate	—	—	3.0
Other	(1.5)	0.7	2.9
Total	<u>12.4 %</u>	<u>16.4 %</u>	<u>47.9 %</u>

Deferred income taxes reflect the net effects of temporary differences between the carrying amounts of assets and liabilities for financial reporting purposes and the amounts used for income tax purposes. Significant components of the Company's deferred tax liabilities and assets are as follows:

	<u>2009</u>	<u>2008</u>
	(In thousands)	
Deferred tax liabilities:		
Property and equipment	\$ 153,341	\$ 207,706
Inventories	81,012	84,261
Prior use of cash accounting	13,549	15,243
Acquisition-related items	12,967	13,832
Deferred foreign taxes	40,808	30,361
Identified intangibles	21,585	23,346
Other	—	6,722
	<u>323,262</u>	<u>381,471</u>
Total deferred tax liabilities		
Deferred tax assets:		
Net operating losses	296,677	212,421
Foreign net operating losses	48,901	50,824
Credit carry forwards	23,657	20,322
Expenses deductible in different years	85,380	142,619
Other	11,255	—
	<u>465,870</u>	<u>426,186</u>
Subtotal		
Valuation allowance	<u>(164,821)</u>	<u>(71,158)</u>
Total deferred tax assets	<u>301,049</u>	<u>355,028</u>
Net deferred tax liabilities	<u>\$ 22,213</u>	<u>\$ 26,443</u>

The Company maintains valuation allowances when it is more likely than not that all or a portion of a deferred tax asset will not be realized. Changes in valuation allowances from period to period are included in the tax provision in the period of change. We evaluate the recoverability of our deferred income tax assets by assessing the need for a valuation allowance on a quarterly basis. If we determine that it is more likely than not that our deferred income tax assets will be recovered, the valuation allowance will be reduced. Due to continued history of losses, the Company does not believe it has sufficient positive evidence to conclude that realization of its net deferred tax asset position at September 26, 2009, in the US and Mexico is more likely than not.

As of September 26, 2009, the Company had US federal net operating loss carry forwards of \$796.6 million that will begin to expire in 2026 and state net operating loss carry forwards of \$569.3 million that will begin to expire in 2010. The Company also had Mexico net operating loss carry forwards at September 26, 2009 approximating \$174.6 million that will begin to expire in 2011.

As of September 26, 2009, the Company had \$14.2 million of federal tax credit carry forwards that will begin to expire in 2027 and \$9.5 million of state tax credit carry forwards that will begin to expire in 2009.

On November 6, 2009, the President signed H.R. 3548, which included a provision that will allow most business taxpayers to elect an increased carryback period for net operating losses incurred in 2008 or 2009. The effects of changes in tax law are taken into account during the interim period in which the law is enacted. The Company estimates its cumulative net operating losses related to 2008 and 2009 to be approximately \$686.5 million. Of this amount, the Company estimates that up to approximately \$528.2 million will be utilized under the expanded carryback provisions of H.R. 3548 to the applicable carryback years. Accordingly, the Company has filed a claim for a refund of approximately \$162.0 million with the Internal Revenue Service under the provisions of H.R. 3548. No assurance can be made that the Company's claim amount will be allowed in full. No assurance can be made as to the date by which the Internal Revenue Service will process and pay any such refund claim allowed.

As a result of enacting H.R. 3548 on November 6, 2009, it is reasonably possible that a material decrease to the US valuation allowance will occur within one year. The decrease in the US valuation allowance will approximate the tax effects of the amount of net operating loss carrybacks the Company expects to be realized. In addition, federal tax credits approximating \$8.6 million will be carried forward and begin to expire in 2025.

The Company has not provided any deferred income taxes on the undistributed earnings of its Mexico subsidiaries based upon the determination that such earnings will be indefinitely reinvested. As of September 26, 2009, the cumulative undistributed earnings of these subsidiaries were approximately \$60.9 million. If such earnings were not considered indefinitely reinvested, the Company estimates it would be subject to approximately \$21.3 million of US federal income taxes before considering the availability of any US foreign tax credits.

On October 31, 2009 the Mexican Congress passed tax reform submitted by the Executive Branch. The new law will be effective January 1, 2010. The effects of changes in tax law are taken into account during the interim period in which the law is enacted. Under the provisions of the new law, the corporate tax rate will increase from 28% to 30% beginning in calendar year 2010. The rate will decrease from 30% to 29% in calendar year 2013 and to 28% in calendar year 2014. The impact of the tax rate increase for the fiscal year ended 2010 is not expected to be material. Beginning in calendar year 2010, the tax reform will also treat most consolidated income tax return benefits as temporary benefits on which deferred taxes must be paid once a five-year period has elapsed. For deferred taxes generated in calendar year 2006, the tax must be paid as follows: 25% in each of calendar year 2012 and calendar year 2013, 20% in calendar year 2014 and 15% in each of calendar year 2015 and calendar year 2016. Additionally, under the new bill, there are recapture rules that apply to separate company losses (post calendar year 1998) utilized in consolidation whereby the losses must be recaptured within five years instead of ten if the separate company does not generate income to offset the losses. The tax impact is impracticable to estimate at this time. However, the Company does not expect tax amounts payable under the new law to be materially different from deferred tax liability amounts currently recorded as of September 26, 2009.

In October 2007, Mexico’s legislative bodies enacted *La Ley del Impuesto Empresarial a Tasa Unica* (“IETU”), a new minimum corporate tax that was assessed on companies doing business in Mexico beginning January 1, 2008. While the Company has determined that it does not anticipate paying any significant taxes under IETU, the new law did affect the Company’s tax planning strategies to fully realize its deferred tax assets under Mexico’s regular income tax. The Company has evaluated the impact of IETU on its Mexico operations, and because of the treatment of net operating losses under the new law, established a valuation allowance for net operating losses it believes do not meet the more likely than not realization criteria under ASC 740. This valuation allowance resulted in a \$24.5 million charge to tax expense for fiscal year 2008.

On September 30, 2007, the Company adopted guidance under ASC 740-10-25 that clarifies the accounting for income taxes by prescribing a minimum recognition threshold a tax benefit is required to meet before being recognized in the financial statements. ASC 740-10-25 also provides guidance on derecognition, measurement, classification, interest and penalties, accounting in interim periods, disclosure and transition. As a result of the implementation of the subject guidance under ASC 740-10-25, the Company increased deferred tax assets by \$22.9 million and goodwill by \$0.5 million. Unrecognized tax benefits at September 26, 2009, relate to various US jurisdictions.

A reconciliation of the beginning and ending amounts of unrecognized tax benefits is as follows:

	<u>2009</u>	<u>2008</u>
	(In thousands)	
Unrecognized tax benefits, beginning of year	\$ 65,322	\$ 58,557
Increase as a result of tax positions taken during the current year	926	3,716
Increase as a result of tax positions taken during prior years	3,495	4,120
Decrease as a result of tax positions taken during prior years	(2,348)	—
Decrease relating to settlements with taxing authorities	<u>(44,737)</u>	<u>(1,071)</u>
Unrecognized tax benefits, end of year	<u>\$ 22,658</u>	<u>\$ 65,322</u>

The increase in unrecognized tax benefits as a result of tax positions taken during the current and prior years relates to federal and state income tax positions which no longer meet the more-likely-than-not recognition threshold under ASC 740. The decrease in unrecognized tax benefits relating to settlements with taxing authorities represents amounts to which the Internal Revenue Service and the Appeals Division have effectively agreed in concluding the examination and appeals phase for tax years ended September 26, 2003 through September 30, 2006, and represent remeasurement and effective settlement of tax positions related to temporary differences.

Included in unrecognized tax benefits of \$22.7 million at September 26, 2009, was \$10.3 million of tax benefits that, if recognized, would reduce the Company’s effective tax rate.

The Company recognizes interest and penalties related to unrecognized tax benefits in its provision for income taxes. As of September 26, 2009, the Company had recorded a liability of \$8.9 million for interest and penalties. This amount includes an increase of \$1.5 million recognized for 2009 and a decrease related to settlements with taxing authorities of \$7.6 million.

It is reasonably possible that a decrease in our liability for unrecognized tax benefits will occur within the next 12 months because of the Company's potential exit from bankruptcy. An estimate of the reasonably possible range cannot be made at this time.

The Internal Revenue Service has concluded the examination and appeals phase for tax years ended September 26, 2003 through September 30, 2006. The Company continues to be under examination for Gold Kist, Inc. and Subsidiaries for the tax years June 30, 2004 through December 27, 2006. We expect to conclude the examination phase of this audit during 2010.

The Company operates in the United States (including multiple state jurisdictions), Puerto Rico and Mexico. With few exceptions, the Company is no longer subject to US federal, state or local income tax examinations for years prior to 2003 and is no longer subject to Mexico income tax examinations by taxing authorities for years prior to 2005.

NOTE O—COMPREHENSIVE INCOME (LOSS)

Comprehensive income (loss) consisted of the following:

	<u>2009</u>	<u>2008</u>	<u>2007</u>
Net income (loss)	\$ (151,582)	\$ (998,581)	\$ 47,017
Unrealized gain (loss) on investments in debt securities	4,149	(3,465)	535
Gain (loss) on pension and other postretirement benefit plans	(51,266)	15,691	15,535
Loss on cash flow hedges	(557)	(557)	5,338
Tax effect	<u>(724)</u>	<u>(4,510)</u>	<u>(7,540)</u>
Comprehensive income (loss)	\$ <u><u>(199,980)</u></u>	\$ <u><u>(991,422)</u></u>	<u><u>60,885</u></u>

Accumulated other comprehensive income (loss) consisted of the following:

	<u>September 26, 2009</u>	<u>September 27, 2008</u>
Accumulated unrealized gain (loss) on investments in debt securities	\$ 2,089	\$ (1,420)
Accumulated gain (loss) on pension and other postretirement benefit plans	(20,041)	31,225
Accumulated gain on cash flow hedges	4,224	4,781
Tax effect	<u>(13,509)</u>	<u>(13,425)</u>
Accumulated other comprehensive income (loss)	\$ <u><u>(27,237)</u></u>	\$ <u><u>21,161</u></u>

NOTE P—COMMON STOCK

As of September 26, 2009, we estimate that approximately 25.9 million shares of our common stock still carry twenty votes per share. We also estimate that 25.3 million shares of this common stock are beneficially owned by our Senior Chairman, Lonnie “Bo” Pilgrim, or certain affiliated entities.

In May 2008, the Company completed a public offering of 7.5 million shares of its common stock for total consideration of approximately \$177.4 million. The Company used the net proceeds of the offering to reduce outstanding indebtedness under two of its revolving credit facilities and for general corporate purposes.

Effective December 1, 2008, the NYSE delisted our common stock as a result of the Company's filing of its Chapter 11 petition. Our common stock is now quoted on the Pink Sheets Electronic Quotation Service under the ticker symbol "PGPDQ.PK." The Company has applied with the NYSE to list its common stock upon its exit from bankruptcy under its prior ticker symbol “PPC.”

On January 27, 2009, the Company granted its new Chief Executive Officer 3,085,656 shares of the Company's common stock, which vest upon achievement of certain performance targets and the confirmation of a plan of reorganization of the Company. The \$1.8 million fair value of the shares as of the grant date was determined by multiplying the number of shares granted by the closing market price of the Company's common stock on the grant date. At September 26, 2009, the intrinsic value of the shares was \$21.8 million. In 2009, we did not recognize compensation expense related to this grant because of the performance conditions. We will recognize \$1.8 million of compensation expense when certain performance targets are achieved and a plan of reorganization for the Company is confirmed by the Bankruptcy Court. Other than the grant to the Chief Executive Officer, as of September 26, 2009, the Company did not have any compensation plans (including individual compensation arrangements) under which equity securities of the Company are authorized for issuance by the Company.

NOTE Q—PENSION AND OTHER POSTRETIREMENT BENEFITS

Retirement Plans

The Company maintains the following retirement plans for eligible employees:

- The Pilgrim's Pride Retirement Savings Plan (the “RS Plan”), a Section 401(k) salary deferral plan,
- The Pilgrim's Pride Retirement Plan for Union Employees (the “Union Plan”), a defined benefit plan,
- The Pilgrim's Pride Retirement Plan for El Dorado Union Employees (the “El Dorado” Plan), a defined benefit plan,
- The To-Ricos Employee Savings and Retirement Plan (the “To-Ricos Plan”), a Section 1165(e) salary deferral plan, and
- The Pilgrim's Pride Pension Plan for Legacy Gold Kist Employees (the “GK Pension Plan”), a defined benefit plan.

The Company also maintains three postretirement plans for eligible Mexico employees as required by Mexico law that primarily cover termination benefits. Separate disclosure of the Mexican plan obligations is not considered material.

The RS Plan is maintained for certain eligible US employees. Under the RS Plan, eligible employees may voluntarily contribute a percentage of their compensation and there are various Company matching provisions. The Union Plan covers certain locations or work groups within the Company. The El Dorado Plan was spun off from the Union Plan effective January 1, 2008 and covers certain eligible locations or work groups within the Company. The To-Ricos Plan is maintained for certain eligible Puerto Rican employees. Under the To-Ricos Plan, eligible employees may voluntarily contribute a percentage of their compensation and there are various Company matching provisions. The GK Pension Plan covers certain eligible US employees who were employed at locations that Pilgrim's Pride acquired in its acquisition of Gold Kist in 2007. Participation in the GK Pension Plan was frozen as of February 8, 2007, for all participants with the exception of terminated vested participants who are or may become permanently and totally disabled. The plan was frozen for that group as of March 31, 2007.

Under all of our retirement plans, the Company's expenses were \$10.1 million, \$4.1 million, and \$10.0 million in 2009, 2008 and 2007, respectively.

The Company used a year-end measurement date of September 26, 2009, for its pension and postretirement benefits plans. Certain disclosures are listed below; other disclosures are not material to the financial statements.

Medical and Life Insurance Plans

Pilgrim's Pride assumed postretirement medical and life insurance obligations through its acquisition of Gold Kist in 2007. In January 2001, Gold Kist began to substantially curtail its programs for active employees. On July 1, 2003, Gold Kist terminated medical coverage for retirees age 65 and older, and only retired employees in the closed group between ages 55 and 65 could continue their coverage at rates above the average cost of the medical insurance plan for active employees. These retired employees will all reach the age of 65 by 2012 and liabilities of the postretirement medical plan will then end.

Benefit Obligations and Plan Assets

The following tables provide reconciliations of the changes in the plans' projected benefit obligations and fair value of assets as well as statements of the funded status, balance sheet reporting and economic assumptions for these plans.

	Pension Benefits		Other Benefits	
	2009	2008	2009	2008
	(In thousands)			
Change in projected benefit obligation:				
Projected benefit obligation, beginning of year	\$ 127,354	\$ 196,803	\$ 1,893	\$ 2,432
Service cost	672	1,246	—	—
Interest cost	8,899	9,576	135	132
Plan participant contributions	28	29	40	79
Actuarial (gains)/losses	43,362	(56,589)	271	(477)
Benefits paid	(8,991)	(23,553)	(162)	(273)
Other	(1,877)	(158)	—	—
Projected benefit obligation, end of year	<u>\$ 169,447</u>	<u>\$ 127,354</u>	<u>\$ 2,177</u>	<u>\$ 1,893</u>

	Pension Benefits		Other Benefits	
	2009	2008	2009	2008
	(In thousands)			
Change in plan assets:				
Fair value of plan assets, beginning of year	\$ 92,980	\$ 138,024	\$ —	\$ —
Actual return on plan assets	587	(24,063)	—	—
Contributions by employer	1,111	2,543	122	194
Plan participant contributions	28	29	40	79
Benefits paid	(8,991)	(23,553)	(162)	(273)
Other	(1,140)	—	—	—
Fair value of plan assets, end of year	<u>\$ 84,575</u>	<u>\$ 92,980</u>	<u>\$ —</u>	<u>\$ —</u>

	Pension Benefits		Other Benefits	
	2009	2008	2009	2008
	(In thousands)			
Funded status:				
Funded status	\$ (84,872)	\$ (34,374)	\$ (2,177)	\$ (1,893)
Unrecognized prior service cost	60	121	—	—
Unrecognized net actuarial loss (gain)	19,967	(30,714)	14	(670)
Accrued benefit cost	<u>\$ (64,845)</u>	<u>\$ (64,967)</u>	<u>\$ (2,163)</u>	<u>\$ (2,563)</u>

	Pension Benefits		Other Benefits	
	2009	2008	2009	2008
Amounts recognized in the balance sheets:	(In thousands)			
Accrued benefit cost (current)	\$ (14,143)	\$ (13,596)	\$ (171)	\$ (203)
Accrued benefit cost (long-term)	(70,729)	(20,778)	(2,006)	(1,690)
Long-term deferred income taxes	7,560	(11,549)	5	(253)
Accumulated other comprehensive loss (income)	12,467	(19,044)	9	(417)
Net amount recognized	<u>\$ (64,845)</u>	<u>\$ (64,967)</u>	<u>\$ (2,163)</u>	<u>\$ (2,563)</u>

The accumulated benefit obligation for all defined benefit plans was \$169.4 million and \$126.8 million at September 26, 2009, and September 27, 2008, respectively. All of the Company's defined benefit plans had an accumulated benefit obligation in excess of plan assets at September 26, 2009, and September 27, 2008.

Net Periodic Benefit Cost (Income)

The following table provides the components of net periodic benefit cost (income) for the plans.

	Pension Benefits			Other Benefits		
	2009	2008	2007	2009	2008	2007
	(In thousands)					
Service cost	\$ 672	\$ 1,246	\$ 2,029	\$ —	\$ —	\$ —
Interest cost	8,899	9,576	8,455	135	132	103
Estimated return on plan assets	(6,781)	(10,200)	(8,170)	—	—	—
Settlement gain	—	(6,312)	(2,327)	(60)	153	—
Amortization of prior service cost	61	116	—	—	—	—
Effect of special events	410	(158)	—	—	—	—
Amortization of net gain	<u>(2,227)</u>	<u>(125)</u>	<u>—</u>	<u>(49)</u>	<u>—</u>	<u>—</u>
Net periodic benefit cost (income)	<u>\$ 1,034</u>	<u>\$ (5,857)</u>	<u>\$ (13)</u>	<u>\$ 26</u>	<u>\$ 285</u>	<u>\$ 103</u>

Economic Assumptions

The following table presents the assumptions used in determining the benefit obligations and the net periodic benefit cost amounts.

	Pension Benefits		Other Benefits	
	2009	2008	2009	2008
Discount rate	5.34%	7.38%	5.33%	7.53%
Rate of increase in compensation levels	3.00%	3.00%	NA	NA

The decrease in discount rate resulted in increases in both pension benefit obligation and equity of \$60.3 million.

The following table presents the assumptions used in determining the net periodic benefit cost amounts.

	Pension Benefits			Other Benefits		
	2009	2008	2007	2009	2008	2007
Weighted average assumption for net period cost for the year:						
Discount rate	7.42%	5.08%	5.06%	7.53%	5.87%	5.50%
Rate of increase in compensation levels	3.00%	3.00%	3.00%	NA	NA	NA
Expected return on plan assets	7.77%	7.77%	7.75%	7.75%	7.75%	7.75%
Assumed health care cost trend rates:						
Health care cost trend rate assumed for next year	NA	NA	NA	NA	9.00%	8.00%
Rate to which the cost trend rate gradually declines	NA	NA	NA	NA	6.00%	5.00%
Year that the rate will reach the rate at which it is assumed to remain	NA	NA	NA	NA	2015	2014

The Company changed its approach in determining the discount rate from an annuity purchase rate approach to a yield curve approach. This change resulted in an increase in the discount rate from September 29, 2007, to September 27, 2008. The yield curve approach better mirrors the Company's expectation that the termination of the GK Pension Plan and other benefit plans will not occur in the near future.

A one percentage-point change in the assumed health care cost trend rates would have an insignificant impact on 2009 expense and year-end liabilities.

Plan Assets

The following table reflects the pension plans' actual asset allocations.

	2009	2008
Asset allocation:		
Cash and money market funds	1%	1%
Equity securities	69%	68%
Debt securities	30%	31%
Total assets	100%	100%

Absent regulatory or statutory limitations, the target asset allocation for the investment of the assets for our ongoing pension plans is 30% in debt securities and 70% in equity securities. The plans only invest in debt and equity instruments for which there is a ready public market. We develop our expected long-term rate of return assumptions based on the historical rates of returns for equity and debt securities of the type in which our plans invest.

Benefit Payments

The following table reflects the benefits as of December 31, 2008, expected to be paid in each of the next five years and in the aggregate for the five years thereafter from our pension and other postretirement plans. Because our pension plans are primarily funded plans, the anticipated benefits with respect to these plans will come primarily from the trusts established for these plans. Because our other postretirement plans are unfunded, the anticipated benefits with respect to these plans will come from our own assets.

Expected benefit payments for year:	Pension Benefits		Other Benefits	
	(In thousands)			
2010	\$	14,144	\$	171
2011		12,993		175

NOTE R—DERIVATIVE FINANCIAL INSTRUMENTS

The Company historically purchased certain commodities, primarily corn and soybean meal, for use as ingredients in the feed it either sells commercially or consumes in its live operations. As a result, the Company's operating results and cash flows are affected by changes in the price and availability of such feed ingredients. Prior to October 2008, the Company attempted to mitigate its exposure to these changes through a program of risk management that included the use of (i) contracts for the future delivery of commodities at fixed prices and (ii) derivative financial instruments such as exchange-traded futures and options. In October 2008, the Company suspended the use of derivative financial instruments in response to its current financial condition. It immediately settled all outstanding derivative financial instruments and recognized losses in that month totaling \$18.4 million.

The Company has elected not to designate the derivative financial instruments it executes to mitigate its exposure to commodity price changes as cash flow hedges. The Company recognized \$21.1 million and \$38.3 million in losses related to changes in the fair value of these derivative financial instruments during 2009 and 2008, respectively. These losses are recorded in cost of sales. The impact of changes in the fair value of these derivative financial instruments in 2007 was immaterial. At September 26, 2009, the Company was not a party to any outstanding derivative financial instruments. At September 27, 2008, the Company recorded a liability for futures contracts with an aggregate fair value of \$18.0 million executed to manage the price risk on 19.1 million bushels of corn and 0.3 million tons of soybean meal.

We occasionally execute derivative financial instruments to manage exposure to interest rate risk. In particular, we executed a Treasury lock instrument in 2007 to "lock in", or secure, the Treasury rate that served as the basis for the pricing of a prospective public debt issue. A "treasury lock" is a synthetic forward sale of a US Treasury note or bond that is settled in cash based upon the difference between an agreed upon Treasury rate and the prevailing Treasury rate at settlement. We designated the lock instrument as a cash flow hedge and recognized changes in the fair value of the instrument in accumulated other comprehensive income until the prospective public debt issue occurred. Once the public debt was issued, we began recognizing the change in the fair value of the lock instrument as an adjustment to interest expense over the term of the related debt.

NOTE S—RELATED PARTY TRANSACTIONS

Lonnie “Bo” Pilgrim, the Senior Chairman, and certain entities related to Mr. Pilgrim are, collectively, the major stockholder of the Company (the “Major Stockholder”).

Cash transactions with the Major Stockholder or related entities are summarized as follows:

	<u>2009</u>	<u>2008</u>	<u>2007</u>
	(In thousands)		
Loan guaranty fees	\$ 1,473	\$ 4,904	\$ 3,592
Contract grower pay	1,037	1,008	885
Lease payments on commercial egg property	750	750	750
Other sales to Major Stockholder	686	710	620
Lease payments and operating expenses on airplane	68	456	507

Pilgrim Interests, Ltd., an entity related to Lonnie “Bo” Pilgrim, guarantees a portion of the Company's debt obligations. In consideration of such guarantees, the Company has paid Pilgrim Interests, Ltd. a quarterly fee equal to 0.25% of one-half of the average aggregate outstanding balance of such guaranteed debt. During 2009, 2008, and 2007, we paid \$1.5 million, \$4.9 million and \$3.6 million, respectively, to Pilgrim Interests, Ltd. Pursuant to the terms of the DIP Credit Agreement, the Company may not pay any guarantee fees without the consent of the lenders party thereto. During 2009, the Company expensed loan guaranty fees totaling \$7.1 million. At September 26, 2009, the Company classified accrued loan guaranty fees totaling \$7.1 million as *Liabilities subject to compromise*.

The Company has executed chicken grower contracts involving farms owned by the Major Stockholder as well as a farm owned by one former officer and director that provide for the placement of Company-owned flocks on these farms during the grow-out phase of production. These contracts are on terms substantially the same as contracts executed by the Company with unaffiliated parties and can be terminated by either party upon completion of the grow-out phase for each flock. The aggregate amounts paid by the Company to the officers and directors party to these grower contracts were less than \$2.0 million in each of the years 2009, 2008, and 2007.

The Company leases a commercial egg property including all of the ongoing costs of the operation from the Company's Major Stockholder. The lease, which was executed in December 2000, runs for ten years with a monthly lease payment of \$62,500.

The Major Stockholder owns both an egg laying operation and a chicken growing operation. At certain times during the year, the Major Stockholder may purchase live chickens and hens, and certain feed inventories during the grow-out phase for his flocks, from the Company and then sell the birds to the Company at maturity using a market-based formula in which the price is subject to a ceiling calculated at his cost plus two percent. The Company has not purchased chickens under this agreement since 2006.

The Company leased an airplane from its Major Stockholder under an operating lease agreement. The terms of the lease agreement required monthly payments of \$33,000 plus operating expenses. The lease was terminated on November 18, 2008. Lease expense was \$66,000 in 2009 and \$396,000 for each of the years 2008 and 2007. Operating expenses were \$1,500, \$60,000 and \$111,200 in 2009, 2008 and 2007, respectively.

The Company maintains depository accounts with a financial institution in which the Company's Major Stockholder is also a major stockholder. Fees paid to this bank in 2009, 2008 and 2007 were insignificant. As of September 26, 2009, the Company had account balances at this financial institution of approximately \$2.3 million.

The Major Stockholder has deposited \$0.3 million with the Company as an advance on miscellaneous expenditures.

A son of the Major Stockholder sold commodity feed products and a limited amount of other services to the Company totaling approximately \$0.4 million, \$0.4 million and \$0.6 million in 2009, 2008 and 2007, respectively. He also leases an insignificant amount of land from the Company.

NOTE T—COMMITMENTS AND CONTINGENCIES

General

We are a party to many routine contracts in which we provide general indemnities in the normal course of business to third parties for various risks. Among other considerations, we have not recorded a liability for any of these indemnities as based upon the likelihood of payment, the fair value of such indemnities is immaterial.

Purchase Obligations

The Company will sometimes enter into non-cancelable contracts to purchase capital equipment and certain commodities such as corn, soybean meal, cooking oil and natural gas. At September 26, 2009, the Company was party to outstanding purchase contracts totaling \$91.6 million. Payments for purchases made under these contracts are due in less than one year.

Operating Leases

The Consolidated Statements of Operations include rental expense for operating leases of approximately \$68.4 million, \$71.3 million and \$67.3 million in 2009, 2008 and 2007, respectively. The Company's future minimum lease commitments under non-cancelable operating leases are as follows: 2010—\$39.8 million; 2011—\$27.3 million; 2012—\$15.6 million; 2013—\$7.7 million; 2014—\$1.4 million and thereafter—\$0.1 million.

Certain of the Company's operating leases include rent escalations. The Company includes the rent escalation in its minimum lease payments obligations and recognizes them as a component of rental expense on a straight-line basis over the minimum lease term.

The Company also maintains operating leases for various types of equipment, some of which contain residual value guarantees for the market value of assets at the end of the term of the lease. The terms of the lease maturities range from one to seven years. The maximum potential amount of the residual value guarantees is estimated to be approximately \$10.6 million; however, the actual amount would be offset by any recoverable amount based on the fair market value of the underlying leased assets. No liability has been recorded related to this contingency as the likelihood of payments under these guarantees is not considered to be probable and the fair value of such guarantees is immaterial. The Company historically has not experienced significant payments under similar residual guarantees.

Financial Instruments

At September 26, 2009, the Company was party to outstanding standby letters of credit totaling \$65.9 million that affected the amount of funds available for borrowing under the secured revolving credit facility expiring in 2013. The Company was not a party to any outstanding letters of credit on that date that affected the amount of funds available for borrowing under the DIP Credit Agreement.

The Company's loan agreements generally obligate the Company to reimburse the applicable lender for incremental increased costs due to a change in law that imposes (i) any reserve or special deposit requirement against assets of, deposits with or credit extended by such lender related to the loan, (ii) any tax, duty or other charge with respect to the loan (except standard income tax) or (iii) capital adequacy requirements. In addition, some of the Company's loan agreements contain a withholding tax provision that requires the Company to pay additional amounts to the applicable lender or other financing party, generally if withholding taxes are imposed on such lender or other financing party as a result of a change in the applicable tax law. These increased cost and withholding tax provisions continue for the entire term of the applicable transaction, and there is no limitation on the maximum additional amounts the Company could be obligated to pay under such provisions. Any failure to pay amounts due under such provisions generally would trigger an event of default, and, in a secured financing transaction, would entitle the lender to foreclose upon the collateral to realize the amount due.

Litigation

The Company is subject to various legal proceedings and claims which arise in the ordinary course of business. In the Company's opinion, it has made appropriate and adequate accruals for claims where necessary; however, the ultimate liability for these matters is uncertain, and if significantly different than the amounts accrued, the ultimate outcome could have a material effect on the financial condition or results of operations of the Company. See Item 3. "Legal Proceedings" for discussion of additional material proceedings.

On December 1, 2008, the Debtors filed voluntary petitions for relief under Chapter 11 of the Bankruptcy Code in the Bankruptcy Court. The cases are being jointly administered under Case No. 08-45664. The Debtors continue to operate their business as "debtors-in-possession" under the jurisdiction of the Bankruptcy Court and in accordance with the applicable provisions of the Bankruptcy Code and orders of the Bankruptcy Court. As of the date of the Chapter 11 filing, virtually all pending litigation against the Company (including the actions described below) is stayed as to the Company, and absent further order of the Bankruptcy Court, no party, subject to certain exceptions, may take any action, also subject to certain exceptions, to recover on pre-petition claims against the Debtors. At this time it is not possible to predict the outcome of the Chapter 11 filings or their effect on our business. Below is a summary of the most significant claims outstanding against the Company. The Company believes it has substantial defenses to the claims made and intends to vigorously defend these cases.

Among the claims presently pending are two identical claims brought against certain executive officers and employees of the Company and the Pilgrim's Pride Compensation Committee seeking unspecified damages under section 502 of the Employee Retirement Income Security Act of 1974 ("ERISA"), 29 U.S.C. § 1132. Each of these actions was brought by individual participants in the Pilgrim's Pride Stock Investment Plan, individually and on behalf of a putative class, alleging that the individual defendants breached fiduciary duties to plan participants and beneficiaries. Although the Company is not a named defendant in these actions, our bylaws require us to indemnify our current and former directors and officers from any liabilities and expenses incurred by them in connection with actions they took in good faith while serving as an officer or director. In these actions the plaintiffs assert claims in excess of \$35.0 million. The likelihood of an unfavorable outcome or the amount or range of any possible loss to the Company cannot be determined at this time.

Also, among the claims presently pending against the Company are two identical claims seeking unspecified damages, each brought by a stockholder, individually and on behalf of a putative class, alleging violations of certain antifraud provisions of the Securities Exchange Act of 1934. The Company intends to defend vigorously against the merits of these actions. The likelihood of an unfavorable outcome or the amount or range of any possible loss to the Company cannot be determined at this time.

Other claims presently pending against the Company are claims seeking unspecified damages brought by current and former employees seeking compensation for the time spent donning and doffing clothing and personal protective equipment. We are aware of an industry-wide investigation by the Wage and Hour Division of the US Department of Labor to ascertain compliance with various wage and hour issues, including the compensation of employees for the time spent on activities such as donning and doffing clothing and personal protective equipment. Further, two significant lawsuits are outstanding related to donning and doffing issues. Due, in part, to the government investigation and the recent US Supreme Court decision in *IBP, Inc. v. Alvarez*, it is possible that we may be subject to additional employee claims. The Company believes it has reached tentative settlements with its regulators and on the two principal lawsuits related to donning and doffing issues. Any settlements will have to be confirmed by the Bankruptcy Court. As a result, the Company reduced its litigation reserves in September 2009 based on the terms of the tentative settlements. Nonetheless, there can be no assurances that other similar claims may not be brought against the Company. Certain of these claims are in the process of being settled.

Other claims presently pending against the Company are claims seeking unspecified damages brought by current or former contract chicken growers who allege, along with other assertions, that the Company breached grower contracts, conspired with a competitor to depress grower pay and made false representations to induce the plaintiffs into building chicken farms and entering into chicken growing agreements with the Company. We deny any liability in these actions and intend to assert vigorous defenses to the litigation. Nonetheless, there can be no assurances that other similar claims may not be brought against the Company.

Another claim presently pending against the Company is a claim asserted by the City of Clinton, Arkansas, (the “City”) seeking approximately \$28 million in damages relating to construction of and/or improvements to a wastewater facility to purify water discharged from a processing plant that the Company idled in 2009. The Company filed a motion to dismiss, which was granted by the federal district court in September 2009. Recently, the City requested to re-plead its claims. The court has not decided whether the City will be permitted to proceed with a lawsuit against the Company. We deny any liability to the City and intend to assert vigorous defenses should the City be allowed to proceed with a lawsuit against the Company. Nonetheless, there can be no assurances that other similar claims may not be brought against the Company.

US Immigration and Customs Enforcement (“ICE”) investigated allegations of identity theft within our workforce. With our cooperation, ICE arrested approximately 350 of our employees in 2008 believed to have engaged in identity theft at five of our facilities. ICE has also alleged that we may not have fully complied with certain regulations and that fines may be assessed against us. The Company continues to cooperate with the investigation and will vigorously defend itself against any claims brought against the Company; however, no assurances can be given that further enforcement efforts by governmental authorities against our employees or the Company (i) will not disrupt a portion of our workforce or our operations at one or more of our facilities, thereby negatively impacting our business or (ii) result in the assessment of fines against us that could have a material adverse effect on our financial position, results of operations or cash flows.

NOTE U—INSURANCE PROCEEDS

On July 21, 2008, a fire in the Mt. Pleasant, Texas, protein conversion plant (the “Mt. Pleasant Fire”) damaged a significant portion of the plant’s building, machinery and equipment. During 2009 and 2008, the Company received \$37.0 million and \$10.0 million, respectively, of proceeds that it recognized in cost of sales for insurance recovery related to business interruption costs. During 2009 and 2008, the Company received \$5.0 million and \$30.0 million respectively, of proceeds that it recognized in cost of sales for insurance recovery related to asset replacement costs.

NOTE V—BUSINESS SEGMENTS

We operate in two reportable business segments as (i) a producer and seller of chicken products and (ii) a seller of other products.

Our chicken segment includes sales of chicken products we produce and purchase for resale in the US, Puerto Rico and Mexico. Our chicken segment conducts separate operations in the US, Puerto Rico and Mexico and is reported as two separate geographical areas. For segment reporting purposes, we include Puerto Rico with our US operations.

Our other products segment includes distribution of non-poultry products that are purchased from third parties and sold to independent grocers and quick service restaurants. Also included in this category are sales of table eggs, feed, protein products, live hogs and other items, some of which are produced or raised by the Company.

Corporate expenses are allocated to Mexico based upon various apportionment methods for specific expenditures incurred related thereto with the remaining amounts allocated to the US portions of the segments based on number of employees.

Assets associated with our corporate functions, included cash and cash equivalents and investments in available for sale securities are included in our chicken segment.

Selling, general and administrative expenses related to our distribution centers are allocated based on the proportion of net sales to the particular segment to which the product sales relate.

Depreciation and amortization, total assets and capital expenditures of our distribution centers are included in our chicken segment based on the primary focus of the centers.

The following table presents certain information regarding our segments:

- (a) The Company acquired Gold Kist on December 27, 2006, for \$1.139 billion.
- (b) Includes amortization of capitalized financing costs of approximately \$6.8 million, \$4.9 million and \$6.6 million in 2009, 2008 and 2007, respectively
- (c) Includes amortization of intangible assets of \$10.2 million, \$10.2 million and \$8.1 million recognized in 2009, 2008 and 2007, respectively, related primarily to the Gold Kist and ConAgra Chicken acquisitions.
- (d) Excludes depreciation costs incurred by our discontinued turkey business of \$0.7 million and \$1.6 million during 2008 and 2007, respectively. The Company did not incur depreciation costs related to its discontinued turkey business in 2009.
- (e) Excludes total assets of our discontinued turkey business of \$33.5 million and \$68.8 million at September 27, 2008, and September 29, 2007, respectively. The Company's discontinued turkey business did not own any assets at September 26, 2009.
- (f) Excludes acquisitions of property, plant and equipment by our discontinued turkey business of \$0.5 million during 2007. The Company did not acquire property, plant and equipment for its discontinued turkey business during 2009 or 2008.

The Company had one customer that represented 10% or more of annual net sales in 2009, 2008 and 2007.

The Company's Mexico operations had net long-lived assets of \$88.6 million, \$97.2 million and \$106.2 million at September 26, 2009, September 27, 2008, and September 29, 2007, respectively.

The Company's Mexico operations had net assets of \$143.1 million and \$230.5 million at September 26, 2009, and September 27, 2008, respectively.

EXHIBIT 31.1
CERTIFICATION BY CO-PRINCIPAL EXECUTIVE OFFICER
PURSUANT TO 18 U.S.C. SECTION 1350,
AS ADOPTED PURSUANT TO SECTION 302
OF THE SARBANES-OXLEY ACT OF 2002

I, Lonnie “Bo” Pilgrim, certify that:

1. I have reviewed this annual report on Form 10-K for the year ended September 26, 2009, of Pilgrim's Pride Corporation;
2. Based on my knowledge, this report does not contain any untrue statement of a material fact or omit to state a material fact necessary to make the statements made, in light of the circumstances under which such statements were made, not misleading with respect to the period covered by this report;
3. Based on my knowledge, the financial statements, and other financial information included in this report, fairly present in all material respects the financial condition, results of operations and cash flows of the registrant as of, and for, the periods presented in this report;
4. The registrant's other certifying officers and I are responsible for establishing and maintaining disclosure controls and procedures (as defined in Exchange Act Rules 13a-15(e) and 15d-15(e)) and internal control over financial reporting (as defined in Exchange Act Rules 13a-15(f) and 15d-15(f)) for the registrant and have:
 - a. Designed such disclosure controls and procedures, or caused such disclosure controls and procedures to be designed under our supervision, to ensure that material information relating to the registrant, including its consolidated subsidiaries, is made known to us by others within those entities, particularly during the period in which this report is being prepared;
 - b. Designed such internal control over financial reporting, or caused such internal control over financial reporting to be designed under our supervision, to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles;
 - c. Evaluated the effectiveness of the registrant's disclosure controls and procedures and presented in this report our conclusions about the effectiveness of the disclosure controls and procedures, as of the end of the period covered by this report based on such evaluation; and
 - d. Disclosed in this report any change in the registrant's internal control over financial reporting that occurred during the registrant's most recent fiscal quarter (the registrant's fourth fiscal quarter in the case of an annual report) that has materially affected, or is reasonably likely to materially affect, the registrant's internal control over financial reporting; and

5. The registrant's other certifying officers and I have disclosed, based on our most recent evaluation of internal control over financial reporting, to the registrant's auditors and the audit committee of the registrant's board of directors (or persons performing the equivalent functions):
 - a. All significant deficiencies and material weaknesses in the design or operation of internal control over financial reporting which are reasonably likely to adversely affect the registrant's ability to record, process, summarize and report financial information; and
 - b. Any fraud, whether or not material, that involves management or other employees who have a significant role in the registrant's internal control over financial reporting.

EXHIBIT 31.2
CERTIFICATION BY CO-PRINCIPAL EXECUTIVE OFFICER
PURSUANT TO 18 U.S.C. SECTION 1350,
AS ADOPTED PURSUANT TO SECTION 302
OF THE SARBANES-OXLEY ACT OF 2002

I, Don Jackson, certify that:

1. I have reviewed this annual report on Form 10-K for the year ended September 26, 2009, of Pilgrim's Pride Corporation;
2. Based on my knowledge, this report does not contain any untrue statement of a material fact or omit to state a material fact necessary to make the statements made, in light of the circumstances under which such statements were made, not misleading with respect to the period covered by this report;
3. Based on my knowledge, the financial statements, and other financial information included in this report, fairly present in all material respects the financial condition, results of operations and cash flows of the registrant as of, and for, the periods presented in this report;
4. The registrant's other certifying officers and I are responsible for establishing and maintaining disclosure controls and procedures (as defined in Exchange Act Rules 13a-15(e) and 15d-15(e)) and internal control over financial reporting (as defined in Exchange Act Rules 13a-15(f) and 15d-15(f)) for the registrant and have:
 - a. Designed such disclosure controls and procedures, or caused such disclosure controls and procedures to be designed under our supervision, to ensure that material information relating to the registrant, including its consolidated subsidiaries, is made known to us by others within those entities, particularly during the period in which this report is being prepared;
 - b. Designed such internal control over financial reporting, or caused such internal control over financial reporting to be designed under our supervision, to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles;
 - c. Evaluated the effectiveness of the registrant's disclosure controls and procedures and presented in this report our conclusions about the effectiveness of the disclosure controls and procedures, as of the end of the period covered by this report based on such evaluation; and
 - d. Disclosed in this report any change in the registrant's internal control over financial reporting that occurred during the registrant's most recent fiscal quarter (the registrant's fourth fiscal quarter in the case of an annual report) that has materially affected, or is reasonably likely to materially affect, the registrant's internal control over financial reporting; and

5. The registrant's other certifying officers and I have disclosed, based on our most recent evaluation of internal control over financial reporting, to the registrant's auditors and the audit committee of the registrant's board of directors (or persons performing the equivalent functions):
 - a. All significant deficiencies and material weaknesses in the design or operation of internal control over financial reporting which are reasonably likely to adversely affect the registrant's ability to record, process, summarize and report financial information; and
 - b. Any fraud, whether or not material, that involves management or other employees who have a significant role in the registrant's internal control over financial reporting.
