Prospectus

You should rely only on the information contained in or incorporated by reference in this prospectus supplement and the accompanying prospectus. We have not, and the underwriters have not, authorized any other person to provide you with information that is different. If anyone provides you with different or inconsistent information, you should not rely on it. We are offering to sell, and seeking offers to buy, these notes only in jurisdictions where such offers and sales are permitted. You should not assume that the information provided by this prospectus supplement and the accompanying prospectus or the documents incorporated by reference in this document is accurate as of any date other than their respective dates. Our business, financial condition, results of operations or prospects may have changed since those dates.

ABOUT THIS PROSPECTUS SUPPLEMENT

This document is in two parts. The first part is this prospectus supplement, which describes certain matters relating to us and this offering. The second part, the accompanying prospectus, gives more general information about securities we may offer from time to time, some of which may not apply to the notes offered by this prospectus supplement and the accompanying prospectus. For information about the notes, see “Description of Notes” in this prospectus supplement and “Description of Debt Securities and Related Guarantees” in the accompanying prospectus. When we refer to this “document,” we mean this prospectus supplement and the accompanying prospectus, unless the context otherwise requires.

Before you invest in the notes, you should read the registration statement of which this document forms a part and this document, including the documents incorporated by reference herein that are described under the heading “Where You Can Find More Information; Incorporation by Reference.”

If the information set forth in this prospectus supplement varies in any way from the information set forth in the accompanying prospectus, you should rely on the information contained in this prospectus supplement. If the information set forth in this prospectus supplement varies in any way from the information set forth in a document we have incorporated by reference, you should rely on the information in the more recent document.

In this prospectus, except as otherwise indicated or the context otherwise requires, the words “Pilgrim’s Pride,” “Pilgrim’s,” “PPC,” “we,” “us,” “our,” “ours” and the “Company” refer to Pilgrim’s Pride Corporation together with its subsidiaries.

INDUSTRY AND MARKET DATA

Any market and competitive position data contained in this prospectus supplement is from our own research, surveys or studies conducted by third parties and industry or general publications. Industry publications and surveys generally state that they have obtained information from sources believed to be reliable, but do not guarantee the accuracy and completeness of such information. While we believe that each of these studies and publications is reliable, neither we nor the underwriters have independently verified such data and neither we nor the underwriters make any representation as to the accuracy of such information. Similarly, we believe our internal research is reliable but it has not been verified by any independent sources.

NON-GAAP FINANCIAL MEASURES

We refer to the terms EBITDA and Adjusted EBITDA in various places in this prospectus supplement. These are supplemental financial measures that are not prepared in accordance with U.S. GAAP within the meaning of applicable SEC rules and regulations. Any analysis of non-GAAP financial measures should be used only in conjunction with results presented in accordance with U.S. GAAP. We define these measures, explain how they are calculated and provide reconciliations of these measures to the most comparable U.S. GAAP measure, as the case may be, under “Management’s Discussion and Analysis of Financial Condition and Results of Operations” in our Annual Report on Form 10-K for the fiscal year ended December 25, 2022 (“2022 Annual Report on Form 10-K”) and Quarterly Report on Form 10-Q for the quarter ended June 25, 2023 (the “Quarterly Report on Form 10-Q”), which are incorporated by reference in this prospectus supplement and the accompanying prospectus.

EBITDA is presented because it is used by management and we believe it is frequently used by securities analysts, investors and other interested parties, in addition to, and not in lieu of, results prepared in conformity with U.S. GAAP, to compare the performance of companies. We believe investors would be interested in our Adjusted EBITDA because this is how our management analyzes EBITDA. We also believe that Adjusted EBITDA, in combination with our financial results calculated in accordance with U.S. GAAP, provides investors with additional perspective regarding the impact of certain significant items on EBITDA and facilitates a more direct comparison of its performance with our competitors. EBITDA and Adjusted EBITDA are not measurements of financial performance under U.S. GAAP. They should not be considered as an alternative to cash flow from operating activities or as a measure of liquidity or an alternative to net income as an indicator of our operating performance or any other measure of performance derived in accordance with U.S. GAAP.

With respect to PPC’s operations in the U.S., Mexico and Puerto Rico, you should assume any reference we make to a particular year (for example, 2022) in this prospectus supplement relating to PPC’s business applies to PPC’s fiscal year and not the calendar year. Fiscal year 2022 was a 52-week fiscal year. The six months ended June 25, 2023 represents the period from December 26, 2022 through June 25, 2023. The six months ended June 26, 2022 represents the period from December 27, 2021 through June 26, 2022.

Our Company

We are primarily engaged in the production, processing, marketing and distribution of fresh, frozen and value-added chicken and pork products to retailers, distributors and foodservice operators. JBS S.A., through its indirect wholly-owned subsidiaries, beneficially owns 82.65% of our outstanding common stock as of June 25, 2023.

We market our balanced portfolio of fresh, prepared and value-added meat products to a diverse set of over 51,100 customers across the U.S., the U.K. and Europe, Mexico and in over 120 other countries. Our sales efforts are largely targeted towards the foodservice industry, principally chain restaurants and food processors, such as Chick-fil-A® and retail customers, including grocery store chains and wholesale clubs, such as Kroger®, Costco®, Publix® and H-E-B® in the U.S., chain restaurants such as McDonald’s® and grocery store chains such as Sainsbury’s®, Tesco® and Waitrose® in the U.K. and Europe, and grocery store chains such as Wal-Mart® in Mexico.

As a vertically integrated company, we are able to control every phase of the production process, which helps us manage food safety and quality, control margins and improve customer service. Our plants are strategically located to ensure that customers timely receive fresh products. With our global network of approximately 4,950 growers, 36 feed mills, 47 hatcheries, 40 processing plants, 33 prepared foods cook plants, 31 distribution centers, 9 rendering facilities and 4 pet food plants and 3 other facilities, we believe we are well- positioned to supply the growing demand for our products.

On September 24, 2021, we acquired 100% of the equity of the Kerry Consumer Foods’ meats and meals businesses, collectively known as Pilgrim’s Food Masters (“PFM”), for cash of £698.8 million, or \$958.9 million. The specialty meats business is a leading manufacturer of branded and private label meats, meat snacks and food-to-go products in the U.K. and the Republic of Ireland. The ready meals business is a leading ethnic chilled and frozen ready meals business in the U.K. The acquired operations are included in our U.K. and Europe reportable segment.

Competitive Strengths

We believe that our competitive strengths will enable us to maintain and grow our position as a leading global chicken company and fully integrated pork producer in the U.K. and Europe and to capitalize on future favorable growth opportunities:

Leading market position in the growing chicken industry and a fully integrated pork producer in the U.K. and Europe. We believe we are one of the largest chicken producers globally, a leading chicken producer in the

U.S. and a leading pork producer in the U.K. and Europe. We believe we can maintain this prominent market position as a chicken producer as we are one of the few producers in the chicken industry that can fully satisfy the requirements of large retailers and foodservice companies due to our broad product range, international distribution, vertically integrated operations and technical capabilities. Further, our scale of operations, balanced product portfolio and a wide range of production capabilities enable us to meet both the capacity and quality requirements of our customer base. Finally, we believe we are well positioned with our global footprint to benefit from the growth in the U.S. chicken export market.

Broad product portfolio. We have a diversified product portfolio of fresh, frozen and value-added chicken and pork products. In addition, our prepared foods business is focused on our most profitable product lines. We believe we are well positioned to be the primary chicken supplier for large customers due to our ability to provide consistent supply, innovate and develop new products to address consumer desires and provide competitive pricing across a diverse product portfolio. We believe that our balanced portfolio of fresh, prepared and value-added chicken and pork products yields a diversified sales mix, mitigating supply and market volatility and creating more consistent gross margins.

Blue chip and diverse customer base across all industry segments. We benefit from strong relationships with leading companies in every segment of the foodservice industry, principally chain restaurants and food processors, such as Chick-fil-A®, and retail customers, including grocery store chains and wholesale clubs such as Kroger®, Costco®, Publix® and H-E-B® in the U.S., chain restaurants such as McDonald's® and grocery store chains such as Sainsbury's®, Tesco® and Waitrose® in the U.K. and Europe, and grocery store chains such as Wal-Mart® in Mexico. We sell our products to a large and diverse customer base, with over 51,100 customers, with no single one accounting for more than 10% of our net sales in 2022 or 2021 and with our two largest customers accounting for approximately 12.8% and 12.0% of our net sales in 2022 and 2021.

Efficient and focused enterprise. We believe we are an efficient and focused organization supported by our market-driven business strategy. We have closed, idled or sold plants and distribution centers, reduced or consolidated production at other facilities, streamlined our workforce and reduced administrative and corporate expenses. In addition, we continue to seek to make significant production improvements driven by improved yields, labor, cost savings and product mix. We utilize a zero-based budgeting and plant-level profit and loss analysis, driving engagement and ownership over the results at each plant. We believe that these strategic initiatives have reduced our cost base, resulting in higher and more sustainable profits.

Robust cash flow generation with disciplined capital allocation. We believe that our leading market position, strong customer relationships and highly efficient operations help drive attractive, and sustainable margins. We also have a proven track record of disciplined capital allocation. During 2022 and the six months ended June 25, 2023, we spent \$487.1 million and \$286.6 million, respectively, on capital projects primarily to improve operational efficiencies, reduce costs and grow our business with our key customers.

Business Strategy

We intend to continue growing our business and enhancing profitability by pursuing the following strategies:

Be a valued partner with our key customers. We have global distribution capabilities for all of our product lines. As a result, we believe we are one of the only chicken producers that can supply the growing demand for a broad range of price competitive standard and specialized products with well-known brand names on a nationwide basis, as well as globally, from a single-source provider. Additionally, we intend to leverage our innovation capabilities to develop new products along with our customers to accelerate sales and enhance the profitability of chicken products at their businesses. We plan to further enhance our industry position by optimizing our sales mix and accelerating innovation.

Relentless pursuit of operational excellence. As production and sales grow, we intend to continue to focus on improving operating efficiencies by focusing on cost reductions, more effective processes, training and our differentiated management program. We make decisions based on knowledge, facts and data and believe initiatives, such as: (i) benchmarking live and plant costs and relentlessly pursuing the root cause of problems; (ii) fostering a culture of accountability and ownership deeper in the organization; (iii) conducting monthly performance reviews with senior management; and (iv) improving sales mix and price, will improve our operating efficiencies.

Unique portfolio of complementary business models. The breadth of our portfolio, including commoditized and highly differentiated value-added products combined with our range of bird sizes, broad geographical footprint, diverse customer base, and well diversified contract types can reduce volatility created by any specific markets, enabling us to capture upsides in the market while protecting our business against downsides.

Safe People, safe products and healthy attitudes. We have an uncompromising commitment to the safety of our team members and our products—safety is a priority at our company. We also have a results-oriented culture that drives accountability and ownership deeper into our organization, creating growth and development opportunities that help our team members succeed. We are committed to delivering the safest work environment possible, improving the quality and safety of our products, while achieving our sustainability agenda and bird welfare targets.

The Industry

The U.S. consumes more chicken than any other protein (approximately 39.0 billion pounds estimated in calendar year 2022 according to the U.S. Department of Agriculture (“USDA”)), and chicken is the second most consumed protein globally after pork. The U.S. is the world’s largest producer of chicken and is projected to produce approximately 46.7 billion pounds of ready-to-cook broiler meat in calendar year 2023, representing 20.6% of the total world production. Broilers are tender, young chickens suitable for broiling or roasting. Brazil and China produce the second and third most broiler meat, with 14.2% and 14.0% of the world market, respectively, according to the USDA.

According to the USDA, the export of U.S. chicken products increased at an average annual growth rate of 0.6% from 2010 through 2022. The U.S. is the second-largest exporter of broiler meat behind Brazil. The U.S. exported 7.3 billion pounds in calendar year 2022, which accounted for 24.5% of the total world exports and 15.3% of the total U.S. production, according to the USDA. The top five exporters (including the European Union) controlled nearly 82.0% of the market in 2022.

According to the USDA, chicken production in the U.S. increased from 2010 through 2022 at a compounded annual growth rate of 1.9%. The growth in chicken demand is attributable to (1) relative affordability compared to other proteins such as beef and pork, (2) the increasingly health conscious nature of U.S. consumers, (3) chicken’s consistent quality and versatility and (4) its introduction on many foodservice menus. In addition, protein demand continues to be strong. USDA estimates from 2021 through 2032 show an anticipated increase of U.S. chicken production at a compounded annual growth rate of 1.4%.

Key Industry Dynamics

Pricing. Items that influence chicken pricing in the U.S. include international demand, changes in production by other broiler producing countries, input costs and the demand associated with substitute products such as beef and pork. We believe our focus on sales mix enables us to adapt to changing supply demand dynamics by adjusting our production to maximize value. We also benefit from a shorter production lifecycle of broilers compared to other proteins. While production for cattle takes approximately 28 to 39 months from

breeding to slaughter and the production for pork takes 11 to 12 months, the production lifecycle for the broiler is only ten weeks.

Feed. Broilers are fed corn and soybean meal as well as certain vitamins and minerals. In 2022, corn, soybean meal and wheat accounted for approximately 46.1%, 35.2% and 4.6% of our feed costs, respectively. Broiler production is significantly more efficient from a feed perspective than cattle or hog production. Approximately two pounds of feed are required for each pound of chicken, as compared to approximately seven and 3.5 pounds for cattle and hogs, respectively. We have sought to mitigate the impact of feed price volatility on our profitability by decreasing the amount of our products that are sold under longer term fixed price contracts, broadening our product portfolio and expanding the variety of contracts within our book of business.

Recent Development

New Credit Facility

We are currently seeking to refinance our existing Fifth Amended and Restated Credit Agreement, dated as of August 19, 2021 (the “Existing U.S. Credit Facility”), by and among the Company, certain of its subsidiaries, the lenders party thereto from time to time, and CoBank, as administrative agent with a new unsecured revolving credit facility (the “New Credit Facility”). The proposed terms of the refinancing and New Credit Facility will (i) provide that the New Credit Facility will initially not be secured or guaranteed by any of the Company’s subsidiaries, (ii) refinance, in full, the outstanding revolving loans under the Existing U.S. Credit Facility immediately prior to the effectiveness of the New Credit Facility, (iii) include a maturity date that is the fifth anniversary of the closing date of the New Credit Facility and (iv) include certain other provisions to be set forth in the New Credit Facility.

There can be no assurances that we will enter into the New Credit Facility or that it will be consummated on the terms and conditions set forth above.

If the New Credit Facility is not entered into on or prior to the issuance of the notes, each of our domestic wholly-owned restricted subsidiaries that are guarantors of our Existing U.S. Credit Facility will guarantee the notes so long as they continue to guarantee our Existing U.S. Credit Facility, subject to certain exceptions.

Tender Offer and Consent Solicitation for the 2027 Notes and Intention to Redeem Outstanding 2027 Notes

Concurrently with this offering, the Company has commenced a cash tender offer (the “Tender Offer”), for any and all of its outstanding 5.875% Senior Notes due 2027 (the “2027 Notes”), of which \$850.0 million in aggregate principal amount is outstanding as of the date of this prospectus supplement, subject to certain terms and conditions of the Tender Offer, including the consummation of the offering of notes or the satisfaction otherwise of a financing condition.

In conjunction with the Tender Offer, the Company is also soliciting consents from the holders of the 2027 Notes to (i) eliminate substantially all of the restrictive covenants and certain events of default and related provisions contained in the indenture governing the 2027 Notes and (ii) reduce the minimum required notice period for the redemption of the 2027 Notes from at least 30 days to at least two business days prior to the redemption date (maintaining the maximum notice period of not more than 60 days). The total consideration payable to holders for each \$1,000 principal amount of 2027 Notes validly tendered and accepted for purchase in the Tender Offer (the “Total Consideration”), will be \$1,016.19, plus accrued and unpaid interest to the date of repurchase. The Total Consideration includes an early tender payment (the “Early Tender Payment”), of \$30.00 per \$1,000 principal amount of 2027 Notes payable only to holders who validly tender their 2027 Notes and deliver their consents at or prior to 5:00 p.m., (New York City time), on October 11, 2023, unless extended by

the Company or earlier terminated (such date and time, as the same may be modified, the “Early Tender Payment Deadline”). The Tender Offer is scheduled to expire at 5:00 p.m. (New York City time) on October 26, 2023, unless extended by the Company or earlier terminated (such date and time, as the same may be modified, the “Expiration Time”). Holders who validly tender their 2027 Notes after the Early Tender Payment Deadline but at or prior to the Expiration Time will be eligible to receive the Total Consideration less the Early Tender Payment per \$1,000 principal amount of the 2027 Notes, or \$986.19, plus accrued and unpaid interest to the date of repurchase. The Company intends to fund the purchase of 2027 Notes tendered pursuant to the Tender Offer with the net proceeds from the offering of notes. The Company cannot assure you that the Tender Offer and/or related consent solicitation will be consummated.

Concurrently with the commencement of the Tender Offer and the consent solicitation and conditioned upon the receipt of the net proceeds from the offering of the notes and the failure to receive the requisite consents to the proposed amendments, the Company has issued a conditional notice of redemption for any 2027 Notes that remain outstanding following the consummation or termination of the Tender Offer and the consent solicitation. The conditional notice calls for the redemption of any 2027 Notes that remain outstanding on October 27, 2023. Such redemption is being made in accordance with the terms of the indenture governing the 2027 Notes, which provides for a redemption price equal to 101.469% plus accrued but unpaid interest thereon to the redemption date. We currently intend to use the net proceeds from the offering of the notes, together with cash on hand, to pay for such redemption of the 2027 Notes.

This prospectus supplement is neither an offer to purchase nor a solicitation of an offer to sell or buy the 2027 Notes nor the solicitation of consents to amend the indenture governing the 2027 Notes. Any offer to purchase 2027 Notes will be made solely on the terms and subject to the conditions set forth in a separate offer to purchase that will be directed to holders of the 2027 Notes.

We may, subject to certain conditions, at our option and without the consent of any holder of the notes, for purposes of the indenture, be substituted by (i) any direct or indirect parent of the Company or (ii) any Subsidiary of the Company that owns, or concurrently with the Substitution, will own, a majority of the assets of the Company for purposes of the indenture and have covenants (and related definitions) apply to the substituted company and its restricted subsidiaries. See “Description of Debt Securities and Related Guarantees—Substitution of the Company as Issuer” in the accompanying prospectus and “Taxation—Certain United States Federal Income Tax Consequences—Certain Tax Consequences of Substitution.’

Use of Proceeds

We intend to use the net proceeds from the offering, together with cash on hand, to pay the tender price of any 2027 Notes tendered in the Tender Offer and to redeem any 2027 Notes that remain outstanding following the consummation of the Tender Offer. See “Use of Proceeds.”

Further Issues

We may, without the consent of the then existing holders of the notes, issue additional notes in an unlimited aggregate principal amount, which additional notes will have the same terms as the notes offered hereby except for the issue price, issue date and, under some circumstances, the first interest payment date.

Book-Entry Form

The notes will be issued in book-entry form and will be represented by permanent global certificates deposited with, or on behalf of, DTC and registered in the name of a nominee of DTC. Beneficial interests in any of the notes will be shown on, and transfers will be effected only through, records maintained by DTC and its participants, including Euroclear and Clearstream, and any such interest may not be exchanged for certificated securities, except in limited circumstances.

Absence of a Public Market for the Notes

The notes are new securities, and currently there is no established market for the notes. Accordingly, we cannot assure you as to the development or liquidity of any market for the notes. The underwriters have advised us that they currently intend to make a market in the notes. However, they are not obligated to do so, and they may discontinue any market making with respect to the notes without notice.

(1) “EBITDA” is defined as the sum of net income (loss) plus interest, taxes, depreciation and amortization. “Adjusted EBITDA” is calculated by adding to EBITDA certain items of expense and deducting from EBITDA certain items of income that we believe are not indicative of our ongoing operating performance consisting of: (1) foreign currency transaction losses (gains), (2) transaction costs from business acquisitions, (3) expenses recognized for the DOJ agreement and nonrecurring litigation settlements (see note (iv) below), (4) restructuring activities losses, (5) Hometown Strong initiative expenses (see note (viii) below), (6) consumption of the PFM inventory fair value step-up increment, (7) gain on bargain purchase, (8) property insurance recoveries on Mayfield tornado losses, (9) gain recognized on deconsolidation of a subsidiary and (10) net income (loss) attributable to noncontrolling interests. EBITDA is presented because it is used by us and we believe it is frequently used by securities analysts, investors and other interested parties, in addition to and not in lieu of results prepared in conformity with U.S. GAAP, to compare the performance of companies. We believe investors would be interested in our Adjusted EBITDA because this is how our management analyzes EBITDA applicable to continuing operations. We also believe that Adjusted EBITDA, in combination with our financial results calculated in accordance with U.S. GAAP, provides investors with additional perspective regarding the impact of certain significant items on EBITDA and facilitates a more direct comparison of its performance with its competitors. EBITDA and Adjusted EBITDA are not measurements of financial performance under U.S. GAAP. EBITDA and Adjusted EBITDA have limitations as analytical tools and should not be considered in isolation or as substitutes for an analysis of our results as reported under U.S. GAAP. Some of the limitations of these measures are:

- EBITDA and Adjusted EBITDA do not reflect our cash expenditures, future requirements for capital expenditures or contractual commitments;
- EBITDA and Adjusted EBITDA do not reflect changes in, or cash requirements for, our working capital needs;
- EBITDA and Adjusted EBITDA do not reflect the significant interest expense or the cash requirements necessary to service interest or principal payments on our debt;
- Although depreciation and amortization are non-cash charges, the assets being depreciated and amortized will often have to be replaced in the future, and EBITDA and Adjusted EBITDA do not reflect any cash requirements for such replacements;
- EBITDA and Adjusted EBITDA are not adjusted for all non-cash income or expense items that are reflected in our statements of cash flows;
- EBITDA does not reflect the impact of earnings or charges attributable to noncontrolling interests;

- EBITDA and Adjusted EBITDA do not reflect the impact of earnings or charges resulting from matters we consider to not be indicative of our ongoing operations; and
- EBITDA and Adjusted EBITDA do not reflect limitations on or costs related to transferring earnings from our subsidiaries to us.

In addition, other companies in our industry may calculate these measures differently than we do, limiting their usefulness as a comparative measure. Because of these limitations, EBITDA and Adjusted EBITDA should not be considered as an alternative to net income as indicators of our operating performance or any other measures of performance derived in accordance with U.S. GAAP. You should compensate for these limitations by relying primarily on our U.S. GAAP results and using EBITDA and Adjusted EBITDA only on a supplemental basis.

A reconciliation of net income to EBITDA and Adjusted EBITDA is as follows:

- (i) Interest expense, net, consists of interest expense less interest income.
- (ii) We measure the financial statements of our Mexico reportable segment as if the U.S. dollar were the functional currency. Accordingly, we remeasure assets and liabilities, other than nonmonetary assets, of the Mexico reportable segment at current exchange rates. We remeasure nonmonetary assets using the historical exchange rate in effect on the date of each asset's acquisition. Currency exchange gains or losses resulting from these remeasurements, as well as, from our U.K. and Europe reportable segment are

- included in the line item Foreign currency transaction losses (gains) in our consolidated statements of income.
- (iii) Transaction costs related to acquisitions includes those charges that are incurred in conjunction with business acquisitions. See Part II, Item 8, notes to our consolidated financial statements as of December 25, 2022, December 26, 2021 and December 27, 2020, “Note 2. Business Acquisitions” in our annual report for the year ended December 25, 2022 for more information regarding recent business acquisitions.
 - (iv) On October 13, 2020, we announced that we entered into a plea agreement (the “Plea Agreement”) with the Department of Justice. As a result of the Plea Agreement, we recognized a fine of \$110.5 million.
 - (v) On January 11, 2021, we announced that we entered an agreement to settle all claims made by the putative Direct Purchaser Plaintiff Class (“DPPs”) relating to broiler chicken antitrust litigation. As a result of the settlement, we recognized an expense of \$75.0 million.
 - (vi) On July 28, 2021, we and the putative End-User Consumer Indirect Purchaser Plaintiff Class (“EUCPs”) reached an agreement to settle all claims relating to the broiler chicken antitrust litigation. In addition, on August 3, 2021, we and the putative Commercial and Institutional Indirect Purchaser Plaintiff Class (“CIIPPs”) reached an agreement to settle all claims, which is subject to approval by the Illinois Court. As a result of these settlement agreements, we recognized an expense of \$120.5 million. In addition, to date, we have recognized an expense of \$527.4 million to cover settlements with various parties that opted out of our DPPs EUCPs and CIIPPs settlement agreements. See Part II, Item 8, Notes to our consolidated financial statements as of December 26, 2021 and December 27, 2020, and “Note 20. Commitments and Contingencies” in our quarterly report for the quarter ended June 25, 2023 and our annual report for each of the years ended December 25, 2022 and December 26, 2021 for more information regarding these settlement agreements and potential settlements.
 - (vii) Restructuring charges includes those charges that are incurred in conjunction with restructuring activities. See Part II, Item 8, notes to our consolidated financial statements as of December 25, 2022, December 26, 2021 and December 27, 2020, “Note 18. Restructuring-Related Activities” in our annual report for the year ended December 25, 2022 for more information regarding recent restructuring activities. See “Note 16. Restructuring-Related Activities” in our Quarterly Report on Form 10-Q for more information regarding recent restructuring activities.
 - (viii) The Hometown Strong initiative was developed to help communities in which we operate respond to unexpected challenges. For the years ended December 26, 2021 and December 27, 2020, we recorded \$1.0 million and \$15.0 million, respectively, in incremental donations expense relating to this initiative.

RISK FACTORS

An investment in the notes involves a high degree of risk. You should carefully read and consider the risks described below, together with the other information contained in and incorporated by reference into this prospectus supplement and accompanying prospectus, including the information in Part I, Item 1A, “Risk Factors,” in our Quarterly Report on Form 10-Q and 2022 Annual Report on Form 10-K, before making a decision to invest in the notes. See “Where You Can Find More Information; Incorporation by Reference.” Any of the following risks could materially adversely affect our business, operations, industry or financial position or our future financial performance. In addition, there may be additional risks and uncertainties that are not presently known or that are not currently believed to be significant that may adversely affect our business, operations, industry, financial position and financial performance in the future.

Risks Related to the Notes

The notes will be unsecured and will be effectively subordinated to our senior secured indebtedness.

Our obligations under the notes will not be secured by any of our or our subsidiaries’ assets. Our borrowings under our New Credit Facility will be unsecured. The notes will be effectively subordinated to all of our secured indebtedness and other obligations to the extent of the value of the assets securing such obligations. In addition, the indenture governing the notes will permit us and our significant subsidiaries that guarantee the notes to incur additional secured indebtedness, subject to certain restrictions.

If we were to become insolvent or otherwise fail to make payments on the notes, holders of our secured obligations would be paid first and would receive payments from the assets securing such obligations before the holders of the notes would receive any payments. Holders of the notes will participate ratably with all holders of our unsecured indebtedness that is deemed to be of the same class as the notes and all of our other general creditors, based upon the respective amounts owed to each holder or creditor, in our remaining assets. You therefore may not be fully repaid in the event we become insolvent or otherwise fail to make payments on the notes.

The notes will be structurally subordinated to debt of all of our subsidiaries.

The notes will not be guaranteed by any of our subsidiaries. The notes will be structurally subordinated to the debt (including trade payables but excluding intercompany obligations) of all of our subsidiaries to the extent of the value of their assets, and holders of the notes will not have any claim as a creditor against any subsidiary. All obligations of each subsidiary will have to be satisfied before any of the assets of such subsidiary would be available for distribution, upon a liquidation or otherwise, to us.

The terms of our New Credit Facility will, and our indentures, contain limited restrictive covenants and we may incur substantially more indebtedness or take other actions which may affect our ability to satisfy our obligations under the notes.

The New Credit Facility will provide for an \$800.0 million revolving credit commitment.

Our New Credit Facility will include a number of customary restrictive covenants. These covenants could impair our financing and operational flexibility and make it difficult for us to react to market conditions and satisfy our ongoing capital needs and unanticipated cash requirements. Specifically, such covenants under our New Credit Facility may restrict our ability and, if applicable, the ability of our subsidiaries to, among other things:

- incur additional indebtedness;
- create liens;

[Table of Contents](#)

- engage in sale-leaseback transactions;
- pay dividends or make distributions in respect of capital stock;
- purchase or redeem capital stock;
- make investments or certain other restricted payments;
- sell assets;
- issue or sell stock of restricted subsidiaries;
- enter into transactions with affiliates; or
- effect a consolidation or merger.

In addition, our New Credit Facility will require us to comply with a covenant requiring a minimum net leverage ratio and a minimum interest coverage ratio. Our ability to comply with some of these covenants are subject to events outside of our control.

The indenture governing the notes will restrict our ability and the ability of our significant subsidiaries that guarantee the notes to create certain liens on future Principal Properties (as defined in “Definitions” in the accompanying prospectus) and our ability to merge, consolidate, sell or otherwise dispose of all or substantially all of our assets. However, these restrictions are subject to certain significant exceptions, including that as of the date of this prospectus supplement, there are no Principal Properties. See “Description of Debt Securities and Related Guarantees—Restrictive Covenants Required by the Indenture” in the accompanying prospectus.

Our failure to comply with the restrictive covenants described above as well as the terms of any future indebtedness we may incur from time to time could result in an event of default, which, if not cured or waived, could result in our being required to repay these borrowings before their due date. If we are forced to refinance these borrowings on less favorable terms, or if the agreements governing our ultimate parent company’s debt restrict our operational or financing flexibility by prohibiting us from taking steps to react to market conditions or satisfy ongoing capital needs or unanticipated cash requirements including through debt incurrence, our results of operations and financial condition could be adversely affected, which in turn could adversely affect our ability to satisfy our obligations under the notes.

Our indentures do not contain any financial or operating covenants or restrictions on the incurrence of indebtedness, the payments of dividends or the issuance or repurchase of securities by us or any of our subsidiaries. In addition, the limited covenants applicable to the notes do not require us to achieve or maintain any minimum financial results relating to our financial position or results of operations.

Our ability to recapitalize, incur additional indebtedness and take a number of other actions that will not be limited by the terms of our indentures could have the effect of diminishing our ability to make payments on the notes when due and require us to dedicate a substantial portion of our cash flow from operations to payments on our indebtedness, which would reduce the availability of cash flow to fund our operations, working capital and capital expenditures.

If we default on our obligations to pay our other debt, we may not be able to make payments on the notes.

Any default under the agreements governing our other debt, including our New Credit Facility, and the remedies sought by the holders of such debt, could prevent us from paying principal, premium, if any, and interest on the notes and substantially decrease the market value of the notes. If we are unable to generate sufficient cash flow and are otherwise unable to obtain funds necessary to meet required payments of principal, premium, if any, and interest on our other debt, or if we otherwise fail to comply with the various covenants in

[Table of Contents](#)

our debt instruments, we could be in default under the terms of the agreements governing our other debt. In the event of such default:

- the holders of such debt may be able to cause all of our available cash flow to be used to pay such debt and, in any event, could elect to declare all the funds borrowed thereunder to be due and payable, together with accrued and unpaid interest; and/or
- we could be forced into bankruptcy or liquidation.

If our operating performance declines, we may in the future need to amend or modify the agreements governing our other debt or seek concessions from the holders of such debt.

We may not have the funds necessary to finance any change of control repurchase offer as required by the indenture.

If a change of control triggering event occurs as described under “Description of Notes—Change of Control Triggering Event,” we will be required to offer to repurchase your notes at 101% of their principal amount together with all accrued and unpaid interest, if any, to the date of repurchase.

However, if a repurchase offer were required, we may not have sufficient funds or be able to obtain financing from third parties to pay the repurchase price for all debt required to be repurchased. If a repurchase offer obligation were to arise under the indenture governing the notes, that change of control may also constitute an event of default under our New Credit Facility or any future credit or debt agreements then in place.

The market price of the notes may be volatile, which could affect the value of your investment.

It is impossible to predict whether the price of the notes will rise or fall. Trading prices of the notes will be influenced by our operating results and prospects and by economic, financial, regulatory and other factors. General market conditions, including the level of, and fluctuations in, the prices of high-yield notes, will also have an impact on the trading prices of the notes.

An active trading market for the notes may not develop or continue.

The notes we are offering are a new issue of securities. There is no active public trading market for the notes. We do not intend to apply for listing of the notes on a security exchange or to arrange for quotation of the notes on any automated dealer quotation system.

In addition, the liquidity of the trading market in the notes and the market prices quoted for the notes may be adversely affected by changes in the overall market for this type of security and by changes in our financial performance or prospects or in the prospects for companies in our industry generally. For these reasons, an active trading market may not develop or continue for your notes, you may not be able to sell your notes or, even if you can sell your notes, you may not be able to sell them at an acceptable price. In addition, market making activity will be subject to the limits imposed by the Securities Act and the U.S. Securities Exchange Act of 1934, as amended (the “Exchange Act”). Accordingly, we cannot assure you as to the liquidity of or the trading market for the notes.

The notes may receive a lower rating than anticipated.

If one or more rating agencies assign the notes ratings lower than the ratings expected by investors, or reduce their respective ratings in the future, the market price of such notes would be harmed.

The indenture provides for our ability to substitute the Company as an issuer.

We may substitute the Company for any direct or indirect parent of the Company or any Subsidiary of the Company that owns, or concurrently with the Substitution, will own, a majority of the assets of the Company for

[Table of Contents](#)

purposes of the indenture, as described under “Description of Debt Securities and Related Guarantees—Substitution of the Company as Issuer” in the accompanying prospectus. As a consequence of the substitution of the Company as an issuer of the notes, the obligor or obligors, assets and revenues available for repayment of the notes may be significantly different from the obligors, assets and revenues at the time of a holder’s investment in the notes. Moreover, a substitution of the Company as an issuer could have adverse tax consequences to holders of the notes. See “Taxation—Certain United States Federal Income Tax Consequences—Certain Tax Consequences of Substitution.”

Holders of notes may not be able to determine when a change of control triggering event giving rise to their right to have the notes repurchased by us has occurred following a sale of “substantially all” of our assets.

A change of control triggering event, as defined under “Description of Notes—Change of Control Triggering Event,” will require us to make an offer to repurchase all outstanding notes. The definition of change of control includes a phrase relating to the sale of “all or substantially all” of our assets. There is no precise established definition of the phrase “substantially all” under applicable law. Accordingly, the ability of a holder of notes to require us to repurchase its notes as a result of a sale of less than all our assets to another individual, group or entity may be uncertain.

USE OF PROCEEDS

We intend to use the net proceeds from the offering, together with cash on hand, to pay the tender price of any 2027 Notes tendered in the Tender Offer and to redeem any 2027 Notes that remain outstanding following the consummation of the Tender Offer.

Any underwriter or its affiliates which holds positions in the 2027 Notes may receive a portion of the proceeds of this offering in the Tender Offer. See “Plan of Distribution.”

This prospectus supplement is neither an offer to purchase nor a solicitation of an offer to sell or buy the 2027 Notes. Any offer to purchase the 2027 Notes will be made solely on the terms and subject to the conditions set forth in a separate offer to purchase that will be directed to holders of the 2027 Notes.

CAPITALIZATION

The following table sets forth our cash and cash equivalents and capitalization as of June 25, 2023:

- on an actual historical basis; and
- on as adjusted basis to reflect the issuance of the notes in this offering and the application of the net proceeds therefrom, together with cash on hand, to pay the tender price of any 2027 Notes tendered in the Tender Offer (assuming that all 2027 Notes are tendered at or prior to the Early Tender Payment Deadline).

You should read this table in conjunction with the sections entitled “Management’s Discussion and Analysis of Financial Condition and Results of Operations” and its unaudited condensed consolidated financial statements and accompanying notes thereto included in our 2022 Annual Report on Form 10-K and Quarterly Report of Form 10-Q, each incorporated by reference in this prospectus supplement.

DESCRIPTION OF NOTES

General

You can find the definitions of capitalized terms used in this description and not otherwise defined herein in the accompanying prospectus. In this description, the word “Company” refers only to Pilgrim’s Pride Corporation (subject to the Substitution of the Company provisions in the accompanying prospectus) and not to any of its Subsidiaries.

The following description of the terms of the notes offered hereby supplements the description of the general terms and provisions of the debt securities included in the accompanying prospectus. The notes will be issued under an indenture, dated as of April 19, 2023, among the Company, the guarantors party thereto and Regions Bank, as trustee, as supplemented by the second supplemental indenture thereto, to be dated as of October 12, 2023, between the Company and Regions Bank, as trustee. The terms of the notes include those expressly set forth in the indenture, as supplemented, and those made part of the indenture by reference to the Trust Indenture Act of 1939, as amended (the “Trust Indenture Act”). All references in this description of notes to the “notes” refers to the senior notes due 2034 offered hereby and to “holders of the notes” means the holders of the senior notes due 2034 offered hereby. The following summary of the notes is qualified in its entirety by reference to the description of the debt securities and indenture contained in the accompanying prospectus.

The Company will issue \$500.0 million aggregate principal amount of its 6.875% Senior Notes due 2034 in this offering. The following description is a summary of the provisions of the indenture that the Company believes to be material and of interest to you, and does not restate that agreement in its entirety. We encourage you to read the indenture because that agreement, and not this description, will define your rights as a holder of the notes. Any references in this summary to dollar amounts are to U.S. dollars and include the foreign currency equivalent of that amount determined at the relevant time to the extent proceeds, transactions or other amounts are denominated, in whole or in part, in a currency other than U.S. dollars.

Brief Description of the Notes

The notes will be:

- senior unsecured obligations of the Company;
- equal in ranking (“*pari passu*”) with all existing and future senior unsecured debt of the Company;
- senior in right of payment to any future subordinated debt of the Company;
- effectively subordinated in right of payment to existing and future secured debt of the Company to the extent of the value of the assets securing such obligations; and
- structurally subordinated in right of payment to all existing and future debt and other liabilities, including trade payables, of the Company’s Subsidiaries, to the extent of the value of the assets of these entities.

Under the circumstances described under “Description of Debt Securities and Related Guarantees— Definitions—”Unrestricted Subsidiaries” of the prospectus supplement, the Company will be permitted to designate one or more of its Subsidiaries as Unrestricted Subsidiaries. Unrestricted Subsidiaries will not be subject to the restrictive covenants in the indenture. On the Issue Date, no Subsidiaries of the Company will be Unrestricted Subsidiaries.

Principal, Maturity and Interest

The Company will initially issue \$500.0 million aggregate principal amount of notes. The notes will mature on May 15, 2034.

[Table of Contents](#)

Interest on the notes will accrue at the rate per annum of 6.875% and will be payable semiannually on May 15 and November 15 of each year beginning on May 15, 2024, to noteholders of record on the immediately preceding May 1 and November 1 respectively. Interest on the notes will accrue from the most recent date to which interest has been paid or, if no interest has been paid, from the issuance of the notes.

Interest on the notes will be computed on the basis of a 360-day year comprised of twelve 30-day months. If a payment date is not a business day, payment may be made on the next succeeding day that is a business day with the same force and effect as if payment was made on such date and no interest shall accrue in respect of such payment for the intervening period.

Further Issues

The Company may, without the consent of the then existing holders of the notes, issue additional notes in an unlimited aggregate principal amount, which additional notes will have the same terms as the notes offered hereby except for the issue price, issue date and, under some circumstances, the first interest payment date. The notes offered by this prospectus supplement and any additional notes that the Company subsequently issues under the indenture would be treated as a single class for all purposes under the indenture, in each case including, without limitation, waivers, amendments, redemptions and offers to purchase; provided that, if any additional notes subsequently issued are not fungible for U.S. federal income tax purposes with any notes previously issued, such additional notes shall have a separate CUSIP number but shall otherwise be treated as a single class with all other notes issued under the indenture.

Optional Redemption

Optional redemption with a make-whole premium

At any time prior to February 15, 2034 (which is the date that is three months prior to the maturity of the notes (the “Notes Par Call Date”)), the Company may choose to redeem all or any portion of the notes at a redemption price calculated by the Company equal to the greater of:

- (a) 100% of the principal amount of the notes to be redeemed; and
- (b) the present values of the remaining scheduled payments of principal and interest on such notes that would have been due if the notes matured on the Notes Par Call Date (but excluding accrued and unpaid interest to but excluding the redemption date), computed using a discount rate equal to the applicable Treasury Yield (determined on the second business day immediately preceding the date of redemption) plus 37.5 basis points,

plus accrued and unpaid interest, if any, to but excluding the redemption date (subject to the right of holders of record on the relevant record date to receive interest due on the relevant interest payment date). The trustee shall have no obligation to calculate or verify any make-whole premium.

“*Treasury Yield*” means, as of any redemption date, the yield to maturity as of such redemption date of United States Treasury securities with a constant maturity (as compiled by and published in the most recent Federal Reserve Statistical Release H.15(519) that has become publicly available at least two business days prior to the date fixed for redemption or, if such statistical release is no longer published, any publicly available source of similar market data) most nearly equal to the period from the redemption date to the Notes Par Call Date. If the period is less than one year, the weekly average yield on actively traded United States Treasury securities adjusted to a constant maturity of one year will be used.

Optional redemption at par

At any time on or after the Notes Par Call Date, the Company may choose to redeem all or any portion of the notes at a redemption price equal to 100% of the principal amount of the notes being redeemed *plus* accrued

and unpaid interest, if any, to but excluding the redemption date (subject to the right of holders of record on the relevant record date to receive interest due on the relevant interest payment date).

Tender Offer Clean-Up Redemption

In connection with any tender offer (including any Change of Control Offer made in accordance with the terms of the indenture) for notes, if holders of not less than 90% in aggregate principal amount of the outstanding notes validly tender and do not withdraw notes in such tender offer and the Company, or any third party making such tender offer in lieu of the Company, purchases all of the notes validly tendered and not withdrawn by such holders, the Company or such third party will have the right upon not less than 10 nor more than 60 days' prior notice to the holders (with a copy to the trustee), given not more than 30 days following such purchase date, to redeem or purchase all the notes of each series that remain outstanding following such purchase at a price equal to the price paid to the holders in such tender offer plus, to the extent not included in the purchase price, accrued and unpaid interest, if any, on the notes that remain outstanding, to, but excluding, the date of redemption. The Company shall calculate the redemption price in connection with any redemption, and the trustee shall have no duty to calculate or verify any such calculation.

General

Any redemption or notice of any redemption may, at the Company's discretion, be subject to one or more conditions precedent, including, but not limited to, completion of an offering or financing, Change of Control or other corporate transaction or event. In addition, if such redemption or notice is subject to satisfaction of one or more conditions precedent, such notice shall state that, in the Company's discretion, the redemption date may be delayed until such time as any or all such conditions shall be satisfied and a new redemption date will be set by the Company in accordance with applicable DTC procedures, or such redemption may not occur and such notice may be rescinded in the event that any or all such conditions shall not have been satisfied by the redemption date, or by the redemption date as so delayed.

Any notice to the holders of notes of such a redemption must include the appropriate calculation of the redemption price, but need not include the redemption price itself. The actual redemption price must be set forth in an officer's certificate delivered to the trustee no later than five business days (unless a shorter period is satisfactory to the trustee) prior to the date on which notice is to be given.

Mandatory Redemption; Offers to Purchase; Open Market Purchases

The Company is not required to make any mandatory redemption or sinking fund payments with respect to the notes. The Company may be required to offer to purchase the notes as described under the following headings entitled "—Change of Control Triggering Event". The Company may at any time and from time to time purchase the notes in the open market or otherwise. Any notes purchased in the open market or otherwise will be cancelled or remain outstanding as instructed in each case by the Company.

Change of Control Triggering Event

Upon the occurrence of a Change of Control Triggering Event, each holder will have the right to require the Company to repurchase all or any part of that holder's notes at a purchase price in cash equal to 101% of the aggregate principal amount of those notes, plus accrued and unpaid interest, if any, to, but excluding, the date of purchase (the "Change of Control Payment").

Within 30 days following any Change of Control Triggering Event, unless the Company has delivered a redemption notice with respect to all the outstanding notes in accordance with the provisions described under "—Optional Redemption," the Company will deliver a notice to each holder (with a copy to the trustee) describing the transaction or transactions that constitute a Change of Control Triggering Event and offering to

[Table of Contents](#)

purchase the notes on a specified date (the “Change of Control Offer”), which date will be a business day no earlier than 30 days nor later than 60 days from the date the notice is delivered (the “Change of Control Payment Date”).

The Company will comply with the requirements of Rule 14e-1 under the Exchange Act, to the extent applicable, and any other securities laws or regulations in connection with the repurchase of the notes as a result of a Change of Control Triggering Event. To the extent that the provisions of any securities laws or regulations conflict with the provisions of the indenture, the Company will comply with the applicable securities laws and regulations and will not be deemed to have breached its obligations under the Change of Control Triggering Event provisions of the indenture.

On the Change of Control Payment Date, the Company will, to the extent lawful:

(1) accept for payment all notes or portions of notes properly tendered pursuant to the Change of Control Offer; and

(2) deliver or cause to be delivered to the paying agent, on its behalf, the notes properly accepted together with an officer’s certificate stating the aggregate principal amount of notes or portions of notes being tendered and purchased by the Company.

The paying agent will promptly deliver to each holder of notes properly tendered the Change of Control Payment for those notes, and the trustee will promptly authenticate and deliver, or cause to be transferred by book-entry, to each holder a new note equal in principal amount to any unpurchased portion of the notes surrendered, if any; provided, however, that each new note will be in a principal amount of \$2,000 or an integral multiple of \$1,000 in excess thereof.

The provisions described above that require the Company to make a Change of Control Offer following a Change of Control Triggering Event will apply regardless of whether any other provisions of the indenture apply. The indenture will not contain a provision that permits the noteholders to require the Company to repurchase or redeem the notes in the event of a takeover, recapitalization or similar transaction that does not involve a Change of Control.

The occurrence of a Change of Control would constitute a default under the U.S. Credit Facilities. Future debt of the Company may contain prohibitions of certain events which would constitute a Change of Control or require such debt to be repurchased upon a Change of Control. Moreover, the exercise by holders of notes of their right to require the Company to repurchase such notes could cause a default under the U.S. Credit Facilities or future debt of the Company, even if the Change of Control itself does not cause such a default, due to the financial effect of such repurchase on the Company. Finally, the Company’s ability to pay cash to holders of notes upon a repurchase may be limited by the Company’s then existing financial resources. There can be no assurance that sufficient funds will be available when necessary to make any required repurchases. The Company’s failure to purchase notes in connection with a Change of Control Triggering Event would result in a default under the indenture. The Company’s obligation to make an offer to repurchase the notes as a result of a Change of Control Triggering Event may be waived or modified at any time prior to the occurrence of such Change of Control Triggering Event with the written consent of the holders of a majority in principal amount of the notes. See “—Change of Control Triggering Event.”

The Company will not be required to make a Change of Control Offer upon a Change of Control Triggering Event if a third party offers to purchase the notes in the manner, at the times and otherwise in compliance with the requirements set forth in the indenture applicable to a Change of Control Offer by the Company and that third party purchases all notes validly tendered to it in response to that offer. A Change of Control Offer may be made in advance of a Change of Control Triggering Event, and conditioned upon such Change of Control Triggering Event, if a definitive agreement is in place for the Change of Control at the time of making of the Change of Control Offer.

Table of Contents

The definition of “Change of Control” includes a phrase relating to the sale, lease, exchange or other transfer of “all or substantially all” of the Company’s properties or assets and the properties or assets of its Subsidiaries taken as a whole. Although there is a limited body of case law in New York interpreting the phrase “substantially all,” there is no precise established definition of the phrase under applicable law. Accordingly, the ability of a holder of notes to require the Company to purchase its notes as a result of a sale, lease, exchange or other transfer of less than all of the Company’s assets and the assets of its Subsidiaries taken as a whole to another Person may be uncertain.

For purposes of the foregoing discussion of a repurchase at the option of holders, the following definitions are applicable:

“*Batista Family*” includes José Batista Sobrinho, together with his wife, sons and daughters, or any of their respective heirs and any Person established and controlled by any of the foregoing.

“*Change of Control*” means the occurrence of any of the following events:

(1) the sale, lease, transfer, conveyance or other disposition (other than by way of merger, amalgamation, consolidation or other business combination transaction), in one or a series of related transactions, of all or substantially all of the assets of the Company and its Restricted Subsidiaries taken as a whole to a Person, other than a Restricted Subsidiary or one or more Permitted Holders; or

(2) the Company becomes aware of (by way of a report or any other filing pursuant to Section 13(d) of the Exchange Act, proxy, vote, written notice or otherwise) any “person” or “group” of related persons (as such terms are used in Sections 13(d) and 14(d) of the Exchange Act as in effect on the Issue Date), other than one or more Permitted Holders, is or becomes the “beneficial owner” (as defined in Rules 13d-3 and 13d-5 under the Exchange Act as in effect on the Issue Date) of more than 50% of the total voting power of the Voting Stock of the Company other than in connection with any transaction or series of transactions in which the Company shall become the wholly owned subsidiary (other than any director’s qualifying shares or shares owned by foreign nationals to the extent mandated by applicable law) of a direct or indirect parent entity of the Company of which no person or group, as noted above, holds 50% or more of the total voting power (other than a Permitted Holder).

For purposes of this definition, any direct or indirect holding company of the Company shall not itself be considered a “person” or “group”; provided that no “person” or “group” (other than one or more of the Permitted Holders) beneficially owns, directly or indirectly, more than a majority of the total voting power of the Voting Stock of such holding company.

“*Change of Control Triggering Event*” means (x) the occurrence of a Change of Control that is accompanied or followed by a downgrade of the notes within the Ratings Decline Period by both of the Ratings Agencies and (y) the rating of the notes on any day during such Ratings Decline Period is below the rating by either such Rating Agency in effect immediately preceding the first public announcement of the Change of Control (or occurrence thereof if such Change of Control occurs prior to public announcement); provided that each such rating decline is in whole or in part in connection with a Change of Control.

“*Fitch*” means Fitch Ratings, Inc. or any successor to the rating agency business of Fitch Ratings, Inc.

“*Moody’s*” means Moody’s Investors Service, Inc. or any successor to the rating agency business of

Moody’s Investors Service, Inc.

“*Permitted Holders*” means (i) JBS S.A. and any of its subsidiaries or any Affiliate or Affiliates of any of the foregoing, (ii) any member of the Batista Family or any Affiliate or Affiliates of any of the foregoing and any group (within the meaning of Section 13(d)(3) or Section 14(d)(2) of the Exchange Act or any successor

provision) of which any of the foregoing are members; provided that, in the case of such group and without giving effect to the existence of such group or any other group, such members of the Batista Family and their respective Affiliates, collectively, have beneficial ownership of more than 50% of the total voting power of the Voting Stock of the Company or any of its direct or indirect subsidiaries; and (iii) any Person the Voting Stock of which (or in the case of a trust, the beneficial interest in which) at least 51% is owned by Persons specified in clause (ii).

“*Rating Agency*” means at the Company’s option, two of S&P, Moody’s and Fitch, and if two agencies do not make a rating on the notes publicly available, a U.S. nationally recognized statistical rating agency or agencies, as the case may be, selected by the Company (as certified by a resolution of the Board of Directors).

“*Ratings Decline Period*” means the period that (i) begins on the earlier of (a) the date of the first public announcement of the occurrence of a Change of Control or of the intention by the Company or a shareholder of the Company, as applicable, to effect a Change of Control or (b) the occurrence thereof and (ii) ends 60 days following consummation of such Change of Control; provided that such period shall be extended for so long as the rating of the notes, as noted by the applicable Rating Agency, is under publicly announced consideration for downgrade by the applicable Rating Agency.

“*S&P*” means Standard & Poor’s Ratings Group, a division of McGraw Hill, Inc., or any successor to the rating agency business thereof.

“*Voting Stock*” of any Person as of any date means the Capital Stock of that Person that is at the time entitled to vote in the election of that Person’s Board of Directors.

CERTAIN UNITED STATES FEDERAL INCOME TAX CONSEQUENCES

The following discussion summarizes certain U.S. federal income tax consequences of the purchase, ownership and disposition of the notes by an initial beneficial owner of the notes who purchases the notes for cash at the original offering price set forth on the cover of this prospectus supplement and who holds the notes as capital assets within the meaning of Section 1221 of the Internal Revenue Code of 1986, as amended (the “Code”), or any successor thereto. This discussion is based upon the Code, existing and proposed U.S. Treasury Regulations and judicial decisions and administrative interpretations thereof, all as of the date hereof and all of which are subject to change, possibly with retroactive effect, or to different interpretations. We cannot assure you that the Internal Revenue Service (the “IRS”) will not challenge one or more of the tax consequences described herein. We have not obtained, nor do we intend to obtain, a ruling from the IRS with respect to the U.S. federal income or estate tax consequences of purchasing, owning or disposing of the notes.

This discussion does not address all U.S. federal tax considerations that may be relevant to a particular holder in light of the holder’s circumstances or to certain categories of investors that may be subject to special rules such as, for example, financial institutions, regulated investment companies, real estate investment trusts, insurance companies, tax-exempt organizations, dealers in securities, brokers, traders in securities that elect to mark their securities to market for U.S. federal income tax purposes, persons subject to special tax accounting rules as a result of any item of gross income with respect to the notes being taken into account in an applicable financial statement, persons who hold the notes through partnerships or other pass-through entities, persons liable for the alternative minimum tax, controlled foreign corporations, passive foreign investment companies, U.S. expatriates, U.S. holders (as defined below) whose functional currency for U.S. tax purposes is not the U.S. dollar or persons who hold the notes as part of a hedge, conversion transaction, straddle or other integrated transaction. This discussion also does not address U.S. federal estate or gift tax consequences, the Medicare tax on net investment income, or the tax considerations arising under the laws of any state, local or foreign jurisdiction or under any applicable tax treaties. Finally, this discussion does not address the consequences to investors that have their 2027 Notes repurchased in the Tender Offer.

This discussion is for general purposes only. You should consult your own tax advisor as to the particular tax consequences to you of the purchase, ownership and disposition of the notes, including the effect and applicability of state, local or foreign tax laws or tax treaties and the possible effects of changes in the tax law.

As used herein, the term “U.S. holder” means a beneficial owner of a note that is, for U.S. federal income tax purposes:

- an individual U.S. citizen or resident alien;
- a corporation, or other entity taxable as a corporation for U.S. federal income tax purposes, that was created or organized in or under the laws of the U.S., any state thereof or the District of Columbia;
- an estate the income of which is subject to U.S. federal income taxation regardless of its source; or
- a trust, if (1) a court within the U.S. can exercise primary supervision over the trust and one or more U.S. persons have the authority to control all substantial decisions of the trust, or (2) a valid election is in place to treat the trust as a U.S. person.

As used herein, the term “non-U.S. holder” means a beneficial owner of a note that is, for U.S. federal income tax purposes, not a U.S. holder or a partnership.

If a partnership (including an entity or arrangement treated as a partnership for U.S. federal income tax purposes) holds notes, the tax treatment of the partnership and a partner in the partnership generally will depend upon the status of the partner and upon the activities of the partnership. If you are a partnership holding notes, or a partner in such a partnership, you should consult your own tax advisor regarding the tax consequences associated with an investment in the notes.

Additional Payments

We may be required to make additional payments on the notes in certain circumstances described above under the heading “Description of Notes—Change of Control Triggering Event,” “Description of Notes—Optional Redemption,” and “Description of Notes—Tender Offer Clean-Up Redemption.” These payments may implicate the provisions of the U.S. Treasury Regulations relating to “contingent payment debt instruments.” Although not free from doubt, we intend to take the position that the possibility of payments of any such additional amounts should not cause the provisions of the U.S. Treasury Regulations relating to contingent payment debt instruments to apply. Therefore, we intend to take the position that the notes will not be treated as contingent payment debt instruments. Assuming our position is respected, if we are required to make any such additional payments, a holder would be required to include in income such additional amounts at the time payments are received or accrued, in accordance with such holder’s method of accounting for U.S. federal income tax purposes.

Our determination that the notes are not contingent payment debt instruments is not binding on the IRS. If the IRS were to successfully challenge our determination and the notes were treated as contingent payment debt instruments, holders would be required, among other things, (i) to accrue interest income based upon a “comparable yield” (as defined in the U.S. Treasury Regulations) determined at the time of issuance of the notes (which could be higher than the stated interest rate on the notes) and (ii) treat as ordinary income, rather than capital gain, any gain recognized on a sale, exchange, retirement or other taxable disposition of a note. Our determination that the notes are not contingent payment debt instruments is binding on holders unless they disclose their contrary positions to the IRS in the manner that is required by the applicable U.S. Treasury Regulations.

Although the matter is not free from doubt, the remainder of this discussion assumes that the notes will not be treated as contingent payment debt instruments. Purchasers of notes are advised to consult their own tax advisors regarding the possible application of the contingent payment debt instrument rules to the notes.

Certain Tax Consequences of Substitution

We may substitute Pilgrim’s Pride Corporation for a direct or indirect parent of Pilgrim’s Pride Corporation or certain subsidiaries of Pilgrim’s Pride Corporation for purposes of the indenture, as described under “Description of Debt Securities and Related Guarantees—Substitution of the Company as Issuer” in the accompanying prospectus. Such a modification to the terms of the notes could be treated for U.S. federal income tax purposes as a deemed exchange of (i) the notes as in place prior to such modifications for (ii) new notes as in place after such modifications (the “New Notes”). If such modifications resulted in a deemed exchange, such a deemed exchange could be treated as a taxable transaction for U.S. federal income tax purposes in which certain beneficial owners of the notes could be required to recognize gain or loss. The amount of any gain or loss recognized upon such a deemed exchange of a note for a New Note will be determined by reference to the “issue price” of a New Note. The issue price of a New Note will equal the fair market value of such New Note at the time of the deemed exchange if such New Note is considered “publicly traded” for U.S. federal income tax purposes. The rules regarding the determination of issue price are complex and highly detailed. If such a substitution is treated as a taxable transaction for U.S. federal income tax purposes, a beneficial owner’s holding period in a New Note treated as received in the substitution generally will commence on the day after the substitution, and a beneficial owner’s tax basis in such New Note will generally equal the issue price of such New Note. Generally, any gain or loss recognized as a result of such deemed exchange will be taxed under the rules described below under “—Sale, Redemption, Retirement or Other Taxable Disposition of the Notes.” However, losses may be limited under the wash sale rules. If the issue price of such New Note is less than its stated redemption price at maturity by more than a *de minimis* amount, such New Note will be treated as issued with original issue discount for U.S. federal income tax purposes. In such event, beneficial owners will be required to include that original issue discount in their income as it accrues, in advance of the receipt of cash corresponding to such income. Beneficial owners should consult their own tax advisors as to the U.S. federal

[Table of Contents](#)

income tax considerations relating to modification of the notes in connection with a substitution, including the U.S. federal income tax considerations of a deemed exchange and resulting original issue discount, if any.

U.S. Holders

Payment of Interest

It is expected, and this discussion assumes, that the notes will be issued with less than a de minimis amount of original issue discount for U.S. federal income tax purposes. Stated interest on a note generally will be taxable to a U.S. holder as ordinary interest income at the time it accrues or is received in accordance with the U.S. holder's method of accounting for U.S. federal income tax purposes.

Sale, Redemption, Retirement or Other Taxable Disposition of the Notes

Upon the sale, redemption, retirement or other taxable disposition of a note, a U.S. holder will generally recognize gain or loss in an amount equal to the difference between the amount of cash plus the fair market value of any property received (not including any amount attributable to accrued but unpaid interest, which will be taxable as ordinary interest income to the extent not previously included in income) and such U.S. holder's adjusted tax basis in the note. A U.S. holder's adjusted tax basis in a note generally will be its cost. Gain or loss recognized on the sale, redemption, retirement or other taxable disposition of a note generally will constitute capital gain or loss and will be long-term capital gain or loss if, at the time of such disposition, the U.S. holder held the note for more than one year. Non-corporate taxpayers generally are subject to a reduced U.S. federal income tax rate on net long-term capital gains. The deductibility of capital losses is subject to certain limitations.

Backup Withholding and Information Reporting

Backup withholding and information reporting requirements apply, in the case of certain U.S. holders (not including corporations and other exempt recipients), to certain payments of principal and interest on a note, and of the proceeds from the sale or redemption of a note. Backup withholding applies if a U.S. holder fails to provide certain identifying information (such as a taxpayer identification number), has been notified by the IRS that it is subject to backup withholding for failing to report interest income in full or fails to meet certain certification requirements. An individual's taxpayer identification number is generally the individual's Social Security number. Backup withholding is not an additional tax. Any amount withheld from a payment to a U.S. holder under the backup withholding rules will be allowed as a credit against the U.S. holder's U.S. federal income tax liability and may entitle the holder to a refund, provided the required information is properly and timely submitted to the IRS.

Non-U.S. Holders

U.S. Federal Withholding Tax on Interest

Subject to the discussion of the provisions of the Code commonly referred to as Foreign Account Tax Compliance Act ("FATCA") and the discussion of backup withholding and information reporting below, no U.S. federal withholding tax will apply to payments of principal or interest on the notes, provided that:

- the non-U.S. holder does not directly or indirectly, actually or constructively, own 10% or more of the total combined voting power of all classes of our voting stock within the meaning of the Code and the U.S. Treasury Regulations;
- the non-U.S. holder is not a controlled foreign corporation (within the meaning of Section 957 of the Code) that is related to us through stock ownership, either actually or constructively (within the meaning of Section 864(d)(4) of the Code);
- the non-U.S. holder is not a bank whose receipt of such amounts on the notes is pursuant to a loan agreement entered into in the ordinary course of business;

[Table of Contents](#)

- the non-U.S. holder certifies under penalties of perjury on IRS Form W-8BEN or Form W-8BEN-E that it is not a U.S. person (within the meaning of the Code) and provides its name, address and U.S. taxpayer identification number, if any; and
- such amounts are not effectively connected with a non-U.S. holder's U.S. trade or business.

If a non-U.S. holder cannot satisfy the requirements of the first three bullets, payments of interest made to such non-U.S. holder will be subject to the 30% U.S. federal withholding tax, unless the non-U.S. holder provides us, our paying agent or other applicable withholding agent a properly executed IRS Form W-8BEN or Form W-8BEN-E (or other appropriate successor form) on which it claims an exemption for or a reduction of withholding under an applicable income tax treaty or IRS Form W-8ECI (or other appropriate successor form) stating that interest paid on the notes is not subject to the withholding tax because it is effectively connected with the non-U.S. holder's conduct of a trade or business in the U.S. (and, if required by an applicable income tax treaty, is also attributable to a U.S. permanent establishment or fixed place of business maintained by such non-U.S. Holder within the U.S.).

U.S. Federal Income Tax on Interest

If a non-U.S. holder is engaged in a trade or business in the U.S. and interest on the notes is effectively connected with the conduct of that trade or business (and, if required by an applicable income tax treaty, is also attributable to a U.S. permanent establishment or fixed place of business maintained by such non-U.S. Holder within the U.S.), the non-U.S. holder will be subject to U.S. federal income tax on the interest on a net basis at the regular U.S. federal income tax rates in the same general manner as if the non-U.S. holder were a U.S. person (as defined under the Code) and the 30% withholding tax will not apply provided that the appropriate certification is furnished (as described above). In addition, if a non-U.S. holder is a foreign corporation, it may be subject to an additional branch profits tax equal to 30% (subject to any exemption or lower rate that may be specified by an applicable tax treaty) of its earnings and profits, including earnings and profits from an investment in the notes, that are effectively connected with the non-U.S. holder's conduct of a trade or business in the U.S. (and, if required by an applicable income tax treaty, are also attributable to a U.S. permanent establishment or fixed place of business maintained by such non-U.S. Holder within the U.S.), subject to certain adjustments.

Sale, Redemption, or Other Taxable Disposition of the Notes

Subject to the discussions of backup withholding and information reporting and FATCA below, any gain realized on the sale, redemption, retirement or other taxable disposition of the notes (excluding any amount allocable to accrued and unpaid interest, which generally will be treated as interest and will be subject to the rules discussed above under “—Non-U.S. Holders—U.S. Federal Withholding Tax on Interest” and “—Non-U.S. Holders—U.S. Federal Income Tax on Interest”) generally will not be subject to U.S. federal income tax unless:

- that gain is effectively connected with a non-U.S. holder's conduct of a trade or business in the U.S. (and, if required by an applicable income tax treaty, is also attributable to a U.S. permanent establishment or fixed place of business maintained by such non-U.S. Holder within the U.S.), in which case such gain will generally be subject to net income tax at the rates applicable to U.S. holders (and, if the non-U.S. Holder is a foreign corporation, the additional branch profits tax discussed above); or
- the non-U.S. holder is an individual who is present in the U.S. for 183 days or more in the taxable year of such sale, redemption, retirement or other taxable disposition and certain other conditions are satisfied, in which case the non-U.S. holder generally will be taxed at a flat 30% rate (or lower applicable treaty rate) on such non-U.S. holder's net U.S. source capital gain, which may be offset by certain U.S. source capital losses of the non-U.S. holder.

Backup Withholding and Information Reporting

Payments to non-U.S. holders of interest on a note and amounts withheld from such payments, if any, generally will be reported to the IRS and the non-U.S. holders by the applicable withholding agent. Backup withholding will not apply to payments of principal and interest on the notes if a non-U.S. holder provides the applicable withholding agent a properly executed IRS Form W-8BEN or Form W-8BEN-E (or other appropriate successor form) as described above (or it otherwise qualifies for an exemption), provided that the relevant withholding agent does not know or have reason to know that the non-U.S. holder is a U.S. person or that the conditions of any other exemptions are not in fact satisfied.

The payment of the proceeds of the disposition of notes to or through the U.S. office of a U.S. or foreign broker will be subject to information reporting and backup withholding unless a non-U.S. holder timely provides the IRS forms described above or it otherwise qualifies for an exemption. The proceeds of a disposition effected outside the U.S. by a non-U.S. holder to or through a foreign office of a broker generally will not be subject to backup withholding or information reporting unless certain limited exceptions apply. Copies of the information returns reporting payments to a non-U.S. holder may also be made available to the tax authorities in the country in which the non-U.S. holder resides under the provisions of an applicable income tax treaty, intergovernmental agreement or tax information sharing agreement.

Backup withholding is not an additional tax and any amount withheld under the backup withholding rules is allowable as a refund or credit against the non-U.S. holder's U.S. federal income tax liability, if any, provided that the required information or appropriate claim for refund is properly and timely submitted to the IRS.

Non-U.S. holders should consult their own tax advisors regarding the application of the information reporting and backup withholding rules in their particular situations, the availability of an exemption therefrom and the procedure for obtaining such an exemption, if available.

Foreign Account Tax Compliance Act

Sections 1471 through 1474 of the Code and the U.S. Treasury Regulations promulgated thereunder (commonly referred to as FATCA) generally impose a U.S. federal withholding tax of 30% on payments of interest on the notes to (i) a "foreign financial institution" (as defined in the Code) (as the beneficial owner or as an intermediary for the beneficial owner), unless such institution is "deemed compliant," complies with an applicable intergovernmental agreement and/or enters into an agreement with the U.S. government to collect and provide to the U.S. tax authorities substantial information regarding U.S. account holders of such institution (which would include certain equity and debt holders of such institution, as well as certain account holders that are foreign entities with U.S. owners) or (ii) a foreign entity that is not a financial institution in certain cases (as the beneficial owner of the payments or as an intermediary for such beneficial owner), unless such entity certifies that it does not have any substantial U.S. owners or provides certain information regarding the substantial U.S. owners of the entity, which owners generally include any U.S. person who directly or indirectly owns more than 10% of the entity. Various intergovernmental agreements entered into by the U.S. and foreign governments may modify the rules above.

While withholding under FATCA would also have applied to payments of gross proceeds from the disposition of the notes after December 31, 2018, proposed U.S. Treasury Regulations eliminate FATCA withholding on payments of gross proceeds entirely. Although these Treasury Regulations are not final, they can be relied upon by taxpayers until final U.S. Treasury Regulations are issued. There can be no assurance that final Treasury Regulations would provide an exemption from the FATCA withholding tax for gross proceeds.

Prospective investors in the notes should consult their own tax advisors regarding the implications of FATCA on their investment in the notes.

[Table of Contents](#)

The foregoing summary does not discuss all aspects of U.S. taxation that may be relevant to particular holders in light of their particular circumstances and income tax situations. Prospective investors should consult their tax advisors as to the particular tax consequences to them of the purchase, ownership and disposition of the notes, including the effect of any U.S. federal, state, local, foreign or other tax laws.

CERTAIN ERISA CONSIDERATIONS

The following is a summary of certain considerations associated with the acquisition of the notes by a “Plan” meaning assets of any employee benefit plans that are subject to Title I of the Employee Retirement Income Security Act of 1974, as amended (“ERISA”), plans, individual retirement accounts and other arrangements that are subject to Section 4975 of the Internal Revenue Code of 1986, as amended (the “Code”) or provisions under any other federal, state, local, non-U.S. or other laws, or rules or regulations that are similar to such provisions of ERISA or the Code (collectively, “Similar Laws”), and entities whose underlying assets are considered to include “plan assets” of any such plan, account or arrangement.

General Fiduciary Matters

ERISA and the Code impose certain duties on persons who are fiduciaries of a Plan subject to Title I of ERISA or Section 4975 of the Code (an “ERISA Plan”) and prohibit certain transactions involving the assets of an ERISA Plan and its fiduciaries or other interested parties. Under ERISA and the Code, any person who exercises any discretionary authority or control over the administration of an ERISA Plan or the management or disposition of the assets of an ERISA Plan, or who renders investment advice for a fee or other compensation to an ERISA Plan, is generally considered to be a fiduciary of the ERISA Plan.

In considering an investment in the notes with a portion of the assets of any Plan, a fiduciary should determine whether the investment is in accordance with the documents and instruments governing the Plan and the applicable provisions of ERISA, the Code or any Similar Laws relating to a fiduciary’s duties to the Plan including the prudence, diversification, delegation of control and prohibited transaction provisions of ERISA, the Code and any other applicable Similar Laws.

Prohibited Transaction Issues

Section 406 of ERISA and Section 4975 of the Code prohibit ERISA Plans from engaging in specified transactions involving plan assets with persons or entities, who or which, are “parties in interest,” within the meaning of ERISA, or “disqualified persons,” within the meaning of Section 4975 of the Code, unless an exemption is available. A party in interest or disqualified person, who or which, engages in a non-exempt prohibited transaction may be subject to excise taxes and other penalties and liabilities under ERISA and/or the Code. In addition, the fiduciary of the ERISA Plan that engages in such a non-exempt prohibited transaction may be subject to penalties and liabilities under ERISA and/or the Code. The acquisition and/or holding of the notes by an ERISA Plan with respect to which we or the underwriters are considered a party in interest or disqualified person, may constitute or result in a direct or indirect prohibited transaction under Section 406 of ERISA and/or Section 4975 of the Code, unless the investment is acquired and held in accordance with an applicable statutory, class or individual prohibited transaction exemption. In this regard, the U.S. Department of Labor has issued prohibited transaction class exemptions that may provide exemptive relief for direct or indirect prohibited transactions (each, a “PTCE”). Included among the PTCEs that may apply to the acquisition and holding of the notes are PTCE 84-14, respecting transactions determined by independent qualified professional asset managers, PTCE 90-1, respecting insurance company pooled separate accounts, PTCE 91-38, respecting bank collective investment funds, PTCE 95-60, respecting life insurance company general accounts and PTCE 96-23, respecting transactions determined by in-house asset managers. In addition to the foregoing, the Pension

Protection Act of 2006, as amended, provides a statutory exemption (Section 408(b)(17) of ERISA and Section 4975(d)(20) of the Code) for transactions between an ERISA Plan and a person or entity that is a party in interest and/or a disqualified person (not including a fiduciary or an affiliate that, directly or indirectly, has or exercises discretionary authority or control or renders investment advice with respect to the assets of any ERISA Plan involved in the transaction) solely by reason of providing services to the Plan or by relationship to a service provider, provided that the ERISA Plan pays no more than adequate consideration in connection with the transaction. There can be no assurance that all of the conditions of any such exemptions will be satisfied.

[Table of Contents](#)

Because of the foregoing, the notes should not be acquired or held by any person investing “plan assets” of any Plan, unless such acquisition and holding will not constitute a non-exempt prohibited transaction under Section 406 of ERISA or Section 4975 of the Code or a similar violation under any applicable Similar Laws.

Representations

Accordingly, by acceptance of the notes, each purchaser and subsequent transferee will be deemed to have represented and warranted that (1) either (i) no portion of the assets used by such purchaser or transferee to acquire or hold the notes or any interest therein constitutes assets of any Plan or (ii) the acquisition, holding and subsequent disposition of the notes or any interest therein by such purchaser or transferee will not constitute a non-exempt prohibited transaction under Section 406 of ERISA or Section 4975 of the Code or a similar violation under any applicable Similar Laws and (2) the purchaser or transferee will not transfer the notes to any person or entity, unless such person or entity could truthfully make the foregoing representations and covenants.

The foregoing discussion is general in nature and is not intended to be all-inclusive nor should it be construed as legal advice. Due to the complexity of these rules and the penalties that may be imposed upon persons involved in non-exempt prohibited transactions, it is particularly important that fiduciaries or other persons considering acquiring or holding the notes on behalf of, or with the assets of, any Plan, consult with their counsel regarding the potential applicability of ERISA, Section 4975 of the Code and any Similar Laws to such transactions and whether an exemption would be applicable to the acquisition and holding of the notes.

Purchasers of the notes have the exclusive responsibility for ensuring that their acquisition and holding of the notes comply with the fiduciary responsibility rules of ERISA and do not violate the prohibited transaction rules of ERISA, the Code or applicable Similar Laws.

The underwriters will purchase the notes at a discount from the price indicated on the cover of this prospectus supplement and propose initially to offer and sell the notes at the offering price set forth on the front of this prospectus supplement. After the initial offering of the notes, the price at which the notes are being offered may be changed at any time without notice.

Indemnification

We have agreed to indemnify the underwriters against certain liabilities, including liabilities under the Securities Act, or to contribute to payments that the underwriters may be required to make in respect of those liabilities.

Stabilization and Short Positions

In connection with this offering, the underwriters may engage in certain transactions that stabilize, maintain or otherwise affect the price of the notes. Specifically, the underwriters may over allot in connection with the

[Table of Contents](#)

offering of the notes, creating a syndicate short position. In addition, the underwriters may bid for and purchase notes in the open market to cover syndicate short positions or to stabilize the price of the notes. Any of these activities may stabilize or maintain the market price of the notes above what it would be in the absence of such activities. The underwriters are not required to engage in any of these activities, and they may end any of them at any time. We and the underwriters make no representation as to the direction or magnitude of any effect that the transactions described above may have on the price of the notes. In addition, we and the underwriters make no representation that anyone will engage in such transactions or that such transactions, once commenced, will not be discontinued without notice.

Relationships

The underwriters and certain of their respective affiliates are full service financial institutions engaged in various activities, which may include securities trading, commercial and investment banking, financial advisory, investment management, investment research, principal investment, hedging, financing and brokerage activities. In the ordinary course of their respective businesses, the underwriters and certain of their respective affiliates have in the past and may in the future engage in various commercial and investment banking or other transactions of a financial nature with us or our affiliates, including the provision of certain advisory services and the making of loans to us or our affiliates, for which they have received or may in the future receive customary compensation.

In the ordinary course of their various business activities, the underwriters and certain of their respective affiliates may make or hold a broad array of investments and actively trade debt and equity securities (or related derivative securities) and financial instruments (including bank loans) for their own account and for the accounts of their customers, and such investment and securities activities may involve securities and/or instruments of ours or our affiliates. If the underwriters or their respective affiliates have a lending relationship with us, certain other of those underwriters or their respective affiliates may hedge their credit exposure to us consistent with their customary risk management policies. Typically, the underwriters and their respective affiliates would hedge such exposure by entering into transactions which consist of either the purchase of credit default swaps or the creation of short positions in our securities or the securities of our affiliates, including potentially the notes offered hereby. Any such credit default swaps or short positions could adversely affect future trading prices of the notes offered hereby. The underwriters and certain of their respective affiliates may also communicate independent investment recommendations, market color or trading ideas and/or publish or express independent research views in respect of such securities or instruments and may at any time hold, or recommend to clients that they acquire, long and/or short positions in such securities and instruments.

We intend to use the full amount of net proceeds from the offering of the notes to repurchase and/or redeem the 2027 Notes. If the underwriters or their affiliates hold 2027 Notes, they may tender such 2027 Notes in the Tender Offer and receive a portion of the proceeds from the offering of the notes in payment therefore or, if the underwriters or their affiliates hold 2027 Notes and do not tender them in the Tender Offer, they may receive a portion of the proceeds from the offering of the notes if and when we redeem such 2027 Notes. See “Use of Proceeds.”

FORWARD-LOOKING STATEMENTS

Certain written and oral statements made by us contained in this prospectus (including information incorporated by reference herein) may constitute “forward-looking statements” as defined under the Private Securities Litigation Reform Act of 1995. This includes statements made herein, in our other filings with the SEC, in press releases, and in certain other oral and written presentations. Statements of our intentions, beliefs, expectations or predictions for the future, denoted by the words “anticipate,” “believe,” “estimate,” “expect,” “project,” “plan,” “imply,” “intend,” “should,” “foresee” and similar expressions, are forward-looking statements that reflect our current views about future events and are subject to risks, uncertainties and assumptions. Such risks, uncertainties and assumptions include the following:

- The COVID-19 pandemic and its impact on business and economic conditions have negatively affected, and could continue to negatively affect our business, results of operations, financial condition and the trading of our securities;
- Industry cyclicality can affect our earnings, especially due to fluctuations in commodity prices of feed ingredients, chicken and pork;
- Outbreaks of livestock diseases in general and poultry and pig diseases in particular, including avian influenza and African swine fever, can significantly and adversely affect our ability to conduct our operations and the demand for our products;
- If our products become contaminated, we may be subject to product liability claims and product recalls. Such product liability claims or product recalls can adversely affect our business reputation, expose us to increased scrutiny by federal and state regulators and may not be fully covered by insurance;
- Our foreign operations and commerce in international markets pose special risks to our business and operations;
- Competition in the chicken and pork industries with other vertically integrated chicken or pork companies may make us unable to compete successfully in these industries, which could adversely affect our business;
- Changes in consumer preference and failure to maintain favorable consumer perception of our branded products could negatively impact our U.S. Prepared Foods and Pilgrim’s Food Masters businesses;
- Media campaigns related to food production; regulatory and customer focus on environmental, social and governance responsibility; and recent increased focus and attention by the U.S. government on market dynamics in the meat processing industry could expose us to additional costs or risks;
- We are increasingly dependent on information technology, and our business and reputation could suffer if we are unable to protect our information technology systems against, or effectively respond to, cyber-attacks, other cyber incidents or security breaches or if our information technology systems are otherwise disrupted;
- Our operations are subject to general risks of litigation;
- We may not be able to successfully integrate the operations of companies we acquire or benefit from growth opportunities;
- The consolidation of customers and/or the loss of one or more of our largest customers could adversely affect our business;
- We depend on contract growers and independent producers to supply us with livestock;
- Changes in consumer preference could negatively impact our business;
- Climate change may have a long-term adverse impact on our business and results of operations;

Table of Contents

- Our operations may be adversely impacted by the United Kingdom’s withdrawal from the E.U., which is commonly referred to as Brexit;

- Labor shortages and increased turnover or increases in employee and employee-related costs could have adverse effects on our profitability;

Actual results could differ materially from those projected in these forward-looking statements as a result of these factors, among others, many of which are beyond our control.

Our forward-looking statements speak only as of the date of this prospectus or as of the date they are made. In making these statements, we are not undertaking, and specifically decline to undertake, any obligation to address or update each or any factor in future filings or communications regarding our business or results, and we are not undertaking to address how any of these factors may have caused changes to information contained in previous filings or communications. Although we have attempted to list comprehensively these important cautionary risk factors, we must caution investors and others that other factors may in the future prove to be important and affect our business or results of operations. The forward looking statements contained in documents incorporated by reference herein are more specifically indicated in those documents. More detailed information regarding these factors is included in the section titled “Risk Factors” on page 4 of this prospectus and the sections titled “Business,” “Risk Factors” and “Management’s Discussion and Analysis of Financial Condition and Results of Operations” in our Annual Report on Form 10-K, which is incorporated by reference in this prospectus and in our reports and other documents on file with the SEC. Many of these factors are beyond our ability to control or predict. Given these uncertainties, readers are cautioned not to place undue reliance on our forward-looking statements.

DESCRIPTION OF DEBT SECURITIES AND RELATED GUARANTEES

This prospectus describes certain general terms and provisions of our debt securities. When we offer to sell a particular series of debt securities, we will describe the specific terms of the series in a supplement to this prospectus. We will also indicate in the applicable prospectus supplement whether the general terms and provisions described in this prospectus apply to a particular series of debt securities.

The debt securities will be issued under an indenture between us and Regions Bank, as trustee, or another trustee chosen by us, qualified to act as such under the Trust Indenture Act and appointed in a supplemental indenture with respect to a particular series. The indenture is governed by the Trust Indenture Act. We have summarized select portions of the indenture below. This summary is not complete. The indenture has been filed as an exhibit to the registration statement and we urge you to read the indenture. Capitalized terms used in the summary have the meaning specified in the indenture.

For purposes of this description, references to “the Company,” “we,” “our” and “us” refer only to Pilgrim’s Pride Corporation and do not include any of the Company’s current or future subsidiaries.

General

The terms of each series of debt securities will be established by or pursuant to a resolution of our board of directors of an officers’ certificate and set forth or determined in the manner provided in an officers’ certificate or by a supplemental indenture. The particular terms of each series of debt securities will be described in a prospectus supplement relating to that series.

Unless otherwise specified in a supplement to this prospectus, the debt securities will be the direct, unsecured obligations of the Company and will rank equally with all of its other unsecured and unsubordinated indebtedness. The Company’s payment obligations under any series of debt securities may be guaranteed by one or more co-registrants.

We may issue an unlimited amount of debt securities under the indenture that may be in one or more series with the same or various maturities, at par, at a premium or at a discount. We will set forth in a prospectus supplement, relating to any series of debt securities being offered, the aggregate principal amount and the following terms of the debt securities:

- the title of the debt securities of the series, whether the debt securities rank as senior debt securities, senior subordinated debt securities or subordinated debt securities, or any combination thereof;
- the price or prices (expressed as a percentage of the principal amount thereof) at which the debt securities of the series will be issued;
- the aggregate principal amount of the debt securities of such series and any limit upon the aggregate principal amount of the debt securities;
- the date or dates on which the principal on the debt securities will be payable and the amount of principal that will be payable;
- the rate or rates (which may be fixed or variable) at which the debt securities of the series will bear interest, if any, as well as the dates from which interest will accrue, the dates on which the interest will be payable and the record date for the interest payable on any payment date;
- the form and terms of any guarantee of the debt securities, including the terms of subordination, if any, of the series;
- any depositories, interest rate calculation agents or other agents with respect to debt securities of such series if other than those appointed herein;

Table of Contents

- the right, if any, of holders of the debt securities to convert them into common stock or other debt securities of the Company, including any provisions to prevent dilution of such conversion rights;
- the place or places where the principal, premium, if any, and interest, if any, on the debt securities of the series will be payable and where the debt securities which are in registered form can be presented for registration of transfer or exchange and the identification of any depositary or depositaries for any global debt securities;
- any provisions regarding our right to redeem or purchase debt securities or the right of holders to require us to redeem or purchase debt securities;
- any provision requiring or permitting us to make payments to a sinking fund to be used to redeem debt securities or a purchase fund to be used to purchase debt securities;
- the denominations in which the debt securities will be issued, if other than denominations of \$2,000 and integral multiples of \$1,000 in excess thereof;
- the percentage of the principal amount at which the debt securities of the series will be issued and, if other than the full principal amount thereof, the percentage of the principal amount of the debt securities of the series which is payable if maturity of such debt securities is accelerated because of a default;

- if payments of principal of, premium or interest on the debt securities of the series will be made in one or more currencies other than that or those in which the debt securities of the series are denominated, the manner in which the exchange rate with respect to such payments will be determined;
- the manner in which the amounts of payment of principal of, or premium or interest on the debt securities of the series will be determined, if these amounts may be determined by reference to an index based on a currency or currency other than that in which the debt securities of the series are denominated or designated to be payable;

- the trustee, registrar or paying agent for the debt securities, if different than Regions Bank;
- if applicable, that the debt securities, in whole or in specific part, shall be defeasible and, if other than by a board resolution, the manner in which any election by the Company to defease such debt securities shall be evidenced; and
- any other material terms of the debt securities, which may modify, supplement or delete any provision of the indenture as it applies to that series.

In addition, the indenture does not limit our ability to issue subordinated debt securities. Any subordination provisions of a particular series of debt securities will be set forth in the officers' certificate or supplemental indenture related to that series of debt securities and will be described in the relevant prospectus supplement.

We will provide you with information on the material United States federal income tax considerations and other special considerations applicable to any of these debt securities in the applicable prospectus supplement.

Transfer and Exchange

A holder will be able to transfer or exchange debt securities only in accordance with the indenture. The registrar may require a holder, among other things, to furnish appropriate endorsements and transfer documents and to pay taxes and fees required by law or permitted by the indenture.

Change of Control

Unless we state otherwise in the applicable prospectus supplement, the debt securities will not contain any provisions that may afford holders of the debt securities protection in the event we undergo a change in control or in the event of a highly leveraged transaction (whether or not such transaction results in a change in control) that could adversely affect holders of debt securities.

Restrictive Covenants Required by the Indenture

The indenture requires us to comply with certain restrictive covenants applicable to us and our Significant Subsidiaries that guarantee the debt securities. Some of the provisions are described below. All series of debt securities issued under the indenture will be entitled to the benefits of the covenants described below unless otherwise established by or pursuant to a resolution of our board of directors or an officers' certificate and set forth or determined in the manner provided in an officers' certificate or by a supplemental indenture

Measuring Compliance

With respect to:

- (i) whether any Lien is permitted to be Incurred in compliance with the indenture;
- (ii) any calculation of the ratios, baskets or financial metrics, including the Secured Leverage Ratio, Consolidated Net Income, Consolidated EBITDA, Total Assets and/or pro forma cost savings, and whether a Default or Event of Default exists in connection with the foregoing; and
- (iii) whether any condition precedent to the Incurrence of Liens is satisfied,

at the option of the Company, any of its Restricted Subsidiaries, any parent entity, any successor entity of any of the foregoing or a third party (the "Testing Party"), a Testing Party may select a date prior to the Incurrence of any such Lien if such Testing Party has a reasonable expectation that the Company and/or any of its Restricted Subsidiaries will Incur Liens at a future date in connection with a corporate event, including payment of a dividend, repurchase of equity, an acquisition, merger, amalgamation, or similar transaction or repayment, repurchase or refinancing of Debt, Disqualified Stock or Preferred Stock (any such date, the "Transaction Date") may be used as the applicable date of determination, as the case may be, in each case with such pro forma adjustments as are appropriate and consistent with the pro forma adjustment provisions set forth in the definition of "Secured Leverage Ratio."

For the avoidance of doubt, if the Testing Party elects to use the Transaction Date as the applicable date of determination in accordance with the foregoing: (a) any fluctuation or change in the ratios, baskets or financial metrics, including the Secured Leverage Ratio, Consolidated Net Income, Consolidated EBITDA, Total Assets and/or pro forma cost savings of the Company, from the Transaction Date to the date of Incurrence of such Lien will not be taken into account for purposes of determining (i) whether any such Lien is permitted to be Incurred or (ii) in connection with compliance by the Company or any of its Restricted Subsidiaries with any other provision of the indenture or the debt securities; (b) if financial statements for one or more subsequent fiscal quarters shall have become available, the Testing Party may elect, in its sole discretion, to redetermine all such baskets, ratios and financial metrics on the basis of such financial statements, in which case such date of redetermination shall thereafter be deemed to be the applicable Transaction Date for purposes of such baskets, ratios and financial metrics; (c) until such corporate event is consummated or such definitive agreements relating

[Table of Contents](#)

to such corporate event are terminated, such corporate event and all transactions proposed to be undertaken in connection therewith (including the Incurrence of Liens) will be given pro forma effect when determining compliance of other transactions that are consummated after the Transaction Date and on or prior to the date of consummation of such corporate event; and (d) Consolidated Interest Expense for purposes of the Secured Leverage Ratio will be calculated using an assumed interest rate based on the indicative interest margin (without giving effect to any step-ups) contained in any financing commitment documentation or, if no such indicative interest margin exists, as reasonably determined by the Company in good faith. In addition, compliance with any requirement relating to the absence of a Default or Event of Default may be determined as of the Transaction Date (including any new Transaction Date) and not as of any later date as would otherwise be required under the indenture.

Notwithstanding anything to the contrary herein, with respect to any amounts Incurred or transactions entered into (or consummated) in reliance on a provision of the indenture that does not require compliance with a financial ratio or financial test (including any Secured Leverage Ratio, Consolidated Net Income, Consolidated EBITDA, or Total Assets test) (any such amounts, the “Fixed Amounts”) substantially concurrently with any amounts Incurred or transactions entered into (or consummated) in reliance on a provision of the indenture that requires compliance with a financial ratio or financial test (including any Secured Leverage Ratio, Consolidated Net Income, Consolidated EBITDA, or Total Assets test) (any such amounts, the “Incurrence-Based Amounts”), it is understood and agreed that the Fixed Amounts shall be disregarded in the calculation of the financial ratio or test applicable to the Incurrence-Based Amounts (and thereafter, Incurrence of the portion of such amount under the Fixed Amount shall be included in such calculation).

Limitation on Liens

The indenture shall not permit the Company or any Significant Subsidiary that guarantees any series of debt securities to, Incur or suffer to exist any Lien (other than Permitted Liens) securing Debt upon any of its Principal Property, whether owned at the Issue Date or thereafter acquired, unless it has made or shall make effective provision whereby the debt securities or the applicable Guarantee shall be secured by a Lien on such Principal Property equally and ratably with (or prior to) all other Debt of the Company or any Significant Subsidiary that guarantees the debt securities secured by a Lien for so long as such other Debt is secured by such Lien; *provided, however*, that if the Debt is Subordinated Debt, the Lien on such Principal Property securing the Debt shall be subordinated and junior to the Lien securing the debt securities or the Guarantees, as the case may be, with the same relative priority as such Debt has with respect to the debt securities or the Guarantees.

For purposes of determining compliance with this covenant, (A) a Lien securing an item of Debt need not be permitted solely by reference to one category of Permitted Liens (or any portion thereof) described in the definition of “Permitted Liens” or pursuant to the first paragraph of this covenant but may be permitted in part under any combination thereof and (B) in the event that a Lien securing an item of Debt (or any portion thereof) meets the criteria of one or more of the categories of Permitted Liens (or any portion thereof) described in the definition of “Permitted Liens” or pursuant to the first paragraph of this covenant, the Company shall, in its sole discretion, classify or reclassify, or later divide, classify or reclassify (as if Incurred at such later time), such Lien securing such item of Debt (or any portion thereof) in any manner that complies with this covenant and will be entitled to include the amount and type of such Lien or such item of Debt secured by such Lien (or portion thereof) in one of the categories of Permitted Liens (or any portion thereof) described in the definition of “Permitted Liens” or pursuant to the first paragraph of this covenant and, in such event, such Lien securing such item of Debt (or any portion thereof) will be treated as being Incurred or existing pursuant to only such clause or clauses (or any portion thereof) or pursuant to the first paragraph hereof without giving pro forma effect to such item (or portion thereof) when calculating the amount of Liens or Debt that may be Incurred pursuant to any other clause or paragraph.

With respect to any Lien securing Debt that was permitted to secure such Debt at the time of the Incurrence of such Debt, such Lien shall also be permitted to secure any Increased Amount of such Debt. The “Increased

[Table of Contents](#)

Amount” of any Debt shall mean any increase in the amount of such Debt in connection with any accrual of interest, the accretion of accreted value, the amortization of original issue discount, the payment of interest in the form of additional Debt with the same terms or in the form of common stock of the Company, the payment of dividends on Preferred Stock in the form of additional shares of Preferred Stock of the same class, accretion of original issue discount or liquidation preference and increases in the amount of Debt outstanding solely as a result of fluctuations in the exchange rate of currencies or increases in the value of property securing Debt described in clause (8) of the definition of “Debt” below.

Limitation on Sales and Leasebacks

The indenture will not permit the Company, and will not permit any Significant Subsidiary that guarantees any series of debt securities to, enter into any Sale and Leaseback Transaction with respect to any Principal Property, unless either:

(i) the Company or such Significant Subsidiary would be entitled pursuant to the provisions described above under “—Limitation on Liens” to Incur a Lien securing Debt on such Principal Property at least equal in amount to the Attributable Debt with respect to such Sale and Leaseback Transaction without equally and ratably securing any series of debt securities; or

(a) has Incurred any Debt since the beginning of such period that remains outstanding on such date of determination or if the transaction giving rise to the need to calculate the Secured Leverage Ratio includes an Incurrence of Debt, Consolidated EBITDA and Consolidated Interest Expense for such period will be calculated after giving effect on a *pro forma* basis to such Debt as if such Debt had been Incurred on the first day of such period (except that in making such computation, the amount of Debt under any revolving Credit Facility outstanding on the date of such calculation will be deemed to be:

(i) the average daily balance of such Debt during such four fiscal quarters or such shorter period for which such facility was outstanding; or

(ii) if such facility was created after the end of such four fiscal quarters, the average daily balance of such Debt during the period from the date of creation of such facility to the date of such calculation)

and the repayment, repurchase, redemption, retirement, defeasance or other discharge of any other Debt with the proceeds of such new Debt as if such repayment, repurchase, redemption, retirement, defeasance or other discharge had occurred on the first day of such period; or

(b) has repaid, repurchased, redeemed, retired, defeased or otherwise discharged any Debt since the beginning of the period that is no longer outstanding on such date of determination or if the transaction giving rise to the need to calculate the Secured Leverage Ratio includes a repayment, repurchase, redemption, retirement, defeasance or other discharge of Debt (in each case, other than Debt Incurred under any revolving Credit Facilities unless such Debt has been permanently repaid and the related commitment terminated and not replaced), Consolidated EBITDA and Consolidated Interest Expense for such period will be calculated after giving effect on a *pro forma* basis to such discharge of such Debt, including with the proceeds of such new Debt, as if such discharge had occurred on the first day of such period;

(2) if since the beginning of such period, such Person or any Restricted Subsidiary will have made any asset sale or disposed of or discontinued (as defined under GAAP) any company, division, operating unit, segment, business, group of related assets or line of business or if the transaction giving rise to the need to calculate the Secured Leverage Ratio includes such a transaction:

(a) the Consolidated EBITDA for such period will be reduced by an amount equal to the Consolidated EBITDA (if positive) directly attributable to the assets that are the subject of such disposition or discontinuation for such period or increased by an amount equal to the Consolidated EBITDA (if negative) directly attributable thereto for such period; and

(b) Consolidated Interest Expense for such period will be reduced by an amount equal to the Consolidated Interest Expense directly attributable to any Debt of such Person or any Restricted Subsidiary repaid, repurchased, redeemed, retired, defeased or otherwise discharged (to the extent the related commitment is permanently reduced) with respect to such Person and its continuing Restricted Subsidiaries in connection with such transaction for such period (or, if the Capital Stock of any Restricted Subsidiary is sold, the Consolidated Interest Expense for such period directly attributable to the Debt of such Restricted Subsidiary to the extent such Person and its continuing Restricted Subsidiaries are no longer liable for such Debt after such sale);

(4) if since the beginning of such period any Person (that subsequently became a Restricted Subsidiary or was merged with or into the Company or any Restricted Subsidiary since the beginning of such period) will have Incurred any Debt or discharged any Debt, made any disposition or any investment or acquisition of assets that would have required an adjustment pursuant to clause (1), (2) or (3) above if made by such Person or a Restricted Subsidiary during such period, Consolidated EBITDA and Consolidated Interest Expense for such period will be calculated after giving *pro forma* effect thereto as if such transaction occurred on the first day of such period.

For purposes of this definition, whenever *pro forma* effect is to be given to any calculation under this definition, the *pro forma* calculations will be determined in good faith by a responsible financial or accounting officer of

[Table of Contents](#)

such Person (and may include, without limitation, for the avoidance of doubt, cost savings and operating expense reductions from such investment, acquisition, merger or consolidation that is being given *pro forma* effect that have been or are expected to be realized); *provided* that such calculations are set forth in an Officer's Certificate stating that such calculations are based on the reasonable good faith beliefs of the officer executing such Officer's Certificate at the time of such execution. If any Debt bears a floating rate of interest and is being given *pro forma* effect, the interest expense on such Debt will be calculated as if the rate in effect on the date of determination had been the applicable rate for the entire period (taking into account any Interest Rate Protection Agreement applicable to such Debt if such Interest Rate Protection Agreement has a remaining term in excess of 12 months). If any Debt that is being given *pro forma* effect bears an interest rate at the option of such Person, the interest rate shall be calculated by applying such optional rate chosen by such Person.

The trustee shall not be obligated to monitor or confirm, on a continuing basis or otherwise, and shall have no responsibility or liability for the Company's and Guarantors' compliance or non-compliance with any covenants in the indenture or debt securities, including with respect to any reports or other documents posted on any website or filed with the SEC, or participate in any conference calls.

The indenture will not permit the Company, in a single transaction or a series of related transactions, to consolidate with or merge with or into, or sell, assign, transfer, lease, convey or otherwise dispose of all or substantially all of its assets determined on a consolidated basis to, another Person unless:

(1) either

(a) the Company is the Surviving Person; or

(b) the Person, if other than the Company, formed by such consolidation or into which the Company is merged or the Person that acquires the properties and assets of the Company substantially as an entirety, the Person to which assets of the Company have been transferred, will be a corporation or limited liability company organized (or equivalent) and existing under the laws of the United States or any State of the United States or the District of Columbia or any other country member of the Organization for Economic Co-operation and Development (OECD) if such successor Person undertakes to pay additional amounts pursuant to customary provisions as determined in good faith by the Company (collectively, the "Permitted Jurisdiction"); provided, however, that if the Person formed by such consolidation or into which the Company is merged or the person that acquires the properties and assets of the Company substantially as an entirety is a limited liability company, the Company or such Surviving Person shall cause a Restricted Subsidiary of the Company that is a corporation to become a co-obligor on any such series of debt securities;

(2) such Surviving Person, if other than the Company, assumes all of the obligations of the Company under any series of debt securities and the indenture pursuant to a supplemental indenture;

(3) no Event of Default shall have occurred and be continuing; and

(4) the Company delivers to the trustee an officer's certificate and an opinion of counsel, each stating that such consolidation, merger or transfer complies with the indenture and that all conditions precedent in the indenture relating to such transaction have been satisfied.

For purposes of the foregoing, the transfer (by lease, assignment, sale or otherwise, in a single transaction or series of related transactions) of all or substantially all of the properties and assets of one or more Restricted Subsidiaries of the Company, the Capital Stock of which constitutes all or substantially all of the properties or assets of the Company, will be deemed to be the transfer of all or substantially all of the properties and assets of the Company. Notwithstanding the foregoing clause (3),

(A) any Restricted Subsidiary of the Company may consolidate with, merge into or transfer all or part of its properties and assets to the Company, and

(B) the Company may merge with one of its Affiliates solely for the purpose of reorganizing the Company in another Permitted Jurisdiction to realize tax or other benefits.

In the event of any transaction (other than a lease) described in and complying with the conditions listed in the second preceding paragraph in which the Company is not the Surviving Person and the Surviving Person is to assume all the obligations of the Company under any series of debt securities and the indenture pursuant to a supplemental indenture, that Surviving Person will succeed to, and be substituted for, and may exercise every right and power of the Company, and the Company will be discharged from its obligations under the indenture and the applicable series of debt securities.

There are no covenants or other provisions that would offer protection to security holders in the event of a highly leveraged transaction, rating downgrade or similar occurrence.

- (1) the Substituted Company is a corporation or limited liability company organized (or the equivalents) and existing under the laws of the United States or any State of the United States or the District of Columbia or any other country member of the Organization for Economic Co-operation and Development (OECD) if such successor Person undertakes to pay additional amounts pursuant to customary provisions as determined in good faith by the Company;
- (2) such Substituted Company, if not a Guarantor, delivers a Guarantee or becomes a co-issuer of the debt securities pursuant to a supplemental indenture;
- (3) immediately after giving effect to the Substitution, on a *pro forma* basis, no Event of Default shall have occurred and be continuing; and
- (4) the Company delivers to the trustee an officer’s certificate stating that such Substitution complies with the indenture and that all conditions precedent in the indenture relating to such Substitution have been satisfied.

After the Substitution, all references to the Company shall be deemed to refer to the Substituted Company and if the Substitution is effectuated pursuant to clause (1) above, then the Company prior to the Substitution shall become a Restricted Subsidiary.

Release of a Guarantor

The indenture will provide that a Guarantee by a Guarantor of the debt securities shall be automatically and unconditionally released and discharged upon:

- (1) (a) such Guarantor ceasing to constitute a Restricted Subsidiary of the Company in compliance with the indenture, whether upon a sale, exchange, transfer or disposition of Capital Stock in such Guarantor (including by way of merger or consolidation) or the designation of such Guarantor as an Unrestricted Subsidiary, or (b) the sale or disposition in compliance with the indenture of all or substantially all of the assets of such Guarantor;

- (4) a release in accordance with “ —Supplements, Amendments and Waivers.”

[Table of Contents](#)

Once released, the Company shall not be required to cause the reinstatement of any Guarantee of the debt securities even if one or more of the conditions required for the release is not satisfied in the future.

A Guarantee by a Guarantor of the debt securities may be modified or terminated with the consent of Holders of a majority in principal amount of the series of the debt securities then outstanding as described under “—Supplements, Amendments and Waivers.”

Each Guarantor may consolidate with or merge into or sell its assets to the Company or another Guarantor without limitation, or with other Persons upon the terms and conditions set forth in the indenture. See “—Mergers, Consolidation, Etc.”

The trustee shall execute an appropriate instrument prepared by the Company evidencing the release of a Guarantor from its obligations under its Guarantee and the indenture upon receipt of a request by the Company or such Guarantor accompanied by an Officer’s Certificate and an Opinion of Counsel certifying as to the compliance with the relevant section of the indenture.

Redemption

The indenture will contain optional redemption provisions that allow the Company to elect to redeem the debt securities of any series, subject to certain conditions. The indenture will provide that, except as otherwise provided as to any particular series of debt securities and subject to certain exceptions in the indenture, at least 10 days but not more than 60 days before a redemption date, the Company shall mail (or in the case of debt securities held in book-entry form, by electronic transmission or otherwise in accordance with applicable DTC procedures) a notice of redemption to each holder whose debt securities are to be redeemed. The notice shall identify the debt securities of the series to be redeemed and shall contain certain information relating to the redemption, including (among others) the redemption date and redemption price for the debt securities being redeemed.

Events of Default

Unless otherwise stated in the prospectus supplement, an event of default with respect to any series of debt securities will be defined in the indenture or applicable supplemental indenture as being:

- (1) our failure to pay interest on any debt security of such series when it becomes due and payable and such default continues for 30 days;
- (2) our failure to pay principal of, or any premium, on any debt security of such series when that principal or premium becomes due and payable at maturity, upon redemption or otherwise;
- (3) our failure to comply with the merger covenant in the indenture;
- (4) our failure or that of any Restricted Subsidiary to observe or perform (a) the reporting obligations described under the caption “ — Reports,” which failure is continuing for a period of 90 days (and may be cured by filing, furnishing or making available, as applicable, the delinquent report within such 90-day period) or (b) any other covenant or agreement contained in the indenture or with any of its other agreements in the debt securities of that series, which failure continues for a period of 60 days, in each case, after the Company receives a written notice specifying the Default from the trustee or holders of at least 30% in outstanding aggregate principal amount of the then outstanding debt securities of that series;
- (5) our failure or that of any of our Significant Subsidiaries to pay within any applicable grace period after final maturity or acceleration by the holders thereof because of a default and the total amount of such Debt unpaid or accelerated exceeds \$75.0 million;
- (6) our failure or that of any of our Significant Subsidiaries to pay or discharge final and non-appealable judgments for the payment of money entered by a court or courts of competent jurisdiction aggregating

Table of Contents

in excess of \$75.0 million, which judgments are not discharged, waived or stayed (to the extent not covered by insurance) for a period of 60 consecutive days following entry of such final and non-appealable judgments or decrees during which a stay of enforcement of each such final and non-appealable judgment or decree, by reason of pending appeal or otherwise, is not in effect;

- (7) any Guarantee of a Significant Subsidiary of the Company ceases to be in full force and effect, or is declared to be null and void and unenforceable by a judicial determination, or is found to be invalid by a judicial determination, or any Guarantor that is a Significant Subsidiary of the Company denies (in writing) its obligations under its Guarantee (in each case, other than by reason of release of a Guarantor in accordance with the terms of the indenture); and
- (8) certain events of bankruptcy, insolvency or reorganization affecting us or any of our Significant Subsidiaries; and
- (9) any other event of default provided with respect to debt securities of that series which is described in the applicable prospectus supplement.

If an event of default (other than an event of default resulting from certain events of bankruptcy, insolvency or reorganization) with respect to debt securities of any series at the time outstanding occurs and is continuing, then the trustee may and the trustee shall upon the written direction of Holders of at least 30% in outstanding aggregate principal amount of the then outstanding debt securities of such series, or the holders of at least 30% in outstanding aggregate principal amount of then outstanding debt securities of such series may declare the principal of such series of debt securities, together with all accrued and unpaid interest, premium, if any, to be due and payable by notice in writing to the Company and the trustee specifying the respective Event of Default and that such notice is a notice of acceleration, and the same shall become immediately due and payable.

The Company shall deliver to the trustee, within ten business days after becoming aware of the occurrence thereof, written notice in the form of an officer's certificate of any event that with the giving of notice and the lapse of time would become an Event of Default, its status and what action the Company is taking or proposes to take with respect thereto.

In the case of an event of default resulting from certain events of bankruptcy, insolvency or reorganization, the principal (or such specified amount) of and accrued and unpaid interest, if any, on all outstanding debt securities will become and be immediately due and payable without any declaration or other act on the part of the trustee or any holder of outstanding debt securities.

The indenture provides that the holders of a majority in aggregate principal amount of the then outstanding debt securities of any series issued thereunder by notice to the trustee may on behalf of the holders of all of the debt securities of such series waive any existing Default or Event of Default and its consequences (including any resulting non-payment Default or Event of Default) under the indenture (except a continuing Default or Event of Default in the payment of principal, premium, if any, or interest on the debt securities held by a non-consenting holder that did not result from a non-payment Default or Event of Default). Moreover, at any time after a declaration of acceleration with respect to debt securities of any series has been made, but before a judgment or decree for payment of the money due has been obtained by the trustee, the holders of a majority in principal amount of the outstanding debt securities of that series may rescind the acceleration if the rescission would not conflict with any judgement or decree and all sums paid or advanced by the Trustee under the indenture and the reasonable compensation, expenses, disbursements and advances of the Trustee, its agents and its counsel have been paid.

In the event of a declaration of acceleration with respect to debt securities of any series because an Event of Default described in clause (5) above has occurred and is continuing, the declaration of acceleration of such debt securities shall be automatically annulled if the event of default or payment default triggering such Event of Default pursuant to clause (5) above shall be remedied or cured, or waived by the holders of the Debt, or the Debt

[Table of Contents](#)

that gave rise to such Event of Default shall have been discharged in full and if (i) the annulment of the acceleration of such Securities would not conflict with any judgment or decree of a court of competent jurisdiction and (ii) all existing Events of Default, except nonpayment of principal, premium or interest on the debt securities that became due solely because of the acceleration of the debt securities, have been cured or waived.

The indenture will provide that (i) if a Default for a failure to report or failure to deliver a required certificate in connection with another default (the “Initial Default”) occurs, then at the time such Initial Default is cured, such Default for a failure to report or failure to deliver a required certificate in connection with another default that resulted solely because of that Initial Default will also be cured without any further action and (ii) any Default or Event of Default for the failure to comply with the time periods prescribed in the reporting covenant in the indenture or otherwise to deliver any notice or certificate pursuant to any other provision of the indenture shall be deemed to be cured upon the delivery of any such report required by such covenant or such notice or certificate, as applicable, even though such delivery is not within the prescribed period specified in the indenture.

We shall be required to deliver to the trustee, within 120 days after the end of our fiscal year, a certificate indicating such signing officer’s knowledge as to whether we have complied with all conditions and covenants under the indenture.

For purposes of the foregoing discussion of the events of default covenants, the following definitions are applicable:

“**Default**” means any event which is, or after notice or passage of time or both would be, an Event of Default.

Supplements, Amendments and Waivers

Without the consent of any holder, the Company and the trustee may amend the indenture to:

- cure any ambiguity, omission, defect or inconsistency;
- provide for the assumption by a successor entity of the obligations of an Company under the indenture;
- provide for uncertificated debt securities in addition to or in place of certificated debt securities (provided that the uncertificated debt securities are issued in registered form for purposes of Section 163(f) of the Code), or in a manner such that the uncertificated debt securities are described in Section 163(f)(2)(B) of the Code);
- add additional Guarantees or additional obligors with respect to any series of debt securities;
- comply with the “—Mergers, Consolidation, Etc.” provision in the indenture;
- secure any series debt securities;
- add to the covenants of the Company for the benefit of the holders or surrender any right or power conferred upon the Company;
- make any other change that does not adversely affect the rights of any holder in any material respect;
- comply with any requirement of the Commission in connection with the qualification of the indenture under the Trust Indenture Act of 1939, as amended;
- add to, change or eliminate any of the provisions of the indenture in respect of one or more series of debt securities; provided, however, that any such addition, change or elimination (A) shall neither (i) apply to any debt security of any series created prior to the execution of such supplemental indenture and entitled to the benefit of such provision nor (ii) modify the rights of the Holder of any

Table of Contents

such debt security with respect to such provision or (B) shall become effective only when there is no outstanding debt security of any series created prior to the execution of such supplemental indenture and entitled to the benefit of such provision;

- evidence and provide for the acceptance of appointment by a successor trustee or a separate trustee with respect to the debt securities of one or more series and to add to or change any of the provisions of the indenture as shall be necessary to provide for or facilitate the administration of the trusts hereunder by more than one trustee;
- provide for the issuance of additional debt securities in accordance with the limitations set forth in the indenture as of the date of the indenture; or
- conform the text of the indenture, the debt securities or any Guarantee to any provision of this “Description of Debt Securities and Related Guarantees.”

Subject to exceptions described below, the Company and the trustee may amend the indenture and any series of debt securities with the consent of the holders of at least a majority in principal amount of each series of debt securities affected, including additional debt securities, if any, then outstanding voting as a single class (including consents obtained in connection with a purchase of or tender offer or exchange offer for any series of debt securities) and any existing Default or Event of Default or compliance with any provision of the indenture or any series of debt securities may be waived (except for a continuing Default or Event of Default in the payment of principal, premium, if any, or interest on the debt securities held by a non-consenting holder). Without the consent of each holder of an outstanding series of debt securities affected, however, no amendment may:

(1) reduce the amount of any debt security whose holders must consent to an amendment, supplement or waiver;

(2) reduce the rate of or change the time for payment of interest, including defaulted interest, on any series of debt securities;

(3) reduce the principal of or change the fixed maturity of any series of debt securities, or change the date on which any series of debt securities may be subject to redemption or repurchase (other than with respect to the minimum notice period to holders of any series of debt securities), or reduce the redemption or repurchase price for those debt securities (except, in the case of repurchases, as would otherwise be permitted under clause (7) hereof);

(4) make any series of debt securities payable in money other than that stated in the debt security and the indenture;

(5) impair the contractual right of any holder to receive payment of principal, premium, interest on that holder’s debt security on or after the due dates for those payments, or to bring suit to enforce that payment on or with respect to such holder’s debt security or any Guarantee;

(6) modify the provisions contained in the indenture permitting holders of a majority in principal amount of the debt securities to waive a Default;

(7) after the Company’s obligation to purchase the debt securities arises under the indenture, amend, modify or change the obligation of the Company to make or consummate a Change of Control Offer or waive any default in the performance of that Change of Control Offer or modify any of the provisions or definitions with respect to any such offer; or

(8) make any change to or modify the ranking of any such debt securities or related Guarantee that would adversely affect the holders of the debt securities.

[Table of Contents](#)

The consent of the holders is not necessary under the indenture to approve the particular form of any proposed amendment. It is sufficient if such consent approves the substance of the proposed amendment.

Legal Defeasance and Covenant Defeasance

If and to the extent indicated in the applicable prospectus supplement, the Company may elect, at its option at any time, to have the following provisions relating to defeasance and discharge of indebtedness of the indenture applied to the debt securities of any series, or to any specified part of a series.

The Company may, at its option and at any time, elect to terminate all its and the Guarantors' obligations with respect to any series of debt securities then outstanding, the Guarantees and the indenture ("legal defeasance"), except for:

(1) the rights of holders of outstanding debt securities to receive payments in respect of the principal of, premium, if any, or interest on those debt securities when these payments are due from the defeasance trust referred to below;

(2) the Company's obligations with respect to the issuance of temporary debt securities, the registration of debt securities, the status of mutilated, destroyed, lost or stolen debt securities and the maintenance of an office or agency for payment and money for security payments held in trust;

(3) the rights, powers, trusts, duties, indemnities and immunities of the trustee and the Company's obligations in connection with those rights, powers, trusts, duties, indemnities and immunities; and

(4) the Company's obligations under the defeasance provisions contained in the indenture.

In addition, the Company may, at its option and at any time, elect to release its and the Guarantors' obligations with respect to specified covenants ("covenant defeasance") with respect to any series of debt securities, and thereafter any failure by the Company or its Restricted Subsidiaries and its Restricted Subsidiaries to comply with those covenants will not constitute a Default or an Event of Default with respect to such debt securities. Moreover, in the event the Company elects to exercise covenant defeasance, nearly all of the events, other than non-payment, described under "—Events of Default" will no longer constitute Events of Default with respect to such series of debt securities.

If the Company exercises legal defeasance, payment of any such debt securities may not be accelerated as a result of an Event of Default. If the Company exercises its covenant defeasance option, payment of any such series of debt securities may not be accelerated because of an Event of Default specified in clause (3) (with respect to any entity other than the Company), (4), (5), (6), (7) (with respect only to Significant Subsidiaries) or (8) under "—Events of Default" above or because of the failure of the Company to comply with clause (3) of the first paragraph under "—Mergers, Consolidation, Etc." above.

The Company may exercise its legal defeasance option with respect to the any series of debt securities notwithstanding its prior exercise of covenant defeasance.

In order to exercise either legal defeasance or covenant defeasance:

(1) the Company must irrevocably deposit with the trustee, in trust (the "defeasance trust"), for the benefit of the holders, cash in U.S. dollars, non-callable U.S. Government Securities or a combination of cash and noncallable U.S. Government Securities, sufficient, in the opinion of a firm of independent public accountants of recognized international standing, to pay the principal, premium, if any, and interest on the outstanding debt securities on the stated maturity or on an available redemption date, as the case may be, and the Company must specify whether the debt securities are being defeased to maturity or to that redemption date;

Table of Contents

(2) in the case of legal defeasance only, the Company must deliver to the trustee an opinion of counsel confirming that:

(a) the Company has received from, or there has been published by, the Internal Revenue Service a ruling, or

(b) since the Issue Date, there has been a change in the applicable federal income tax law, and

(c) based on the ruling obtained under clause (a) or the change in tax law referred to under clause (b), the beneficial owners of the outstanding debt securities will not recognize income, gain or loss for federal income tax purposes as a result of legal defeasance and will be subject to federal income tax on the same amounts, in the same manner and at the same times as would have been the case if legal defeasance had not occurred;

(3) in the case of covenant defeasance, the Company must deliver to the trustee an opinion of counsel confirming that the beneficial owners of the outstanding debt securities will not recognize income, gain or loss for federal income tax purposes as a result of covenant defeasance and will be subject to federal income tax on the same amounts, in the same manner and at the same times as would have been the case if covenant defeasance had not occurred;

(4) no Event of Default (other than that resulting from borrowing funds to be applied to make such deposit and any similar and simultaneous deposit relating to other Debt, and, in each case the granting of Liens in connection therewith) with respect to the debt securities shall have occurred and be continuing on the date of such deposit;

(5) legal defeasance will not result in a breach or violation of, or constitute a default under, any material agreement or instrument (other than the indenture) to which the Company or any of its Restricted Subsidiaries is a party or by which the Company or any of its Restricted Subsidiaries is bound;

(6) in the case of legal defeasance only, the Company must deliver to the Trustee an opinion of counsel, subject to customary exceptions and assumptions, to the effect that on the 91st day following the deposit, the defeasance trust funds will not be subject to the effect of any applicable bankruptcy, insolvency, reorganization or similar laws generally affecting creditors' rights;

(7) the Company must deliver to the trustee an officer's certificate stating that the deposit was not made by the Company with the intent of preferring the holders of debt securities over any other creditors of the Company or with the intent of defeating, hindering, delaying or defrauding any other creditors of the Company; and

(8) the Company must deliver to the trustee an officer's certificate and an opinion of counsel, each stating that all conditions precedent relating to the legal defeasance or the covenant defeasance have been complied with.

Notwithstanding the foregoing, the opinion of counsel required by clause (2) above with respect to a legal defeasance need not be delivered if all debt securities not theretofore delivered to the trustee for cancellation (a) have become due and payable, (b) will become due and payable on the maturity date within one year or (c) as to which a redemption notice has been given calling the debt securities for redemption within one year, under arrangements satisfactory to the trustee for the giving of notice of redemption by the trustee in the name, and at the expense, of the Company.

For purposes of the foregoing discussion of the legal defeasance and covenant defeasance provisions, the following definitions are applicable:

"U.S. Government Securities" means direct obligations (or certificates representing an ownership interest in such obligations) of the United States of America is pledged and which are not callable or redeemable at the issuer's option or money market funds that invest solely in the foregoing.

Guarantees

Our payment obligations under any series of debt securities may be guaranteed by one or more of the co-registrants. The terms of any such guarantee will be set forth in the applicable prospectus supplement.

Governing Law

The indenture will provide that it, the debt securities and the guarantees of debt securities, and any claim, controversy or dispute arising under or related to the indenture, the debt securities or the guarantees of debt securities, will be governed by, and construed in accordance with, the laws of the State of New York without giving effect to applicable principles of conflicts of law to the extent that the application of the law of another jurisdiction would be required thereby.

Concerning the Trustee

In the ordinary course of its business, Regions Bank, the trustee, has provided, and may in the future provide, investment banking, commercial lending, financial advisory and other services for us. The indenture contains, or will contain, limitations on the right of the trustee, should it become our creditor, to obtain payment of claims in specified cases or to realize on property received in respect of any such claim as security or otherwise. The indenture permits, or will permit, the trustee to engage in other transactions; however, if it acquires any conflicting interest, it must eliminate such conflict or resign.

The indenture provides, or will provide, that in case an event of default occurs and is not cured, the trustee will be required, in the exercise of its power, to use the degree of care of a prudent person in similar circumstances in the conduct of such person's own affairs. The trustee may refuse to perform any duty or exercise any right or power under the indenture, unless it receives indemnity satisfactory to it against any loss, liability or expense. Subject to certain provisions for security or indemnification and certain limitations contained in the indenture, the holders of a majority in aggregate principal amount of the debt securities then outstanding will have the right to direct the time, method and place of conducting any proceeding for any remedy available to the trustee or exercising any trust or power conferred on the trustee.

DESCRIPTION OF OTHER SECURITIES

We will set forth in the applicable prospectus supplement a description of any other securities that may be offered pursuant to this prospectus.

PLAN OF DISTRIBUTION

The securities being offered by this prospectus may be sold by us or by a selling securityholder:

- through agents;
- to or through underwriters;
- through broker-dealers (acting as agent or principal);
- directly by us or a selling securityholder to one or more purchasers, through a specific bidding or auction process or otherwise;
- through a combination of any such methods of sale; or
- through any other methods described in a prospectus supplement.

The distribution of securities may be effected from time to time in one or more transactions, including block transactions and transactions on Nasdaq or any other organized market where the securities may be traded. The securities may be sold at a fixed price or prices, which may be changed, or at market prices prevailing at the time of sale, at prices relating to the prevailing market prices or at negotiated prices. The consideration may be cash or another form negotiated by the parties. Agents, underwriters or broker-dealers may be paid compensation for offering and selling the securities.

That compensation may be in the form of discounts, concessions or commissions to be received from us or from the purchasers of the securities. Dealers and agents participating in the distribution of the securities may be deemed to be underwriters, and compensation, any discounts or commissions received by them on resale of the securities and any profits on their resale of the securities may be deemed to be underwriting discounts and commissions under the U.S. Securities Act of 1933, as amended (the "Securities Act"). If such dealers or agents were deemed to be underwriters, they may be subject to statutory liabilities under the Securities Act.

Agents may from time to time solicit offers to purchase the securities. If required, we will name in the applicable prospectus supplement any agent involved in the offer or sale of the securities and set forth any compensation payable to the agent. Unless otherwise indicated in the prospectus supplement, any agent will be acting on a best efforts basis for the period of its appointment. Any agent selling the securities covered by this prospectus may be deemed to be an underwriter, as that term is defined in the Securities Act, of the securities.

If underwriters are used in a sale, securities will be acquired by the underwriters for their own account and may be resold from time to time in one or more transactions, including negotiated transactions, at a fixed public offering price or at varying prices determined at the time of sale, or under delayed delivery contracts or other contractual commitments. Securities may be offered to the public either through underwriting syndicates represented by one or more managing underwriters or directly by one or more firms acting as underwriters. If an underwriter or underwriters are used in the sale of securities, an underwriting agreement will be executed with the underwriter or underwriters at the time an agreement for the sale is reached. The underwriters will be obligated to purchase all the securities offered if any of those securities are purchased. The applicable prospectus supplement will set forth the managing underwriter or underwriters, as well as any other underwriter or underwriters, with respect to a particular underwritten offering of securities, and will set forth the terms of the transactions, including compensation of the underwriters and dealers and the public offering price, and any discounts or concessions allowed or re-allowed or paid to dealers, if applicable. The prospectus and the applicable prospectus supplement will be used by the underwriters to resell the securities.

If a dealer is used in the sale of the securities, we, a selling securityholder, or an underwriter will sell the securities to the dealer, as principal. The dealer may then resell the securities to the public at varying prices to be determined by the dealer at the time of resale. To the extent required, we will set forth in the prospectus supplement the name of the dealer and the terms of the transactions.

[Table of Contents](#)

We or a selling securityholder may directly solicit offers to purchase the securities and we or a selling securityholder may make sales of securities directly to institutional investors or others. These persons may be deemed to be underwriters within the meaning of the Securities Act with respect to any resale of the securities. To the extent required, the prospectus supplement will describe the terms of any such sales, including the terms of any bidding or auction process, if used.

Agents, underwriters and dealers may be entitled under agreements which may be entered into with us to indemnification by us against specified liabilities, including liabilities incurred under the Securities Act, or to contribution by us to payments they may be required to make in respect of such liabilities. If required, the prospectus supplement will describe the terms and conditions of such indemnification or contribution. Some of the agents, underwriters or dealers, or their affiliates may be customers of, engage in transactions with or perform services for us or our subsidiaries in the ordinary course of business.

Under the securities laws of some states, the securities offered by this prospectus may be sold in those states only through registered or licensed brokers or dealers.

Unless otherwise specified in the applicable prospectus supplement, each class or series of securities will be a new issue with no established trading market, other than the common stock, which is principally listed on Nasdaq. We may elect to list any other class or series of securities on any exchange, but we are not obligated to do so. It is possible that one or more underwriters may make a market in a class or series of securities, but the underwriters will not be obligated to do so and may discontinue any market making at any time without notice. We cannot give any assurance as to the liquidity of the trading market for any of the securities.

Any person participating in the distribution of common stock registered under the registration statement that includes this prospectus will be subject to applicable provisions of the Exchange Act, and the applicable SEC rules and regulations, including, among others, Regulation M, which may limit the timing of purchases and sales of any of our common stock by any such person. Furthermore, Regulation M may restrict the ability of any person engaged in the distribution of our common stock to engage in market-making activities with respect to our common stock. These restrictions may affect the marketability of our common stock and the ability of any person or entity to engage in market-making activities with respect to our common stock.

Certain persons participating in an offering may engage in over-allotment, stabilizing transactions, short-covering transactions and penalty bids in accordance with Regulation M under the Exchange Act that stabilize, maintain or otherwise affect the price of the offered securities. If any such activities will occur, they will be described in the applicable prospectus supplement.
