Pilgrim's Pride Reports EBITDA of \$222.5 Million with a Margin of 10.4% for the Third Quarter of 2013

GREELEY, Colo., October 30, 2013 – Pilgrim's Pride Corporation (NASDAQ: PPC) reports third quarter 2013 financial results with net sales of \$2.14 billion, \$74 million higher than the \$2.07 billion reported in the third quarter of 2012. Earnings Before Interest, Taxes, Depreciation and Amortization ("EBITDA") of \$222.5 million increased 116% compared to the \$103 million generated in the prior year. Net income of \$160.9 million reflected an improvement of 275% compared to the \$42.9 million reported in the same period in 2012, with diluted earnings per share reaching \$0.62 compared to \$0.17 in the third quarter of 2012.

"We are pleased to see continued improvement reflected in our results based on the consistent execution of our strategy. Our engagement with key customers continues to reflect the value they expect from Pilgrim's and is driving growth and success for our customers. We've also seen improvements in our margins as a result of the processes we've transformed through our commitment to operational excellence. We are close to achieving our operational improvement targets for the year and envision capturing even greater efficiencies in 2014. Our export model has enabled us to attain our goal of achieving 30% growth in value-added products year to date," stated Bill Lovette, Pilgrim's Chief Executive Officer.

"While we saw some volatility in the Mexican market this quarter, we believe the fundamentals of the business and growth opportunities remain intact. Market prices in the region softened during the quarter; however, we continue to view Mexico as a tremendous opportunity for profitability and growth.

Cash flows from operations were \$285.8 million for the quarter, enabling us to reduce our debt by \$252 million. Our ending net debt position was \$582.1 million, which is 0.87 times our trailing twelve months' EBITDA. This stronger capital structure is reflective of our effective operational execution and cash management strategy."

“EBITDA” is defined as the sum of net income (loss) plus interest, taxes, depreciation and amortization. “Adjusted EBITDA” is defined as the sum of EBITDA plus restructuring charges, reorganization items and loss on early extinguishment of debt less net income attributable to noncontrolling interests. EBITDA is presented because it is used by management and we believe it is frequently used by securities analysts, investors and other interested parties, in addition to and not in lieu of results prepared in conformity with accounting principles generally accepted in the US (“GAAP”), to compare the performance of companies. We believe investors would be interested in our Adjusted EBITDA because this is how our management analyzes EBITDA. The Company also believes that Adjusted EBITDA, in combination with the Company’s financial results calculated in accordance with GAAP, provides investors with additional perspective regarding the impact of certain significant items on EBITDA and facilitates a more direct comparison of its performance with its competitors. EBITDA and Adjusted EBITDA are not measurements of financial performance under GAAP. They should not be considered as an alternative to cash flow from operating activities or as a measure of liquidity or an alternative to net income as indicators of our operating performance or any other measures of performance derived in accordance with GAAP.
