Pilgrim's Pride Closes Fiscal Year 2015 with an Operating Income of \$1.04 Billion and a Margin of 12.8%, Confirming Benefits of Portfolio Strategy

GREELEY, Colo., February 10, 2016 (GLOBE NEWSWIRE) - Pilgrim's Pride Corporation (NASDAQ: PPC) today reported fiscal year 2015 financial results with Net Sales of \$8.18 billion, Net Income of \$645.9 million, and an Adjusted Earnings Per Share of \$2.60. For fiscal year 2014, Net Sales was \$8.58 billion, Net Income was \$711.6 million, and Adjusted Earnings Per Share was \$2.96, respectively. The company generated \$1.21 billion of adjusted Earnings Before Interest, Taxes, Depreciation and Amortization ("EBITDA") in 2015, or a 14.9% margin, compared to \$1.35 billion, or a 15.8% margin, in the year before, demonstrating a consistent solid year-on-year performance despite a much softer market environment.

For the fourth quarter of 2015, Pilgrim's recorded Net Sales of \$1.96 billion, compared to \$2.11 billion for the same period in 2014. Fourth quarter 2015 Net Income was \$63.1 million compared to the \$167.2 million reported in the prior year. Adjusted Earnings Per Share was \$0.26 in the fourth quarter of 2015 compared to \$0.83 in the same period last year, while adjusted EBITDA was \$150.0 million last quarter, or a 7.7% margin, versus \$367.8 million, or a 17.4% margin, for the same period a year ago.

"Our case ready and small bird operations continued to deliver strong results in spite of challenges in the export markets, while the weakest chicken cutout in the past five years continued to impact the commodity segments of our business, as well as our Mexico operations. Despite the headwinds, our team managed to deliver margins that are above periods when prices were at similar levels. Our performance is commendable and strongly validates the benefits of our strategy," stated Bill Lovette, Chief Executive Officer of Pilgrim's.

"The implementation and execution of our portfolio model over the past five years are critical in supporting our ability to deliver stronger profitability while giving more consistent financial results, as we minimize the impact of specific market conditions in any given segment or geography. For example, as part of this operating strategy, in Fresh Chicken we are able to leverage our well-balanced mix of bird sizes to support key customers' needs while in prepared foods, we could utilize our well-regarded Pierce brand to lead our efforts in building and solidifying relationships at key accounts."

"During 2015, we paid out \$1.5 billion in special dividend, acquired additional Mexican operations to improve our geographic diversification and competitiveness in one of the strongest emerging markets, and repurchased \$99.2 million in shares, signifying our commitment to maximizing shareholder value creation while remaining financially disciplined."

"Our cash flow generation was strong and our team remained relentless in identifying additional methods to increase operational efficiencies, enhance relationships with key customers, and build competitive advantages. To further support these initiatives and maximize return on capital, we have approved a targeted capital spending deployment for 2016, which enhances our growth prospects, improves our ability to partner with key customers and

supports their growth. Additionally, our team has identified \$185 million in operational improvements for 2016, to build on the over \$1.0 billion in cumulative improvements we have made to the business in the last five years. We are committed to reinvesting our strong cash flow generation back into the business with the goal of more closely aligning with this strategy and optimizing our capital allocation, while remaining on track on the relentless pursuit of operational excellence.”

Selected Financial Information

(Unaudited)

“EBITDA” is defined as the sum of net income (loss) plus interest, taxes, depreciation and amortization. “Adjusted EBITDA” is calculated by adding to EBITDA certain items of expense and deducting from EBITDA certain items of income that we believe are not indicative of our ongoing operating performance consisting of: (i) income (loss) attributable to non-controlling interests, (ii) restructuring charges, (iii) reorganization items, (iv) losses on early extinguishment of debt and (v) foreign currency transaction losses (gains). EBITDA is presented because it is used by management and we believe it is frequently used by securities analysts, investors and other interested parties, in addition to and not in lieu of results prepared in conformity with accounting principles generally accepted in the US (“GAAP”), to compare the performance of companies. We believe investors would be interested in our Adjusted EBITDA because this is how our management analyzes EBITDA. The Company also believes that Adjusted EBITDA, in combination with the Company’s financial results calculated in accordance with GAAP, provides investors with additional perspective regarding the impact of certain significant items on EBITDA and facilitates a more direct comparison of its performance with its competitors. EBITDA and Adjusted EBITDA are not measurements of financial performance under GAAP. They should not be considered as an alternative to cash flow from operating activities or as a measure of liquidity or an alternative to net income as indicators of our operating performance or any other measures of performance derived in accordance with GAAP.
